Dear Sir:

[redacted] informed me on November 4, 1940, that he was listening to a program broadcast at 8:30 P. M., on Sunday, November 3, 1940 over local station WAPI, which program was apparently sponsored by the American First Committee, with offices in the Board of Trade Building, Chicago.

[redacted] stated that this was an interview program which represented a person interviewing various individuals, representing a farmer in Minnesota, an automobile worker in Detroit, and a general worker in Los Angeles, etc. [redacted] stated that the questions asked on this program relative to the war and particularly with reference to our attitude toward Great Britain, and the answers given, indicated to him that it was a Nazi inspired program and he thought might be part of German propaganda in this country.

The above is submitted for the information of the Bureau in the event the Bureau desires the Chicago office to make any inquiry.

Very truly yours,

Re: AMERICA FIRST COMMITTEE
INTERNAL SECURITY

Dear Sir:

Reference is made to the letter from the Chicago Field Division dated November 9, 1940, which reflects that the America First Committee has sponsored programs over the radio which possibly indicated they are a form of German propaganda.

Reference is also made to the letter from the Miami Field Division to the Bureau dated November 13, 1940 with which were transmitted three cards which respectively indicated the principles of the America First Committee and a card soliciting contributions for this organization. It is noted that the Miami Field Division is having an investigation conducted of this organization to ascertain its background and activities and that [redacted] is likewise being investigated by the Miami Field Division.

b7c

It is desired that the Chicago Field Division conduct appropriate investigation at Chicago, Illinois, which is reflected to be the national headquarters of the America First Committee, to determine the purpose, activities and officers of this organization.

The Chicago Field Division is designated as the office of origin in this case.

Very truly yours,

Principles of the

AMERICA FIRST COMMITTEE

The America First Committee is a non-partisan organization of loyal and patriotic American citizens who believe

1. The United States must build an impregnable national defense.
2. No foreign power nor group of powers can ever successfully invade a *prepared* America.
3. Our government's sending *more of* its own ships, planes and materials of war to a belligerent overseas, dangerously weakens our defense at home and threatens to involve America in war abroad.
4. Our American democratic liberties can only be preserved by *keeping out* of foreign war—in Europe or in Asia.

MEMORANDUM FOR MR. TOLSON

With reference to the item which appeared in Evelyn Peyton Gordon's column in the Washington Daily News on December 12th, stating that Ted Wingo would handle publicity for the American First Committee, I wish to advise that in a conversation with Mr. Wingo I mentioned that I had seen where he had taken on another job. He stated that was not correct, that he had been talking to Mrs. Gordon before the meeting and had told her that Bill Castle had asked him to attend the meeting and to assist in publicity. He stated that he did attend the meeting. However, he did not agree to take on publicity.

He stated that only recently one Sidney Herzberg has been appointed National Publicity Director for the America First Committee with offices in the Board of Trade Building in Chicago. Heretofore Herzberg has put out a mimeographed sheet "Uncensored" which has had rather wide distribution.

At the meeting referred to in Mrs. Gordon's column, Former Undersecretary of State Castle made the statement that if we go to war then everyone in attendance who is a member of America First Committee should forget about the movement, that they are not against giving aid to England but that they were in favor of maintaining a strict cash and carry policy, a strict policy of neutrality, building adequate defense and that they would not tolerate any Communists or Fascists in the group.

Respectfully,

Washington Society Leaders Organizing 'America First' Unit

By EVELYN PEYTON GORDON

"There is nothing so secure as a settled mnd." That's what Genevieve Champ Clark Thomson, sister of Sen. Bennett Champ Clark, says, and that's about right. Genevieve was discussing the condition of the American mind today.

At least that's what her sister-in-law, Mrs. Bennett Clark, said yesterday when she spoke to more than a hundred people who had met at the home of former Undersecretary of State William R. Castle.

Mr. Wm. R. Castle

Those people, capitalists, labor union members, Democrats, Republicans, authors and one orchestra leader, were meeting to hear the story of "America First." An organization which started some time ago and which seems to be growing by leaps and bounds. It was from Mrs. Burton K. Wheeler, wife of Montana's Senator, that I first heard of "America First." That was last summer.

Since then, chapters of the movement have sprung up in many cities. And now the Capital has its own chapter. It is an organization to keep this country out of war.

"It's not "anti" anything. It's not "pro" anything, either, except American," said Mr. Castle as he opened the meeting in the oak-panaled library of his home. "We'll welcome any American as a member unless he is a Communist or Fascist and then he is not a real American. We're trying to keep out of this war and to build a big defense."

Among the people who went to hear what the organization is about were Alice Roosevelt Longworth, Mrs. Robert Knowlton, Mrs. Charles Lea, Mrs. Emil Hurja, Mrs. Dolly Gann—under the same roof with her one-time protocol-enemy, Alice Longworth; unity, I calls it! Also Mrs. Thad Brown and Katrina McCormick Barnes. Coughlin of Ruth Hurja

Mrs. Burton Wheeler

R. Douglas Stuart Jr. of Chicago, national director of "America First," asked: Has America an inferiority complex? Have Americans confidence in America to withstand invasion? Or are we influenced by the propaganda. "If Germany eats Christmas dinner in England, Germany will sup in America on July Fourth."

Mrs. Bennett Clark senses "frayed and tattered feelings in Washington since the election." She believes that no matter what our personal disillusionments we should "look to our own destiny and keep our hearts and our minds here."

Mrs. Burton Wheeler, has accepted the job of treasurer of the local chapter. "And I'm glad to be able to do that. Naturalized citizens of this country are far more aware of their privilege than we native-born Americans are. I accept with pleasure the office and hope the work is hard."

Mrs. Bennett Clark

There's an advisory committee for the Washington chapter of "America First" composed of Mr. Castle, Mrs. Clark, Mrs. Wheeler, Kathryn Lewis, daughter of John L. Lewis and Mrs. Longworth. No chairman has yet been named, but Mrs. Frank Simonds has been chosen secretary; Mrs. Wheeler, treasurer. Mrs. Frank West, Pete Macias and Emil Hurja are on the membership committee. Katrina McCormick Barnes is on the finance committee with Clarence Hewss and Mrs. Emil Hurja. And for publicity there's Ted Wingo, Mrs. Edmund Pavenstadt, and Frank Hannigan.

Dr. George H. Whipple

The principles for which this group stands, as announciated by the Committee in its literature are as follows:

1. The United States must build an impregnable national defense.

2. No foreign power nor group of powers can ever successfully invade a prepared America.

3. Our government's sending more of its own ships, planes and materials of war to a belligerent overseas, dangerously weakens our defense at home and threatens to involve America in war abroad.

4. Our American democratic liberties can only be preserved by keeping out of foreign war — in Europe or in Asia.

Lawrence M. C. Smith, Chief, Neutrality Laws Unit, furnished to the Bureau under date of January 17, 1941, a memorandum concerning the America First Committee which had been furnished to him by [redacted] b7c b7D containing the following information.

It was stated it is notable that in spite of the professions for strong national defense by the sponsors of the America First Committee, many of them were conspicuous for their activities against the selective draft and against aid to Britain. It is alleged that Mrs. Burton K. Wheeler was representing Senator Wheeler, and Miss Katherine Lewis, while representing her father, John L. Lewis, was also representing her own strongly fellow-traveler views.

Burton K

It was stated that both Senator Wheeler and John L. Lewis had connecting ties with the pacifist radical monthly, "Equality". In the September number, which was aimed against preparedness and against the draft, there was an article on "Defend America First" by Senator Wheeler and an article by John L. Lewis against conscription.

In the same number, there was reportedly an article by [redacted] urging leaders to attend the Communist-inspired Peace Demonstration in Chicago, to be held September 1 and 2.

It was further alleged that [redacted] of the Women's International League for Peace and Democracy, reputed to be an able lobbyist, was a tie-in of the pacifist organization which she represented, with the America First Committee. She, together with Senator and Mrs. Wheeler, helped to line up General Wood with the America First Committee last summer.

[redacted] is reported to help finance and to work along with [redacted] on a mimeographed sheet called "Uncensored". It will be reflected hereafter that [redacted] has made various speeches, appearing on numerous programs for the America First Committee.

b7c

[redacted] was stated to be one of the most active workers and one of the best lobbyists for the America First Committee.

[redacted] has been in conference with [redacted] recently and is considered one of the moving persons in the America First Committee group.

Charles

It is further alleged that news venders of Father Coughlin's "Social Justice" in New York City now wear America First buttons, and when asked as to where the buttons might be secured, they refer the inquirer to the America First office in the Chicago Board of Trade, adding at the same time, that America First literature can also be secured there. They also recommend the last number of Scribners-Commentator.

The America First Committee is opposed to the William Allen White Committee and is beginning to snipe at well-to-do members of the various William Allen White Committees. They are not only going after those who might have some sympathy for their program, but also after some

of those who already are on record as having no sympathy with it whatever. They are not using a stereotyped appeal, but are addressing a personal letter couched in language which would aim to persuade even a mild anglophile to make them a contribution.

[redacted] in a lecture at the Community Forum at Pittsburgh, held in the Schenley High School Auditorium on November 18, 1940, on the subject "Freedom in a World at War" viciously denounced the America First Committee as being composed of "Fascist elements".

[redacted] is reported to have held meetings of the America First Committee in his home which, to all appearances, seems to serve as the offices for the Washington chapter of this group. [redacted] is also supposed to be contributing largely to the funds for this group.

At a meeting held in [redacted] home in the latter part of December, 1940, Mrs. Frank Simonds was chosen as Secretary, Mrs. Burton K. Wheeler as Treasurer, Mrs. Frank West, Pete Macias and Emil Hurja as the Membership Committee, and Mrs. Emil Hurja, Clarence Mewss and Katrina McCormack Barnes constitute the Finance Committee.

Sidney Herzberg has been appointed National Publicity Director for the America First Committee. Heretofore, Herzberg has been connected with the mimeographed sheet "Uncensored" which had rather a wide distribution.

The January 23, 1941 issue of the Washington Times-Herald carried an article to the effect that Miss Jassamine Hoagland, Executive Vice-President of the "Roll Call of American Women" came to Washington from the organization's national headquarters in Chicago, to present to the Illinois Congressmen a book containing the names of the 11,000 members who protested the passage of the Lend-Lease Bill and America's entry into the European war. The article stated that the "Roll Call" was organized six months ago to express the opposition of women to America's entry into the war and last month (December, 1940) this group merged its membership

with the America First Committee.

The officers of the "Roll Call" are Miss Harriet E. Vittun, President, and Mrs. Margaret Ayer Barnes, Secretary-Treasurer, both of Chicago. Among the members of its National Council are Miss Jane Kagan, Mrs. Ben W. Swift and Mrs. Ora Snyder, also of Chicago.

The Times-Herald issue of January 23, 1941, also carried an article to the effect that according to Mrs. Bennett Champ Clark, Chairman of the Washington chapter of the America First Committee, this group would hold a mass meeting in the National Theater on Sunday (January 26). Speakers on the program were listed as John T. Flynn, columnist, lecturer and economist, Mrs. Robert A. Taft, wife of the Ohio Senator, and former Governor Phillip LaFollette of Wisconsin.

The New York Times issue of January 28, 1941, contained an article to the effect that advertisements appearing in the morning newspapers announced the formation of a New York chapter of the America First Committee, headed by General Robert E. Wood. The advertisements called for opposition to the Lend-Lease Bill, calling it a "war dictatorship" measure.

Among members of the New York chapter listed were Edwin S. Webster, Jr., senior member of the Wall Street firm of Kidder, Peabody and Company, Colonel Theodore Roosevelt, Dorothy Dunbar Bromley, John T. Flynn, Archibald B. Roosevelt and Amos R. E. Pinchot.

Respectfully submitted,

A telephone call was referred to me from the Director's office from [redacted] who identified herself as being with the America First Committee. She advised that a [redacted] who claimed to be with the American Civic Alliance had called at the America First Committee's headquarters offering his cooperation. [redacted] requested that she be furnished any information available in the Bureau relative to [redacted] or the American Civic Alliance. Error About Actor Denny Corrected

The erroneous announcement that Reginald Denny, film actor, would be master of ceremonies at a mass meeting sponsored by the America First Committee next Monday night at Philharmonic Auditorium was made "inadvertently."

This was announced today by Attorney John Wheeler, chairman of the America First Committee branch here and son of United States Senator Burton K. Wheeler.

"However," John Wheeler added, "Mr. Denny is misinformed as to the nature of the America First Committee and its purpose when he says it 'feels that Britain should be left at the mercy of the totalitarian states.'

"The America First Committee stands for the creation of an impregnable defense for the United States. It is against the weakening of these defenses in any way. It is not against aid to Britain so long as the aid is within the limits of exsting laws. The organization is against the lease-lend bill because it would impair the defenses of the United States and create a dictatorship in this county."

Senator Rush Holt of West Virginia will be principal speaker at the Monday night meeting.

Dem. Club Told 'It's Not for Defense

John Wheeler Flays FDR Lease, Lend Bill

President Roosevelt's lend-lease bill is "not for the defense of the United States," it was declared today by John L. Wheeler, chairman of the America First Committee of Los Angeles and son of United States Senator Burton K. Wheeler of Montana, leading opponent of the bill.

At least no clear statement has been advanced to the people why this bill should be enacted, said Wheeler in a talk before the Democratic Luncheon Club.

"No answer has been given to the question as to what we could do to aid Britain short of war under this bill that we cannot do under existing law," he said.

COULD HELP RUSSIA

Wheeler pointed out that the bill gives power to the President to transfer to any government any defense articles by sale, lending, lease or gift, which he may see fit.

"The transfer might be to Russia or Abyssinia or any other country," the speaker said.

"Let us look at America first and at our own problems," Wheeler said. "Let us not be the financial resource of any other country."

REPLIES TO WHEELER

A reply to Wheeler was made by Maurice Saeta, who managed the presidential primary campaign for President Roosevelt in Los Angeles last year.

Saeta declared he believed the bill to be "absolutely necessary."

"I grant you that it is very broad and comprehensive, but so is the emergency we are confronting," he said. He added it was necessary to select someone to make decisions in present crisis and asked "Is there anyone more logical to give this power to than to the President, the commander-in-chief of our Army and Navy under the Constitution."

MEMORANDUM

[redacted]

A newspaper clipping which appeared in the Los Angeles Herald Express on February 6, 1941, indicates that Mr. Reginald Denny, film actor, who had been previously advertised as the master of ceremonies at a mass meeting to be sponsored by the America First Committee, would not in fact attend this meeting. It will be noted that Senator Rush Holt, of West Virginia, was advertised as being the principal speaker at this meeting. In this connection, Miss [redacted] advised an Agent of this Bureau that Mr. Denny stated he had refused the offer to appear at the contemplated meeting upon discovering the America First Committee was anti-British.

ON FEBRUARY 3, 1941, [redacted] INFORMED SPECIAL AGENT [redacted] THAT HE HAD ATTENDED A GROUP MEETING OF VETERANS OF FOREIGN WARS AT VINCENNES, INDIANA, ON THE EVENING OF FEBRUARY 1, 1941. A SPEAKER BEFORE THE GROUP WAS ONE MCCARTHY, FIRST NAME UNKNOWN, BUT WELL KNOWN IN CINCINNATI AND CONNECTED WITH THE VETERANS OF FOREIGN WARS AT NORWOOD, OHIO. MCCARTHY IS SAID TO SPEAK OCCASIONALLY ON RADIO PROGRAMS IN THE GIBSON HOTEL, CINCINNATI.

DURING HIS TALK, MCCARTHY STRESSED THE POINT THAT THE UNITED STATES SHOULD DO ABSOLUTELY NOTHING TO ASSIST GREAT BRITAIN IN HER PRESENT STRUGGLE AGAINST THE AXIS POWERS, HE CONDEMNED THE BRITISH FOR THEIR ATTITUDE IN THE PAST TOWARD THE UNITED STATES AND DURING THE COURSE OF HIS TALK HE MENTIONED IN SOMEWHAT COMPLIMENTARY TERMS THE ORGANIZATION, AMERICA FIRST, INC. HE DID NOT ATTACK THE UNITED STATES IN ANY WAY AND DID NOT ESPECIALLY MAKE ANY PRO-NAZI UTTERANCES BUT AS INDICATED ABOVE HIS TALK WAS PARTICULARLY ANTI-BRITISH. HE LEFT THE IMPRESSION THAT HE PARTICULARLY FAVORED SUCH AN ORGANIZATION AS AMERICA FIRST, INC., ALTHOUGH HE DID NOT DEFINITELY STATE THAT HE WAS IN ANY WAY CONNECTED WITH THAT ORGANIZATION. THE ONLY INFORMATION CONTAINED IN THE FILES OF THE INDIANAPOLIS FIELD DIVISION CONCERNING AMERICA FIRST, INC. IS CONTAINED IN A MEMORANDUM ON SUBVERSIVE ORGANIZATIONS IN THE UNITED STATES SENT OUT TO THE VARIOUS FIELD DIVISIONS AND THE BUREAU BY THE CHICAGO FIELD DIVISION BY LETTER DATED NOVEMBER 27, 1939. A COPY OF THIS LETTER IS FURNISHED THE CINCINNATI OFFICE FOR ITS INFORMATION AND ASSISTANCE SHOULD THE BUREAU DESIRE FURTHER INQUIRIES MADE WITH REFERENCE TO THE IDENTITY AND ACTIVITIES OF SPEAKER MCCARTHY.

TITLE
AMERICA FIRST COMMITTEE

CHARACTER OF CASE
INTERNAL SECURITY (C)

SYNOPSIS OF FACTS:

America First Committee is set up in opposition to William Allen White Committee. It believes in - (1) impregnable defense for the United States; (2) that United States should not become involved in the European war; (3) enforcement of Johnson Act and Neutrality Act. They are disseminating literature supporting these principals. General ROBERT E. WOOD, Chairman, Board of Directors, Sears Roebuck & Company, is acting chairman, and other officers are mostly nationally known persons who are deemed patriotic. Citizens Keep America Out of War Committee was formed by AVERY BRUNDAGE, who was formerly with America First Committee. This latter committee follows same principals as America First Committee except they are believed by some to be anti-semitic in views. Both committees favor aid to Great Britain and have denounced Communism, Nazism, and Fascism.

DETAILS: AT CHICAGO, ILLINOIS

The following are the principals and objectives of the America First Committee as taken from their literature.

b7C

[redacted] of the Solicitation Division, Chicago Better Business Bureau, furnished the following information taken from one of his reports concerning the America First Committee located in room 1806, Board of Trade Building, Chicago, Illinois.

"This is in response to your recent inquiry. The America First Committee was incorporated under the Not For Profit laws of the State of Illinois on September 19, 1940. The purposes as outlined in its charter are to encourage and maintain in the United States of America (1) peace and the democratic ideal; (2) a program of adequate defense; and (3) in furtherance of peace on this continent, a policy of non-intervention in the affairs of other continents; and to encourage the giving of help to refugees and the needy in other lands insofar as such help does not endanger the maintenance of peace in the United States.

We are advised that the organization employs no paid solicitors and is financed solely by voluntary contributions by those who desire to support its ideas. The officers are: ROBERT E. WOOD, Acting Chairman; R. DOUGLAS STUART, Secretary and Director in active charge of the Committee's work; and J. SANFORD OTIS, Treasurer."

b7C

[redacted] stated that in his opinion all of the persons connected with the America First Committee are nationally known persons who are considered to be patriotic Americans.

b7C
b7D

[redacted] produced their file concerning the America First Committee, which contained the following information:

On October 21, 1940 BOAKE CARTER was sponsored in a transcription program over station WMAC by the America First Committee. In this broadcast CARTER explained that the committee was dedicated to aid America first and later to aid Britain. Following the transcription the announcer suggested that the listeners write their congressmen and senators demanding they

prevent the United States intervention into the war and that they arm America before aiding Britain, and also requesting that they recommend sending in anything from dimes to dollars to the America First Committee, Board of Trade Building, Chicago.

In a report in this same file dated November 22, 1940, it was indicated that COLONEL LINDBURGH and AVERY BRUNDAGE, who formerly were with the America First Committe, were no longer with that organization.

b7C
b7D

[redacted] stated that he believes the persons in back of the America First Committee were entirely patriotic and that the committee was set up in opposition to the propaganda being disseminated by the William Allen White Committee. He stated that at the time this organization started COLONEL LINDBURGH was very close to COLONEL McCORMICK of the Chicago Tribune and through this relationship the Chicago Tribune has backed the America First Committee. On October 31, 1940 the America First Committee had a full page ad entitled "Peace or War" in the Chicago Tribune.

[redacted] stated also that [redacted] has been attempting to convince COLONEL McCORMICK that the Communistic element in the United States is a much more serious problem than anyone realizes, and in this connection it is the belief of [redacted] that [redacted] is of the opinion that all Jews are Communists and all Communists are News. He stated that [redacted] has considerable influence with COLONEL McCORMICK and that apparently many of his policies have apparently been adopted by the America First Committee. [redacted] stated that in his belief the America First Committee is not involved in any subversive activities whatsoever.

[redacted] stated that in his opinion the America First Committee is entirely patriotic but that some of the members are what he terms "reactionaries". He believes, however, that all of the persons backing this organization are sincere in their beliefs that the foreign policy of the administration is leading us to war and they desire to prevent this country from getting involved in war. [redacted] stated the committee

has apparently a very tremendous source of income, and although as yet they have no association with any known subversive organization, there is the danger of such an association because of their standing - keeping America out of war which is a common ground for most subversive groups.

b1C
b1D

[redacted] advised that the America First Committee was started by GENERAL WOOD, in cooperation with the other members of the committee, and that although the committee's viewpoints in connection with the United States' present policy in foreign affairs is different from that of the administration, he is of the opinion that the committee originally had a few persons in charge who were what he terms "left wingers", and, according to him, are not to be considered Communistic. He stated that one of these persons was [redacted] and is what [redacted] terms a known "pink". [redacted] stated that because of these few persons which were connected with the America First Committee, a disagreement resulted and WILLIAM J. GRACE, AVERY BRUNDAGE and W. H. REGNERY left the America First Committee to form the "Citizens Keep America Out of War Committee" located at 77 West Washington Street, Chicago, because they were against any sort of liberalism expressed by some members of the America First Committee which they determined to be "pink" in its nature.

[redacted] stated it is his belief the split was caused to a great extent by a clash of personalities; that he believes both organizations are entirely patriotic; that they have each denounced Communism, Nazism and Fascism on numerous occasions. He stated he is positive there has been no infiltration into either of these organizations by any subversive groups, although such a danger exists because both organizations are favoring the non-intervention into the European war, which is a common ground for all subversive groups. It is [redacted] opinion that both organizations are attempting to carry out the principals as set out in the literature published by them. [redacted] stated that the "Citizens Keep America Out of War Committee" is not anti-semitic and that they are not drawing any sort of a line between themselves and the Jews although they do not want any Jews in control of their organization. [redacted] further stated both organizations were actively conducting mass meetings to publicize their principals; that he

has kept close watch of these meetings and has not observed anything which he determined could be called un-American. Both of these organizations have the backing of all Chicago newspapers and they have received considerable publicity in connection with all of their meetings.

On December 18, 1940 the America First Committee sponsored a rally in Orchestra Hall, at which rally 3500 persons attended and several thousands were turned away. JOHN T. FLYNN, author and economist, was the principal speaker and spoke against what he termed a conspiracy to involve the United States in the war.

On December 20, 1940 the Citizens Keep America Out of War Committee sponsored a rally at the Auditorium Theatre, at which rally RUSH D. HOLT, U. S. Senator from Virginia, was the principal speaker. Senator HOLT assailed the movement which he stated was attempting to involve the United States in war, and further talked in support of the principals of the Citizens Keep America Out of War Committee.

These rallies above referred to were both given a tremendous amount of publicity in the Chicago newspapers, receiving front page space with large headlines.

In connection with the Citizens Keep America Out of War Committee, a copy of a report made by [redacted] who has been the subject of numerous reports to the Non-Sectarian League for Americanism, reflected that [redacted] had a conversation with [redacted] of the Citizens Keep America Out of War Committee, the result being that [redacted] stated that the committee is very anti-Jewish. This information, however, does not carry a great deal of weight inasmuch as numerous other reports made by [redacted] have been found to be incorrect.

The following is a list of the officers and directors of the America First Committee, with a brief summary as to their background:

Acting Chairman - GENERAL ROBERT E. WOOD,
925 S. Homan Avenue, Chicago.
Graduate of West Point and served many years as officer in the U. S. Army. He is presently Chairman of the Board of Directors of Sears Roebuck and Company.

National Director and Secretary - R. DOUGLAS STUART, JR. 141 W. Jackson Blvd., Chicago, Illinois. He is a graduate of Yale University and studied three years in the Yale Law School before terminating his study to become associated with the America First Committee. He is the son of R. DOUGLAS STUART of the Quaker Oats Company.

Treasurer - J. SANFORD OTIS, Vice-President of the Central Republic Bank of Chicago.

Board of Directors - HANFORD MAC NIDER, Mason City, Ia. Presently a banker; former National Commander of the American Legion; former Assistant Secretary of War - 1925 - 1928; served with the United States forces in France during the World War and was promoted to LT. COLONEL on May 6, 1919. Received Croix de Guerre - five citations. Also connected with various Civic organizations.

GENERAL THOMAS HAMMOND, retired U. S. Army officer; president of Whiting Corporation, manufacturers of cranes and foundry equipment, Harvey, Illinois; served with U. S. forces in World War; chairman of Republican Party in Illinois.

J. C. HORMEL, formerly with George A. Hormel & Company, packers, Austin, Minnesota.

CLAY JUDSON, attorney, 120 W. Adams Street, Chicago. Associated with the law firm of Wilson and McIlvaine; former president of Chicago Council of Foreign Relationships; member of Board of Trustees of United Charities, Chicago, and president of Board of Trustees Frances Parker School, Chicago, which is a well-known private school.

In addition to the above officers, the following are members of the America First National Committee:

DR. ANTON JULIUS CARLSON, Professor, University of Chicago. [redacted] stated that DR. CARLSON is a member of the Civil Liberties Union; that he has been to Moscow, U.S.S.R. to study and that he was

b7c

b1c

one of the salesmen to the United States for the recognition of Russia. [redacted] stated in his opinion DR. CARLSON is probably a loyal American but that he is slightly "pink". He further stated that DR. CARLSON is an international pacifist, which is probably the only reason DR. CARLSON is associated with this committee. [redacted] advised that in his opinion DR. CARLSON is the only member connected with the America First Committee that could be considered un-American in his views, as he is what is termed an "extremely liberal in his views". DR. CARLSON was a Lieutenant Colonel in the Sanitary Corps in October, 1917 and was with the A.E.F. from March to September, 1919.

WILLIAM R. CASTLE, JR., former Assistant Secretary of State; former Ambassador to Japan.

IRVIN S. COBB - nationally known speaker and author.

JANET AYER FAIRBANKS - active in cause of women sufferage and politics; former member of the executive committee of the Democratic National Committee; was a member of the Women's National Liberty Loan Committee during the World War; has written several books.

JOHN T. FLYNN - noted economist and writer - wrote "Country Squire in the White House".

HENRY FORD - automobile manufacturer.

GENERAL HUGH S. JOHNSON - nationally known retired Army officer.

ALICE ROOSEVELT LONGWORTH - nationally known political woman.

THOMAS N. McCARTER, Attorney General of New Hersey 1902 to 1907, which post he resigned to become president of the Public Service Corporation of New Jersey, which operates and controls nearly all of the gas,

electric and transportation utilities in New Jersey. Director of Chase National Bank, New York City; Federal Union Trust Company, Newark, N.J.; American Surety Company; American Super Power Corporation and United Gas Improvement Company.

CAPTAIN EDWARD RICKENBACKER - nationally known Austrian figure.

LOUIS J. TABER - nationally known for his work in connection with agricultural developments.

DR. GEORGE H. WHIPPLE - nationally known pathologist.

The following persons who are nationally known are also members of this Committee:

MRS. BENNETT CHAMP CLARK

BISHOP W. E. HAMMAKER

KATHRYN LEWIS

STERLING MORTON

EDWARD L. RYERSON, JR.

MRS. BURTON K. WHEELER

The information concerning the above persons was obtained from Who's Who in Chicago, 1931 edition, and Who's Who in America, 1931 edition. For the information of the Bureau and all offices receiving copies of this report, copies of the literature being disseminated by these organizations are being submitted with this report.

A PLATFORM TO WHICH EVERY AMERICAN CAN SUBSCRIBE

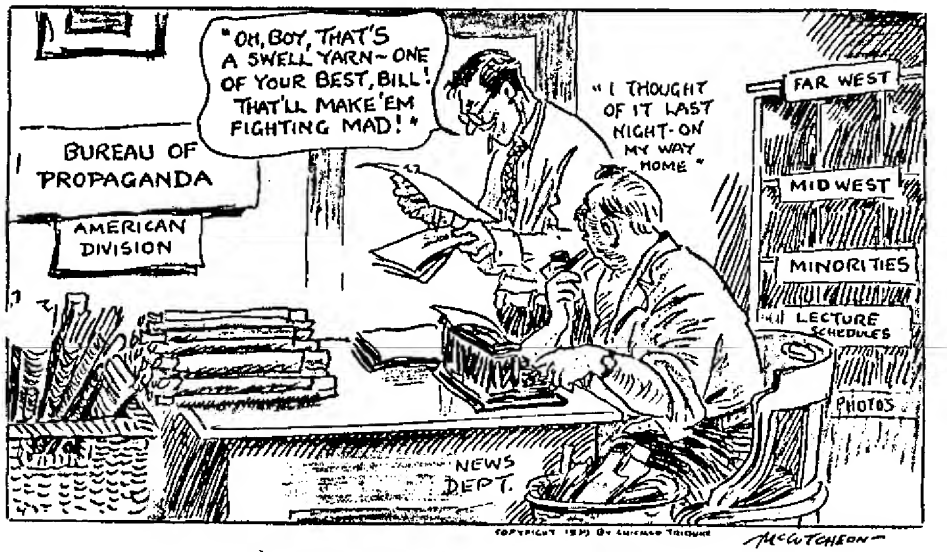
The America First Committee was formed by a group of citizens gravely concerned over our country's alarming drift toward war.

Every member shares the firm conviction that the preservation of American liberties and the future of democracy itself depend on keeping out of foreign wars.

NOTE: The principles of the America First Committee heartily approve all possible aid to Britain permitted under the provisions of the Neutrality Act, but we oppose aid beyond the limits of that Act, sometimes miscalled "aid short of war".

HOW TO TELL THE PROPAGANDA

If it makes you so mad you want to get into the war at once—



—just remember that's the very kind of stuff the clever propagandist is trying to send out.

In these critical weeks, the Interventionists lead us step by step closer to actual warfare—with its disastrous consequences, sure to affect the lives of every living American.

Now is the time when every citizen faces a tremendous responsibility to THINK STRAIGHT in a world gone mad with war—to MAKE THE WISE DECISION in a whirlwind of propaganda such as never before has confused the thinking of a neutral nation.

THE UNDERTOW WILL DO THE REST

The grim choice between Peace or War should be fairly and honestly placed before the people.

Instead the Internationalists have deliberately confused the issue with that flexible phrase "aid short of war."

The America First Committee gladly extends to Britain the tremendous facilities of our private production under the provisions of our Neutrality Act.

But we oppose shipment in American merchant vessels convoyed by American warships. This would not be aid short of war. It would be WAR!

WE'VE HAD EXCHANGE PROFESSORS—WHY NOT EXCHANGE PROPAGANDISTS?

British speakers are allowed to come here and fill us with their brand of 100 per cent British propaganda—— "Ladies and gentlemen—or may I say, fellow Anglo-Saxons! Civilization is facing its greatest test! Democracy stands at the barricades, breasts bared to defend all those nations which, like us, love peace and justice. We know your sympathies are with us and that you will cheer us on as we fight for the safety of your homes!"

Supposing American speakers from West of Long Island went over and tried to give the British some of our American brand of propaganda——

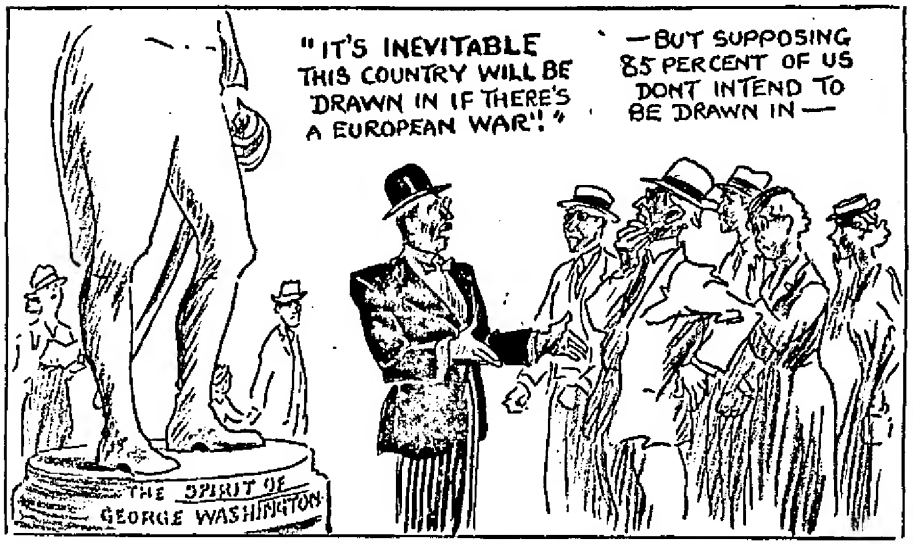
"Gentlemen—I note with interest that you always say civilization is in danger whenever you get into a war. That is not strictly accurate. As long as America keeps its senses and stays out of your European wars there will be a fair amount of civilization left—but not the kind we fought to save in the last big European war. We Americans remember that rescue very well. We remember the shocking ingratitude, the sickening disillusionments, not to mention other things, that the saving of civilization brought. We are keeping out of this war as the best way of saving our kind of civilization."

The leaders of the United States are trustees for the future of over 130,000,000 Americans. They must be realists, unswayed by our admiration and friendship for Britain or our hatred of Totalitarianism.

They must realize that the basic American democratic liberties, which the Interventionists tell us are at stake, would be instantly suspended and permanently threatened if we go to war.

The hope of Democracy throughout the world lies in a PEACEFUL America, strong and unafraid.

IT SHOULD BE MADE UNPOPULAR IN THIS COUNTRY—



—For war wishers to pave the way for—

—American entanglement in future wars.

The Interventionists have carefully built up the mistaken belief that our entry into the war is inevitable—that if we must fight sooner or later, we might as well fight now.

This is clever propaganda—but it is ridiculous when subjected to the light of reason.

If we enter this war, it will be because we CHOOSE to enter. No nation and no group of nations can ever successfully attack a PREPARED America. And they realize that fact!

THE BIG PARADE

The America First Committee believes that if we enter the war we will eventually win. But we will face the most difficult military problem in all history in attacking and conquering the forces of Germany and her allies on their own front.

The costs and consequences will be disastrous—human, social and material. There can be no true victors in such a war. The victors, as always, will be Death, Debt and Depression.

THE HIGH COST OF FOREIGN ENTANGLEMENTS

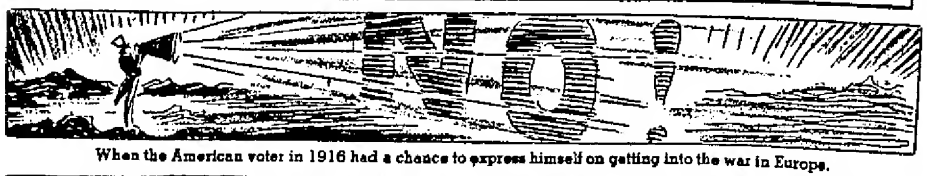
The last time we went to war for the ideals of democracy we got off lightly. But war settles nothing.

The spawn of that war was Communism, Nazism and Fascism. No less than eight distinct wars have arisen in Europe during the past twenty years to resettle the same eternal quarrels.

American costs of the last war now add up to one-quarter of our national debt. So that every one of us who pays Federal taxes—direct or indirect—is still paying for the *last* war.

THE WAY THE AMERICAN PEOPLE ALWAYS HAVE VOTED

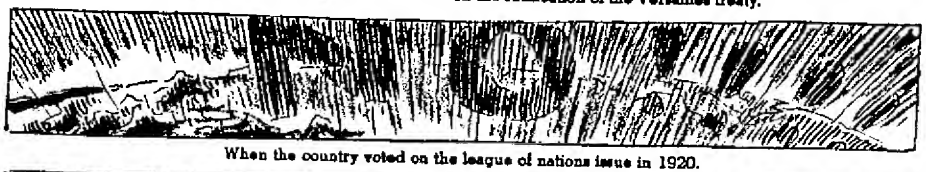
and the way they would undoubtedly vote today if given the chance.



When the American voter in 1916 had a chance to express himself on getting into the war in Europe.

When the United States senate voted on entangling our country in an Anglo-French-American alliance.

When the United States senate voted on the ratification of the Versailles treaty.



When the country voted on the league of nations issue in 1920.

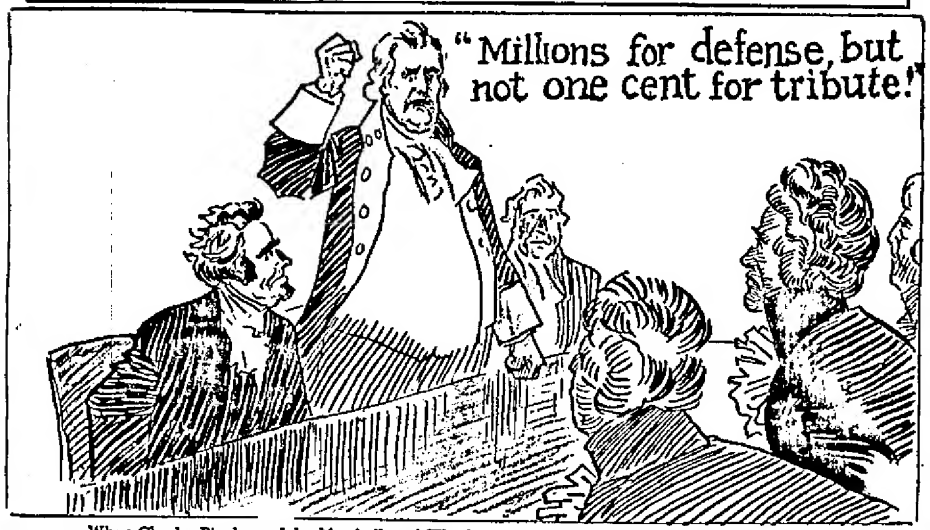
When our Interventionists tried to entangle the U. S. still further in Europe by keeping American troops on the Rhine.

And if congress ever votes to send American men to fight in Europe again, it will be in defiance of the profound convictions of an overwhelming majority of our people.

The great majority of the American people do not want this war. They do not believe that the mission of America is to police the world. They do not think that we are called upon to enforce our ideas on other peoples by force of arms.

Good Americans know our job is here at home—to strengthen and improve the working of our own democracy. And when Peace comes, a strong, healthy America will be the sole hope of a war-torn world.

MOTHER'S DAY



When Charles Pinckney, John Marshall, and Elbridge Gerry were sent as American ambassadors to protest to France against unjust treatment on the high seas, Ambassador Pinckney used these ringing words to Foreign Minister Talleyrand.

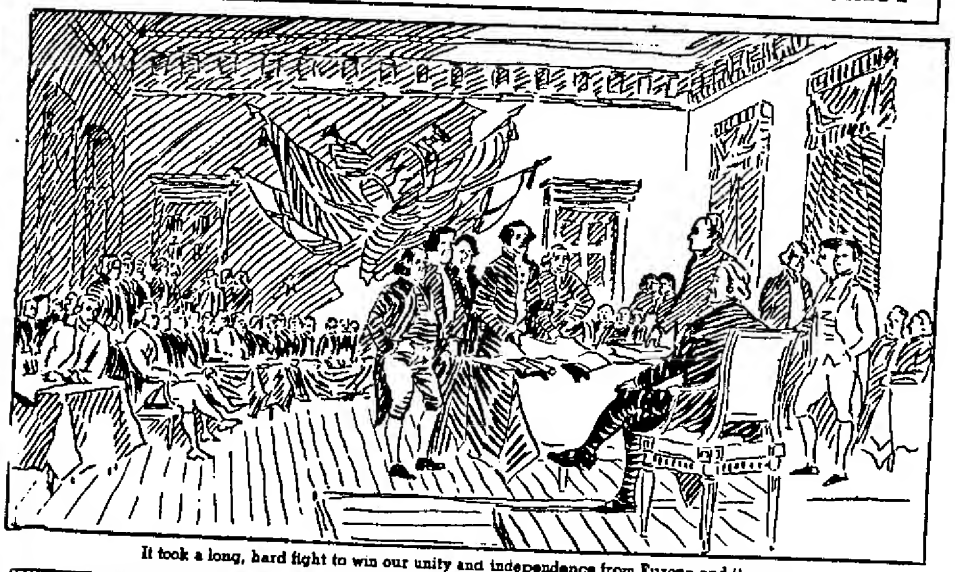
Today the overwhelming majority of American mothers will paraphrase those historic, undying words.

The Interventionists try to delude us with the promise that even if their efforts bring us into the war, there will be no A. E. F.—that planes and ships and other tools of war will be enough.

That was the promise last time. It was false then. It is false today.

When the United States goes to war, it goes in to win. A deadlock will never satisfy us. We will want a decisive victory. And that means men as well as machines—men enough to destroy the most powerful military machine ever developed, entrenched upon a continent 3,000 miles away.

INDEPENDENCE DAY SHOULD BE A DAY OF NATIONAL UNITY



It took a long, hard fight to win our unity and independence from Europe and its wars.

Can we retain our unity and our independence when there is a small, but active, minority striving to get the nation back into Europe and its wars?

We must all realize that even the most ardent Interventionist will not promise us that *this* war will be the last one.

Should we become involved in war, we also find ourselves involved in the unending aftermath. We shall be a part of the explosive quarrels that spring up with clock-like regularity after the Peace Treaty is signed.

Let us unite in our adherence to the time-honored American policy of Independence of Europe and its affairs.

WHICH IS THE BEST WAY OF SECURING NATIONAL UNITY—

—let the 86 per cent go over and join the 14 per cent?

—or let the 14 per cent go over and join the 86 per cent?

For many months that small minority of Americans, eager to have us go to war regardless of the costs, had things their own way.

They bombarded the public through the press and over the radio with their hysterical arguments. They made those who differed with them feel like a small, voiceless and ineffective group.

But now the America First Committee is giving a voice to the many millions of loyal and patriotic Americans who believe we must keep out of war. We are the majority!

A BIG NO STORM IN WASHINGTON

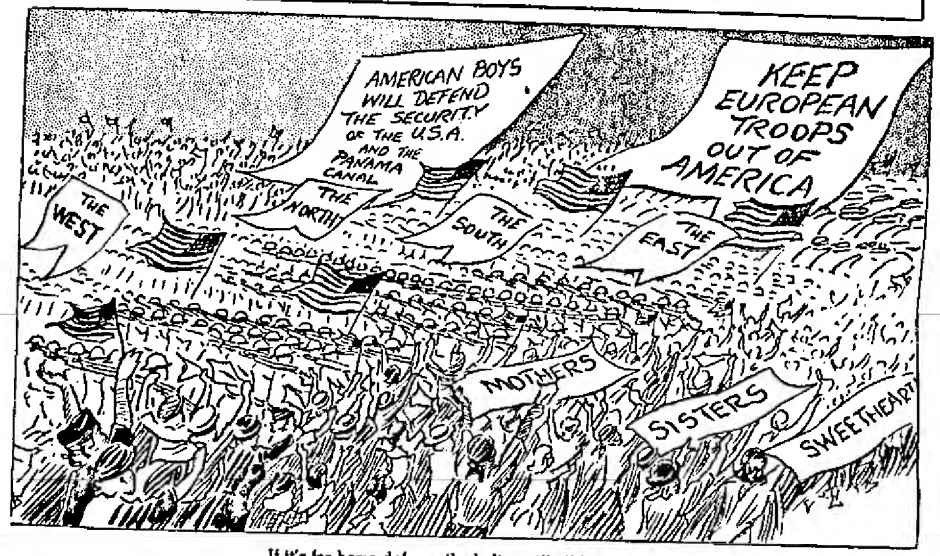
The Country Doesn't Seem to Want That Kind of Saving.

Perhaps the most important objective of the America First Committee is to consolidate that great mass of American public opinion that stands firmly opposed to involvement in the present war.

Letters and telegrams from good citizens in every one of the United States are pouring into Washington—addressed to Congress and the Administration.

So the will of the people is becoming unmistakable—a clear-cut mandate for Peace.

AN UNJITTERED PORTRAYAL OF THE NATIONAL SITUATION



If it's for home defense the ladies will all be rooting.

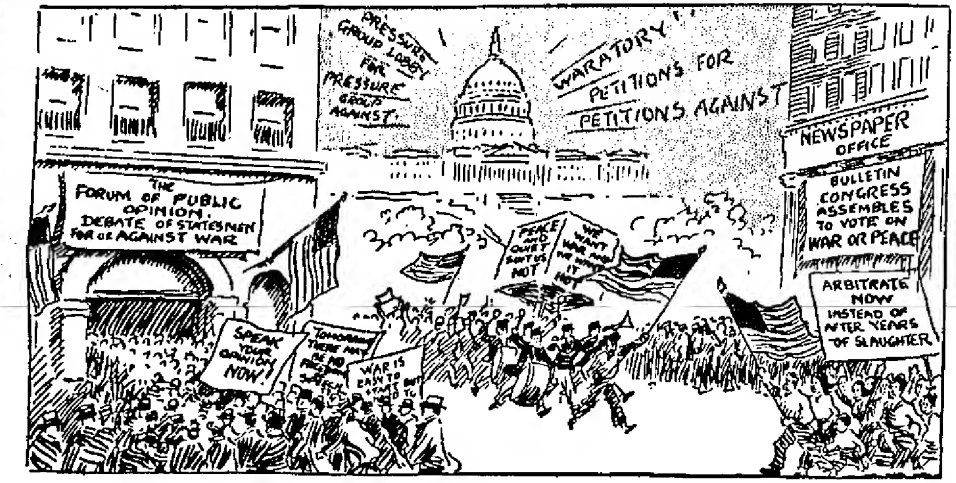
If it's for the defense of other nations 3,000 miles away, a sensational restraint of rooting.

The President of the United States stands ready to carry out the will of the people. The Congress is in Washington to enforce your wishes.

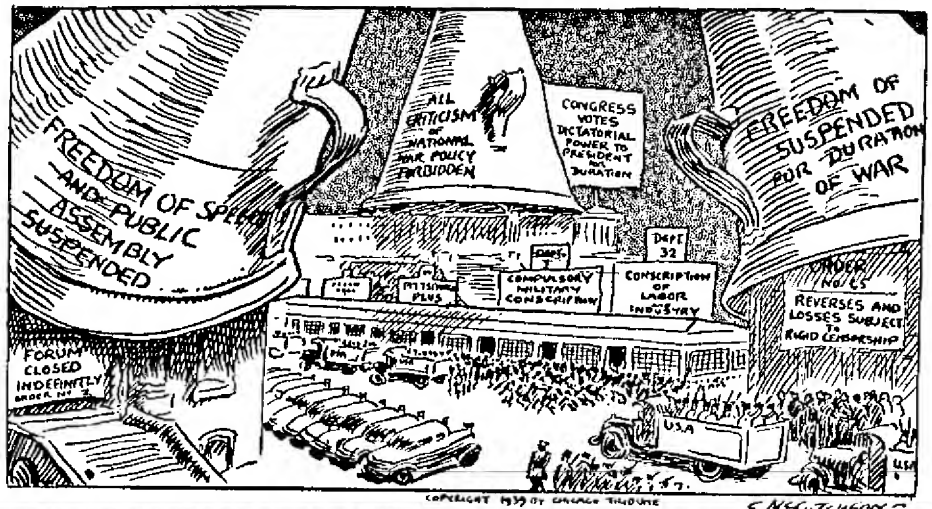
But the pressure of the Interventionists has been enormous. Their strength, concentrated in the nation's capital and a few Eastern cities, has given a false impression of their numbers.

Now all forty-eight states are speaking out! The tide is unmistakably turning toward Peace.

ONE OF THE IRONIC FEATURES OF A WAR BETWEEN DEMOCRACY AND DICTATORSHIPS IS—



—the fact that as soon as such a war is declared, the



—democracy at once has to suspend most of the constitutional rights we are fighting for and immediately has to clamp down the harsh restraints of dictatorship for the duration of the war.

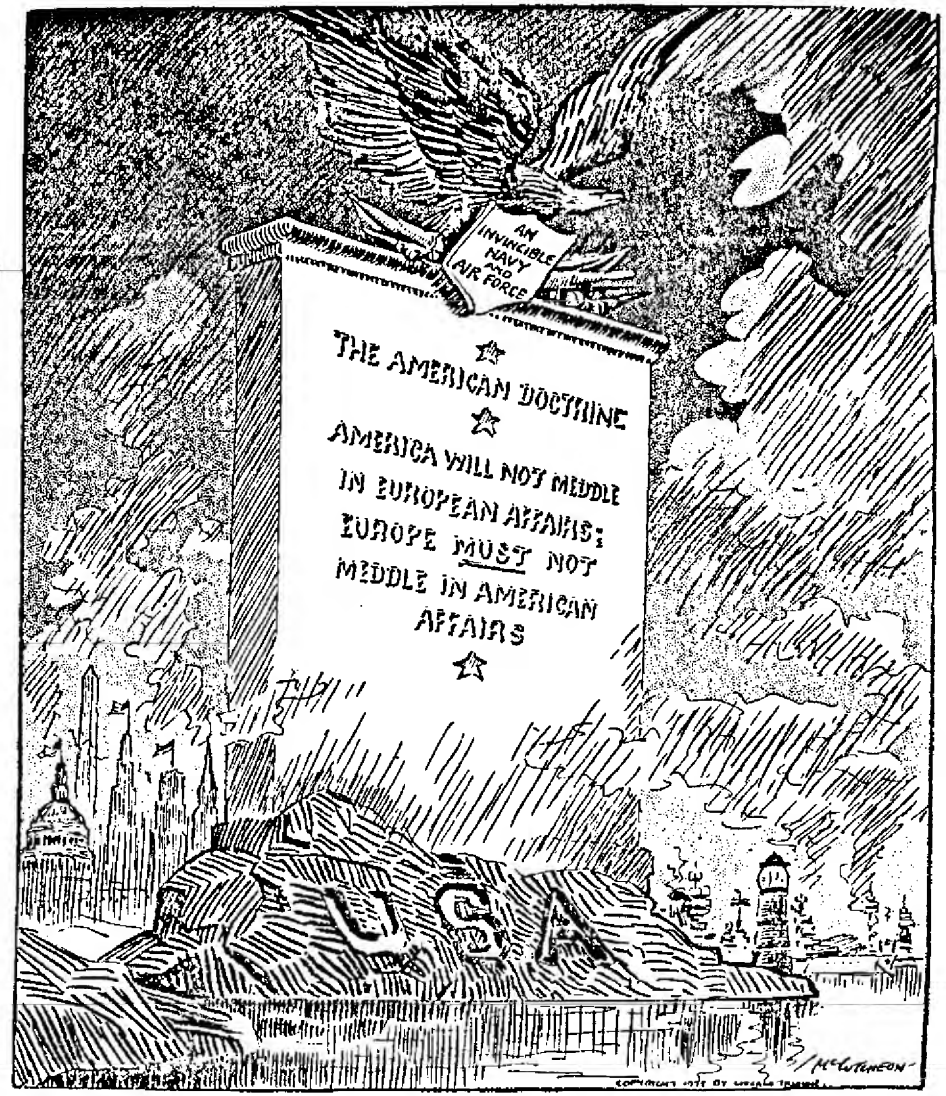
As individuals, it is our right to hate Totalitarianism and all its wrongs. But we cannot destroy that philosophy of life by making war upon it. We cannot destroy among other peoples a form of government that they have chosen and continue to maintain for themselves.

The human liberties that make up our democratic way of life must be preserved here in America.

At the very outbreak of war, all of our liberties must be suspended. For how long? After the war is over they may be returned to us. How many of them? And in what form?

Remember, it is war that breeds dictatorships! The ideals we go to war to protect are the first that we must relinquish when war comes.

THIS DOCTRINE, IF ADOPTED AND IMPARTIALLY ADHERED TO, IS THE ONLY FOREIGN POLICY THAT WILL KEEP THE UNITED STATES OUT OF ENDLESS TROUBLE

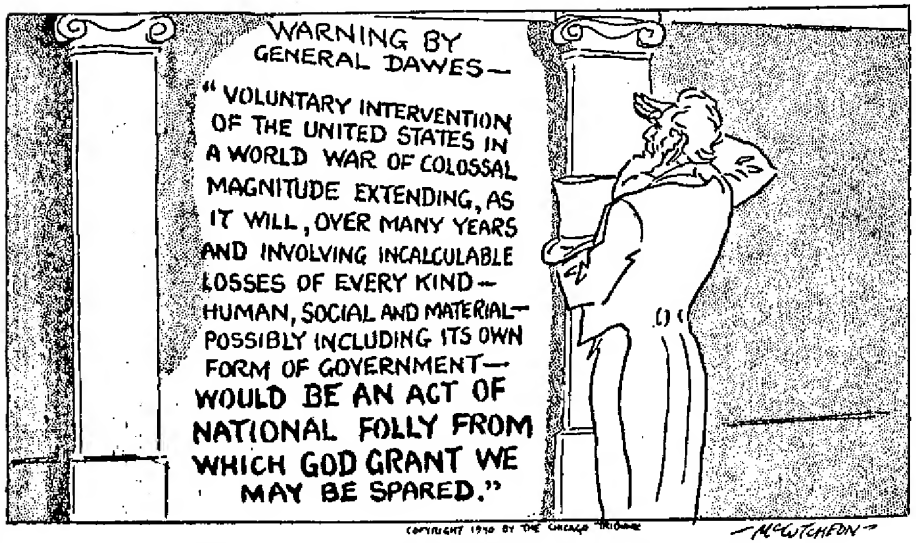


If you support the principles of the America First Committee, you may be called an Isolationist. But no man can truthfully be called an Isolationist who stands ready to extend humanitarian aid to peoples of England and the small democracies—and when Peace shall come, to help rebuild the world along saner lines.

The Monroe Doctrine, keystone of American Foreign Policy for over a hundred years, forbids European forces to intervene in American affairs. It is both inconsistent and foolhardy for American forces to intervene once more in European affairs.

AN AMERICAN PATRIOT PUTS INTO WORDS WHAT MILLIONS OF LOYAL AMERICANS FEEL

In 1775 Paul Revere and William Dawes rode on swift horses to warn the country of danger.



Today a descendant of William Dawes warns the country of another and far greater danger.

The issue of Peace or War for the United States is by far the most important issue we will be called upon to face in our life-times.

The consequences of participation will be so far-reaching that we will be called upon to suffer for them every day for many years to come.

Our country can be spared from such an act of national folly. But not if we stand idly by while the Interventionists have their way with us. We must ACT!

AS HE LISTENED TO THE PRESIDENT'S NATIONAL DEFENSE MESSAGE

The America First Committee holds that there is no real danger of attack, for several years, if at all, from any nation.

If Hitler cannot cross thirty miles of Channel with his scores of near-by bases, it is ridiculous to fear that he can attack us across 3,000 miles of ocean.

But we must build impregnable defenses so that our shores will always be safe—now and forever!

THE BEST RECIPE FOR NATIONAL UNITY

On Nov. 5, President Roosevelt was elected to a third term by an overwhelming majority. The chief reason for his great victory was his repeated and emphatic promise that he would keep us out of this war.

We trust that promise. But if the Interventionists have a free hand, America will have no choice for Peace or War.

If we ship munitions to England in American ships convoyed by American warships, the fighting will begin immediately.

Such a calamity must not be allowed to happen.

OUR LIGHTNING RODS

The United States must build and maintain a Navy and an Air Force second to none and a trained Army fully competent to repel any future attack upon the Americas.

These three will form a permanent line of defense behind which our liberties will always be secure.

Any attempt to weaken them for any purpose must be opposed with vigor and determination.

[Reprinted by request.]

A strong, free, prosperous America is the best and only safeguard of Democracy here—and the true hope of democracies throughout the world.

When the peoples of Europe, Asia and Africa ravaged by all the horrors of modern war, turn to Peace at last, America's strength will help rebuild them and bring them back to health and hope.

The PRINCIPLES of the America First Committee

1. The United States must build an impregnable defense for America.
2. No foreign power, or group of powers, can successfully attack a PREPARED America.
3. American democracy can be preserved only by keeping out of the European war.
4. The cash-and-carry provisions of the existing Neutrality Act are essential to American peace and security. Aid to a belligerent beyond the limitations of the Act weakens our defense at home and may involve us in war abroad. Any change in the law to permit American vessels to enter the combat zone would inevitably plunge the country into Europe's war.
5. America should give humanitarian aid to the suffering and needy of England and the small democracies, with safeguards for the proper distribution of supplies and the maintenance of its own neutrality.

Objectives—Non-Partisan

1. To bring together all Americans, regardless of possible differences on other matters, who see eye-to-eye on these principles. (This does not include Nazists, Fascists, Communists, or members of other groups that place the interest of any other nation above those of our country.)
2. To urge Americans to keep their heads amid rising hysteria in times of crisis.
3. To provide sane national leadership for the majority of the American people who want to keep out of the European war.
4. To register this opinion with the President and with Congress.

HERE is the road to WAR!

Read these amazing proposals now being quietly tested before the court of Public Opinion to see whether America is ready to tolerate them. Through such proposals the minds of our people are being "conditioned" for war — brought closer and closer to the point where we can be induced to accept active participation.

1. **To amend the Neutrality Act so as to permit American ships to carry supplies to England.**

   England prevents shipping from reaching Germany. Germany tries desperately to prevent ships from reaching England.

   If we change our laws to permit American ships to sail the war routes, it is only a matter of time — weeks or even days — until the first American ship is sunk.

   American seamen will be drowned. Popular hatred will rise to irresistible heights. The actual state of war will become easier to face! This is a *long* step — a *sure* step, toward WAR!

2. **To convoy shipments of munitions with units of the United States Navy.**

   This is by far the most drastic proposal to be advanced by the Interventionists.

   The commencement of actual fighting between the forces of Germany and the United States dates from the moment that the first merchant ships guarded by our Navy are attacked by a German warship.

   Our destroyers will be sailing through zones in which attacks constantly occur — with guns loaded and gun crews alert.

   It will be a matter of days at most until the first shot is fired — and it will be a matter of years until the last shot is fired.

   This incredible example of interventionist folly must not be allowed to take place!

3. **To amend the Johnson Act and the Neutrality Act so as to give direct money help to England — as loans or gifts.**

   The great majority of Americans know by experience that WAR is the worst possible investment. The return in cash or good will is zero!

   Why deliberately cultivate one more direct financial stake in Europe's newest war? Why pour our own resources into this bottomless pit?

   What return was ever made to us for the billions we presented Europe with last time? Our only reward was a rich harvest of ill-will — even from our debtor allies.

   Besides, the British balance in this country is reported to be nearly $2,400,000,000 even at this date — exclusive of Canadian, Australian and South African holdings.

   The urge to lend to Britain is therefore not because of desperate need. It simply offers one more easy step toward war.

4. **To withdraw recognition from the Vichy government.**

   Have we not enemies enough, that we should go far out of our way to make more?

   Is this the traditional gallantry of America to kick France when she's on her knees — and helpless?

   Is there not enough hostility three thousand miles away, so that we must challenge a friendly nation whose colonies lie within a few hundred miles? This is no defense measure! There is no slightest hint that French possessions will ever be used against us. It is simply creating another source of friction — another step toward war.

FELLOW AMERICANS!

Oppose each of these steps toward War with all your strength and all your energy!

The advocates of war for the United States do not work openly — with a frank statement of their true position.

They lead us blindly into War by easy stages. Each individual step may seem inconclusive. But add them up and they spell WAR!

ACT NOW! Write today to the President of the United States in Washington, to your Senators and to your Representatives in Congress.

Tell *them* you wholeheartedly oppose each of these steps toward war — and any *other* measures which help to involve us in this conflict!

***DEFEND* AMERICA FIRST!** Make it quite clear you take a positive stand for the protection of our own country. Tell them we want more ships, planes, tanks and guns to keep our own shores safe — independent of any other nation.

Insist we keep our military and naval strength intact. If we do so, no nation, nor group of nations, will dare attack us!

DEFEND AMERICA FIRST

OBJECTS AND PURPOSES

1. To preserve peace for America — to keep America out of War — to keep America free; by

   (a) Establishing a functioning, permanent American neutrality policy;

   (b) Building an adequate national defense through efficient spending of preparedness moneys;

   (c) Counteracting and exposing the forces leading our country toward war.

2. To publicize the war profiteering and corruption of the last World War; and to establish the identity of the forces of 1917 and of today.

3. To expose and to counteract all subversive "isms" including British Imperialism of such organizations as "Union-Now" and the William Allen White Committee, as well as the more publicized Communism, Nazi-ism and Fascism.

4. To re-dedicate and to educate our people to the fundamental concepts of our American Government — to renounce the present-day materialistic philosophy and return to a governmental philosophy based on God.

"Our Foreign Policy"

The PRINCIPLES of the America First Committee

1. The United States must build an impregnable defense for America.
2. No foreign power, or group of powers, can successfully attack a PREPARED America.
3. American democracy can be preserved only by keeping out of the European war.
4. The cash-and-carry provisions of the existing Neutrality Act are essential to American peace and security. Aid to a belligerent beyond the limitations of the Act weakens our defense at home and may involve us in war abroad. Any change in the law to permit American vessels to enter the combat zone would inevitably plunge the country into Europe's war.

Objectives—Non-Partisan

1. To bring together all Americans, regardless of possible differences on other matters, who see eye-to-eye on these principles. (This does not include Fascists or Communists.)
2. To urge Americans to keep their heads amid rising hysteria in times of crisis.
3. To provide sane national leadership for the majority of the American people who want to keep out of the European war.
4. To register this opinion with the President and with Congress.

AMERICA FIRST COMMITTEE

1806 BOARD OF TRADE BUILDING • CHICAGO

Introduction of . . .

GENERAL ROBERT E. WOOD

By MR. CLAY JUDSON

Former President of the Chicago Council on Foreign Relations

We are at a crisis in our international relations. On the decisions now made by the people of this country and their leaders may depend our national welfare for generations to come.

At earlier meetings you have had presented to you dramatically, brilliantly, emotionally, the views of those who believe that the ideal of American life now demands a full participation in the war between England and Germany, and a willingness to take all the risks of war which that involves.

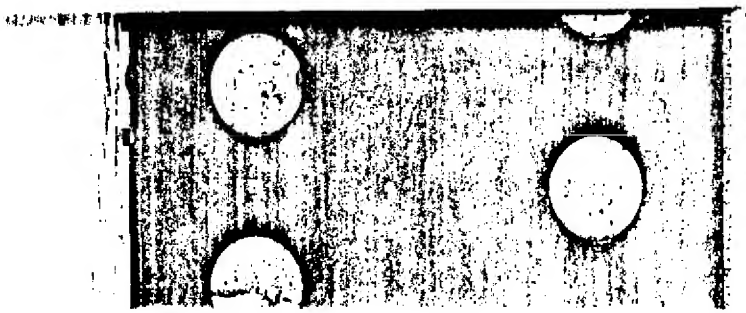
Now there is another view, equally patriotic, equally above question from the standpoint of ideals—but diametrically opposed in its spiritual and its practical approach to the problem. This view sees America's destiny as the preservation of peace for its 135,000,000 people; the abstention on any account, and no matter how emotional the appeal, from European and Asiatic wars; the maintenance of the processes of democracy and of civilization.

Those who hold this view are certain that we cannot enforce democracy on the rest of the world by force and arms. They believe war will be ruinous to everything we cherish most, and they believe we *can* avoid war, and should make every effort to do so.

This is the view of the man who addresses you today. He was born sixty-one years ago in the State of Missouri. Forty years ago he graduated from the United States Military Academy at West Point. His first military service was in the Philippine insurrection. As Chief Quartermaster at Panama during the days of the canal construction under General Goethals, he was charged with the duty of acquiring food, clothing, and supplies for the 40,000 employees and officials in the canal zone. During the World War he had a major responsibility for supplying our entire military establishment. After the war, in civil life, his ability gave him immediate recognition in the commercial world, where he served for ten years as President of Sears, Roebuck & Company, and is now the Chairman of its Board of Directors.

For his outstanding services during the World War he was awarded the Distinguished Service Medal. He is a Commander of the British Order of St. Michael & St. George. He is a Knight of the French Legion of Honor. At present he is the Acting Chairman of the America First Committee.

I am honored in presenting to you General Robert E. Wood, who will speak on "Our Foreign Policy."



General Robert E. Wood's Speech

"Our Foreign Policy"

I, hesitated to accept the invitation of my friends, Dr. Lichtenstein and Mr. Utley, to address this gathering for two reasons—first, because I do not feel on a par as a speaker with the very eminent persons who have addressed these gatherings; second, because my views are opposed to those of a probable majority of my listeners—and I may add—opposed to those of some of my dearest friends and relatives. I have a brother-in-law on the William Allen White Committee.

But it is one of the beauties of a democracy that in time of peace, at least, men are free to express their opinions and honest men respect opposing opinions if those opinions are sincere and free of ulterior motive, and now is a time for all honest men to express their convictions.

The Hour of Decision

This country is on the eve of momentous decisions. The results of these decisions may be so far reaching that they may have an effect for good or bad on the life of this country for at least a generation. I am at the stage of life when I do not care as to the effect on myself or my own generation. I do greatly care what the effects will be on my children and grandchildren and their generation.

There are two schools of thought in this country on the subject of our foreign policy. They may be termed "Interventionists" and "Isolationists." These terms are not exactly descriptive, because all interventionists are not extreme interventionists and most isolationists are only isolationists as to Europe and Asia, but not isolationists as to the balance of North America and South America.

I except from my discussion those who have ulterior motives—anything except the welfare of our country. That would include the Communists who really desire to destroy our Government; the Nazis and members of the Bund who put the interests of Germany above those of this country; some ultra-pacifists who forget the interests of their country in their desire for peace at any price; a limited number of extreme Anglophiles who put the interests of Great Britain above those of their own country.

Our Common Ground

These schools of thought are in violent opposition, but there are certain points of agreement among all classes except perhaps what may be called the lunatic fringe of our population.

These points of agreement are:

First—The necessity for a strong defense—a strengthening of our army and navy and air force. Our people are practically unanimous on this subject—the only differences are on differences of detail. It is obvious that the richest nation of the world, in a world of force, must make itself impregnable.

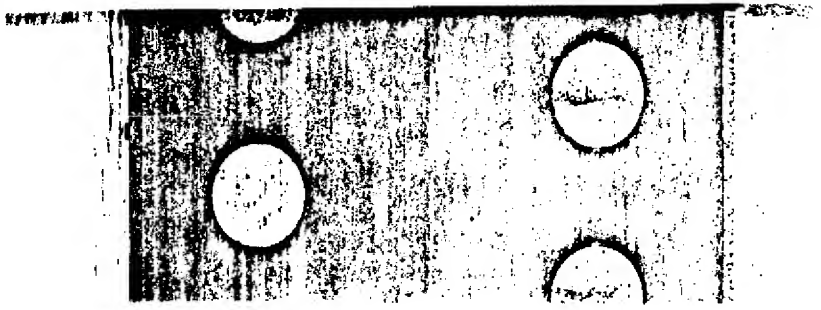
Second—The belief that no foreign nation must obtain possession of any part of the two Americas and that the United States must be prepared to defend the North American continent, and at least that portion of the South American continent as far as the Equator. There is some difference of opinion as to whether military and naval protection should go as far as Cape Horn.

Third—Access to our great industrial plant by Great Britain within the limits of the neutrality law—that is, unlimited right of purchase by Great Britain of planes, tanks, munitions of war, raw materials from private manufacturers, provided she can pay for them and provide her own transportation. And this I may add is a very great aid.

Without this aid now being given, England could not long carry on the war, for her supplies of raw materials, her steel making capacity, munitions and plane plants are insufficient for a long major war. Without the production facilities of the United States she would be crushed. Theoretically, Germany is entitled to the same privilege—actually, on account of the British blockade, she cannot use our facilities, but she has no right to complain. I believe the overwhelming majority of the citizens are in accord with these three principles. I know I am.

Here Differences Begin

But it is when we get beyond the third point that opinion diverges sharply. The present administration in power, probably the majority of our editors and columnists, a very influential body of public opinion as represented by the Committee to Defend America by Aiding Britain is in favor of our government turning over some of our flying fortresses, more destroyers, more planes, and merchant ships. Others, even more extreme, favor an outright alliance with Great Britain and a declaration of war on Germany.



Now what are the fundamental arguments for this point of view? They may be reduced to three principal reasons:

First—The totalitarian state with its ideology, with its record of persecution, is repugnant to our ideals and should be destroyed, even if we have to enter a war to accomplish this result.

Second—Our own protection depends on Britain as our first line of defense, and if she falls, we are exposed to the onslaught of a totalitarian combination. Per se, it follows that we must give England all the aid we can, even at the risk of entering the war.

Third—If Britain is defeated, it will be impossible for a free competitive, unorganized and unmanaged industrial system to compete with a totalitarian system.

War Does Not Destroy Ideologies

As to the first reason, you cannot destroy an ideology by waging war on it. The conditions created in Europe by the Versailles Treaty were largely responsible for the rise of Hitler and the Nazi philosophy. The history of Europe for the last 100 years is a story of cruelties, persecutions, injustices. No government was more repugnant to our ideals and ideas than the old Czaristic regime of Russia—it had over many years a series of pogroms, but we remained on friendly terms with Russia. Up to 1917 we had always remained true to the principles of foreign policy laid down by the founders of our country: the policy of keeping aloof from the quarrels of Europe and Asia.

The Communistic regime of Russia under Lenin and Stalin was equally opposed to our principles and was detested by the majority of our people. Nevertheless, we have maintained our relations with Russia, and we have certainly had no idea of making war on that country.

Sentimentalists or Realists?

A nation cannot be a knight-errant. It must be realistic. Great Britain, during her entire history, has been coldly realistic, and her success in building up her Empire has been due to her realism. As individuals we can give vent to our generous impulses or even to our pet hates, but our statesmen, our editors, our moulders of public opinion must consider that it is not their individual fortunes and lives that are to be considered, but those of 130,000,000 of their fellow citizens.

Now as to the second reason—our military defense in the event of a German victory. Our country has gone through a curious transformation of thought since May 10th. From an underestimate of the military and economic strength of Germany, it has gone to the opposite extreme of overestimating that strength. From some of the remarks heard on the Eastern seaboard in June, we would have thought that New York and Boston were in imminent danger of being bombed.

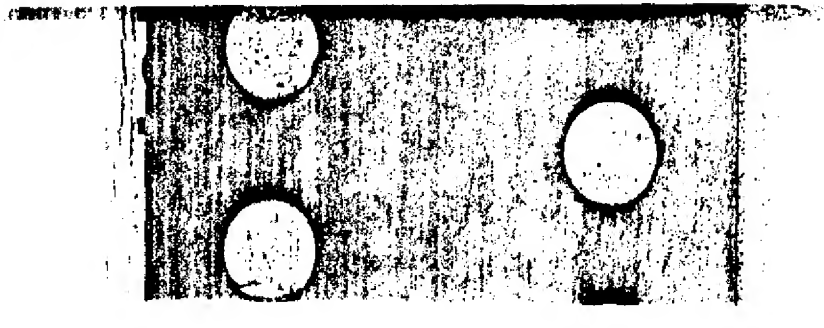
Bombings Alone Cannot Win

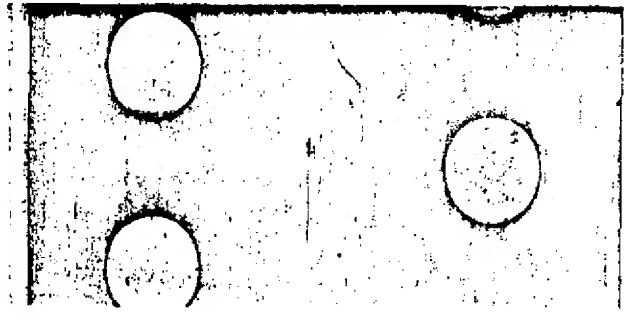
Now the events in Spain, Poland, Belgium and France showed the major importance of the air arm when supported by tanks, infantry and a modern army. But Spain showed that bombing of cities, unsupported by an army, cannot win a war or even shake the morale of a population if the nation is of tough fibre like the Spanish and English peoples.

Apparently the Battle of England is demonstrating the same principle. Unless an army can cross the Channel, the German air force cannot impose a decision on England. Casualties and material damage—yes. The 15,000 casualties in London so far are but a drop in the bucket for a nation of 45,000,000 people; more casualties were incurred in single days of the Verdun, Ypres and Somme offensives. The destruction of apartment houses, stores, public buildings do not constitute a blow to the military strength of a nation. If the docks, railroads, power plants and munitions plants are put out of commission, it does affect the military effort, but unless it is done on a gigantic scale the nation cannot be subdued, and all evidence is to the effect that military damage thus far has not been of such a serious character as to severely impair the island's defense.

Can England Be Invaded?

As for an invasion, at the great risk of being called a false prophet, I doubt whether any invasion will ever be made, and if it is attempted, it will be decisively repulsed. To land 250,000 Germans in England, with mechanized equipment, ammunition and necessary supplies, would be a gigantic operation. Once landed, that force would have to face 1,500,000 Englishmen under arms, fighting on their own island behind strong defenses. And to land those 250,000 Germans means practically complete mastery of the air, blocking off the English fleet, complete control of the Channel—none of which objectives have yet been attained after more than a month of intensive





effort. To sum up, I doubt whether the island can be conquered, and I am quite sure the British fleet cannot be put out of commission.

Now we come to our own danger of invasion and the perfectly fantastic hysteria that pervaded this country after the battle of France. I think any competent military or naval expert, certainly the vast majority, will tell you that there is absolutely no danger of an invasion of the United States even if Germany is completely victorious, and I doubt whether she will be. The amount of shipping required for the transportation of even 250,000 men of a modern mechanized army with their ammunition and supplies over 3,000 miles of ocean is colossal and it is to be presumed that our own navy and air force will not be idle.

No Army Can Attack Us

If it is impracticable or at least exceedingly difficult for an army to cross 25 miles of Channel, what valid grounds are there for supposing that a large army can cross 3,000 miles of ocean to invade a continent?

Some will inquire—why should it not be possible for Germany to seize bases in Mexico or Central America and attack from those countries. Again, that presupposes an overwhelming sea power. But even if that sea power were present, there would again be the same difficulties of a 3,000 mile long line of communication for an invading army. And an army once landed must cross an exceedingly difficult terrain before ever arriving at the Texas border. I think that hypothesis may be safely dismissed.

Panic First—Then War!

Now we come to the favorite bogey—air attacks. I quote from Major Al Williams' recent speech, reprinted in the Congressional Record—"Oceans and extended lines of communications are still vital factors in modern warfare. President Roosevelt's panicky flight schedule for the air invasion of America is ridiculous, worthy of Hollywood and certainly not of the White House. To support my argument against the President's wild flight schedule for a foreign air invasion of the United States I offer a single incontrovertible reason. With all their air power the Germans could not attack and subdue England from air bases 300 to 500 miles distant. Instead they seized air bases on the north coast of Holland, Belgium and France 20 to 100 miles distant from the coast of England. Each and every stage of

the fantastic itinerary for the air invasion of America would have to be conquered for the establishment of major air bases for the enemy attempting the job. The President must know this—but apparently the pattern is panic first, and then war."

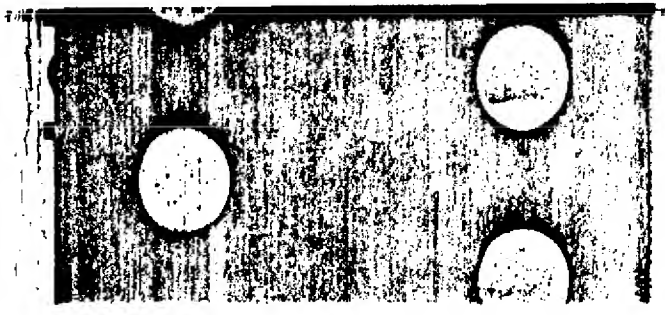
An Exhausted Germany Is Harmless

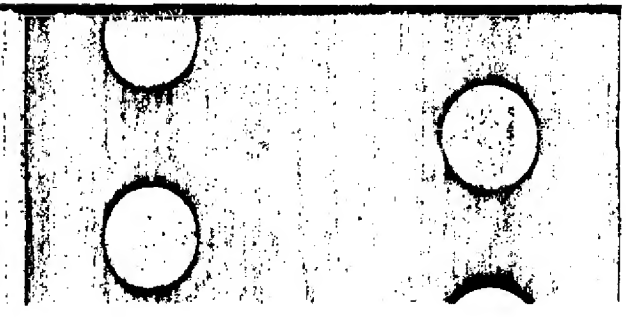
All of this presupposes a completely victorious Germany, ready at the end of a long and costly struggle, to immediately embark on a new and perilous adventure across 3,000 miles of ocean against a nation of 130,000,000 people. The present war represents seven years of preparation on the part of Germany. So-called total war represents a prodigal expenditure of labor, money and effort. Steel is rapidly consumed, aircraft and mechanical equipment are rapidly worn out, reserves of all kinds are exhausted, not to mention the wear and tear on human beings. A nation that for seven years has been given guns instead of butter is apt at the end of this war to demand more butter from its leaders.

So on every count it seems inconceivable to me that Germany at the end of the war, even if aided by its allies, who will be in a worse condition of exhaustion than Germany itself, will attack the United States. And if this country with its 130,000,00 people and its two great natural ocean barriers cannot defend itself unaided by Britain or anybody else, it does not deserve to survive. The great nation that has to trust to others for its defense is on the downward path to destruction.

Europe Must Have Our Goods

Now as to our economic problems. An economic war after the war—the loss of our European, Asiatic and South American trade. I have a high personal regard for Walter Lippmann's brains and ability, but I believe his picture of an unequal contest between a totalitarian economy and a free economy is misleading. After all, when two nations or two continents each have things the other needs trade eventually results regardless of the feelings each may have for the other. Europe needs us more than we need Europe—our materials and products are more important to her than hers to us. True, Germany has reduced largely its purchases from us, but more from necessity than choice. As far as South America is concerned, we can always obtain the lion's share of the trade of Mexico, Central America, Colombia and Venezuela because we buy the metals of Mexico, the coffee and bananas of Central America and Co-





lombia, the oil of Venezuela. In those countries, our geographical location must always give us the edge. We can take the coffee of Brazil but not its cotton; so its trade will naturally divide between Europe and the United States. It is in Argentina and Chile that our troubles come. We cannot take the meat, cotton and wool of the Argentina because we produce those products ourselves. The same applies to the copper and nitrates of Chile. We cannot sell unless we buy and that is a far greater obstacle than all Nazidom.

It must not be forgotten that Germany put on an intensive drive for trade in South America in the period 1936-1938, and if my recollection of the figures is correct, while Germany's percentage of the trade gained somewhat, the gain was not large, and it was largely at the expense of Great Britain; our trade declined only a fraction of one per cent.

We'll Get Our Share of Foreign Trade!

No man can foretell the future, but as long as we have products South America can use and above all, if they have products we can use, we will get our full share of the trade. As for Asia, the same remarks pertain as to Europe. Japan needs us far more than we need her. Our trade with Japan incidentally runs between five and six times the trade of China, whom we are making such great efforts to help. Even if Japan gets control of the Dutch East Indies—and that is not assured—she is going to be more anxious to sell us rubber and tin to obtain dollar exchange than we are to buy the products. And if war with Japan comes, we can get Bolivian tin and develop our synthetic rubber. We are certainly as resourceful as the Germans who are filling 90% of their rubber requirements with the synthetic article.

In 1937 Colombia's trade with us was 168,000,000 pesos, with Germany 40,000,000. Of Venezuela's trade, the United States took 12.5% of their imports and furnished 53% of the exports, Germany 13.6%. Of Costa Rica's imports, 42.5% came from the United States, 23% from Germany. Of her exports 45% went to the United States and 19.5% to Germany.

As for lack of organization, if needs be, we can meet fire with fire; we can set up export cartels and mass purchasing organizations and we can do this without danger to our system.

The Americas Must Stand Together!

Americans like myself feel that our true mission is in North America and South America. We stand today in an unrivalled position. With our resources and organizing ability we can develop, with our Canadian friends, an only partially developed continent like North America and a virgin continent like South America. The reorganization and proper development of Mexico alone would afford an outlet for our capital and energies for some time to come. And while I think we should try in every way to maintain the friendship of our neighbors to the South, I think we should also make it clearly understood that no government in Mexico, Central America and the Caribbean South American countries will be tolerated unless it is friendly to the United States and that, if necessary, we are prepared to use force to attain that object.

Instead of what seems to be a sane objective we are on the verge of throwing our treasure and our blood into a European war, with consequences that no one can foretell.

I respect the honest views of honest Americans, no matter how opposed they may be to my own, but there are two matters that I resent: First is the attempt to smear any one opposed to what I might call the majority publicized viewpoint of what we should do in this war. When the editor of a pink New York sheet denounces Col. Lindbergh as the head of the Fifth Column in the U. S., we have reached the summit of mud slinging. You may disagree violently with Col. Lindbergh, you may feel he has made serious mistakes, but you have no right to denounce a courageous, patriotic American citizen as a traitor merely because he disagrees with your views. That is as bad as the Nazis, an attempt to suppress freedom of speech.

The other point I resent is the way the issue is being presented to the American people. We are being edged into the war without the masses' knowledge. We have the anomalous situation of the polls showing a majority of the people favoring a course that is bound to get us into the war, while the same polls show 86% of the same people oppose actual entry into the war. That shows that the minds of the people are confused.

How Wars Are Sold to Us

Many of my hearers were adults at the time of the previous war and were familiar with the propaganda that led up to that war. If you want to know the

propaganda and its falsity, read a Sir Philip Gibbs with the title of "Now It Can Be Told," in which he admitted the outrageous lies that were perpetrated on the American public. And Sir Philip Gibbs was no German but the leading English war correspondent, knighted by his King. The London Economist in a recent issue said it was only a question of time until American public opinion could be brought to the point where we would actively enter the war.

I believe a majority of the people who are advocating "aid short of war" do not desire us to enter the war. But there are others who do desire us to enter the war, who are taking the necessary steps to prepare the American people for active participation, who would enter it tomorrow if they dared, and unfortunately they are the people who are shaping our national policy today. You hear in Washington today that we are now in the war. You hear predictions from men, and men who ought to know, that we will actively enter the war within sixty days after the election.

The American people should think this matter through. The course we are pursuing is bound to involve us in the war. You cannot play with fire and not get burned. You cannot have your government, not private manufacturers, transfer its equipment to foreign powers, you cannot have your government in an unofficial alliance with a foreign power, you cannot be a meddler in Indo-China, berate Italy and Germany without eventually involving the nation in war, and if war comes I venture to predict that we will repeat the history of the last originally it was intended to send only the Navy to the assistance of the Allies.

Man-Power, Too!

Joffre came over in the spring of 1917, told the plight of the French Army after the 1917 spring Champagne offensive, where whole divisions of the French Army mutinied, and implored us to send over a token force, otherwise France would collapse. We sent Pershing and the First Division, about 30,000 men. Then came the impending collapse of Russia, frantic calls for more men, then the great German offensive of 1918 and the rout of the British Fifth Army, more frantic appeals, until finally we put under arms 4,000,000 men, sent 2,000,000 men

to France, spent 20 billion dollars and had 150,000 casualties. I need not refer to our treatment by our former allies after the Armistice. They took the loot, we did not even get thanks.

I do not often agree with the editorials on foreign policy in my friend Frank Knox's paper, but there is a recent editorial with which I am in 100% agreement. The editorial quoted two recent speeches by both Presidential candidates in which both pledged themselves never to send American boys to France. The editorial spoke of both these pledges as political bunk and very truly stated that if we entered the war we would enter it to win, and, if necessary to win, we would send an expeditionary force—and that is the absolute truth.

The People Must Know the Truth

The issue should be honestly presented to the people. If we aid Britain, short of war and beyond the limits of the Neutrality Act, it ultimately means war and should mean war. If we enter the war, we must enter it with all our strength in men and money. That is the only way to win a war.

If the military reports from abroad are correct, I feel there is no doubt that Great Britain can defend her island, her dominions like Canada, Australia and New Zealand. She may lose Egypt, the Suez and Gibraltar, though this is extremely doubtful. So far the Italians have shown no signs of real offensive strength. There is little doubt that England can make a negotiated peace by which she can keep her fleet and her colonies, but which will leave Germany the economic control of Western Europe. But she cannot decisively defeat Germany unaided. Her statesmen privately admit that, and say that for her to gain a decisive victory we will have to actively enter the war. One of the great mistakes made by the Allies in this war was that in its first six months they thought they could win a safe economical war, with France sitting behind the Maginot line and England maintaining its blockade, with little expenditure of blood and a minimum expenditure of treasure. For us to actively enter the war means ships, planes, money, men, expeditionary forces. That is the issue that must ultimately be presented to the American people, and it should be presented openly, honestly and squarely.

Our Own Democracy Will Be Sacrificed

In deciding this issue, the American people should face the costs. We start with a debt of $50,000,000,000. With the enormous cost of waging modern war, the cost of sending forces over 3,000 miles of ocean, of engaging our navy in the Far East, we would ultimately face a debt of from 100 to 150 billions. Victorious or defeated, we will be faced at the conclusion of such a war with great economic dislocations —the rich would face a capital levy, the middle classes impoverishment, and the masses a lowered standard of living and the loss of most of the social gains so far secured.

Competent observers believe that if the war is prolonged in Europe over one or two years, it will result in Communism in all Europe, and a species of National Socialism in England. If we are involved, it probably spells the end of capitalism all over the world.

Defend America First, Last, Always

I would unhesitatingly say to throw everything we have into a war to defend the United States or our own sphere of influence, which is the North American continent and part, if not all, of the South American continent. I do not think the American people should make these sacrifices to interfere in the quarrels of Europe and Asia, old, sick and overpopulated continents with ancient rivalries that cannot be healed. It is up to the American people to decide whether they want to make these sacrifices to preserve not England but the British Empire, and help regulate Europe and Asia. But they should make the decision with all the cards on the table, not misled by artifice and subterfuge.

But if that decision is given affirmatively, I think you will find Americans like myself, who sincerely believe such a course spells disaster to the nation, will be at their posts of duty in the service of this country. I am old fashioned enough to believe in the toast offered by Stephen Decatur back in 1816, "Our Country! In her intercourse with foreign nations, may she always be in the right: but Our Country, right or wrong."

Additional copies of this speech can be secured by addressing America First Committee, 1806 Board of Trade Building, Chicago.

ARE YOU WILLING TO GIVE UP DEMOCRACY?

DO YOU WANT TO GO TO WAR WITHOUT BEING ASKED?

ARE YOU READY TO MAKE THE U.S. A DICTATORSHIP?

THEN SPEAK UP NOW!

A war dictatorship bill has been introduced in Congress

The President would have absolute power to do these things without consulting Congress or the people

1. Cancel the Neutrality Act and send our warships and merchant vessels into the war zones.
2. Cancel the Johnson Act and give unlimited funds to foreign nations.
3. Cancel any other law on the statute books.
4. Make military alliances with any nations anywhere in the world.
5. Take us into war whenever, wherever and against whomever he chooses.
6. Give away our Navy to any nation.
7. Give away every gun and bullet in our Army to any nation.
8. Give away every American airplane to any nation.
9. Give away all our military secrets to any nation.
10. Open our harbors and all their facilities to the warships of any nations engaged in war.
11. Seize the ships of one country and give them to another country.

ACT NOW!

HERE'S WHAT YOU MUST DO NOW TO SAVE OUR REPUBLIC

ACT NOW!

- Telegraph, telephone or write your two Senators; also your Congressman; also Senator Walter F. George, chairman of the Senate Foreign Relations Committee.
- Tell them you are opposed to the war dictatorship bill, that you want them to fight and vote against it, that you won't stand for compromises, that the WHOLE BILL MUST BE KILLED and thrown out of the Capitol.
- Make a list of all your friends and relatives and get them to do the same.
- Do it immediately.

On the evening of January 30, 1941, [redacted] came to the Kansas City office and turned over a pamphlet published by the America First Committee, 141 West Jackson Boulevard, Chicago, Illinois. [redacted] stated he learned that 10,000 of these pamphlets were to be distributed in Kansas City on January 31, 1941. This pamphlet reflects that it is put out by the America First Committee, 141 West Jackson Boulevard, Chicago, Illinois. It is headed as follows: "Are you Willing to Give up Democracy? Do you want to Go to War Without Being Asked? Are You Ready to Make The U. S. A Dictatorship?" The pamphlet then assails the President for attempting to intervene in Europe without consulting Congress or the people. It says that in order to save our Republic each citizen should write his Senators and Congressmen and tell them to oppose the War dictatorship bill.

A copy of the above-described pamphlet is being retained in the Kansas City file.

AMERICA FIRST COMMITTEE

CHICAGO, ILLINOIS

America First Committee Principles

1. The United States must build an impregnable defense for America. With such a defense no foreign power, or group of powers, can successfully attack us.

2. Americans should and do cherish the ideals of democracy and abhor dictatorship, but the welfare of one hundred thirty million Americans and the preservation of democracy on this continent demand that the United States keep out of foreign wars.

3. The cash and carry provisions of the existing Neutrality Act are essential to American peace and security. Within the limits of that Act, Americans may properly aid Great Britain. Aid to her beyond the limitations of the present Neutrality Act would weaken our defense at home, and might well involve us in conflict. We oppose any change in the law which would permit American vessels to enter the combat zone or which would permit the American Navy to convoy merchant ships through that zone, as any such course would inevitably plunge this country into Europe's war.

4. With proper safeguards for the distribution of supplies and the maintenance of our neutrality, Americans should, to the limit of their ability, give humanitarian aid to the suffering and needy people of England and the occupied countries.

Introducing General Wood

By Clay Judson

Former President of the Chicago Council on Foreign Relations

We are at a crisis in our international relations. On the decisions now made by the people of this country and their leaders may depend our national welfare for generations to come.

At earlier meetings you have had presented to you dramatically, brilliantly, emotionally, the views of those who believe that the ideal of American life now demands a full participation in the war between England and Germany, and a willingness to take all the risks of war which that involves.

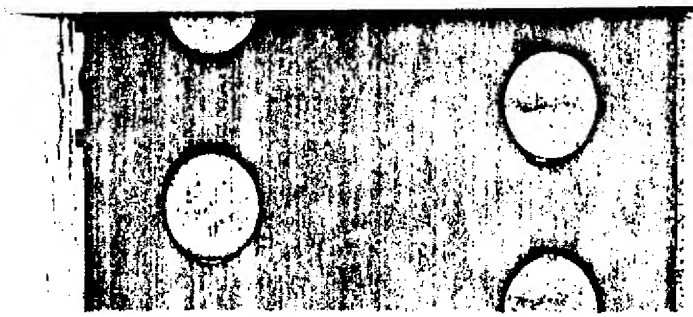
Now there is another view, equally patriotic, equally above question from the standpoint of ideals—but diametrically opposed in its spiritual and its practical approach to the problem. This view sees America's destiny as the preservation of peace for its 135,000,000 people; the abstention on any account, and no matter how emotional the appeal, from European and Asiatic wars; the maintenance of the processes of democracy and of civilization.

Those who hold this view are certain that we cannot enforce democracy on the rest of the world by force and arms. They believe war will be ruinous to everything we cherish most, and they believe we *can* avoid war, and should make every effort to do so.

This is the view of the man who addresses you today. He was born sixty-one years ago in the State of Missouri. Forty years ago he graduated from the United States Military Academy at West Point. His first military service was in the Philippine insurrection. As Chief Quartermaster at Panama during the days of the canal construction under General Goethals, he was charged with the duty of acquiring food, clothing, and supplies for the 40,000 employees and officials in the canal zone. During the World War he had a major responsibility for supplying our entire military establishment. After the war, in civil life, his ability gave him immediate recognition in the commercial world, where he served for ten years as President of Sears, Roebuck & Company, and is now the Chairman of its Board of Directors.

For his outstanding services during the World War he was awarded the Distinguished Service Medal. He is a Commander of the British Order of St. Michael & St. George. He is a Knight of the French Legion of Honor. At present he is the Acting Chairman of the America First Committee.

I am honored in presenting to you General Robert E. Wood, who will speak on "Our Foreign Policy."



General Robert E. Wood's Speech

"Our Foreign Policy"

I hesitated to accept the invitation of my friends, Dr. Lichtenstein and Mr. Utley, to address this gathering for two reasons—first, because I do not feel on a par as a speaker with the very eminent persons who have addressed these gatherings; second, because my views are opposed to those of a probable majority of my listeners—and I may add—opposed to those of some of my dearest friends and relatives. I have a brother-in-law on the William Allen White Committee.

But it is one of the beauties of a democracy that in time of peace, at least, men are free to express their opinions and honest men respect opposing opinions if those opinions are sincere and free of ulterior motive, and now is a time for all honest men to express their convictions.

The Hour of Decision

This country is on the eve of momentous decisions. The results of these decisions may be so far reaching that they may have an effect for good or bad on the life of this country for at least a generation. I am at the stage of life when I do not care as to the effect on myself or my own generation. I do greatly care what the effects will be on my children and grandchildren and their generation.

There are two schools of thought in this country on the subject of our foreign policy. They may be termed "Interventionists" and "Isolationists." These terms are not exactly descriptive, because all interventionists are not extreme interventionists and most isolationists are only isolationists as to Europe and Asia, but not isolationists as to the balance of North America and South America.

I except from my discussion those who have ulterior motives—anything except the welfare of our country. That would include the Communists who really desire to destroy our Government; the Nazis and members of the Bund who put the interests of Germany above those of this country; some ultra-pacifists who forget the interests of their country in their desire for peace at any price; a limited number of extreme Anglophiles who put the interests of Great Britain above those of their own country.

Our Common Ground

These schools of thought are in violent opposition, but there are certain points of agreement among all classes except perhaps what may be called the lunatic fringe of our population.

These points of agreement are:

First—The necessity for a strong defense—a strengthening of our army and navy and air force. Our people are practically unanimous on this subject—the only differences are on differences of detail. It is obvious that the richest nation of the world, in a world of force, must make itself impregnable.

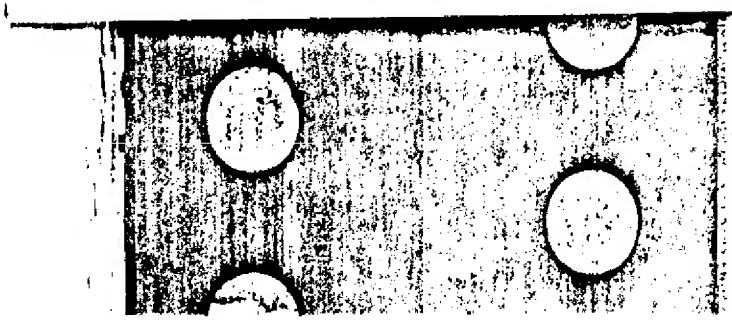
Second—The belief that no foreign nation must obtain possession of any part of the two Americas and that the United States must be prepared to defend the North American continent, and at least that portion of the South American continent as far as the Equator. There is some difference of opinion as to whether military and naval protection should go as far as Cape Horn.

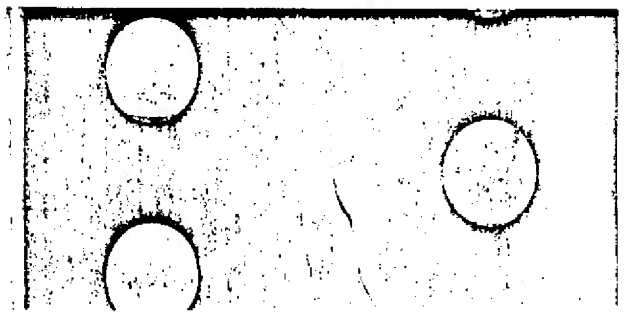
Third—Access to our great industrial plant by Great Britain within the limits of the neutrality law—that is, unlimited right of purchase by Great Britain of planes, tanks, munitions of war, raw materials from private manufacturers, provided she can pay for them and provide her own transportation. And this I may add is a very great aid.

Without this aid now being given, England could not long carry on the war, for her supplies of raw materials, her steel making capacity, munitions and plane plants are insufficient for a long major war. Without the production facilities of the United States she would be crushed. Theoretically, Germany is entitled to the same privilege—actually, on account of the British blockade, she cannot use our facilities, but she has no right to complain. I believe the overwhelming majority of the citizens are in accord with these three principles. I know I am.

Here Differences Begin

But it is when we get beyond the third point that opinion diverges sharply. The present administration in power, probably the majority of our editors and columnists, a very influential body of public opinion as represented by the Committee to Defend America by Aiding Britain is in favor of our government turning over some of our flying fortresses, more destroyers, more planes, and merchant ships. Others, even more extreme, favor an outright alliance with Great Britain and a declaration of war on Germany.





Now what are the fundamental arguments for this point of view? They may be reduced to three principal reasons:

First—The totalitarian state with its ideology, with its record of persecution, is repugnant to our ideals and should be destroyed, even if we have to enter a war to accomplish this result.

Second—Our own protection depends on Britain as our first line of defense, and if she falls, we are exposed to the onslaught of a totalitarian combination. Per se, it follows that we must give England all the aid we can, even at the risk of entering the war.

Third—If Britain is defeated, it will be impossible for a free competitive, unorganized and unmanaged industrial system to compete with a totalitarian system.

War Does Not Destroy Ideologies

As to the first reason, you cannot destroy an ideology by waging war on it. The conditions created in Europe by the Versailles Treaty were largely responsible for the rise of Hitler and the Nazi philosophy. The history of Europe for the last 100 years is a story of cruelties, persecutions, injustices. No government was more repugnant to our ideals and ideas than the old Czaristic regime of Russia—it had over many years a series of pogroms, but we remained on friendly terms with Russia. Up to 1917 we had always remained true to the principles of foreign policy laid down by the founders of our country: the policy of keeping aloof from the quarrels of Europe and Asia.

The Communistic regime of Russia under Lenin and Stalin was equally opposed to our principles and was detested by the majority of our people. Nevertheless, we have maintained our relations with Russia, and we have certainly had no idea of making war on that country.

Sentimentalists or Realists?

A nation cannot be a knight-errant. It must be realistic. Great Britain, during her entire history, has been coldly realistic, and her success in building up her Empire has been due to her realism. As individuals we can give vent to our generous impulses or even to our pet hates, but our statesmen, our editors, our moulders of public opinion must consider that it is not their individual fortunes and lives that are to be considered, but those of 130,000,000 of their fellow citizens.

Now as to the second reason—our military defense in the event of a German victory. Our country has gone through a curious transformation of thought since May 10th. From an underestimate of the military and economic strength of Germany, it has gone to the opposite extreme of overestimating that strength. From some of the remarks heard on the Eastern seaboard in June, we would have thought that New York and Boston were in imminent danger of being bombed.

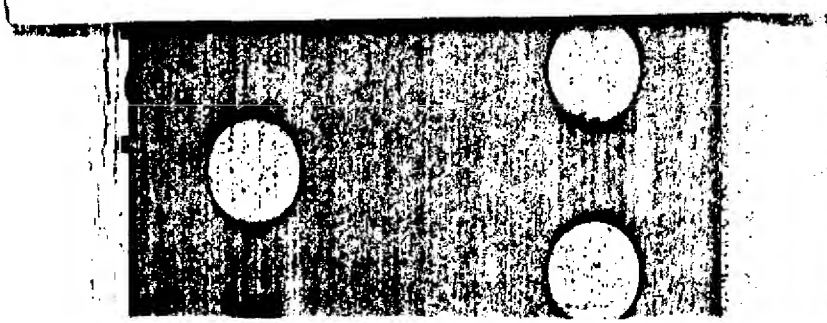
Bombings Alone Cannot Win

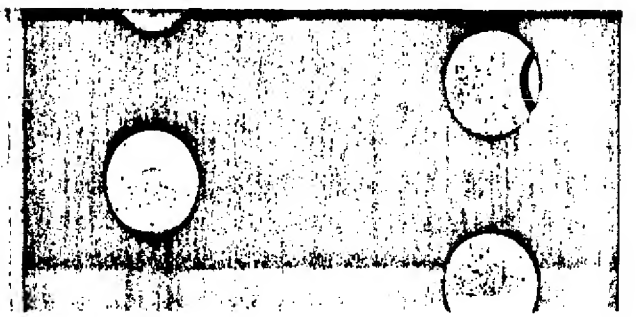
Now the events in Spain, Poland, Belgium and France showed the major importance of the air arm when supported by tanks, infantry and a modern army. But Spain showed that bombing of cities, unsupported by an army, cannot win a war or even shake the morale of a population if the nation is of tough fibre like the Spanish and English peoples.

Apparently the Battle of England is demonstrating the same principle. Unless an army can cross the Channel, the German air force cannot impose a decision on England. Casualties and material damage —yes. The 15,000 casualties in London so far are but a drop in the bucket for a nation of 45,000,000 people; more casualties were incurred in single days of the Verdun, Ypres and Somme offensives. The destruction of apartment houses, stores, public buildings do not constitute a blow to the military strength of a nation. If the docks, railroads, power plants and munitions plants are put out of commission, it does affect the military effort, but unless it is done on a gigantic scale the nation cannot be subdued, and all evidence is to the effect that military damage thus far has not been of such a serious character as to severely impair the island's defense.

Can England Be Invaded?

As for an invasion, at the great risk of being called a false prophet, I doubt whether any invasion will ever be made, and if it is attempted, it will be decisively repulsed. To land 250,000 Germans in England, with mechanized equipment, ammunition and necessary supplies, would be a gigantic operation. Once landed, that force would have to face 1,500,000 Englishmen under arms, fighting on their own island behind strong defenses. And to land those 250,000 Germans means practically complete mastery of the air, blocking off the English fleet, complete control of the Channel—none of which objectives have yet been attained after more than a month of intensive





effort. To sum up, I doubt whether the island can be conquered, and I am quite sure the British fleet cannot be put out of commission.

Now we come to our own danger of invasion and the perfectly fantastic hysteria that pervaded this country after the battle of France. I think any competent military or naval expert, certainly the vast majority, will tell you that there is absolutely no danger of an invasion of the United States even if Germany is completely victorious, and I doubt whether she will be. The amount of shipping required for the transportation of even 250,000 men of a modern mechanized army with their ammunition and supplies over 3,000 miles of ocean is colossal and it is to be presumed that our own navy and air force will not be idle.

No Army Can Attack Us

If it is impracticable or at least exceedingly difficult for an army to cross 25 miles of Channel, what valid grounds are there for supposing that a large army can cross 3,000 miles of ocean to invade a continent?

Some will inquire—why should it not be possible for Germany to seize bases in Mexico or Central America and attack from those countries. Again, that presupposes an overwhelming sea power. But even if that sea power were present, there would again be the same difficulties of a 3,000 mile long line of communication for an invading army. And an army once landed must cross an exceedingly difficult terrain before ever arriving at the Texas border. I think that hypothesis may be safely dismissed.

Panic First—Then War!

Now we come to the favorite bogey—air attacks. I quote from Major Al Williams' recent speech, reprinted in the Congressional Record—"Oceans and extended lines of communications are still vital factors in modern warfare. President Roosevelt's panicky flight schedule for the air invasion of America is ridiculous, worthy of Hollywood and certainly not of the White House. To support my argument against the President's wild flight schedule for a foreign air invasion of the United States I offer a single incontrovertible reason. With all their air power the Germans could not attack and subdue England from air bases 300 to 500 miles distant. Instead they seized air bases on the north coast of Holland, Belgium and France 20 to 100 miles distant from the coast of England. Each and every stage of

the fantastic itinerary for the air invasion of America would have to be conquered for the establishment of major air bases for the enemy attempting the job. The President must know this—but apparently the pattern is panic first, and then war."

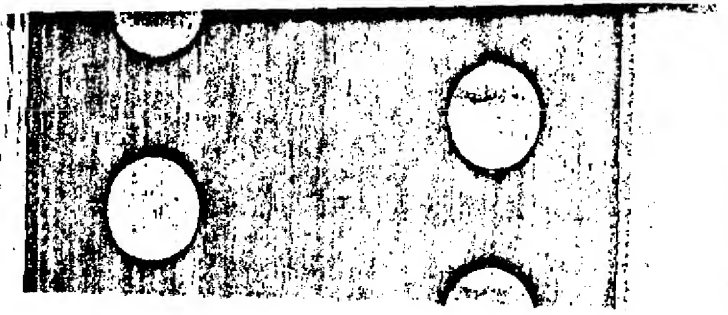
An Exhausted Germany Is Harmless

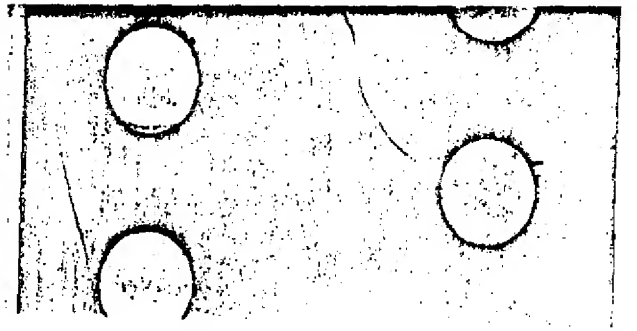
All of this presupposes a completely victorious Germany, ready at the end of a long and costly struggle, to immediately embark on a new and perilous adventure across 3,000 miles of ocean against a nation of 130,000,000 people. The present war represents seven years of preparation on the part of Germany. So-called total war represents a prodigal expenditure of labor, money and effort. Steel is rapidly consumed, aircraft and mechanical equipment are rapidly worn out, reserves of all kinds are exhausted, not to mention the wear and tear on human beings. A nation that for seven years has been given guns instead of butter is apt at the end of this war to demand more butter from its leaders.

So on every count it seems inconceivable to me that Germany at the end of the war, even if aided by its allies, who will be in a worse condition of exhaustion than Germany itself, will attack the United States. And if this country with its 130,000,00 people and its two great natural ocean barriers cannot defend itself unaided by Britain or anybody else, it does not deserve to survive. The great nation that has to trust to others for its defense is on the downward path to destruction.

Europe Must Have Our Goods

Now as to our economic problems. An economic war after the war—the loss of our European, Asiatic and South American trade. I have a high personal regard for Walter Lippmann's brains and ability, but I believe his picture of an unequal contest between a totalitarian economy and a free economy is misleading. After all, when two nations or two continents each have things the other needs trade eventually results regardless of the feelings each may have for the other. Europe needs us more than we need Europe—our materials and products are more important to her than hers to us. True, Germany has reduced largely its purchases from us, but more from necessity than choice. As far as South America is concerned, we can always obtain the lion's share of the trade of Mexico, Central America, Colombia and Venezuela because we buy the metals of Mexico, the coffee and bananas of Central America and Co-





lombia, the oil of Venezuela. In those countries, our geographical location must always give us the edge. We can take the coffee of Brazil but not its cotton; so its trade will naturally divide between Europe and the United States. It is in Argentina and Chile that our troubles come. We cannot take the meat, cotton and wool of the Argentina because we produce those products ourselves. The same applies to the copper and nitrates of Chile. We cannot sell unless we buy and that is a far greater obstacle than all Nazidom.

It must not be forgotten that Germany put on an intensive drive for trade in South America in the period 1936-1938, and if my recollection of the figures is correct, while Germany's percentage of the trade gained somewhat, the gain was not large, and it was largely at the expense of Great Britain; our trade declined only a fraction of one per cent.

We'll Get Our Share of Foreign Trade!

No man can foretell the future, but as long as we have products South America can use and above all, if they have products we can use, we will get our full share of the trade. As for Asia, the same remarks pertain as to Europe. Japan needs us far more than we need her. Our trade with Japan incidentally runs between five and six times the trade of China, whom we are making such great efforts to help. Even if Japan gets control of the Dutch East Indies—and that is not assured—she is going to be more anxious to sell us rubber and tin to obtain dollar exchange than we are to buy the products. And if war with Japan comes, we can get Bolivian tin and develop our synthetic rubber. We are certainly as resourceful as the Germans who are filling 90% of their rubber requirements with the synthetic article.

In 1937 Colombia's trade with us was 168,000,000 pesos, with Germany 40,000,000. Of Venezuela's trade, the United States took 12.5% of their imports and furnished 53% of the exports, Germany 13.6%. Of Costa Rica's imports, 42.5% came from the United States, 23% from Germany. Of her exports 45% went to the United States and 19.5% to Germany.

As for lack of organization, if needs be, we can meet fire with fire; we can set up export cartels and mass purchasing organizations and we can do this without danger to our system.

The Americas Must Stand Together!

Americans like myself feel that our true mission is in North America and South America. We stand today in an unrivalled position. With our resources and organizing ability we can develop, with our Canadian friends, an only partially developed continent like North America and a virgin continent like South America. The reorganization and proper development of Mexico alone would afford an outlet for our capital and energies for some time to come. And while I think we should try in every way to maintain the friendship of our neighbors to the South, I think we should also make it clearly understood that no government in Mexico, Central America and the Caribbean South American countries can be tolerated unless it is friendly to the United States and that we will make every effort to prevent the spread of totalitarian influence there.

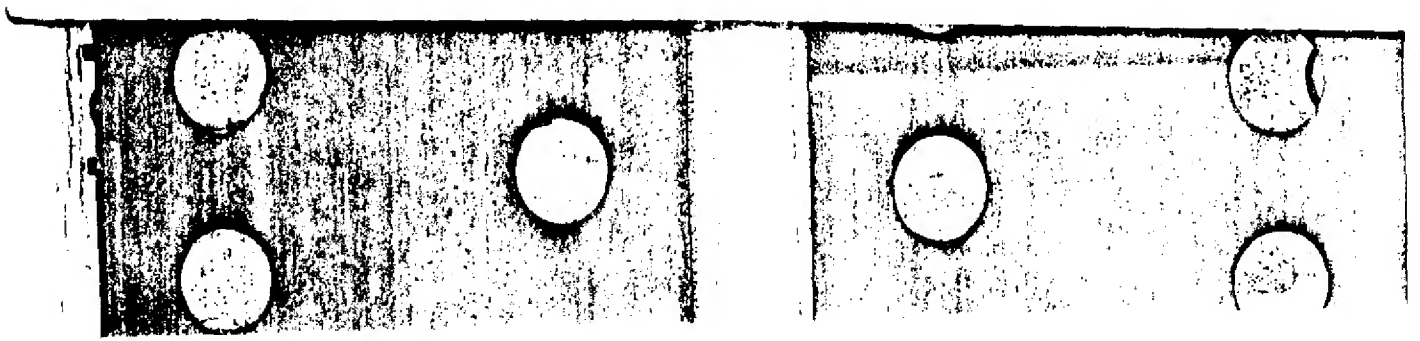
Instead of what seems to be a sane objective we are on the verge of throwing our treasure and our blood into a European war, with consequences that no one can foretell.

I respect the honest views of honest Americans, no matter how opposed they may be to my own, but there are two matters that I resent: First is the attempt to smear any one opposed to what I might call the majority publicized viewpoint of what we should do in this war. When the editor of a New York "newspaper" denounces Col. Lindbergh as the head of the Fifth Column in the U. S., we have reached the summit of mud slinging. You may disagree violently with Col. Lindbergh, you may feel he has made serious mistakes, but you have no right to denounce a courageous, patriotic American citizen as a traitor merely because he disagrees with your views. This is as bad as the Nazis, an attempt to suppress freedom of speech.

The other point I resent is the way the issue is being presented to the American people. We are being edged into the war without the masses' knowledge. We have the anomalous situation of the polls showing a majority of the people favoring a course that is bound to get us into the war, while the same polls show 88% of the same people oppose actual entry into the war. That shows that the minds of the people are confused.

How Wars Are Sold to Us

Many of my hearers were adults at the time of the previous war and were familiar with the propaganda that led up to that war. If you want to know the



history of that propaganda and its falsity, read a book by Sir Philip Gibbs with the title of "Now It Can Be Told," in which he admitted the outrageous lies that were perpetrated on the American public. And Sir Philip Gibbs was no German but the leading English war correspondent, knighted by his King. The London Economist in a recent issue said it was only a question of time until American public opinion could be brought to the point where we would actively enter the war.

I believe a majority of the people who are advocating "aid short of war" do not desire us to enter the war. But there are others who do desire us to enter the war, who are taking the necessary steps to prepare the American people for active participation, who would enter it tomorrow if they dared, who are today in practical alliance with England, and unfortunately they are the people who are shaping our national policy today. You hear in Washington today that we are now in the war. You hear predictions from men, and men who ought to know, that we will actively enter the war within sixty days after the election.

The American people should think this matter through. The course we are pursuing is bound to involve us in the war. You cannot play with fire and not get burned. You cannot have your government, not private manufacturers, transfer its equipment to foreign powers, you cannot have your government in an unofficial alliance with a foreign power, you cannot be a meddler in Indo-China, berate Italy and Germany without eventually involving the nation in war, and if war comes I venture to predict that we will repeat the history of the last war. When the declaration of war was made in 1917 originally it was intended to send only the Navy to the assistance of the Allies.

Man-Power, Too!

Joffre came over in the spring of 1917, told the plight of the French Army after the 1917 spring Champagne offensive, where whole divisions of the French Army mutinied, and implored us to send over a token force, otherwise France would collapse. We sent Pershing and the First Division, about 30,000 men. Then came the impending collapse of Russia, frantic calls for more men, then the great German offensive of 1918 and the rout of the British Fifth Army, more frantic appeals, until finally we put under arms 4,000,000 men, sent 2,000,000 men

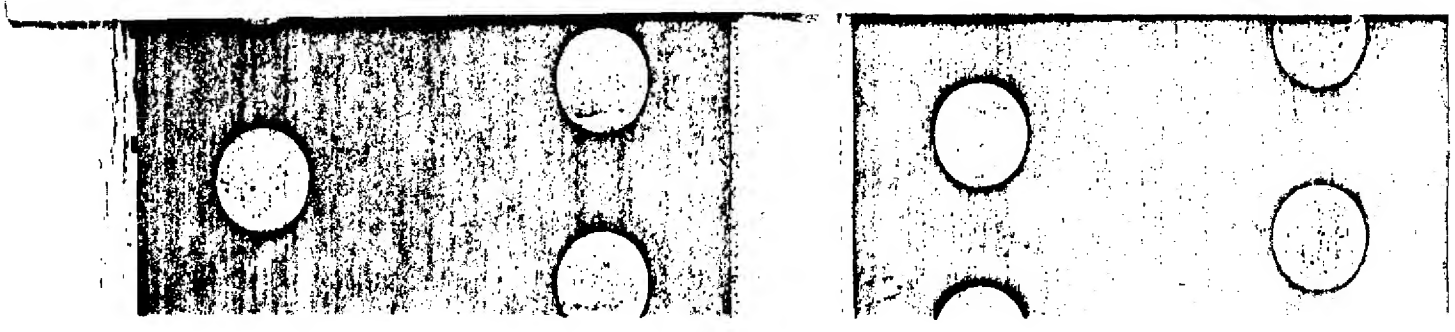
to France, spent 20 billion dollars and had 150,000 casualties. I need not refer to our treatment by our former allies after the Armistice. They took the loot, we did not even get thanks.

I do not often agree with the editorials on foreign policy in my friend Frank Knox's paper, but there is a recent editorial with which I am in 100% agreement. The editorial quoted two recent speeches by both Presidential candidates in which both pledged themselves never to send American boys to France. The editorial spoke of both these pledges as political bunk and very truly stated that if we entered the war we would enter it to win, and, if necessary to win, we would send an expeditionary force—and that is the absolute truth.

The People Must Know the Truth

The issue should be honestly presented to the people. If we aid Britain, short of war and beyond the limits of the Neutrality Act, it ultimately means war and should mean war. If we enter the war, we must enter it with all our strength in men and money. That is the only way to win a war.

If the military reports from abroad are correct, I feel there is no doubt that Great Britain can defend her island, her dominions like Canada, Australia and New Zealand. She may lose Egypt, the Suez and Gibraltar, though this is extremely doubtful. So far the Italians have shown no signs of real offensive strength. There is little doubt that England can make a negotiated peace by which she can keep her fleet and her colonies, but which will leave Germany the economic control of Western Europe. But she cannot decisively defeat Germany unaided. Her statesmen privately admit that, and say that for her to gain a decisive victory we will have to actively enter the war. One of the great mistakes made by the Allies in this war was that in its first six months they thought they could win a safe economical war, with France sitting behind the Maginot line and England maintaining its blockade, with little expenditure of blood and a minimum expenditure of treasure. For us to actively enter the war means ships, planes, money, men, expeditionary forces. That is the issue that must ultimately be presented to the American people, and it should be presented openly, honestly and squarely.



Our Own Democracy Will Be Sacrificed

In deciding this issue, the American people should face the costs. We start with a debt of $50,000,000,000. With the enormous cost of waging modern war, the cost of sending forces over 3,000 miles of ocean, of engaging our navy in the Far East, we would ultimately face a debt of from 100 to 150 billions. Victorious or defeated, we will be faced at the conclusion of such a war with great economic dislocations —the rich would face a capital levy, the middle classes impoverishment, and the masses a lowered standard of living and the loss of most of the social gains so far secured.

Competent observers believe that if the war is prolonged in Europe over one or two years, it will result in Communism in all Europe, and a species of National Socialism in England. If we are involved, it probably spells the end of capitalism all over the world.

Defend America First, Last, Always

I would unhesitatingly say to throw everything we have into a war to defend the United States or our own sphere of influence, which is the North American continent and part, if not all, of the South American continent. I do not think the American people should make these sacrifices to interfere in the quarrels of Europe and Asia, old, sick and overpopulated continents with ancient rivalries that cannot be healed. It is up to the American people to decide whether they want to make these sacrifices to preserve not England but the British Empire, and help regulate Europe and Asia. But they should make the decision with all the cards on the table, not misled by artifice and subterfuge.

But if that decision is given affirmatively, I think you will find Americans like myself, who sincerely believe such a course spells disaster to the nation, will be at their posts of duty in the service of this country. I am old fashioned enough to believe in the toast offered by Stephen Decatur back in 1816, "Our Country! In her intercourse with foreign nations, may she always be in the right: but Our Country, right or wrong."

RE: AMERICA FIRST COMMITTEE;
INTERNAL SECURITY

Dear Sir: -

b7C On February 12, 1941, [redacted] called at the New Orleans Field Office and furnished the following items pertaining to the America First Committee:

(1) Blank Membership Card;

(2) Flyer opposed to H.R. 1776;

(3) Letter addressed to "Fellow American" signed "R. Douglas Stuart, Jr., National Director";

(4) Flyer entitled "What Every Citizen Can Do to Defeat the War Bill (No. 1776)";

(5) A list of all Senators and Representatives.

This material is apparently published by the America First Committee with offices at 141 West Jackson Boulevard, Chicago, Illinois, and although b7C [redacted] is considered to be possibly a psychopathic complainant, it is believed this material should be in the possession of the Bureau for its information.

Very truly yours,

PRINCIPLES

1. The United States must build an impregnable defense for America. With such a defense no foreign power, or group of powers, can successfully attack us.

2. Americans should and do cherish the ideals of democracy and abhor dictatorship, but the welfare of one hundred thirty million Americans and the preservation of democracy on this continent demand that the United States keep out of foreign wars.

3. The cash and carry provisions of the existing Neutrality Act are essential to American peace and security. Within the limits of that Act Americans may properly aid Great Britain. Aid to her beyond the limitations of the present Neutrality Act would weaken our defense at home, and might well involve us in conflict. We oppose any change in the law which would permit American vessels to enter the combat zone or which would permit the American navy to convoy merchant ships through that zone, as any such course would inevitably plunge this country into Europe's war.

4. With proper safeguards for the distribution of supplies and the maintenance of our neutrality, Americans should, to the limit of their ability, give humanitarian aid to the suffering and needy people of England and the occupied countries.

Fellow American:

We deeply believe that your response to this letter will help determine the fate of American democracy.

You are one who has indicated that you want to keep America out of war. You are one who knows that war means dictatorship.

Now we are actually faced with both horrors. A bill is now before Congress (ironically numbered 1776) which would give the President the power to take us into war.

Through this single bill the expressed determination of the American people to avoid war abroad could be thwarted by one man.

The fight to keep out of war and to preserve our democracy is now the fight to defeat this war dictatorship bill -- to defeat it completely and without compromise.

We are enclosing some of the weapons with which this threat to our liberty and security can be fought.

You must act now and keep active during the next few weeks. It may be our last chance.

We ask you to follow the suggestions on the enclosed sheet. And we ask you to send us a contribution immediately. Such a contribution, we believe, will be the greatest investment you have ever made -- an investment in American democracy.

Yours for action,

R. Douglas Stuart Jr.

What Every Citizen Can Do

To Defeat the War Bill [No. 1776]

REMEMBER: This bill CAN be defeated if you will make your voice heard in Washington immediately.

These Are the Men Who Must Hear From You ...

1—Your two Senators X wrote them —

2—The President

3—Your Congressman

4—Senator Walter F. George, Chairman of the Senate Foreign Relations Committee. I wrote him urging vote for

How You Can Reach Them ...

1—Send telegrams

2—Write letters or postcards

3—Telephone. Yes! Phone your Senators in Washington. Ask to speak to them PERSONALLY. Tell them why you want them to vote against the bill. Ask them how they are going to vote. Just give long distance the names of your Senators and say you want to speak to them in Washington.

How You Can Get Others to Act ...

1—Make a list of all the men and women you know—friends, relatives, neighbors—and get them to do exactly what you are doing. (Get at least 10 as your minimum goal).

2—Urge organizations of which you are a member to pass resolutions against the bill and invite speakers to describe its dangers. (Rotary, Kiwanis, Y.M.C.A., Y.W.C.A., Etc.)

3—Write letters to the editors of your local newspapers, also to the editors of magazines you read, also to the Washington political columnists you read. Write your radio commentators in care of your local station, or the network.

What Else You Can Do ...

1—Become active in the local Chapter of the America First Committee.

2—If there is no local chapter, now is the time to get together with like-minded citizens and organize one. Write immediately for further details.

Dear Mr Hoover -

The following may
how to get the lowdown on a lot of
Nazi + communist 5th columnists
who may be ready to sabotage our
defense industry. The enclosed
clipping gave me this idea.

How about having a flock
of F.B.I. agents planted at one or
several of these America First Com
-mittee meetings where Burton K. Wheeler or
Lindbergh speaks and also Senator
Nye speaks at a certain crucial
moment have one of your selected
men get up and shout
"Heil Hitler" Then
Nazi + communist fist
fights will break out

President's Name Booed and Hissed

NEW YORK, Feb. 20. (AP)— The names of supporters of the British aid bill, including President Roosevelt, were booed and hissed tonight at a mass meeting at which Senator Burton K. Wheeler (D.) Mont. and Senator Gerald P. Nye (R.) N.D., asserted passage of the bill would mean almost immediate involvement of this country in war.

The audience at the meeting, sponsored by the America First Committee and the Keep America Out of War Congress, was described as "un-American" in a statement issued at its conclusion by Dr. Frank Kingdon and Herbert Bayard Swope, chairman and vice-chairman, respectively, of the New York chapter of the Committee to Defend America by Aiding the Allies. Their committee supports the bill.

"This audience booed and hissed every mention of the names of President Roosevelt, Wendell L. Willkie and other American spokesmen, yet not a murmur of disapproval was evidenced when one speaker referred to Hitler, Mussolini and Stalin," Dr. Kingdon and Swope said in a joint statement.

AMERICA FIRST COMMITTEE

The America First Committee was incorporated under the Not for Profit Laws of the State of Illinois on September 19, 1940. The purposes of the Committee, as outlined in its charter, are to encourage and maintain in the United States of America:

1 - Peace and the Democratic ideal.

2 - A program of adequate defense.

3 - In furtherance of peace on this continent, a policy of nonintervention in the affairs of other continents; and to encourage the giving of help to refugees and the needy in other lands in so far as such help does not endanger the maintenance of peace in the United States.

The America First Committee has advertised itself elsewhere as being a

"nonpartisan organization of loyal and patriotic American citizens who believe:

1 - The United States must build an impregnable national defense.

2 - No foreign power nor group of powers can ever successfully invade a prepared America.

3 - Our Government's sending more of its own ships, planes and materials of war to a belligerent overseas, dangerously weakens our defense at home and threatens to involve America in war abroad.

Dear Steve:

Reference is made to your communication of February 21, 1941, to which was attached a memorandum directed to you on February 21, 1941, by the President. It is noted that there was attached to the memorandum from the President a circular distributed by the America First Committee.

With regard to the President's request for information as to the source of funds of the America First Committee, I am attaching hereto a memorandum, dated March 1, 1941, which not only furnishes the desired information, but provides additional data concerning the America First Committee.

If it is the President's wish that a more exhaustive investigation be made relative to the means by which the America First Committee is being financed, I hope you will not hesitate to call upon me to conduct such investigation.

With assurances of my highest regards,

Sincerely yours,

In RE: Isolationists Plans to combat administration war hysteria in the United States, as claimed by this group.

14109

Plans are under way, in conjunction with the cooperation with the America First Committee, in having Senators, Congressmen and various peace and patriotic organizations travel throughout the country for complete coverage in opposition to any plans that the President might have in bringing this country into war. It is planned that three Senators, several Congressmen, and various members of patriotic, civic, and peace organizations will cover the Northern part of the United States, where another similar train-load will cover the Southern part of the United States, and a third will leave the East for coverage throughout the Middle part of the United States, completely out to the Coast. It is the plan of this America First Committee, together with numerous Senators and Congressmen, to give this plan complete coverage throughout the United States. It appears that sufficient funds are at hand to complete this program. General Wood and Senator Wheeler will be known as the spearhead organization.

MEMORANDUM

Information of a strictly confidential character has been received to the effect that plans are presently under way to have Senators, Congressmen, and various peace and patriotic organizations travel throughout the United States to reach all areas for the purpose of opposing any plans that the President might have in bringing this country into war. It is said that these plans are in cooperation with the America First Committee.

It is reported that three Senators, several Congressmen, and various members of patriotic, civic, and peace organizations will cover the Northern section of the United States, while a similar trainload of individuals will cover the Southern part of the United States. A third group will proceed from the East through the Central part of the United States and to the West Coast.

Apparently there are sufficient funds on hand to complete this program. General Robert Wood and Senator Burton K. Wheeler are to be known as leaders of this plan.

My dear Mr. Hoover,

We have been working in New York in forming the New York Chapter of America First. We have now between fifteen thousand and twenty thousand members. We specifically state on our membership card that these members sign up as American citizens and are not connected with any foreign power or subversive influence.

Nevertheless, to be completely sure that our membership is in accordance with our desires, we would like to have one of your agents go through our membership lists to discover whether or not there may be a few who do not answer the qualifications required for membership.

We are all loyal American citizens working for a cause which we think is right and, naturally, don't want to have any foreign influence in our membership.

Very truly yours,

Edwin S. Webster, Jr.

Dear Mr. Webster:

I wish to acknowledge receipt of your letter of March 28, 1941, and to express my appreciation for your courtesy and interest in writing as you did.

Since the Federal Bureau of Investigation is authorized only to conduct investigations with respect to certain classifications of criminal matters, it is not properly within the scope of our activities to pass upon the qualifications of persons applying for membership in your organization. The information contained in the files of this Bureau is confidential and can only be released through official channels upon the specific authorization of the Attorney General. I am sure that you will understand the reasons why it is not possible to comply with your request.

However, should you receive any information which you feel would be of interest to this Bureau in connection with national defense matters, I wish that you would feel free to communicate directly with Mr. B. E. Sackett, Special Agent in Charge, Federal Bureau of Investigation, United States Department of Justice, 607 U. S. Court House, Foley Square, New York, New York.

Sincerely yours,

Senator Lucas: May I suggest that the Department of Justice, or other proper body, be required to look into the genesis of the so called America First organization. A local chapter is being formed and so far as I can see its foundation is a mixture of religious and political fanaticism mixed with blind hatred of Britian on the part of a small percent of our people of Irish and German extraction who allow their imported, (and in most cases inherited dislike) to dim their vision as regards the welfare of this nation. Being based on hatred the organization is certain to tear itself to shreds in time but for a period may attract quite a following among a considerable number of well intentioned but misguided folks. To the degree that it succeeds Hitler's contention that representative government can be depended upon to destroy itself by dissension within will have been proved.

Yours truly,

Cites Nazi Support Of 'America First'

Editor, The Herald Statesman:

The Westchester Chapter of the America First Committee recently held a meeting in Bronxville, which was reported in your newspaper. The speaker said that the aim of the committee is to keep America out of war. He said that the group is neither anti-British nor pro-Nazi.

I hope that any of your readers who are interested in the America First Committee will send to the Friends of Democracy, Inc., 103 Park Avenue, New York, for a free brochure entitled, "The America First Committee—The Nazi Transmission Belt."

This pamphlet, fully documented, shows how the America First Committee is being strongly supported by American Nazi and anti-Semitic groups. Their members swarm to America First meetings. They are urged to distribute its literature, recruit members for it, and support it financially. The brochure also quotes a radio broadcast from Berlin, commending the America First Committee as "true Americanism and true patriotism." Virginio Gayda, Mussolini's mouthpiece, is also quoted as praising the committee.

The pamphlet does not indict the sincerity of the rank and file of America First members, nor does it accuse the committee of being a Nazi group. But it points out that it is always a totalitarian device to get other groups to further its propaganda. Thus Berlin and Rome, and their pro-Fascist groups in this country, have rallied to the America First banner because its advocation of a foreign policy favorable to the Axis is doubly effective, since it comes from a group which does not bear the stigma of an alien loyalty.

E. SINCLAIR HERTELL,

UNITED STATES OF AMERICA

Congressional Record

PROCEEDINGS AND DEBATES OF THE 76th CONGRESS, THIRD SESSION

SPEAK UP, MR. WHITE!

EXTENSION OF REMARKS

OF

HON. EDWIN C. JOHNSON

OF COLORADO

IN THE SENATE OF THE UNITED STATES

Thursday, December 19 (legislative day of Tuesday, November 19), 1940

OPEN LETTER BY WILLIAM E BARRETT TO WILLIAM ALLEN WHITE

Mr. JOHNSON of Colorado. Mr. President, Mr. William E. Barrett, a distinguished newspaper man and author, of Denver, Colo., recently addressed an open letter to William Allen White which should be read and studied by every pro-American in the United States.

One need not agree fully with Barrett's inferences and deductions to be challenged by his demand that we think this European war through to the peace table before we move further into the vortex of its hell. After all, what goes on at the peace table when the war is finished is what counts. At the end of the last war we listed 14 points as the objectives of the Allies, only to find in the end that the Allies were only "kidding" us. Shall America forget her bitter disillusionment at Versailles?

This time let Britain name the objectives now and give us some assurance of her sincerity to stick to them come what may before we serenely follow her up the "blind alley" of British imperialism to our own destruction. William Allen White owes it to America to frankly answer Mr. Barrett, and if he himself does not know the answer, let him get it from Britain before he leads us farther down that one-way road.

I ask unanimous consent of the Senate to insert in the Appendix of the RECORD Mr. Barrett's open letter to Mr. White.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

AN OPEN LETTER TO WILLIAM ALLEN WHITE

(By William E. Barrett, author of Woman on Horseback, etc.)

MY DEAR MR. WHITE: You are the spearhead of the drive for all possible United States aid to Great Britain in the present war. By your own definition, you are an "engine of publicity and propaganda." Laying aside the unpleasant thought that any worthy cause needs propaganda in order to win the support of the American people, you are doubtless interested, as a publicist, in any suggestion which will win millions of converts to the cause you serve.

There are many millions of people in the United States who do not believe with you that the safety and security of this Nation rests, or ever has rested, in the hands of Great Britain. Many millions of us refuse to believe that we owe our existence as a nation to the protection of the British Fleet, which you would have us bolster at the expense of our own fleet. Many millions of us are opposed to the future moves on your agenda: To repeal the Johnson Act; to further stripping of our own defenses in Britain's behalf; to the use of the United States Fleet for convoy duty in the Atlantic; to the use of our fleet for the defense of Singapore; and to the use of American troops as an expeditionary force to any part of the British Empire, leased or otherwise.

You acknowledge the weight of opposition to your "Britain first" program by the very intensity of your propaganda drive. High-pressure selling and advertising invariably indicate an inferior product or strong sales resistance to be overcome. You can overcome sales resistance to your drive by a few honest answers to the questions which every American has the right to ask. Americans must pay in money, in the sacrifice of personal liberty, and ultimately in blood for the British victory which is your avowed objective. They should not be asked to purchase blindly at so great a price.

Imagine for the moment that your objective has been attained. Nazi Germany has been smashed, Italy crushed, and the victors are seated at the treaty table. Obviously, this time there are but two victors—Great Britain and the United States. It is not necessary to imagine the steps that place those victors at the treaty table. You should be able to tell us what will happen when your objective is attained, because surely you are not leading your followers on a blind gamble without knowing your goal. Or are you?

All right; the war is over. Great Britain, with the United States aid which you did so much to win for her, is victorious. What follows that victory? Europe is impoverished; Great Britain and the United States have accumulated monstrous debts. The economic system of the conquered nations has been destroyed—and English-speaking nations hold the destiny of the world upon a table.

You have won a reputation as a homely philosopher of the plains, and you carry the role well into the field of foreign affairs. You are quoted as advocating the outright gift of fabulous sums to Great Britain rather than the making of loans because "nations are like human beings. Loans destroy friendship." Probably, in thinking about that future treaty table, another homespun saying might be as pat: "Nations are like human beings. You can only judge them by their past performances."

We sat at a treaty table before with Great Britain after a war that we helped her win. Our objective in pouring out money, sacrifice, and blood was vague then, as now. We merely wanted to rid the world of the Kaiser and of German imperialism, which was trampling human rights. We wanted to make the world safe for democracy. We were assured by other stanch American spokesmen for Britain of that day that such, too, was Britain's objective. There was the war aim. At the treaty table we found out that Great Britain, strangely enough, wanted enormous additions to her vast Empire, colonies, and mandates; furthermore, that Great Britain's demands fitted a carefully planned pattern. In previous wars she had encircled the coal-producing regions, but the age of oil had crept upon her. Versailles fixed that, and the new map brought the oil regions into the British orbit as well as additional territories which converted her controls over vital raw materials into virtual world monopolies. We went into the war with an ideal and into the treaty room with 14 points. Both went out the window—and, since Great Britain took vast loot from the victory that we helped her to win, that loot, in the cold light of history, was the British war aim in the first World War—that and nothing else.

Now, imagining this war as over, Great Britain and the United States are partners again. Having won, is it your idea that we will retire once more with Great Britain's debts and our own debts to pay, with nothing to show for it save some kind of a League of Nations' diploma attesting that again we have saved democracy and

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

the right of Britain to divide up the lands and the waters of the earth?

Or, having shared the cost of the war, is it your idea that we should split the proceeds, share and share alike on the loot, with Great Britain? That would mean imperialism, you know; the maintenance of colonies and the exploitation of subject races. We have never done that because our forefathers, who were all isolationists like those who oppose you and your committee, had an idea that such practices are incompatible with the idea of democracy. You have changed much of that line of thought, however, and the American people have come to believe that Great Britain is a democracy like our own, so probably you will not have serious trouble. The people of Kansas, for example, may even like the idea eventually of black men toiling under a distant sun for gentlemen farmer absentees.

Or do you believe that the treaty table of the two victors will merely restore the pre-1939 status quo? Will they put all the little nations back in their places, restore the world monopolies to Great Britain—plus the advantages of no more competing synthetics—and allow us the glow of a good deed well done? If that is the idea, and most of your followers seem to think so, there are some real questions for you to answer.

What are the two victors going to do about Russia, who certainly will not have lost anything since Russia has played the role which you and your friends have not permitted us to play; the role of powerful neutrality, without expense, without casualties, and without domestic upheaval? In restoring the map of Europe to its pre-war status, will the two victors insist on Russia's withdrawal from Poland or will they be satisfied with a half Poland on the map? This is an important question since Poland is the excuse which Great Britain used for starting the holocaust in Europe with her declaration of war. Will the two victors insist upon Russia's withdrawal from Finland? What about Estonia, Lithuania, and Latvia?

If nothing is done about these nations, isn't it possible that even propaganda-drugged minds will suspect that perhaps the war was not fought for freedom, democracy, and the rights of small nations; that perhaps it was just another trade war to eliminate a strong competitor with the rights of small nations no more important to one side than the other?

Suppose that Russia refuses to surrender any territory—or even insists upon being handed more territory as the price of acquiescence in the transactions of the British-American treaty table? Will the United States and Britain immediately launch into another war against Russia—or will they pay Russia's price? Will this be appeasement and are you in favor of it? Consistently, it does not seem to us that you could be in favor of that, and so we are afraid that by following your lead now we shall be at war for a long, long time: First, the European continent to be rewon and then Russia to be conquered—to say nothing about the Orient.

Of course, many of the people who follow your doctrines are ready now to accept Communist Russia as a democracy, provided Russia makes favorable trade agreements with Great Britain, so perhaps Russia will not be such a problem at that peace table. If the Soviet is then accepted as a democracy there may not be any mass protest over assigning to Stalin any nation or people he may demand. What do you think?

Leaving Russia out of it, there are a few small nations left that may prove troublesome when it comes to restoring the map as it was. The people of Belgium, for instance, may want to retain their king. Great Britain will hardly stand for that. Perhaps you have some plan for Belgium. Would you favor removing the Belgian king in defiance of the wishes of the people he refused to sacrifice to protect a British retreat? Would it help you if a nice term were coined for the deed; such as the redemocratizing of Belgium?

What about Holland? Queen Wilhelmina ruled over 8,000,000 Dutch and 63,000,000 subject people in the Dutch colonies. The labor of the 63,000,000 made Wilhelmina the richest monarch in the world, and made her English partners millionaires, but over one-quarter of her 8,000,000 subjects at home were on relief. When trouble came to Holland, as a consequence of the noble queen's under-the-table dealing with her financial partners in England, the Queen fled to where her money already reposed. Suppose the people of Holland prefer to leave the wily Wilhelmina in England? Do you favor restoring her to the post which enriched her and impoverished Holland? Do you favor the use of United States pressure to so restore her to the historic Dutch Empire capital in Holland or the new seat of power in Batavia?

And Denmark? We know, of course, from your voluminous writings that the taking of vengeance upon noncooperating people is a purely Nazi trait and a piece of wickedness in which noble nations like Britain never indulge; but just suppose that at the treaty table Great Britain suggests measures of punishment for the Danes who cooperated with Germany in order to prevent their country from becoming a battlefield. Should the United States protest—or can the United States protest?

Just what is the position of the United States at that future treaty table of the victors, at which Great Britain will never sit unless we put her there? What do we stand for in Europe, now that you have brought us into it? Do we stand for a federation of European states, operating on a free-trade principle like ours upon their own continent? If we do, what are we doing in an alliance with Great Britain? Great Britain will never stand for that and will fight wars in the future, as she has fought them in the past, to prevent any such federation, with its threat of competition to the Empire. Do we stand for the doctrine that Europe should be broken into a series of small and individually helpless nations, forced to arm perpetually against one another and to surrender the rights of their citizens in exchange for the right to trade with the Empire monopolies? If we do not stand for that, why the British alliance? Britain stands for just that and never for any other orientation of Europe.

At the treaty table will we repeat Versailles? If not, can you quote a single British or American statesman on how Britain's war aims differ in the second World War from what they were in the 1914–18 struggle?

Are we going to take colonies for ourselves, or will we consent to Britain's taking control of the French colonies as she seized Germany's colonies after the first World War? Can you suggest how the United States can prevent such action, once we have conveyed all of our strength to Britain, won her war for her, and, by Herculean effort, maintained her as mistress of the seas? Have we any guaranties that Britain, her list of world monopolies increased, will not double and triple the cost to us of vital raw materials, as she did when Versailles gave her the German colonies?

We are not only being committed to a course of action beneficial to Great Britain, but we are implementing that commitment at great sacrifice and cost to ourselves. To what is Great Britain committed so far as the United States is concerned? Please name one thing.

Do you believe that the British Government would permit a pro-American committee to operate in England as your pro-British committee works in the United States? If not, do you think it is fair to whip American feeling to such a pro-British pitch to the positive detriment of America's future when there is no corresponding effort being made to impress upon the British people their indebtedness to us? As a matter of fact, isn't it true that your committee's releases are being quoted in England as evidence that even Americans believe that our aid to Britain is inadequate?

At that treaty table, is there any reason to believe that Winston Churchill will feel any differently than he felt about us before—after we had already delivered everything Britain wanted and when they no longer needed us? Remember what he said then: "President Wilson sought to play a part out of all proportion to any stake which his country had contributed or intended to contribute to European affairs."

In other words, having fought for an ideal, we sought to have the ideal recognized at a time when Britain was concentrated upon loot. Our Navy's great convoy job, the blood we shed in France, and our billions which Britain never paid, or intended to pay, did not add up to much of a stake then so far as Mr. Churchill was concerned. The war was over. The income alone on the rich loot which Britain took from Versailles, where the United States—guarantor of her victory—took nothing, would have paid her debt to us several times over in the past 20 years—but Britain welshed; and you, in simple homespun words, say that we should not lend again, but we should give!

Have you the slightest idea as to what the economic issue is in this war—or do vulgar economics bore the high-minded idealists of your committee? You wave at us the danger of Nazi penetration in Latin-America and you use Latin-America as the big fear spot to urge aid to Britain. Do you know that a long line of Englishmen, back over a great many years, are on record to the effect that any close rapprochement between North and South America is fraught with danger to Great Britain and must be prevented lest Great Britain find it necessary to fight some day in order to dissolve the threat to Empire which a solid pan America would represent? Do you know that the nations of South America must trade with Europe because they have no other market for their principal products—and that an impoverished Europe must barter with Latin-America after the war, whether Germany wins or England does? England, with the European control we win for her, as a vital customer will dictate the foreign policies of Latin-American nations—and Great Britain dares not permit North and South America to work in harmony? Figure that out.

Imagine the United States at the treaty table as one of the two victors in a war over the destiny of Europe, Mr. White, and tell us your idea of what should come of it. That is all that you have to do in order to win millions of converts. Generalities will not do, of course. Tell us what our war aims are as they will be expressed at that treaty table. Tell us what you believe England will want, and Russia. Tell us what ace in the hole the United States will retain in order to command respect for American demands at that treaty table—and tell us how we are going to protect ourselves against Great Britain if hostility grows out of the post-war settlement, considering the fact that we are accepting an inferior role and restoring another nation to greatness and to possessions beyond our own.

In other words, if you have given any thought at all to the future of the United States during these many months when you have been preoccupied with the affairs of Britain, let us have your ideas. We are weary of taking one blind step after another. We want to view the distant scene which so appeals to you.

Quite frankly, there are millions of us who believe that you are beating the drums for the greatest blind gamble in history. We are opposing you because we believe you represent the greatest danger which this country has faced in all its history. We do not believe that you have the slightest idea of where you are going, and it is time to say that a vast majority of our people hope that you are not taking us with you.

A PETITION T THE PRESIDENT 'ND CONGRESS OF THE UNITED STA'ES

We, the undersigned citizens of Central Ohio, are decidedly opposed to the convoy of either American ships or ships of foreign flags by the United States Navy.

Equally determined, we are opposed to the entry of this country, with any part of the armed forces of the United States, into any foreign war.

ination, she does not believe it. At the beginning of this war, Britain offered Hungary all of Czecho-Slovakia if Hungary would fight on the Allied side. What we should believe is that, each nation deserves and should have its political independence but its economic independence, with tariffs, trade barriers, etc., will have to be co-ordinated with the larger powers if peoples are to survive the Machine Age with its impact upon every phase of human endeavor. Otherwise, it will be dog eat dog in trade wars until the race is exterminated.

Quote: "These men and their hypnotized followers call this a New Order. It is not new and it is not order."—(Mr. Roosevelt's speech, March 15th.)

Comment: Carl Becker writing in the Spring issue of the Yale Review says, "We have been hearing a good deal lately about the New Order in Europe. As a description of the existing situation the phrase is slightly inaccurate in two respects: first, the new order isn't new; second, it isn't an order. Perhaps it will clarify the situation a little to call it the same old disorder." Since Mr. Roosevelt does not write his own speeches and indeed, often has not even seen them until ready to deliver them, it would not be fair to blame him for this steal from another man's writings. But his ghost writer should have the fairness to refrain from taking half a sentence from another's thoughts. Europe is certainly not yet in order but much has been accomplished toward that end during the past ten years. They have solved many economic problems we have not solved. Socialism is not new, but the economics applied to the form of Socialism adopted in Germany is new. It is far better than Russia's effort to make everything community owned (communism) and better than our effort to do nothing that would radically offend the capitalists. You can imagine for instance, what an appropriation of 15 billion dollars to make the wheels of industry start turning again would have done to our capitalists! We had to prevent peace in Europe and get squarely into the war before such sums of money could be gotten. Having gotten it, the capitalists will get much of it in contracts but when there is no one left to fight, what then?

Quote: "A British victory over Germany will lead to the restoration of the gold standard, fixed currency ratios, and a vast program of development in Asia, Africa and South America."—(Sir George Paish in his new book, Out of Chaos.)

Comment: The Christian Century suggests that the word 'exploitation' should be substituted where 'development' appears in the sentence above. Sir George had much to do with America's entry into the last war 'to save democracy'. It was Sir George who stormed into Senator Carter Glass' office last Fall and informed the Senator that the United States would come into the war any time Great Britain wished us to. The Senator pretended great (but short lived) indignation and Lord Lothian suggested that Sir George go home to England. But apparently Sir George has many American supporters in his scheme for a new imperialism which would open three backward continents and greatly enrich the British Empire. Unfortunately, the American taxpayer is supposed to foot the bill. Also, we are expected to help police these worlds after conquering them. Josiah C. Wedgwood broadcasting from England has this to say to us and about us, "If I pin my hopes to union with America, it is because union is the strongest bond, leaving no loophole for evasion of duty, or responsibility for sacrifice in the future." (!) In other words, having escaped our net in 1918 we will give you no chance this time. The Union Now movement is very strong in interventionist circles.

Quote: "Our investments in the East amount to exactly the sum of this nation's annual chewing gum bill. Are we going to fight a costly naval war to protect those investments?"—(John Flynn.)

Comment: If we fight Japan it is solely to protect British and Dutch holdings in the Far East. There is no reason for this except that we purchase tin and rubber from the Dutch East Indies. The rubber we can make artificially and the tin we could buy from the Patino Mines in South America if the British owned smelting interests would sell to us but so far refuse to. The reason is clear, they wish us to fight Japan. It looks as if we are going to oblige them.

Quote: "Now we find these same international bankers, with their royal refugee friends, the Sassoons of the Orient, the Rothchilds and the Warburgs of Europe in another theme song—our investments in in India and Europe must be preserved—save democracy!"—(Senator Burton Wheeler, in radio address March 4th.)

Comment: The Sassoons are the fabulously rich British Jews who own the cotton mills of India where labor laws and child labor regulation is non-existent, while the Rothchilds and Warburgs are international bankers, also fabulously rich. For this remark Mr. I. F. Stone writing in the March Nation calls Mr. Wheeler anti-Semitic.

Quote: "We cannot have mass production and mechanization without planning. Engineers and their financial backers are planners. Dictators are planners. Whether they know it or not, most corporation executives and engineers are necessarily totalitarian in practice. Hitler, Mussolini and Stalin clearly have the instincts of engineers. Their states are social structures."—Waldemar Kaempffert in Foreign Affairs, January.)

Comment: The United States is moving towards this planned kind of economy, which in Germany is called Socialism. But the correlation between these New Deal ideas (socialism as we wished to endorse it under the New Deal) and the new imperialists who are really our capitalists, is something that will have to be revealed later on—perhaps only by events themselves.

Fellow Citizen:

These are quotations from the great and the near-great, with comments upon the quotations. It is not meant as criticism but rather an effort to understand their processes of reasoning and in some instances, to point out their meaningless play upon words, effectively used to bemuse the human mind.

Quote: "Control of the radio means control over the minds and emotions of millions of listeners. This trump card is held by the interventionists."—(John Flynn in the March Commentator.)

Comment: How many of us know who owns the Columbia and National broadcasting companies? The Government Communications Bureau has the power of censorship in the last analysis.

Quote: "In two of our chapters—New York and Washington—we have a bunch of war-mongers and under our organization we have no way to oust them and I just can't remain at the head of an organization which is being used by these two chapters to ghost dance for war."—(M. Wm. Allen White stating his reasons for resigning from the "Aid to Allies Committee.")

Comment: Mr. White's statement was suppressed by the Associated Press after having been published in a Birmingham paper to whose editor the statement was made. Who owns the Associated Press?

Quote: "We believe firmly that when our production is in full swing the democracies of the world (where are they?) will be able to prove that dictatorships cannot win."—(Mr. Roosevelt's speech March 15th)

Comment: Ours is the only country left not under a rigid dictatorship, or a viceroy with dictator powers, or a monarch and dictator, (as in Greece), to depose any one of which would mean the establishment of another. To conquer the continent and establish another dictator (more to our liking) in either Germany, Italy, or Russia, would cost the lives of at least fifteen million men. The truth is, it is not dictators but full production (full employment) that is Mr. Roosevelt's problem. Granted that totalitarian economy has its advantages over free enterprise, it seems selfish indeed to destroy something because it is more efficient. We are using the war to obtain full production and full employment and that is why Mr. Tugwell exclaims with glee . . . "from an economic standpoint, it's a grand war" . . . It is said in Washington that our economists have known all along that we could have gotten full production, employment, consumption, etc., without war with appropriations of from 12 to 15 billions but the appropriations could not be had without the war crisis. The other reasons for war were outlined in last week's leaflet—the question is, are we getting in too deep? In other words, if we cannot solve our own problems why should we think we can solve world problems by force of arms in strange lands?

Quote: "I know that the war, even if it ends in victory for England, involves very grave dangers to democracy and freedom. I fear also that British war aims—which Mr. Churchill still refuses to state —will probably be found, if we win, to have contained an element of imperialism."—(Bertram Russell, New York Times, March 8th).

Comment: Britain and France had well formulated and clearly stated war aims when the war began. Taking this information from an editorial appearing in the Philadelphia Ledger for April 18th, 1940, these aims were: Close collaboration between the British-French empires in economic matters with the view to extending this collaboration even to the point of common citizenship. Control of Central Europe with a newly formed "English Commercial Trading Corporation, Ltd.," financed by the British Treasury for the purpose of controlling barter trade between Germany and other nations. The Balkan countries were to continue getting the products they needed from German industry but the Balkan products needed by Germany would be bought by the Corporation. To relieve post-war unemployment and make control more complete, an Allied force of two million men would be stationed in Europe for twenty years. Germany would be cut into small states. This editorial ends with the observation that the peace was not to be unlike war itself.

Quote: "There never has been, there never will be, any race of men fit to serve as masters over their fellow men."—(Mr. Roosevelt's speech, March 15th)

Comment: Wallace Novestein writing in the January Yale Review states, "Deliberately in the 19th century English public school masters (our private schools) set themselves the task of training a governing class for Britain's job in the East. Not for nothing were the English taught to think of themselves as successors of the Romans. Young men must be trained for their imperial tasks of ruling their subordinates with few words and authority." Those of us who have lived in British colonial possessions know well the master-slave attitude of the Briton, which when you are on the spot seems justified. The difference between the British and the brutally honest modern German is that the latter denies that all men are born free and equal. The British join us in proclaiming that all men are born free and equal but spend the rest of our lives proving it is not true. Hitler asserts that it is the destiny of the Nordic (white) race to rule the world. Do you believe that? If you do, why do you applaud a demagogue who says that is not true?

Quote: "We believe that any nation, no matter how small, has the inherent right to its own nationhood." —(Mr. Roosevelt's speech, March 15th.)

Comment: "If we believe that what are we doing in an alliance with Great Britain? She believes it only if it supports her balance of power policy. If it means nationhood for nations under British dom-

Fellow Citizen:

Since this sheet was printed last Saturday Bill 1776 has become a law. Twenty million voters approved it, ten million disapproved it, twenty million took refuge in qualifications or had no opinion. To many of us it seems the most humiliating hour in the nation's history, to others it seems the salvation of civilization, and to others who dislike Germany it is sweet revenge. But whatever the personal reaction, it is the law and for better or for worse must be lived up to. None of that should make us forget:

—that from time immemorial governments have obscured their real reasons for going to war

—that Truth is mightier than the sword but unpopular in war time

—that your favorite columnist is paid to write what you read and that the "free" press represents the interests of those who own it (See Harold Ickes' "Lords of the Press")

—that without differences of political opinion the United States would cease to exist as a democratic form of government

—that trade is the life blood of every nation and the longer we refuse to trade with Europe, the more self sufficient we force them to become, thereby killing our own much needed markets

—that Europe is South America's natural market since they produce things we have little need for and we cannot continue indefinitely paying them not to sell to Europe

—that learning to get along with people we do not like, in the home, the state, the nation and in foreign nations is the road to peace. Refusing to compromise differences and insistence upon destructive warfare is wrong

—that National Socialism saved Germany and Central Europe from communism and economic chaos

—that Democracy is right for America because our nation is rich and can afford it, (for a while yet, maybe) but Europe was impoverished and could not afford it. The corruption and exploitation inherent in democracy compelled its abandonment in many nations and brought ruin to France

—that Peace without Victory should be urged by every man.

—that the United States never ratified the Treaty of Versailles

—that prior to 1917 this nation got along in the world with absolute monarchies (dictatorships) and prospered, attending to our own affairs.

—that prior to 1917 for 150 years it had been the policy of this government to rush mercy ships to stricken peoples all over the world. Our Christian charity died with the hunger blockade of Germany in 1918

—that this nation since 1917 has had no foreign policy worthy the name and no diplomacy worthy our history

—that England has always known how to get what she wants. That is why the sun never sets on her Empire.

—that sea blockades are illegal

—that England was first to bomb cities at night. Germany did not retaliate for three months, negotiating for its discontinuance. England refused, citing their shortage of planes as the reason.

—that British and German flyers greet each other with friendly politeness in the bars of neutral Lisbon, Portugal.

—that so long as that spirit lives there is hope for mankind

—that Bill 1776 was conceived by the brilliant and fertile brain of Felix Frankfurter, ably assisted by Morgenthau and Ben Cohen, as reported by Ray Tucker. Lawrence Dennis, author of "Dynamics of War and Revolution" calls the Jew's wish for war upon Germany "the most dynamic force in America today"

—that London is the banking center of the world

—that the banking House of Rothchilds once loaned England money to wage war upon France. His Majesty's Government was paying 2½%. Napoleon offered 3½ but the Baron refused. Napoleon asked, "Are you afraid your interest will not be forthcoming?" to which Rothchilds replied, "No, Bonaparte, it isn't a question of interest. If you win the war, you will control Europe. If England wins, I will control Europe." That was true, the three Rothchilds brothers have controlled the banking of England and Europe ever since.

—that after this war was declared six million of England's plain people signed a petition asking that peace be negotiated at once

—that the wish for peace in America is demonstrated by the fact that 85% of our people refuse to endorse war but that "aid short of war" is an illusion. A fleet of troop transports are being assembled at Norfolk, 4,500,000 identification tags have been ordered, (properly marked with the letters meaning "Killed in action", or "Wounded") 2,000,000 coffins, 4,000,000 surgical dressings, 3,000,000 cheap flag drapes for coffins

—that many of these orders such as felt bands for tin hats were ordered in million lots two years ago. Conscription blanks were printed two years ago, long before conscription was discussed aloud for you and me to hear it

—that populations are mere pawns in the hands of a few men who decide the fate of millions. When will we learn to say "No?"

—that the only way to please everybody you know all of the time is to say nothing, do nothing, see nothing, be nothing.

NO CONVOYS - NO WAR

TELL IT TO CONGRESS AND THE CABINET THIS CONVENIENT WAY

Dear Fellow American:

Today this nation stands at the crossroads between war and peace. The overwhelming majority of the people, 83% strong, demand peace. A small but vocal minority advocates war.

CONVOYS MEAN WAR

Our public officials, from the President on down, have stated that convoys mean war -- not economic or diplomatic war but all-out actual shooting war. Convoys are not "short of war" -- they are war.

WE WERE PROMISED PEACE

The President and Congress were elected on a pledge to keep America out of war. The warmongers are using every effort to make the people's representatives break their pledge.

WHAT YOU CAN DO NOW

Fill the petition and return in the enclosed envelope. These petitions will be photographically reproduced and copies sent to the President, each member of the Cabinet and the entire Congress. Your petition will be reproduced 600 times in order that every man and woman in the Senate, House and Cabinet will receive a copy.

ACTION NOW

Here is your chance for direct, large-scale action. The future of our nation depends on results now. You'll be surprised how glad your friends will be to sign this petition. Please return by the first week in May.

Sincerely,

AMERICA FIRST COMMITTEE

PRINCIPLES

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of the democracies of Europe.

CONVOYS mean war — a shooting, bloody war.

Senator Walter F. George, during the debate on H. R. 1776, admitted as much. William Allen White, as Chairman of the Committee to Defend America by Aiding the Allies, wrote on December 23, 1940:

"The story is floating around that I and our committee are in favor of sending convoys with British ships or our own ships, a silly thing, for convoys, unless you shoot, are confetti and it's not time to shoot now or ever."

Just what is a convoy? A convoy is a protecting force, an armed escort, accompanying ships transporting munitions, merchandise and money to a nation at war. And what is a convoy for? It is supposed to fight off ships, submarines and airplanes that attack the supply vessels. And how does a convoy do that? By using its heavy guns, its torpedoes its anti-aircraft fire and by sinking the attacking ships and their crews.

In any man's language this means war, and an offensive war at that.

The Neutrality act of 1939 was passed during comparatively calm days when we knew we would need a wise policy for excited, emotional times such as we are now experiencing. This law prohibits our merchant vessels from entering zones defined by the President as combat areas.

This prohibition was written into the law at the insistence of the President himself. The President regarded this prohibition as the first objective of his policy. In the course of his message on September 21, 1939, to the special session of Congress which enacted the Neutrality law of 1939, President Roosevelt said:

"With the repeal of the embargo this Government clearly and definitely will insist that American citizens and American ships keep away from the immediate perils of the actual zones of conflict."

Both the opponents and proponents of the bill recognized that incidents which would certainly involve us in war could not occur if American vessels were kept out of danger zones. There is good, American common sense in such a policy.

The Neutrality act does not apply to the Navy. But if it is sound to keep our merchant ships out of dangerous waters it is twice as sound to keep our fighting ships out of these zones. When our vessels, both merchant and naval, do not sail into war zones, the possibility of embroilment in war abroad is radically lessened. The fact that not a single incident involving American ships has occurred on the high seas in this war shows the wisdom of this policy.

Almost every public man in the country, including Franklin D. Roosevelt and Wendell Willkie has pledged his opposition to "sending our boys abroad." This is also a pledge against naval convoys. Our warships are manned by American boys. American planes, piloted by American boys, will be needed to make the convoys effective. With our Navy and Air Force in the war, our Army will not be far behind.

The dictionary gives as one definition for convoy, "a funeral train." That is just what it will be for the United States if we permit our Navy to convoy supply ships to Britain. It will be a funeral train for millions of our boys killed in an unnecessary war and a funeral train for the remains of a democracy murdered in a foolhardy venture.

Americans, after all the hysterical propaganda, are still 83 per cent opposed to entry into war. By the same percentage, Americans must be opposed to convoys.

Dear Sir:

The two inclosures have come to me lately unsolicited. Ordinarily I would have paid no attention to such trash, but in these days of totalitarian propaganda the smallest things may be important. Hence I am forwarding them to you for investigation if you deem it necessary.

AMERICA FIRST COMMITTEE

National Headquarters

141 W. JACKSON BLVD. CHICAGO

100-4712-26

Principles

1. The United States must build an impregnable defense for America. With such a defense no foreign power, or group of powers, can successfully attack us.

2. With proper safeguards for the distribution of supplies and the maintenance of our neutrality, Americans should, to the limit of their ability, give humanitarian aid to the suffering and needy people of England and the occupied countries.

3. The cash and carry provisions of the existing Neutrality Act are essential to American peace and security. Within the limits of that Act, Americans may properly aid Great Britain. Aid to her beyond the limitations of the present Neutrality Act would weaken our defense at home, and might well involve us in conflict. We oppose any change in the law which would permit American vessels to enter the combat zone or which would permit the American navy to convoy merchant ships through that zone, as any such course would inevitably plunge this country into Europe's war.

4. Americans should and do cherish the ideals of democracy and abhor dictatorship, but the welfare of one hundred thirty million Americans and the preservation of democracy on this continent demand that the United States keep out of foreign wars.

Subsidiary Objectives

1. To bring together all Americans, regardless of possible differences on other matters, who see eye-to-eye on these principles. (This does not include Nazis, Fascists or Communists.)

2. To urge Americans to keep their heads amid rising hysteria in times of crisis.

3. To provide sane national leadership for the majority of the American people who want to keep out of the European war.

4. To register this opinion with the President and with Congress.

"IS THIS OUR WAR?"

An address by

CLAY JUDSON

of the

AMERICA FIRST COMMITTEE

Delivered before Chicago Bar Association, November 30, 1940

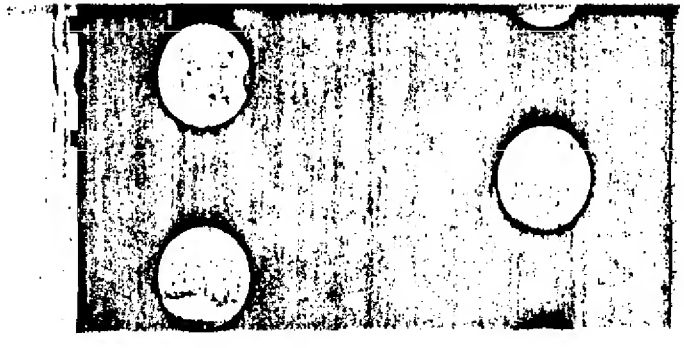
The crisis in our international relations continues. On the decisions which we make now may depend our national welfare for generations to come.

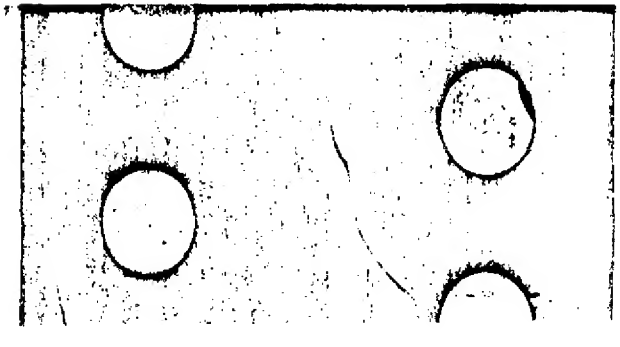
Those in power must decide daily the course of action to be followed under rapidly changing circumstances. They must decide whether to follow or ignore the continual pressure on our Government to go beyond the laws of neutrality and to send its own vessels, tanks, airplanes and guns to Great Britain. They must decide whether to finance Great Britain in this war, as we did in the last, and with the same results. They must decide whether to follow or oppose those who are already urging a change in our national policy and neutrality act so that we can aid Great Britain by sending our merchant vessels into the war zone, loaded with munitions for England. They must decide whether our navy shall be used to convoy vessels to and from England, a proposal made this week in Col. Knox's paper, the *Chicago Daily News*. And finally, the decision must be reached, after the internationalist group believes that it has finally made public opinion ready for the question, whether this nation should enter the war.

We Must Decide Now

The answer to all these definite problems will be found in the answer to one fundamental question: Is this our war? That is the question which the American people must think about and answer before it is too late.

If it is our war, clearly our participation must be to the





fullest extent possible at any given moment, regardless of the terrible cost in human life and human values which that participation would entail, and regardless of the certainty that our entry into this war would be a veritable cataclysm, and not a comparatively simple effort as it was the last time we made the world safe for democracy.

On the other hand, if this is not our war, we must so guide our steps as to avoid all risk of being drawn into it. We must give no aid to any belligerent which would violate the laws of neutrality, lead to sabotage and reprisal, and plunge us into the conflict.

It will therefore be my effort today to answer the fundamental question: Is this our war? That answer must be based not on our emotional reactions to the bombings of London, our deep affection and admiration for the English people, or our hatred of dictatorship; it must depend upon a logical analysis of the issues and alternatives before us, and our conclusion as to what is best for this country of one hundred thirty million people.

Because it seems difficult for many people to view the situation objectively, you are perhaps entitled to know something of the background of anyone who speaks on the question. Certainly, no one against whom there is any possible suspicion of harboring any ulterior motives should be listened to at such a time.

That fact leads me to make a few personal references to my own background. All my forbears are English or New York Dutch; most of them have been in this country at least three hundred years—none was German. My father was a graduate of West Point, and served throughout his life as an officer in the United States army.

I, myself, did not approve of our entry into the World War in 1917, but upon our declaration of war in April, 1917, the debate was over for me. It would be the same in 1940, if the interventionists should succeed in embroiling us once again.

In 1917 I entered the first officers' training camp immediately after war was declared and before I had quite completed the last year of my law course. I spent two

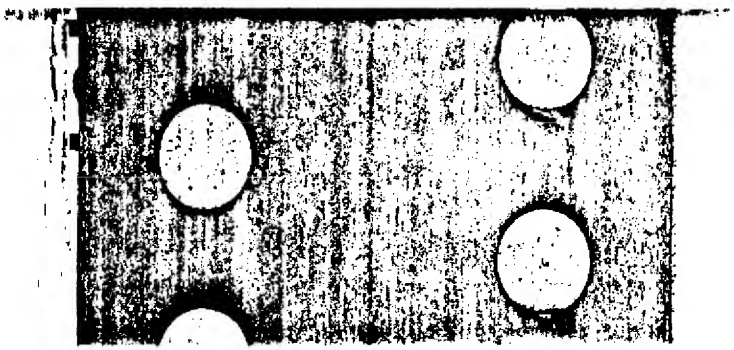
and one-half years in the army, seventeen months of which were in France and Germany. There is nothing in my life which starts me off with any prejudice so far as our international relations are concerned. I have only one thought in mind, and that is the welfare of this country.

What Are America's Objectives?

Before deciding whether this is our war we must know just what we are aiming at. There are several possible objectives for this country. One of them might be to crush Hitler and the evils of dictatorship. But this cannot be accomplished in any final sense by war, for these evils, which we hate and fear, are themselves the spawn of war, the products of blockade, military victory and military defeat. If we join in this mad destruction now going on, we will not terminate dictatorship. On the contrary, the ground will be made fertile for the wider and wider spread of Communism and the Nazi poison.

Is our main objective to preserve the British Empire no matter what the cost to us? If so, there can be no question as to what we should do about it. We should give everything we have to Great Britain. We should enter the war today on her side without limitation or reservation. It would be our war. But may I humbly suggest that however desirable the preservation of the British Empire may be, however desirable it may be for us to preserve the power of England, not only in the British Isles, but in Africa and in India, that is not a main objective of American foreign policy; an objective so powerful that we should actually go to war to attain it. If such were the case, our position would be merely that of a colony of Great Britain, with our foreign policy wholly subservient to the preservation of the Empire.

The statement has been made that it should be America's aim "to preserve law and order in the world." If that is our objective, God help us! It would mean complete abandonment of all hope for an American peace, abandonment of the policy of non-interference in foreign quarrels, and in place of that hope and that policy we



would undertake the job of policing the world! Perpetual war would be our lot, and the permanent maintenance of an overpowering military machine.

"UNITY" Must Be Defined

Of late we have been told that every American should be for national unity. So that, perhaps, has become an objective. Superficially considered, it might seem that everyone must be for "unity." But when the searcher for truth scratches beneath the surface he finds that it is not to be "unity" for improving the lot of the underprivileged in America; it is not to be "unity" for preserving democracy in the United States; it is not to be "unity" to keep this country out of war; but, believe it or not, it is to be "unity" to aid Great Britain!

The same day that the campaign for national unity was launched, William Allen White, Chairman of the Committee to Defend America by Aiding the Allies, announced that "Unity Mass Meetings" would be held throughout the nation within the next few days. He further stated "The mass meetings should plead for unity of national spirit in support of a foreign policy to defend America by aiding the allies."

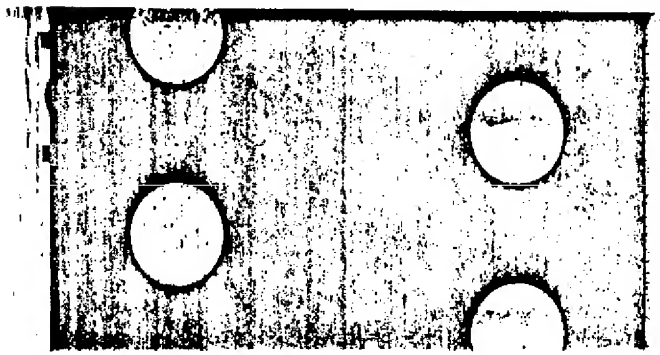
I daresay that each of us would like to have unanimous support for his own point of view. But freedom to express one's opinion, freedom within the framework of government to oppose a particular national policy, is, in time of peace, the very essence of democracy. Doubtless the greatest political unity on earth today is found in Germany. There it is enforced by the Gestapo. Let us preserve political freedom here, and let us use that freedom to avoid any action that will involve us in this European holocaust. If we are to have unity, let it be for the defense of America; let it be to carry out the oft-repeated pledge of both candidates for President, to keep this country out of war.

Is our main objective to make ourselves safe? This, it seems to me, should be, and must be, one of the main purposes of our foreign and military policy. If it is, we

should certainly prepare for the defense of this continent so that no nation can successfully attack us here. But this does not mean that we should be led by panic into war today on the theory that if we do not fight now we may have to fight tomorrow! We may not have to fight tomorrow. If we are strong and exercise self-restraint, we need not fight now or within the limits of the predictable future. Certainly we would be better able to crush an enemy who tomorrow, in his madness, might seek to attack us across three thousand miles of sea, than we would today to invade a continent three thousand miles away.

Our First Line of Defense

It has been said that England is our first line of defense. This point deserves a short examination. Just what do we mean by a first line of defense? We mean, I take it, that line which we will first defend. Now, theoretically, we could adopt a military policy which would establish our first line of defense at any place on the globe. We might say it is in England. We might urge that it is on the Rhine, or at the European borders of European Russia, or even in Siberia. Or, going around the globe the other way, we might have as our policy the establishment of our first line of defense at the Panama Canal, Hawaii, and Alaska; or perhaps Guam and the Philippines, or even Japan or China. In fact, if we were not careful our first line of defense on the east might meet our first line of defense on the west! It is all a question of policy. Our first line of defense, on both the east and the west, is properly our own navy, our own air force, our own coast line, and so much of the rest of this continent and its adjacent islands as is necessary for our own military security, without entering the European or Asiatic arenas. Any other policy would inevitably and perpetually involve us in European and Asiatic squabbles. It is dangerous doctrine to establish our military frontier in other nations thousands of miles across the sea, and to depend on the army and navy of other nations for our own defense.



Though one of our major objectives, therefore, is to make ourselves safe, this does not mean establishing our frontiers on the English battle front. It does not mean that this is *our* war.

Our OWN Democracy Must Be Preserved!

Is our goal the preservation of democracy in this country? I believe that this should be one of our principal objectives, along with the military safety of this country. If it is, we must certainly pursue a course which above everything else will keep us out of war. We cannot enforce democracy on Europe or on Asia by force and arms! We tried that in 1917. We fought then to make the world safe for democracy—and what happened to democracy in Italy, in Russia, in Japan, three of our principal allies—and in Germany, our vanquished enemy? To preserve democracy in the world we must have *peace*.

To summarize: Our legitimate national objectives are to make this country safe and to preserve democracy here. Both objectives demand peace, not war.

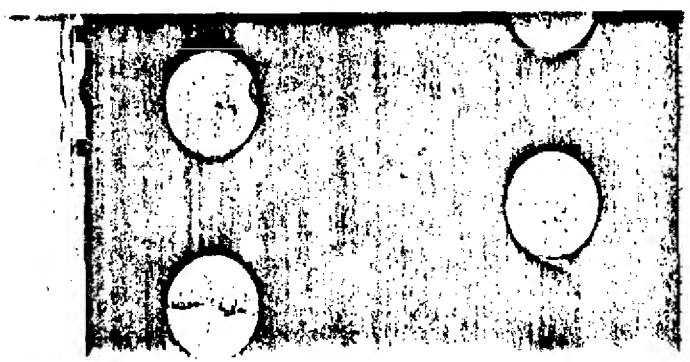
It may help to clarify the situation if we examine some of the arguments of those who favor war for us now.

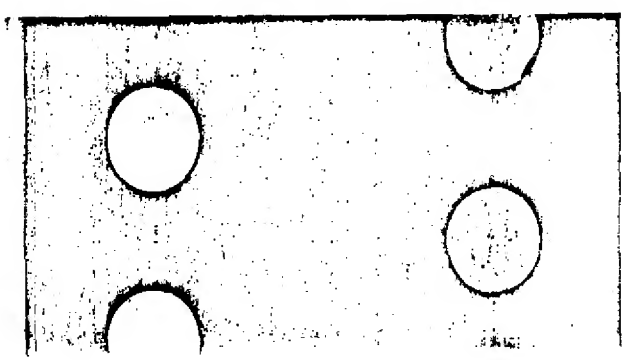
Arguments for War

In a recent article in the *Chicago Daily News*, William Stoneman, that journalist's correspondent in England, who had just returned from London, pointed out Great Britain's tremendous desire that the United States should join in the war *now*. And one of the most forceful arguments for this, from the British point of view, was that it would stiffen their morale and remove any possibility of a compromise peace. In other words, America is to exhaust the wealth and man power of this country and of the world in a devastating war so that peace may be postponed until Germany is destroyed, until millions of the best youth in all lands have been killed or maimed, until what is left of the victors are in a position to grant a dictated peace to what is left of the vanquished! A rosy picture, and a persuasive reason for us to make this our war.

Our interventionist friends are fond of calling attention to the fact that neutrality has not worked in Europe; that many neutral nations, Norway, Denmark, Holland, Belgium, were overrun by the German juggernaut; and that it will be the same with us if we continue to maintain a peaceful position in this hemisphere. An examination of this proposition immediately shows its fallacy. These comparatively weak little nations of Europe were literally in Germany's front yard—a few hours' drive by a powerful tank to their very center, or in the case of Norway, a fifteen minute flight by bombers and fighting planes. Is there any possible analogy between their position and that of the richest, most powerful industrial nation in the world, three thousand miles across the Atlantic, possessing the greatest navy on earth, backed up by one hundred thirty million people? It is true that neither neutrality nor the armies of Britain and France saved Norway, Denmark, Holland and Belgium. This was not, however, because those countries were neutral, but because they were weak and close at hand, and because Germany needed a flank from which to roll up the Maginot line, and bases from which to attack Great Britain. America is not Norway, or Denmark, or Holland, or Belgium. Our policy must be fitted to America and bears no relation whatsoever to the experiences or the trials or the troubles of those little nations in the heart of Europe.

With a clairvoyance to which I cannot pretend, the interventionists paint a most fantastic picture of the world which would result from a German victory or a compromise peace in Europe. I do not know what that world would be; I do not know what Germany, exhausted by a conflict involving terrible destruction, concerned with her conquered territories, could, or would want to, undertake in this continent. I believe that we should and would be strong enough to resist her no matter what she undertook to do which might endanger our safety. None of the evils of peace, following a cessation of hostilities between European powers, no matter who may be the victor, could possibly involve losses to this country which actual war would bring.





Our Foreign Trade

One of the threats held up to induce us to enter this war now is that a victorious Germany would not trade with us. If we have goods which other nations want, and they have what we want, there will be trade in the future as there has been in the past. This country should not enter a European war on the theory that such action will in some way better our trade relations and avoid a risk, which may never eventuate, and which, today, has no existence save in the heated imagination of the internationalists. It may be that the terms on which we could trade with a German controlled Europe might not be our terms. But they would have to be satisfactory to both parties or there would be no trade. Germany and Japan have greater need for our products than we have for theirs. Germany is suffering from a blockade today, though she controls all of central Europe. Does anyone seriously believe that in time of peace she would refuse to trade with the rest of the world, and thus in effect voluntarily impose such a blockade upon herself? And in any commerce of the future I have faith in the Yankee trader's ability to hold his own.

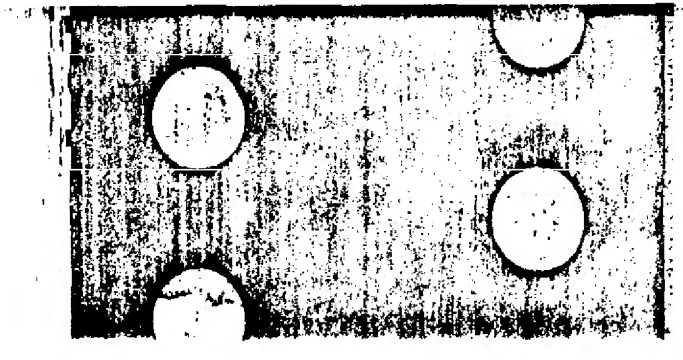
We Cannot Be Successfully Invaded

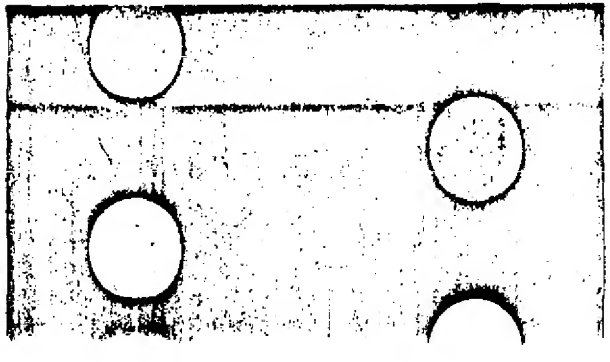
The interventionist has one prize arrow in his quiver. It is the threat of invasion by Germany. This spectre is conjured out of thin air for one purpose, to drive us by panic into war now in order to avoid the assumed threat of war in the future. Let us remember the facts. Germany, with air bases only twenty miles away, has been unable to invade England. It is unthinkable that she could succeed in any attack against us across three thousand miles of sea. Aviation experts, such as Major Al Williams and Colonel Lindbergh are agreed that an air invasion is impossible. But even if we make the preposterous assumption that Germany's air force could successfully attack this country, there are not enough vessels in the world to transport, at one time, the necessary army to drive home such an attack. During the last World War, it is true, we

transported some two million troops to France. It took us a year and a half to do it, and those troops landed on a friendly coast, protected by a sea power infinitely greater than that of the enemy, and at a time when the combatant power of an air force was relatively undeveloped. There is no possible comparison between the landing of our expeditionary force in France during the World War and the hypothetical landing of a German invading force in a hostile America, defended by the greatest fleet in the world and by thousands of airplanes flying from their home bases. We must have a strong military and naval defense of this country, so strong that any such attack from over-seas would be unthinkable and doomed to failure if made. But we must not be tricked into desperate action based on unreasonable panic.

If there were ever any fear of military danger to the safety of this country, that fear must have been dissipated by the speech of Colonel Frank Knox, Secretary of the Navy, on November 14, 1940. He said:

> "Now, in all of the continent of Europe, only one nation, one great power survives with its independence—Great Britain.
>
> "Why? Because of all the great powers in Europe, England alone enjoys an insular position. Due to the unmatched gallantry and superb skill and the devotion of the Royal Air Force of Britain we are frequently all too prone to say that the weapon that stopped the Germans was air force alone.
>
> "I would not detract one iota from the great praise which is properly given to that element of British defense. But, my friends, if you analyze the picture carefully it was 27 miles of open water plus British sea power and air power that saved the British Isles from the invader's heel.
>
> "It was because the German could not cross that Channel, denied that passage by sea power, plus air power, that today England, like France, is not a conquered country.





"Now, this truth, and I'm sure if you haven't already thought of it, now that I mention it, you will see its force, this truth was of extremely great pertinence for us because we, too, have that tremendous advantage—we're insular in our geography too.

"What is perhaps of equal importance, our insularity arises not from a narrow strip of water 27 miles wide, but because we are bounded on either side by wide oceans, and with this factor for our defense, the only way in which a successful invasion of the Western Hemisphere can be accomplished is over the surface of the sea.

"You may say 'what about air power and its importance?' I do no underestimate it in the slightest degree, but, so long as the law of gravity remains, a significant attack by air is impossible."

Does Might Make Right?

One further argument, not in the realm of practical affairs but of ethics, should also be noted. It is said that we must participate in this war to prove to the world that might does not make right! And how are we to do this? By adding our might to that of the mightiest Empire on earth so that the German nation may be crushed by that combined and superior might! I doubt if that would prove to Germany, Italy, Japan, or any other nation, that might does not make right!

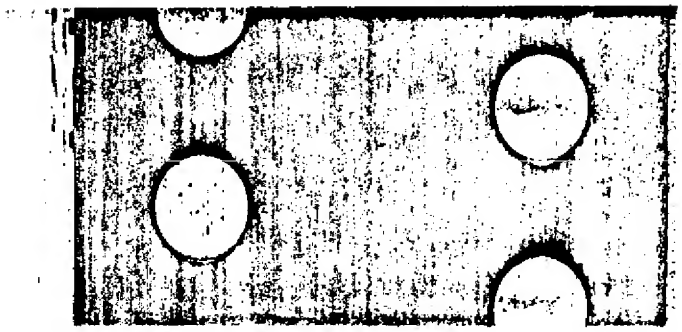
And what about Russia and Communism? At present all the nations, including Great Britain, even including the United States, seem to be flirting with the Soviet Union. The only Ambassador we still have in Europe is in Moscow. Yet this struggle is said to be for democracy against dictatorship! Is it that we prefer the Communist dictatorship to that of National Socialism? Russia sits enigmatically on the side lines hoping for the spread of ruin and desolation in the rest of the world, hoping that

the United States, too, will enter the arena, believing that out of this war, if we enter it, and its inevitable aftermath, will come the spread of Communism like wildfire throughout the world.

The aid we should give to Great Britain, therefore, is limited by the risk of war which is involved. I hope that so long as we act in accord with the cash and carry provisions of the Neutrality Act, war may be avoided. If we cast neutrality aside and send our own vessels, planes and guns to England, the danger of war is immensely increased. If we actually send our merchant ships to England loaded with munitions, if we actually use our own navy to convoy these vessels, no reasonable man could have any question of the immediate results.

The Public Deserves Honest Dealing

Before the interventionists put all their cards on the table and frankly admitted that they believed in aiding England no matter what risk of war that involved, we were told that one purpose of furnishing armaments to European, or even to Asiatic, belligerents was actually to keep us out of war. This seems to me so far fetched that it is difficult to believe in the sincerity of those who make the suggestion. Certainly when it comes from the William Allen White Committee to Defend America by Aiding the Allies, it must be received with a grain of salt. That greatest of all war propaganda agencies organized a great mass meeting in Chicago recently. And who were the two principal speakers chosen by the leaders of this movement to arouse the mass meeting? Dorothy Thompson and Admiral Standley, both of whom are in favor of our entry into war. On November 20, my old friend and classmate, James Conant, President of Harvard University, speaking for the William Allen White Committee, urged that it was "purely a matter of strategy whether at some later time active belligerency is required" by the United States. Can we believe for a moment that these advocates of war are urging the sending of ships, planes and guns to Great Britain



to keep us o... when they think we should be in?

Surely it is obvious to any observer of world affairs that the way for us to get into war is by casting neutrality aside and putting the entire weight of our industrial (and military) strength in the scales on behalf of one of the belligerents. That is the road to war, unless the eyes of the American people are opened and our march along it is checked.

Let Us Preserve Our Democracy

Our goal should be the preservation and development on this continent of the processes of democracy and of civilization, of culture, understanding, and the good life. To be led by emotions and words of hate and bitterness into the fiery furnace of war today would not only imperil our objectives; they might well be lost at the very outset.

If, then, our guiding star is the maintenance of peace for America (not as an end in itself but as a means to working out the destiny of this nation and the fulfillment of its ideals), we should not enter this war. We should not pursue any course which will lead us, step by step, to the precipice. We must prepare ourselves so that no nation would dare attack us, or could succeed if it did dare. But we should not make this war in Europe our war. That way lie the very evils we should seek to avoid. That way lie destruction, Communism, Fascism and dictatorship. For these things are the products of war, not of peace

My dear sir:

I attended one meeting of Lincoln Park Chapter of the America First Committee and to my surprise I found that a young woman who was formerly deeply interested in communism and later switched to nazism was acting as Sec'y.

I saw many of her friends sitting in the front row who have always been known as communists and nazi sympathizers, and I believe that an investigation of that particular chapter should be made before the subversive element has completely taken over with its usual subtle suavity.

I hope that I am wrong in my surmises but my feelings are intensely American and I am sure that that chapter needs to be well weeded, else the harvest will be something that we do not wish to reap in this country.

Respectfully,

Whether They Know It Or Not—

The America First Committee, whether its members know it or not and whether they like it or not, is a Nazi front!

It is a transmission belt by means of which the apostles of Nazism are spreading *their anti-democratic ideas into millions* of American homes!

This is not to say that the America First Committee is a Nazi organization. On the contrary, the great majority of its officers and members are patriotic Americans who sincerely believe that *this nation* should pursue a policy of isolationism and appeasement.

But that is exactly what Adolf Hitler and his disciples in the United States believe, and they are using—or misusing—the America First Committee to spread those ideas.

We do not question the integrity of the leadership and membership of the America First Committee nor the sincerity of its program. But we do seriously question the wisdom of the policy-makers *and* the soundness of a policy which has the unqualified approval of Adolf Hitler, Benito Mussolini and their agents in the United States. It is no secret that the Axis wishes for and works toward the destruction of democracy throughout the world.

In its war upon democracy the Axis has no more effective ally in the United States than the America First Committee. This is true *because* the America First Committee denounces the Axis while it advocates a foreign policy favorable to the Axis. Thus, it is more effective than any Nazi agent or organization, for *it does not bear the stigma* of an alien loyalty.

Recognizing this basic fact, the American organizations committed to totalitarianism have rallied around the banner of the America First Committee. The following pages will show how they operate openly at meetings of the America First Committee; how they distribute the literature of the Committee and recruit members; how they publicize the Committee in the American Nazi press; how the propaganda ministries in Berlin and Rome publicize the Committee on an international scale.

Friends of Democracy has always opposed front organizations serving as transmission belts for both Communists and Nazis. To us it seems unfortunate that the America First Committee, whose members in times past have fought the transmission belts of the Communists, now finds itself functioning as a Nazi transmission belt.

And it is equally unfortunate that a group of American citizens, consciously or unconsciously, is giving aid and comfort to an enemy whose very existence has caused the United States to spend billions of dollars in a rearmament program.

HITLER'S ARGUMENTS THROUGH THE MOUTHS OF THE AMERICA FIRST COMMITTEE SPOKESMEN

—From Senator Wheeler by Radio, March 3, 1941:

"Now we find these same international bankers with their friends the royal refugees and with the Sassoons of the Orient and with the Rothschilds and Warburgs of Europe in another theme song . . . 'Our investments in India, Africa and Europe must be preserved. Save democracy!'"

—From Hitler, July 19, 1940:

"The Jewish capitalistic warmongers, their hands stained with blood, saw their tangible pretext for realizing their diabolical plans vanish. Once again we witness a conspiracy of . . . money-grabbing financial magnates for whom war was a welcome means for furthering their aims."

—From Senator Nye to the Senate, March 4, 1941:

"The greatest aggressor in all modern history has been the British Empire. . . . The Empire is the despotic, arbitrary and sometimes tyrannical rule over almost half a billion people. . . . It is this Empire that is calling us in the name of democracy."

—From Hitler to the German People, January 30, 1940:

"England had gradually built up her so-called world empire by force. Nation after nation was crushed and the structure was created which was called the British Empire."

These two Senators, Burton K. Wheeler of Montana (Dem.) and Gerald P. Nye of North Dakota (Rep.), have served the America First Committee as spokesmen. The wife of the Montana Senator, Lulu M. White Wheeler, is extremely active in the affairs of the America First Committee. So is their son, John Leonard Wheeler, who is known to be one of the heads of the America First Committee in Los Angeles, California.

TO SAVE AMERICA FROM WAR!

The biggest show of the America First Committe thus far was a mass meeting at Mecca Temple New York City, on February 20th. The stage was occupied by spokesmen of the America First Committee, but a large part of the audience belonged to New York's petty fuehrers who desire not peace but a Nazi victory. Members of the Nazified American Destiny Party were there because their leader, Joe McWilliams, had said to them: "I want everyone of you who can to go to the important meeting at Mecca Temple." So were members of other pro-Nazi outfits—the Paul Revere Sentinels, the Christian Front, the American Nationalists, the German-American Bund and the Kyffhauser Bund. As always, the America First Committee served as a transmission belt to relay Adolf Hitler's propaganda to his American disciples.

Hawkers of Father Coughlin's anti-Semitic magazine, *Social Justice*, did a thriving business. This is understandable, because the issue on sale contained an article in praise of "B. K. Wheeler, Peace Crusader." Senator Wheeler, whose wife is a member of the national committee of the America First Committee, has become a hero not only of the anti-Semitic, fascist-minded radio priest but of all who would substitute totalitarianism for democracy in the United States.

The Constitutionalist Press, whose publisher refused to vote for Wendell Willkie because the candidate repudiated Father Coughlin, distributed pamphlets. Henchmen of the Yorkville fuehrer, Joe McWilliams, distributed anti-Semitic leaflets urging the audience to "Demand the refugees fight Hitler this time and leave our boys at home, where they belong as Christians." Other literature, both Communist and Fascist, was distributed by means of the transmission belt.

The German American National Alliance of Chicago also calls itself the *Einheitsfront*, or "United Front." Its Nazi origin and connections are well known.

The German American National Alliance brazenly uses the transmission-belt technique. It calls upon its members to work through the America First Committee and the Citizens' Keep America Out of War Committee. The "United Front" is to be extended to include the two "anti-war" committees. "Assist them mittees at once!" Such is the shrill command of the *Einheitsfront* to Hitler-lovers in the Middle West.

The notorious Christian Front distributes not only the literature of the America First Committee. It distributes also application forms for that "anti-war" and "anti-ism" organization. The Christian Front is in itself an "ism"—it advocates a Hitler-Mussolini brand of totalitarianism for the United States. By advocating racial and religious hatred, by threatening civil strife in this country, the Christian Front stands for war. Its leaders make no secret of their admiration for Hitler and Mussolini. They stand for war—Hitler's and Mussolini's war upon the last remaining democracies of the world.

And this is the organization which recruits members for the America First Committee with the latter's claim of being against war because war is the breeder of isms!

Poison at Nazi Conference

A few weeks ago several of the ranking leaders in the American Nazi hierarchy met in Chicago behind closed doors to discuss a course of joint action. Their number included Donald Shea, leader of the National Gentile League; Edward James Smythe, leader of the Protestant War Veterans, who arranged the recent joint meeting of the Ku Klux Klan and the German-American Bund at Camp Nordland; Colonel E. N. Sanctuary, leader of the American Christian Defenders, formerly known as the World Alliance Against Jewish Aggressiveness, and Olov Tietzov, leader of the admittedly fascist American Guard. For this important conference they had assembled great quantities of standard pieces of pro-Nazi, anti-British propaganda. With one exception this propaganda had been published by persons and organizations dedicated to the destruction of American democracy. That exception was the America First Committee whose literature was carefully read and later widely distributed by the Nazi leaders.

American Nazi Press Approves

Must America Fight?

THE LIVES of 12-million American boys, the wealth and resources of the America we have known, are being dragged each day closer to the brink of war.

Night and day, the American people are being subjected to a barrage of propaganda to enter the holocaust now devouring the people and the civilization of Europe.

In a recent address to the students and faculty of the University of Notre Dame, the Rev. John A. O'Brien, Ph.D., said:

"The propagandists for America's involvement in the feuds and hatreds of Europe at first centered their efforts to break down the barriers we had erected

The Nazis in New York and Father Coughlin in Detroit unite in praising the Rev. John A. O'Brien for saying: "We prefer the America First organization."

Here is an article to that effect from *Deutscher Weckruf und Beobachter*, the official newspaper of the Nazi Bund in America with headquarters in New York. (To cover up its work the Nazi paper also calls itself *The Free American.)*

And here is another article to the same effect from *Social Justice*, published by Father Coughlin, who has in the past lifted for his writings whole paragraphs from the speeches of Dr. Goebbels, Hitler's Minister of Propaganda.

Such are the men and journals who praise the America First Committee! They are the ones who applaud those who praise the America First Committee!

BERLIN APPROVES..

On the evening of January 22nd a short-wave radio broadcast from Berlin placed the official Nazi seal of approval upon the America First Committee. According to the minions of Dr. Goebbels, this Committee represents "true Americanism and true patriotism." The radio speaker from Berlin resented the fact that the Committee "has been given less publicity" in the United States than it deserves in Nazi eyes. Approval by the Nazi regime should cause the America First Committee to re-examine its program of Americanism. It is difficult to believe that the Nazis would approve a program truly beneficial to a democracy which they fear and detest.

Short-Wave Broadcast, Berlin, January 22, 1941

"THE AMERICA FIRST COMMITTEE HAPPENS TO OPPOSE THE NEFARIOUS INFLUENCE OF THE COMMITTEE TO DEFEND AMERICA, WHICH TRAVELED FAR ON THE PRESTIGE OF THE NAME OF WILLIAM ALLEN WHITE. HE LATER, OF COURSE, LEFT TO CHOOSE HIS OWN UNSAVORY JUICE. THE AMERICA FIRST COMMITTEE IS KNOWN AS TRUE AMERICANISM AND TRUE PATRIOTISM, AS OPPOSED TO THE SYNTHETIC BRAND DISPLAYED BY THOSE AMERICANS ENROLLED UNDER THE WHITE COMMITTEE. THAT COMMITTEE HAS BEEN GIVEN LESS PUBLICITY THAN THE MARRIAGE OF A MOVIE STAR WHO HAS ONLY TWO DIVORCES TO HER NAME SO FAR."

. . . SO DOES ROME

According to the Italian Propaganda Ministry, the "honest voices, thoughtful for the future of America," belong to the members of the "America Innanzi Tutto"—the America First Committee. And according to Virginio Gayda, Il Duce's "man Friday," the Italian Fascists have friends in America. Who are those friends, according to Virginio Gayda? They are Brigadier General Robert Wood, retired, who is acting chairman of the America First Committee; Senator Burton Wheeler of Montana, the spearhead of isolationist forces in Washington; former Governor Philip La Follette of Wisconsin; Colonel Charles A. Lindbergh. Mussolini and Gayda like them. The Fascists say so themselves. They tell the Italian people that Wood, Wheeler, La Follette, and Lindbergh are "eminent personalities" worshipped by the American people. And while telling this, they arrange anti-American demonstrations in the streets of Rome!

Dispatches from Rome

On January 7, 1941, John T. Whitaker, one of the most reliable American correspondents in Europe, cabled from Rome to the *Chicago Daily News* that the Fascist press printed a short version of President Roosevelt's speech before Congress on January 6th:

"THIS BRIEF VERSION OF THE SPEECH IS PRINTED IN SECONDARY POSITION UNDER THE FOLLOWING HEADLINE:

" 'HONEST VOICES, THOUGHTFUL FOR THE FUTURE OF AMERICA, CONTINUE TO BE RAISED AGAINST THE SPREADING BELLICISM OF ROOSEVELT.'

"THE HONEST AND THOUGHTFUL VOICES TURN OUT TO BE THOSE OF PHILIP LA FOLLETTE AND THE 'AMERICA INNANZI TUTTO' (America First) ORGANIZATION. WHAT THEY SAY IS TREATED AS MORE IMPORTANT THAN ROOSEVELT'S 'DEMAGOGIC HYPOCRISY,' AS THE NEWSPAPERS TERM THE MESSAGE TO CONGRESS."

And on February 6, 1941, a few weeks before Whitaker was expelled from Italy by Mussolini, he cabled this dispatch:

"AFTER DAYS OF PRESS ATTACKS AGAINST AMERICA, WHICH IS DESCRIBED AS A DICTATOR'S COUNTRY BEING LED TO WAR BY AN ALLIANCE OF THE ANGLO-SAXON ELEMENTS WITH THE JEWS, THE FASCIST UNIVERSITY STUDENTS WERE PUT INTO THE STREETS OF ROME THIS MORNING. IT WAS THE FIRST DEMONSTRATION OF THE SORT SINCE THE LATE NEVILLE CHAMBERLAIN'S UMBRELLA AND A COFFIN, LABELED FRANCE, WERE CARRIED THROUGH THE STREETS IN PREPARATION FOR ITALY'S ENTRY INTO THE WAR. . . . SOME SAID IT WAS ANTI-AMERICAN. OTHERS DENIED THAT AND SAID THAT THE STUDENTS CRIED OUT AGAINST ENGLAND. . . .

"THE PRESS CAMPAIGN, WHICH HAS BEEN WAGED FOR SOME DAYS, DIVIDES AMERICA INTO JEWS WHICH INCLUDE, ACCORDING TO VIRGINIO GAYDA, THE WHITE HOUSE, THE PRESS AND THE RADIO, ON THE ONE HAND, AND WHAT ARE TERMED 'EMINENT PERSONALITIES,' ON THE OTHER. THIS LATTER CATEGORY IS COMPRISED OF SENATOR BURTON K. WHEELER (DEM., MONT.), COL. CHARLES A. LINDBERGH, PHILIP LA FOLLETTE, FORMER PROGRESSIVE GOVERNOR OF WISCONSIN, AND BRIG. GEN. ROBERT WOOD, RETIRED. THE AMERICAN PEOPLE ARE DESCRIBED AS SHARING THE VIEWS OF THESE EMINENT PERSONALITIES."

Friends of Democracy believes members of the America First Committee should re-examine the policies of the organization in the light of the fact that it is being used as a Nazi transmission belt. We believe they should consider the implications of these facts:

1. A large part of the audiences of many America First meetings are members of pro-Nazi organizations.
2. Nazi propaganda is distributed at many of these meetings.
3. Nazi organizations not only distribute the *literature of the* America First Committee but recruit members and raise money for the committee.
4. The Nazi press in the United States has stamped the program of the America First Committee with its approval.
5. The propaganda ministries of the democracy-hating *Nazi and Fascist* governments endorse the policies of the committee.

In view of these facts, we believe the America First Committee should reorganize on a basis which does not lend itself to misuse as a Nazi transmission belt.

It is reported Hitler has said the U.S. would be an "Inside Job". Let us not not be blinded by contempt for him. His own mouth will be the trap to get him. The "America First" organization can serve no other purpose except as the "Inside Job". Naturally, only certain leaders (present or later ones) know of the ultimate object and they appear (or try to) more loyal Americans than the elected representatives of the people in fact some were elected. Under the pretext of saving U.S. from war and war mongers they will surely try to overthrow U.S. by a coup. Beware!

Dear Mr. Hoover:

Perhaps the enclosed copies of the originals may have some significance.

They appeared in yesterday's (4/14) Staten Island (N.Y.) Advance newspaper - the advertisement on page 5 and the news item on page 2. The revelation is that the draftee who failed to appear for induction to the Army is an alleged conscientious objector and the son of the head of the Staten Island unit of the America First Committee. Is it possible that the listed speakers at the rally are condoning slackers? If so, how can this meeting be a "patriotic rally"?

Another alarming thing about this case is that the alleged conscientious objector is in a job in which he can, no doubt, commit some kind of sabotage.

I am a member of the Grasmere Post (S.I.) of the American Legion, Post #1191 and have already discussed this case with our Post Commander.

Draftee's Case Given Attorney

The U. S. district attorney's office in Brooklyn has been informed of the refusal of Howard Jump of Westerleigh to report for induction into the Army and is expected to take action against him shortly, it was disclosed today.

Jump, 21-year-old lark welder at the Maritime Harbor Shipyard of the Bethlehem Steel Company, was ordered by Local Draft Board 203 to report for induction last Monday, and, when he failed to appear, sent him a formal notice giving five days in which to change his mind.

James Wentford, chairman of the local board, explained that the facts in the case were carried Saturday noon to the U. S. district attorney's office. It is understood that Jump will stand trial as a delinquent before the U. S. District Court in Brooklyn.

The Islander a conscientious objector, is the son of Mrs. Lila Jump, head of the Staten Island unit of the America First Committee. Before being ordered to appear for induction, he was twice refused deferment by his local board, once on a medical deficiency claim and again on an occupational claim.

Dear Mr. Winchell:

Perhaps the enclosed photostatic copies may be of some help to you in your wonderful work of uncovering subversive activities in this country.

They appeared in the April 14 issue of the Staten Island Advance - the advertisement on page 5 and the news item on page 2. The revelation is that the draftee who failed to appear for induction in the Army is an alleged conscientious objector and the son of the head of the Staten Island unit of the America First Committee. Is it possible that the listed speakers at the rally are condoning slackers? If so, how can this meeting be a "patriotic rally"?

One amusing sidelight is the headline of the advertisement "Defend America! Stay Out of War!" If the America First Committee is behind conscientious objectors we will have to stay out of war. But the question is how can we "Defend America"?

RECORDED INDEXED

Another alarming thing about this case is that the alleged conscientious objector is in a job in which he can, no doubt, do some real good sabotage work.

President of the
United States.

My dear Mr President,

I feel it is my honorable duty as an American Citizen to acquaint you with my knowledge of facts concerning a certain person.

The person in question is a divorcée from the South, of German descent, has lived for quite some time in New York City, previously in Florida and other places.

This person appears to be quite influential with the "America First". -It seems she is furious with a certain Senator of the South, accusing him of selling out the South. She intended to write and denounce him, but on finding he had too many backers to tackle the affair herself, she handed it over for "America First" to take care of it.

Her attitude is very antagonistic and hostile toward the head Executives of our Goverment, greatly opposed to the "Lend Lease Bill" corresponded with Senator Wheeler, about the matter - which was acknowledged by him - and now vehemently opposing the measure of aiding Great Britain in any way; wrote Senator Tobey, urging against convoys for Great Britain, Senator Tobey, replied, Thanking her for her aid, Last week I am given to understand- she wrote Senator Walsh, endeavouring to bring about the impeachment of our President, on the ground of a traitor to his Country. Calls the President a Jew, and other horrible names- I'll not type - also, none of the family are any good; frequently expresses her wish and hope "That some morning when she awakes she will hear that he "The President" has been assassinated.

Secretary Hull, Secretary Knox, and other members of the Cabinet, including Mayor LaGuardia, of New york City, should be thrown out of office, they are Jews, Communists, traitors to their Country, and this Country will never be at peace until such a man as Hitler, will drive the Jews, out of this Country. The Goverment should not permit Jewish refugees to enter this Country,it is due to the Jews, and the people at the head of this Goverment - "THAT THERE IS A WAR" - Let Great Britain & the others fight their own battles, let this Country mind her own business, and place such people at the head of this Goverment who will keep us out of war; these and many other rebellious and denouncing statements are often said, and this person attend meetings particularly those anti Roosevelt.

I have stated enough for you to realize my reason for taking the privilege of writing you. RECORDED

The name of the person in question - [redacted] New York City.

I believe you will find a record of her for selling liquer during "Prohibition" - I understand she once had a Night Club - and of late she is figuring in a case in the Bronx. N.Y.City. having to do with some Nursing Agency, trying to have their license revoked, however, it appears the Agency has brought or is bringing a case against her for having taken from their office two record books. - I do not know enough about this case to explain in detail - it is beside the point - I have simply mentioned it so as to make it possible for you to find out about her. I believe the last hearing was not in her favor

therefore, Mayor LaGuardia, some judges and lawyers were stamped as creeks, Communists and the whole Goverment corrupt.

MEMORANDUM FOR MR. FOXWORTH

In the absence of Mr. Carson from his office, the writer talked this afternoon at 4:30 P. M. with Mr. Little of ONI, who stated that ONI had received information that [redacted] b7C Machinists Mate, Second Class, U.S.S. Simms, a destroyer in New York, has been active aboard this ship and has obtained the signatures of twelve men on this destroyer to join the "America First Committee." Mr. Little stated that this committee was holding a meeting tonight at Manhattan Center, New York City, at which time Mr. Lindbergh, Kathaleen Norris, and Senator Walsh will speak. He also advised that newspaper accounts in New York reflect that L. W. Birkhead, National Director, "Friends of Democracy," had made a public statement to the effect this meeting of the "America First Committee" would be picketed.

Mr. Little furnished the above for our information.

Respectfully,

WAKE-UP AMERICA

The Interventionists have started their blitz to get us into the war. Let's stop them cold.

PROTEST

their deceptive, tricky propaganda with all the power at your command. Write today to the President, our Senators and Congressmen. They promised to keep us out of war. Demand that they keep those promises.

PROTEST

so-called neutrality patrols that cover the seven seas or convoys or whatever else they may choose to call them. They all mean shooting and shooting means millions of Selective Service Draftees for another and a bigger A.E.F.—next year and the next year and for many years to come. President Roosevelt promised many times that none of our boys will be asked to fight on foreign soil. Let's hold him to *that* promise.

PROTEST

the crushing tax load that is being fashioned for the American taxpayer's back. Taxes will go higher and higher till they break us unless we stop this war-madness now. The tax bill now before Congress is just a little sample of what is ahead.

PROTEST

efforts to smear such men as Colonel Lindbergh, Senators Wheeler, Nye and Clark. Thank God for these men. They stand for the traditional American policy of no entangling alliances with any nation. They are fighting our battle. Back them up with action as suggested herein. Compare these men with Knox and Stimson, the Warburgs, Lamonts and Morgenthaus, Dorothy Thompson and Frances Perkins or any one else you may think of. Then write to the President, also to Senator Vandenberg and Senator Brown and to your Congressman as well and tell them in the good old American way just what you think about sending our boys to war and all this war business.

WANTED: The spirit of Paul Revere.

Be a modern Paul Revere. The peril is as great today as when he rode through the night into immortal fame. To help him spread the alarm today, clip the coupon below and mail it at once with your contribution toward the expense of this and other messages like it. Be a *real* American.

My dear Mr. President,

Until now I have had some hope that you were still a man of your word and would keep sacred your promises to the mothers of America not to send their sons to fight and die in any foreign lands and that you would fight for peace all the days of your life.

This week your untrue and unjust implications about Mr. Lindbergh and other speakers of the truth like Senators Wheeler, Nye, Clark and Walsh, I lost faith in you. Since you advocate a war that is opposed by 85% of the American people, you no longer represent us and were an election held now you could not be elected. I no longer trust you and regret that I voted for you last fall. In the light of present standings of all candidates Norman Thomas was the only sincere candidate among them. Mr. Willkie has proved what a fool he is.

Today you have proved that Father Coughlin
was right when he called you a liar. You lied
when you said you would work for peace all the
days of your life, since all you have done was to
take steps first "short of war" and now to
the brink of war.

As an American citizen I wish to express

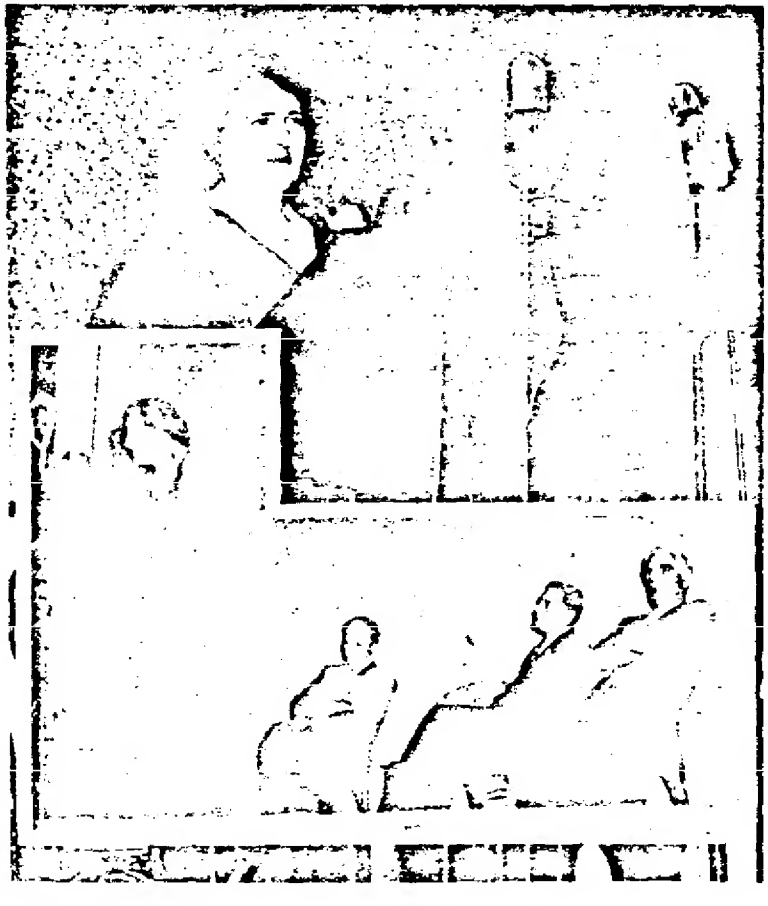
"NO WAR" MOTHERS LURED INTO ANTI-DEMOCRATS' CAMP

Notorious Nazis of Southern California mingled with sincere isolationist and professional obstructionists last week at the Los Angeles Philharmonic A itorium. The occasion was a demonstration against the Lend-Lease Bill, pain takingly prepared in spite of the fact that it had meanwhile become a law of the land. Featured speakers at the rally were United States Senator Gerald Nye of North Dakota, and Cathrine Curtis of New York City and Washington.



Cathrine Curtis, addressing last week's America First Committee rally at Los Angeles, had among her most attentive backers such intransigent anti-Lend Leasers as (inset, from left to right): John Wheeler, son of Senator Burton K. Wheeler; U. S. Senator Gerald P. Nye; Joseph Scott, prominent Los Angeles attorney and Catholic lay leader.

The meeting was sponsored jo ly by the Los Angeles branch of America First Committee (of which Senator Burton K. Wheeler's son John is chairman) and the Nation Legion of the Mothers of America The latter, holding its first an nual convention at the Hollywood Roosevelt Hotel, elected Cathrin Curtis national chairman.

NEWS LETTER of March 19th re- produced documents bearing eviden to the fact that the National Leg of the Mothers of America was clo ly cooperating with various obstr tionist cells sponsored by Nazi groups. Today, NEWS LETTER pre- sents from its files some pertin- ent facts about Miss Curtis, whos experience in rabble-rousing is s comprehensive that she might easi qualify as top-notcher of the Pet- ticoat Platoon. It was she who founded the "Women's National Com mittee for Hands Off the Supreme Court", and it was also this poli ical Amazon (illustration on this page) who marshalled her forces u der the banner of the "Women Inve ors IN (Miss Curtis' emphasis!) America, Inc." All these differen and assorted organizations make their headquarters at 535 Fifth Avenue, New York City.

Dear Friend:

Abraham Lincoln once said that if the people knew the TRUTH, the country was safe - that when they KNEW THE TRUTH, they would do what is right.

Congressional leaders and prominent citizens who have read the enclosed booklet state:

"Here is a GLEAM OF TRUTH penetrating the darkness and confusion engendered by years of false propaganda! 'The March of Democracy' plainly shows the results of the world promotion of that Great Misconception - Democracy - that now threatens the very life of our Republic. If several million copies of it can be distributed quickly, the Republic can be revived and the country saved from Dictatorship!"

This booklet is the result of exhaustive research and is authentic. Its complete text has been preserved in the Congressional Record!

We have already undertaken the job of distributing at least one million copies to teachers, professors, stockholders, jobholders, property owners and even libraries. To enable us to do this quickly, we are appealing to you to contribute - and also to obtain contributions to a special fund for this purpose, -

Or buy as many copies of the booklet as you can and ask your friends to do likewise.

Will you join in the Revival of the Republic and help halt the march of Democracy by sending us your contribution - or Order - NOW?

Sincerely yours,

Cathrine Curtis

NATIONAL DIRECTOR -

late brainchild, especially stressed the "IN" since

we are all investors IN America, whether we are stockholders, bond-holders, job-holders or husband-holders.

There are vast strata of the population of the United States who are just as much impressed with Miss Curtis as was Representative Clare E. Hoffman of Michigan who, when introducing her to the Speaker of the House, referred to her as a "national leader of independent women".

Specialist in "Agin" Propaganda

In the business of organizing "agin" groups, there are few tricks that Miss Curtis does not know. She is particularly adept at having her own statements inserted in the Congressional Record, analogous to the technique of America-Nazis, as exposed in NEWS LETTER of January 22, 1941, and October 16, 1940. Like the American swastikeers of the Bund et al type, Miss Curtis puts reprints from the Record to the widest possible use; in this way she profits by whatever dignity political balderdash achieves merely by appearing in the official annals of the United States Congress.

Among Miss Curtis' most recent raids on the columns of the Congressional Record is, for example, one effusion which she had inserted through the cooperation of Congressman George H. Tinkham of Massachusetts. In this statement, Miss Curtis, among other assertions, makes the following:

The United States Is Not a Democracy But a Republic

EXTENSION OF REMARKS
OF
HON. GEORGE HOLDEN TINKHAM
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES

Monday, January 13, 1941

ARTICLE BY CATHRINE CURTIS

Mr. TINKHAM. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following statement by Cathrine Curtis, national director, Women Investors in America, Inc.:

THE UNITED STATES IS NOT A DEMOCRACY BUT A REPUBLIC

(By Cathrine Curtis, national director, Women Investors in America, Inc.)

Today public officials and others in this country speak of our American democracy and state that—to protect it and our liberties—we must *join* in the defense of the democracies. The founding fathers evidently did not intend our Government to be a democracy, for that word is not found in either the Declaration of Independence or the Constitution. But they did specify a form of [illegible] party only.

THE UNITED STATES

The trend toward more and more centralization of power in Washington has steadily increased during recent years. This has resulted in continual encroachment, bit by bit, on individual freedom and basic property rights. We have been forced to accept centralized planned economy, currency revaluation, unbalanced budgets, and riotous government spending. Private enterprise is harassed and restricted by government.

Today, centralized government extends over our railroads, radio, utilities, banks, stock and commodity markets, agriculture, labor, and education. Under guise of "emergency" we are asked to accept more and more centralized control.

But we have not quite reached the final stage of "democracy" where "liberty" in the United States is for members of the ruling party only.

Rarely in the messages or statements of our former Presidents, do we find "democracy" mentioned, until popularized by President Wilson during the World War. Since then, our people have been insidiously propagandized to accept "democracy" and forget our guaranteed form of government.

Washington, Jefferson, Madison, John Quincy Adams, Jackson, Harrison, Lincoln, Garfield, [illegible]

On Septer 4th, 1 t, Miss Curtis prevailed pon Rep. Hoffman to secure space for he: the Congressional Record for an essay on The March of Democracy, in whi following statements occurred:

The United Sta

The tre ore and more centralization of power in Washin adily increased during recent years. This has in continual encroachment—bit by bit—on individua edom and basic property rights. We have been forced to accept centralized planned economy, currency revaluation, unbalanced budgets and riotous government spending. Private enterprise is harrassed and restricted by government!

Today, *centralized government control* extends over our railroads, radio, utilities, banks, stock and commodity markets, agriculture, labor and education. Under guise of "emergency" we are asked to accept more and more centralized control!

But we have not quite reached the final stage of "Democracy" where "Liberty" in the United States is for members [illegible] next will be drawn in blood!"

I am convinced that—unless our women revive the spiritual ideals and courage of our Revolutionary ancestors—organize as did the women of Hungary—*we may well witness the loss of our Liberty and Independence—and the Death of our Republic in the days that lie ahead!*

"That Great Misconception -- Democracy"!

In due course, this article -- now carrying the imprimature of the Congressional Record -- was reprinted in pamphlet form (illustration on page 9). In launching it, Miss Curtis, over her own signature, mailed out sheaves of letters (illustration on page 2). She stressed the point that

> ...."*The March of Democracy" plainly shows the result of the world promotion of that Great Misconception -- Democracy -- that now threatens the very life of our republic....This booklet is the result of exhaustive research and is authentic. Its complete text has been preserved in the Congressional Record! We have already undertaken the job of distributing at least one million copies to teachers, professors, stock-holders, job-holders, property owners and even libraries....Will you join in the Revival of the Republic and help halt the march of Democracy....(Emphasis by NRS)*

Miss Curtis' remarks, introducing the reprint of The March of Democracy, concluded as follows:

> *The material contained in this bulletin is of vital interest at this particular time when we hear so much on all sides about Democracy. It correctly points out that our country never was intended to be a Democracy; that its true, Constitutional form of Government is a Republic. (Emphasis by Miss Curtis)*

Miss Curtis' brochure immediately received the whole-hearted endorsement of James True, publisher (until recently) of the notorious weekly, "Industrial Control Reports". Boosting The March of Democracy (illustration on page 9), True stressed the fact that it "has been published in the Congressional Record";

Our "Must" Reading List

How and why "Democracy" has been used as the propaganda key-note of the promotion of communistic dictatorships throughout the world is briefly told by "The March of Democracy", a 12-page pamphlet by Cathrine Curtis. It corrects many fallacies due to false propaganda, has been published in the Congressional Record, and is having a wide circulation. The James True Associates,
By James True

Small wonder tha. Miss Curtis earned True's endorsement. There is, and been for many years, a very strong link between her and the erstwhile publi of "Industrial Control Reports". This link is missing no longer! -- and is revealed as one Michael Ahearn. He was in Miss Curtis' entourage when she rived for the Convention in Los Angeles. Indeed, Ahearn was introduced to Convention as Research Director of Miss Curtis' "Women Investors IN America Inc."

According to Ahearn's dossier in the files of NRS, it was he who, in 19 associated himself with True when the latter, extending the scope of his ha baiter activities, inaugurated "America First! Inc.", an organization

for the protection of the Constitution, American industry and individual enterprise, through the dissemination of TRUTH.

Under their new front, True and Ahearn sent out a "confidential stateme in which the following facts were revealed:

Directors of America First! Inc., Activities

James True, president, has been a writer and analyst in the business field for more than twenty years. Since July 10th, 1933, he has edited and published Industrial Control Reports. He was the first Washington correspondent to brand the new deal communistic.

Michael Ahearne, secretary and treasurer, has been a soldier, newspaper man, author, lecturer and organizer. He is co-author of "Handout," published by Putnam's, the first book exposing the propaganda system operated in Washington to prevent the public from learning the truth regarding the new deal. Since the World War, he has investigated subversive activities throughout the world.

Eventually, the True-Ahearn combination was dissolved. However, Ahearn still carried on his subversive activities under the camouflage of "investi ing subversive activities throughout the world". He still employs typical arguments and dangerous catch phrases which sound like quotations from the lective speeches of *Herren* Goebbels, Streicher and Rosenberg. In view of t activities, it is by no means strange that, in the course of the Dies Inves ation, it became a matter of record (Vol. 5, pages 3465 and 3479) that he w in close contact with such notorious Nazi agitators as George Deatherage an James E. Campbell.

Erasing the Blue Pencil

Another enlightening bit of propaganda literature from the pen of Miss tis is a pamphlet entitled: "Military Capitalism vs. Industrial Capitalism (illustration on page 9). This particular brochure is all the more interes in view of its genesis. According to a prefatory note, it was

originally prepared....at the request of a well-known feature syndicate... when printed, (it) had certain passages completely eliminated....It is, therefore, reproduced here as originally written, with the deleted passag printed in bold face type.

Why any responsible American editor would blue-pencil Miss Curtis' manu script becomes fully evident from such assertions as the following, typical the entire article:

over.

Let's determine why and how we originated Industrial Capitalism and what it has done for us. Let us also ascertain what Military Capitalism has done for those countries that have lived under it for centuries.

Military Capitalism is founded upon force and destruction

and can be maintained only under a regimented, militaris government. It is, therefore, masculine. Industrial Ca talism is based upon individual creativeness and productiv and prospers only under individualized government. It feminine.

The Soldier is the foundation of the European econom system.

The Woman is the foundation of our economic system.
The Soldier is the European symbol of collectivism.
The Woman is the symbol of our individualism.
The Soldier is honored in Europe.
The Woman is revered in these United States!

Civilization developed in Europe mostly through force. As the ages progressed, these people employed in the arts and crafts were forced to seek protection within walled cities from [illegible] tinual wars.

When told this is our war—she must remember they told us that in 191[illegible]; when they say they only want the use of our industrial resources—they told us that in 1915; when they ask for "temporary loans"—they asked for the same thing in 1916—and called us "Uncle Shylock" a few years later.

Our women must use every moment of their new-won leisure time working for just one thing—to protect our Republic—minding our own business and helping ourselves first. Do that—and we will keep our Industrial Capitalistic system, continue to grow and prosper and—by our prosperity and security—prove that ours is the only sound Christian way of life and that we refuse to return to the Military Capitalistic System of Europe from whence our forefathers fled.

Strictly adhering to her technique of grabbing as much Congressional limelight as possible, Miss Curtis had herself invited before the Senate Foreign Relations Committee, conducting hearings on H.R.1776. Appearing before this body on February 10th, last, she immediately proceeded to reprint her statements. The tenor of her testimony is sufficiently indicated by the title she chose for her pamphlet (illustration on page 9): "A.D.1776 for Liberty -- H.R.1776 for Dictatorship".

In the course of her statements before the Senate Committee, Miss Curtis made such assertions as the following:

[illegible] one.

For many years my work and my activities have been in connection with the defense and preservation of our American traditions—of our Representative Constitutional Government—and of our Free Enterprise system in which our women have such a tremendous stake.

Never before has any issue stirred me as has this outrageous—unAmerican—deceitful bill—H.R. 1776. This is probably because in my [illegible] we avoid war?

We are told by proponents of this 1776 measure that the only real problem facing this country today is one of aiding England—because she is our first line of defense and fighting our battle. They maintain that speedy adoption of this measure is necessary in order that we may buy time to adequately arm and protect ourselves. And in the same breath they [illegible]

They speak of mandates given by the people in the last election. Will they please explain where, and when, and in just what language either candidate in the last election specifically proposed any such measures as are in this Bill? Both candidates continually declared that, if elected, they would continue aid to Britain under existing law, namely, cash and carry, and would seek no measures that would tend to create the need for another American Expeditionary Force.

The people have been given no opportunity to vote on the issues incorporated in this measure. If they are given that opportunity, they will answer in a clear and ringing "NO!"

Why all this rush, rush, rush to force this bill through without time for ample discussion of the real issues involved? I believe that question is answered in a conversation I recently had with a highly intelligent individual just [illegible]

To reinforce her own testimony before the Senate Committee, Miss Curtis, under the imprint of the "Women Investors IN America, Inc." put into circulation yet another pamphlet entitled: "H.R.1776: The Nation's Bankrupting Act of 1941" (illustration on page 9). Its contents comprises a complete reprint of testimony given by George H. Cless, Jr., before the House Foreign Affairs Committee on January 24th, last. Miss Curtis' eagerness to spread his testimony before the American public is quite understandable, inasmuch as he declared:

[illegible]

There are sinister features in this bill that have to do with what is going to happen to these United States. I am not charging conspiracy—or evil or malicious intent. I am only asking that these suspicions be dispelled.

[illegible]

In 1917—the vitality of our nation was not strained almost to the breaking point as it is today by long, protracted internal stresses, economic and social maladajust-

ments and depression—no[illegible]th a debt burden against the nation[illegible] productive plant exceeding the tota[illegible]il exchange value of that plant.

At that time—and u[illegible] more favorable conditions—we tu[illegible]d this country into an "arsenal for de[illegible]cracy"—and also established frontiers [illegible] foreign lands to achieve the same e[illegible] that some people would make our ob[illegible]ctive today—that is—to save democracy and freedom.

But we failed. Oh yes—we were successful in our [illegible]

What guarantee can you gentlemen give that—in our present weakened economic condition—we can now enthrone liberty and freedom everywhere for all time? *What guarantee can you give that our new "arsenal for democracy" will not help produce something even more dreadful and hateful than our previous "arsenal for democracy" helped produce?*

That is exactly what this "NATION'S BANKRUPTING ACT OF 1941" is likely to do—if you pass it!

There is no "defense" of these United States in this bill!

There is only the surety of world-wide war—disastrous public spending—and a crushing debt burden creating a dread situation that history proves is met by Inflation—Repudiation—or—God forbid—REVOLUTION!

Regarding Cless, NEWS LETTER of December 18, 1940, revealed that

....especially his (Cless') opinions in reference to William Allen White have been emphatically endorsed by William J. Baxter, author of "Japan and America MUST Work Together".

Cless' article, as originally released in "Scribner's Commentator", was reprinted and circularized by John B. Snow's "League for Constitutional Government", exposed in NEWS LETTER of March 5, 1941. In his vituperations, he said:

The American people, I believe, do want to stand on their own feet and preserve their own free institutions; they will, if necessary, defend their own America.

While William Allen White professes to have that general goal in mind, he is following weird trails toward that alleged end. Furthermore, he is displaying much mental confusion over the real issues at stake in this war, which [illegible]

Many of us who grew up in 1916-17-18, and had our eyes opened in a world over there as well as a world here, look with wholly justified bitterness upon the leadership and ideology which turned America into a warring nation.

Today that same type of leadership—with its same idiotic ideology that America can be saved and the problems of the world solved only by a fanatic willingness on the part of Americans to die for one group of foreigners and kill another group of foreigners—that leadership is for the second time in one generation laying its hands on another crop of young American men and women who, thus far, have inherited from their elders only a broken, bankrupt and blood-soaked world.

WOMEN'S NATIONAL COMMITTEE FOR HANDS OFF THE SUPREME COURT

SPECIAL WASHINGTON LETTER

Washington, D. C.
February 18th, 1941

To All Citizens Of The United States:

It is now unmistakably evident to those of us on the scene here in Washington that the real purpose of bill H. R. 1776 is NOT so much to aid Britain or provide for the defense of our Republic - as to destroy our form of government - deprive Congress of its Constitutional powers - place us at the mercy of foreign nations - create a Dictatorship here with control over the lives and property of one and all of our people - and for the additional purpose of legalizing already committed illegal acts!

The ancestors of many of us gave their lives to establish this country. We must honor their courage and loyalty by giving OUR ALL to defend and protect our heritage from alien plotters and alien-minded sympathizers. Our people are being deliberately confused to keep from them the real issues at stake.

For many years, American women found our information and factual data sent them from Washington completely reliable and have acted upon it because of their confidence in the soundness and saneness of our work and programs. I have been on the scene here for many weeks - but never before have I found myself in a position where I could not give you important information and facts without jeopardizing the safety and careers of those who supplied it.

I can only say to you American women who love your country - your homes - your freedom - for the sake of everything you revere - WAKE UP AND FIGHT! For - if this H. R. 1776 bill passes - you will not only live under a Dictatorship - under a regimented economy - but you may also find your liberties - your properties - and even your CITIZENSHIP placed at the disposal of a foreign power and you will be without any method or means to object!

Remember - this bill is an Abdication Bill - an abdication of your Congress - and this is your last chance to address them if you fail to act.

What This Bill Permits

H. R. 1776 allows the President to suspend any existing law when it interferes with HIS plans for "defense of liberty everywhere." While the German Dictator-creating Law of 1933 gave those powers to a National Cabinet - this bill - here in these United States - gives them to ONE man! All talk of limiting such powers is deceitful - because the same bill gives him power to suspend the limiting sections of the law!

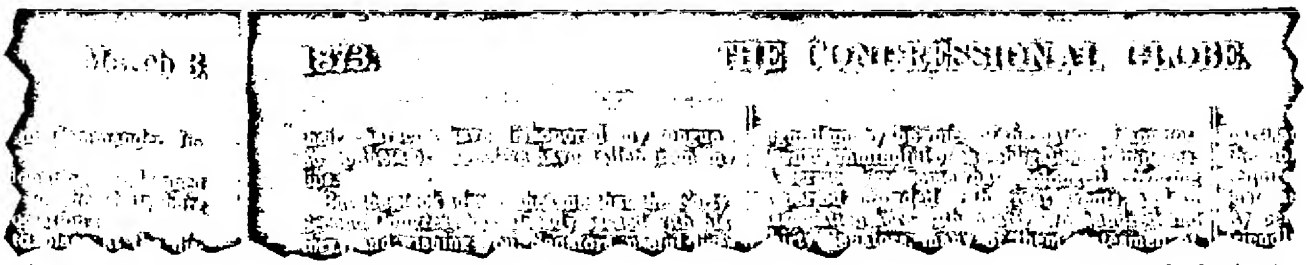
Facsimile of Miss Curtis' pep letter, circularized from Washington, D.C., where she had joined the anti-Lend-Leasers.

Setting the Alarm Clock

While still at the capital, fighting the Lend-Lease Bill, Miss Curtis did not fail to exploit the Washington date line by circularizing her clique with a typical "agin it" pep letter (illustration on this page).

Miss Curtis strains every effort to exploit such dignity as reprint in the Congressional Record lends to a statement. At the same time, she tries by inference to indicate that, as a barometer of American political life, the Congressional Record now points toward stormy changes.

For reasons best known to herself, Miss Curtis made the most preposterous use of a recent typographical change to which, for purely technical reasons, the "masthead" of the Congressional Record was subjected. Indeed, Miss Curtis went so far as to blanket the United States with a hand bill intended to arouse the general public to the unheard-of dangers which this change -- to Miss Curtis' mind! -- indicated. She immediately experienced the great satisfaction of having her



March 3 1873 THE CONGRESSIONAL GLOBE

Masthead of Congressional Globe, which eventually evolved into the Congressional Record, after having undergone two previous changes.

dire warning taken up by, and reproduced in, the February 20th issue of that staunch "American" weekly (illustration on page 9) called "The Free American", better and more correctly known as the Bund's *Deutscher Weckruf und Beobachter*.

Still more back-patting was enjoyed by Curtis when Charles B. Hudson, of "America In Danger!" ill-fame, rushed to her side, staggering the imagination of his readers by warning them:

> While MARCHERS ON WASHINGTON are there they can find out why the CONGRESSIONAL RECORDS of 77th Congress do not carry "UNITED STATES (seal) OF AMERICA" imprinted as always until now, above the words "CONGRESSIONAL RECORD". WOMEN INVESTORS IN AMERICA, Inc., 535 Fifth Ave., NewYorkCity (who put out that splendid pamphlet "ARE YOU AN AMERICAN?" enclosed with B#251, and just released another "H.R.1776: THE NATION'S BANKRUPTING ACT OF 1941!") ask: with the Great Seal reduced in size, with the Great Circle of United Strength removed, with that unprotected seal moved to the LEFT, and with words "UNITED STATES OF AMERICA" entirely dropped, just what Nation is it whose Congressional proceedings and debates are so published? Is this the first step toward making the CR the record of proceedings of a Congress of some NEW NATION - a "WORLD DEMOCRACY", or - perhaps - "UNION NOW"???

What makes the Curtis-Hudson hue and cry appear absurdly far-fetched is the historical fact that, in the century-and-a-half of its existence, the official transcript of Congressional proceedings has changed repeatedly not only its type and format, but also its very name. Apparently Miss Curtis is unaware that, up to 1873, what is today the Congressional Record was called the "Congressional Globe" (illustration on page 7). Prior to that, beginning with 1824, it was known as the "Register of Debate", while still earlier, from 1789 to 1824, proceedings of House and Senate were published as "Annals of Congress". And during all these changes in type, format and even name, these United States of America survived!

Following recognized tricks of the subversivist trade step by step, Miss Curtis seizes upon trivia and magnifies them out of all proportion to serve her own ends. By this procedure, she acknowledges, unwittingly though it may be, her political affinity with hater-baiters like Charles B. Hudson and the Bund, both of whom rushed to her side in spreading her phony alarm over a preposterously insignificant change in the typographical makeup of the Congressional Record. Miss Curtis is also a link in the Coughlin chain, the Detroit rabble-rouser having repeatedly boosted the National Women's Committee to Keep U. S. Out of War. James True, by his own words, has revealed himself as one of her staunchest supporters; and as far as George H. Cless is concerned, Miss Curtis' eagerness to reprint and circularize his testimony before the House Committee is sufficient proof of close political cooperation. Through Cless again, Miss Curtis is proved to be in contact with Snow.

With Cathrine Curtis elected national chairman of the National Legion of the Mothers of America, that organization has now been sequestered as part and parcel of a combination of obstructionist cliques. Well-nigh indefatigable in their subversive activities, the leaders of these anti-democratic cells have succeeded in inveigling sincere isolationists to join the "cause". Unknown to themselves, these political innocents now serve as "front". To make this camouflage completely opaque, all scruples have been thrown to the wind, with even American motherhood being debased to serve anti-Democracy.

The first reproduction below is that of the official heading of the CONGRESSIONAL RECORD as it has appeared until the opening of the present Congress.

NOTE the Great Seal of the United States is in the CENTER, carefully protected by the Great Circle of United Strength and flanked on either side by the words UNITED STATES OF AMERICA—making it the record of the proceedings of OUR Congress:

UNITED STATES OF AMERICA

Congressional Record

PROCEEDINGS AND DEBATES OF THE 76th CONGRESS, THIRD SESSION

Note the next reproduction. It is the NEW official heading of the CONGRESSIONAL RECORD which made its first appearance with the opening of the present session of this—the 77th—Congress.

NOTE: The Great Seal has been reduced in size—the Great Circle of United Strength has been removed—the unprotected seal has been moved to the LEFT—and the words UNITED STATES OF AMERICA entirely dropped!

THIS IS THE CONGRESSIONAL RECORD OF WHAT NATION?

Congressional Record

PROCEEDINGS AND DEBATES OF THE 77th CONGRESS, FIRST SESSION

The Congressional Joint Committee on Printing says it was done to "modernize" the Congressional Record!

Must we remove the words UNITED STATES OF AMERICA in order to "modernize" the record of the proceedings of OUR Congress?

Or is this "modernizing" the first step toward making it the record of the proceedings of a Congress of some NEW NATION—a "WORLD DEMOCRACY" or—perhaps—"UNION NOW"? ? ?

Don't you think it is your duty to find out at once why the words UNITED STATES OF AMERICA have been removed from the record of the proceedings of YOUR Congress? ?

(First distribution of this flyer was made on January 24, 1941).

The words, "United States of America", were replaced on the front page of the Congressional Record starting with the issue of February 4—apparently as a result of the wide-spread distribution given this flyer.

BUT—the words now appear under the GREAT SEAL in such small letters they can hardly be read.

Dear Mr. Winchell:

There were a few things that the newspapers didn't print about the Appeaseme First Rally at the Garden that I feel you should know. I was in the Garden from 6:30 P.M. on, so that I was able to garner a few facts that are of interest to you.

When John T. Flynn announced that a person alien to America First's ideals was in the audience, some jerks in the balcony thought it was you and shouted: "CHOO WINCHELL! CHOO WINCHELL!" But when Jerk McNazi was introduced their shouts of disapproval against you were immediately dropped and they began to applaud Joe McWilliams. Right behind McWilliams was Lawrence Dennis, the recognize leader of the American fascists. 95% of the persons present did not know that McWilliams was there until John T. Flynn pulled the boner of announcing his presence. Therefore if Flynn objects to the presence of Nazi leaders its his own fault for announcing them.

I bought a four-sheeted paper inside, in the lobby, called THE AMERICAN WAY. It's front page agks that we keep America Out of War, for Christ and Country. It is put out by a guy named John J. Geis of R. 2 Hempstead, L.I. This is an example of some stuff in it:

"ADVICE TO THE LOVELORN
by
Alice in Wonderland
Love the Lord thy God and thy neighbor as thyself

Dear Editor:

My daughter who has been attending tolerance meetings, has

received a proposal from the son of a Rabbi. She has turned him down because she is a Christian girl. Now he is accusing her of being anti-Semitic. What shall I do about this?

14490

A. CHRISTIAN MOTHER

We congratulate your daughter on her Christian courage in these trying days of persecution. Surely she can find good Christian boys in her Church circles. The Church has always been opposed to mixed marriages. If this be anti-semitic, let them make the most of it."

In the same issue there is a take-off on your column as follows:

" ON THE BROADWAY OF LIFE

by WALTER WILDFLOWER

Walter is given the widest latitude for expression, his opinions do not reflect the policy of the AMERICAN WAY.

66666

When the Col. came out against war, we found who the nuts are...It looks like Pepper wants our kxks boys to go to salty graves...Mothers, if you're wondering where your drafted boy is tonight you may find him dancing with refugees in New York...

In the United States of America the only obstacle to education is death.....At the foreign meeting held in Mad. S. Gar. Lagars face was red...A short, stumpy, squat, broad shouldered, big head, square shouldered, and tough looking Mayor was chairman...The hyprocites and vultures who prey on the weak and the so-called respectable--who prey on the unsuspecting and gullible public were all there...

Our guessing contest is still on...He could be on the radio twice a week, but his wife says NO....And you thought he was a man...Ha, ha, ha...We received a report that hideous forms float before him. But the most frightful of all the forms which is disease takes is a propensity to see Hitler

wherever he looks. Night and day off and on Broadway he imagines Hitler is close to his ear and telling him, 'I'll get you yet.' 'I'll get you yet.'... At night he looks under his bed, not finding Hitler, like a disappointed old maid he cries himself to sleep....Oh! how he wants that man...In dream he strikes out at the little brownies, thinking that they are the Storm Troopers and his misery becomes more fearful than ever...Like Esau, he has sold his birthright for a stinkpot and there is no longer any hope...We send him lotions of stink....Keep guessing. Who is it?....Indeed, it may be remarked that he, like many of his type have seen the writing on the Wailing Wall."

This was sold to me, as I have stated, inside the Garden. But it was not on the official table of the America First Committee which featured copies of SCRIBNER'S COMMENTATOR. A fellow with a number of them in his hand approached people individually and sold them that way.

Norman Thomas' son, William, told me, that he was working very hard in the Chicago offices of the AMERICA FIRST COMMITTEE, to put the meeting across in New York.

Jean Boyon (BOIAN), head of the Romanian Iron Guardists in New York was at the press table. The Iron Guardists were Hitler's advance-men prior to his invasion of Romania. What are they doing here? Captain Donnelley o N.Y. City Alien Criminal Squad knows about it. I told him.

Outside the Garden, people wearing AMERICA FIRST pins wer talking in groups that the "Jews are war-mongering us in."

On the platform was a Reverend Hunt, who opened the rec Manhatta Center meetings of the Appeasement First group. Hunt had been lauded by Elizabeth Dilling (your pal!), several times in her Round-Table Letter for his fine work in behalf of the "cause".

Also on the platform were, Michael Strange, and Prof. Gregrory Mason, of the down-town section of New York University, who teaches Journalism—a study of impartiality!

Also present was Louis Helmond, the guy that prints the Boycott Jews by Buying Christian booklets and guides for Joe McWilliams. 14102

One of Father Curran's followers, a tall, lanky fellow, stood up and pointed to a Jewish fellow in the audience and accused him of being a Jew-warmonger, The police took him ou immediately. When he was being ~~xxxxx~~ removed he shouted in nobody's general diection: "LONG LIVE THE CHRISTIAN FRONT! LONG LIVE FATHER CURRAN!"

With the development of certain pictures that I took inside I may be able to recognize persons in the heart of the Bund. I did the same ~~xxxx~~ thing at the Manhattan Center andas able to identity persons prominent in Bund and Front circles I hadn't count on getting.

Hope the stuffs usuable, and as always, with my compliments,

MEMORANDUM FOR THE DIRECTOR

Mr. Marvin H. McIntyre, Secretary to the President called. He stated he has received a letter from General Robert W. Wood of the America First Committee. General Wood is a very good friend of his and Mr. McIntyre stated he has written the General letters telling him that he thought he was not thinking clearly, et cetera, and he, Mr. McIntyre, believes the General is beginning to be ashamed of the company he is keeping. The General enclosed with his letter to Mr. McIntyre a copy of a letter he is directing to the various chapters of the America First Committee about a very scurrilous article which is being mailed out from Chicago to each of the Chapters of the America First Committee. In his letter General Wood called attention to the fact that two of the articles had been sent in to him from his chapters and he is sending a letter to all chapters telling them to destroy the letters upon receipt. Mr. McIntyre stated however that the General failed to enclose a copy of the article in question and he desired to obtain our views on whether he should write the General for a copy or see if we could secure a copy through our contacts. I told Mr. McIntyre in view of his friendship with the General I thought it would be better for him to ask the General for a copy. He agreed but stated he wanted to check with us before going ahead.

Gentlemen:

I received a letter this morning from the president of the Continental Machines, Inc., Minneapolis, Minnesota; president Leighton Wilkie; telling me of the necessity for joining the America First Committee.

Though there might be some honest people who are misguided in their honesty, and who are members of this committee, I don't think that the following paragraph purports the honesty of those "in the know" on this committee.

"Business rejects-utterly and entirely-such a cold, ruthless, perverted reasoning. Americans are not afraid that Berlin will be the "capital of the world of tomorrow," and they don't want Washington to be the "captial" either. Business men know that the three units of civilization can each have prosperity and live on this earth in peace."

Of course, I don't expect that your department can do anything about any such organization now, but it might be good for you to know some of these who are actively engaged in disrupting our unity.

It may even be that you already know who these people are. Anyway, I feel it my duty to inform you.

Cordially yours,

My dear Governor Holland:

A group of citizens in this community met with me at my home in Palm Beach last evening and asked that I write you on behalf of the Americans in our state, calling to your attention that the American First Committee is to hold a meeting in Miami on May 17th in a public park and that, although this meeting is held supposedly under the auspices of the American First Committee, we know that the representatives from this section are pro German and one in particular is working for the German government. If the representative groups from the rest of this section are composed of the same type of men, we feel that this is a meeting of the bund and that every effort should be made on the part of the authorities in this state to call for an investi ation of several of the leaders beforethis meeting is allowed to proceed.

I think this information should allow the authorities of this state to use a search warrant, ifnecessary and investigate these three men before May 17th and if the data that I have given to you is found to be correct, I trust that you will stop a gathering of men who are attempting to paralyze our country by making treasonable utterances against our government and thereby causing much unrest in our country that could be avoided. There is a lot of difference between free speech and treasonable utterances by men who are supporting another nation and who are using the Constitution of the United States to hide behind and stab the real American citizens in the back.

Knowing that you were in France with the A. E. F. I feel that you will do everything within your power to make an immediate and thorough investigation of this America First Committee's operations in this state.

To identify myself, [redacted] b7C

I hope that you agree with me that it is high time that we put pressure on these un-American organizations and whether it is the bund or the America First Committee, or whatever they call themselves, if they are talking against our government and its attempt to stop Hitler before he gets to this country, then such organi ations are talking against the future of America and I think we all know it.

I am sending a copy of this letter to Senator Pepper and I hope that you two gentlemen will bring pressure to bear and have an investigation made immediately.

I want to take this opportunity to wish you all success as Governor of the State of Florida and, as faras I can see, you already have shown that you are the man for the job.

My dear Senator:

I have for acknowledgment your communication dated May 13, 1941, with which were enclosed a letter dated May 12, 1941, addressed to you by [redacted] Citizens Building, West Palm Beach, Florida, and a copy of a letter dated May 12, 1941, addressed to Honorable Spessard L. Holland, The Governor of the State of Florida, by the same individual.

At this time I also wish to acknowledge receipt of your communication of May 9, 1941, with which you transmitted a letter addressed to you by [redacted] Tampa, Florida, enclosing the cover torn from the April 28, 1941, issue of the magazine "Facts in Review."

I want to express my deep appreciation for your cooperation in bringing these data to my attention and to assure you that they will be afforded due consideration.

For your information I have acknowledged [redacted] letter and advised him that the German Library of Information, which publishes the magazine "Facts in Review," is registered with the State Department at Washington, D. C., as an agent of a foreign principal in compliance with the Federal statutes regulating such activities.

In accordance with your request the communications from your constituents, together with the enclosure of [redacted] letter, are being returned herewith.

Sincerely yours,

John Edgar Hoover

Dear Mr. Hoover:

I would appreciate very much any information your department can give me on the "America First Committee". A chapter has been organized here recently, and through studying its literature I am convinced it is not as pure as it would seem on the surface.

Also, I would like to know if you have any information on a Miss Afton Lowder. Miss Lowder, a stranger in town until the said committee became active, is one of the chief aides of the Logan chapter. Although she claims her work is gratis, I can't help but feel she is a paid organizer. I have never been able to find any one in this locality who knows a thing about her or her background.

Although I am a newspaper worker, I am seeking this information for my personal satisfaction. Nothing will be printed unless full permission is granted by you.

Thank you very much for any information you are willing to give me on these matters.

Principles
of
The America First Committee

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of the occupied countries.

Re: AMERICA FIRST COMMITTEE.

Dear Sir:

This is to advise that Senator BURTON K. WHEELER came to Buffalo, N.Y., on Saturday, May 3, 1941, to address an assemblage called together by the America First Committee, Buffalo Chapter. The meeting was held in the evening at the Kleinhans Music Hall, Buffalo, N.Y., and was attended by 5,000 persons. For your information, the meeting was quiet and orderly.

The Senator made reference to the F.B.I. on two occasions. Near the beginning of his speech he expressed an opinion that many U. S. citizens might hesitate to express their anti-war attitude because they are "afraid of the F.B.I." The second reference to this Bureau was simply a recollection on the Senator's part in connection with his duties as U. S. Attorney during the last World War. He mentioned that he had sent an F.B.I. Agent to investigate a complaint that German airplanes were seen flying over the mountains in Western United States. The Senator cited this as an example of what the people will imagine during the stress of war days.

Very truly yours,

J. T. MADIGAN,
Special Agent in Charge.

RE: [redacted] b7c b7D

Dear Sir:

This morning [redacted] called at the New York Division to furnish information concerning the AMERICA FIRST COMMITTEE which he characterized as a very dangerous situation. b7c b7D

It seems that he attended a meeting held at Jamaica, Long Island, last night which was advertised as a meeting of AMERICANS UNITED , the Chairman of which is one THOMAS A. SULLY. Speakers at the meeting were Senators NYE and WALSH. It appears that during the evening [redacted] contacted both senators and in substance stated to them that he admired their work but felt that they should investigate the auspices under which they spoke.

[redacted] was greatly perturbed about the fact that at the meeting a circular which is entitled "I SOLEMNLY VOW", which appears to be issued by the "COMMITTEE TO DEFEND AMERICA BY DEFENDING AMERICA", 7501 Ridge Boulevard, Brooklyn, N. Y., was passed out at the meeting and that advertisements appeared on the walls of the meeting hall in connection with the meeting of the AMERICA FIRST group tomorrow night at Madison Square Garden, and that several of the executives of the AMERICA FIRST group were present on the speakers platform.

[redacted] stated that THOMAS A. SULLY, who appears to be connected with AMERICANS UNITED, is the same individual who is connected with the circulars issued some two years ago;

eighteen copies of which he left with Agent [redacted] on his recent visit to Washington, D. C. b7C

At the time he appeared at the New York Division, which was 9:00 A. M., [redacted] stated that he had not had any sleep. b7C b7D

During the interview he exhibited copies of Western Union messages which he had filed during the early morning hours addressed to the President of the United States, Director of the Federal Bureau of Investigation, Senators Nye, Walsh, Wagner and Meade, Governor Lehman of New York, and several Congressmen. All of these messages were verbose in character, somewhat unintelligible and attempted to convey the impression that he was disturbed because of the fact that the meeting, although ostensibly held under the auspices of AMERICANS UNITED, had resulted in literature being passed out by the COMMITTEE TO DEFEND AMERICA BY DEFENDING AMERICA.

[redacted]

For the Bureau's information, there is being attached to this letter a copy of the AMERICANS UNITED membership card which was received fro[redacted] and a copy of the circular "I SOLEMNLY VOW".

"I SOLEMNLY VOW"

Fellow Americans: Enlist in our campaign to keep America out of war. Only Congress has the power to declare war. Therefore it is most important to make Congress responsive to the wishes of the American people.

A majority of our Senators and Representatives have long been pawns of a President ambitious for dictatorial power, who is apparently leading us down the road to war, despite his solemn pledges in the last presidential campaign.

If you solemnly vow never to vote as long as you live for any member of Congress whose supine weakness rubberstamps another war for his fellow Americans to fight, then there will be no war. Your Congressman knows that your pledge will be kept, that his failure to carry out your wishes will constitute his automatic retirement from public life. He will prefer to heed the people and be no man's slave.

The pledge cards should be sent by each member of the family over eighteen years of age who is opposed to War, to the following individuals, listed in the order of their importance in the Campaign to save Our Great America:

1. Hon. Franklin Delano Roosevelt, Washington, D. C.
2. Congressman William B. Barry, Washington, D. C.
3. Congressman Leonard W. Hall, Washington, D. C.
4. Congressman Matthew J. Merritt, Washington, D. C.
5. Congresswoman Caroline O'Day, Washington, D. C.
6. U. S. Senator James M. Mead, Washington, D. C.
7. U. S. Senator Robert F. Wagner, Washington, D. C.
8. Hon. James V. Roe, 135-19 35th Avenue, Flushing, New York.

Buy additional pledge cards at cost: $12.50 a thousand post paid in U. S. A. for civic groups; $1.00 for 80 cards for your family circle; 25¢ for 20 cards for your individual supply.

Dear Sir:

[redacted] Please be advised that the following information was regarding a speech made by Senator BENNETT C. CLARK, on May 3, 1941, at the Arena, in St. Louis, Missouri. CHARLES LINDBERGH was on the same program.

"Distortion in German Weekly of Senator Clark's reference to investigations by the FBI in his speech on the occasion of the America First Committee meeting on Saturday May 3, 1941, at the Arena, 5700 Oakland Avenue.

'(German Weekly) Deutsche Wochenschrift, May 8, 1941, page 6.

Translation - Editorial

CONGRESS WAITS FOR THE VOICE OF THE PEOPLE

Senator Bennett Champ Clark of Missouri, who, together with Charles Lindbergh on Saturday at the America First mass meeting expressed himself against the participation of America in the war, appealed to the citizenry to write or wire now to their representatives in Congress that they should take a stand against the war, against convoys and against all measures that lead to war. 'The great majority of the people is against war and Congress has to follow this sentiment' quoting Clark.

According to his experiences on his speaking trip the great majority of the people, who are against the war policies, would write to their Congressmen, if they were not in fear that the FBI in consequence would investigate them. Senator Clark called that a false opinion and told those people as well as the audience that in such cases they should address themselves to him, and he would then investigate the FBI. '

"Senator Clark was quoted incorrectly in the above article of the German Weekly.

"What he said in the course of his address concerning investigations by the FBI is quoted verbatim in the Globe Democrat of May 4, 1941, page 8 A, under headline "Lindbergh Warns Against War" as follows:

'In urging his hearers to write the President and Congressmen not to be led into permitting convoying, this final step into war, he charged some persons had been led to believe if they write the President their opinion they will be investigated by the FBI. That's poppycock. If you hear of any such thing, let me know and I'll have the FBI investigated.' "

Mr. ISAAC A. PENNYPACKER, who is a member of the law firm of GEORGE H. WHARTON PEPPER, Philadelphia, acted as chairman of the meeting. Besides Mr. PENNYPACKER the following two individuals addressed the audience: CHARLES COLLINS WHITE, New York City, and JOHN EDWIN ALISTER, Philadelphia. [redacted] stated that he ascertained that the purpose of the America First Committee was to oppose the United States convoying armaments to Britain. He said further that the announced purpose of the instant meeting was to make arrangements for obtaining more members and for educating the general public to the aims of their organization.

[redacted] stated further that the general theme of all speakers was to the effect that the American public was not being given the benefit of all the news concerning the present war and the speakers were further demanding the press print all the news concerning the present war. [redacted] did not give any further information relative to this meeting and the files of [redacted] revealed no additional information.

To Whon It May Concern,

It was the first time I had ever listened to at least a part of an address delivered by Leader Linbergh at Madison Square Garden Friday night, May 23. And, judging from the wild applause given by the audience, I have reason to believe that it's the kind of audience that one could find in some of the European countries when the Leader is to speak. Would it be possible under our existing laws to trap an audience of that sort and force every attendant before leaving to be fingerprinted and names secured. Such action might result in rounding up more undesirables than a dozen private raids.

Trusting that this may be of some service to your department and mainly to our country

Sincerely yours
An American

P.S. Let us do a little intelligent work without always looking up the statute-books as to whether it is Constitutional or not.

I just wish to inform you that many good people and I pray constantly for your good health and your well being.

In spite of "America First Committee" slander on our good President and the Administration, real Americans await your speech and will back your judgment. However, I would like to know why various committees who are quick to probe into labor at every instance, are not even interested in the dangerous propaganda spread by the "America First Committee a Ford subsidiary.

RE: CHARLES A. LINDBERGH
INTERNAL SECURITY - C

Dear Sir:

On the evening of May 29, 1941, Colonel CHARLES A. LINDBERGH, United States Senator DAVID I. WALSH and novelist KATHLEEN NORRIS were the principal speakers at a meeting of the America First Committee at the Arena in Philadelphia, Pa.

Transmitted herewith is a clipping from the Evening Bulletin, Philadelphia, Pennsylvania, dated May 30, 1941, concerning this meeting and a leaflet which was passed out at the meeting.

The meeting was attended by Special Agents [redacted] b7c of this office. Although the meeting was scheduled to begin at 8:00 p.m., the Arena was filled to capacity at 7:00 p.m., and by 8:30 p.m., there were about five thousand people listening to a loud speaker in an adjoining lot and in the streets.

The speakers made quite a point of the fact that the national radio companies had refused the facilities of their broadcasting systems for a nation-wide broadcast of the meeting and stated that everything possible was being done to prevent the America First Committee from presenting their views to the American people.

The Agents observed no disorders or fights, and the meeting was orderly, though enthusiastic.

The crowd cheered the talks given by LINDBERGH, Senator WALSH and KATHLEEN NORRIS, and each time the President's name was mentioned a loud boo went up from the crowd.

RECORDED & INDEXED 100-4712-55

The Agents who attended the meeting were not able to

enter the Arena proper, but circulated in the crowd without revealing their identities to anyone.

There appeared to be just as many people outside of the Arena as there were inside, and it was the general opinion that the America First Committee was gaining in strength and that undoubtedly there were more people present for the America First Meeting than there were for the LaGuardia protest meeting the night before.

Very truly yours,

J. F. SEARS,
Special Agent in Charge.

THESE SOLEMN AND SACRED PLEDGES
Were Made by
President Roosevelt During the 1940 Election Campaign

We Will Not Participate Nor Intervene In Foreign Wars

"We are arming ourselves not for any purpose of conflict or *intervention in foreign disputes*. I repeat again that I stand on the platform of our party; we will not participate in foreign wars and will not send our *Army, Naval or Aid Forces* to fight in foreign lands outside of the Americas except in case of attack."

"It is for peace that I have labored; and it is for peace that I shall labor all the days of my life."

Philadelphia, Oct. 23, 1940

The First Purpose of Our Foreign Policy Is to Keep Out of War

"We look at the old world of Europe today. It is an ugly world, poisoned by hatred, and greed and fear. We can see what has been the inevitable consequence of that poison — it has been war.

"And we look at this country, built by generations of peaceable, friendly men and women who had in their hearts faith —faith that the good life can be obtained by those who work for it.

"We know that we are determined to defend our country and with our neighbors to defend this hemisphere. We are strong in our defense."

"*The first purpose of our foreign policy is to keep our country out of war.*"

Cleveland, Nov. 2, 1940

Your Boys Are Not Going to Be Sent Into Any Foreign Wars

"And while I am talking to you, *fathers* and *mothers*, I give you one more assurance. *I have said this before*, but I shall say it *again* and *again*, and *again*, *your boys are not going to be sent into any foreign wars.*"

They are going into training to form a force so strong that, by its very existence, it will keep the threat of war far away from our shores. Yes, the purpose of our defense is defense."

Boston, Oct. 30, 1940

Ships Flying the American Flag Must Stay Out of the War Zones.

"In 1935 in the face of growing dangers throughout the world, your government undertook to eliminate the hazards which in the past had led to war. *We made it clear that ships flying the American flag could not carry munitions to a belligerent, and that they must stay out of war zones.*"

New York City, Oct. 28, 1940

I Am Fighting to Keep Out of Foreign Wars

"I am fighting to keep this nation prosperous and at peace. I am fighting to keep our people out of foreign wars and to keep foreign conceptions of government out of our own United States."

Brooklyn, Nov. 1, 1940

Principles
of the
America First Committee

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of the occupied countries.

OPINIONS & REVIEWS

PAGE:

Pro-Nazi Cheers Must Show Lindbergh he is being Used as 5th Column Spearhead

THE Lindbergh meeting in the Arena Thursday was a studied attempt to picture a world situation composed in effect of the following items:

1. A hated and despicable predatory power called England, led by an individual abhorrent to mankind, called Churchill, started an unprovoked attack against a friendly people who had been goaded to distraction by a wicked imposition placed on them by this England and America under the guise of a treaty (Versailles).

2. This hated foreign power has been soundly thrashed to date, as it deserved to be, to the complete satisfaction and joy of all good Americans.

3. The Nazis, victims of this war, have no hostile intentions of any sort against this hemisphere, or any interest of this hemisphere, and have never done anything ("overt act") to support the hysterical animosity drummed up against them by American warmongers.

4. In fact, far from having any intention of trying to conquer the earth or interfere with our ideals or system of government, the exact contrary is the case. It is the administrators of the United States who are planning to be the aggressors with the purpose and intention of conquering the world and forcing our dominion over all creation, including the friendly and peaceful Nazis.

5. A wicked man has managed to get himself elected President by fraud and lies. This wicked man proposes to kill untold millions of American youth in overweening attempts to subdue the world to his way of thinking. In this he is supported by men too old to fight, who have no sons to be endangered, or else by those who have financial interests in England or an unreasoning and unjustifiable hatred of Germay.

6. The time has come to repudiate and change both this policy and the leaders of America, and to substitute Charles Lindbergh as the leader. Means not specified.

7. To be sure, American shores and cities should be defended if attacked, but there is no prospect of any attack. And the time and place to start defense is when and if an enemy appears off our shores in battle array.

8. To prevent the Nazis seizing the Azores or the Canaries or ourselves establishing ourselves there is to advocate a breach of the Seventh Commandment, against stealing. These islands belong to Europe and Europe belongs to the Nazis. Consequently the Nazis would be just as justified in taking American islands to protect themselves from Roosevelt's manifest aggressions as he would be in taking the Azores on the flimsy pretense of defense.

THE sympathies and emotional motives behind this view of the situation were demonstrated and emphasized beyond any possibility of misunderstanding.

The President was mentioned twice. Each time the hall rocked with a deafening torrent of boos, catcalls and groans.

Every mention of England, or Churchill was the signal for an even greater demonstration of unrestrained fury and hatred.

England's defeats were enumerated with gusto and the recital of the subjugation of each successive nation the Nazis have invaded was greeted with cheers, laughter and applause.

Perhaps even more significant was the derision of the speakers and the laughter of the audience directed toward our ridiculous idea that Nazi military efficiency could be met by any moral opposition.

It must be observed also that no mention was made of Hitler —not one. The reason was obvious. Parts of the audience would have broken out into hysterical cheering. And this is not part of the strategy. No word was said about seapower or American interest in, or rights upon, any ocean. Any aspect of the President's speech which might lead to doubts of the validity of the picture presented were completely ignored.

The whole thing was not a discussion. It was the presentation of the world situation as drawn for American consumption by the Nazi Office of Propaganda and Enlightenment, with no deviation or modification.

Great emphasis was laid upon the inalienable right of everyone in America to express his opinion (including alien enemies.)

There can then be no objection to this opinion:

It is impossible for Lindbergh to dispense this studied and false story in an atmosphere of pro-Nazi enthusiasm night after night and not be perfectly aware of the fact that he is the spearhead of the professional German fifth column and selected as the future leader of any success it can attain.

An Alien Technique?

ADDRESSING the Arena meeting Thursday night, CHARLES A. LINDBERGH said:

"The America First Committee *stands for leadership of a different type* . . . . With your help, *we will create a leadership* for our nation that places America first. I am glad to be able to tell you that our strength is rising."

It is time for the American people to ask themselves what these words, echoed from LINDBERGH'S New York speech, mean.

Leadership in this country is provided by vote of the people, under our Constitution and laws.

The people chose this leadership at the polls last year.

The contender who won with 27,000,000 votes and the contender who lost with 22,000,000 votes are agreed as to the policy their country should pursue in this national emergency.

How does the America First Committee propose to "create a leadership" other than that created by the Constitution of the United States and established by the vote of the people?

How does it propose to undermine the authority of the Chief Executive of the United States, deprive him of his Constitutional right to shape the foreign policy of this country, and substitute its own judgment for his judgment of the action now required for national defense?

The America First Committee and those who for any reason agree with its beliefs have every right, in this democratic land, to question the policy of their Government, and to shout objections from the housetops. That's freedom of speech.

But when this committee's spokesman begins to talk about creating another leadership, at a time when a Presidential election is remote, a new technique is introduced.

New, that is, in a democracy under constitutional government. But the technique has been seen at work elsewhere.

A leadership not provided for in the Constitution? It behooves believers in the American way of life to sit up and take notice.

CONVOY
A FUNERAL TRAIN

Convoys mean war—a shooting, bloody war.

Senator Walter F. George, during the debate on H. R. 1776, admitted as much. William Allen White, as Chairman of the Committee to Defend America by Aiding the Allies, wrote on December 23, 1940:

"The story is floating around that I and our committee are in favor of sending convoys with British ships or our own ships, a silly thing, for convoys, unless you shoot, are confetti and it's not time to shoot now or ever."

Just what is a convoy? A convoy is a protecting force, an armed escort, accompanying ships transporting munitions, merchandise and money to a nation at war. And what is a convoy for? It is supposed to fight off ships, submarines and airplanes that attack the supply vessels. And how does a convoy do that? By using its heavy guns, its torpedoes its anti-aircraft fire and by sinking the attacking ships and their crews.

In any man's language this means war, and an offensive war at that.

The Neutrality act of 1939 was passed during comparatively calm days when we knew we would need a wise policy for excited, emotional times such as we are now experiencing. This law prohibits our merchant vessels from entering zones defined by the President as combat areas.

This prohibition was written into the law at the insistence of the President himself. The President regarded this prohibition as the first objective of his policy. In the course of his message on September 21, 1939, to the special session of Congress which enacted the Neutrality law of 1939, President Roosevelt said:

"With the repeal of the embargo this Government clearly and definitely will insist that American citizens and American ships keep away from the immediate perils of the actual zones of conflict."

Both the opponents and proponents of the bill recognized that incidents which would certainly involve us in war could not occur if American vessels were kept out of danger zones. There is good, American common sense in such a policy.

The Neutrality act does not apply to the Navy. But if it is sound to keep our merchant ships out of dangerous waters it is twice as sound to keep our fighting ships out of these zones. When our vessels, both merchant and naval, do not sail into war zones, the possibility of embroilment in war abroad is radically lessened. The fact that not a single incident involving American ships has occurred on the high seas in this war shows the wisdom of this policy.

Almost every public man in the country, including Franklin D. Roosevelt and Wendell Willkie has pledged his opposition to "sending our boys abroad." This is also a pledge against naval convoys. Our warships are manned by American boys. American planes, piloted by American boys, will be needed to make the convoys effective. With our Navy and Air Force in the war, our Army will not be far behind.

The dictionary gives as one definition for convoy, "a funeral train." That is just what it will be for the United States if we permit our Navy to convoy supply ships to Britain. It will be a funeral train for millions of our boys killed in an unnecessary war and a funeral train for the remains of a democracy murdered in a foolhardy venture.

Americans, after all the hysterical propaganda, are still 83 per cent opposed to entry into war. By the same percentage, Americans must be opposed to convoys.

Washington, D. C.

Dear Sir:

Based upon a statement by Mrs. Janet Ayer Fairbank, of the America First Committee, and an advertisement published in yesterday's Chicago Tribune, it is inferable that you may receive numerous communications from persons describing themselves as "of the 79% opposed to foreign war."

The percentage distorts the Gallup poll, which shows a majority in favor of whatever is requisite to avoid a Hitler victory. Furthermore the war is not a "foreign war".

The America First Committee sponsors speakers indifferent as to whether Germany or Britain wins and who have favored shortening the war by curtailing supplies to Britain and thus assuring its defeat by Hitler.

This is the committee which the German press urge readers to support. It is the committee at whose meetings your name and Great Britain are booed, and the statement that Britain cannot win is applauded. It is the committee which provides a front for all Nazi sympathizers.

Mrs. Fairbank has been publicly quoted as author of a reprehensible reference to the able and courageous Secretary of War - an utterance difficult to credit to anyone of understanding and politeness.

Very respectfully,

Dear Mr. President:

I beg to inform you that during the present and future crisis we have a very dangerous element right in the United States which will undermine gradually, the unity of the American people, unless immediate action will be taken against these elements.

Not long ago the organization which is called, America First, began on a small scale and today they are functioning to such a large extent that they have nation wide campaigns to poison the minds of the American people. They are also on the radio to be sure that the people who are not able to attend those meetings that they could hear the broadcast and the re-broadcasts.

U.S. DEPARTMENT OF JUSTICE

I'm not sure if Mr. Charles Lindbergh and Senator Wheeler are aware of what they are doing against not only the United States but against our government also. What really upsets me is that our government hasn't put up a single speaker who would comment against the America First broadcasts. For that reason I'm going to organize an organization under the

7/3/41 ok [redacted]

title, "Stop, Look and Listen America," and if I will receive enough financial backing each time Senator Wheeler or Lindbergh will speak we will make arrangements that the next day we will comment correctly on the radio at our meetings on whatever speeches they may use to spread their propaganda. Mr. Hitler with his highest paid agents could never have achieved in our country any better paid propaganda to mislead our people than Senator Wheeler and Charles Lindbergh who are suppose to be two of our leading citizens.

I'm not positive if Senator Wheeler or Lindbergh do this consciously or unconsciously? But no matter how they are doing it they surely will have quite a few supporters because it is human nature that all parents would sooner like to see their sons near them than see them in uniforms to be taught for national defense. These parents who are so narrow minded that they cannot think it over that our country must be prepared for any emergency in the future, especially when the crisis is shifting so suddenly from one end of the world to the other.

Somebody must speak against this propaganda in our country which becomes worse as the days go by. Senator Wheeler and Lindbergh spoke of everything openly with the exception that they did not say, let's overthrow our government and put up a government which is willing to play ball with us. This is what we call taking advantage of the rights of free speech in using it to help other powers who are our greatest enemies. Since this freedom was laid down by our forefathers in our democratic

way of life it is hard to change the Constitution to stop this kind of propaganda which is worse than fifth column activities or sabatage, but we could do so much to explain to the American people what we could expect from a person like Hitler if we isolate ourselves.

All the other countries the past two years which are at present under Hitler's rule by aggression isolated themselves by remaining neutral. They did the same which Senator Wheeler and Lindbergh are advocating to our people right now. What has happened to those countries?

I am enclosing a hand bill which was delivered to every home in our city by the Communist Party. I cannot see any reason why these Red Organizations should not spread their propaganda even stronger when our Senator Wheeler and Lindbergh give them all the encouragement.

We know well the seriousness of this situation, but the question is what are we going to do about it? I'm sure about one thing that we must do something about it. And as long as free speech will exist we must answer these people with comments which will show to our people why our administration is aiding England, why we are preparing ourselves, and how the future will look and reflect upon our own country with a Hitler victory. We also must explain to the people why peace at this time is impossible.

Mr. President it is high time to put a check against these people who are receiving more and more support each day. It is just like a home which has caught fire and if we extinguish it

at once it cannot spread any further.

My Mother always said, "My son try to learn in your life if possible, by studying other people's troubles and experiences in making up your mind which road to follow to avade all obsticles.

It is true Mr. President that you made promises to the people during your presidential campaign that you will follow the road to peace and we are sure that you will if you possibly could? But since last October the swift events which are occuring around us may force you to change your mind if you find out that we cannot avade a fight. In case you would have to do this the American people's unity is more essential today than ever before in our existence. We surely, could not have two blind persons like Senator Wheeler and Lindbergh stir up misunderstanding among our people.

Hitler's own words were, "When I want to go against the Americas I will not use force, but my agents will spread enough propaganda which will start a civil war among them and then I will walk in and put them under my protectorate."

Let's hope that this will not happen here. Please permit me to wish you the best of health and strength and you may with the help of our Lord lead our country to become a symbol and an example to the world that there is no better way than the democratic way of life. I remain,

DAILY NEWS

16,000 hoot F.D.R., cheer Fuehrer at Lindbergh tirade

By ROBERT B. VALE

More than 16,000 men and women inside and outside the Arena last night booed and hissed and hooted President Roosevelt. Col. Charles A. Lindbergh called for the overthrow of the policies of administration—for "a new leadership."

Adolf Hitler was cheered by this same vast throng that fanatically declared against any aid to Great Britain; any preparations that will lead us into war—even defensive war.

And there was not a single demonstration of approval for a policy of fortifying ourselves with guns, ships, airplanes and beast.

WALSH GRINS AT BOOS

Most amazing of all was the smile that spread over the face of United States Sen. David I. Walsh of Massachusetts when the Arena rang and re-echoed with the booing of President Roosevelt.

Instead of protesting, instead of *resenting the disgraceful exhibition*, Sen. Walsh sat in his seat beaming on the half-frenzied crowd.

Lindbergh went further in his attacks on the Roosevelt administration last night than in any of his previous talks.

He denounced the policy of the President in throwing up a defense line in the Atlantic as far eastward as Greenland, the Cape Verde Islands and Dakar, and it was right there that the audience cheered Hitler.

"Our own President says that the safety of America lies in controlling the Cape Verde Islands off the coast of Africa," he sneered.

Instantly there were hoots and boos for Roosevelt.

HITLER'S NAME CHEERED

Then Lindbergh added:

"Even Hitler never made a statement like that."

The response was instantaneous. Cheers swept through the Arena.

There were more hoots for the President when Lindbergh asserted:

"It is Roosevelt himself who advocates world domination when he says that it is our business to control the wars of Europe and Asia and that we in America must dominate the islands lying off the African coast."

The Lindbergh call for a new leadership and for renunciation of the Roosevelt policies was a careful buildup to a climax that threw the Arena into a tremendous demonstration.

"LACK OF PREPARATION"

"They now say that the only way for us to defend America is to cross the Atlantic ocean and fight Europe; to cross the Pacific ocean and fight Japan; to fight possibly Russia, Italy, France, and Spain as well. They say that the only way we can defend democracy is by adopting the policies of a totalitarian state ourselves.

"They tell us it is undemocratic for us to question the type of *leadership that has taken to defeat* every nation in the world that followed it. They shout to us, as they shouted at England and France: they say: 'Never mind realities, the moral effect will make up for our lack of preparation.'

"Their prophecies have been false, their policies have failed, and their promises have been worthless. They have a record of utter failure behind them—Poland, Finland, Norway, Holland, Belgium, France, Jugoslavia, Greece. Yet now they demand that we, too, enter the greatest conflict in history, unprepared.

"NEW LEADERSHIP"

"I ask you, is our nation to follow them further?

"Is it not time for us to turn to new policies and to a new leadership?"

The America First rally was a big show—make no mistake about that.

LED ANTI-ROOSEVELT RALLY HERE

APPEARANCE of this trio on speakers' dais at the Arena last night was signal for race-splitting outburst. Left to right, they are Lindbergh, Kathleen Norris, the novelist, and Sen. David I. Walsh, one of leading congressional isolationists.—(Daily News Photo)

Goosestep bevy leads loud yahs for Lone Eagle

By JULIA SHAWELL

The Lone Eagle shared his aerie with a strange assortment of nest fellows as the America First committee jammed the Arena to capacity last night for the Lindbergh rally that at times touched the tempo of high hysteria.

Men who have sung the Horst Wessel song at [illegible] meetings here and were well up front last night had plenty of enthusiastic company for the "yahooing" when Hitler's name was mentioned.

Dr. Bessie Burchett, who recently resigned as a public high school teacher when official action was taken by the authorities after she posted a vitriolic anti-Roosevelt bulletin in a schoolroom, was surrounded by a tuneless chorus of thousands for the hearse Roosevelt piece.

"FRONTISTS" UP FRONT

Christian Frontists had box seats and *near them as preferably* ensconced were men whose pro-Nazi utterances have evoked FBI investigations within the past six months.

The Mothers and Daughters of Pennsylvania were there occupying block seats. So were the Crusading Mothers, a newly-formed organization, offshoot of resignations from the Pennsylvania Mothers. There were members of the National League of Mothers and a dozen newly-formed organizations with high-sounding patriotic names.

Mrs. Kathleen Norris, author of a hundred best-known best sellers, formed her phrase-making on the British, the war mongers—in fact, on all those who don't agree with ex-Col. Lindbergh and her.

Mrs. Anne Morrow Lindbergh, dressed in dark blue, took her wide-brimmed black hat off, and stepped to the front for the lead

STOP CONVOYS

12402

HALT THE TRIGGER-PULL INTO WAR!

On May 27 President Roosevelt is to speak to the nation on his war policy. D to unexpected developments in Europe, he did not make this speech on May But we know already what the content of the speech is intended to be.

The unofficial Propaganda Ministers for the Roosevelt administration, umnists Pearson and Allen, writing in the Washington Merry-Go-Round of M 13 said:

"He had two alternatives. One was to throw the question of convoys int lap of Congress. The other was to decide the question himself.

"To throw the issue into Congress, his congressional leaders told him, ma weeks and weeks of debate. . . .

"On the other hand, a decision by Roosevelt, personally, under his power commander-in-chief, meant the obvious and definite risk of throwing the na into war.

"However, the die is now cast. The President has made up his mind to convoys and all that goes with them. . . ."

WHAT ABOUT ELECTION CAMPAIGN PROMISES?

On October 23 last year, President Roosevelt said, ". . . We will not partic in foreign wars and will not send our Army, Navy, or air forces to fight in for lands outside of the Americas, except in case of attack."

On October 28, President Roosevelt said:

". . . made it clear that shine [illegible] merican flag could not carry n

And then later in that same speech he said, "In all these ways we made it clear to every American and to every foreign nation that we would avoid becoming entangled through some episode beyond our borders."

And then later, in arguing for the Lend-Lease Bill, the President said, "Convoy means shooting; and shooting means war."

But now the President is preparing to tell us in his own language that this country is going into the shooting stage of the war!

The whole "Defense" program—Conscription, the Destroyer Deal, the Armaments Program, and the Lend-Lease Bill—was sold to the people as a peace program, to keep us out of war. The Communist Party alone warned that it was a program to get us into war.

Every citizen can see now with what cynicism the President is repudiating the "campaign oratory" of his pre-election promises and proving the Communists to be correct.

THERE IS YET TIME

But all is not yet lost. There is still time to stay the trigger-pull that would shoot us into war. The fact is, the President postponed his May 16 address until May 27, not alone because of European developments, but also because of the temper of the American people.

No less a Tory than Ex-President Hoover said on May 11: ". . . There is an obvious large majority of people who oppose the sending of our boys either on our ships or on convoys or airplanes or expeditionary forces where they may have to shoot or be shot at. These oppositions are strongest in our youth, and it is youth who must die. . . ."

This large anti-war majority has the war-mongers worried. Mass protest can yet stay the trigger-finger of the President!

Make President Roosevelt keep his peace promises! Let him know before May 27 that we want no convoys! Let him know that we want no A. E. F. (American Expeditionary Force.) Let him know that we want no incident to plunge us into war!

No Convoys! No A. E. F.! No war incident!

Issued by the Los Angeles County Committee, Communist Party, U. S. A.

President Roosevelt,
Washington, D. C.

Dear Sir;

Last year, when I reached my twenty first birthday, I cast the first ballot I have ever casted. I casted that ballot for you. Now I am beginning to regret that I did.

Up until the latter part of last year, I was entirely in accord with every thing you had accomplished. But what I can't understand now is your hesitency in restricting the harmful propoganda that is now inundating our country.

Last week, when I was coming home from work, some little street urchin stuck a handbill into my hand and ran like the devil. You can't imagine my feelings when I read that handbill. Here is what it said; ' Is the America First Committe ready to cope with the Jewish problem after Germany wins the war?' 'Come to our rally at the Astoria Hall, at Steinway Street and twenty first road, Astoria, For the rally tonight'.

I myself am of the Jewish faith, but I went to that rally, and you can't imagine the hate that the America First committee spreads. They claim, and Mr. McWilliams was the speaker, that we are being forced into this war by the Jewish bankers and lawyers and politicians, and he asked this question, quote,'Why should we fight the battles of Isreals'.

As an American citizen, I ask you to do something about the preachings of these yellow jackedted appeasers, who are little less then Hitler's henchemen in disguise.

Thanking you in adva

LINDY ASSAILS ROOSEVELT'S FIRESIDE CHAT

Says if U. S. Follows His Policy "We Will Start a War . . . May Last For Generations"

PHILADELPHIA, May 20.—(AP)—Charles A. Lindbergh told a rally against war here tonight that if America attempts to follow the policy suggested by President Roosevelt Tuesday night "We will start a war between the hemispheres that may last for generations."

Replying directly to the President's fireside chat, Lindbergh declared:

"Our own President says that the safety of America lies in controlling the Cape Verde Islands off the Coast of Africa. Even Hitler never made a statement like that.

"Mr. Roosevelt claims that Hitler desires to dominate the world. But it is Mr. Roosevelt himself who advocates world domination when he says that it is our business to control the wars of Europe and Asia, and that we in America must dominate islands lying off the African coast."

OPPOSES "INTERVENTION"

Broadcasting locally over WFIL and over loudspeakers in the street outside the Arena, Lindbergh opposed "our intervention in this war" and said, "If we, a free and democratic people, can study this record (of intervention) and still permit our Government to take us into war, then I believe we deserve the consequences that will follow."

He did not define the consequences but recounted that the interventionists "have a record of utter failure behind them—Poland Finland, Norway, Holland, Belgium, France, Yugoslavia, Greece. Yet now they demand we too enter the greatest conflict . . . history unprecedented . . . time for us to [illegible] new policies and to a new leadership."

He urged Americans to join the America First Committee which sponsored his address, promising "with your help we will keep this country out of war."

SAYS PEACE POSSIBLE

He said there was "still the possibility of a negotiated peace in Europe" after the fall of Poland, "but not as far as the interventionists were concerned."

Lindbergh linked himself with those "who did not want to see England defeated" in advocating a negotiated peace.

"We realize how futile it was to carry on a war for which only Germany had prepared," he said. "We know that it would only send the best men of Europe to die by the hundreds of thousands, and that with each month that passed England would be in a worse position to negotiate than she was before. But the interventionists were still in control . . . always the same story—one defeat after another since this war began. And always the demand for more assistance from America. First they said, 'Sell us the arms and we will win.' Then it was 'Lend us the arms and we will win.' Now it is 'Bring us the arms and we will win.' Tomorrow it will be 'Fight our war for us and we will win.'

NOT CHILDREN

"We are not children to be coddled into unpleasant situations," Lindbergh told the audience, carefully watched by extra details of police. "We are not the blind followers of a totalitarian regime . . . we demand the truth from our leaders. We demand that they

Again may I point out that

I have found out that after each

all the Lindberghs, the wheelers and the Chicago Tribune has rocked the people into a hypnotic sleep. These men have no real arguement, but they play on the emotion, on hate and fear, not fear of our common enemy, but fear and hate of you.

This issue should be fought out on the grounds of war or slavery there is no other choice, and on such a issue I know the people will stand behind there government. No one can understand why Lindbergh and others should be permitted to continue their slanderous campaign if the situation is as bad as you say it is, they are only spreading confusion, and confusion always brings on draw backers. I hate war as much as you, but if we are to survive it is all that will saves.

yours till Victory,

Wars to End Wars

The Congressional Record lists the following "high-minded, idealistic" wars that have been fought abroad since only the beginning of the last century—

1801 The old German Empire breaks up, and all territory on the left bank of the Rhine is ceded to France.
1802 French aggressions in Holland, Italy and Switzerland.
1805 England declares war on Spain. France fights Austria.
1806 Napoleon enters Berlin.
1807 Napoleon defeats Russia.
1808 Napoleon invades Spain.
1810 France annexes Holland. Turks driven out of Balkans.
1812 War starts between United States and England.
1812 Napoleon declares war on Russia.
1814 France invaded from all sides. Napoleon to Elba. British seize and burn Washington.
1815 Napoleon leaves Elba, is defeated by British and Germans at Waterloo, then sent to St. Helena for life.
1816 Holland annexes Belgium.
1817 British wars in India.
1822 Greeks and Turks at war. Civil war in Spain.
1823 French Army enters Spain.
1824 British battle for Burma.
1825 Russia wars on Turkey.
1826 Russia invades Persia.
1827 Turks driven from Greece.
1828 Russia overruns Romania.
1829 England and Austria intervene against Russia.
1830 Revolution in Poland and France. Belgium revolts from Holland.
1831 Prussia and Austria aid Russia against Poland.
1832 Egypt revolts against Turkey.
1838 French bombard Mexican ports. Debt collection, old style.
1839 Britain wars on China.
1848 Schleswig-Holstein fights Danish annexation.
1849 Danish-Russian War.
1850 Britain blockades Greece. Prussia and Austria war.
1854 France and England war against Russia.

—and the interventionists now tell us, if we fight just one more war, it will end all their wars!

Do you want to entangle America in another of these wars? The interventionists promised us in 1917 that we were fighting "to end war."

If we fight to "end war" in 1941, in ten or twenty years we may have to fight to "end war" again.

You Can Stop the War-Makers!

Write or wire the President and your Senators and Congressman today: DEMAND THAT THEY KEEP THE PRESIDENT'S SACRED PLEDGES TO KEEP THIS COUNTRY OUT OF WAR.

Get others—your friends, relatives, associates in business—to write or wire now. YOUR LETTERS AND TELEGRAMS WILL BE HEEDED.

You must act now . . . before it is too late. Your own and your children's heritage—your American way of life—may be at stake.

MEMORANDUM FOR MR. NICHOLS

[redacted] During my absence from the office late yesterday afternoon [redacted] called this Section telephonically by reference from the Director's Office, and talked with Supervisor [redacted]. [redacted] stated that he was at Union Station waiting to take a train to his home in Pittsburgh. He mentioned that he wrote the Director from Pittsburgh on June 2nd requesting a speaker for a mass meeting in Pittsburgh during the latter part of June. It appeared from [redacted] conversation that the meeting in Pittsburgh is a rally in opposition to the America First Committee. He stated that "Wild Bill" Donovan was to be one of the speakers. [redacted] simply furnished the above information and made no request of Supervisor [redacted] The latter informed him that his letter would be called to the Director's attention as soon as it arrived in the Bureau.

The files indicate that a [redacted] an Attorney in Pittsburgh, wrote to the Bureau [redacted] b7c [redacted] appears that this individual is identical with the one who called yesterday.

[redacted] An attempt is being made to locate the letter which wrote to the Bureau on June 2, 1941.

Respectfully,

R. C. Hendon

Honorable Franklin D. Roosevelt,
Washington, D. C.

Dear Mr. President:

I unfortunately was forced to hear Senator Wheeler's PURPORT speech last night, addressed beforethe America First Committee at Hyland Park, and Lindbergh's speech at Philadelphia - both over the radio. Senator Wheeler and Lindbergh both commanded very strongly that the American mothers and fathers should write to you, the Senators, Congressmen, etc. and if necessary to go down to Washington and "storm" the White House with their protests against your taking us into war.

I am therefore writing this note to you begging you or the State Department or the Attorney General of the United States to please find some legal ground to break up this horrible disintegrating movement of this rotten American Frist Committee. It was developed I am sure only with the idea of trying to frustrate you and the Government in every move, but it is not fair to those who are working hard to have such men try to break up the unity of this United States. It shocks an American to hear those rasping voices of Wheeler and Lindbergh say words that are planned to wreck and split this country and that only traitors to their country would dare stand up and make such speeches. According to the papers, these people are growing stronger in numbers, and I therefore implore you, or have someone in Washington, try to break this rotten movement legally - certainly, a Democracy should not permit traitors to go on and on and on causing more disunion, more unrest, and if these men are not traitors, it certainly would seem to a true American that they could choose a different line of attack and work hard for the unity of the country.

Yours respectfully,

In reference to the leaflet I mailed you from Chicago, which is a second leaflet in the series of which the "Crucifixion of Uncle Sam" is the first: This, too, has been printed by the MARKET PRINTING COMPANY at the request of [redacted] of Chicago. b7c

The Nazis are now attempting a new approach. They have decided to abandon the anti-Semitic angle as being unmarketable here and indigestible on the part of the American people. The naturalized elements of the German American population are being instructed to join the America First Committee, and use that committee as an avenue for anti-British and anti-war propaganda. The so-called "activists", the desperate part of the American Nazis are being ordered to join the Communist organizations, and use this outlet for sabotage and general wrecking activities in the American armament industries. This information substantiates data that I have been getting through Communist contacts, by this I mean that in the new enrollments into the "Workers" schools and other Communist and Communist controlled organizations, there now appears to be an unusually large percentage of individuals with Teutonic names. This was not true until now, as the German elements within the Communist Party were a very small percentage.

[redacted], one of the partners in the Market Printing Company, the company which does all the printing for the German American Bund and the German American National Alliance, etc., stated that various German organizations, which have been doing business with this printing company, have suggested that large paper reserves be set aside, as they anticipate substantially increasing their printing orders. He mentioned particularly one organization that had been lax in meeting its bills. Up until a few days ago this organization had an unpaid balance of $400., which was due a long time ago. Representatives of this association appeared last week, without any solicitation on the part of the Market Printing Co., paid $100. on the balance, and stated that they would meet the rest of it in a few days, and that they expect shortly to place some substantial printing orders. b7c

This situation will be worth while watching, as it will undoubtedly uncover some very interesting situations.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D.C.

Dear Sir:

Why is America confused today? For one thing the United States mail is spreading this confusion throughout the length and breadth of the country.

I am inclosing a sample of this poisonous propaganda and particularly call your attention to the anonymous notations written in lead pencil. This data all arrived in the one envelope just as I am sending it on to you.

It may be find that the F. B. I., as we are told, knows exactly where the subversive individuals are and can at a moment's notice round them all up, however, in the meantime one hundred thirty million people are being slowly poisoned and the F. B. I. may find itself in the position ultimately of locking the barn door after the horse is out.

When are we going to do something about it?

Yours very truly,

TO MY HARASSED COUNTRYMEN!

What is your answer to the prominent banker who states we should go to war "if for no other reason than that of good business"?

What is your information of war-aid promises made in your name by your Statesmen? Aid which may transfer the vitally necessary resources of our own country to another.

KEEP U. S. A. OUT OF WAR

IT IS ONLY THE WILL OF PEOPLE FOR PEACE THAT HAS KEPT THE SONS OF OUR BELOVED COUNTRY FROM SHEDDING THEIR BLOOD ON ALL CORNERS OF THE EARTH OR FROM A FATHOMLESS GRAVE IN THE DEEP.

YOUR OPPORTUNITY IN FREEING THE WORLD OF WAR IS UNPRECEDENTED IN HISTORY — IT MAY NEVER BE REPEATED— SEIZE IT BEFORE IT IS TOO LATE!

WRITE TO YOUR CONGRESSMAN AND SENATORS TODAY. (New York Senators are Robert F. Wagner and James M. Mead. Address them at the Senate Office Building, Washington, D.C.) ASK THEM TO BAN THE USE OF AMERICAN NAVAL VESSELS FOR CONVOYING SHIPMENTS INTO WAR ZONES. ALSO TELEGRAPH THE PRESIDENT AND SECRETARIES HULL AND KNOX PROTESTING AGAINST THEIR USE AND REMINDING THEM OF CAMPAIGN PLEDGES.

The spread of the war to Africa has no conceivable attribute of democracy—but rather for the spread of Empire. Ask the President and your Congressman to keep the U. S. Fleet in home waters to protect our citizens engaged in peaceful pursuits. But above all write now, today, and every day.

ASK! BEG! COMMAND! your Senators and Congressmen TO KEEP THE U.S.A. OUT OF WAR.

A Million Letters Now May Save Millions of Lives

Peace House, working with religious and peace organizations of long standing, appeals to all young men who are opposed to war from either religious or humanitarian convictions to register as "CONSCIENTIOUS OBJECTOR" on their draft questionnaire. After years of ardent work for peace, our Government recognizes this right. It is a matter of interest to observe that after England's many months of war Canada does not have compulsory military service for overseas and has no Lease-Lend Bill but is SELLING armaments in large quantities to her mother country. In England over 50,000 Conscientious Objectors are helping their government in peaceful employment.

IT IS NOT NECESSARY TO BELONG TO A RELIGIOUS SECT OR SOCIETY TO BE A CONSCIENTIOUS OBJECTOR ALTHOUGH SOME DRAFT BOARD OFFICIALS ARE STILL APPARENTLY IGNORANT OF THIS PHASE OF THE LAW.

If you are convinced that killing your fellowmen is contrary to the law of GOD and MAN and wish advice and suggestions for filling your draft questionnaire as "Conscientious Objector," write, sending a carefully self-addressed stamped envelope.

Ask your clergy to remember to preach the Ten Commandments of Moses for physical as well as spiritual salvation.

One more word to your representatives—To add Nearby Territory to U. S. A. by peaceful purchase and not imitate the violent methods of the dictators we all decry.

PEACE HOUSE

Open Sunday 2 to 6 P. M.

Inquire About Peace Prizes

Do This Immediately!

If your Congressman is a Democrat, and voted for the "Lend - Lease" Bill (H R 1776) despite the opposition of his constituents, he very likely was prompted by *fear* rather than *choice*.

It was understood that any Democrat *not* voting for this Bill in its entirety was a *marked man!*

Under the present administration Democratic representatives have very little choice in the matter of voting. They are paid by their tax-paying constituents, but are ruled by political bosses.

If we expect the representation for which we pay, we will have to wage war on the political leaders.

Millions of telegrams, letters and cards opposing H R 1776 were received by the representatives, but the House nevertheless passed the Bill because the majority (the Democrats) followed party instructions.

Washington which gives out the jobs and other patronage, tells the lesser leaders how to vote; the State leaders tell the Senators; and the city and district leaders tell the Congressmen. Morgenthau, Sec. of Treasury, is the chief author of this Bill, though he claims it originated in the minds of F. D. R. and Sam Rayburn, speaker of the House. While the Bill was being debated in the House, Rayburn backed recalcitrant Democrats into corners and bullied and browbeat and threatened them to such extent that many of them took refuge in the cloakroom and declined to vote on some of the Republican amendments. *This is the depth to which lawmaking has sunk in the United States!!*

131 million people are *without* representation, and are to have the wills of Roosevelt, Rayburn, and Morgenthau *forced* upon them by gangster tactics!

The American taxpayers pay $10,000 per year to each representative, but if Democratic representatives refuse to do the bidding of Sam Rayburn *who pays no taxes*, they will be denied renomination in favor of those willing to follow party lines.

Write to Sam Rayburn, House Office Bldg., Washington, D. C.

Tell him you know of the tactics he used in getting H R 1776 through the House. Tell him your Congressman is in Washington to represent those who pay his salary, and that you *will not tolerate his being intimidated or coerced!*

Tell Rayburn that *he* represents *only* the 4th Texas Cong. Dist., and to keep his hands off your Congressman's district.

Then call on or write to the leaders of your political party, local, state, and national.

(Their identity may be ascertained at your local or district political headquarters).

Tell them your representatives, — national, state, and municipal, — must at all times vote according to the dictates of the majority of their constituents. Tell each one what you have told the other and tell them you expect results in the form of representation for which you are now paying but are *not* getting. Tell them if your representatives' votes do not reflect the views expressed by their constituents, you will on every possible occasion, vote *against* that party's candidates.

If you are or your Congressman is a Democrat, write to Ed. J. Flynn, Dem. Nat. Headqtrs., Washington, D. C. He is chairman of the National Democrats. To him complain about Sam Rayburn. Tell him he must take Rayburn to task for his gangster methods toward Democratic representatives having decency enough to give heed to their constituents. Tell him as well as Rayburn that you *will not tolerate* any intimidation or coercion of your representatives.

Then write to your two U. S. Senators, your Congressman, and your representatives — at large (if any) in Washington; to your State Senators and Assemblyman in your State Capitol; and your city representatives (City-councilmen or Alderman). Tell them what you told your party-leaders and Sam Rayburn. Tell them they must at all times represent their constituents and that you will keep tabs on happenings in Washington and your State Capitol; and will go after anyone who tries to influence them to betray their constituents.

And then keep your word to ALL of them. ~~Make every effort to defeat H R 1776 in the Senate; but if it is passed there (God forbid)~~ storm the Lower House (Congress) with telegrams, letters, cards and visits ~~when it goes back there for revision.~~

If you take Sam Rayburn and the bosses off the necks of your Democratic congressmen, we have a good chance there of defeating those who would force dictatorship on unwilling Americans.

As long as there is breath left in our bodies, we *must continue this fight!!!*

Did you read of a Mrs. Fischer being forcibly ejected recently from the Senate Building because she disturbed the members? The lying controlled newspapers stated that she was ejected for shouting "Kill the bill and not our sons."

Mrs. Fischer who resides in Milwaukee, Wis. and is a member of the Mothers of America, with which organization she went to Washington to protest against the "Lend-Lease" Gift Bill, was actually *knocked down* and ~~painfully~~ hurt, and then ejected when she shouted "Down with the British flag; up with the Stars and Stripes."

She was not molested until she said that!

•

Jeannette Rankin was the first woman elected to the U. S. Congress. We were fortunate enough to have her returned to Congress in last November's election. In her speech against H R 1776, Mrs. Rankin told the House that only two hours before voting for war in 1917 the Congress was told that if it declared war, none of our boys would be sent over.

Mrs. Rankin recently told a constituent that she asked Roosevelt point blank if the "Lend-Lease" Bill meant war; to which he replied "Well, we've ordered 1,500,000 coffins."

A special income tax of 10 per cent was recently proposed in Washington by the National Economy League, to finance the multi-billion-dollar defense (British) program; the proposed levy to be *collected at the source of income* — which means that before you even get your salary each week this tax will be *taken out of it!*

Who are the members of the National Economy League? Write to your representatives and insist on being told their names.

If this imposition be tolerated, it will mean that 10 *cents of every dollar you earn each week* will be taken from your salary to pay for European and Asiatic wars.

You will have absolutely nothing to say about it unless you speak out *now* and nip this dastardly plot in the bud.

Since the Social Security was so successful in taking tax from our salaries while meeting no resistence or protest from us, the government will now try imposing all sorts of taxes to be collected *at the source of income*, until finally there will be *no* income.

We must all keep both our eyes and ears open in order to prevent such plots from being put over on us.

Stop this one right where it is now!

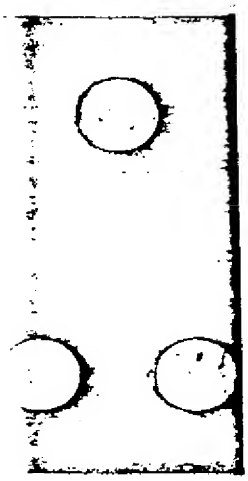
"Forewarned is fore armed."

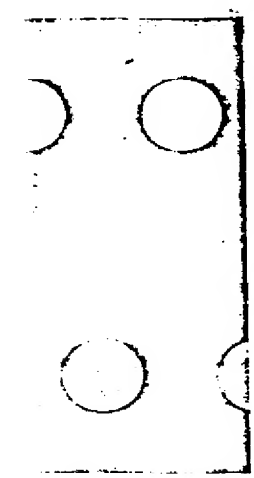
A LETTER TO AMERICANS

by

CHARLES A. LINDBERGH

This powerful article by Col. Charles A. Lindbergh was published recently in a national magazine. It is a stirring appeal to the American people to stop, look and listen as they stand on the threshold of one of the greatest decisions in one of the greatest crises in American history.





I ADDRESS this letter to every man and woman in America who is opposed to our country's entry into the European war. I write because we are being led toward that war with ever-increasing rapidity, and by every conceivable subterfuge. While our leaders have shouted for peace, they have constantly directed us toward war, until even now we are seriously involved.

I write to ask your immediate aid in maintaining the independent American destiny our forefathers established. I write to warn you that the men who entice us on to war have no more idea of how that war can be won than the governments of France and England had when they declared war on Germany. The interventionists call on us to fight, and then their responsibility ends. They offer no feasible plan for victory.

The situation in America today is alarmingly similar to that of France and England in the years prior to this war. There, as here, people let their emotions get the better of their judgment; and they had the same unwillingness to face realities. Both countries had refused to take part in a European readjustment while there was still time to make it peacefully. Both had refused to make the sacrifice that was essential for adequate rearmament. They, too, had cultivated the philosophy that it was necessary to defend someone else in order to defend themselves. How they could defend anyone else if they were unable to defend themselves, they apparently did not consider any more than we are considering today.

Their failure is now obvious, and stands out clearly before us. The imposition of "sanctions" did not save Abyssinia; but it threw Italy *into* the arms of Germany and sowed the seeds for the Axis. The threat of war by England and France did not save Poland; but it forced Germany and Russia into an alliance and precipitated a disastrous war. Adjustments that should have been made in peace and moderation were finally brought by war and resulted in immoderation. The failure to face realities in peace brought the curse of war on Europe. The failure to face the realities of war brought defeat to France and devastation to England.

When the last war ended, the victorious Allies had two courses open to them. They could either have assisted Germany back onto her feet as a self-respecting nation, or they could have kept her in a weakened condition by the use of military *force*. But they followed neither of these policies. England and France wavered back and forth between the two, while the United States withdrew her armies and her politics to the Western Hemisphere -avowedly forever.

During the years immediately succeeding the last war, Germany was held down with an iron heel. The terms of Versailles were the terms of a military victory, and when Germany defaulted on her payment of reparations, French troops occupied the Ruhr. But during the following two decades, England decided to disarm, while France allowed the equipment of her army to become obsolete for modern warfare. Then Germany broke the terms of Versailles, rearmed and marched her troops back into the Rhineland. When this happened, a few men in France and England, with greater vision than the rest, cried out that Germany must be stopped then, or that it would be forever too late. Their statements were met with popular indifference.

During the most active years of German rearmament, France and England exerted relatively little effort to compete. It seemed impossible for them to realize what was taking place in Central Europe. But later, after Germany had trained her armies, built her air force and constructed the Siegfried Line, the demand grew in France and England for military action -- a demand which culminated in the declaration of war of 1939, and which has already caused the defeat of France and the devastation of England. While there was still time to fight, populace and politician refused to let the armies move. When the time to fight had passed, the armies were forced into a hopeless battle.

I sat in England, one afternoon in 1938, listening to the man who had charge of co-ordinating defense for the British government. I had pleaded with him to take additional steps to safeguard the British position in aviation. I had told him that if this were not done Germany would soon become as supreme in the air as England was at sea. He listened courteously, and then replied that if the wars in Spain and China had demonstrated one thing, it was that the danger of air bombardment, and the damage which could be inflicted by bombing planes, had been grossly exaggerated. He said that the British aviation program was being "adequately expanded."

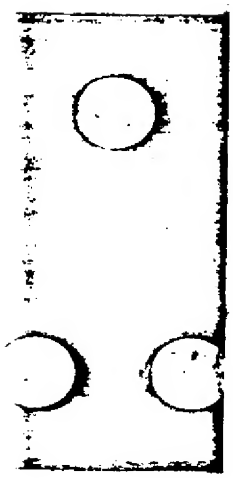
A few months later, at the time of the Munich crisis, I went to see one of the foremost leaders of England. I went at the request of other English leaders, to tell him my belief that the strength of German aviation was under-estimated in England, and that the strength of Russian aviation was almost as much overestimated. He did not agree with me, although he admitted that the situation was serious. While I was there, however, he showed me an official report concerning British antiaircraft units. The report stated that not enough antiaircraft guns existed in all England to form an adequate defense for the city of London alone. Yet that man at that moment, was advocating war.

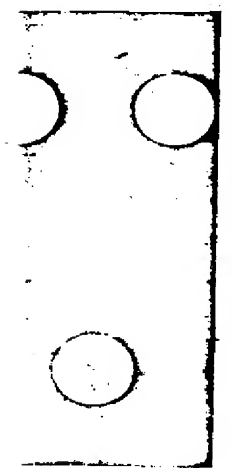
At the time of Munich, the Royal Air Force had only a few squadrons of modern fighters and bombers. The majority of their planes were obsolete. And all of them put together totaled a fraction of the German air force. The condition of French aviation was even more deplorable. There was not a single squadron in France equipped with modern pursuit planes, and the French government was *looking forward* to the time when its aircraft production would reach a total of 200 fighting planes per month.

When I returned to Paris after a flight to Russia, in the fall of 1938, I met, at his request, one of the members of the French cabinet. I gave him my estimate of the Russian and German air forces, telling him of the tremendous expansion of military aviation that had taken place in Germany and that Russian aviation had been unable to keep pace. He replied that my estimates confirmed the worst fears of the French and corresponded to the reports of an air mission they had recently sent to Germany. I found that aviation circles in France, at that time, freely admitted that Germany would take supremacy of the air almost as soon as a war started.

From the standpoint of logic, the aviation situation in Europe was in itself sufficient reason to prevent a declaration of war by France and England in 1939. But when one looked farther, he found that the same conditions existed in relation to the ground armies of Europe. Even the civilian population of Germany had been trained and prepared for war, while the people in France and England were not.

One of the striking differences between France and England, during the month immediately preceding this war, lay in the fact that France was alert to her danger but disorganized; while England was organized but only half awake. In France, internal conditions were so bad that I often wondered whether war or revolution would break upon the country first. In England there was no danger of revolution, but the people of that nation had never adjusted themselves to the tempo of this modern era. Their minds were still attuned to the speed of sail rather than to that of aircraft. The way of life in England was ideal for time of peace, but fatal for a modern war. Germany, on the other hand, one found a nation that had risen from the prostration of a previous defeat--a nation less tolerant





less satisfied than its neighbors; a nation fully trained for war, and nurtured on the philosophy that right is inseparable from might.

The true facts of the European situation had been hidden from the people of England and France. They were not adequately informed either of Germany's strength or of their own weakness. Politicians and idealists harangued them about stopping aggression, about defending freedom and democracy, about maintaining their way of life, but the realities of modern warfare — the elements that spell failure or success — were seldom discussed. The orators shouted: "We must stop Hitler." The newspapers echoed: "Down with the Nazi regime." The people of France and England resigned themselves to the inevitability of war. But not a single man told how to break the Siegfried Line.

I can best illustrate the attitude in the democracies of Europe by telling you of a conversation I had one evening with a French businessman on the outskirts of Paris. He had been talking for nearly an hour about the inevitability of war, and why German aggression must be stopped. He advocated a declaration of war by France.

"What would your first move be?" I asked him.

"We must fight the Germans," he replied.

"But how?" I asked him. "Do you think the French army can break the Siegfried Line?"

He looked startled, then sank back into his chair. "Oh, I don't know about that," he answered. "That's up to the military men."

A week or two later, I was having lunch with one of those military men—a general in the French army. I asked him if he felt that the Siegfried Line could be broken.

"No," he replied, "I don't think so." And then added: "But if it could, the cost would be too high."

"What's the answer then?" I asked, for the war drums were beating loudly.

He shrugged his shoulders. "If only they had let us attack when we wanted to," he said. "When we could have won, the people would not fight. And now, when we cannot win, they want war."

France waited until it was too late. England waited until it was too late. We in America have waited until it is too late; and yet we step closer and closer to the war, as though hypnotized by its bombing and its fury. Like France and England in 1939, we are unprepared today. We have not as many thoroughly modern fighting planes in our Army and Navy combined as Germany produces in a single week; and our Army is deplorably lacking in such essential items as tanks and antitank cannon. We have not made the sacrifice necessary for adequate rearmament. We, too, have cultivated the philosophy that it is essential to defend someone else in order to defend ourselves. *Our* politicians and idealists harangue *us* about defending freedom and democracy, and our way of life. *They* are now shouting, "We must stop Hitler." *Our* newspapers echo "Down with the Nazi regime." But not one feasible plan has been offered us for an invasion of the continent of Europe. With the disaster of France and England fresh before us, we are following the selfsame path.

We, in America, are being led to war by a group of interventionists, and foreign interests, against the will of a majority of our people. Every poll of public opinion has shown that from 80 per cent to 95 per cent of Americans are opposed to entering this war. Both the Republican and Democratic parties were forced to incorporate antiwar planks in their platforms. Both presidential candidates were compelled to take a stand against our intervention. Yet today, although no one has made an attempt to attack us, we already have one foot in the war. We have even now entangled "our peace and prosperity in the toils of European ambition, rivalship, interest, humor and caprice."

What has happened to us? How was this condition brought about? The procedure has not been dissimilar to that which took us into the last war. When hostilities in Europe began, it was fully realized by the foreign interests and interventionists in this country that the great majority of Americans stood firmly opposed to entering the conflict. These interventionists knew that it was useless for them to advocate openly a declaration of war by America. They therefore adopted a more subtle plan. They believed that while the people of the United States would not agree to a declaration of war, we could be beguiled into supporting steps that would inevitably lead to war. Consequently, instead of advocating war, they advocated steps which they called "short of war"—steps which have already entangled us, and which will leave us no alternative to war if we continue to take them. The policy of the interventionists has been, from the beginning, to support every movement that would lead us in the direction of war, and to oppose every movement that would not—always under their mask of "aid short of war." I have listened more than once to interventionists in America discuss the question of what steps "short of war" would take us into war most quickly.

To be specific, soon after war was declared in Europe, the interventionists advocated, and obtained, the revision of our Neutrality Act. They persuaded us that we could sell arms on a "cash and carry" basis without becoming involved in the war ourselves. They were emphatic in saying that no one asked us to lend money, or to send troops abroad. Their next step "short of war" was the demand that aircraft, cannon, destroyers and other munitions be taken from the American Army, Navy and Air Corps, and transferred to the French and British forces in Europe. In this, too, we acquiesced. Then we began to hear it whispered that we were already too far in the war to back out -whispered by the very people who had advocated the steps "short of war" which involved us. Now we are told that we have not done enough; that there must be no limit to our assistance; that we must be the "arsenal of democracy" for the entire world, lending, leasing or giving all the resources of our nation, if necessary, to the cause of the British empire. (And here it is interesting to note that the cause of the British empire does not prevent us, as the "arsenal of democracy," from supplying arms to Russia, though she be both an aggressor nation and a totalitarian state.) The advocates of intervention are beginning to forget the qualifying phrase "short of war." The more daring among them are openly discussing an American Expeditionary Force for Europe.

Along with steps "short of war" has gone a supporting campaign of propaganda. Our country has been full of it for many months—a propaganda as subtle, insidious and effective to date as that which led us into the last war. Before we entered war in 1917 we were told, as we are being told today, that American troops would not be needed. Then, after we declared war, we were asked for a "token" division to fight in Europe. But we ended up with more than 2,000,000 soldiers overseas, and a war debt that has not yet been paid.

British propaganda in the United States attempts to persuade us that Great Britain will win the war, provided she receives somewhat more help than we have up to this moment, given her. Coupled with this has been a campaign to convince us that a British victory is essential to American security. It is taken for granted that we would not be willing to take part in a war which we felt would be unsuccessful. Consequently, news releases from London minimize all German successes and exaggerate all British successes. They avoid any discussion of war aims, peace terms or how England can win now that Germany has defeated France and controls the continent of Europe. This is simply the ABC of wartime propaganda. It is carried on by both sides in a war. I am discussing British propaganda because it is that to which we have been subjected and therein lies the danger of our involvement. There is certainly no danger of our fighting on Germany's side, and her propaganda in America has been relatively ineffective.

To be specific again, you will remember that even before hostilities commenced, factual statements concerning the growing military strength of Germany were bitterly attacked by the pro-British press. Those of us who saw the growth of the German air force were severely assailed because of the reports we made describing it, although these reports now turn out to have been almost unforgivably conservative. Then, you recall that when the Germans invaded Austria, it was claimed by the propagandists that their mechanized divisions broke down; that the workmanship on their tanks, trucks, engines, etc., was too inferior to operate successfully in a major war. German aircraft were said to be weakly constructed; there was a shortage of pilots, raw materials and fuel. We were told that Germany did not have sufficient food to wage a war. And in addition to all this, internal conditions were said to be so bad that the German people would start a revolution rather than fight again.

If you question the accuracy of my statement that we have been misinformed through propaganda, I ask you to glance through our daily newspapers since the war began. If you are pressed for time, take any one of the major campaigns—Poland, Finland, Norway, Holland, Belgium and France. You will find that we, in America, were misinformed about these campaigns until the actual military position made it impossible to hide the facts any longer. Do you remember when we were informed over the radio that the French army had penetrated the Siegfried Line in five different places? Do you recall the headlines of battles raging on the western front during the winter of 1939-40 — battles we now know were never fought? Were we told how desperate the Finnish position was before the final break-through of the Russian army? Do you remember how, after reading day after day of Allied successes in Norway, and how Germany had put her neck in a noose, we were startled by the announcement that the Allies were evacuating all of their forces? Who was it said the Maginot Line was impregnable; that bombing planes were no match for the British navy; that England had the submarine menace well in hand, and had already "won the battle of the air?"

The propagandists who made these claims do not bother to explain them. They know that people forget quickly, and they are too busy leading us along with new fallacies. They must confuse America's desire to aid England with our desire to stay out of the war. They must convince our people that England is winning the war in Europe, even though she has lost every major engagement in which she participated — that all she needs is more help than we have, up to that moment, given her; and that if we *should* get into the war, it would not be necessary to send troops. They must build up the element of fear in America. They must persuade us that if England

Join or form a group in your congressional district to canvass the voters and prospective voters for their views of the "Lend-Lease" Bill. Try to persuade them to sign a list stating whether they disapprove of the Bill; — approve of it; — or decline to say.

If a majority disapprove of it, those of your group who can, should take the three lists to Washington, D. C., *insist* (and *firmly* insist) on an audience with your Congressmen and your two U. S. Senators, and your Representatives-at-large (if any). Submit to them a duplicate list (retain the original in case of dispute) and tell them they are expected to vote on the "Lend-Lease" Bill according to the views expressed by the Majority of their constituents and *not* to suit the party.

American voters must take definite, determined, and *SWIFT* action if they expect to retain their liberties.

The "Lend-Lease" dictatorship Bill ~~is now being de-~~ ~~ciled~~. It must be defeated in its entirety!

Under date of February 6, 1941, the N. Y. "Journal and American" published a statement by England's former Financial Secretary of Treasury, Pethwick Lawrence (Laborite) that the cash and carry principal had been a drain on Britain's resources (it's *their War*, isn't it?) and eppressed the hope that the "Lend-Lease" Bill ~~now under debate in Washington~~ would be enacted into law.

Chancellor of the Exchequor Sir Kingsley Wood disclosed that Britain's war effort now is costing 10,500,000 pounds (forty-two million dollars) *per day!*

"If the measure they are now debating in the United States is carried into law as we have every reason to believe it will, it will for a time, *relieve us of our immediate concern in paying for the supplies*" Lawrence said.

(Who gave them reason to believe the law will pass Harry Hopkins? Wendell Willkie?)

He said that the expenditures for the current fisca year were likely to reach 3,300,000,000 pounds (thirtee billion, two hundred million dollars).

This is what Roosevelt is asking Congress to take ou of the salaries of the American wage-earners!

The property on the N. E. corner of Broadway an 43rd Street is owned by the Duke of Roxbourgh.

61 per cent of the stock of the American Telephon and Telegraph Co. is owned by Britons.

These are just a *very few* of the New York holding of Britons and there are *many* such holdings throughou America.

Let the English sell these holdings and pay for anothe day's war as long as they like it, instead of asking that i be paid by $15.00 per week toiling Americans, who don' own a shack in a back alley let alone a 5th Ave. Mansion

If this bill is passed, it will mean the end of liberty in America.

Morgenthau, Secretary of the Treasury (who in reality is also Secretary of War and Secretary of the Navy) has a bill to be introduced whereby we will be forced to buy bonds to finance the present European war — a war to end all laws and to end America as a republic. The money to pay for these bonds will be taken from our salaries each week, as unemployment insurance is now taken; his bill will also force us to "save" by putting into a bank for the government's use, that part of our salaries *not* absolutely necessary for payment of the current week's expenses. *We* will *not* be permitted to judge the necessary amount. The government will *tell* us what is necessary.

As Roosevelt has said that he intends to make America "democracy's" arsenal, there will be no chance of our ever getting this money back; it will be burned up in powder and bullets just as fast as we earn it.

England and France declared war on Germany, they having had a treaty pledging defense of Poland in event of her being attacked. And because *they — two foreign nations* — made this treaty, we American wage-earners are to have our hard-earned dollars forced from us to underwrite the wars of *any country* dictator Roosevelt decides we must pay for.

And why do you suppose the idle rich favor this Bill? (aside from the fact of their investments in war-materials). It is because the money to finance "democracy's" arsenal will *not* be taken out of their salaries, inasmuch as they do *not* have to work for salary. In other words, they know that it will be we who must work for our daily bread who will pay for Europe's wars, while they ~~who~~ do-no work but reap the harvest.

And all who are working for this disgraceful sovietizing of the American Republic are not *admitted* New Dealers. Senate Republican leader McNary, (ex-Vice-Presidential candidate); Sen. Robert Taft, and Congr. Joe Martin, all three popularly supposed to be Republicans, are working hand-in-glove with the New Dealers to have the Bill *amended* rather than opposed.

If you are a Republican get after these three, hammer and tongs. Demand that they get out of the Republican party and join up with Earl Browder, where they belong.

SHORT OF THE GRAVE

During the last political campaign General Johnson in speaking of the war-mindedness of the Administration asserted a large order had already been placed for coffins. Major Ginsberg in reply stated coffins had been ordered but they were for men who died in peaceful pursuits, like falling under trucks.

The "World Telegram" of Wednesday on page one carried a prominent article headed "Army Orders 4,500,000 Special Tags for Identifying War Dead and Wounded." The article then detailed how the William C. Ballantyne Co., of Washington, secured the huge contract, which represents a figure larger than every person now in the service.

We do not know whether the tags are being ordered for fellows who fall off trucks and cannot be identified but we do know that this contract makes the "short of war" statements look pretty sad. If the ordering of 4,500,000 tags comes under the heading of preparedness or defense, we are certainly going at it in a large way.

Are you of the belief that because you are a conscientious objector, or have dependants, or consider yourself exempt from military duty for any other reason, this will not affect you? If so, you had better arouse yourself from that sweet dream and face the ugly facts.

The passage of the dictatorship "Lend-Lease" Bill will abrogate *all the laws ever made* in the United States of America!! Which, of course, will include the clause in Julius Ochs Adler's "Burke-Wadsworth" Bill providing for exemptions from military service.

Our country will then be ruled by *one person*, t person being F. D. Roosevelt, and only they who find fa in the eyes of the great dictator shall be exempt from being ploughed under. So, if you don't relish having one of the waiting coffins and already—printed identification—tags reserved for you or one of your loved ones, start immediate action to defeat this vicious un-American, unconstitutional Bill.

Jos. Kennedy, former Ambassador to England, states that the English people are asking "What are we fighting for?" The *people* of England don't know what the war is for, but the British *Government* insists on the war's continuation.

Senators Wheeler and Nye have a resolution asking the war aims of the belligerents. *Insist* to your Representatives that this resolution be passed before any further assistance be given anyone.

loses, we are not strong enough to defend ourselves; that we may be invaded by aircraft from the Greenland ice cap, or even by transatlantic parachute troops descending on our city streets. They have already led us far along the road to war—the same road that we traveled in 1917; then too at their behest.

But there is one all-important difference between the European war when we entered it in 1917, and the European war today. It is this difference which must be brought to the attention of every American, for the entire future of our nation hangs upon it. It is, that when we entered the last war we could see how victory could be won, but today we cannot. In 1917, the Central Powers were fighting France and Great Britain *in the west, Russia in the east, and* Italy in the south. The German armies had already suffered severe reverses. Even Japan had entered the war on the Allied side.

In 1941, however, we face an entirely different situation. Germany has conquered France. She has an alliance with Italy, Rusia and Japan — three hundred million people. Her armies control the coast of Europe from Spain to the Arctic Ocean. British shipping losses are already of the utmost seriousness, and the major ports and industrial centers of England have been heavily bombed.

The fact is that *America is not in a position* to wage a successful war in Europe under present conditions. We, ourselves, are not prepared, and even if we were, where would we send our soldiers to fight? How are we to force a landing on the European continent against the prepared positions of the strongest military power in the world? If the British, French and Belgian armies combined could not hold the fortifications they had spent years in building along the German border, how can we be expected to cross the Atlantic Ocean and invade the continent of Europe against the opposition *of the same army, navy and air force* that thrust the British fleet from the coast of Norway, and broke the Maginot Line?

The people who shouted for England and France to declare war in 1939 called for suicide and defeat. Because of their hysteria and blindness, the bravest men of France and England marched to disaster and to death. While the intellectuals of Europe preached of Christianity, democracy and idealism, they threw a wave of human flesh against a fortified concrete line — without adequate guns, or tanks, or aircraft even for defense, to say nothing of attack.

Has this attitude of life succeeded? Has it gained freedom for France or security for England? Has it stamped out aggression or heightened civilization? Has democracy gained or has it lost through such leadership? These are questions that we in America must answer. With failure in Europe before our eyes, shall we follow this same course? Shall we throw ourselves into war in a fervor of idealism, shouting about how we think the world *should* be run? Or shall we discuss calmly how our objectives can be accomplished, and *adequately* prepare ourselves to reach them?

Personally, I believe that by *our* withdrawal from Europe after the last war, and our failure to prepare for this one many years ago, we are already committed to a policy of military "isolation." I believe that if we abandon this policy at the present time, we are courting national disaster, just as France and England courted disaster when they, unprepared, declared war over the German invasion of Poland. A nation cannot change overnight from an attitude of peace to an attitude of war. It takes many years of planning and preparation before great military strength can be attained. I believe it is not any longer a question of what we *wish* to do in this war, but rather one of what we *can* do. I believe that for us to enter the conflict in Europe at this time would result in defeat and humiliation. If we are to enter such a conflict successfully, then we must prepare for it not for one year or for two, but for ten years or for twenty as Germany has done.

On the other hand, I believe that we can build a military and commercial position on this continent that is impregnable to attack, and which will force other nations to trade with us, if through expediency alone. Even if America intended eventually to dominate the entire world, as some people now seem to want us to do, I would say that our first step should be to consolidate our defenses at home, so that we could prepare ourselves in safety for our adventures beyond the seas.

Every difficulty we would have in invading Europe would be an advantage for us in defending America. Our armies would be fighting on home soil, our Navy would be close to its bases, our air force could strike with its utmost effect. It would be the enemy's problem, not ours, to cross the ocean with millions of troops and their supplies, to pass by our submarines, our battleships, and our bombing planes, and to force a landing on American shores against the guns of our coast artillery and our Army.

When England could not hold the coast of Norway against the German air force; when the British navy dared not remain in the Skagerrak, or even permanently in the North Sea; when the German military machine, after crashing through the Maginot Line and routing the French army and the British expeditionary force, has been held up for nine months by twenty-five miles of English Channel—how is any navy to approach the shores of America and land an invading army against the combined resistance of our military forces?

There has been much discussion of an air *invasion of America. This is partially due* to propaganda, partially to hysteria and partially, I believe, to a misconception of the so-called "air invasions" of Norway and Holland by the German air force. Personally, although I think the effectiveness of military aviation is still underestimated, I do not believe there is the slightest danger of a purely air invasion of America now, or at any time we can now foresee. To begin with, the distance across the oceans is far too great to permit the air transport of armies large enough to invade us successfully, even if one assumes that they had *a place to land unopposed* by our own military forces. But, aside from the question of distance, we should be reassured by the fact that there has never been a successful invasion by air alone. The outstanding examples of the use of aviation for invasion of enemy territory occurred during the German occupations of Norway and Holland. But in each of these instances, the landing of troops by air was carried on simultaneously with the movement of ground and naval forces on a major scale. The maximum number of troops that could have been transported and supplied by air would have been ineffective without the immediate support of a ground army. If air invasion alone could be successful, it would have been used by the Germans against England many months ago.

But what about the northern routes, cry the alarmists; won't we be invaded by way of Greenland and Alaska, where the distances between land are short? Possibly the best answer to this question is in the form of another: Why, if these northern routes are so advantageous, do you suppose the commercial airlines to Europe and Asia prefer the great overwater distances farther south? The answer is that ice and fog and bitter cold still force men southward in their quests of commerce and of war. Except in adventure and exploration, men follow the routes which offer the greatest safety and require the least effort — and these are not in the north.

Of all the transatlantic air routes, the simplest to fly is the one that lies between Africa and South America. This fact is being used today in much of the war propaganda we hear. German airplanes, we are told, will fly to Africa by the thousands, hop across the ocean to South America, refuel and fly up and invade the United States.

Leaving aside the problems that would have to be solved in Europe and Africa before thousands of German airplanes could take off on such a venture, let us consider what preparations would have to be made for their arrival in South America—in Brazil, to be specific. There would have to be dozens of previously prepared airdromes, equipped with tanks and fuel and crews of skilled mechanics. All of the men and supplies required would have to be transported by sea. In fact many ocean transports and tens of thousands of workmen would have to be busy for months before the necessary landing facilities could be arranged. So that when anyone speaks of an air invasion via Africa and South America, he presupposes that Germany has won the war in Europe; that the countries she has conquered are either so well satisfied or so completely subdued that she is able to devote her attention to an interhemispherical struggle (with Asia always at her back door); that she has Africa also well in hand; and finally that she has, in opposition to the armed forces of Brazil backed by our own Army, Navy and Air Corps, been able to construct and supply the necessary airdromes in eastern South America.

After that, of course, it is still farther from eastern Brazil to the continent of North America than it was from Germany originally, so other groups of air bases would have to be established, farther north, before enemy planes based in South America would have any advantage over enemy planes based on their home airports in Europe. And since there are no railroads through that portion of South America, these bases too would have to be established by sea.

No, the more one studies the problem, the more obvious it becomes that an air invasion of America is entirely out of the question. Invading forces would have to come by sea, and if they made such an attempt, it would be our American aviation that flew out to meet them and did the raiding.

Of all the nations in the world, we hold the most impregnable position of defense. We have highly developed industries, great national resources and a population of one hundred and thirty million people upon which to draw. There is not a nation in this hemisphere strong enough even to consider attacking us. We are flanked by the Atlantic Ocean on the east, and the Pacific on the west. In the north, we are protected by the wastelands of the Arctic. Where in all history, has a nation been similarly blessed? Then why *in our maturity any* more than in our youth, "Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor or caprice?"

It is often asked today why our rearmament program moves so slowly, why our people are so divided and confused. Why, indeed! The answer is clear. It is because we have neglected the wisdom and experience of our forefathers, we have not followed Washington's advice. We have let the destiny of America become confused and *entangled with that of foreign lands. Our* leaders have attempted to transfer loyalty for our own country to loyalty for a "part of Europe." One portion of our people has

attempted to force its ideas about Europe upon another portion of our people—to inject into our midst today the very quarrels of the Old World that our forefathers left behind.

We, in America, should not be discussing whether we will enter the war that England declared in Europe. We should not be wasting our time arguing about whether it is cheaper to defend someone else than to defend ourselves. We should not be conscripting our youth for a foreign war they do not wish to fight. We should all be marching together toward one clear and commonly accepted goal—the independent destiny of America. If we desire unity and strength among our people, we must turn our eyes back from these everlasting wars of Europe—back to our own country, to the clear horizons of a great American future. Let us learn from the errors made by the democracies abroad, and not repeat them. Let us give thanks to the generations of Americans before us who won and maintained the independence of our nation against far greater dangers than we face today. Let us dedicate ourselves to guarding this [illegible] that we may pass it on to the future in even greater security than we received it from the past. It is by building our own strength and character at home — not by crusading abroad — that we can contribute most to civilization throughout the world.

If you believe that we should not enter this war, your help is needed vitally by those of us who stand against our intervention. The policy of our nation is still influenced by the desires of its people. You can help us by organizing mass meetings against our entry into the war. You can help by attending such mass meetings. You can help by writing to your congressmen, to your senator and to your local newspaper, telling them of your views. Such letters have more influence than most people realize. But if you stand with us against war, you must act now or it will be forever too late. It is not enough to write once. Write every time an issue arises—several letters each week until this crisis has passed. Demand of your representatives that they oppose our entry into the war and be on guard against these steps that will inevitably lead us to it. It is worth all the effort we can give. Our future, our children's future, our country's future, all that we hold worth while is in the balance.

I have one last request, and then this letter is ended. Before you make your final decision, reason through for yourself what war would mean to this country. Demand a practical plan from those who preach of defending democracy throughout the world. Ask them to explain how we are to invade successfully the continent of Europe—how we are to impose our ideology on the peoples of Germany, Russia, Italy and Japan combined against us. Insist on an answer that is clear — couched in terms of soldiers killed and years of war. Stop them from telling you what *should be done*, and make them demonstrate to you what we have the *ability to do*. Ask them to define our war aims: our plan of defense and of attack. And if someone says that such questions must be left to "experts," ask them: To what experts? To the same experts who, for the last twenty years, led France to defeat and England to ruin? To the same experts who have created the greatest national debt in American history, and still left us a nation unprepared in the midst of a world at war? To the same experts who failed either to maintain peace or to prepare for war? No, such leadership will never make us a strong and victorious nation. It will not carry us successfully through these periods of war and crises. If our American ideals are to survive, it will not be through the narcotic of a foreign war, but through a reawakening of the spirit that brought this nation into existence. It will be only if you, and I, and people like us, take the reins in hand once more, as our forefathers have done in times of crisis.

The future of America, of our way of life and of western civilization itself lies not so much in the outcome of these wars abroad as in the action that *we* take *now* here in our own country. In this action, your help is urgently and immediately needed.

If every man and woman in America would read this article by Col. Charles A. Lindbergh, there would be no further effort to put the United States into the European War.

Four Horsemen of Isolationism—Senator Burton K. Wheeler, Charles A. Lindbergh, Kathleen Norris and Norman Thomas—gave their version of a salute to the flag at an America First Committee rally in New York on May 23. Over 20,000 people in the audience booed Roosevelt, Willkie, Viscount Halifax. No one booed Adolf Hitler.

PRINCIPLES

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of the democracies of Europe.

MEMBERSHIP

Membership in the America First Committee is open to all American citizens. We exclude from our rolls Fascists, Nazis, Communists, and their sympathizers.

CONVOY

A FUNERAL TRAIN

AMERICA FIRST COMMITTEE
General Robert E. Wood, Acting Chairman
National Headquarters
141 West Jackson Boulevard
CHICAGO, ILLINOIS

CONVOYS mean war — shooting, bloody war.

Senator Walter F. George during the debate on H. R. 1776, admitted much. William Allen White, as chairman of the Committee to Defend America by Aiding the Allies, wrote on December 23, 1940:

"The story is floating around that I and our committee are in favor of sending convoys with British ships or our own ships, a silly thing, for convoys, unless you shoot, are confetti and it's not time to shoot now or ever."

Just what is a convoy? A convoy is a protecting force, an armed escort, accompanying ships transporting munitions, merchandise and money to a nation at war. And what is a convoy for? It is supposed to fight off ships, submarines and airplanes that attack the supply vessels. And how does a convoy do that? By using its heavy guns, its torpedoes its anti-aircraft fire and by sinking the attacking ships and their crews.

In any man's language this means war, and an offensive war at that.

The Neutrality act of 1939 was passed during comparatively calm days when we knew we would need a wise policy for excited, emotional times such as we are now experiencing. This law prohibits our merchant vessels from entering zones defined by the President as combat areas.

This prohibition was written into the law at the insistence of the President himself. The President regarded this prohibition as the first objective of his policy. In the course of his message on September 21, 1939, to the special session of Congress which enacted the Neutrality law of 1939, President Roosevelt said:

"With the repeal of the embargo this Government clearly and definitely will insist that American citizens and American ships keep away from the immediate perils of the actual zones of conflict."

Both the opponents and proponents of the bill recognized that incidents which would certainly involve us in war could not occur if American vessels were kept out of danger zones. There is good, American common sense in such a policy.

The Neutrality act does not apply to the Navy. But if it is sound to keep our merchant ships out of dangerous waters it is twice as sound to keep our fighting ships out of these zones. When our vessels, both merchant and naval, do not sail into war zones, the possibility of embroilment in war abroad is radically lessened. The fact that not a single incident involving American ships has occurred on the high seas in this war shows the wisdom of this policy.

Almost every public man in the country, including Franklin D. Roosevelt and Wendell Willkie has pledged his opposition to "sending our boys abroad." This is also a pledge against naval convoys. Our warships are manned by American boys. American planes, piloted by American boys, will be needed to make the convoys effective. With our Navy and Air Force in the war, our Army will not be far behind.

The dictionary gives as one definition for convoy, "a funeral train." That is just what it will be for the United States if we permit our Navy to convoy supply ships to Britain. It will be a funeral train for millions of our boys killed in an unnecessary war and a funeral train for the remains of a democracy murdered in a foolhardy venture.

Americans, after all the hysterical propaganda, are still 83 per cent opposed to entry into war. By the same percentage, Americans must be opposed to convoys.

DETAILS: The writer contacted Mr. ROBERT REED, editor of The Kansas City Star, and obtained permission to search The Star files for any information they had on the America First Committee. The Kansas City Star is located at Eighteenth and Grand Avenue, Kansas City, Missouri. The files of The Kansas City Star reflected the following information:

A clipping from The Kansas City Star dated February 20, 1941, entitled "Call for Free Speech", reflected General ROBERT E. WOOD of Sears, Roebuck & Company, Chicago, Illinois, spoke at a dinner at the Hotel Muehlbach, Kansas City, Missouri, and stated among other things that "Democracy is not going to work unless men stand up for their convictions."

It should be noted that WOOD is regarded as one of the leaders of the America First Committee in the United States, and has been very active in supporting its activities. The hose of the dinner was Mr. HAL W. LUHNOW, Chairman of the Kansas City Chapter of the America First Committee. [redacted] b7C

In a clipping from The Kansas City Star dated January 12, 1941, entitled "To Discuss War Plot", JOHN T. FLYNN bitterly opposed the Administrative policy. JOHN FLYNN propounds the theory that "The United States is being plodded into war." His speech, which was held at the Music Hall, Kansas City, Missouri, was sponsored by the Kansas City group of the America First Committee.

A clipping from The Kansas City Star dated January 14, 1941, reflected that the members of the Executive Committee of the America First Committee were:

CLIFF C. JONES
DAVID B. CHILDS
ROY K. DIETRICH
RAY F. MOSELEY
HAL W. LUHNOW
MRS. E. H. VINCENT
MRS. E. C. RESERVEY, JR.

In a clipping from The Kansas City Times, which is the morning edition of The Kansas City Star, dated January 9, 1941, entitled "No Moral Side in War", Dr. TRIMBLE of the Kansas City University denies such an issue; "Nazism and Democracy could live side by side" he tells the America First Committee group. Dr. TRIMBLE said that "England had failed to fight for Czechoslovakia, the only real Democracy in Europe, and than had gone to war for Poland, a ruthless dictatorship, which England had helped to finance in the days when Germany was still a democracy. Dr. TRIMBLE further stated "Some people say one side is good and the other bad; I deny that. Some people say that Nazism and Democracy cannot live side by side in this world; I deny that." Dr. TRIMBLE decried the practice of calling refugees "spies", and terming Nazis and Communists those who still believe in freedom of speech. After Dr. TRIMBLE'S speech, the clipping reflected there was a question period presided over by RAY F. MOSELEY. The question, "Who financed the Committee to Defend America by Aiding the Allies?" was asked. MOSELEY replied that it

was the munition makers. MOSELEY further added that the America First Committee was financed by General ROBERT E. WOOD of Chicago, and HENRY FORD. Mrs. E. H. VINCENT also spoke, and about one hundred persons attended this meeting, which was held at the Ambassador Hotel, Kansas City, Missouri.

b2 b7D [redacted] whose identity has been sent to the Bureau, advised the writer that the America First Committee about three weeks before had had a rally at the Scottish Rite Temple, Kansas City, Missouri, which was attended by about thirteen hundred people. The speakers were ALF LANDON and BENNETT CHAMP CLARK. At that meeting nothing was said except in criticism of President ROOSEVELT'S foreign policy.

100-4712-76

PASADENA MEMBERS OF 'AMERICA FIRST' CHEER AXIS IDEAS

Cheers for Colonel Lindbergh, silence for Adolph Hitler, boos for President Roosevelt and Wendell Willkie. . . .

Thus 250 members of the America First committee registered their reactions to these individuals at a meeting in the McKinley Junior High School auditorium addressed by Charles Cobb, acting chairman of the group, and Dr. Michael Francis Dillon, of the faculty at U. C. L. A.

The audience booed vigorously whenever the names of Churchill, Mrs. Roosevelt, Attorney General Robert H. Jackson, Senator Claude Pepper and Mayor Fiorello LaGuardia of New York City were mentioned by the speakers.

Doubts British Victory

Cobb told the audience that he does not believe a British victory either possible or desirable.

"Any possible establishme the President's 'Four Fre cannot ignore the national of a majority of the populati the world and confine the ex power of the Axis."

There are new world forc work, Cobb declared, which result the establishment of

"Why should the taxpayers [illegible] $7,000,000,000 dow[illegible] a rat hol[illegible] Britain's waning [illegible]abilities" asked. "We should campaign peal the land lease bill."

He read at length from an interview in Life magazine to former Ambassador Cuda. Hitler, in which the Fuehrer said that at no time had his intentions toward this country been inimical. Cobb then quoted portions of a New York Times editorial answering Hitler, in which it was pointed out that declarations of friendship preceded most of Hitler's invasions.

Raising his head to look at the audience and spacing his words to permit booing for each name, Cobb then asked. "And who are the owners of the New York Times? Ochs—Adler—Sulzberger!"

Cheers For Hitler

Cobb said that most Americans regard Hitler as a liar and criminal, and added: "I am not here to eulogize or defend Hitler. He seems able to do that himself." The audience cheered.

Cobb went on to say that the Germans were forced to sign the treaty of Versailles at the "point of a gun."

"There still is such a thing as retribution," he said. "England and France are paying for their perfidy in blood, sweat and tears."

Says Public Deceived

He then mentioned the names of the President and several others who have expressed strong opposition to the Nazi aims, and declared that the people of the United States had not been told the truth about Germany.

"Did these people tell you the truth about Czechoslovakia?" he inquired. "The fact is that Czechoslovakia was a dagger pointed at the heart of Germany. But they would fight to the bitter end to save Palestine and the British empire."

Dillon scoffed at the idea that Germany had invaded democracies, listing each of the overrun countries and commenting that none of them were democratic. He pictured England as an autocracy, an "Old Man of the Seas" clinging to the backs of subject peoples.

Eulogizes Lindbergh

Referring to Lindbergh as a great patriot, he asked: "Who is the Copperhead, Lindbergh or the President?" The audience roared back: "Roosevelt!"

Dillon criticised the establishment of a camp in San Dimas for conscientious objectors, spoke against the breaking of the strike at the North American aviation plant by the army, and compared Congress to the German Reichstag.

"We are already on the road to Fascism," he said. "Europe already has it. Why should we fight to extend it?"

"American Gestapo"

He referred to the Federal Bureau of Investigation as an "American Gestapo," persecuting political minorities, and called the Dies committee on un-American activi[illegible]

There was not over 150 at this meeting and they all agreed to what went on and then took up a collection to further the cause.

I wanted to stand up and defend the President but dared not speak. Because I was sitting in the rear of the hall all alone and I must have been spotted because soon 3 tough looking men came and sat right around me to my rear and tried to pick an argument although I hadn't opened my mouth.

Mr. J. Edgar Hoover
Director of F. B. I.
Washington, D. C.

Dear Sir,

b7c As a word of introduction [redacted]

Thursday evening they had a meeting of The America First Society here at the Hotel in the front Dining Room. I understood that it was a surplus left over from another large meeting. Well one individual who spoke so broken and such poor English that I I couldn't make out his Nationality read off a resolution that no help be given Russia by this Country and it was adopted. The Resolution to be forwarded to Congress.

Another member, a woman with a decided German accent went so far as to say that the President was all wrong in his actions and that if he didn't take orders from the America First Society that he should be impeached. So you see if they are preaching this here it is probably going on all over.

There was not over 150 at this meeting and they all agreed to what went on and even took up a collection to further the cause. I wanted to stand up and defend the President but dared not speak. Because I was sitting in the rear of the hall all alone and I must have been spotted because soon 3 tough looking men came and sat right around me to my rear and tried to pick an argument although I hadn't opened my mouth.

I am a Veteran of the World War and if I can help out in anyway please let me know.

Yours Very truly

PASADENA MEMBERS OF 'AMERICA FIRST' CHEER AXIS IDEAS

Cheers for Colonel Lindbergh, silence for Adolph Hitler, boos for President Roosevelt and Wendell Willkie. . . .

Thus 250 members of the America First committee registered their reactions to these individuals at a meeting in the McKinley Junior High School auditorium addressed by Charles Cobb, acting chairman of the group, and Dr. Michael Francis Dillon, of the faculty at U. C. L. A.

The audience booed vigorously whenever the names of Churchill, Mrs. Roosevelt, Attorney General Robert H. Jackson, Senator Claude Pepper and Mayor Fiorello LaGuardia of New York City were mentioned by the speakers.

Doubts British Victory

Cobb told the audience that he does not believe a British victory either possible or desirable.

"Any possible establishment of the President's 'Four Freedoms' cannot ignore the national needs of a majority of the populations of the worlds," he said. "A British victory would confine the explosive power of the Axis."

There are new world forces at work, Cobb declared, which will result in the establishment of three great centers of power: Europe, Asia, and the Americas.

Money Down Rat Hole

"Why should the taxpayers throw $7,000,000,000 down the rat hole of Britain's waning ambitions?" he asked. "We should campaign to repeal the lend lease bill."

He read at length from an interview in Life magazine given to former Ambassador Cudahy by Hitler, in which the Fuehrer said that at no time had his intentions toward this country been inimical. Cobb then quoted portions of a New York Times editorial answering Hitler, in which it was pointed out that declarations of friendship preceded most of Hitler's invasions.

Raising his head to look at the audience and spacing his words to permit booing for each name, Cobb then asked: "And who are the owners of the New York Times? Ochs—Adler—Sulzberger!"

Cheers For Hitler

Cobb said that most Americans regard Hitler as a liar and criminal, and added: "I am not here to eulogize or defend Hitler. He seems able to do that himself." The audience cheered.

Cobb went on to say that the Germans were forced to sign the treaty of Versailles at the "point of a gun."

"There still is such a thing as retribution," he said. "England and France are paying for their perfidy in blood, sweat and tears."

Says Public Deceived

He then mentioned the names of the President and several others who have expressed strong opposition to the Nazi aims, and declared that the people of the United States had not been told the truth about Germany.

"Did these people tell you the truth about Czechoslovakia?" he inquired. "The fact is that Czechoslovakia was a dagger pointed at the heart of Germany. But they would fight to the bitter end to save Palestine and the British empire."

Dillon scoffed at the idea that Germany had invaded democracies, listing each of the overrun countries and commenting that none of them were democratic. He pictured England as an autocracy, an "Old Man of the Seas" clinging to the backs of subject peoples.

Eulogizes Lindbergh

Referring to Lindbergh as a great patriot, he asked: "Who is the Copperhead, Lindbergh or the President?" The audience roared back: "Roosevelt!"

Dillon criticised the establishment of a camp in San Dimas for conscientious objectors, spoke against the breaking of the strike at the North American aviation plant by the army, and compared Congress to the German Reichstag.

"We are already on the road to Fascism," he said. "Europe already has it. Why should we fight to extend it?"

"American Gestapo"

He referred to the Federal Bureau of Investigation as an "American Gestapo," persecuting political minorities, and called the Dies committee on un-American activities a "tool of the F. B. I."

"Roosevelt knows that he cannot defeat Fascism by the sword," Dillon said. The audience cheered wildly.

In closing the meeting, Cobb said that if the President got the country into war, "I for one will not follow him. If this be treason, make the most of it."

Copies of Social Justice, Father Coughlin's Jew-baiting weekly magazine, were sold to the members as they left the auditorium.

Lindbergh Bitterly Attacks U. S. Alliance With Russia

SAN FRANCISCO, July 2 (AP)—Charles A. Lindbergh bitterly denounced Russia at an anti-war mass meeting Tuesday night and declared "I would a hundred times rather see my country ally herself with England, or even with Germany with all her faults, than with the cruelty, the godlessness, and the barbarism that exist in soviet Russia."

"An alliance between the United States and Russia should be opposed by every American, by every Christian, and by every humanitarian in this country," Lindbergh said in an address prepared for delivery at a civic auditorium meeting sponsored by the America First committee.

Issue Becomes Confusing

Lindbergh's talk was broadcast over the National and Mutual networks.

The longer this war in Europe continues, the more confused its issues become," Lindbergh said. "When it started, Germany and Russia were lined up against England and France. Now, less than two years later, we find Russia and England fighting France and Germany.

"Winter before last, when Russia was fighting Finland, the interventionists demanded that we send all possible aid to Finland. Now, when Russia is fighting Finland again, they demand that we send all possible aid to Russia.

Ex-Enemies Now Allies

"The murderers and plunderers of yesterday are accepted as the valiant defenders of civilization today; and the valiant defenders of yesterday have become the wicked aggressors of today. Finland and France are now our enemies; Russia our friend. We have been asked to defend the English way of life, and the Chinese way of life. We are now asked to defend the Russian way of life.

"Judging from Europe's record, if we enter this war, we can't be sure whether we will have Russia or Germany for a partner by the time we finish it. We don't even know whether we will end up with France or England on our side. It is quite possible that we would find ourselves alone fighting the entire world before it was over.

"The only sensible thing for us to do is to build an impregnable defense for America and keep this hemisphere at peace."

DETAILS: The following is a report received from [redacted] with meeting held by the America First Committee, Scottish Rite Temple, Linwood and Paseo Boulevards, Kansas City, Missouri, on June 17, 1941:

b7C
b7D

"On 6-17-41, [redacted] received the following card: "Dear Sir: If you allow the America First meeting to be held Thursday evening at the Temple, Paseo and Linwood, we will stop it ourselves. The Kansas City Jewish Youth Association." Inquiry was made at the YMHA as to the officials of this organization and they stated that while there was no Kansas City Jewish Youth Association, there was a Kansas City Jewish Youth Federation, headed by HANS LAMM, which has practically been disbanded.

[redacted]

On the night of 6-19-41, RAY F. MOSELEY, chairman of the Kansas City chapter of the America First Committee, said he received the following card on 6-18-41: "Call off the meeting Thursday night of the America First at Linwood and Paseo, or we will stop it. A member of the Young Men's Hebrew Association." He was unable to account for the sender. However, it is noticed that the handwriting on this card is the same as that received by [redacted]

The meeting of the America First Committee at the Scottish Rite Temple, Linwood and Paseo, on 6-19-41, was attended by approximately 250 people. Senator Gerald P. Nye was the principle speaker and his remarks, in the main, consisted in verbal attacks on Great Britain, President Roosevelt and the President's Foreign Policy. He criticized the closing of the German Consulates, seizure of foreign ships in American ports and the assistance Great Britain is receiving from the United States. He condemned the ideals and courage of the Allies, but remained strangely silent about the Axis-Partners, saying nothing either for or against them. On the stage the same time with Senator Nye were Ray F. Moseley, Hal Luhnow, David B. Childs, Dr.

Bruce R. Trimble and the Reverend Joseph Cleveland. A group picture of these men was taken, with the exception of the Reverend Joseph Cleveland on the grounds of "People might misunderstand my connection with the America First Committee." It was an orderly meeting with the exception of a few "Boos". Observed attending this meeting were Louis P. MacAdams (newscaster KCMO) who signed a petition protesting the enactment of Missouri House Bill 312, outlawing the Communist Party in Missouri, and Evan Hammett (See FBI letter of 12-31-40).

Before the meeting began police officers observed two people in front of the Scottish Rite Temple selling literature. Inquiry was made if a license or permit had been obtained from City Hall officials to sell the literature. None had been procured. Thereupon, the officer noted that the literature being sold was published by the Worker's Party and was entitled "Plain Talk on War". When these officers told these two people they were under arrest for selling literature without a permit, a lady approached the scene screaming loudly "civil rights" were being violated. She refused to give her name.

[redacted] saw Mr. CONRAD with cards soliciting membership into the America First Committee. According to [redacted] Mr. CONRAD claims to be Irish, but is actually Pennsylvania Dutch and Mr. STAMAN was interned during World War I for making seditious remarks. [redacted] further stated that Mr. STAMAN has

made the remark that "he hoped that Germany would bust England and every ---------- that was for England."

Dear Sir:

[redacted] informed me on June 25th that the America First Committee had opened an office in Birmingham at 2006½ Fifth Avenue North, Birmingham, under the directorship of C. C. CROWE, and who has associated with him DR. WILLIAM H. WELLS, said to be a Canadian citizen, chiropractor, and soldier of fortune. Wells is supposed to have served in the World War, the Spanish-American War, and the Boxer Rebellion.

I am enclosing a clipping which appeared in the Birmingham News of June 25th concerning this.

Lindbergh And Others May Be Brought Here By Committee Branch

Headquarters Set Up In City For Campaign To Prevent Entry Into War

Col. Charles A. Lindbergh and other America First Committee speakers may be brought to Birmingham in a non-war "blitz" to be launched in Alabama by a branch of the committee just established here under the directorship of C. C. Crowe, attorney, who said he had been designated state chairman for the anti-war group.

Crowe, formerly of Birmingham, who said he had lived recently in Indiana and Maryland, established committee headquarters in offices at 2006½ Fourth Avenue, North.

Among those associated with Crowe is William H. Wells, said to be a Canadian citizen, chiropractor and soldier of fortune. Wells was said to have served in the World War, Spanish-American War, Boar War and Boxer Rebellion.

Crowe, who said he served in the U. S. Army Tank Corps during the World War, is mapping plans to conduct an Alabama drive against American intervention in the European conflict and said that various speakers would be heard in a series of radio talks aimed at preventing sending U. S. soldiers overseas again.

"There is no excuse for sending our boys to Europe or any foreign country again," said Crowe. "It must not be permitted again."

He said that the non-war drive, which would be directed at highly pro-British and Pro-Allies Alabama, would make a special appeal to mothers to help keep their sons at home and prevent them from being sent to foreign battlefields.

As for England, Crowe said he and his group favored aiding the British with war materials and supplies—"everything but men" and "giving till it hurts" to help Britain win the war. But, he added, mothers and fathers must be convinced American boys must never again be sent to battle and die on foreign soil.

The committee's anti-war chairman for Alabama said a number of citizens in Birmingham and Alabama had already aligned themselves with the movement and that the non-war "blitz," to be carried on principally by radio, soon would begin in earnest.

Crowe said he and his group planned an early meeting in the new committee headquarters to map plans for the campaign in this state.

Anti-War Group Opens Office

Wheeler Organization To Be Tried Here

The America First Committee opened offices in the Perrine building Friday and set about organizing an Oklahoma City chapter in its fight to keep the United States out of the war.

Three young organizers from St. Louis set up the headquarters in room 408 and announced Herbert K. Hyde, former United States district attorney would be temporary chairman of the local chapter.

Don Lohbeck, one of the organizers, said a rally would be held here late this month and an effort is being made to bring Senator Burton K. Wheeler of Montana, one of the leaders of the non-interventionist group, as chief speaker.

Other Organizers Named

Lohbeck announced that other Oklahoma City residents who will take a part in the organization drive for the local chapter are Victor Mead, attorney; Rev. H. H. Lindeman, superintendent of the Oklahoma Congregational Conference, and Miss Mildred Simpson, 2642 Northwest Thirteenth street, office secretary of the conference.

Lohbeck, his wife and Edward G. Cobb, all of St. Louis, are the organizers sent here to set up chapters in Oklahoma City and Tulsa.

"We are not trying to sell anybody anything," Lohbeck said. "All we want to do is bring together the great majority of the people who already are against our entry into this war. We will provide the means for them to get together."

40 Members Claimed

Cobb said there are already about 40 members of the committee in Oklahoma City. The committee, he said, now is working to obtain members through lists of persons in the city and state who sent contributions to the committee in Chicago and through a list of others who wrote to the committee expressing views on the war.

Generally speaking, the committee contends that 80 percent of the people in the United States are against entry into the war but their voice has not been heard and they must be organized to avert the nation's "sneaking into the war," in the words of Lohbeck.

"Non-involvement in the war and building of an impregnable defense—a hemisphere defense over here," said Cobb, "is our prime platform. The committee also now is working for passage of a joint congressional resolution for a national referendum to let the people vote on whether they want to enter this war or not."

War to End Group

He cited the fact that General Robert E. Wood, Chicago, president of the organization, had asserted that if the nation goes to war the committee will be disbanded for its sole aim then would have been eliminated.

Lohbeck is 23 years old and is a concert pianist by profession, he said. He studied at the Eastman School of Music in Rochester, N. Y., the University of Chicago, in New York and the Ecole Normale, Paris. His wife, Virginia Lohbeck, also is from St. Louis. Cobb is 30 years old, attended Washington university in St. Louis and worked for an investment company and a railroad before joining the committee. Expenses of all three are paid by the committee.

Dear Sir.

Please read the enclosed printed matter I received from the president of the Elliott Bay Civic Organization of which I am a member.

I believe its outrageous and a disgrace that business of the American First Committee should be brought forth on the floor of a local civic organization. They are even trying to solicit membership from our [redacted] organization. Don't you think that our president of our organization needs to be investigated?

NOTICE OF SPECIAL MEETING

A special meeting of the Association will be held at the meeting hall, 84th Street and 60th Avenue, on Friday, July 18th, 1941, at 8:30 P.M. to take action on the following:

1. A resolution that this Association send to all the members of Congress a mimeographed letter urging them to vote in favor of the following:

(a) An amendment to the Lend-Lease Act providing that the President of the United States shall not extend any aid under the Act to Soviet Russia.

(b) An amendment to the Neutrality Act directing the President of the United States to apply the provisions of the Act to Soviet Russia.

(c) A proposed amendment to the Constitution of the United States providing that the armed forces of the United States shall not be sent to fight outside United States territory except upon an affirmative vote of a majority of the American people in a national popular referendum, such proposed amendment to be submitted to conventions in the several States.

2. A resolution that the Secretary of this Association write to President Roosevelt requesting him to re-

move Secretaries Stimson, Knox, Ickes, Morgenthau and Wickard from his Cabinet, replacing them with men who will concentrate on building up the defenses of the United States and who will not attempt to maneuver this country into the war; and authorizing the officers of this Association to circulate a petition to the same effect among the members of the Assocation for their signatures and to send the said petition to President Roosevelt.

3. A resolution that this Association donate to the AMERICA FIRST COMMITTEE a sum not exceeding one hundred dollars.

4. A resolution instructing the Board of Directors of this Association to rescind a resolution adopted at a special meeting held June 30, 1941, purporting to correct and interpret a resolution adopted by the members of this Association at a regular meeting held June 6, 1941, authorizing the President of this Association to appeal to the members for support for the AMERICA FIRST COMMITTEE, on the ground that the said purported action of the Board of Directors was beyond their jurisdiction and is therefore illegal, invalid, null and void, and further instructing the Board of Directors not to attempt to re-instate their said purported resolution, either in whole or in part, at any time in the future.

5. Any other business which may be brought before the meeting.

It is suggested that members take this notice to the meeting with them, so that they may readily follow the order of business and the consideration of the various items.

ELMHURST, NEW YORK

I M P O R T A N T M E S S A G E

MY FRIENDS AND NEIGHBORS:

I earnestly appeal to all of you to become supporters of the AMERICA FIRST COMMITTEE. My reasons for making this appeal are the following:

All of us pay Federal taxes. Whether we pay an income tax or not, we pay hidden Federal taxes every day of our lives. Anyone who smokes a pack of cigarettes every day pays $17.72 in Federal taxes in the course of a year. When you women buy cosmetics, eleven per cent of the price consists of a hidden Federal excise tax. When we buy an automobile, a tire, an inner tube, a radio, a refrigerator, gasoline or lubricating oil, part of the purchase price consists of a Federal excise tax. If we go to the theater or the movies, we pay a Federal tax on the admission charge. We can't even drink a glass of beer without having part of our dime go to the brewer to reimburse him for the tax which he pays to the Federal Government on every gallon of beer which he brews.

Next year these taxes will all be increased because of the defense program.

Most of us pay a Federal income tax. This year some of you may have paid an income tax for the first time in your lives, because of the lowering of the personal exemptions.

Next year our income taxes will be drastically increased. They will be anywhere from three to six times as large as they were this year. For example, if you paid a tax of $11. this year on an income of $2,500., you will pay between $44. and $72. next year, according to the tax plans now pending in

Congress; and if you paid a tax of $31. on an income of $3,000., next year you will pay between $97. and $152.

BUT IF AMERICA ENTERS THE WAR, OUR TAXES WILL NOT BE INCREASED THREE, FOUR, FIVE OR SIX TIMES. THEY WILL BE INCREASED TEN, FIFTEEN OR EVEN TWENTY TIMES. THE PEOPLE OF ENGLAND ARE PAYING ONE-THIRD OR ONE-HALF OF THEIR INCOMES TO THEIR GOVERNMENT IN TAXES, AND WE WILL BE DOING THE SAME THING IN THIS COUNTRY UNLESS WE KEEP AMERICA OUT OF THE WAR.

When we are threatened with a paving or sewer assessment of $50. or $75. two or three thousand of us go to Lost Battalion Hall and shout down the politicians who are trying to assess us. We should be much more aroused whena very small minority of people in this country, many of whom are not even American citiznes, are trying to push us into a war which will cost each one of us not $50. or $75. but hundreds of dollars per year for the rest of our lives.

I have said that a very small minority are trying to push us into war. Even the Gallup poll shows that only 20 per cent of the persons interviewed want war. Probably the actual number of people in this country who want war is as small as 5 or 10 per cent of the adult population. The following letter appeared recently in the New York World-Telegram:

> "I am an insurance man, who in the course of a year comes into personal contact with at least several thousand persons in all walks of life. During the last 12 months I have made it a point to ask all I have come in contact with this question:
>
> 'Do you favor our entry into war, even if Britian is defeated?'
>
> Invariably, the answer has been 'No'. Furthermore, and this is interesting, I have yet to meet a person who has been interviewed by the Gallup poll."

Senator Wagner said in a recent press interview that his mail is running 100 to 1 aganist convoys,which would lead usto war

If so few people want war, then why are we deluged with war propaganda? The answer is that the warmakers are organiz active, influential and well-financed. There are at least five of them in President Roosevelt's Cabinet; they determine the editori policy of many newspapers and magazines; and they control the production of motion pictures so completely that they have been able to pour down our throats a strong dose of war medicine with their anti-Nazi films (but they never produce an anti-Communist fil

There are two things which the 90 or 95 per cent of u who are opposed to war can do in order to offset the propaganda of the war-makers.

1. We can send a letter or a post-card to each of our Senators and Representatives telling them that we are opposed to American entry into the war, that we are opposed to convoys, that we are opposed to any amendment of the Neutrality Act, and that we favor legislation providing for a national popular referendum before any declaration of war shall be made by Congress. Such letters and post-cards should be sent to the following:

Hon. Robert F. Wagner,
Senate Office Building,
Washington, D. C.

Hon. James M. Mead,
Senate Office Building,
Washington, D. C.

Hon. Caroline O'Day,
House Office Building,
Washington, D. C.

Hon. Matthew J. Merritt,
House Office Building,
Washington, D. C.

Hon. William B. Barry,
House Office Building,
Washington, D. C.

When you write take care to sign your name clearly and to put your address on your letter or post-card, so that the Senators and Representatives will know that you are among their constituents. When you write to Representative Barry, let him know that you appreciate the work which he has been doing to keep America at peace. As you can see from the enclosed copy of a letter which Representative Barry has sent to his constituents who have written him in opposition to convoys, he has taken his stand with those of us who do not want American boys to die for the defense of "democracy in China and India (and now Russia).

2. We can join the AMERICA FIRST COMMITTEE, which is daily growing in strength and which, if it grows strong enough, will be able to compel the Administration to keep this country at peace. A small contribution to the Committee now will enable it to carry on its work and will save each one of us hundreds of dollars in war taxes. If you will sign the enclosed card and return it to me, one of my volunteer helpers or I will call on you to enroll you in the America First Committee.

The same clique of Judas Iscariots who sold the lives of American soldiers to the Allies for thirty pieces of silver in 1917 are working night and day to put over the same deal again. They have the help of the anti-Christian Communist Party with all its powerful propaganda agencies and all its smirking, hypocritical admirers and fellow travellers, from Mrs. Roosevelt down to Mayor LaGuardia. Unless the rest of us start fighting for peace, American boys will be dying in England, Russia, China and Africa before the end of this year, and the common people of America will be picked clean by the tax-collectors.

Sincerely yours,

JAY F. TIFFANY.

C O P Y

CONGRESS OF THE UNITED STATES
House of Representatives
Washington, D. C.
May 21, 1941

Dear Constituent:

This is to acknowledge receipt of your recent letter regarding convoys.

I am absolutely opposed to this Nation sending its fleet to convoy through any war zone; as the President said, "convoys mean shooting and shooting means war".

I earnestly request you to send a letter of protest to the President, and also write to at least three friends, requesting them to do likewise and have them in turn write to at least three friends more; in other words, start a chain letter system a gainst the drive for convoys and war.

In spite of propaganda and hysteria of a frightened minority, this Nation can successfully defend the Western Hemisphere from attack by any possible combination of enemies.

The argument that we will lose our foreign trade with Europe, Asia and Africa and strangle economically if England does not win is absurd. In the first place, our foreign trade with those continents amounts to only 3½% of our entire business. In the second place, we have been competing successfully for many years with dictatorship nations where the so-called slave labor exists. As a matter of fact, since 1930 up until the outbreak of the War, our foreign trade doubled, and during those years we competed with and traded with all of the totalitarian countries; and strange as it may seem the lowest wage scale in the world exists in "Democratic" China, and the next lowest wage scale is in British India, another alleged democracy where coal miners are paid 90¢ a week, jute workers $1.25 a week and industrial workers $1.35 a week. Child labor is prevalent, and the average wage for it is 70¢ a month.

The destiny of this Nation is not dependent upon any other nation outside of the Western Hemisphere, where we can be self-sufficient if necessary.

It is my conviction that if the men who suffered at Valley Forge, and founded this Nation, were alive today, they would gaze with amazement and shame at the small minority of Americans who are hysterically proclaiming that this great and powerful nation of 130 million people cannot defend itself without the aid of the British Navy.

Yours very truly,

W. B. Barry
Member of Congress.

RE: AMERICA FOR AMERICANS

New York, N. Y.
June 14, 1941

MEMORANDUM FOR MR. KRAMER

Information has been received from an unknown outside source dated June 14, 1941, at New York City, to the effect that the following is reported by "The Hour:"

"The America First Committee is adopting the fascist slogan of 'America for Americans'. This slogan has been appearing consistently in the press of the German-American Bund, the Silver Shirts, the Christian Front and other U. S. Fifth Column groups. At the most recent America First meeting in Bay Ridge, Brooklyn, 'America for Americans' was the theme of the evening. When Congressman Dewey Short declared, 'This country was founded by Americans and is for the benefit of 100% Americans -- not alien elements who are enemies of the Republic,' the Coughlinite audience rose to its feet, wildly applauding.

"Another orator received with great enthusiasm at the Bay Ridge meeting was Representative Hamilton Fish, who referred to the role of the 'international bankers' in dragging the United States into the Second World War; the reference was greeted by the audience with cries of 'The Jews! The Jews!' The Congressman smiled at this demonstration and continued, 'We don't want any alien philosophies in this country. This is a Christian American nation, and we want to keep it both Christian and American. America for the Americans -- that should be the cry of the America First Committee.'

"It is fitting that the America First Committee, which has become a rallying point for anti-democratic forces should adopt as its official slogan the battle cry of American Fascism."

Respectfully,

D. Currie

Gentlemen:

I am not complaining about graft in Government; that is, abuse of the franking privilege, but I am complaining about Senator Wheeler's misuse in this latest episode in an effort to cause dissension in our Army and other citizenry.

Why should $10,000 be grabbed out of the pocketbooks of American taxpayers by Senator Wheeler for the purpose of destroying the progress we have made in building up our national defense? To put it mildly, it is a polite and courteous program of hijacking. The saddest part is that his influence might be more costly than the money he spent.

Personally, I consider Senator Wheeler just as dangerous as Paul Kassey. If a senator can be impeached, I am in favor of

immediate proceedings.

As an American citizen, I should be greatly relieved to know that the F. B. I. was investigating this case carefully and thoroughly.

Very truly yours,

Hon. John Edgar Hoover,
Chief F. B. I.,

Dear Sir:

I am attaching hereto a card sent out by Senator Burton K. Wheeler to my son, [redacted] who will probably be drafted within the next few days. b7C

This, in my opinion, is so nearly treasonable that I feel that it should be investigated by your organization.

My father served in the War between the States, I served in the Spanish American war and now I have nine sons and sons-in-law, one of whom is already in the army and the others ready to go when called, and not one of the whole crowd has ever complained that he wanted out or to be left out and every one of us who has served went in for the duration, and if and when I am needed in any capacity, I am ready to go and will proud of any service I gan be to my country, and certainly, I will never be heard advising the Government to turn its back on the liberty and freedon which our forefathers won for us at so great a sacrifice.

Yours very truly,

PRESIDENT ROOSEVELT SAID:

"And while I am talking to you, fathers and mothers, I give you one more assurance. I have said this before, but I shall say it again, and again, and again, your boys are not going to be sent into any foreign wars."—Speech at Boston, October 30, 1940.

FORMER PRESIDENT HERBERT HOOVER SAYS:

Right now we need calm thinking. We need reason. We need tolerance. We need deliberation. We must not be swept off our feet by the profound depth of our emotions.

★★★

SENATOR BURTON K. WHEELER SAYS:

The American people should tell President Roosevelt that they expect him to live up to his campaign pledges and keep this country out of the European war. They should write their Senators and Congressman regarding their views.

★★★

FORMER AMBASSADOR JOSEPH P. KENNEDY SAYS:

"The people who must suffer and give up their lives are entitled to know the facts before their judgment can be won to the interventionist cause. We must have the completest candor; we must have the fullest disclosure; we must have the freest debate. * * * A direct attack on us would require an armada mightier than the power of man could create."

★★★

COL. CHARLES LINDBERGH SAYS:

. . . the propaganda of war has spread through our country. Once we entered a war that was going to make the world safe for democracy and end all need for war in the future. We sent 2,000,000 troops overseas. After that we left the future of the world in the hands of our college presidents and our idealists. The greatest wars and the bloodiest revolutions of all history have taken place under their guidance.

. . . Now they want us to go to war again. Our Government asks us to preserve democracy abroad by creating a dictatorship in our own country. And all this in the name of idealism.

The future of democracy depends on our ability to govern our own country. It is far more essential for this country to have farms without mortgages, workmen with their own homes, and young people who can afford families than it is for us to crusade abroad for freedoms that are tottering in our own country.

Our principles are open and clear. We believe that the security of this country depends upon our own character and strength. We believe that the best way to defend our Nation is to keep our armies on our own soil. We stand for an independent American destiny.

If you stand with us, we ask you to help us by organizing meetings, by talking to your friends and by writing to your Representatives in Washington. The crisis is here. We need your assistance now. The entire future of America depends on the action we take at this time.

★★★

SENATOR GERALD P. NYE SAYS:

My fear is not as to any probable or likely outcome of Europe's war. What concerns me is the knowledge that, if we go into the war, whatever the outcome of that war will be, the United States will be the Nation most hated and most despised by all the warring nations and their peoples.

Federal Bureau of Investigations,

Gentlemen:-

In connection with publicity this week concerning Senator Wheeler's mailed-out postal card, I am enclosing the one received by me:

Please note the stenciled name address. This was done in some magazine publication's mailing room. Note the expiration date is January 1941. I am unable to compare the stencil with magazines I was receiving, because the time is out, and I have no back numbers on hand. However, I am giving you a complete list of magazines that I received during the year 1940 that I am not getting now.

This mail label was on one of the following: Woman's World, Movie Mirror, Country Home, Southern Agriculturist, Better Homes & Gardens, True Story.

I am rather of the opinion it is the same type and stencil that was used on mailing Woman's World, which is a Capper publication mailed out of Kansas City, Mo.# This particular magazine has also a racket in connection with puzzles. When a subscriber answers a puzzle they write back that it is a fine answer and to send a certain amount of money and it will put you "in the running."

Because of this it is possible for you to work more easily, maybe, through the postoffice department--if you care to investigate the source of the mailing of the Wheeler postal card. And, this might eventually throw some light on where the financial clearing house is for the America First outfit, and may give you a clue to the source of the money that pays off their speaker expense accounts, etc.

Yours sincerely,

[redacted]

Gentlemen:

I am enclosing one of those cards Senator Burton K. Wheeler sent to my mother.

We are loyal American citizens, approve of our President, and have no respect for anyone who is trying to undermine our American Freedom, either intentionally or unintentionally.

Something needs to be done about the abuse of our Freedom of Speech, and Mr. Wheeler needs to be told that there are people in our U. S. who consider the receipt of such literature as I am sending you a gross insult to the recipient and a reflection on his intelligence.

Respectfully yours,

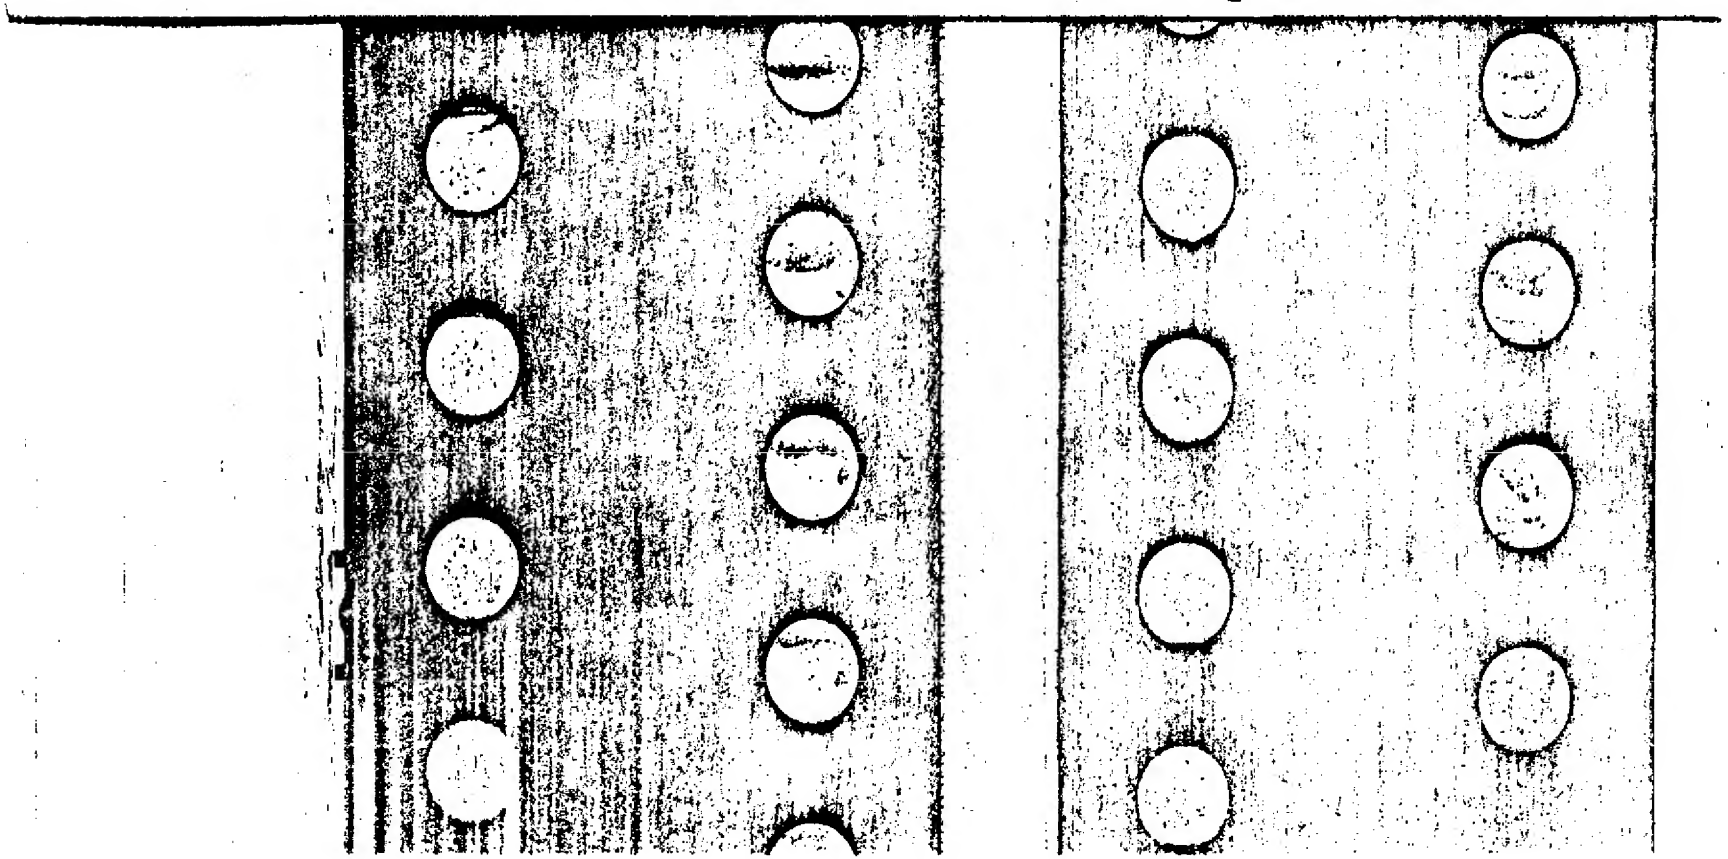
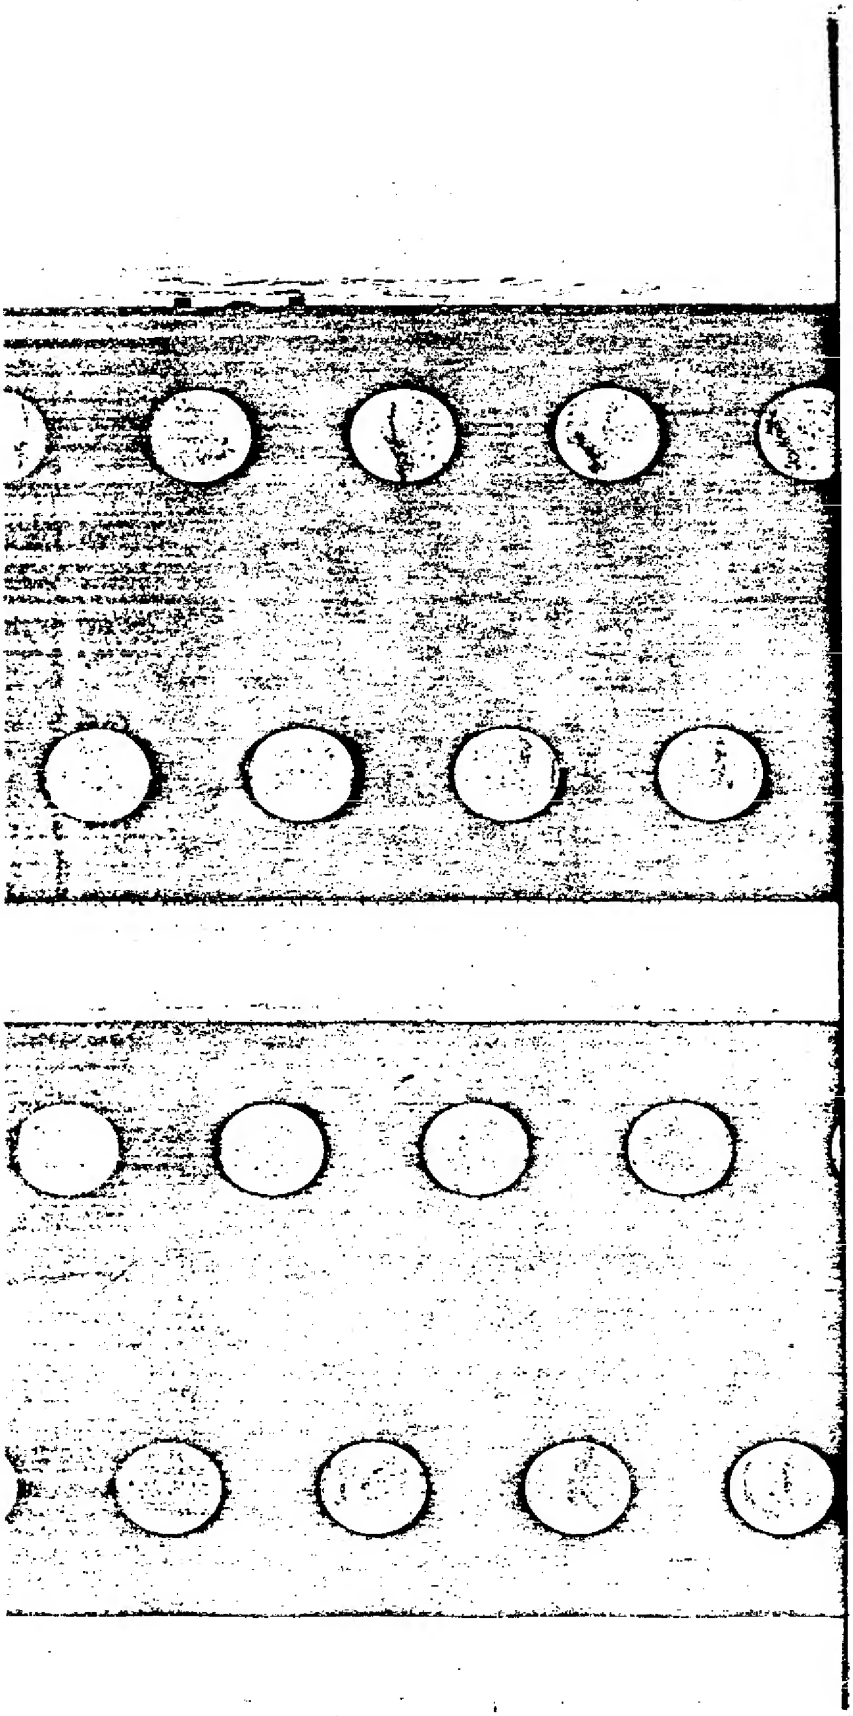
UNITED STATES SENATE—PART OF CONG. RECORD—FREE

Write today to President Roosevelt, at the White House, in Washington, that you are against our entry into the European war.

—Senator Burton K. Wheeler

[NOT PRINTED AT GOVERNMENT EXPENSE]





PRESIDENT ROOSEVELT SAID:

"And while I am talking to you, fathers and mothers, I give you one more assurance. I have said this before, but I shall say it again, and again, and again, your boys are not going to be sent into any foreign wars."—Speech at Boston, October 30, 1940.

FORMER PRESIDENT HERBERT HOOVER SAYS:

Right now we need calm thinking. We need reason. We need tolerance. We need deliberation. We must not be swept off our feet by the profound depth of our emotions.

★★★

SENATOR BURTON K. WHEELER SAYS:

The American people should tell President Roosevelt that they expect him to live up to his campaign pledges and keep this country out of the European war. They should write their Senators and Congressman regarding their views.

★★★

FORMER AMBASSADOR JOSEPH P. KENNEDY SAYS:

"The people who must suffer and give up their lives are entitled to know the facts before their judgment can be won to the interventionist cause. We must have the completest candor; we must have the fullest disclosure; we must have the freest debate. * * * A direct attack on us would require an armada mightier than the power of man could create."

★★★

COL. CHARLES LINDBERGH SAYS:

. . . the propaganda of war has spread through our country. Once we entered a war that was going to make the world safe for democracy and end all need for war in the future. We sent 2,000,000 troops overseas. After that we left the future of the world in the hands of our college presidents and our idealists. The greatest wars and the bloodiest revolutions of all history have taken place under their guidance.

. . . Now they want us to go to war again. Our Government asks us to preserve democracy abroad by creating a dictatorship in our own country. And all this in the name of idealism.

The future of democracy depends on our ability to govern our own country. It is far more essential for this country to have farms without mortgages, workmen with their own homes, and young people who can afford families than it is for us to crusade abroad for freedoms that are tottering in our own country.

Our principles are open and clear. We believe that the security of this country depends upon our own character and strength. We believe that the best way to defend our Nation is to keep our armies on our own soil. We stand for an independent American destiny.

If you stand with us, we ask you to help us by organizing meetings, by talking to your friends, by writing to your Representatives in Washington. The crisis is here. We need your assistance now. The entire future of America depends on the action we take at this time.

★★★

SENATOR GERALD P. NYE SAYS:

My fear is not as to any probable or likely outcome of Europe's war. What concerns me is the knowledge that, if we go into the war, whatever the outcome of that war will be, the United States will be the Nation most hated and most despised by all the warring nations and their peoples.

Mr Stephen Early,
Secretary to the President of the United States.

Dear Sir,

I am writing this, due to the activities of Senator Burton K. Wheeler of Montana. Mr Wheeler it appears to me has a personal feeling against our Commander in Chief beyond that of patriotism. His influence must be far reaching in Europe, specially Germany, as I have information that he had a prisoner of war who was in a concentration camp, in occupied France, released and said person is in the United States now. He came here on a Visa and reads American farmer. Senator Wheeler has an associate in Washington who was formerly in the German Consulate in N.Y., and this party got into some trouble and lost his place in said Consulate. Later this man an American born German who is married to a German born woman, went to Maryland and was connected with the Bata Shoe Co. He left them suddenly under a cloud before the F.B.I. went in to investigate the plant. His next move was to Washington where he is close at hand working for Wheeler. The man who was released from the Concentration camp is closely related to a man, who talephoned to Washington and said this man (the refugee) must be released from the German prison camp. He also stated that the money must be brought here from Europe. This party who

Showed Washington has in his possession Franks envelopes that he uses to correspond with Schuchs office. Over the phone he was told they could not talks on the phone, he would have to come to Washington he made two trips. This man who is related to the refugee has a german infrared camera, and carries field glasses where ever he goes. He meets all ships. He also has a friend (a refugee) in Butte Montana who goes by the name of [redacted] a visit to the Du Pont b7
plant in Pennsylvania was denied him as he was a refugee also. The reason I am giving you this information. is I would suffer a monetary loss to give it out publicly. In speaking to a newspaper man he said the place to put it was in the hand of F. B. I. If this seem important to you I might clarify a few some things that are unpetical. I would like to have an acknowledgment on receipt of this letter.

Very Truly Yours

To The Editor:

WHY LINDBERGH ACTS THAT WAY

I have read with increasing interest the articles in Liberty, titled, "Why Lindbergh Acts That Way." The last of these articles ended with, "You are the jury, you bring in the verdict."

I was one of, perhaps, thousands who volunteered to pawn our lives, as hostages to the kidnapers, thus hoping to save the life of Mr. Lindbergh's sweet and wonderful child. Hence, as a self-appointed "foreman" of your jury, I submit this opinion as a "verdict."

Whereas Mr. Lindbergh is a skilled mechanic and airpilot, yet no evidence is found that he is even a mediocre in military strategy, nor in statesmanship.

There is evidence that he used to be of a gentle and friendly disposition towards all. Evidence, also, that he has reached the pinnacle's top of national and international fame. There's nothing more left for him to do to gain a greater fame than he has already attained. Evidence, also, that he need not seek further for wealth. There is, however, one other channel along which Mr. Lindbergh, yet, can navigate and explore for great popularity - politics.

Therefore, with all the evidence in, it seems that Mr. Lindbergh "acts that way" hoping thus to establish himself and to gain popularity in a newly chosen field of politics. He has chosen to oppose the President and his administration. But it appears that he chose a wrong course for the purpose of gaining further national fame, as has also his cohorts from the United States Senate, that is, if Public Opinion counts for much.

Recalling that a former President, when visiting Germany, (it is said,) "Slapped the Kaiser on the back and remarked, 'With your army I could lick the world'" (The Kaiser then tried that - to his sorrow); it is our opinion that a very much similar circumstance quite likely occurred when Hitler paraded his ultra-modern armies before Mr. Lindbergh during his recent visit to the same country. Such an occurrence to have happened, even an American's (Lindbergh's) friendly praise of such armies, in time of peace, would be only quite natural. If this did happen, and I have not the slightest doubt but that it did, then, at this time, Mr. Lindbergh, having already thus committed himself by expression of a favorable opinion of Hitler's militaristic strength, he has no other choice, (though a poor and unfortunate choice) than to continue to extol the strength of Hitler's armed forces. And to do this, also gives Mr. Lindbergh a subject of national interest for his desired effort at platform oratory (though not a nationally popular subject, as is well seen) hence that is the reason he "acts that way" now.

Hence, according to all the evidence, it is the "verdict" that "Why Lindbergh Acts That Way," is, first, because to oppose the President appeals to him as the best excuse for his "taking to the platform"; and second, now that Mr. Lindbergh had already "committed himself" to praises of the German army, he cannot now consistently "change face about" and do otherwise than to carry on with his extolling Hitler's military power, by following his present line of "chatter," which the public in general very much disagrees with, dislikes and resents.

WHAT IS THIS "AMERICA FIRST COMMITTEE?"

The American First Committee is the Lindbergh-Wheeler-Nye committee. It is a "tripartite" committee. It is the Lindbergh-Wheeler-Nye vest pocket committee. They carry it with them, in a vest pocket or a watch pocket. No danger of breaking it because it is completely "isolated" from all kinds of danger, even upon World War 2nd's widening and raging battle front. With this "committee" in a pocket, they roll into any [redacted] village, town, or city, hold a "tripartite" committee meeting, then sally forth to some hall and speak "Under the auspices of the Great Inner-First Committee."

Ha, Ha, BIG STUFF, THIS!

Warns Farmers Against Seeking More Than Parity

Florence, Ala., July 29—(AP)—Edward O. O'Neal, president of the American Farm Bureau federation, warned today that he knew "of no more certain method of bringing about wild inflation than for farmers to drive prices now as high as the traffic will bear."

"I counsel farmers to stick to the reasonable demands we have made for 20 years," the federation head asserted. "We have won parity, therefore let us be thankful."

In an address prepared for delivery at the 20th anniversary celebration of the Lauderdale county Farm Bureau, O'Neal declared:

"Let us not make the mistake of getting greedy and insisting on getting more than parity just because we could possibly get higher prices during the emergency period."

Expressing confidence that "American farmers will acquit themselves gloriously in the dark days ahead," he said "our own agricultural issues are overshadowed by the issues that face us as a nation, and to meet those issues we must pledge 'our lives, our fortunes and our sacred honor'."

O'Neal said "stabilization of the farm economy will do more to bring security to all southern business than anything else that could happen."

roads Not Restricting Grain ement; No Cars For Storage

statement to clarify the rail- position regarding the partial on shipments of grain for in the Twin Cities and at the the Lakes, announced last F. Mills, general agent of the Northern railroad in Minot, ay:

"Railroads have no desire or disposition to restrict in any way the free flow of grain to any market, and have and will continue to have a full supply of cars to move every bushel of grain to any destination where the cars can be unloaded promptly."

The statement continued:

"The volume of general traffic on the railroads incident to the national defense program and other demands is so great that no cars can be used for the storage of any commodity anywhere.

"(The) notice is not in a true sense an embargo at all, since it does not in any way limit the flow of free grain to markets and it permits the unlimited loading of all storage grain for which space can be provided at the terminals.

"This restriction was not initiated by the railroads, but was issued at the recommendation of the committee created May 27, 1941, at the request of the department of agricul-

Miss Hammer Plans Wedding In August

The engagement of Miss Norma Hammer, daughter of Mr. and Mrs. N. O. Hammer, to William A. O'Hearn, son of Mr. and Mrs. A. R. O'Hearn of Minot, was announced at a tea Sunday afternoon.

Fifty persons were guests at the tea, given from 3 to 5 o'clock at the home of Mr. and Mrs. Hammer. Gladioli and other summer flowers were used in the rooms and a centerpiece of sweet peas with yellow tapers at either side was on the table.

Miss Betty McGee poured during the first hour and Miss Laura Hammer presided for the second hour.

Names of the couple and the wedding date, Aug. 25, were found on the tea napkins which the guests received. Each also received a miniature colonial corsage bouquet as a favor. Mrs. Hammer received with her daughter.

Milk, Spuds And Meat Run Short In Norway

London, July 29—(AP)—In a review of economic conditions in German-occupied Norway, the Norwegian government-in-exile intimated today that many persons in the kingdom would "feel the pangs of hunger" in the winter.

The review said milk and potatoes are running short because of German "borrowings," that meat, bacon and eggs virtually are unobtainable.

Bread has been rationed to a half-pound daily, butter to one and a third ounces daily, sugar to seven ounces weekly and coffee to two cups weekly, it was said.

Miss Piper Bride At New Rockford; Live At Maxbass

Miss Gwendolyn Stenehjem of Minot was maid of honor at the wedding of Miss Ruth Piper, daughter of Mrs. Edythe M. Piper, New Rockford, and Gordon Allan Brandes of LaMoure, which took place Sunday afternoon at New Rockford.

The service was at 4:30 o'clock in the First Congregational church, with the Rev. George Caley officiating.

Baskets of gladioli, a trellis, banked with pine and ferns and candles in branched candelabra formed the background for the ceremony.

The bride, given in marriage by her brother, Rollo Piper of Bismarck, wore a floor length gown of white organdy fashioned with a fitted bodice of embroidered organdy and a bouffant skirt with insets of the embroidered material. A small bonnet of white violets and a feather dove with tulle ribbons extending to the waist and a bouquet of asters, daisies and delphinium completed her costume.

Miss Stenehjem wore white and blue dotted swiss and a white eyelet hat. The bridesmaids, Miss Carol Buhrmann of Harvey and Miss Catherine Brandes of LaMoure, wore gowns of French blue with accents of pink and their hats were of ruffled pink eyelet embroidery. All had shower bouquets of snapdragons, delphinium and feverfew.

Clark Jenkins of Forman was best man for Mr. Brandes and the ushers were Lee Griner and Bernard Toman of Bismarck.

Mrs. Lloyd Beardsley played the wedding marches and Mrs. Trevor Reese of Harvey was soloist.

Seventy-five persons attended a reception in the church parlors following the service. Mrs. Piper, mother of the bride, wore blue lace over rose taffeta and Mrs. Carl F. Brandes, mother of the bridegroom, wore a rose print. Their bouquets were of Johanna Hill roses and baby's breath.

Among out-of-twon guests were Mr. and Mrs. Brandes, the bridegroom's parents, and Warren and Beatrice Brandes of LaMoure; Miss Claire de Rochford, Mr. and Mrs. Gordon Anderson, Mrs. Bernard Toman, Mr. and Mrs. Rollo Piper and son, Jerry, all of Bismarck; Mr. and Mrs. B. F. Stone, Mr. and Mrs. Trevor Reese, Mr. and Mrs. August Peterson and daughter, Helen, and Dr. William Hensel of Harvey; Mr. and Mrs. Rees Price, Fessenden.

The couple left for a trip to Clear lake in Riding Mountain national park and after Aug. 15 will live at Maxbass.

Subject: AMERICA FIRST COMMITTEE
Propaganda Among Soldiers

Summary of Information:

1. The following extract from a report made by an enlisted man stationed at a command near the metropolitan area is forwarded for information:

"Speaking of a visit to the headquarters recently opened by the AMERICA FIRST COMMITTEE in New Rochelle, operative writes: 'I stepped inside and asked her (the young lady at the headquarters) for a copy of one of Lindbergh's speeches. She was glad I had the nerve to come in, she said, because they have been accused of subversive activities which, she added, was of course ridiculous. I asked if most soldiers were afraid to come in. She said they were, but there had been two in one Saturday night, a Sergeant and a casual, both a bit drunk. I said I was in accord with the principles offered by the COMMITTEE, and what could I do to help. She said that she did not think it would be out of place for a soldier to write to Washington. A son of a friend of hers who was a National Guardsman at a Southern Camp was aiding the cause by having petitions signed by the enlisted men. Continuing her discussion, she said that many men had told her that in the event of war they would go AWOL. She signified that she wouldn't blame them. She said that she would find out more about what activities the National Guardsman was carrying on,' and where I could be reached if anything important came up. I appeared hesitant about giving my name, but she assured me that it would not be put in the general file."

2. Investigation as to other activities by the same agency among soldiers is continuing.

Mr. J. Edgar Hoover,
Director F. B. I.
Washington,
D. C.

Dear Mr. Hoover :

A very large number of the business men of our town have been desireous of obtaining definite information of when and by whom this so-called "AMERICAN FIRST" committee was organized, and how it being supported. We would also like to know if Senators Nye and Wheeler, also Senator Clark of Idaho, all of whom advertise that they are speaking "under the auspices" of this said committee, are being paid for making these speeches, and if so then, how much they are paid, etc. The reason we ~~our~~ here desire this information is that we are - a very, very great many us - are bitterly opposed to the stand these men have taken towards the war situation.

I have, just yesterday, and by accident, learned this much about this "AMERICA FIRST" Comittee; A certain German lanquage newspaper, Der Staats Anzeiger, Bismarck, N. D. has been soliciting memberships for that committee. This information I received from an old simple minded German here by the name of Rev. Willis A. Seeman, 25 4th. Ave. Nw. this town, who told me has was a member of that committee and that he became a member throught that paper, to which he had paid a dollar.

Perhapse you have received by now printed copy of my article which appeared in July 29th. issue of our local paper here, the Minot Daily News. I hope so. And if you have received the copy I would greatly appreciate for you give me your opinion of the line of thought it con - tains.

From N Y Evening Post

UNTIL UNCLE SAM closed it, the German Library of Information, 17 Battery Pl., had been flooding Newton Dillaway, Reading, Mass., writer, with propaganda, although he didn't ask for it. The envelopes always had been addressed Sillaway. Mr. Dillaway thought it a coincidence, at least, when the America First Committee recently began sending him unsolicited propaganda and also addressed him as Sillaway. Here are the Sillaway envelopes.

Nazis Go, Mail List Stays

For months, Newton Dillaway, a Reading, Mass., writer, has been getting German propaganda handouts through the mails in envelopes with the return address of the German Library of Information, 17 Battery Place, New York. On each envelope his name was misspelled "Sillaway."

When the German Consulate and information bureau were closed, recently, Dillaway thought that would be the end of the letters. He found out he was wrong. Now he's getting handouts from the America First Committee, 141 W. Jackson Boulevard, Chicago. They come addressed to Newton "Sillaway."

MEMORANDUM FOR MR. R. P. KRAMER

RE: AMERICA FIRST COMMITTEE
JOSEPH MCWILLIAMS

Information has been received at the Bureau from an unknown outside source which quotes from the publication known as "The Hour" as follows:

"Street corner meetings sponsored by the various appeasement, pro-fascist groups have already begun to make their appearance in New York City. To date the most active sponsor of such meetings is the America First Committee. Since Lindbergh's April 30 speech at Manhattan Center, approximately thirty such meetings have been held, usually in the better residential districts of the city. A number of these gatherings have taken place on Fifth Avenue. Forty-second Street and Fifth is the favorit spot for these "peace" rallies.

The technique of the meetings varies scarcely at all. The speaker mounts his portable platform. He stands under an American flag. He tells the crowd that a "small minority of financiers" is trying to get us into this war. He avoids openly anti-Semitic remarks; he merely indulges in innuendoes. All mention of the progressive forces in this country is markedly absent from his speech. He never speaks about a fight for democratic rights; in fact, he rarely utters the word "democracy". His hero is Charles A. Lindbergh and his concept of a wise man is Father Coughlin.

The speaker is usually heard by an audience of some two hundred persons, most of them passers-by who stop to listen out of curiosity. Heckling is frequent. To date, as far as The Hour can learn, there have been no incidents of violence. But all reports describe a tense atmosphere at these street corner meetings. It is to be expected that the Christian Fronters, who play an important part at these meetings, will not hesitate much longer to use force against hecklers in the crowds.

A Reverend Charles A. White, allegedly an Episcopalian minister, is in charge of the extensive speakers' bureau maintained by the America First Committee at their offices at 515 Madison Avenue. He does not have a church and his name is not listed in the directory of

the Federal Council of the Churches of Christ in America. He himself is a frequent speaker for the Committee. Wearing his clerical collar, he opens the meetings at which he talks. He is usually followed by three to five speakers, whose addresses last for about fifteen minutes each.

No questions are permitted at these meetings.

Joseph McWilliams, who has been following with admiration the "success" of the America First street corner meetings, is soon to launch his own campaign along similar lines. He plans to abandon his covered wagon of last year. "A huge American flag will be enough," he says. The territory he will concentrate on includes Yorkville, the Bronx and Astoria, Long Island.

Four veteran Coughlinite orators, James Stewart, James Downey, Henry Curtiss and Frank Woodruff, are already picked to work with McWilliams; and he expects to increase this crew of rabble-rousers in the near future.

The content of his speeches and those of his henchmen is to be modeled on that of the America First speakers, although the McWilliams' gang intends to make much more vigorous use of the tactic of Jew-baiting."

Respectfully submitted,

"FELLOW COLORED AMERICANS;-

Our Common country has never been faced with a crisis that approaches the present one.

We are on the very edge of the vortex of a World War.

Our country should be concerned about this war, but there is no reason why we should get into it. But, if we should unfortunately enter this war, it will not only set our country back fifty years but it will particularly be disastrous to the minority groups.

We sympathize with England, but there is no justification for having hundreds of thousands of our sons and brothers slaughtered in the interest of another country.

We favor aid to England, but we earnestly insist that nothing should be done that will take us into this war or send our boys abroad.

We are patriots, and none love their country more than we and no group has shown greater patriotism and self-denial or self-abnegation than our group. And, if our country unfortunately should get into this war, we shall rally as we have always rallied around 'Old Glory'

"and do our bit to the last man. But, why should we be called upon to do this when we can avoid it?

The President has promised that he will not send our boys abroad and we urge you to act at once in giving the President such support, based upon his promises to keep us out of war, that he will not be influenced by some of the war-mongers that constantly din into his ears.

We urge you to organize a Chapter of the America First Committee in your community. There is nothing more vital at this time than this matter, and there is no greater service you can render your country. If you will undertake this organization work, write us for our Chapter manuel which will assist you in doing so.

In any case, let us urge you and your family write the President, your Representative and Senator in Congress urging that our country shall stay out of this conflagration. For, otherwise, with a war declared, we are faced again with the maimed and wounded, broken homes, destruction and death, the shell-shocked, the halt and blind, and sorrow and heartaches will know no bounds.

This general movement is directed by some of America's greatest statesmen and most unselfish leaders, as you will see from the enclosed copy of 'Aims and Activities of the America First Committee.'

We also enclose a membership card which you will please sign and return, but sign and send the card even if you are not able to make any financial contribution.

Yours for America First,

By the Committee,
J. Finley Wilson, Chairman

Perry W. Howard, Secretary"

MEMORANDUM FOR MR. R. P. KRAMER

Re: AMERICA FIRST COMMITTEE;
INTERNAL SECURITY - G.

The following information has been received at the Bureau from an unknown outside source through a communication dated July 27, 1941, at Youngstown, Ohio.

It is reported that pro-Nazi circles have been concentrating their agitation in an effort to oppose any extension of the one-year service for selectees and national guardsmen. However, it is felt that as a whole the general public favors keeping them in service as long as the present emergency exists.

This source states that fathers who have sons in service at Camp Shelby have said that much of the agitation against the extension of the one-year service is coming from national guardsmen and conscripts who have been used to fill up the quota. It is further said that an official of a local insurance agency has stated that he has received word from his son at Camp Shelby that the actions of the soldiers there are disgraceful and that on several occasions the President has been derided.

It is alleged that most of this agitation comes from the America First movement and from the resulting publicity given to Senator Wheeler and others. It has been reported that many citizens have expressed the opinion that the proper way to handle Mr. Wheeler and his associates is to give them no publicity whatsoever.

JAY F. TIFFANY
60-35 83rd STREET
ELMHURST, NEW YORK

I M P O R T A N T M E S S A G E

MY FRIENDS AND NEIGHBORS:

I earnestly appeal to all of you to become supporters of the AMERICA FIRST COMMITTEE. My reasons for making this appeal are the following:

All of us pay Federal taxes. Whether we pay an income tax or not, we pay hidden Federal taxes every day of our lives. Anyone who smokes a pack of cigarettes every day pays $17.72 in Federal taxes in the course of a year. When you women buy cosmetics, eleven per cent of the price consists of a hidden Federal excise tax. When we buy an automobile, a tire, an inner tube, a radio, a refrigerator, gasoline or lubricating oil, part of the purchase price consists of a Federal excise tax. If we go to the theater or the movies, we pay a Federal tax on the admission charge. We can't even drink a glass of beer without having part of our dime go to the brewer to reimburse him for the tax which he pays to the Federal Government on every gallon of beer which he brews.

Next year these taxes will all be increased because of the defense program.

Most of us pay a Federal income tax. This year some of you may have paid an income tax for the first time in your lives, because of the lowering of the personal exemptions.

Next year our income taxes will be drastically increased. They will be anywhere from three to six times as large as they were this year. For example, if you paid a tax of $11. this year on an income of $2,500., you will pay between $44. and $72. next year, according to the tax plans now pending in

ALL INFORMATION CONTAINED

100-4712-11

Congress; and if you paid a tax of $31. on an income of $3,000., next year you will pay between $97. and $152.

BUT IF AMERICA ENTERS THE WAR, OUR TAXES WILL NOT BE INCREASED THREE, FOUR, FIVE OR SIX TIMES. THEY WILL BE INCREASED TEN, FIFTEEN OR EVEN TWENTY TIMES. THE PEOPLE OF ENGLAND ARE PAYING ONE-THIRD OR ONE-HALF OF THEIR INCOMES TO THEIR GOVERNMENT IN TAXES, AND WE WILL BE DOING THE SAME THING IN THIS COUNTRY UNLESS WE KEEP AMERICA OUT OF THE WAR.

When we are threatened with a paving or sewer assessment of $50. or $75. two or three thousand of us go to Lost Battalion Hall and shout down the politicians who are trying to assess us. We should be much more aroused whena very small minority of people in this country, many of whom are not even American citizens, are trying to push us into a war which will cost each one of us not $50. or $75. but hundreds of dollars per year for the rest of our lives.

I have said that a very small minority are trying to push us into war. Even the Gallup poll shows that only 20 per cent of the persons interviewed want war. Probably the actual number of people in this country who want war is as small as 5 or 10 per cent of the adult population. The following letter appeared recently in the New York World-Telegram:

> "I am an insurance man, who in the course of a year comes into personal contact with at least several thousand persons in all walks of life. During the last 12 months I have made it a point to ask all I have come in contact with this question:
>
> 'Do you favor our entry into war, even if Britian is defeated?'
>
> Invariably, the answer has been 'No'. Furthermore, and this is interesting, I have yet to meet a person who has been interviewed by the Gallup poll."

Senator Wagner said in a recent press interview that his mail is running 100 to 1 aganist convoys,which would lead usto war.

If so few people want war, then why are we deluged with war propaganda? The answer is that the warmakers are organized, active, influential and well-financed. There are at least five of them in President Roosevelt's Cabinet; they determine the editorial policy of many newspapers and magazines; and they control the production of motion pictures so completely that they have been able to pour down our throats a strong dose of war medicine with their anti-Nazi films (but they never produce an anti-Communist film).

There are two things which the 90 or 95 per cent of us who are opposed to war can do in order to offset the propaganda of the war-makers.

1. We can send a letter or a post-card to each of our Senators and Representatives telling them that we are opposed to American entry into the war, that we are opposed to convoys, that we are opposed to any amendment of the Neutrality Act, and that we favor legislation providing for a national popular referendum before any declaration of war shall be made by Congress. Such letters and post-cards should be sent to the following:

Hon. Robert F. Wagner,
Senate Office Building,
Washington, D. C.

Hon. James M. Mead,
Senate Office Building,
Washington, D. C.

Hon. Caroline O'Day,
House Office Building,
Washington, D. C.

Hon. Matthew J. Merritt,
House Office Building,
Washington, D. C.

Hon. William B. Barry,
House Office Building,
Washington, D. C.

When you write take care to sign your name clearly and to put your address on your letter or post-card, so that the Senators and Representatives will know that you are among their constituents. When you write to Representative Barry, let him know that you appreciate the work which he has been doing to keep America at peace. As you can see from the enclosed copy of a letter which Representative Barry has sent to his constituents who have written him in opposition to convoys, he has taken his stand with those of us who do not want American boys to die for the defense of "democracy" in China and India (and now Russia).

2. We can join the AMERICA FIRST COMMITTEE, which is daily growing in strength and which, if it grows strong enough, will be able to compel the Administration to keep this country at peace. A small contribution to the Committee now will enable it to carry on its work and will save each one of us hundreds of dollars in war taxes. If you will sign the enclosed card and return it to me, one of my volunteer helpers or I will call on you to enroll you in the America First Committee.

The same clique of Judas Iscariots who sold the lives of American soldiers to the Allies for thirty pieces of silver in 1917 are working night and day to put over the same deal again. They have the help of the anti-Christian Communist Party with all its powerful propaganda agencies and all its smirking, hypocritical admirers and fellow travellers, from Mrs. Roosevelt down to Mayor LaGuardia. Unless the rest of us start fighting for peace, American boys will be dying in England, Russia, China and Africa before the end of this year, and the common people of America will be picked clean by the tax-collectors.

Sincerely yours,

JAY F. TIFFANY.

C O P Y

CONGRESS OF THE UNITED STATES
House of Representatives
Washington, D. C.
May 21, 1941

Dear Constituent:

This is to acknowledge receipt of your recent letter regarding convoys.

I am absolutely opposed to this Nation sending its fleet to convoy through any war zone; as the President said, "convoys mean shooting and shooting means war".

I earnestly request you to send a letter of protest to the President, and also write to at least three friends, requesting them to do likewise and have them in turn write to at least three friends more; in other words, start a chain letter system a gainst the drive for convoys and war.

In spite of propaganda and hysteria of a frightened minority, this Nation can successfully defend the Western Hemisphere from attack by any possible combination of enemies.

The argument that we will lose our foreign trade with Europe, Asia and Africa and strangle economically if England does not win is absurd. In the first place, our foreign trade with those continents amounts to only 3½% of our entire business. In the second place, we have been competing successfully for many years with dictatorship nations where the so-called slave labor exists. As a matter of fact, since 1930 up until the outbreak of the War, our foreign trade doubled, and during those years we competed with and traded with all of the totalitarian countries; and strange as it may seem the lowest wage scale in the world exists in "Democratic" China, and the next lowest wage scale is in British India, another alleged democracy where coal miners are paid 90¢ a week, jute workers $1.25 a week and industrial workers $1.35 a week. Child labor is prevalent, and the average wage for it is 70¢ a month.

The destiny of this Nation is not dependent upon any other nation outside of the Western Hemisphere, where we can be self-sufficient if necessary.

It is my conviction that if the men who suffered at Valley Forge, and founded this Nation, were alive today, they would gaze with amazement and shame at the small minority of Americans who are hysterically proclaiming that this great and powerful nation of 130 million people cannot defend itself without the aid of the British Navy.

Yours very truly,

W. B. Barry
Member of Congress.

ELIOT AVENUE CIVIC ASSOCIATION

OF QUEENS, INC.

NOTICE OF SPECIAL MEETING

A special meeting of the Association will be held at the meeting hall, 84th Street and 60th Avenue, on Friday, July 18th, 1941, at 8:30 P.M. to take action on the following:

1. A resolution that this Association send to all the members of Congress a mimeographed letter urging them to vote in favor of the following:

(a) An amendment to the Lend-Lease Act providing that the President of the United States shall not extend any aid under the Act to Soviet Russia.

(b) An amendment to the Neutrality Act directing the President of the United States to apply the provisions of the Act to Soviet Russia.

(c) A proposed amendment to the Constitution of the United States providing that the armed forces of the United States shall not be sent to fight outside United States territory except upon an affirmative vote of a majority of the American people in a national popular referendum, such proposed amendment to be submitted to conventions in the several States.

2. A resolution that the Secretary of this Association write to President Roosevelt requesting him to re-

move Secretaries Stimson, Knox, Ickes, Morgenthau and Wickard from his Cabinet, replacing them with men who will concentrate on building up the defenses of the United States and who will not attempt to maneuver this country into the war; and authorizing the officers of this Association to circulate a petition to the same effect among the members of the Assocation for their signatures and to send the said petition to President Roosevelt.

3. A resolution that this Association donate to the AMERICA FIRST COMMITTEE a sum not exceeding one hundred dollars.

4. A resolution instructing the Board of Directors of this Association to rescind a resolution adopted at a special meeting held June 30, 1941, purporting to correct and interpret a resolution adopted by the members of this Association at a regular meeting held June 6, 1941, authorizing the President of this Association to appeal to the members for support for the AMERICA FIRST COMMITTEE, on the ground that th said purported action of the Board of Directors was beyond their jurisdiction and is therefore illegal, invalid, null and void, and further instructing the Board of Directors not to attempt to re-instate their said purported resolution, either in whole or in part, at any time in the future.

5. Any other business which may be brought before the meeting.

It is suggested that members take this notice to the meeting with them, so that they may readily follow the order of business and the consideration of the various items.

Gentlemen:

Just a line to let you that you have lost a customer of some fifteen years.

We listen to to radio to be entertained, not to be insulted with any patriotic or war spirit. I sincerely think your song "~~In Man~~ "For the Love of America" was entirely out of place tonight.

You would do well to place some one of the caliber of the Hon. Burton K. Wheeler on your program. Seventy-five percent of the "Americans"

in this county agree with the "America First Movement" and are getting very tired of Jewish flag waving and English propaganda. Tim vote or I refuse to smoke Philip Morris cigarettes (a nice drop in your bucket!) or listen to your radio programs.

Yours very truly

Dear [redacted]

b7c

Your letter of July 29th has been placed before me, and may I at the outset say that we sincerely regret that you took exception to the patriotic number "For the Love of America" which was played on our programme. We ask, however, your indulgence and sympathetic understanding of our position.

When we put on a radio programme, we do not do so to please or entertain ourselves, but with a hope that we can correctly gauge the feelings and reactions of the listening audience. The people in charge of our radio productions felt that a very great majority of the people in this country were sympathetic to the democratic form of Government and would not resent the playing of the number to which you object.

Your letter, however, has forcibly brought home to them that there are followers of Burton K. Wheeler and members of the America First Movement, who object to such numbers.

Yours very truly,

A. E. Lyon
Executive Vice-President.

MEMORANDUM FOR MR. R. P. KRAMER

RE: AMERICA FIRST COMMITTEE
INTERNAL SECURITY

The following information was received at the Bureau from an unknown, outside source, through a communication dated at New York, New York, April 30, 1941.

This source reported that Edward S. Webster, Jr., Executive Secretary of the captioned committee issued a statement on April 28, 1941, that approximately 9200 new members had joined the organization since the Manhattan Center rally on April 23, 1941. It is reported that at this rally on the twenty-third the German groups had special buses from Newark, Jersey City, Irvington, Bloomfield, Paterson and even as far off as Philadelphia, Pennsylvania.

It is stated that this meeting was divided into two groups, "one was those on the inside and the others were those people who had to pay out money for tickets." It is said that those on the inside could secure press tickets from the following groups:

American Patriots	German-American Bund
Committee for Preservation of America	Kyffhauser Bund
Christian Front	Modern '76's
Christian Mobilizers	Social Justice Groups
Crusaders for Americanism	

This source of information states that the following were among those who were present: Reverend Herbert Lewis, Bund and Christian Front member; George F. Boian, leading member of the U. S. branch of the Roumanian Iron Guard, disseminator of pro-Nazi propaganda; Edmund Burke, Christian Mobilizer, speaker and organizer, a jailbird; James McGee, Christian Front propagandist; Daniel Hogan, bodyguard of the American Destiny Party leader, Joseph McWilliams; George Rieper, Christian Front contact man, associated with many Fifth Column groups; James Stewart, a street-corner speaker of the Christian Mobilizers and member of their inner council; Edward Canta,

former witness before the Dies Committee, now employed by the American Women Against Communism, a fascist organization; Mrs. Leonora Schuyler (on platform), bigwig in the Allied Patriotic Society, frequenter of Christian Front and Mobilizer meetings; Mrs. Cooper, a leader in the fascist Paul Revere Sentinels, a friend and co-worker of Mrs. Schuyler; Edward James Smythe, intimate of Bundites, KKK leader, staunch Hitlerite and violent anti-Semite; George A. Van Nosdall, bund member, former president of the Crusaders for Americanism; John B. Snow, chairman of the League for Constitutional Government, a white collar fascist group that specializes in spreading anti-Semitic propaganda; Lawrence Dennis, well-known fascist "theoretician," author of The Coming American Fascism; Gustav Elmer, treasurer of the Bund; August Klapprott, Bund leader now out on bail after conviction in New Jersey on charges of incitement to hate; and many others of like nature.

This source further indicates that the American First Committee is now becoming the spearhead of all the pro-Nazi appeasement movements in order to coordinate the storm troop forces in this country. According to the publication called "The Hour," it is alleged that the fascist groups throughout the United States have agreed on Charles A. Lindbergh as the man who will be the leader and coordinator of the entire movement and it is said that Lindbergh has already assumed this position. It is further stated that Father Coughlin will provide a large portion of the following, and that he is not reluctant to admit his participation. An editorial of the April 28, 1941, issue of Social Justice set forth the following:

> "Colonel Charles A. Lindbergh became a member of the America First Committee last week.
>
> "It is the same Committee under whose auspices Senator Burton K. Wheeler speaks.
>
> "It is the same Committee under whose auspices Father Charles E. Coughlin would be speaking did he enjoy one-half as much liberty as a priest and as a citizen, as that enjoyed by Monsignor John A. Ryan of the National Catholic Welfare Council.
>
> "It is the same Committee which all non-interventionists should join in the hope of saving this country from the destructionists -- the New Deal Interventionists."

The source of information inclosing indicates that the America First Committee has not the slightest interest in peace and that in reality it is eager to see Germany triumph. The source states that this movement has no concern with peace and that this can be shown by the policy of the committee which heavily recommends expansion of the United States to the South and the subsequent taking over of territory in Latin America either by "peaceful means or otherwise."

Respectfully submitted,

O. D. Anderson

Subject: STREET SPEAKERS FOR AMERICA FIRST COMMITTEE.

Summary of Information:

The America First Committee has in the New York Metropolitan Area a group of street corner speakers who are clean cut, "typical" American young men. They are obviously well educated, speak without accent and have an excellent command of English. They are not "rabble rousers" in any sense of the word but direct their appeal"to the common sense of the common people who will have to do the paying and the dying in the event of a war". They carry on their talks in quiet, well modulated tones often approaching the delivery of a teacher to a class. They are effective although their audience at 59th Street and Lexington Avenue (28 July 41, 9:15 P.) numbered only about 60 persons. Although the speakers received rather "spotty" applause they were not booed or hissed at all. There were three police officers and a patrol car in attendance at the above mentioned meeting.

When a request was made from among the listeners for a question period the speaker declined to yield to questions stating that the America First Committee had found that hecklers attempted to break up meetings; that the America First Committee was interested in placing the facts before the thinking public and that the America First Committee will be more than pleased to answer all questions if the questioner will stop in at one of their offices.

The America First Committee apparently had been careful in the selection of its speakers. The two men heard at 59th Street last night were men who bore out the tenor of their talks i.e that they were capable and willing to fight FOR THE UNITED STATES but they were "too well informed to be willing to fight for any other country."

Subject: AMERICA FIRST COMMITTEE - Disaffection Among Troops

Summary of Information:

1. It has been learned from a source believed to be reliable that a special unit has been formed in the New York City section of the AMERICA FIRST COMMITTEE called the "Investigation Unit." It is under the direction of one GEORGE WRANGELL, who calls himself BARON CHARLES BOKASSOWKI VON WRANGELL. This WRANGELL, of Russian origin, is in no way connected with the late GENERAL BARON WRANGEL, one of the leaders of the White Russian Army. GEORGE WRANGELL through GEORGE DJAMGAROFF, see report from this headquarters under date of April 11, 1941, was given this title by the GRAND DUKE CYRIL of Russia who lives in France and whose daughter KIRA married PRINCE LOUIS FERDINAND of Prussia and whose son VLADIMIR is now reported to be considered by the Germans to inherit the throne of Russia under German protection. GEORGE WRANGELL was able to obtain a number of important subscriptions to the funds of the AMERICA FIRST COMMITTEE amongst Russian emigres and rich American women married to former Russians, such as HELENA RUBINSTEIN, owner of the well-known beauty parlors, and others. It is also reported that he has met at different times with the French refugee groups who gather at the Waldorf-Astoria, Pierre, Barclay and other hotels and some of whom were formerly subject of a report from this office dated July 17, 1941, under the heading "Vichy Government Officials and Their Associates Active in the United States."

2. GEORGE WRANGELL is openly PRO-GERMAN and PRO-NAZI and is closely associated with one BORIS BRASOL who was mentioned in a report from this office dated July 2, 1941, Russian, with the closest possible contacts with the GERMAN BUND and German Government circles. BORIS BRASOL recently addressed an open letter to the President of the United States, signed by himself, ARCHBISHOP VITALY of the Russian Orthodox Church of New York, and BORIS SERGIEVSKY, protesting against American help to Soviet Russia. BORIS BRASOL is also known to be in close touch with CHARLES HUDSON, Omaha, Nebraska, CHARLES W. PHILLIPS, Lincoln, Nebraska, GERALD WINROD and other subversive elements, including GUY JUENNEMAN, THERESA HOLM, COLONEL BRYANT, who were the subjects of a report from this office dated July 2, 1941.

3. The "Investigation Unit" is the creation of MR. BRONSON BATCHELOR, a noted press relations counsel and supposedly the leading spirit behind the AMERICA FIRST COMMITTEE activities. BATCHELOR is a close friend and

business associate of CARL BYOIR, who was accused by CONGRESSMAN PATMAN on August 29, 1940, of being a German spy.

4. The WRANGELL-BRASOL group freely admit that they are PRO-NAZI and cooperate with the BUND. It has been learned from other sources believed to be reliable that German groups either friendly or affiliated with the BUND are actively supporting the AMERICA FIRST COMMITTEE activities and BUND leaders urge all their supporters to join the AMERICA FIRST COMMITTEE and collect funds for same.

5. It has been learned from the same sources that Bundists are operating as volunteer workers in addressing the anti-interventionist literature now being put out by the AMERICA FIRST COMMITTEE and also are seeking every means to contact parents of selectees, either directly or by mail, for the purpose of urging them to support by messages to Congressmen and Senators the propaganda against extension of military service for selectees.

6. It has been further learned that certain of these BUND agents, at least one of whom is on the payroll of the AMERICA FIRST COMMITTEE, are meeting with soldiers in the taverns and amusement places around Fort Dix and other Army camps, primarily for the purpose of obtaining the home addresses of all men whose surroundings they think would react favorably to their efforts. These addresses are used to distribute literature ranging from the cards issued by SENATOR WHEELER to the highly subversive literature published by CHARLES HUDSON, GERALD WINROD and others.

7. It has been further reported that these agents have approached parents of selectees and suggested to them that their sons should form clubs in Army camps for the purpose of sending collective messages protesting against retention in the military service to SENATOR WHEELER and other prominent personages. For this purpose also the German groups are forming propaganda circles under the style of bridge clubs or pinochle clubs which are quite numerous in taverns in the suburban districts of New York City.

8. Particular attention is being paid by the AMERICA FIRST COMMITTEE to efforts to secure financial support and adherence to its program amongst groups of well-to-do citizens in Westchester County, New York, Fairfield County, Connecticut, and Morris County, New Jersey. These thickly populated, prosperous communities are the home of many of the young officers now on duty with troops. Special attempts are being made to influence them through impressing their parents and for this purpose notable speakers, such as Ex-Governor PHILIP LaFOLLETTE of Wisconsin and others, are being obtained to address the meetings. In this way the morale is seriously affected.

MEMORANDUM FOR MR. FOXWORTH

[redacted], was referred to me from the Director's office.

[redacted] that she has a high regard for the Federal Bureau of Investigation and the part which it is presently playing in behalf of the national defense. She stated that she and her husband have been in frequent contact with Special Agent [redacted].

[redacted] stated that she merely wanted to call at the Bureau and report to one of Mr. Hoover's assistants her opinion that the America First Committee constitutes a real danger and menace to the national defense. She stated that members of the America First Committee in and about Santa Fe, New Mexico, believed by her to be very active in creating disunity, etc., are [redacted] who owns prominent railway interests; [redacted] of a prominent and wealthy family; [redacted], and owner of large financial and business interests in Germany; [redacted], Secretary of [redacted], a very pro-Nazi individual; [redacted], very anti-Semitic; [redacted] and numerous others.

[redacted] stated that in her opinion the America First Committee members are in the first place bitterly anti-Roosevelt; secondly, they are entirely fanatic; thirdly, they are strongly anti-Semitic; fourthly, they are completely discontented and dissatisfied with the present setup in America. She stated that in her opinion because of their wealth, influence and position they constitute the gravest menace to the internal security of this country at the present time.

[redacted]

This is not being recapitulated in detail in this memorandum.

[redacted] was thanked very courteously for her interest in bringing this information to the Bureau and she was assured that careful consideration and the attention deemed appropriate would be furnished this and any other material that she might care to furnish to this Bureau.

Respectfully,

CAMPUS COPPERHEADS.

Los Angeles - A group of Lindbergh enthusiasts among the under graduates at conservative, privately-endowed University of Southern California have formed what is believed to be the first "coil" of "Campus Copperheads". Claiming to have the shortest constitution and by-laws on record, the two together constituted of but three words, "We're for Lindy", they show their colors by wearing a sizable lapel button bearing the simple inscription, "I'm a Copperhead."

The provisional officers and charter officers and charter members h have been drawn from the ranks of those who entered vigorous protest at the discourtesy accorded by President Von Kleinsmid and other university authorities to Senator Gerald P. Nye when he recently spoke here under the auspices of the America First Committee. Preparations are under way for a large off-campus rally in the near furture to be addressed by prominent local non-interventionists.

The "Campus Copperheads" are affiliated with the National Copperheads, Bos 5512 Metro Sta., Los Angeles, launched here immediately following President Roosevelt' angry attack which resulted in Colonel Lindbergh's resignation from the army air corps. Also affiliated are the Copperhead Clubs, formed and forming among the pilots of LaGuardia Field and other aviation centers.

The purpose of the organization is declared to be a simple one, namely to "rally and organize in support of the unpolluted Americanism, the straightforward and clearheaded realism and those sound enduring principles so ably and convincingly enunciated over and over by that most popular of all Americans, our beloved Lindy".

MEMORANDUM

Re: THE AMERICA FIRST COMMITTEE

The America First Committee was incorporated under the Not for Profit Laws of the State of Illinois on September 19, 1940. The purposes of the committee as outlined in its charter are to encourage and maintain in the United States of America:

1. Peace and the Democratic ideal.
2. A program of adequate defense.
3. A furtherance of peace in this continent, a policy of non-intervention in the affairs of other continents and to encourage the giving of help to refugees and the needy in other lands insofar as such help does not endanger the peace in the United States.

The America First Committee has advertised itself as being "non-partisan organization of loyal and patriotic men who believe:

RECORDED INDEXED 100-4712-127

FEDERAL BUREAU OF INVESTIGATION 8 SEP 4

1. The United States must build an unbreakable national defense.
2. No foreign power nor group of powers can ever successfully invade a prepared America.
3. Our Government sending men of its own, ships, planes and materials of war to a belligerent overseas dangerously weakens our defense at home and threatens to involve America in war abroad.
4. Our American Democratic liberties can only be preserved by keeping out of foreign wars in Europe or in Asia."

The national headquarters of the America First Committee is located at 1806 Board of Trade Building, Chicago, Illinois. A local headquarters is maintained in Washington, D. C., at 1010 Vermont Avenue, N. W. There is a total of 586 local chapters and affiliated units of the America First Committee throughout the United States.

The America First Committee has published an enormous amount of propaganda literature concerning the aims of the Committee and has circulated this literature throughout the United States. The apparent object of the literature is to crystallize American opinion to prevent the entrance of the United States into European wars and to vilify the foreign affairs program of President Roosevelt. The numerous pamphlets published by the Committee state that 86% of the people of the United States are opposed to the United States intervening in foreign wars. These pamphlets fail to make any explanation as to how the figure of 86% was arrived at. This literature also makes an appeal to American mothers to aid the Committee for the purpose of preventing their sons from being embroiled in another European war. The foreign program of President Roosevelt is termed "the road to war" by the literature emanating from this committee. (100-4712-41-56)

Friends of Democracy, Incorporated, L. M. Birkhead, National Director, with National headquarters in Kansas City, Missouri, published a pamphlet entitled the "America First Committee, the Nazi Transmission Belt." This pamphlet alleges the America First Committee whether its members know it or not and whether they like it or not is a Nazi front organization and is a transmission belt by means of which the apostles of Nazism are spreading their anti-Democratic ideas into millions of American homes. This pamphlet also charges that Adolf Hitler and his disciples in the United States are using the America First Committee to spread Fascist and Nazi propaganda.

Information received from the office of Military Intelligence, indicates that the America First Committee, in the opinion of the Communists, is a dangerous movement launched by "big open-shop industrialists," and the political bureau of the Communist Party is of the belief that in the event that the United States gets into the war, the America First Committee will support the war regardless of its present opposition; and further that when this country is ready to plunge into war the "General Woods, Ryersons, Fords, McCormicks," etc., would declare that they no longer opposed war because the country is engaged with a foreign foe. Mrs. Edith Scott of Philadelphia, Pennsylvania, whose organization is affiliated with the America First Committee, said the invitation was under consideration by her group. (100-4712-A)

In the April 14, 1941 issue of the Staten Island Advance an article appeared stating that Howard I. Jump, son of Mrs. Lila Jump, head of the Staten Island unit of the America First Committee, had failed to report for induction as ordered by the local draft board and had been given a formal notice giving him five days in which to change his mind. Jump, twice before, was refused deferment by his local draft board; once on a medical deficiency claim and again on an occupational claim. (100-4712-30XI)

Information received from the office of Naval Intelligence on April 23, 1941, disclosed that [redacted], a member of the crew of the U.S.S. The News Letter of Los Angeles, California for April 9, 1941, carried an article concerning the America First Committee meeting held at Los Angeles, California, which was addressed by Mrs. Catherine Curtis and Senator Gerald P. It was she who founded the Women's National Committee for Hands Off the Supreme Court." The activity of the America First Committee reached its peak during the period when it exerted its complete effort to the end of blocking the Land Lease Bill sponsored by the administration. Thousands of pieces of literature were distributed; numerous meetings were held in the metropolitan areas and the people all over the nation were incited to petition their national representatives to block the passage of this legislation.

(100-4712-16)

Two of the largest meetings sponsored by this Committee during that period were held at New York City on May 23, 1941, and Philadelphia, Pennsylvania on May 29, 1941, at which meetings approximately 20,000 people attended. Senator Burton Wheeler of Montana, Charles A. Lindbergh, Kathleen Norris and Norman Thomas were the headline speakers at these meetings. The texts of the speeches delivered were concerned with deriding the administration's foreign policy, especially the Land Lease Bill, which they emphatically criticised as an active step towards entrance of the United States into the European conflict.

While discussing the conference held in New York this morning with Mr. Sackett he stated that the Area Controller advised that he had given to General Watson pamphlets and literature that had come up at previous meetings such as cartoons of the President published by the America First forces, etc. The Area Controller suggested to General Watson and the General agreed with him that some sort of legislation be enacted forcing all contributors to any organizations of that nature to have their names published and go on record as having subscribed to it as a means of reducing the number of people who would cooperate with such organizations. Mr. Sackett stated that this will probably be suggested to the President.

An Editorial THAT SPEAKS FOR ITSELF

From the Chicago Tribune, May 8, 1941.

YOU CAN'T OUTBUILD A MAP

When a member of parliament asked Mr. Churchill why more retaliatory bombing raids were not made on Berlin, that statesman retorted that he was forced to put business ahead of pleasure. President Roosevelt apparently does not feel that grim obligation. In his call for a vast increase in the production of heavy bombers—the proposed rate of 500 a month is 25 times what we now produce—he is indulging in wishful thinking.

Mr. Roosevelt calls for the plane factories of the democracies to outbuild the Nazis. That, presumably, can be done. He says that democratic superiority in the air must be made absolute. That is wishful thinking. It is impossible to outbuild a map, and it is the map that makes Britain an easy target and Germany a difficult target in a bombing war.

The map on the picture page today shows the triple advantages that Germany holds over Britain in this respect—the advantages of distance, of area, and of direction. Each of these tends in a measure to reinforce the other.

Distance is today the greatest of these advantages. The Germans hold Scandinavia, the Low Countries, and France and launch their bombing attacks from airports in those countries. Dover is only 22 miles across the channel. London is only 90 miles away. It is only 125 miles from Cherbourg, France, to Bristol, one of the principal western ports of England; only 175 miles from Belgian airports to Coventry, only 235 miles from the continent to Manchester and the other great British manufacturing centers. Over the southern part of England Nazi fighter planes can accompany and protect bombers.

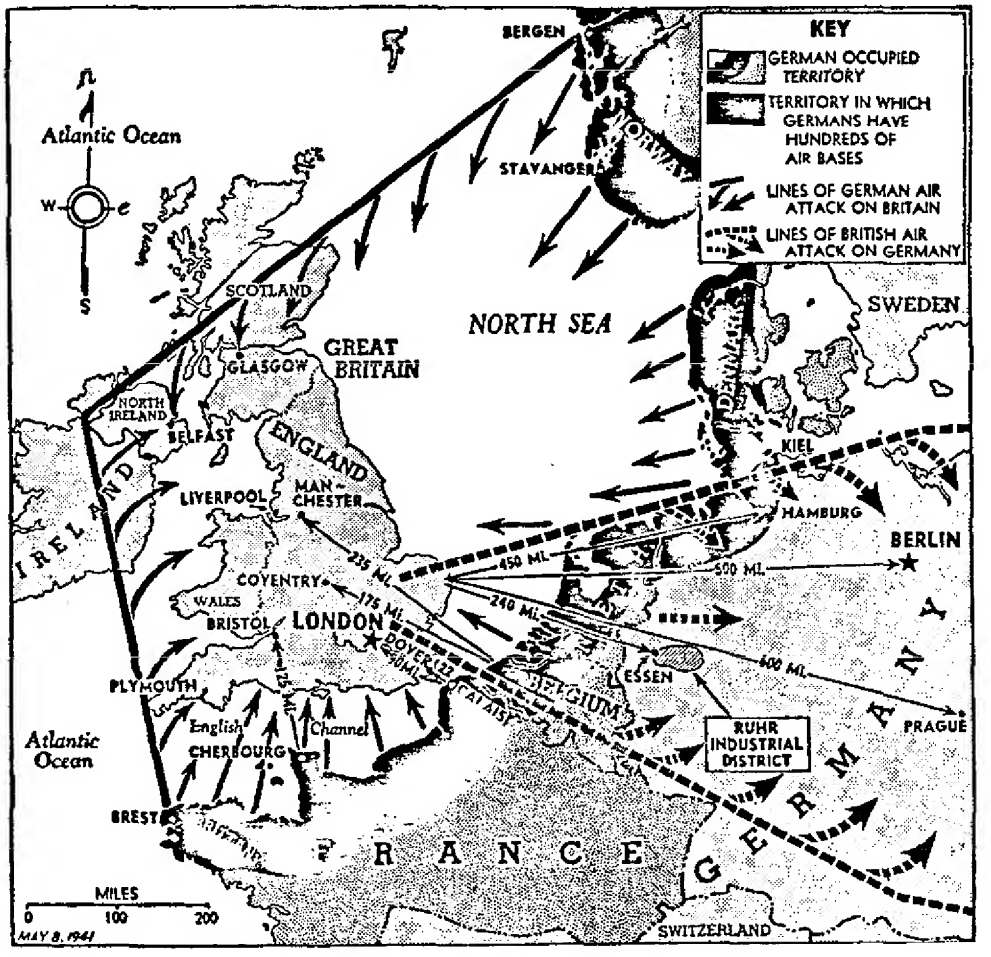
The British, it is true, can strike back at the airports from which these attacks are launched, but that is defensive bombing. To attack Germany they must cross the belt of Nazi held lands of their former allies. Essen and the Ruhr industrial region are 240 miles from the nearest British airports. Nearly half that distance must be flown over occupied territory that the British can bomb only at the cost of injuring their former allies, but from which the Nazis can launch defensive forces against the British bombers. Hamburg and the submarine building yards are 450 miles or more from British soil. Berlin is 500 miles; Prague, center of the seized Czech munitions industry, is 600 miles. No point of attack in Germany is close enough for British fighter planes to escort bombers raiding it, a fact that limits the British to night operations whatever their air strength may be.

The second German advantage is in the matter of airports. Theirs extend from Norway to Brittany. There is a limit to the number of bombers that the British can operate, imposed by the number and size of their airports. The Nazis are under no such handicap within practical limits.

They not only hold more airports, but the fields are arranged in a great half circle with Britain at its center. They can attack from any angle within this semi-circumference and they make their approach over the sea. British attacks on Germany, on the contrary, can depart little from a direct east and west course, flown for the most part over land from which defense measures can be launched. Geography imposes the same handicap on British observation. The Germans can watch a small island easier than the British can detect projected attacks spread over half a continent. On aerial defense the Nazis need guard only a comparatively narrow western gate; the British must man a whole defensive wall.

All the airplane plants in America cannot change the map, and it is the map, even more than any lack of planes, that puts Britain at an incurable disadvantage in bombing warfare. It is an atrocious blunder to attempt to fool the American people in this matter in order to get them into a war the end of which is certain calamity.

DISTANCES IN THE DUEL OF BOMBERS



THIS EDITORIAL SPEAKS FOR ITSELF—AND FOR 100 MILLION LOYAL AMERICANS WHO WANT TO STAY OUT OF FOREIGN WARS. IT DEMONSTRATES A FACT THAT CANNOT BE DENIED BY WISHFUL THINKING.

Can Hitler Cripple America's Economy

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

See what three of America's outstanding economists say:

BERNARD M. BARUCH
RAYMOND MOLEY
GEORGE N. PEEK

TO FIND the answers to the questions which are being asked so frequently these days about Hitler's threat to our economy, the America First Committee presents the views of three men who know as much about that problem as anyone in the country.

A brief biographical sketch of Mr. Baruch will be found on page 4.

Mr. Moley's background is described on page 9.

To see why Mr. Peek is so well qualified to answer those questions, read the brief outline of his record on page 16.

An interview with

BERNARD M. BARUCH

BERNARD M. BARUCH was born in 1870. As the man who directed this country's unprecedented industrial effort of 1917-18, he is singularly well qualified to discuss America's economic relation to the present war.

A member of the New York Stock Exchange, who had dealt with problems of trade and finance all his life, Mr. Baruch was appointed a member of the Advisory Council on National Defense by President Wilson in 1916. He was soon elevated to the post of Chairman of the War Industries Board, where he discharged with great distinction powers which were said to be the greatest ever held by any American. Later he served as Economic Advisor for the American Peace Commission and in 1922 became a member of the President's Agricultural Peace Commission. He is the author of many treatises on various economic subjects.

The statements he makes in the interview published herein are rendered particularly pertinent by the fact that Mr. Baruch is presently a close consultant of President Roosevelt on matters of national defense.

(The following is a reprint of an article by Robert Laffan which appeared in the June 6th issue of THE WALL STREET JOURNAL.*)*

U. S. CAN UNDERSELL TOTALITARIANS IN WORLD MARKETS, SAYS BARUCH

Germany Would Be "On Spot" Economically Even If She Won War, He Asserts.

THE UNITED STATES can undersell totalitarian countries in world trade, according to Bernard M. Baruch, formerly chairman of Woodrow Wilson's War Industries Board, now a national defense consultant to the Roosevelt Administration.

In an exclusive interview with The Wall Street Journal, Mr. Baruch pointed out that Germany, not the United States, would be "on the spot" economically if Germany were to win control of the European continent.

"What will she do? Where can she sell her products or those of the countries she has conquered?" the veteran of another all-out war asked the reporter.

The United States market will be cut off from European countries that formerly sold here, according to Mr. Baruch. Under proper economic policy the United States should be able to drive Germany out of any desired neutral market, he believes.

A Program for the U. S.

According to Mr. Baruch this country must:

(1) Maintain a low price structure throughout this war.

(2) Develop quality and economy in mass-production industries.

(3) Build military defenses.

Fears concerning Germany's economic prowess and cheap labor are exaggerated, according to Mr. Baruch.

He cited evidence he had just received from a large American company that owns a factory in a leading industrial city in Germany. (He named the city, but suggested the name be omitted.) The parent American company has received a report from the German factory, Mr. Baruch asserted, that shows conclusively that despite low wages and long hours, with the German mark at 37 cents, the American plant is turning out the same products more cheaply.

"Oh, they can make gimcracks where we don't make them," Mr. Baruch remarked, "but there is no reason why we can't undersell them in important mass-production products provided we maintain a low price structure."

Importance of Low Prices

He stressed the importance of this. A price rise now would have to be liquidated in the post-war period, and that would throw this country off balance and place it in an unfavorable position to wage economic war, he pointed out. But if prices here are held down, Germany will be faced with the huge unemployment and economic problem after the war, he believes.

Won't that mean that Germany will be forced to attack us? Mr. Baruch was asked.

"Let 'em come," he replied. Mr. Baruch emphasized that he is not one of those who have been complacent about Germany over the past many years. Like Winston Churchill, Mr. Baruch can point to the fact that he has been trying to awaken public opinion ever since 1935 to the rise of Nazi military power and to the need for preparedness.

Mr. Baruch's comments followed a discussion of his book, "American Industry in the War," which has just been issued by Prentice Hall, Inc. The book is a reprint of the report of the old War Industries Board, together with Mr. Baruch's own program for total mobilization of the nation as presented to the War Policies Commission in 1931. It also contains material on priorities and price fixing.

An interview with

RAYMOND MOLEY

RAYMOND MOLEY was born in Berea, Ohio in 1886. He has long been a keen observer of national affairs—first as a Professor of Politics, Government and Public Law; later, as a journalist. He has been one of President Roosevelt's closest advisors.

During the World War, Mr. Moley served as Director of Americanization for the Ohio State Council on Defense. In 1933 he was appointed Assistant Secretary of State by President Roosevelt—his special forte being international economics. He left this post to assume the editorship of the magazine "Today". This magazine later merged with "Newsweek", of which Mr. Moley is now Contributing Editor.

The following is reprinted from Mr. Moley's June 9 column of "Newsweek".

WORLD TRADE AND THE FUTURE

BY NOW the military, naval and diplomatic implications of President Roosevelt's fireside speech have been pretty thoroughly thrashed over. He has, by subsequent statements and acts, clarified much of what he said then. So it is unnecessary to pursue those aspects here. But there were economic implications in the President's statement of policy that will prove to be of almost equal importance in the long run. What he said about international economic questions, taken in connection with Mr. Hull's speech a week before, merits the keenest examination.

In much of the discussion on both sides of the debate on how far we should move into the orbit of war, there is a common economic assumption. It seems to be taken for granted that it is possible, through a military decision, to restore nineteenth-century methods of international trade if Britain wins, or, if Germany wins, to destroy those methods as we have known them in the past and to substitute an entirely new worldwide system of exchanging goods among nations.

YET it ought to be remembered that, war or no war—even without the interposition of the World War, in fact—economic developments were taking place throughout the world which pointed to a permanently changed world trade.

This has never been described so well as in Mr. Graeme K. Howard's book, "America and a New World Order." Mr. Howard's rare competence to speak on this subject lies in the fact that he is not a mere theoretical economist or a diplomat or a politician. He is vice president of the General Motors Corporation in charge of overseas operations, and his experience has been that of a man who has actually been engaged in selling goods abroad. He says: "In the new century, in spite of the fact that markets have grown and that new inventions, such as the automobile and the airplane, have infused new vigor into world economy, the rate of market expansion has declined . . . Unless domestic economies everywhere are again made to function as they once did, we will find the twentieth century barren of the remarkable growth in trade which was characteristic of the nineteenth."

There have been times when the Administration has proceeded on the basis of this belief. There have been others when the Administration has adhered to this theory's exact opposite. The strange duality of economic policy with which the fabric of New Deal history is shot needs no detailed analysis here. In the oil business, for instance, agreements to limit production and dispose of surpluses—agreements encouraged by some sectors of government—have been attacked by other sectors of government as combinations in restraint of trade. Or, to take another example, we are boosting the price of cotton by artificial means, thus encouraging competitive foreign production, at the same moment that we

insist upon talking about increasing our exports of cotton.

THE success of the United States in world competition after this war will largely depend upon the power, resourcefulness and productiveness of its own economy. Of course we cannot compete if that economy is plagued by disunion, hamstrung by fundamental inconsistencies, living beyond its means, dissipating its substance for nonproductive purposes. Nor can we afford to make the mistake of attempting to repeat the imperialistic course of the British Empire in the past century. The creation of that kind of empire is a thing of the past. We should find it impossible, as Germany, Japan or any joint effort of Germany and Japan will find it impossible.

The world is moving in the direction of self-dependent states and self-dependent blocs of states, eager to produce what they consume and intent upon an economy that will, through inventive genius, devise substitutes for the materials supplied by foreign producers. In this very fact lies a direct economic answer to the German threat. Because whatever may be the intention of the military and political masters of Germany, the kind of economy that the Germans have developed is in itself an answer to and a defeat for its pretentions as an imperialistic system. That is the ironic truth that Germany will sometime have to face. And if it has any intelligence left, it will face it soon, before the lust for empire gets too strong.

It was a corollary of the haphazard free-enterprise theory of trade that some, though not all, wars were fought in pursuit of trade advantages. It is possible that there was just enough color in the theory of the military pursuit of foreign markets to lend widespread credence to the Marxian thesis that capitalism was a breeder of wars.

If that thesis of Marx cannot be refuted by cold facts and by internationally directed intelligence, the future of the world is dark indeed. If the choice we of the twentieth century face is a choice between militarily controlled trade and the boggling free-enterprise kind of trade—both of which ultimately run themselves into the ground—then Communism may be destined to inherit the earth, with all the evil that would follow in its wake. If we cannot carry on trade without fighting wars over and over—wars which, in most instances, bring to the conqueror the hatred not only of the enemy, but the hatred of those who are allegedly being helped—then there is no prospect but retrogression before the human race.

All this has a very special bearing upon the economic future of this hemisphere and upon our relations with the countries to the south of us. The attitude of this Administration with respect to Latin America has been admirable in its restraint, in its courtesy and in its constant emphasis upon a spirit of mutual help. It has not limited itself to mere conversational hoopla, but has made sincere efforts to lay the foundations for sound political relationships with the Latin-

American nations. Still there is a tendency to blur over the hard fact that lasting relations cannot be established on any basis that would keep these countries as permanent producers of raw materials only. Without industrialization they cannot develop the means of economic self-defense. They will lack even the means of effective cooperation in hemisphere defense. And, unless they are industrialized, we, in turn, cannot escape the ultimately disastrous role of a dominant industrial nation penetrating the markets of these countries solely for the purpose of supplying them with consumers' goods.

THE military as well as the economic defense of the other countries in this hemisphere can succeed only if those countries are able to sustain, in and of themselves, a considerable proportion of their energy and of their material means for that defense. That will mean close and active military alliances with us. It will mean the joint occupation of military and naval bases. It will mean a clear definition of the extent to which nations alien to this hemisphere will be permitted to penetrate any of these countries.

Thus mobilized, the Western Hemisphere could contemplate the localization of the Nazi movement in Europe alone with vastly less trepidation. As the President pointed out in his speech, the farther the Nazi power spreads itself over Europe, Asia and Africa, the greater the danger to itself and the more certain that the whole structure will ultimately break up into little bits.

An interview with

GEORGE N. PEEK

GEORGE N. PEEK *was born in Polo, Illinois, in 1873. All his life he has been intimately connected with farm problems, and especially with their relation to America's foreign trade.*

In 1933 he was appointed Administrator of the Agricultural Adjustment Act, and during 1934-35 he filled the post of Special Advisor to President Roosevelt on foreign trade. During this same period he was President of the Government Export-Import Banks.

Thus, Mr. Peek speaks as a man whose life has been devoted to those very problems whose solution means so much to America today. His opinion is an expert one. His facts come not only from the most accurate sources available to the government, but also from his own vast knowledge and experience.

QUESTION:

Can Hitler impoverish America? Can he cause an economic collapse in this country by stifling our foreign trade, cutting off our markets, and denying us access to the vital materials we need? Can his slave labor, his barter system, his goldless economy invade us where his panzer divisions cannot? Assertions that Hitler could do those things are made by the war interventionists, including Mr. Wendell Willkie, in a recent statement.* What do you think of those assertions in general?

*"Americans, Don't Be Afraid!" *Collier's*, May 10, 1941.

ANSWER:

HITLER cannot impoverish America by stifling our foreign trade, by cutting off either our markets or our sources of supply of vital materials. To assume that he can is a counsel of unreasoning defeatism. But America can impoverish herself by spending her substance on foreign wars.

One of the presumably convincing arguments put forth by many well-meaning people, as well as by the interventionists, is that although a victorious Germany might find it impossible to invade this country, she could destroy our world trade and force us to trade according to her wishes and on her own terms.

Now comes Mr. Willkie citing this argument as part of the interventionist campaign to take this country into war. He does not advance a

single reason why his views should be taken seriously on account of any special knowledge or experience in the field of trade—foreign or domestic. He advances no new points. Rather, he seems to appear as just another advocate, this time on economic grounds, of the interventionists' campaign—a campaign to involve our country in a foreign war. In this campaign, too, his assertions may be regarded as "campaign oratory."

The arguments of one, however, are the arguments of all. They stem from the self-interests of a few. They are built on a false theory of trade. Therefore, their case will not stand up before a jury of American informed opinion.

QUESTION:

Your statement may be perfectly true, but I think it must be substantiated. You say that the argumenis of the war interventionists are based on a false theory of trade. Now if Hitler were to control a large part of the rest of the world, would he not be in a position to dictate terms to us? Why is that a false theory of trade?

ANSWER:

MY REPLY to their argument has been that we hold the answer largely in our own hands. The same argument could be advanced with respect to Great Britain or other nations. My reply would be the same. Competition is the life of trade and is always a threat in private business, no matter from whom it comes. So it is with nations.

Political control is one thing—economic necessity quite another. Now let us get this straight. There is no difference in principle between foreign and domestic trade, except as restrictions have been imposed upon the entry of goods and the transfer of funds between countries. The war interventionists' theory is that one party to a transaction could dictate all the terms and conditions of the trade between two or more parties. How false! Every man, woman, and child knows better if he will think but for a moment. It takes two parties to complete a trade. The necessities and the desires of each are basic. To assume that one may dictate all the terms and conditions is assuming something which is not so. Therefore, their case rests on a false premise and should be dismissed. As to Hitler's ability to dictate terms of trade to us in the event of a victory—no—that is where economic necessity comes into play. For example:

In 1933 and 1934 we demonstrated that we could trade with other nations to our mutual advantage. Indeed, we made some desirable deals—mutually agreeable ones with France, Spain and Italy—but the Administration refused to continue to trade. The reason given was that to do so would interfere with our trade agreement policy, which was one of international altruism toward every country in the world save one. The real reason, however, was more obscure. In the case of Germany, notwithstanding that her two great necessities were under-

stood to be easier access to raw materials and larger markets for her manufactured products, we denied her both, beginning as far back as 1934. The reasons were social and political. Vice President Wallace now says (Address, Foreign Policy Association, April 8, 1941) "The next peace must give the . . . aggressor nations the opportunity to buy raw materials and sell manufactured goods without discrimination." If the President, Mr. Hull, Mr. Wallace, and the other New Dealers had recognized Germany's legitimate necessities in 1934 and since, instead of declining to trade with her, they might have made a real contribution toward world peace and might have checked the rapid rise of Naziism and thus avoided the danger of American participation in this war.

Desirable opportunities to trade were rejected, also, for one reason or another, with England, Japan, Italy, and other nations. In 1939 we revised this position somewhat when we made an agreement with England to exchange cotton for rubber. No change in basic policy, however, is indicated by this isolated incident, as the President made clear in his message to Congress last January.

QUESTION:

Accepting your statement that it takes two parties to make a trade, what advantages would we have to use against Germany's increased bargaining power? You have shown that grave errors were made and it would have been possible to make desirable trades. But under

German control of Europe and other areas, won't the conditions be so different that former rules will not apply?

ANSWER:

FIRST and foremost in importance is our great market. We have the greatest consuming power in the world. Our purchases from foreign countries support a large part of the economy of many of them. For example:

Latin America produces 90 percent of all the coffee—we consume half of it. Europe, too, depends upon Latin America for her supply—about the same quantity as ours—although she has four times our population.

The Malay States, the Dutch East Indies, and small neighboring countries produce nearly 95 percent of the rubber and, including China, 60 percent of the tin. We use half of the rubber and 40 percent of the world's production of tin.

Japan produces nearly 90 percent of the silk —we buy 90 percent of her exports.

These are examples of the dependency of foreign nations upon our market. Others may be cited, i. e., jute from India, diamonds and gold from South Africa, tea from southeastern Asia, etc.

The economy of such nations does not shift with the flag of the overlord. It relies upon our markets. It does not change with super-political control.

A careful canvass of the world's mineral production discloses that the non-American nations of the world are more dependent upon the western hemisphere than it is dependent upon them.

As an example of the dependency of other countries upon our markets, let us consider a few items:

In the case of rubber, in 1929 we imported 528,602 tons at an average price of 20.5¢ per pound; we paid foreign countries for it $247,420,000. By 1932 our imports had dropped to 393,731 tons and the price to 3.4¢; we paid $34,273,000. By 1937 we had increased our imports to 592,528 tons, and the price had risen to 19.4¢—a total of $252,859,000. The last two years show a greatly increased tonnage on account of our policy of storing up rubber.

In the case of tin, the story is similar. In 1929 we imported 195,165,000 pounds at 45.19¢, or $31,839,000. In 1932 we imported 77,995,000 pounds at 22.01¢, or $16,474,000. In 1937 our imports amounted to 197,377,000 pounds at 54.24¢, or $104,285,000.

This merely shows the necessity and desirability of an active American market for the products of foreign lands.

Then comes the question of technological development and the use of substitutes. Great progress has been made in this field in recent years.

The development of synthetic rubber has progressed to a point where we may say that,

if necessary, we are no longer dependent upon the eastern hemisphere. Within a very few years we could produce our own rubber, as Germany has done. A number of our most important concerns are active in this field.

The same thing may be said of silk—witness the great development of rayon, and now nylon.

We are now preparing to smelt a considerable portion of our tin requirements in the United States from ore coming from Latin America. In addition, important substitutes have been developed from plastics and other materials, replacing tin.

This hemisphere can supply our manganese and potash—the former through the development of machinery and processes of refining low grade ores here and in Cuba, and the latter through the development of our own mines.

These are examples only. There is great progress in other fields.

Trade is a fleeting thing. Conditions and methods change, demand and sources of supply with them. For example, we have seen England abandon the practice of a century as the leading advocate of free trade and the gold standard, and for a decade follow a new policy of tariffs, trade agreements between nations, and managed currency. I do not say that this is or is not the best way to conduct trade between nations, but the point is that that is the way world trade has been trending for more than a decade. We are the only important nation attempting to ignore this fact.

My view is that we must recognize the fact that we cannot prescribe the rules and regulations for all the world. Rather, if we are going to engage in trade with other nations, we should use our strategic advantages to negotiate country by country in our own interest.

We should, of course, keep ourselves in a position to join with other nations in improving methods of trading if and when the time comes that the rest of the world is ready to consider a change. But, in the meantime, we should refrain from playing Santa Claus and from opening our markets recklessly to nearly all the world and so exposing our national economy to influences from abroad over which we have no control. Our need is for *more* defense of our internal economy—not less. We must stop letting foreign prices determine our domestic prices.

QUESTION:

What do you mean by foreign prices determining domestic prices?

ANSWER:

WORLD price very largely determines the domestic price of every crop of which we export a surplus. This price applies to the whole of the crop, whether consumed at home or exported, however much this burden is lessened by Government handouts. Industrial tariffs can and do protect prices of articles for which crop is exchanged. The fair exchange value of the crop is thus reduced in proportion to the protection afforded industry. Therefore, the protective principle usually operates for the benefit of industry and to the detriment of agriculture.

This problem is as old as our history. Alexander Hamilton recognized it and in his famous "Report on Manufactures", written in 1790, after urging a policy of tariff protection for industry, observed that the day might come when it would be necessary to give agriculture an equivalent. He proposed at some future time to offset by subsidy or otherwise the farmer's disadvantage of having to buy in a protected market while having to sell in an unprotected world market at world prices.

Notwithstanding the millions and billions that have been appropriated for agriculture in the last few years, the basic fault remains—while we pay our farmers not to produce, we encourage foreign farmers to produce, not only for foreign markets which we formerly supplied, but for our markets, by making it easier to import. Such a policy cannot be permanent. Its duration will be immeasurably shortened by the vast expenditures we must make for our national defense program.

QUESTION:

If Germany, producing with slave labor, can offer better prices to South America, how could we be able to compete?

ANSWER:

THAT is a trick question. It must be remembered that Germany, and England, too, had a substantial representation in South America

before the war in 1914. There is nothing new about competition with them except in degree. There are many considerations besides price. Design and adaptability of products to do the work desired; terms, delivery dates; personal equation between buyer and seller and numerous other things. Frequently we hear the phrase, "Quality is remembered long after price is forgotten." If price were the sole measuring stick the manufacturer with the lowest price would be selling all the goods, be they automobiles or what. Competition would die, monopoly would succeed it and higher prices might then result.

The answer lies in mutuality of interest between countries so long as governments control the foreign trade of their nationals. Under these circumstances there is only one intelligent procedure and that is to recognize the conditions under which trade is conducted between nations and negotiate country by country for the terms and conditions under which goods may be exchanged satisfactorily. Each country must recognize frankly the needs of the other.

Other things being equal free labor can outproduce slave labor. We made our greatest progress after we abolished slavery—slave labor produces little buying power. We must keep in mind always that American wage levels support our higher American standards of living. They protect the American workers on our farms and in our factories against the lower standards not only of the forced labor of the Axis Powers and Russia but of the lower paid labor of the Argentine Indian and the Chinese Coolie and the cheaper labor everywhere outside the United States of America. The difference is one only of degree. Our wage levels must be insulated against the competition of a world turned upside down.

Perhaps this is not a complete answer but it is difficult to give a complete answer to a trick question.

QUESTION:

In the early part of this interview you referred to the arguments of the war interventionists as stemming from the self-interest of a few. To whom did you refer?

ANSWER:

IN THE FIRST place I referred to the approximately 20% shown by the Gallup poll of the people constituting the interventionists. More specifically I referred to those who profit from international trade—the international bankers, ocean transportation companies, marine insurance companies, importers, et cetera—as distinguished from the industrialists who do some foreign business incidental to their domestic business. All of the latter group must realize that if compelled to choose between a prosperous American market and one periodically shot to pieces by foreign events, they must choose the American markets.

Many Americans will recall that Mr. James P. Warburg of New York wrote two books in

1936 opposing President Roosevelt's reelection. He supported Alfred Landon, but after Governor Landon made his St. Paul speech in which he took a stand for protection of the American market and for real Yankee trading, Mr. Warburg wrote a letter to Secretary Hull saying that in view of Mr. Landon's position he would have to support the Democratic ticket. He is now one of our leading interventionists. This is queer company for the New Dealers who were going to drive the money changers from the temple.

QUESTION:

Can you sum up in a few words what you think our policy should be and what the question boils down to?

ANSWER:

I THINK that all our foreign policies—political and economic—should be related definitely to our American needs and ideals, with the objective of protecting and perpetuating the form of government and the economic policies which have made our country great. Our aim should be to make possible to all Americans the fullest benefits of our form of government as granted by our Constitution and the Bill of Rights. The first requisite to this aim is knowledge based on reliable and comprehensive information, so that we may know what the problems are and consider them fairly. The second is a realization of the principle that foreign policies—whether political or economic—must

not be permitted to destroy or impair either our form of government or our standards of living.

The question boils down to this: Shall we take advantage of our position of geographic and economic security and contribute to world peace and prosperity by developing our own country and by attending to our own affairs, or shall we toss our nation into a common pool in the management of which ours will be only one voice and that not the controlling one? Shall we dilute our nation's strength with the world's weakness?

Added Note

AFTER the preceding interview was completed, the President and Secretary Hull again reiterated their views. The President stated, ". . . International commerce in a world dominated by totalitarianism would never be carried on for the mutual benefit of all . . . Therefore, it is idle for us to talk of future foreign trade unless we are prepared now to defend the principles upon which it is and must be based." This statement is on a par with his grandiose utterance about our enforcing the "four freedoms everywhere in the world."

Secretary Hull sets up five peace points:

1. "Extreme nationalism must not again be permitted to express itself in excessive trade restrictions.
2. "Nondiscrimination in international commercial relations must be the rule, so that international trade may grow and prosper.
3. "Raw material supplies must be available to all nations without discrimination.
4. "International agreements regulating the supply of commodities must be so handled as to protect fully the interests of the consuming countries and their people.
5. "The Institutions and arrangements of international finance must be so set up that they lend aid to the essential enterprises and the continual development of all countries, and permit payment through processes of trade consonant with the welfare of all countries."

If the President's statement and the Secretary's five points mean anything, they mean world free trade, with the United States acting as underwriter and director general even if such fanaticism drags us into war. G. N. P.

Principles of America First Committee

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of England, the other democracies, and the occupied countries.

THESE ARE THE SOLEMN AND SACRED PLEDGES

Made by

THE PRESIDENT DURING THE 1940 ELECTION CAMPAIGN

We Will Not Participate Nor Intervene In Foreign Wars.

"We are arming ourselves not for any purpose of conflict or *intervention in foreign disputes.* I repeat again that I stand on the platform of our party; we will not participate in foreign wars and will *not* send our *Army, Naval* or *Air Forces* to fight in foreign lands outside of the Americas except in case of attack."

"It is for peace that I have labored; and it is for peace that I shall labor all the days of my life."

Philadelphia, Oct. 23, 1940.

The First Purpose of Our Foreign Policy Is to Keep Out of War.

"We look at the old world of Europe today. It is an ugly world, poisoned by hatred, and greed and fear. We can see what has been the inevitable consequence of that poison—it has been war.

"And we look at this country, built by generations of peaceable, friendly men and women who had in their hearts faith—faith that the good life can be obtained by those who work for it.

"We know that we are determined to defend our country and with our neighbors to defend this hemisphere. We are strong in our defense.

"*The first purpose of our foreign policy is to keep our country out of war.*"

Your Boys Are Not Going to Be Sent Into Any Foreign Wars.

"And while I am talking to you, *fathers* and *mothers,* I give you one more assurance. *I have said this before,* but I shall say it *again,* and *again,* and *again, your boys are not going to be sent into any foreign wars.*

"They are going into training to form a force so strong that, by its very existence, it will keep the threat of war far away from our shores. Yes, the purpose of our defense is defense."

Boston, Oct. 30, 1940.

Ships Flying the American Flag Must Stay Out of the War Zones.

"In 1935 in the face of growing dangers throughout the world, your government undertook to eliminate the hazards which in the past had led to war. *We made it clear that ships flying the American flag could not carry munitions to a belligerent; and that they must stay out of war zones.*"

New York City, Oct. 28, 1940.

I Am Fighting to Keep Out of Foreign Wars.

"I am fighting to keep this nation prosperous and at peace. I am fighting to keep our people out of foreign wars and to keep foreign conceptions of government out of our own United States."

Brooklyn, Nov. 1, 1940.

A SHAMELESS DISHONEST FAKE

"In and out of Congress we have heard orators and commentators and others beating their breasts and proclaiming against sending the boys of American mothers to fight on the battlefields of Europe. That, I do not hesitate to label as one of the worst fakes in current history. It is a deliberate setting up of an imaginary bogeyman. The simple truth is that no person in any responsible place in the national administration in Washington, or in any state government, or in any city government, has ever suggested in any shape, manner or form the remotest possibility of sending the boys of American mothers to fight on the battlefield of Europe. That is why I label that argument a shameless dishonest fake."

DANGEROUS AMBITION

Mr. Roosevelt's dangerous ambition always to do what no other President ever did led him to meet Mr. Churchill at sea. As head of a nation at peace he had no right to discuss war aims with the ruler of a country at war. He had no regard for his constitutional duties or his oath of office when he did so. He not only likes to shatter traditions, he likes to shatter the checks and restraints which were put on his office. He is thoroly un-American. His ancestry is constantly emerging. He is the true descendant of that James Roosevelt, his great-grandfather who was a Tory in New York during the Revolution and took the oath of allegiance to the British king. He comes of a stock that has never fought for the country and he now betrays it. The spectacle was one of two autocratic rulers, one of them determining the destiny of his country in the matter of war or peace absolutely in his own will, as if his subjects were without voice.

The country rejects that idea of its government.

On October 23rd, before the election, at Philadelphia the President said: "We will not participate in foreign wars and will not send our army, naval or air forces to fight in foreign lands outside the Americas except in case of attack." On October 30th, four days before the election, he said: "And while I am talking to you, fathers and mothers, I give you one more assurance. I have said this before and I shall say it again and again and again. Your boys are not going to be sent into any foreign wars."

I wonder if these men who talk about pushing us into "war" ever pause to realize what this terrible thing called "war" means. Let me tell you what war will do for us. The flags will fly, the national anthems will ring out, the boys in their new uniforms will march down our bright avenues. The Big Shots of the nation and the towns, the politicians and the generals will be in the reviewing stands, exhibiting themselves, wallowing in the acclaim of the troops and the cheers of the people. But the Big Shots, the politicians and the generals will not die. The dying will be done by the boys who parade. And they will die, not in the bright avenues, but in the fog and smoke of battle, in the stench, the filth, the terrors and the obscenities of the fight upon distant fields in Europe and Asia.

Millions of these boys will be taken from their classrooms, their professions, their work benches in the dawn of their young careers. A hundred thousand of them will die—if we are lucky. More likely a half million will die. A million may be wounded and a vast, melancholy legion of them will live out long, tortured, frustrated lives in veterans' hospitals, armless, legless, crippled, twisted or suffocated by gas, blinded or shell-shocked—or insane. This is what the war will do to the young men. The Big Shots, the politicians, the generals will still preen themselves, run for office and some of them expect statues when they die of old age in bed.

Every man and woman and child, one way or another, sooner or later, will have to pay the incalculable costs of this mad adventure. We will spend a hundred billion dollars—and borrow it—on top of the billions we still owe for the last war and the billions we still owe for the depression.

Taxes will consume your earnings and cripple your business. Vast government loans will impose a paralyzing interest charge of from three to four billions a year —and forever. A gigantic pension system for the new veterans will be reared on top of the veterans' aid burdens of the last war. The prospect of certain inflation will bring all private investment to a stop and end by sweeping away the accumulations of every man's industry and savings.

A great army of bureaucrats will help to manage every man's affairs. They will swarm over your banks, your shops, your stores. They will tell you what materials to use and for what, where to buy them and at what price. They will tell you what you can make, where you can sell it and for what. You will spend half your time seeking permits, getting visas, answering questions, making reports and satisfying the thousand and one demands of the supervisors. They will tax you until your profits vanish, if any remain, they will squeeze them out of you in the form of forced loans.

The gains of labor, the long, painfully acquired right of the worker in his job and his union will be swept away. His labor problems will be settled for him by a man in uniform. And when the war is over these armies of bureaucrats will never be demobilized. And neither will the armies of soldiers. We will have struck down the present economic system with a death blow and these millions of soldiers and civil servants on the public payroll will have become an economic necessity in a society in which private enterprise is dead is dying. The apologists for all this will tell you that this is a "new order". But it will be nothing more than the twilight of American freedom.

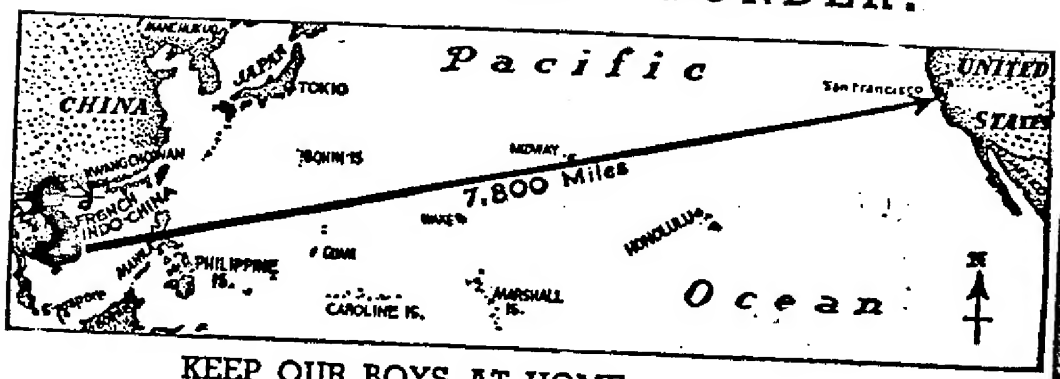
Propaganda for war will conscript our minds. The radios, the papers, the movies and the pulpits will be mobilized, coerced and controlled to teach us when to hate and how to hate with effective energy and whom to hate. We will be urged to spy upon our neighbors, to watch one another with suspicion. Our racial groups living side by side in peace will be torn asunder by old racial hatreds. Our telephones will be tapped, our mail opened, freedom of speech and those other freedoms we talk about bringing to the rest of the world and

all the decencies and dignities of human tolerance which are the very soul of the democratic life will be snuffed out.

And when the war is over and the terrible bills come due and the illusions have fallen from our eyes, we will look around for some scapegoats. And then true Americans, as they behold the reign of intolerance that will degrade us, remembering fairer days, will hang their heads in shame. Our economic system will be broken. Our financial burdens will be insupportable. The great war boom will have burst. The streets will be filled with idle men and women. And the once independent farmer will become a government charge. Our tempers will be frayed. And amidst these disorders we will have the perfect climate for some promising Hitler on the American model to rise to power with promises of abundance and recovery. The peace, the security, the liberties of a whole generation will be destroyed. And we, who set out once again on a fool's errand to remodel the world and bring democracy to peoples who do not want it, especially at our hands, and to save the crumbling fragments of democracy in other lands, will see it pass out of our own country. This is what you are talking about when you talk so glibly about that terrible thing "war".

Therefore I urge you not to cease to fight and to write your senators and congressmen and to make them know that they will take the next step toward war at the peril of their political lives.

WHY WAY OUT YONDER?



KEEP OUR BOYS AT HOME
KEEP AMERICA OUT OF WAR
KEEP OUR PLEDGES TO DRAFTEES — do not force them into bondage as perpetual conscripts to fight and die on foreign fields.

HIS HOUR OF GLORY—FOR WHAT?

REPRINTED FROM THE CHICAGO TRIBUNE

Principles of the America First Committee

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."

2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.

3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.

4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.

5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of England, the other democracies, and the occupied countries.

Should America Fight to Make Europe Safe for Communism?

Herbert Hoover: "It (the Russo-German War) is one-half a dozen more reasons for the United States to stay out of the European war, and, secondly, it greatly releases the pressure on the British."

Senator Robert M. LaFollette, Jr.: "Some interventionists have tried to smear with communism those of us who believe our best interests will be served by keeping out of war. Now the shoe is on the other foot! In the next few weeks the American people will witness the greatest whitewash act in all history. They will be told to forget the purges in Russia by the OGPU, the confiscation of property, the persecution of religion, the invasion of Finland, and the vulture role Stalin played in seizing half of prostrate Poland, all of Latvia, Estonia, and Lithuania. These will be made to seem the acts of a 'democracy' preparing to fight Nazism. The interventionists will scream that now is the time for us to go to war. Will the American people fall for all this? I do not believe it. They will refuse to let Uncle Sam be 'a fellow traveler.'"

General Robert E. Wood: "With the ruthless forces of dictatorship and aggression now clearly aligned on both sides, the proper course for the United States becomes even clearer. This latest development gives dramatic emphasis to the obvious proposition that there can never be a place for the United States in Europe's everlasting strife, and its shifting alliances and enmities."

Senator Burton K. Wheeler: "I don't think the American people will stand for us to tie up with the Communists. I think there is more likelihood now that we can keep American soldiers at home. Now we can just let Joe Stalin and the other dictators fight it out."

American Legion Commander Milo J. Warner says: . . . the United States "should think twice" before sending war material to Russia. "Russia has been and so far as I know still is the breeding ground of Communists, and we just don't like Communists in this country."

Senator Robert A. Taft: "If, thru our aid, Stalin is retained in power, do you suppose that he will spread the four freedoms thru Finland and Estonia and Latvia and Lithuania? Do you suppose anybody in Russia itself will ever hear of the four freedoms? Apparently we are to follow Bundles for Britain with Packages for Petrograd.

Norman Thomas: "The lion has now turned on the jackal and marches Finnish troops against the dictator who assayed the conquest of Finland. We shall watch with interest to see how fast American Communists and the organizations which they control or influence will become propagandists for American entry into the war on the side of those 'Great democracies,' Stalin's dictatorship and the British Empire. We, whose concern has been to keep America out of war in order to make our own democracy work and whose interest is in peace and not in Stalin, see in the tangled course of events new reason for maintaining the fight to keep America out of war."

Senator Bennett Champ Clark: "Can any one conceive of American boys being sent to their deaths singing 'Onward Christian Soldiers' under the bloody banner of the hammer and sickle, the emblem of the cruel extirpation of all religion?"

John T. Flynn: "If Germany wins, Russia will go Fascist. If Russia defeats Germany, Germany will go Communist. There is no choice for us at all. The question now is, are we going to fight to make Europe safe for communism?"

Let's Keep Out of Europe's Eternal Wars!

WHY THIS WAR

It was in 1791 that full rights of citizenship were granted to the Jews in France. This was the first legislation to relieve the Jewish race from inferior recognition. Before this date they had no rights of citizenship and were not permitted to hold political office in any European country.

In Germany legislation was passed in 1812 granting citizenship to the Jews, but it was not until 1848 that emancipation for the Jews was really established.

In England pressure for the emancipation of the Jew attained prominence in 1830 and in 1858 the first Jew was permitted a seat in the House of Commons.

In Austria the fight for Jewish equality started in 1848 and succeeded in 1867. In Hungary from 1840 to 1849, Denmark 1831 to 1849, Italy 1848 to 1859. In Belgium the Jews were liberated in 1815. The Constitution of the United States in 1787 made no distinction as to the rights of Jews but some of the thirteen Original States had laws restricting Jews as political office holders. The last of these, North Carolina, did not fully recind this law until 1868.

The Jewish race, which is estimated to include about 18,000,000 people, is spread throughout the world, the largest number living in the United States which has a Jewish population of about 8 to 10 million. Russia had a Jewish population of about 7 million a generation ago but since then several million have emigrated to the United States. Since the spread of Communism with which they are prominently associated, large numbers came here from other European countries.

Ever since the advent of Naziism and Fascism it has been increasingly difficult for communistic Jews to live in Europe. They are harassed and driven out of political positions and big business. Many have had their fortunes confiscated and their rights as citizens cancelled. Naziism and Fascism have spread to a number of countries and wherever these doctrines exist, the Jewish people are being deprived of their rights as citizens. So it seems that the European Jew is being thrown back to the days before 1791 when their emancipation first got foothold.

It is of course, natural that Jews the world over shall band together to destroy the isms that are so relentlessly against them and to use their powerful influence wherever possible to destroy the forces that seek to take away the freedom they have enjoyed in the past hundred years.

According to German claims, Jews are being harassed because of the control they achieved in government politics, the law courts and in general economics. Also because of their promotion of the communistic elements in that country.

Ever since their emancipation, the Jews in Germany have grown in power. Before the world war there were approximately six hundred thousand in Germany, about one per cent of the population. They were well thought of and under the Kaiser, shared in the development of the German Reich. However, after the world war and especially later, when the Germans were in the throes of tremendous financial and political difficulties, they took undue advantage of the German people to such extent that they finally had political, financial and economic control over them.

The Jews became obnoxious to the Germans and were despised everywhere. This situation culminated in the creation of the Nazi party which took strong measures to expel the Jews from political office as well as from the law courts, educational institutions and big business.

The anti-Jewish feeling spread to other countries in Europe and a great many Jews came to the United States where the powerful Jewish element put terrific pressure on the government to use all of its resources in an attempt to destroy those European factions that are against them.

Ever since 1932 an anti-German attitude has been promoted in the United States with ever increasing viciousness. Our highest government officials have preached vengeance on the Germans and have vilified them. Only lately a prominent Senator, in a vehement outburst, delivered over the radio, said among other things, that the Germans were under orders to use their unmarried young women to produce cannon fodder for the Nazi's. He also made the villianous statement that the Germans are denouncing God.

A universal boycott of German goods and drastic restrictions of trade were the immediate weapons. A destructive war on Germany was however the ultimate goal and this they achieved by propaganda in England, France and the United States, when England declared war because the German people in their ambitions to correct the wrongs of the Versailles Treaty sought to join the City of Danzig with the German Reich.

For great nations to go to war over a matter so trivial seems absolutely silly. That incident was however only an excuse for the Jewish propaganda machine which expounded the Germans to be

a frightful people and aggressors whose aim it is to dominate the world. During the Danzig incident and before war was declared by England, Jewish propaganda had so incited the Polish people against the Germans that a peaceful settlement became an impossibility. Through intensive propaganda instilling fear in the minds of people, that the Germans were out to conquer the world, Jewish interests were finally successful in having war declared on Germany.

Since this war has progressed the Germans, although with successive victories to their credit, have made several peace overtures to stop this terrible carnage. It is reasonable to think that with the military power and economic resources of the United States in the back ground, satisfactory peace terms could be made with Germany. But evidently the Jewish demand for total destruction of Germany is so strong that the war must go on regardless, - even if it means the destruction of Europe and ultimately leads to our own economic disaster.

Although the Axis powers have refrained from any action that could give this country the least provocation to warrant its entry into the war, our government has now occupied an independent European Island which is in the midst of the British-German war zone, and dares Germans to interfere with, or sink, any United States ship in that war zone.

It is unfortunate for this country of Washington and Lincoln that the Rosenmans and the Ben Cohens are the sought for advisers and collaborators of our highest government officials and that these men and others of their race who now occupy the most important and influential positions in our government, should at this time guide our destinies.

It must be plain to everyone that people of the Jewish race cannot be impartial in this world conflict. They should and they must defend themselves and do all they possibly can to correct that which seeks to take away their liberty. It is unfortunate however that this must be done by force of arms, and that the world must go to war on their account. Seems that we are back in the centuries before Christ when in that small world there were constant wars over the Jews who were even then alternately in subjection and free.

In these enlightened times one would think that the internal difficulties of one nation could be adjusted without the whole world going to war in an attempt to destroy that nation. We should know by now that international vengeance cannot succeed in correcting an unwelcome national situation. The experience of the effect of the Versailles Treaty should have taught us that an intelligent and progressive nation cannot be held in subjection by force.

The Jewish people in Continental Europe have received a serious setback but they can again achieve their rightful place there when the present feeling against them subsides in a natural way. A war bred of vengeance will not save the situation - it will only make it worse.

[redacted] stated that they were very emphatic in pointing out that the Committee is interested only in any activities which may keep America out of war and that they are very definitely in favor of the national defense program. These individuals stated to [redacted] that under no circumstances, would they allow any literature or letters be sent out to Draftees, their wives, or families which would in any way be detrimental to their morale. They advised that the literature and letters which they are sending out are copies of speeches made by such men as Senator Wheeler and MR. CHARLES A. LINDBERGH as well as from the America First Committee urging people to write their Congressmen to oppose any Bills which they feel might lead the country into active war.

The America First Committee is also urging people to write the President of the United States to remind him of his pleadings to keep this country out of the European conflict.

[redacted] stated that if any attempt were made by persons affiliated with the Committee to send out any letters or literature to Draftees, that the entire Committee would rise up against such a movement and if necessary would disband completely. [redacted] further stated that in the event this country should enter the war, the America First Committee would be immediately disbanded.

[redacted] he was thoroughly convinced that the Committee, at least in Chicago, was sincere in all the above statements.

Efforts have been made through Confidential Informants of the Chicago office working on Communist activities to secure any further information in the above matter with negative results.

Director 8/30/41

There is apparently no grounds to believe that the Communist Party is taking part or instigating any such activity on the part of the America First Committee.

Subject: Pro-Nazi Activity Relative to Conscripts and National Guardsmen

Summary of Information:

1. The following information which comes from Youngstown, Ohio, under date of July 27, 1941, is submitted for your files.

2. "Pro-Nazi circles have been concentrating their agitation opposing any extension of the one-year service for conscripts and national guardsmen, yet as a whole the general public favors keeping the men in service as long as the present emergency exists. It is stated by fathers who have sons in the service at Camp Shelby that much of the agitation against extension of the one-year service comes from national guardsmen and conscripts who have been used to fill up the quota. An official of a local insurance agency states that he has received word from his son at Camp Shelby that the actions of the soldiers there is disgraceful, that on several occasions the President was hooted.

3. "Most of this agitation comes from the America First Committee and the publicity given Wheeler and others. Many citizens express the opinion that the proper way to handle Wheeler and his associates is to give them absolutely no publicity."

AMERICAN FIRST COMMITTEE- Italian Fascist Infiltration.

As generally know the policy of this committee is to keep America out of war and it is therefore against any aid to Great Britain, Russia, China or other nationals now waging a defensive war against the Axis powers. Senator Burton Wheeler and Charles A. Lindbergh are two of the most outstanding orators in putting over the program of the subject committee. While no one doubts the sincerest of these two individuals, yet unconsciously, they are giving aid and comfort to the Axis powers and their fifth columnists in the United States.

Evidence has been received of an Italian Fascist infiltration into the AMERICA FIRST COMMITTEE. Thus there has been established the BURTON WHEELER MARINA DISTRICT CHAPTER of the AMERICA FIRST COMMITTEE at San Francisco, California The chapter predominantly Italian has been addressed by individuals prominent in the Italian American colony in San Francisco. One of the speakers, Renzo TURCO, an attorney with offices at 550 Montgomery Street, San Francisco, California demanded U.S. neutrality in Asia as well as in Europe. TURCO on January 18th, 1941 was the leading figure during a banquet held under the auspices of the San Jose Chapter of the Italian War Veterans. Turco is a member of the Orders of the Sons of Italy and attended a bund meeting on May 30th, 1938.

Another chapter of the subject committee is known as the William PACA chapter and meeting at the Fugazi Hall, 617 Green Street, San Francisco, California. The Burton Wheeler Marina District Chapter meets in the Disiano Hall, 2453 Lombard Street, San Francisco, California. The Paca Chapter is also Italian in character. A Mrs. Maria G. PUCCETTI of 712 Tennessee Street, San Francisco, California is chairman of the Paca Chaptor which holds a meeting each week.

While it is appreciated that the information only concerns the 12th Naval District and the local representatives of FBI and MID in that area, the information concerning the activities of these two chapters and the individuals connected with them, has been set out in detail to show the method of infiltration of the Italian Fascist groups in to the subject committee.

In view of the foregoing it is suggested that in districts where it is reported that new chapters of the subject committee are being formed, such information should be immediately transmitted to the local representative of MID and to the local agent of FB I for information and investigation to determine the extent, if any, of Italian Fascist infiltration into the subject committee. There ~~xxxx~~ is no question that a check as to the identity of Italian-Americans interested in such chapter will uncover information as to their allegiance to the Italian Fascist cause.

Re: AMERICA FIRST, INC.
INTERNAL SECURITY

Dear Sir:

Please be advised that this office is in receipt of the following communication from Colonel W. T. Bals, Office of the Assistant Chief of Staff, Military Intelligence, Headquarters Seventh Corps Area, Omaha, Nebraska, dated August 29, 1941:

"SUBJECT: America First, Inc.

TO: Intelligence Officers and FBI Agencies Seventh Corps Area.

The following extract of a confidential report received at this office is quoted for your information: SEE U

'The organization was the brain child of R. Douglas Stuart, Jr., a 24 year old law student of Yale University in 1940. He is the son of the First Vice-President of Quaker Oats Company. The first person contacted when the Committee was formed was Colonel Lindbergh, and the second was Earl Browder. These people met with Stuart, and later on General Robert Wood, head of Sears & Roebuck, Chicago, Edward L. Ryerson, a director of Inland Steel, Mrs. Jeanette Ayer Fairbanks, a wealthy woman, and Chester Bowles, Chairman of Benton and Bowles, an advertising agency, made up the picture. Soon William Castle, under Secretary of State in the Hoover cabinet, and alleged master mind behind Lindbergh was added. Then Senator Wheeler and Senator Bob Taft. At the start this organization had a tremendous amount of money despite the claim that they never accepted more than $1,000 from any one person. In the east, Thomas N. McCarter, former chairman of the Public Service Company of New Jersey, is one of the leading lights. He is the contact man for Joe Pew, millionaire Republican boss of Pennsylvania. Henry Ford is one of the bigwigs of this Committee, as is J. C. Hormell, millionaire Minnesota meat packer; Kathryn Lewis, the daughter of John L. Lewis, is one of the active members. For the Catholic element there is John T. Flynn, Father Coughlin, John O'Connors. Another man in the limelight is General Hugh S. Johnson. Others are Alice Roosevelt Longworth, Amos R. Pinchot, former Governor of Pennsylvania and Lewis J. Taber. Secretly there is a tremendous Jewish group backing the America First Committee. This group has as its front the Guggenheim Foundation, and the

Committee was quietly subsidized for tremendously large amounts of money. The Guggenheim interests have always fronted for Lindbergh.

'America First was set up because of the hatred for President Roosevelt and its purpose is to do everything possible to embarrass him and the Army in the United States. Mrs. Wheeler, wife of the Senator, is bitterly anti-Semitic. She is a stockholder of the Chicago Tribune, and Colonel McCormick, the Tribune owner, has as his stooge Harry Jung, head of the American Vigilante Intelligence Federation, and strongly pro-Nazi and anti-Semetic. Mrs. Wheeler, Harry Jung and Colonel McCormick are using America First as a sounding board for anti-Jewish propaganda. In this connection Father Charles E. Coughlin of Detroit and the Christian front organizations have just recently been officially welcomed into America First by General Wood, another stockholder of the Chicago Tribune.

'America First has a lobby strictly anti-Roosevelt in Washington. This lobby is composed of William Castle and Alice Longworth, John L. Lewis and General Hugh S. Johnson. All are bitter enemies of the President. This group has figured out a way to reach the President with the most bitter attacks in the history of the world. The Hatch Act would not permit large political contributions to campaign funds, so this organization, America First, has its worst enemy in President Roosevelt and consequently anything he attempts, no matter what it concerns in respect to war, will be attacked by America First. In other words, this group is cooperating with every branch of anti-war groups such as the IRA, Christian front, anti-British, Catholic group, German group and every pacifist group in the country.

'This is one organization that will always have to be watched. From the Communist angle, William Castle has on his payroll William Sanger, a former Communist, Stalin school graduate. Sanger now receives $250 a month and is located in Washington, D. C.

'It must be remembered that America First has plenty of money back of it in General Wood, Mrs. Jeanette Ayer Fairbanks, Frank O. Lowden, Thomas M. McCarter, Edward L. Ryerson and Pew, who controls the Sun Oil Company in New York. The bitterness which Castle, John

> others has against Roosevelt is such that they would not deviate one inch in fighting everything that the President wants or attempts, and consequently the British suffer to a great extent."

The above is furnished for the information of the Bureau. No doubt, the Bureau has already received more detailed information regarding the activities of the America First Committee.

In some of my previous reports I made reference to initial moves instituted by notorious anti-Semites for the formation of a Nationalist Party.

This impression was related to me in hints without any definite or conclusive proof that a movement of that sort is in the offing. From several sources those rumors came to me, some reliable, some based on gossip, that something big is being manufactured to be built around Colonel Lindbergh.

Strong indication pointed to the fact that wide spread anti-Semitic activities are now being promoted in Detroit, and Chicago, which convinced me that they are a definite part and parcel of a nationwide program well engineered and amply financed.

In making considerable inquiries on this subject, I ascertained that they are centered around the American First Committee, at least as far as this territory is concerned, and behind the so-called peace program and the isolationist attitude of the America First Committee, there is something more deeply rooted and sinister. Of course, there is no question that the leading exponents of organized anti-Semitism have rallied around the America First Committee, and as far as far as Detroit and Chicago are concerned, they are the principal mainstays of that movement.

In my recent inquiries concentrating particularly on the gatherings sponsored by the America First Committee, leaflets, booklets, pictures and even books, such as Elizabeth Dilling's "The Octopus" are widely distributed.

Forums addressed by well known speakers allied with the so-called Nationalist Movement in America, are meeting with tremendous success, and to accommodate the large influx of crowds, they are now being transferred to open air gatherings.

The works of Father Coughlin, Edmondson, Winrod, Colonel Sanctuary's "The Hidden Hand", Hudson's "America in Danger" are freely and profusely distributed. Every subterfuge is being used and utilized to inflame the masses against the Jewish race.

Today I came into the possession of some startling information, which of course, calls for some further inquiries and verification, but of sufficient importance to call your immediate attention and submit it to you in the form in which I obtained it. The story is that the financial backer of this country wide anti-Semitic movement is HENRY FORD with Charles Lindbergh as the national leader; that the intermediary between Henry Ford and Lindbergh is Major Thomas Lamphier. This major

100-4712-139

105673

resigned from the Army, having been the commanding officers of the Selfridge Flying Field and subsequently employed by the Ford Motor Car Co., as a contact man, and it is this major who is acting in behalf of Henry Ford in his relationship with Lindbergh and other leaders of anti-Semitism in America. It is further claimed that on or about July 30, 1941 at the Lee Plaza Hotel, Detroit, Michigan, a very important meeting took place ostensibly arranged by Major Larghier in behalf of Colonel Lindbergh, but without his personal participation. It is further claimed that more than a dozen men attended this gathering, two from San Francisco, one from Pittsburgh, two from Washington, D.C., one from New York, one from St. Louis, two from Chicago and a personal representative of Lindbergh's. According to my informant this gathering discussed a variety of questions, all of them centering around the Jewish question. He classifies those discussions as follows:

1. The planning of nation wide anti-Semitic drive, using pamphlets, booklets and radio under very auspices.
2. The tying in the anti-war sentiment of the American people.
3. The exploitation of the coming tax burden stressing the influence of Roosevelt's Jewish advisors.
4. Slum housing largely controlled by Jews.
5. Corruption by Jews of local law enforcement agencies.
6. Propaganda among negroes on the basis that the colored tenants are victims of exorbitant rent raising by Jewish landlords.
7. Activities of the Jews in the communist party, in the pawn shop business, small loan business and motion picture industry.
8. The nation's resources control placed in the hands of Felix Frankfurter, Henry Morganthau, Barney Baruch and Lilienthal of the T.V.A.
9. The predominance of Jewish appointed ambassadors.
10. The formation of a Nationalist Party with an official pronouncement relegating the Jewish race to a subservient stage.
11. Recognition of Colonel Lindbergh as their national leader and the utilization of the America First Committee organization as a recruiting agency for this coming nationalist party.

You can readily see that this is a diabolical plan which definitely fits in to the various pronouncements made by the smaller fry, who have been active along those lines for the past several years. At the meetings of the Nationalist Worker's League, the formation of a nationalist party is a live topic of discussion. Similar sentiments I encountered in Chicago. All these incidents preclude the possibility of a gathering such as the one described in the Lee Plaza Hotel. I am now trying to identify some of those who were present at this meeting, which I will send to you

CONFIDENTIAL

105674

Supplementing my report embodying information on the Leo Plaza Hotel conference, I herein submit the names of three participants of that conference. One Rodgers or Rogers from Minnesota, Webert or Weibert alleged to be connected with the Mid West Forum and one Fleming who is a resident of Washington, D. C. representing the Ford Motor Car Co. in a capacity of a lobbyist.

Greetings.

Will you kindly refer the enclosed "America First" letter to the proper Officer of the Federal Government. I believe everyone of these fellows who are posing as patriotic Americans but who in fact are doing so much to raise the morale of the Nazis and thus endanger our Country, should be investigated. I have no doubt that many of them are undercover agents of a Foreign Government.

With kindest regards and best wishes,

Sincerely yours,

Dear Member:

The AMERICA FIRST COMMITTEE of the Bay District calls to your attention that a WAR is in the making, a WAR that will take our boys to a foreign land, a WAR which some speechmakers paint as a glorious adventure, but which we know to be GRIM and HORRIBLE.

WAR will come to America if people sit back in their easy chairs and do nothing to prevent it.

AMERICA FIRST LEADERS believe that if we are successful in holding the interventionist "BLITZ" for another six months, we shall have witnessed such confusion in the interventionist ranks and such evidence of the crazy WAR girations abroad that it will convince every American of the folly of our participation.

Through the efforts of the AMERICA FIRST COMMITTEE to date we have prevented CONVOYS, stopped the President's WAR SPEECH, held off an A.E.F. and won over to the AMERICA FIRST ideals TWENTY new SENATORS and CONGRESSMEN in the past week. The bare ONE vote majority in the house for the draft extension speaks volumes.

Although the Bay Cities Chapter of the AMERICA FIRST COMMITTEE is young, it is growing rapidly, thanks to the support of those of you who joined up early. We must reach everyone in this area who feels strongly about this burning question. Now this takes MONEY.

You who are in this fight are the voice and hope of the 80 percent of the people of America who are for PEACE, and knowing you support our ideas we are counting on a generous contribution now and an indication of how much you can give weekly or monthly to carry this fight forward for another six months. Your pledge of future financial support will enable us to budget our expenses and open a headquarters in Santa Monica to instill in the minds of the people in the Bay District that there is a National Organization fighting for PEACE.

Please mail your contribution, preferably by check or money order, to Post Office Box 748, Santa Monica, and it will be acknowledged by our Treasurer.

Yours truly,

AMERICA FIRST COMMITTEE

You have made a gross error in addressing to me a communication with the salutation: "Dear Member,"

The America First Committee as at present constituted is a grave menace to the security of our Country. Every word your principal speakers, Lindbergh, Wheeler and even little Nye utter, gives cheer to every Nazi in Germany, from Hitler down, not to mention the Nazis and Nazi-sympathisers who seem to make up the greater part of the audiences of the said Wheeler, Lindbergh, Nye, and the thoroly misguided and senseless Holt, who you say will speak here soon. I have heard, over the radio, without one word of disapproval from Lindbergh or Wheeler, your Nazi sympathisers hiss and boo the names of patriotic Americans like Willkie and Roosevelt, and the name of Winston Churchill who has brought so much grief to Hitler,- but I have never heard your audiences boo or hiss the name of Hitler, or even that of the almost forgotten Mussolini. Why is this? Do your supporters want Hitler to win? I shall say this, and it is my firm conviction: Every word and every act, of which I have heard, by any member of your organization has encouraged the Nazis, and thus endangered all Democracies. Not one word nor one act, of which I have heard, on the part of any member of your organization, has encouraged the American defence workers, or the men in our Army, Navy and Air Forces.

Any man who belongs to an organization that welcomes to its audiences unpatriotic men and women who boo and hiss the President of the United States, and who boo and hiss the name of the patriotic Willkie, who fought against the same kind of Military Machine in the last War as Churchill and his people are fighting now, and who never utter one sound of disapproval when Hitler's name is mentioned, [redacted] as Wheeler called him recently, "the little dictator", should, in my opinion, be investigated by the F.B.I. which is doing such fine work in ferreting out saboteurs and traitors. We are a patriotic people, [redacted] Wars, the Spanish-American, and the first World War. It is too bad we were not allowed to destroy [redacted] the burning military madness which again threatens every country on earth. And we been permitting [redacted] that thing, and Willam Forrest was a necessary thing [redacted] do, who like you would not be in a position now to [redacted] for encouragement of the most brutal military machine [redacted]

MEMORANDUM FOR MR. KRAMER

RE: AMERICA FIRST, INC.
National Office - 141 W. Jackson Blvd., Chicago, Illinois
New York Office - 515 Madison Ave.

The following information concerning the above organization was obtained from an outside unknown source dated at New York, New York, on August 4, 1941.

This organization was originally planned by R. Douglas Stuart, Jr., 24 year old law school senior in 1940 at Yale University. He is the son of the first vice president of the Quaker Oats Company. The first person contacted when the committee was formed was Col. Lindbergh, and another was Earl Browder. These people met with Stuart and later on General Robert Wood, head of Sears-Roebuck Company, Edward L. Ryerson, a director of Inland Steel; Mrs. Jeanette Ayer Fairbanks, a wealthy woman; and Chester Bowles, chairman of Benton and Bowles, an advertising agency, made up the picture. Soon William Castle, Under-Secretary of State in the Hoover Cabinet and the original master mind behind Lindbergh was added, then Senator Wheeler and Senator Bob Taft. At the very start this organization had a tremendous amount of money on hand, despite the claim that they never accept more than $1,000 from any one person.

In the East, Thomas N. McCarter, former chairman of the Public Service Company of New Jersey, is one of the leaders, and he is said to be the contact man for Joe Pew, the millionaire Republican leader of Pennsylvania.

Henry Ford and Jay C. Hornell are members of the Committee. Kathryn Lewis, the daughter of John Lewis, is one of the active members, and for the Catholic element we find John T. Flynn, Reverend Father Coughlin, and John O'Connors. Other members are General Hugh S. Johnson, Alice Roosevelt Longworth, Amos R. Pinchot and Louis T. Taber.

Secretly there was a tremendous Jewish group backing the America First until just recently. This Jewish group had as its front the Guggenheim Foundation, and the committee was quietly subsidized for tremendous sums of money. The Guggenheim interest has always fronted for Lindberg, but a few weeks ago the Jewish group withdrew all financial support. A number of the members of the committee quietly withdrew or became inactive. This was due to three reasons. U

1. America First was set up because of the hatred for President Roosevelt and the purpose was to do everything possible to embarrass him in every way possible. U

2. Mrs. Wheeler, the wife of the Senator, is bitterly anti-Semitic. She is a stock-holder of the Chicago Tribune, and Col. McCormick, the Tribune's owner, has as his man Harry Jung, head of the American Vigilante Intelligence Federation, who is also strongly pro-Nazi and anti-Semitic. It is alleged that Mrs. Wheeler, Harry Jung and Col. McCormick are using America First as a sounding board for anti-Jewish propaganda. In connection with this, Father Charles E. Coughlin of Detroit and the Christian Front Organization have just recently been officially welcomed into America First by Col. Wood, another stock-holder of the Chicago Tribune. U

3. America First has a lobby strictly anti-Roosevelt at Washington. This lobby is comprised of William Castle, Alice Longworth, John L. Lewis and General Hugh S. Johnson. Each and every one of these are bitter enemies of the President. U

This group had to figure a way to reach at the President through probably the most bitter attacks in the history of the world. The Hatch Act would not permit large political contributions to the campaign funds, so this organization, America First, has as its base enemy President Roosevelt, and consequently anything he attempts, no matter what it concerns in regard to war and Britain, will be attacked by America First. U

In other words, this organization which is cooperating with every branch of anti-war groups, such as the I.R.A., Christian Front, anti-British, Catholic groups, and every pacifist group in the country, make it an organization that will always have to be watched. U

From the Communist angle, William Castle has on his payroll William Sanger, a former Communist Stalin School graduate. Sanger now receives $250 a month and is located at Washington. U

When the present Pope who then was Papal Secretary, was in the United States on a visit, he confided to certain members of the church that he thought that the American priests, outside of the Irish, were a lazy lot. Since then a peculiar thing happened that makes one consider. Cardinal Dougherty of Boston sev rely criticized Father Coughlin and tried to have him removed. Cardinal Dougherty went to Rome on the matter. In the meantime, Coughlin started an attack on the Jews and the British, and he was only mildly chastised for his actions, and ever since he has been on the war-path now that the Irish groups in the Catholic Church and the Knights of Columbus have become very bitter and active against Britain and Roosevelt, and no one is saying a thing to them. They are running wild, and ex-Congressman John O'Connor, one of the most staunch friends of the I.R.A. has been acting as attorney for Coughlin's organization, the National Union for Social Justice.

The America First has a great fortune back of it. Among the monied people are General Wood, Mrs. Jeanette Ayer Fairbanks, Frank O. Lowden, Thomas N. McCarter, Edward L. Ryerson, and Pew who controls the Sun Oil Company.

Respectfully,

K. R. McIntire

To the President of the United States.

Washington, D.C.

Honored sir;-

As a loyal American I feel it is my duty to report an experience I had the other evening. On the corner of Fifty-seventh Street and Ninth Avenue at about ten o'clock I happened to pass by an ordinary saloon where I heard a lou voice holding the attention of several hopelessly drunk men and women. I was curi to see what was going on and so ventured in and,to my utter disgust,found a man who said his name was John Cram,collecting signatures from those men and women,on a petition to block the United States from giving any help to the Allies. He dis-tributed pamphlets of the American First Committee and wrote on them the names of senators and congressmen to whom they should send their protests.

Those persons,---eleven of them---to whom he was appealing, were in condition to reason or to know what it was all about. It is deplorable enough to get sober persons converted to hatred and intolerance and to solicit for such a petition the names of persons under the influence of alcohol is a dastardly crime

I talked to this Mr.Cram and told him,in an effort to gain informat how I admired his untiring efforts to rid this country,as he put it, of present war-mongers and told him I would like to help in my way,asking what I could do. He replied that I could come to the American First Committee meetings and act as a sort of "storm trooper".Then I asked"What do you men by storm trooper",he answered,"You could help rid our meetings of hecklers,Jews,and so forth",and adde "There will be plenty of others to beat those to a pulp"

This is how the American First Committee gets members,Honored Sir. They stop at nothing to undermine this wonderful country of ours.

RAMENTO BEE, MONDAY, SEPTEMBER 15, 1941

Group Score Shooting Edict Of Roosevelt

CHICAGO, Sept. 15.—(UP)—Robert E. Wood, national chairman of the America First Committee, announced last night an "independent group" of fifty eight "prominent Americans" had united in a public condemnation of President Roosevelt's address last Friday as a "grave threat to democratic principles of majority rule."

The group included former Governors William H. (Alfalfa Bill) Murray of Oklahoma and Philip La Follette of Wisconsin, Alice Roosevelt Longworth, Charles A. Beard, historian; Irvin S. Cobb, writer; President Ray Lyman Wilbur of Stanford University; George N. Peek, former chief of the Agricultural Adjustment Admanistration, and several persons prominent in the America First Committee.

Statement Of Group

"The President has decreed that shooting shall begin," the group's joint statement charged. "His edict is supported neither by congressional sanction nor by popular will."

Roosevelt's speech was an open challenge to the authority of congress, the statement said, and the committee called upon congress to "reassert immediately in unmistakable terms its historic guardianship of our lives and liberties."

Unless congress acknowledges the challenge, the group declared, it must "submit to the imminent prospect of an undeclared war.

"The president's speech of September 11th presents a grave threat to the constitutional powers of congress and to the democratic principles of majority rule. Our congress cannot ignore this challenge."

Wood, serving as chairman of the group, said Roosevelt's "shoot on sight" order to the navy and air force "undermines the constitutional provision which gives the war power to congress alone."

Committee Members

Among the committee's members were:

General Johnson Hagood, former 6th and 7th Corps Army commander, retired; John T. Flynn, New York economist and writer; Vice President William L. Hutcheson of the American Federation of Labor; Kathryn Lewis, executive assistant to her father, John L. Lewis, United Mine Workers (Congress of Industrial Organizations) president; Mrs. Burton K. Wheeler, wife of the Montana senator; Kathleen Norris, novelist, and Herbert K. Hyde, Oklahoma City, chairman of the resolutions committee at the 1940 Republican National Convention.

Ripley, cartoonist; Gerald Shaughnessy, bishop, Seattle, Wash.; Claude K. Boettcher, Denver, financier; Samuel Hopkins Adams, New York author; Mrs. Ruth Tanna Simms, former Illinois member of congress; former Representative Samuel B. Pettengill, South Bend, Ind.; Robert R. Young, Providence, chairman of board, Allegheny Corporation, and Amos Pinchot, New York attorney.

Educators Included

Rev. Samuel K. Wilson, president, Loyola University, Chicago; Rev. John A. O'Brien, Notre Dame University; Joseph Scott, California attorney; Dr. Charles C. Morrison, editor of the Christian Century, Chicago; Janet Ayer Fairbank, Chicago author; Edward Price Bell, Mississippi, author; Thomas S. Hammond, president Whiting Corporation, Chicago; Most Rev. Wilbur E. Hammaker, Methodist bishop, Rocky Mountain States, Denver; Otto A. Case, treasurer of State of Washington; William G. Dennis, president of Earlham College; Porter Sargent, Boston publisher; John L. Wheeler, California attorney.

John G. Mott, chairman of board, Associated Telephone Company, California; Rev. Frank B. Fagerburg, religious author, California; Dr. Clarence Manion, dean of law school, Notre Dame University.

Capper Holds U. S. Must Back Roosevelt Act

WASHINGTON, Sept. 15. — (AP) — Senator Capper, Republican of Kansas, said President Roosevelt has initiated an "undeclared war" which "the congress and the people of the United States must and will support."

The Kansas, who has been critical of administration foreign policy, discussed in an address transcribed for broadcast over station WIBW of Topeka, Kan., the president's order for the navy to shoot first at axis raiders in American defensive waters. Copies of the address were released here.

He declared:

Shooting on sight is not short of war. Shoot on sight is war, and no carefully chosen words in explanation can make such an order anything else.

For weal or woe the United States and the people of the United States are involved to whatever extent President Roosevelt has gone to implement his policy of national defense.

My own position is simply this: For myself, I will support the national defense program, as I have been doing. The United States must be kept a free and independent and powerful nation and the people of the United States must and will support that action. There is no other course of action open to us.

Dear Mr. Hoover:

I want to be fair with you in expressing my opinion of your department. I'm not aiming to paint any rose colored picture — it is simply the viewpoint, as I get it, from the public. You may wonder why I'm telling you this, but first allow me to continue:

INDEXED RECORDED

FEDERAL BUREAU OF INVESTIGATION
U.S. DEPARTMENT OF JUSTICE

[redacted] b7C

To start with I am a columnist and I travel a circuit two hundred SEP 19 1941 east, west, north and south in central Illinois, right in the midst of the German-Dutch communities. I'm a German-Dutch descendant. In my travels I see the public's re-action to your department's "who dictates Lindbergh's speeches?" Lindbergh must transmit important information to Berlin, because they know Washington's developments before the public knows them. I hear another says:— "F.B.I. has that sort of thing well in hand," and the rest agree.

EX-4

In fact, I can truthfully say that the public has unlimited confidence in you and your dept., and what goes on inside the minds of the public also goes on inside my mind — I hope I've made myself clear; now for the purpose of this letter.

1. Who writes Lindbergh's speeches?
2. Does he really have a transmitter?
3. Why does he frequent the Nazi trenk?
4. Why did he rush back to America in 1939 after asserting that this was an unfit country to live in — he was afraid of kidnaping?
5. Why did he wait till after the German and Italian Consulates were closed to offer himself for investigation?
6. Why is Vieck permitted to remain here after his subversive acts during wwi 1 & 2?
7. And why is Lindberg so closely connected with Vieck?
8. (1) Why does Lindberg ape Hitler's speeches?

I hope to get positive answers to the above, also, permission to petition a Congressional investigation of certain isolationists, the America First, including Lindbergh. How about it?

Yours,

Labor Day Is Mockery!

By Westbrook Pegler

NEW YORK, Sept. 6—Of course, Labor day orations often are low political frauds, uttered in the interests of scheming men, but the power of tradition and publicity are great and it would be a shame to let the perpetrators get away with their cynical imposture unchallenged.

Labor day no longer is a festival of those who do the work, but a day devoted to the mocking of the betrayed, to self-approval and mutual admiration by sordid conspirators who boss the unions and to the flattery of evil men by politicians, high and low.

It is as though Adolf Hitler were to select some historic day of solemn patriotic meaning to the Czechs and humiliate them by howling to the silent helpless masses that he and his political agents had freed them from themselves.

Last Monday was a day of indecent sneering at millions of voiceless Americans whose right to work and select their own bargaining agents has been revoked by despicable cunning, whose wages have been chiseled of exorbitant taxes in the guise of dues and permit fees, who have been ...urged and stabbed or intimidated by threats of physical and economic terror.

SO ARROGANT were some of the speakers, so confident of their power over the robots in the ranks, that not one of them felt any necessity to refer to the crimes perpetrated by unioneers against countless individuals and against the nation itself. Provision was made that no voice should be heard to protest against the organized rapacity, cruelty and treason of the unions, nor any reminder of the anti-American treachery of the communists who helped to wreck France and only 10 weeks ago were trying to bring down the United States in the same humiliating ruin.

I listened to William Green and heard not one word of apology for his own willful, knowing collaboration against the workers with the underworld crooks who infest the unions of his greedy mafia, nor even a hint of perfidy which has disgraced his organization.

I read the remarks of Sidney Hillman as quoted in the papers and found no condemnation of the Moscovites who lately stabbed this nation between the shoulders ...and then abruptly whooped it up for war, but in defense of Russia, not the U. S. A.

Instead, Mr. Green claimed for himself and his associates full credit for every boom enacted by the sound American conscience of the whole nation from the institution of the public school to the swat-the-fly movement and had the gall to boast over a national hookup that this rogue-infested mob of political highbinders had so intimidated the U. S. congress as to kill every patriotic bill directed against its vicious activities.

Mr. Hillman, whose own union in New York less than a year ago shook down American employers for political contributions for President Roosevelt's third term and threatened workers with reprisals should they exercise their political right to vote against the administration, was fetched out as an official of the government to celebrate the subjugation of the masses.

Labor day, once the festival of united free workers, has become a day of mockery when the captors howl their own praises and the workers snuffle in their ... like showstock at a fa...

Dear Mr. President, — Justice

8 Sept. 11, 1941

Your speech was attentively listened to and carefully absorbed by the undersigned. I likewise heard Lindbergh's address and it prompted me to become so bold as to suggest to our good President of the U.S.A. (the best country on earth in my opinion) that he permit one of his officials to ask the "Colonel" just a few simple questions, as follows, that all may know just what his true wishful, but unfortunately not practical at this time, platform may really be.

1. Do you truthfully think that the present administration wants war, a shooting war?

2. Do you think the American people as a whole want war?

3. Do you think or know that if the U.S.A. sits idly by and arms itself and renders no aid to oppressed peoples fighting for their very lives unto the death, that Heir Hitler will not attack us after he has conquered them?

4. If you were in an unfair fight with an opponent whom you knew could easily beat the stuffing out of you and a man who owed you money hopped into the fray on your side, would you say - no, I'll take a good beating because you did not pay your debt to me?

5. If you were sunk by an Axis submarine without warning and had an opportunity to later retaliate, would you still turn the other cheek that that same murderer might murder more innocent and peace loving people?

6. Do you feel certain or know that if Hitler conquered all the peoples you mentioned in your speech (of class bigotry and hatred) in addition to those already subjected, that we would be able to avoid a much worse shooting war without capitulating to that type of satan worshiper?

7. Do you think England, France, Holland, Poland, etc., wanted a war?

8. Who do you think started this war?

9. If by any chance you think it was the Nazi butcher and his gangster colleagues, Goering, Geobbels, Hess, etc., then how inconsistent to say we, and England wanted it, when both did all humanly possible to avoid it?

Dear Fellow American:

We are enclosing our newly approved certificate of membership in the America First Committee.

Your local Unit urges you in this present crisis to redouble your efforts to preserve the United States from foreign wars. As a patriotic American you will naturally want to take an active part in fighting for the principles of the America First Committee. Who knows what the Roosevelt Administration will do NEXT? Your help is certainly needed to avoid another American Expeditionary Force!

FIRST - Enroll a new member.

SECOND - Write to Washington opposing all foreign involvement. Your Headquarters can help you with this.

THIRD - Pledge financial support. A Coin-of-the-Week Club has been formed to support Headquarters. We enclose a card in the hope that you will either join or sign up a friend.

FOURTH - Give a few hours of your spare time for office work in Headquarters.

FIFTH - Join our active Committeemen. Help our intensified Membership Drive by distributing literature on your block.

We hope that you will make full use of your Headquarters at 65-43 Myrtle Avenue. Come in any afternoon or evening and inquire about our numerous activities. Be sure to attend our meetings every second and fourth Tuesday of the month at 8:30 p.m. Bring your friends.

WITH YOUR HELP - AND ONLY WITH YOUR HELP - AMERICA FIRST CAN SWEEP THE COUNTRY!

PRINCIPLES of the AMERICA FIRST COMMITTEE

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."
2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.
3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.
4. We must build a defense, for our shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.
5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of the occupied countries.

William Castle, under Secretary of State in the Hoover Cabinet, and alleged master mind behind Lindbergh was added. Then Senator Wheeler and Senator Bob Taft. At the start this organization had a tremendous amount of money despite the claim that they never accepted more than $1,000 from any one person. In the east, Thomas H. McCarter, former chairman of the Public Service Company of New Jersey, is one of the leading lights. He is the contact man for Joe Pew, millionaire Republican boss of Pennsylvania. Henry Ford is one of the biggest of this Committee, as is J. C. Hormell, millionaire Minnesota meat packer; Kathryn Lewis, the daughter of John L. Lewis, is one of the active members. For the Catholic element there is John T. Flynn, Father Coughlin, John O'Connors. Another man in the limelight is General Hugh S. Johnson. Others are Alice Roosevelt Longworth, Amos R. Pinchot, former Governor of Pennsylvania and Lewis J. Taber. Secretly there is a tremendous Jewish group backing the America First Committee. This group has as its front the Guggenheim Foundation, and the Committee was quietly subsidized for tremendously large amounts of money. The Guggenheim interests have always fronted for Lindbergh.

America First was set up because of the hatred for President Roosevelt and its purpose is to do everything possible to embarrass him and the Army in the United States. Mrs. Wheeler, wife of the Senator, is bitterly anti-Semetic. She is a stockholder of the Chicago Tribune, and Colonel McCormick the Tribune owner, has as his stooge Harry Jung, head of the American Vigilante Intelligence Federation, and strongly pro-Nazi and anti-Semetic. Mrs. Wheeler, Harry Jung and Colonel McCormick are using America First as a sounding board for anti-Jewish propaganda. In this connection Father Charles E. Coughlin of Detroit and the Christian front organizations have just recently been officially welcomed into America First by General Wood, another stockholder of the Chicago Tribune.

America First has a lobby strictly anti-Roosevelt in Washington. This lobby is composed of William Castle and Alice Longworth, John L. Lewis and General Hugh S. Johnson. All are bitter enemies of the President. This group has figured out a way to reach the President with the most bitter attachs in the history of the world. The Hatch Act would not permit large political contributions to campaign funds, so this organization, America First, has its worst enemy in President Roosevelt and consequently anything he attempts, no matter what it concerns in respect to war, will be attacked by America First. In other words, this group is cooperating with every branch of anti-war groups such as the KKK, Christian front, Anti-British, Catholic group, German group and every pacifist group in the country.

This is one organization that will always have to be watched. From the Communist angle, William Castle has on his payroll William Sanger, a former Communist, Stalin school graduate. Sanger now receives $250 a month and is located at Washington, D. C.

It must be remembered that America First has plenty of money back of it in General Wood, Mrs. Jeanette Ayer Fairbanks, Frank O. Lowden, Thomas H. McCarter, Edward L. Ryerson and Pew, who controls the Sun Oil Company in New York. The bitterness which Castle, John L. Lewis, Hugh Johnson

Pew, Colonel McCormick, Senator Wheeler and others has against Roosevelt is such that they would not deviate one inch in fighting everything that the President wants or attempts, and consequently the British suffer to a great extent."

The Daily Oklahoman published an article on August 26, 1941 to the effect that the American Legion, Post #36 adopted a resolution requesting the City Council to deny the use of the Municipal Auditorium for a speech by Charles A. Lindbergh, speaker of the America First Committee. In a similar action the Knights of Pythias Lodge and the Oklahoma State Women's Ambulance and Transport Corps lodged formal protest against granting Lindbergh the use of the hall. The Daily Oklahoman on August 27, 1941 stated that the City Council voted to deny Charles A. Lindberg the use of the Municipal Auditorium. This article further states that the City Council's action came after several city organizations protested Lindbergh's appearance in Oklahoma City and rescinding order of T. T. JOYNSON, Auditorium Manager, permitting the meeting in the Auditorium. This article further reveals that Lindbergh notified the America First Leaders that he would speak on "air power" anywhere the appearance can be arranged. On August 28, 1941 the Daily Oklahoman published an article stating that the Sandlot Baseball Park 3200 N. W. 10th Street had been rented for the America First Committee's rally to be addressed by CHARLES A. LINDBERGH and BURTON K. WHEELER on August 29. On a day later, August29, 1941 CARL J. STEWART, Managing Editor of the Daily Oklahoman and Oklahoma City Times published the following letter which was delivered to Charles A. Lindbergh upon his arrival in Oklahoma City August 28, 1941. The letter reads as follows:

"It has been announced that Friday you will speak in this community for the cause of isolationism. Of all the persons advocating this idea, you are perhaps its most persuasive sponsor. I think I have read carefully every press report of your recent utterances. Almost without exception, I find them negative. They abound in "shall nots" without, as I see it, offering any valid alternatives.

Perhaps in your mind there are alternatives. If that is the case you should, in all honesty and candor, state them also.

To focus your attention upon the gaps that appear to me in your platform for America, and doubtless to millions of other Americans, I submit to you the following 10 questions, together with my sincere recommendation that frank and responsive replies to them can hardly fail to serve

a very useful purpose at this time:

1 -- Did you not, prior to lend-lease express the conviction that Britain alone never can defeat Germany?

2 -- Did you not also publicly oppose the lend-lease bills?

3 -- If your answer to these questions is "yes" does it not necessarily follow that you would rather see a peace on Germany's terms, than to see the United States take any action to prevent such a development?

4 -- Do you think "Germany's terms" would be anything less than complete political and economic domination of the entire European continent?

5 -- Do you think such a peace would be tolerable to the United States?

6 -- Do you think a democratic western hemisphere could do business with a totalitarian eastern hemisphere on any other basis than slave-labor competition and an armed truce?

7 -- Would you, as an American, rather face the prospect of making and maintaining the United States as an armed camp for the next 50 years than to take any steps to help insure the defeat of Germany?

8 -- You said recently that as between Germany and Russia, you would rather see the United States allied with Germany. I assume this statement was made with due regard to the realities of the situation, and that it means that you would rather ally the United States with Germany against Britain, than with Russia against Germany. Is that your position?

9 -- Does your view of the course the United States should take in this world revolution arise out of a personal belief that democratic framework of government have been outmoded and that the only nations that will be able to compete in the world of the future must be organized as a totalitarian pattern?

10- -Are you prepared to recommend this view to the American people?

I await your reply when you are here Friday.

Sincerely
(Clark K. Stuart "

W. H. "ALFALFA" BILL MURRAY, Former Governor of the State of Oklahoma introduced Lindbergh in a 15 minute address. Former Governor MURRAY said he was present at the meeting because he believed that in the Capitol city of his Sate the right of free speech was in danger and that he felt it his duty to attend. The writer attended the rally of the America First Committee on 8-29-41 at Sandlot Park in which CHARLES LINDBERGH and Senator BURTON K. WHEELER spoke on behalf of the America First Committee.

AMERICA FIRST COMMITTEE #100-922 CONFIDENTIAL 9-10-41

Following is the speech of CHARLES A. LINDBERGH as delivered in Oklahoma City, Oklahoma on August 29, 1941:

"As you all know, I stand with the men and women in America who oppose our entering this war in Europe. There are many reasons why I believe we should not enter the war. I have discussed these reasons freely and openly in articles and radio addresses during the last two years. I have said that I did not believe it was within our power to control the wars, or to solve the problems that have existed in Europe since European history began. I have said that we were hot prepared to wage war abroad successfully at this time, and that we would not be prepared to do so for months if not for years to come.

I have said that our participation in this war would simply add to bloodshed and prostration in Europe, and bring confusion to our own country. I have said that the United States is strong enough and able enough to protect itself, and that we in America do not have to depend upon any foreign country for our security and welfare.

To these statements and beliefs, I hold as firmly today as I have at any time in the past. Developments since the war started have already partially proved them correct; and I think that by the time the war ends, you will find I have in no way misled you.

But tonight, I am going to lay aside the broader issues of the war, and talk to you about air power, its capabilities, its limitations, and its consequences. I have selected air power as my subject for two reasons: First, because of its great military importance; and second, because aviation has become a symbol of this modern, scientific and mechanized era in which we live. Germany has used aviation to change the entire technique of warfare both on land and on the sea. England is using aviation to strike back at a continent she is unable to invade. The American interventionists are usin aviation to justify the occupation of Iceland, to prepare the way for an occupation of Africa, and to add to the general hysteria of the war. The capitalists are using aviation to make money, and the taxpayer is finding aviation a more and more expensive item on his bill.

I spent many years of my life surveying and laying out air routes in North and South America, and across the Atlantic and Pacific oceans. One of the greatest problems I encountered in those years lay in the difficulty of persuading people that aviation was actually a practical from of transportation; that, some day, this country would be spanned in a single night by passenger carrying air-liners -- and that, eventually, even the oceans themselves would be flown on regular schedule.

That was only a little over 10 years ago. Now I find myself in the novel position of arguing that aviation has certain limitations as have all of the other inventions of man. Ten years ago, I was trying to convince the government and the people of this country that transoceanic

passenger carrying was not only possible, but also practical. Today, I am trying to assure our government and our people that while trans-oceanic bombing is possible, it is not practical, and that the damage it could do on wartime standards would be slight.

I find the same people who scoffed at transatlantic air routes 10 years ago, now telling me that if the British empire does not win this war, the United States of America will be conquered by air invaders from Europe. They say that the world's two greatest oceans are no barrier to bombing planes, and that at any moment we may find trans-oceanic parachuse troops raining down on the streets of our major cities.

Our own president has talked about air invasions by way of icecapped Greenland, and about others based on the jungles of Central and South America -- incidentally, at cruising spoeds that are far higher than any racing plane has yet attained. Well, 10 years ago, those of us who believed in aviation set out to make this country "air minded." We seem to have succeeded, and now I suppose it is our job to get its feet safely back onto the ground. Now that we have become "air minded," our next problem is to learn how to operate aircraft to our best advantage.

But from what I say here, do not gain the impression that aviation has reached its ultimate development. It has still far to go both in commerce and in war. The bombing plane will become more destructive, the pursuit plane more effective, and the commercial plane more efficient than they are today. It is even possible that the discovery of new sources of energy will permit us to build rocket planes in the future which will outperform the mythical bombers of our present day politicians and interventionists. With unlimited energy available, one can conceive of speed limited only by the acceleration the human body can withstand. In that case, our descendants may some day accelerate halfway across the ocean, and "decelerate" the rest of the way across. If new sources of energy are discovered, the power of explosives will also increase. And then, in some future generation, fifty, or a hundred, or a thousand years from now, the United States may be as vulnerable to attack from Europe as England is today.

Now, I am sure that many interventionists will feel that since we may some day harness the atom and travel in rockets, we should go to war immediately to make the world safe for whatever system of government exists in that unknown and distant time. But I am among those non-interventionists who feel that we have enough problems to solve in our own generation; and that if our grandchildren insist on splitting atoms and building rockets, it must be upon their own responsibility. I believe that our generation will have accomplished its duty if we pass on to our children a free and independent American heritage that is not too greatly burdenod with the debts of war. And so, for the present at least, I am willing to pass the atom and the rocket plan over to the interventionists, to hold in trust for generations of the future.

In discussing air power, we should start with the realization that man's conquest of the air will bring revolutionary changes to the entire

world, and that the changes which take place in one portion of the world are bound to affect in some degree all other portions. Whatever affects America affects Europe and Asia; and, conversely, whatever affects Europe and Asia is bound to have more or less effect on America.

Possibly we can appreciate the significance of air power better by considering the effect that sea power has had on the relationship and fortunes of nations. The comparison is not exact, but it is enlightening. And one must remember that aviation has developed as much in a generation as shipping developed over a period of centuries.

Now when great changes in methods of warfare take place, history shows that empires and nations fall, and other rise instead. The important problem for us in this country to solve, is how to turn the changes of this modern era to our advantage and how to avoid having them used against us. If we use air power intelligently, we can increase our national safety, add to our standard of living, and improve the quality of our civilization. But if we do not use air power intelligently, if we expose ourselves unnecessarily, if we fail to understand its limitations as well as its advantages if we allow some foreign nation to turn the developments of modern warfare against us we may find our national safety in jeopardy, and our standard of living far lower than it is today. In fact, air power if unintelligently handled, could bring the downfall of the very civilization which created it.

After a careful study of this problem, both in America and Europe, over a period of years, I was forced to the conclusion that France and England were not in a position to win a war against Germany, and that the dominant position in Europe had shifted from England, as a sea power, to Germany as a land and air power. The same study brought me to the conclusion that while aviation greatly strengthened our position in America from the standpoint of defense, it greatly weakened our position from the standpoint of attacking Europe.

I based these conclusions upon many observations and facts, there is not time to outline all of them tonight, but I would like to bring some of the most outstanding to your attention:

It was obvious, even before this war started, that air power made it costly, if not impossible, for naval forces to operate within effective bombing range of an enemy coast adequately protected by aircraft. This meant that troops could not be landed and maintained on any coast where an enemy had strong supremacy of the air. These facts have been confirmed by the results of naval and air battles off the coast of Norway, in the Skagerrak, in the North Sea, off the coast of Greece, and in the vicinity of Sicily and Crete. Wherever sea power and air power have clashed during this war, there is not a single instance where sea power has won.

It was obvious, before the war started, that Germany had by far the strongest air force in Europe, and that air power could strike across the English channel and behind the Maginot line, regardless of the strength of the

British navy or the French Army. These facts, too, have been confirmed by the developments of the war.

It was obvious that aviation, and the mechanization of ground forces, among other elements, placed Germany among others in a stronger position under Hitler than France was in under Napoleon.

It was obvious that England lay within idea bombing range of aircraft based on the continent of Europe, and that her sea lanes could be harassed both by submarines and bombing planes. German objectives, on the other hand, were farther removed from bases in the British Isles; so that even if England and Germany had equal numbers of fighting planes the advantage would still lie with Germany.

It was just as obvious that the great distance across the ocean placed America outside the effective bombing range of European aircraft, and that even if it were possible to establish European air bases in South America which I beli3ve we can prevent, the United States would still be outside of their effective bombing range.

After I had traveled through the various nations of Europe and Asia, I came to the conclusion that there were two, and only two, great and natural air powers in the world at this time --the United States, in the western hemisphere, and Germany, in the eastern hemisphere. I was convinced that neither was in a position to attack the other successfully across the ocean unless an internal collapse preceded an invasion. It seems clear to me that the quickest way for Germany to lose the war would be to attack America and that the quickest way for America to lose a war would be to attack Germany.

By way of illustration suppose we should follow the lead of the interventionists and enter a war against Germany. In that case, we must send the great bulk of our armies, and supplies, and fuel, across the Atlantic ocean on ships - ships that would have to be built, for there are not enough in existance today. The vulnerability of the shipping to bombing planes, raiders and submaries, has already been shown by British losses. Our convoys would be harassed in the Atlantic by Germany, and possibly in the Pacific by Japan at the same time. And under this harassment by bombing plane, raider and submarine we would have to find some way of forcing a landing, on a hostile coast. We would have to force a landing against the prepared positions of the same army and air force that broke the Maginot line and overcame the British, French and Belgian armies combined. We might easily find ourselves fighting, at one and the same time, the military forces of Germany, Italy, France, Spain, Japan and other nations, with the natural resources of Russia available to them. And it is not at all inconceivable that before this war is over, England herself may turn against us, as she has turned against France and Finland. Reasons are always found to justify whatever action a nation takes in time of war. It was no more improbable in 1939 that England would turn against Finland and France, than it is today that she will turn against us.

it becomes expedient to her welfare in the future. If you question my words now, I ask only that you read a history of the relationships between the United States and England during the last hundred and fifty years, and that you combine with this a re-reading of the pledges of everlasting loyalty that took place between England and France less than two years ago. If you will do this, I believe you will agree with me that we must depend upon ourselves and ourselves only, for our security in the future.

Now instead of following the lead of the interventionists, suppose we concentrate on our own defenses, as I have advocated, since long before this war began. I have maintained that if we attend properly to our own defense, no European or Asiatic power will dare to attack us; and that if we attend properly to our own affairs, none will desire to. But suppose that the fears of the interventionists come true, and we are attacked. In that case it would be our enemy, and not we, who would have to force a landing on a histile coast. It would be our enemy, and not we, who would have to maintain supply lines across the ocean against the harassment of our bombing plan our submarines, and our battleships. In that case, we could use our own aviation to the utmost advantage, concentrating it within a few hours at any point on our shores, and basing it on established and well-equipped air fields. If the British navy with its bases strung out from Alexandria to Scapa Flow -- if that navy with Gibraltar and Malta to assist it, cannot remain within bombing range of the European coast, then how can any navy, or any combination of navies, cross the ocean, and without a single base in this hemisphere, land an expeditionary force on American shores?

Instead of reducing the value of the Atlantic and Pacific oceans from the standpoint of our security, aviation makes them more important than ever before. Air power practically removes the danger of attack by sea; and the oceans themselves prevent effective attacks by air.

Let us take advantage of this fact. Let us take advantage of the changes that aircraft and this modern era bring to nations and to men. Let us use these changes to our advantage, and not permit them to be used against us. They can either strengthen our American independence, and add to the quality of our western civilization, or they can take us back into the endless wars and quarrels of the old world. The nation that makes use of these advantages will survive, and the nation which fails to understand them is certain to fall. The choice is the test of America, and the way of life we have built up in this new world.

We have the most perfect defensive position of any nation. We have highly developed industries, and an entire hemisphere full of natural resources. Here in America we have developed new standards of life and a new civilization; and our forefathers fought for the right to do so. Our entire national tradition is based on independence. Shall we now give up the independence we have won, and crusade abroad in a utopian attempt to force our

 CONFIDENTIAL

ideas on the rest of the world; or shall we use air power, and other advances of modern warfare, to guard and strengthen the independence of our nation; Shall we sell our American birthright for the mess of pottage that is offered us in Europe and Asia today; or shall we preserve for our children the free and independent heritage that our forefathers passed on tu us?

The America First Committee is an organization of men and women who stand firmly opposed to merging our future with that of any foreign land. We stand for a united nation behind an impregnable defense and an independent destiny for America. We stand for American traditions -- for the right of free citizens to meet, and to discuss the issues that confront their nation; for the right to know about, and to vote upon, the fundamental policies of our government. We stand for the right of those who will do the paying and the dying to also have a voice in the deciding.

If you stand with us, we ask you to join our committee. Our strength is growing in every section of thecountry. But we need your assistance here in Oklahoma. We need your assistance that freedom and independence and representative government, may continue to live in this nation. "

Senator BURTON K. WHEELER reiterated his opposition to active participating in the present war and scorned alleged propaganda, "jus like that used in the last war." Senator WHEELER attacked the action of the City Council and stated, "I am glad the people of this state don't feel about CHARLES LINDBERGH as your city council does. There isn't a more honest, decent, patriotic man in America." Turning to hational affairs the Senator declared himself, "opposed to every kind of 'ism' except Americanism, even if you must call it New Dealism." WHEELER further declared "our boys would have to be sent to all parts of the world, to police India, China and other places and I am not in favor of sending American boys to die on the battlefields of Europe or Asia. If we go to Europe to save democracy again, we are likely to lose it in this country. " Membership cards were distributed in this rally by the America First Committee, 408 Perrine Building, Oklahoma City, Oklahoma. On the back of this membership card are the principles of the local organization :

1. Our first duty is to keep America out of foreign wars. Our entry would only destroy democracy, not save it. "The path to war is a false path to freedom."

2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.

3. In 1917 we sent our American ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels

CONFIDENTIAL

on this side of the Atlantic.

4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country by sea, air or land.

5. Humanitarian aid is the duty of a strong, free country at peace. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of England, the other democracies and the occupied countries.

On August 30, 1941, [redacted] advised that he had been one of the members of the American Legion to appear before the City Council protesting the use of the Municipal Auditorium for use by CHARLES A LINDBERGH on behalf of the America First Committee. [redacted] further advised that the City Council is composed of the following members:

A. P. VAN METER, JOE C. CAMPBELL, SALTY FULLERTON
HARLAN GERS, LEONARD H. DICKERSON, L. I. BAKER
PERCY JONES, G. A. STARK;

[redacted] stated that [redacted] was the only person to appear before the City Council who spoke in favor of granting the use of the municipal auditorium to the America First Committee. [redacted] further stated that Councilman JOE CAMPBELL inquired of all those persons who were protesting the use of this auditorium to LINDBERGH if they had considered the possibility of getting the situation reversed and of giving to LINDBERGH additional favorable publicity by denying him the right to use the auditorium. [redacted] said that A. P. VAN METER, Councilman was opposed to LINDBERGH's using the auditorium because of the tenor of LINDBERGH's previous remarks which indicated a tendency toward subversive activities. A motion was made that the Mayor be instructed to deny the use of this Municipal Auditorium to LINDBERGH for the purpose of making a speech which might be considered subversive in nature. Mayor R. A. HEFNER, inquired as to whether the motion should be voted upon in secret or openly; since there was no reply to this inquiry Mayor HEFNER stated all those who would vote in the negative would sifnity their intention and since there was no indication of any negative votes being cast, Mayor HEFNER stated that all the votes would be cast in the affirmative to deny LINDBERGH the use of the municipal auditorium on the occasion of August 29,1941.

TICE T. JOHNSON who had rented the auditorium was instructed to return the rental fee to the America First Committee, according to the statement that [redacted] made. [redacted] related that HERBERT K. HYDE, who is chairman of the America First Committee in Oklahoma City, Oklahoma is a republican seeking much publicity. [redacted]

By letter of August 25, 1941, [redacted] b2 advised as follows:

"A reliable source has reprted that German groups around New York have received instructions to advise parentsof men serving under the Selective Service Draft to tell their sons to prepare petitions to SENATOR WHEELER, protesting against their retention in the armed forces more than a year period. The suggestion is to have the men form groups or clubs for this purpose. Such petitions are to be sent to the PRESIDENT and Senator WHEELER. It is to be pointed out that the soldiers need not fear punishment for this, after what happened at Fort Dix where the General announced a pardon. (Presumably refers to newspaper statements by MAJOR GENERAL CLIFFORD POWELL, in command of the 44th Division, Fort Dix, N. J.) The groups meet in taverns in the prosperous suburbs around New York, in Westchester County and Connecticut. Active support for the AMERICA FIRST COMMITTEE is also advocated. It is known that the AMERICA FIRST COMMITTEE leaders are nervous over the shortage of operating funds, which has recently resulted in paid workers being laid off. The support of the German organizations and the funds they provide is therefore of vital importance to the AMERICA FIRST COMMITTEE and gives them prestige and power in this work.

That the AMERICA FIRST COMMITTEE is being used, consciously or otherwise, to do the work of German interests in obstructing the national defense effort is indicated by the above and other items of information. One of these items is that the GERMAN LIBRARY OF INFORMATION mailing list has been made available to the AMERICA FIRST COMMITTEE and used for their purposes."

On July 2, 1941 the Tulsa Tribune published an article which stated that DON LOHBECK scheduled a meeting for the Tulsa Chapter of the America First Committee at 8:00 pm July 11, 1941 in room 211 of the Albany Hotel. In this article it is further stated that LOHBECK had said that Senator GERALD P. NYE of North Dakota who had spearheaded the Committee's program of non-interventionist in the European war probably will come to Tulsa to address a mass meeting to be planned by the local committee. On August 21, 1941 Rev. O.A. PANKEY acting chairman of the America First Committee, Tulsa, attempted, with the assistance of W. S. FOULIS, to make arrangements with the Mayo Hotel for operations to contend a meeting of this committee, but such arrangements were unsuccessful. On August 25, 1941 the Tulsa Tribune published an article that CHARLES LINDBERGH might be booked for a peace lecture while in the state for his Oklahoma City address. This article further stated that Reverend PANKEY, Temporary chairman, advised: (1) The committee had abandoned efforts to secure a room in the Mayo hotel for the meeting and obtained permission to use one of the district court rooms instead. (2) Dis claimed any intention of serving as promised chairman permanently for the America First Committee with the statement "I don't have time." In the article

Reverend PANKEY is quoted as stating that some forty Tulsans had been invited by telephone to attend the meeting which will be purposely for the business of electing permanent officers. The tulsa World on August 26, 1941 published an article which stated that MACK SHRODES former republican Police and Fire Commissioner was elected chairman of the America First Committee, Tulsa Chapter, at a meeting at the court house Monday night. This article relates that only about 30 persons turned out for the meeting that out of these thirty, fourteen signed up for membership in the America First Group. In an article appearing in the Tulsa Tribune August 30,1941 MACK SHRODES, Chairman, Tulsa America First Committee is quoted as saying he would like to secure Senator BENNETT CHAMP CLARK for a meeting in Tulsa on September 17. SHRODES is further quoted as saying in this article that CHARLES LINDBERGH and Senator BURTON K. WHEELER were invited to speak there but were forced to decline due to the other many engagements which they had. In the Tulsa Tribune on September 2, 1941 is an article which states that the America First Committee may stage a membership campaign in Tulsa on following up the cards signed at Tulsa meeting and by Tulsans at the CHARLES A LINDBERGH speech in Oklahoma City on August 29, 1941. This article also stated that MACK SHRODES, Committee Chairman will go over new organization records tonight with Mrs. ELLA GESSEL and EUGENIA POWER, Secretary and Treasurer. SHRODES is quoted further as stating that W. S. FOULIS, Chicago Secretary and Organizer would be here soon to help outline the committee's program.

[redacted] supplied the following information concerning the activities of the America First Committee in Tulsa, Oklahoma:

July 14, 1941 meeting of the America First Committee was held tonight at 8:00 pm in the Baldwin Methodist Church, 2200 Block on North Frankfort, with about 43 women and seven men attending. Among this group there were four men with the Reverend SMITH group and three men from the A.P.M. and later two married couples joined the group. DON LUBBOCK St. Louis organizer opened the meeting stating that his committee group had intended forming a chapter in Tulsa and raising funds to get the Hon. Senator WHEELER there for an open air meeting. LUBBOCK then introduced attorney MEAD of the Oklahoma City Branch. MEAD asked for funds several times and although no money was offered he reiterated his former statement that the "best insurance against further war is to finance this committee." [redacted] b7C

A close search for DON LUBBOCK, Organizer for the America First Committee was of no avail because neither he nor MEAD were in town. [redacted] said she was not contacted at all by them as promised and a call to [redacted] disclosed that she had received a letter from LUBBOCK asking that she attend the meeting last Monday but she had a previous engagement and was not interested in the America First Committee. [redacted] said through a telephone conversation that she will be willing to act as Chairman if Senator WHEELER will come and speak but she doesn't want to line herself in the open with any specific group. [redacted] further stated that while she is willing to work for peace she likes to do it through her own efforts [redacted] and not through the dictates of any organization. [redacted] said that she is very busy in her own way and expressed herself as well gratified of the results of the Tulsa Tribune Peace Poll which showed that 85% of the population is against any open warfare with anyone. She said "This will give a little more leeway in coming out in the open and while I don't like the America First Group coming here and trying to steal the limelight I still maintain that we can well handle the situation as far as peace is concerned. We are sure that the working people are essential in any group or drive and we have prepared an appeal to the various labor groups for cooperation.

Mrs. DORIS WEST came into the picture today with an announcement that she will attend the Oklahoma City Youth Legislature meeting on Labor Day and incidentally mentioned the America First Committee, the Rev. PANKEY as being holy pacifists, Rev. TETRICK as one who has no stand at all, Rev. SMITH as anti-semetic who has no peace stand at all and that Nazi sympathies are without bearing on the general peace situation. Mrs. WEST further announced, "If the American First Committee, including General WOOD has so many different aims among the leaders there is certainly no future for them and the names of those honest leaders whose sacrifices are holding up the committee are bound to fall when the crucial moment arrives." She also spoke of the A.P.M. mentioning the last release she had received from the national office urged that immediate material be sent to Russia to relieve the strain of the Russian production of war materials. This infuriated Mrs. WEST and she wrote to them to discontinue sending her material for distribution. She lauded, however, their efforts and would aid them in any way possible to

make a weak movement stronger in Oklahoma despite the protests of her husband who had resolved to give up all activities along these lines.

August 26, 1941.

The schedules meeting of the America First Committee was held on the second floor of the county Court, Corner of 6th & Boulder with only the guests present which included 34 people of whom only nine were women. The Reverend PANKEY, GEORGE FOULIS, Special representative of the Chicago Chapter of the America First Committee and Rev. SMITH were on the platform when PANKEY opened the meeting explaining briefly that the America First Committee is exactly what the word stands for; namely to defend America first. PANKEY went into a lengthy history of his family, as well as his own personal history, making it look like an alibi for his presence at the meeting. He then introduced FOULIS who went into a lengthy explanation as to what the America First Committee stands for and what they have accomplished and stated that they earnestly hope to keep this country out of any foreign entanglements, including war. He eulogized LINDBERGH and WHEELER as those who are sacrificing their career and their futures in order to accomplish the aims of this committee. He then went into lengthy plea for support of this committee in Tulsa and finally asked for the nomination of a permanent chairman. Both Rev. PANKEY and Rev. SMITH who were nominated declined in favor of MACK SHRODES and promised support from them if he would accept the nomination which he did after a brief discussion with FOULIS. SHRODES made an acceptance speech expressing confidence in the movement and asking for cooperation for all those present. Included in the audience was RAYMOND ANDERSON, who butted into the speech that FOULIS made asking how the America First Committee stands on supporting the Russian Peace in defense of their country. FOULIS explained that they are for aiding all democracies in Europe and they would have no love for any Nazi, Fascist or any other didactic or dictatorial power, however, he sidestepped the real question of Anderson's. Very conspicuously the O.Y.L and the A/P.M. members have been absent from the meeting although Miss HOWARD said that all of them have been called on the telephone asking them to be present at the meeting tonight and that she expected about 50 people to be present allof whom she had called. The following permanent committee was elected:

MACK SHRODER, Chairman
MRS. GESSEL, Secretary
MISS HOWARD, Treasurer

Executive Committee

REV. SMITH
REV. TETRICK
GEORGE PERRINE
ED HOLSUM
JAMES TURDOCK
EDMOND FISHER

There was much discussion about going to Oklahoma City on Friday to hear the address by CHARLES A. LINDBERGH and a delegation was announced from this chapter to be accompanied by others who were willing to go. No comment was had from anyone present regarding this meeting and most of those present as shown had a rather optimistic view regarding the success of the

movement in Tulsa. There is some dissention existing already among those who have favored the America First Committee as the following statement will show. A fellow named [redacted] said, "I would have opposed the presence of Reverend SMITH at this or any other meeting of the America First Committee because he has been identified with the KKK and the Silver Shirts and every other radical movement including Anti-Semitism. Although I have no real love for the jews I don't try to persecute them and I don't go around preaching against them. In this case I don't think that Reverend SMITH at this or any other time should be included in any official capacity because that is going to hurt more than any good he may expect to do and I doubt that I ought to be in it with him."

Another fellow named [redacted] expresses similar sentiments regarding this Reverend SMITH and [redacted] added that he, SMITH, has been very anti-labor and that it therefore, will be hard to interest the laboring classes in this movement. [redacted] further stated that the working men in the Tulsa District are determined to follow the lead of the City Administration which is far from being pacific or far from having any peace tendencies, for the population according to [redacted] is strongly pro-British, therefore, it is going to be a real problem to put the America First Committee on the market there.

On August 30, 1941 at 7:30 pm there were 47 persons in the hall at a meeting of the Oklahoma Youth Legislature including four negroes; with the arrival of MACK SHRODES at 7:50 pm the meeting was called to order by BOB STONE with the introduction of four participants in the symposium. Miss DOROTHY MURDOCK, representative of the fellowship of reconciliation, was the first. GEORGE CHURCHILL, leader of the Bundles for Britian group was second. MACK SHRODES, Tulsa Chairman of the America First Committee was the third, and LENORE WOLFE, Executive Secretary of the OYL was the last speaker. MACK SHRODES, explained that he was not prepared to make an address but asked permission to read GEORGE WASHINGTON's address and asked those present to get a copy of it and read and study it and they would find that this country has no moral right to intervene in Europe's affairs. At this Oklahoma Youth Legislature meeting it was found that there occurred a heated argument regarding LINDBERGH and his recent Oklahoma City speech in which he failed to mention anything about the Nazis. MACK SHRODES now head of America First Group in Tulsa defended LINDBERGH, WHEELER and others claiming that their stand is the stand of the majorityof American public, and reiterated the much publicized statement that 80% of the American public does not want any European intervention. He then left the meeting stating he had another engagement to keep.

The writer ascertained from KATHRYN MANTON, Secretary of the State's Office, Oklahoma State Capitol, Oklahoma City that the America First Committee is not registered, incorporated, or licensed in the State of Oklahoma.

RE: AMERICA FIRST COMMITTEE

Dear Sir:

This is to advise that while with Attorney General FRANCIS BIDDLE recently, he requested that I make arrangements to have a Special Agent attend the America First rally to be held in Los Angeles on either October 1 or 2, at which Senator BURTON K. WHEELER of Montana will speak. The Attorney General stated he would like to be advised as to the size of the group and its reactions to the Senator's statements.

This matter will be handled and the Bureau advised immediately in order that this report may be furnished to the Attorney General in accordance with his request.

Very truly yours,

R. B. LOOD

Details: A review of the file on this case disclosed that on January 24, 1941 an article appeared in the Los Angeles Times, dated January 23, 1941, Sacramento, California, which article stated that on that day the AMERICA FIRST COMMITTEE, a Los Angeles patriotic organization opposed to "legislation empowering the President to lend, lease, give or otherwise dispose of" defense materials, filed articles of incorporation January 23, 1941 with the Secretary of State.

"The articles of incorporation are as follows:

"ARTICLES OF INCORPORATION OF THE AMERICA FIRST COMMITTEE indorsed and filed in the Office of the Secretary of State, State of California, January 23, 1941.

"Article 2: The purposes for which this corporation is formed are:

"A: To organize and to give effective voice to the vast number of Californians who agree with the tenents of the America First movement and who wish to add their strength to the mounting will of Americans everywhere against involvement in foreign wars.

"B: To preserve American democracy, which purpose can be accomplished only by keeping the United States out of the present European war and all other foreign wars.

"C: To support a program for the building of an impregnable defense for America.

"D: To oppose all subversive groups whose programs attempt to involve the United States in foreign wars, or entangling alliances.

"E: To oppose the use of American troops for any purpose other than the defense of the Americas and our possessions against armed attack.

"F: To oppose repeal of the Neutrality Act. To oppose repeal of the Johnson Act, and to oppose passage of any bill permitting American vessels to enter the combat zone of the European war.

"G: To oppose passage of any legislation for the disposition of equipment or materials vital to American defense to foreign nations, and to oppose legislation impowering the President to lend, lease, give or otherwise dispose of such equipment and materials in his sole discretion.

"H: To oppose any legislation or executive acts by the President or any future administration, tending to impair or destroy the Civil liberties guaranteed to American citizens by the constitution of the United States.

"I: Non-profit corporation.

"J: To appoint any paid officers, agents or employees of the corporation.

"ARTICLE 3: Los Angeles County to be the principal office, to be located _____

"ARTICLE 4: Directors of the corporation.

"ARTICLE 5: No limitation upon number of members of the incorporation. Only

"A: Shall be American citizens

"B: Have no affiliation with German-American Bund or Communist Party, or any affiliations of either, or any official or semi-official propaganda instrumentality of any foreign nation whatsoever.

"ARTICLE 6: The determinations of all matters of policy, election of officers, and financial control, shall be invested in a Board of Directors, and any vacancies occurring in Board of Directors shall be filed by majority vote of remaining directors.

"The national headquarters of this organization is located at 1812 Board of Trade Bldg., Chicago, Illinois. General ROBERT E. WOOD, acting chairman. The National Committee is composed of 27 members, and the following are some of the names listed:

"MRS. BENNETT CHAMP CLARK
IRVING S. COBB
BISHOP WILBUR E. HAMMAKER
GENERAL THOMAS HAMMOND
GENERAL HUGH S. JOHNSON
ALICE ROOSEVELT LONGWORTH
CAPT. EDWIN RICKENBACKER
MRS. BURTON K. WHEELER.

"The principles of this organization are given as follows:

"1. The United States must build an impregnable defense for America. With such a defense no foreign power, or group of powers, can successfully attack us.

"2. With proper safeguards for the distribution of supplies and the maintenance of our neutrality, Americans should, to the limit of their ability, give humanitarian aid

to the suffering and needy people of England and the occupied countries.

"3. The cash and carry provisions of the existing Neutrality Act are essential to American peace and security. Within the limits of that Act Americans may properly aid Great Britain. Aid to her beyond the limitations of the present Neutrality ACT would weaken our defense at home, and might well involve us in conflict. We oppose any change in the law which would permit American vessels to enter the combat zone or which would permit the American navy to convoy merchant ships through that zone, as any such course would inevitably plunge this country into Europe's war.

"4. Americans should and do cherish the ideals of democracy and abhor dictatorship, but the welfare of one hundred thirty million Americans and the preservation of democracy on this continent demand that the United States keep out of foreign wars.

"The subsidiary objectives are listed as follows:

"1. To bring together all Americans regardless of possible differences on other matters, who see eye to eye on these principles (this does not include Nazis, Fascists or Communists).

"2. To urge Americans to keep their heads amid rising hysteria in times of crises.

"3. To provide sane national leadership for the majority of the American people who want to keep out of the European war.

"4. To register this opinion with the President and with Congress.

[redacted] b7C

"Although this organization may have the sympathetic endorsement of some so-called front organizations, we were unable to find any indication that they are anything but patriotic,

sincere, Americans, with no thought of subversive activities."

Although various Nazi sympathizers in the Los Angeles area are known to have attended meetings of various AMERICA FIRST COMMITTEE in Southern California, there is no evidence that the AMERICA FIRST COMMITTEE in itself is engaged in subversive activities.

On August 25, 1941, a communication was received from FREDERIC A. CHASE, Executive Secretary of the AMERICA FIRST COMMITTEE, located at 3142 Wilshire Boulevard, Suite 5, Los Angeles, California, telephone FEderal 1168, which letter stated that by authorization of the executive Board of the AMERICA FIRST COMMITTEE of Southern California, they were asking all officers, employees and representatives of the AMERICA FIRST COMMITTEE or its chapters to fill out a questionnaire, which will be retained in the confidential files of the COMMITTEE, and has for its purpose to provide information whereby competent investigation can be made if necessary.

CHASE stated the organization had already checked with the files of the Los Angeles Police Department on chapter officers and with the exception of one case no question had been raised as to the loyalty of any individual. He stated they were checking further on this particular individual.

CHASE stated that the AMERICA FIRST COMMITTEE is pledged to the maintenance of American institutions and specifically bars from membership any person who belongs to any subversive organization, and that in the event this Office wished to conduct an investigation of any individual of the AMERICA FIRST COMMITTEE the questionnairs setting forth confidential information would be available to this Office upon request.

RE: THE AMERICA FIRST COMMITTEE

The America First Committee was incorporated under the Not for Profit Laws of the State of Illinois on September 19, 1940. The purposes of the committee as outlined in its charter are to encourage and maintain in the United States of America:

1. Peace and the Democratic ideal.
2. A program of adequate defense.
3. A furtherance of peace in this continent, a policy of non-intervention in the affairs of other continents and to encourage the giving of help to refugees and the needy in other lands insofar as such help does not endanger the peace in the United States.

The America First Committee has advertised itself as being "non-partisan organization of loyal and patriotic men who believe:

1. The United States must build an unbreakable national defense.
2. No foreign power nor group of powers can ever successfully invade a prepared America.
3. Our Government sending men of its own, ships, planes and materials of war to a belligerent overseas dangerously weakens our defense at home and threatens to involve America in war abroad.
4. Our American Democratic liberties can only be preserved by keeping out of foreign wars in Europe or in Asia."

Jersey; director of Chase National Bank, New York City; Federal Union Trust Company, Newark, New Jersey; American Surety Company; American Super Power Corporation and United Gas Improvement Company.

CAPTAIN EDWARD RICKENBACKER- Nationally known aviation figure.

LOUIS J. TABER- Nationally known for his work in connection with agricultural developments.

DR. GEORGE H. WHIPPLE- Nationally known pathologist.

The following persons, who are nationally known, are also Members of this Committee:

Mrs. Bennett Champ Clark
Bishop W. E. Hammaker
Kathryn Lewis
Sterling Morton
Edward L. Ryerson, Jr.
Mrs. Burton K. Wheeler.

The America First Committee is reported to be financed solely by voluntary contributions by those interested in the organization. The Committee conducted a radio broadcast on October 21, 1940, at which time the radio announcer requested his listeners to send anything from dimes to dollars to the America First Committee, Board of Trade Building, Chicago, Illinois, and this same request was made following numerous other broadcasts.

The Committee has also issued a card called "America First Committee Contribution Card," bearing the following:

"I am convinced that we can preserve our American Democracy only by keeping out of foreign war. Therefore I am contributing $____ to support the work of the America First Committee."

On October 21, 1940, Books Carter was sponsored in a transcription program of Station WMAQ, Chicago, Illinois, by the America First Committee. In this broadcast Carter explained that the Committee was dedicated to aid America first and later to aid Britain. Following the transcription, the announcer suggested that the listeners write their congressmen and senators demanding that they prevent the United States' intervention into the war and

~~CONFIDENTIAL~~ SECRET 154

that they arm America before aiding Britain and also requesting the audience to send in anything from dimes to dollars to the America First Committee, Board of Trade Building, Chicago, Illinois.

A confidential informant stated that the America First Committee was started by General Wood in cooperation with the other members of the Committee and that although the Committee's viewpoints in connection with the United States' present policy in foreign affairs is different from that of the administration, he is of the opinion that the Committee originally had a few persons in it who were what he termed "left-wingers" and according to him are not to be considered Communistic.

[redacted] b7C b7D

On December 18, 1940, the America First Committee sponsored a rally in Orchestra Hall, Chicago, Illinois, at which rally 3500 persons attended and several thousand were turned away. [redacted] b7D

Information received from a confidential source, reveals that on January 16 the office of the America First Committee was opened on Wilshire Boulevard, Los Angeles, California, and it was observed that the automobile of Dr. Georg Gyssling, German Consul was parked in front of the building during that day. The informant related that this car had never been seen there previously and has not been seen there since that time.

The America First Committee has published an enormous amount of propaganda literature concerning the aims of the Committee and has circulated this literature throughout the United States. The apparent object of the literature is to crystallize American opinion to prevent the entrance of the United States into European wars and to villify the foreign affairs program of President Roosevelt. The numerous pamphlets published by the Committee state that 86% of the people of the United States are opposed to the United States intervening in foreign wars. These pamphlets fail to make any explanation as to how the figure of 86% was arrived at. This literature also makes an appeal to American mothers to aid the Committee for the purpose of preventing

b7D

their sons from being embroiled in another European war. The Foreign program of President Roosevelt is termed "the road to war" by the literature emanating from this committee.

Friends of Democracy, Incorporated, L. M. Birkhead, National Director, with National headquarters in Kansas City, Missouri, published a pamphlet entitled the "America First Committee, the Nazi Transmission Belt." This pamphlet alleges the America First Committee whether its members know it or not and whether they like it or not is a Nazi front organization and is a transmission belt by means of which the apostles of Nazism are spreading their anti-Democratic ideas into millions of American homes. This pamphlet also charges that Adolf Hitler and his disciples in the United States are using the America First Committee to spread Fascist and Nazi propaganda.

Information received from a confidential source discloses that on February 4, 1941, Paul von Gontard entertained John Wheeler and his wife Helene Albright Wheeler, the son and daughter-in-law of Senator Wheeler. During the course of the conversation at the party, Mrs. Wheeler stated while attacking the contemplated Lend Lease Bill, also opposed by the America First Committee, that the "only way we can be safe is to see the pins knocked out from under Britain." The informant who furnished this information stated that such a remark indicated that she had become imbued with pro-German sentiment because of her association with various individuals, including Dr. Adolph Spreckles, Miss Josephine Alderman, and one Hans Wolfram, all of whom are suspected of German espionage. It will be noted that Hans Wolfram has done publicity work for the German Embassy. (5-1)(X) 4

At this party Mr. Paul von Gontard who is also suspected of German espionage displayed a cashier check for $2,000 drawn on a St. Louis, Missouri bank, which he turned over to Mr. John Wheeler as a contribution to the America First Committee. ([redacted] 100-4712-7X) b2

Information has been received that the America First Committee has caustically criticized the William Allen White Committee. The America First Committee is reported as attempting to secure the support of any and all organizations including the Coughlinite Social Justice Group. The news vendors of Coughlins Social Justice in New York City appeared upon the streets displaying America First Committee buttons. (100-4712-5X)

A leaflet distributed in February, 1941, by the German American National Alliance urged the recipient of the leaflet to write to two senators advocating the defeat of the Lend Lease Bill and to send financial contributions to the America First Committee. (61-10498-444)

On February 25, 1941, the Chicago Tribune carried an article relating that the America First Committee had assigned speakers to cover down-state communities in Illinois for the purpose of creating opposition to the Administration Bill. It was stated that Walter F. Boye who, during the summer of 1938, had toured the German Reich and who had returned to the United States with glowing accounts of Nazi accomplishments and praise of

The Philadelphia Ledger for April 23, 1941, carried an article stating that the National Legion of Mothers and Women of America contemplated inviting women associated with the Kyffhaeuser Bund into its membership. Mrs. Edith Scott of Philadelphia, Pennsylvania whose organization is affiliated with the America First Committee said the invitation was under consideration by her group. (100-4712-A)

In the April 14, 1941 issue of the Staten Island Advance an article appeared stating that Howard I. Jump, son of Mrs. Lila Jump, head of the Staten Island unit of the America First Committee, had failed to report for induction as ordered by the local draft board and had been given a formal notice giving him five days in which to change his mind. Jump, twice before, was refused deferment by his local draft board; once on a medical deficiency claim and again on an occupational claim. (100-4712-30X1)

The News Letter of Los Angeles, California for April 9, 1941, carried an article concerning the America First Committee meeting held at Los Angeles, California, which was addressed by Mrs. Catherine Curtis and Senator Gerald P. Nye of North Dakota. This article related that Mrs. Curtis' experience in rabble rousing is so comprehensive that she might easily qualify as "the top notcher of the petticoat platoon." It was she who founded the Women's National Committee for Hands Off the Supreme Court." She also was active in organizing the Women Investors in America, Incorporated, which organizations make their headquarters at 535 Fifth Avenue, New York, New York. (100-4712-38)

The Washington Times Herald for May 26, 1941, reported that the America First Committee together with the Committee Against War and the Keep America Out of War Congress had made plans for a three-day rally commencing May 30, 1941. The two latter groups are reported to contain a number of Socialists in their ranks. (100-10689-A)

Information received on May 26, 1941, reveals that united German societies held a meeting at the New York Turn Hall at which time the meeting was addressed by Dr. Fleischmann, a member of the America First Committee. (61-9879-268)

The activity of the America First Committee reached its peak during the period when it exerted its complete effort to the end of blocking the Lend Lease Bill sponsored by the administration. Thousands of pieces of literature were distributed; numerous meetings were held in the metropolitan areas and the people all over the nation were incited to petition their national representatives to block the passage of this legislation. (100-4712-16)

Two of the largest meetings sponsored by this Committee during that period were held at New York City on May 23, 1941, and Philadelphia, Pennsylvania on May 29, 1941, at which meetings approximately 30,000 people attended. Senator Burton Wheeler of Montana, Charles A. Lindbergh, Kathleen Norris and Norman Thomas were the headline speakers at these meetings. The texts of the speeches delivered were concerned with deriding the administration's foreign policy, especially the Lend Lease Bill, which they emphatically criticized as an active step towards entrance of the United States into the European conflict. Information received as of July 28, 1941, discloses that Newton Dillaway of Reading, Massachusetts received numerous communications from the German Library of Information addressed to him as Newton Dillaway, and that after this organization was closed he began to receive literature from the America First Committee addressed to him in the same manner, that is, the same mistake with the spelling of his name, and the stencil printing on the literature received from the America First Committee was identical with that received from the German Library of Information. (100-4712-109)

Information received as of August 7, 1941, disclosed that the America First Committee has a Colored Section headed by J. Finley Wilson, Chairman, and Perry W. Howard, Secretary, with national headquarters at 612 F Street, North West, Washington, D. C. This organization is reported to have distributed literature in colored circles requesting the colored population to petition their national representatives to discourage the United States from entering the European war. (100-4712-112)

Other nationally known figures who have affiliated themselves with the America First Committee are Senator David I. Walsh, Congressman Hamilton Fish, Congressman James Francis O'Connor, Congressman Dewey Short, former Governor Philip LaFollette, and Robert Hutchins, President of the University of Chicago.

Dear Walter:

Sorry I can't see you in person, but I know you are very busy, so here goes. Do you remember in our time in show business [redacted] - he 's a comic. He told me that his friend, either a world war veteran or American Legion man who lived in Butte, Montana witnessed something very interesting. b7C

While there, he attended a dinner given by either a Bund or some German society to Senator Wheeler at Butte, and that he was one of the guests. At the conclusion of the dinner, everybody stood up and gave three "Heil Hitler" cheers and salute, and right in front doing the same very nicely, was Wheeler.

Walter, if this is true, which I'm sure it is, and can be checked, it's a great feather in your cap to expose that rat. What I'd suggest is to get in touch with [redacted] b7C and in turn have him get in touch with his friend. If it sounds good, you can check on it from Butte some way and the rest is easy.

I can get in touch with [redacted] and assure you I will be happy to work with you on this case just for the asking, so if you care to have me start the proceedings, just call on me and I'll do all I can to bring this thing to a head. b7C

Re: AMERICA FIRST COMMITTEE

Dear Sir:

On September 23, 1941, Mr. THOMAS GREGORY, of the America First Committee, Commerce Street, Newark, New Jersey, called at this office suggesting that the Bureau have some agents present at a meeting being held on that same date, September 23, 1941, at Newark, New Jersey, at which Senator GERALD P. NYE was to be the principal speaker.

Mr. GREGORY was advised by Special Agent (A)[redacted] b7 that the Bureau had no jurisdiction in the matter of providing protectors or maintaining order at such meetings, and that such protection and order as was necessary should be handled by the local police. Mr. GREGORY then suggested that the Bureau would probably like to have agents present more or less as observers to see exactly what was going on. He suggested that having observers present might be to the benefit of the Bureau in that if any so-called Nazis were present the Bureau might like to observe this firsthand. Agent [redacted] b7C again pointed out that this was a matter in which the Bureau did not have jurisdiction and that no agent would be present to furnish protection, maintain order or observe.

The above is being furnished for your information.

Very truly yours,

RE: AMERICA FIRST COMMITTEE
MEETING AT OLYMPIC AUDITORIUM,
Los Angeles, California,
October 2, 1941.

Dear Sir:

As you were previously advised, Attorney General FRANCIS BIDDLE requested me, when on the West Coast, to have the meeting of the AMERICA FIRST COMMITTEE at which Senator BURTON K. WHEELER was to speak in Los Angeles, attended for the purpose of furnishing him with a report.

This meeting was held at the Olympic Auditorium in Los Angeles at 8:00 p.m., October 2, 1941, and the auditorium was filled to capacity. There was an estimated attendance of slightly over 8,000.

The hall was well-decorated with American flags, bunting, and various signs bearing slogans such as "NO A.E.F.," and "Keep Our Factories Humming for National Defense, But Keep Our Boys in the United States." While the auditorium was being filled, community singing was engaged in, and at 8:10 p.m., Senator WHEELER and his party, including a woman dressed in a costume as the Statue of Liberty and an Indian in full costume including a feathered head dress, mounted the speaker's platform. From the ovation extended the Senator at that time, it was obvious that the audience was very sympathetic and friendly towards the AMERICA FIRST COMMITTEE and Senator WHEELER. At this time the crowd rose to its feet and afforded the senator a demonstrative reception. There was applauding, screaming, and much waving of handkerchiefs then and at various other times during the meeting. There was a vocal number of the AMERICA FIRST COMMITTEE song and the song of the Gold Star Mothers of America, both of these following the playing of the national anthem.

100-4712-158

RECORDED

The first speaker was Attorney JOSEPH SCOTT, who made an appeal for funds, and he based this appeal upon the following story: He stated that when he was a young man, his

grandmother had presented him with a Liberty Bond, stating it to be a token that the last World War was one waged for righteousness and it was her investment in his future, made in the hope that he could live in a peaceful, free, and democratic world. After the Treaty of Versailles, his grandmother stated to him that she had been deluded, and that the treaty was one which would only lead to more wars. He continued by stating the Government, in order to pay the bond and its indebtedness, which is evidenced by the bond, actually taxed him in order to pay the debt which was due him.

He stated, therefore, that the collection which would be taken up that evening was an investment, and that the cost of any future war would assume staggering proportions in so far as it would relate to any individual. He added that any money which was contributed might well be regarded as an investment to protect the people against future greater debts. It was his opinion that the minimum cost per citizen--should we enter this war--would be $2,000, and approximately $7,000 per bread-winner. At this time the ushers passed up and down the aisles taking a collection. It is not known at this time how much was obtained.

Senator WHEELER was introduced by JOHN STEVEN McGROARTY, who referred to the senator as a lifelong friend. McGROARTY is referred to as the poet laureate of California, and was at one time a member of the United States Congress.

The theme of Senator WHEELER'S speech was conerning the fact that there are many people in America today who were against this country's entry into any war, but were afraid to speak. He is too frequently met with the response, "We Are in business," meaning that people were not in a position to express their views as they were in business and were actually against entry into war but were afraid to express their opinions. He stated he was unalterably opposed to America's entry into any foreign war and was now trying to force the President to keep the promises made to the American people when he was seeking their votes to re-elect him to a third term. He quoted President ROOSEVELT'S speeches to the effect that he, President ROOSEVELT, was

against war, and he defined war as meaning "shooting." He also quoted President ROOSEVELT'S pledge that American boys would never be sent outside of the Western Hemisphere. He then stated that President ROOSEVELT had broken these pledges inasmuch as he had ordered the American Navy to shoot and also that he had occupied Iceland after consulting the Parliament of Iceland without consulting the Congress of the United States, and that he had stationed American soldiers in Iceland under command of British officers. He added that Iceland is situated in the Eastern Hemisphere and that "Not even a magician like WENDELL L. WILLKIE could bring it back into the Western Hemisphere."

Senator WHEELER launched an attack upon President ROOSEVELT'S statement that religious freedom in Russia is the same as in America. He quoted figures as to the number of priests, bishops, and other clergymen who had been killed by Communist overlords, and then gave as his source for these figures the title of a book, volume, and page number, the book being one written by WINSTON CHURCHILL. This statement was met with wild applause and enthusiastic cheering.

He then stated that from this fact, it might well be assumed that American soldiers would shortly be fighting side by side with Communist soldiers for the protection and preservation of Communist Russia. During the course of the speech, Senator WHEELER also stated he was against Nazi oppression and mentioned a tour he had made through Germany and the persecution he had witnessed there.

He referred to the present cooperation between England and Russia, and stated it was an "Unholy Alliance." The Senator launched an attack against the motion picture industry, and stated that the people in attendance at this meeting had not been attracted by glamorous movie stars, Bingo, bank night, and so forth. He attacked the industry as spreading war propaganda and stated that in years to come, the motion picture industry would t[illegible]dict Arnold if America gets involved in the present war. He stated the industry was attempting to build up a war spirit, resulting in active participation in the war. In speaking of the motion picture industry, he referred to the stand which

is being taken towards the Jewish race, adding that this is the reason this industry is putting forth every effort by way of propaganda pictures. He stated Jewish refugees have come to this country and are presently being feted and living in luxury and attempting to have the United States fight the war for them and for their cause. He criticized the regiment of British actors who are serving the present war from Hollywood Boulevard, and stated he was aware that not all of the producers were engaged in war propaganda, adding that the Senate investigation is directed against those who are.

During his talk, the senator stated that he was not anti-British, that he greatly admired the British people for being smart people, and he always admired smart people. He sarcastically outlined the role played by Great Britain during the last war, stating that that nation first requested America for money, which was furnished; then they requested a small token army to boost the morale of the allies, and a token army was given, which was followed by the A.E.F. He stated we did this because the smart people in England had told America it was fighting her war. He stated that when the war was over and after many of the men sent over failed to return, when America tried to collect her war debt, the smart people of England characterized America as "Uncle Shylock."

He then drew a parallel in present day events in the Lend-Lease Bill and the transfer of bombers and ships, and stated that shortly the President was contemplating introducing a bill authorizing the arming of American merchant ships. He stated that prior to the last war, a bill authorizing the arming of merchant ships was passed, and 21 days later America was in war.

The senator did not refer to Germany and Italy to any extent, only stating that the world has no room for dictators and dictatorships, and that Americans will continue to live in a democracy by supplying England with materials to carry on her war against the Rome-Berlin Axis.

He also mentioned CHARLES LINDBERGH as being a true and loyal American citizen who puts heritage above all, and he is being supported by all real Americans. This statement was received

RE: AMERICA FIRST COMMITTEE MEETING AT
OLYMPIC AUDITORIUM, Los Angeles,
California, October 2, 1941.

with great enthusiasm by the audience.

The meeting was generally orderly, with only two incidents being noted by the observers. Upon launching his attack against the movie industry, one person in the audience rose and called Senator WHEELER a liar. It was a minor disturbance, and this individual was ejected by the police. A middle-aged woman stalked down the aisle on the main floor of the auditorium to inspect the Indian at close range, stating she did not believe he was a real Indian. There was no violence with this incident, and the entire thing was greeted with laughter by the audience.

In general, the audience was very attentive and receptive, and the applauded the speaker most loudly when he referred to statements about keeping America out of the present war and keeping American boys at home. Although his accusations against the President of not keeping his 1940 campaign promises, and his jests of WENDELL L. WILLKIE drew applause from the audience, at no time was there hissing or booing at the mention of the name of the President or that of WENDELL L. WILLKIE. Before, during, and after the meeting, pamphlets and papers were passed out and copies of two of them are being attached to this communication. The Los Angeles press reports that 11,000 persons were in attendance at the meeting.

Re: AMERICA FIRST COMMITTEE

Dear General Watson:

Information has been received to the effect that the above Committee held a rally at the Olympic Auditorium in Los Angeles, California, on October 2, 1941, which rally was attended by an estimated audience of between 8,000 and 11,000 persons.

It is reported that the walls of the auditorium were decorated with American flags and various signs bearing slogans such as "No A.E.F." and "Keep our Factories Humming for National Defense, But Keep our Boys in the United States."

It is further reported that when Senator Wheeler and his party mounted the Speakers' Platform, the crowd rose to its feet and afforded the Senator a demonstrative reception. There was applauding, screaming, and waving of handkerchiefs. It is stated that the ovation extended to the Senator at this time by the audience made it apparent that it was very sympathetic and friendly toward the America First Committee and Senator Wheeler.

It is stated that Senator Wheeler was introduced by John Steven McCrearty, who referred to the Senator as a lifelong friend. McCrearty is alleged to have been at one time a member of the United States Congress.

It is stated that the theme of Senator Wheeler's speech was concerning the fact that there are many people in America today who are against this country's entry into the present war who are afraid to speak. He is alleged to have stated that he unalterably is opposed to America's entry into any foreign war and is now trying to force the President to keep his promises made to the American people when he was seeking their votes to an election to a third term. It is reported that he quoted President Roosevelt's speeches to the effect that he, President Roosevelt, was against war and that he defined war as "shooting." Further, that he quoted President Roosevelt's pledge that American boys would never be sent outside of the Western Hemisphere. MEMORANDUM FOR THE ATTORNEY GENERAL

RE: AMERICA FIRST COMMITTEE

In accordance with your recent request that an Agent of this Bureau attend the America First rally to be held in Los Angeles, California, on October 2, 1941, for the purpose of ascertaining the size of the audience and its reactions to Senator Wheeler's statements, the following is being furnished:

The meeting was held at the Olympic Auditorium in Los Angeles at 8:00 P.M., October 2, 1941, at which time this auditorium was filled to capacity. There was an estimated attendance of between eight and eleven thousand persons.

The walls of the auditorium were decorated with American flags and various signs bearing slogans such as "No A.E.F." and "Keep our Factories Humming for National Defense, But Keep our Boys in the United States."

When Senator Wheeler and his party mounted the Speakers' Platform, the crowd rose to its feet and afforded the Senator a demonstrative reception. There was applauding, screaming, and waving of handkerchiefs. It was apparent from the ovation extended to the Senator at that time that the audience was very sympathetic and friendly toward the America First Committee and Senator Wheeler.

The first speaker was Attorney Joseph Scott, who made an appeal for funds for the instant organization. He based his appeal for funds on a comparison between the purchasing of Liberty Bonds during the last war as an investment in the future and the giving to the America First Committee as a present investment in the future. Subsequent to Mr. Scott's speech, a collection was taken and it is not known at this time how much was obtained.

Senator Wheeler was introduced by John Steven McCroarty, who referred to the Senator as a lifelong friend. McCroarty is referred to as the poet laureate of California and was at one time a member of the United States Congress.

The theme of Senator Wheeler's speech was concerning the fact that there are many people in America today who are against this country's entry into any war but are afraid to speak. He stated that he too frequently meets with the response, "We are in business", meaning that people are not in a position to express their views as they are in business and are actually against entry into war but are afraid to express their opinions. MR. KRAMER

RE: AMERICA FIRST, INC.
National Office - 141 W. Jackson Blvd., Chicago, Illinois
New York Office - 515 Madison Ave.

The following information concerning the above organization was obtained from an outside unknown source dated at New York, New York, on August 4, 1941.

This organization was originally planned by R. Douglas Stuart, Jr., 24 year old law school senior in 1940 at Yale University. He is the son of the first vice president of the Quaker Oats Company. The first person contacted when the committee was formed was Col. Lindbergh, and another was Earl Browder. These people met with Stuart and later on General Robert Wood, head of Sears-Roebuck Company, Edward L. Ryerson, a director of Inland Steel; Mrs. Jeanette Ayer Fairbanks, a wealthy woman; and Chester Bowles, chairman of Benton and Bowles, an advertising agency, made up the picture. Soon William Castle, Under-Secretary of State in the Hoover Cabinet and the original master mind behind Lindbergh was added, then Senator Wheeler and Senator Bob Taft. At the very start this organization had a tremendous amount of money on hand, despite the claim that they never accept more than $1,000 from any one person.

In the East, Thomas N. McCarter, former chairman of the Public Service Company of New Jersey, is one of the leaders, and he is said to be the contact man for Joe Pew, the millionaire Republican leader of Pennsylvania.

Henry Ford and Jay C. Hormel are members of the Committee. Kathryn Lewis, the daughter of John Lewis, is one of the active members, and for the Catholic element we find John T. Flynn, Reverend Father Coughlin, and John O'Connors. Other members are General Hugh S. Johnson, Alice Roosevelt Longworth, Amos R. Pinchot and Louis T. Taber.

Secretly there was a tremendous Jewish group backing the America First until just recently. This Jewish group had as its front the Guggenheim Foundation, and the committee was quietly subsidized for tremendous sums of money. The Guggenheim interest has always fronted for Lindberg, but a few weeks ago the Jewish group withdrew all financial support. A number of the members of the committee quietly withdrew or became inactive. This was due to three reasons.

1. America First was set up because of the hatred for President Roosevelt and the purpose was to do everything possible to embarrass him in every way possible.

2. Mrs. Wheeler, the wife of the Senator, is bitterly anti-Semitic. She is a stock-holder of the Chicago Tribune, and Col. McCormick, the Tribune's owner, has as his man Harry Jung, head of the American Vigilante Intelligence Federation, who is also strongly pro-Nazi and anti-Semitic. It is alleged that Mrs. Wheeler, Harry Jung and Col. McCormick are using America First as a sounding board for anti-Jewish propaganda. In connection with this, Father Charles E. Coughlin of Detroit and the Christian Front Organization have just recently been officially welcomed into America First by Col. Wood, another stock-holder of the Chicago Tribune.

3. America First has a lobby strictly anti-Roosevelt at Washington. This lobby is comprised of William Castle, Alice Longworth, John L. Lewis and General Hugh S. Johnson. Each and every one of these are bitter enemies of the President.

This group had to figure a way to reach at the President through probably the most bitter attacks in the history of the world. The Hatch Act would not permit large political contributions to the campaign funds, so this organization, America First, has as its base enemy President Roosevelt, and consequently anything he attempts, no matter what it concerns in regard to war and Britain, will be attacked by America First.

In other words, this organization which is cooperating with every branch of anti-war groups, such as the I.R.A., Christian Front, anti-British, Catholic groups, and every pacifist group in the country, make it an organization that will always have to be watched.

From the Communist angle, William Castle has on his payroll William Sanger, a former Communist Stalin School graduate. Sanger now receives $250 a month and is located at Washington.

When the present Pope who then was Papal Secretary, was in the United States on a visit, he confided to certain members of the church th he thought that the American priests, outside of the Irish, were a lazy lot. Since then a peculiar thing happened that makes one consider. Cardinal Dougherty of Boston sev rely criticised Father Coughlin and tried to have his removed. Cardinal Dougherty went to Rome on the matter. In the meantime, Coughlin started an attack on the Jews and the British, and he was only mildly chastised for his actions, and ever since he has been on the war-path now that the Irish groups in the Catholic Church and the Knights of Columbus have become very bitter and active against Britain and Roosevelt, and no one is saying a thing to them. They are running wild, and ex-Congressman John O'Connor, one of the most staunch friends of the I.R.A. has been acting as attorney for Coughlin's organization, the National Union for Social Justice.

The America First has a great fortune back of it. Among the monied people are General Wood, Mrs. Jeanette Ayer Fairbanks, Frank O. Lowden, Thomas H. McCarter, Edward L. Ryerson, and Pew who controls the Sun Oil Company.

Dear Sir:

For your information, I am quoting below the contents of an anonymous communication recently received in this office.

"On Wednesday evening, August 27, 1941, at a meeting in Redford High School, Redford, Michigan, to organize a new chapter of the America First Committee in Redford, Mr. Vietig, executive secretary for Michigan, said, among other things:

No matter what the United States law is on the subject "Don't allow your rifle or shotgun to be taken from you under any pretext from now on.....And the aliens and alien philosophies who run the government had better not try to take the hunter's guns from them. Don't let your guns leave your hands.....And keep them well oiled and ready for use, like all good hunter's do".

Fierce battles raged all day Friday before Budenny's lines protecting Kharkov and Kursk, the Mail added, with von Rundstedt's panzers probing for weak spots in the Red front.

Simultaneously von Rundstedt launched a new attack against the Russians standing before Rostov-on-Don, north of the Sea of Azov.

But everywhere, the Mail said, the Germans are meeting with fierce resistance, with heavy tank battles involving many hundreds of tanks raging east of Dniepropetrovsk.

Lindbergh Fears Loss of Liberti

Tells Fort Wayne Rall This Address 'May Be My Last'

FORT WAYNE, Ind., Oct. 3.—(INS)—The administration has shown by "many signs" that it may clamp down on free speech and end free government in America, Charles A. Lindbergh declared tonight in an address which he said "may be my last."

In the first speech he has given since the one in Des Moines for which he has been under fire, the aviator hinted that he believed the end of free elections was in sight.

"The time has come when we must consider even that," he said.

Lindbergh opened his address before an America First rally with the words:

"When I speak to you here in Fort Wayne tonight, I realize that it may be my last address.

Sees Many Signs

"How much longer free speech will be possible in the United States, I do not know. But I do know that an administration which can throw this country into unde-

as free speech ends in this country, it means that we are no longer a free people. It means that we are about to enter dictatorship and probably foreign war. It means that we will be forced to do this against the will of the people just as we have been forced into an undeclared naval war against the will of our people."

Dangers Sketched

Sketching the dangers he said America now faces, Lindbergh continued:

"The interventionists claim we have reached our present position by taking steps which the majority of the people approved of, and that, therefore, the will of the people has prevailed. The fact is that we have reached this position by following the false promises of the interventionists and our administration in Washington. Not one step the administration has taken in these last two years has been placed honestly before our people as a step toward war . . .

"Instead of seizing every opportunity to draw us further from the war, the president and his administration have not missed a single chance to push us closer to it. Instead of avoiding incidents of war, they have created them. Instead of following our mandate to stay out, they have, by subterfuge and dictatorial procedure, led us in.

"They have not only turned their backs on their campaign promises but they have been treating our congress more and more as the German reichstag has been treated under the Nazi regime.

"Congress, like the reichstag, is not consulted."

Gloomy Picture Given

Pointing to the consequences of entering the war, Lindbergh asserted that it would be necessary to turn America into an armed camp, create a military force strong enough to cross the Atlantic and invade the continent and survive a coming wave of prostration, famine and disease.

The aviator charged that administration leaders have not presented a fair picture of these consequences.

"It is essential for us to realize that what we used to call representative government, American independence and the American way of life is rapidly becoming a thing of the past," he said.

"Recently—no one will ever know the exact date—we began following a road which involved the abandonment of our most fundamental customs and traditions . . . We must face the fact that you and I and our generation have lost our American heritage. It is no longer a case of defending it. It is a case of rebuilding it."

WAR IN THE MAILS

A brief outline of the investigation to uncover and expose the Nazi campaign of disruption through the United States mails . . . by HENRY HOKE.

Prepared for Senator Burton K. Wheeler

I have been engaged in the Direct Mail Advertising business for twenty-one years. I have consistently crusaded for more effective, efficient and honest use of the mail for selling merchandise or ideas. At present, I am the publisher of the only magazine devoted exclusively to this form of advertising.

During September of 1939, I became alarmed at the increasing use of the mails (by foreign governments) for propaganda purposes. With the assistance of my contacts around the country, we began collecting evidences of the foreign inspired mailing campaign reaching into every phase of American life . . . the home, the office, the campus, the school room, the factory, the church—and even into Congress.

In May of 1940 I published my first article denouncing the misuse of our mails by foreign governments—and I asked the Post Office for a fraud order against the German Agencies. Unfortunately, a fraud order is issued only against those who ... money fraudulently by mail. There is no law to apply ... those who would disrupt and wreck the United States ... subversive mail campaign.

Immediately after the appearance of this article, Ernst Schmitz, Manager of the German Railroads Information Office wrote a letter to my home demanding an apology and implying the possibility of a suit for libel.

I answered Schmitz in my magazine (see Exhibit A-1). Newspapers picked up the story. As a result, many persons who had never heard of the term "Direct Mail Advertising" learned about my work. They sent or brought me additional evidence. Many of these people were German Americans who love America and who have watched with growing fear the Hitler drive to disrupt our country by dividing our thinking.

Working in cooperation with many experts in advertising and investigation, we compiled a composite picture of the far-flung and intricate Nazi mail campaign. This composite picture was presented to all investigating branches of the Government during the summer of 1940.

It is a matter of record that the Dies Committee raided various German Agencies such as Library of Information, Railroads Information Service, American Fellowship Forum, etc.

Most of the evidence obtained can be studied by securing from the Superintendent of Documents, Washington, D. C., a copy of Appendix Part III of Preliminary Report on Totalitarian Propaganda in the United States, released by Dies Committee on un-American Activities.

So that you can have in your files the exact evidence I presented to the Dies Committee, I am enclosing tear sheets of article which appeared in my magazine last July.

As a supplement to this evidence, I am attaching a photostat of a chart (Exhibit A-2) which shows the set-up of the Nazi mail campaign directed against the American Way of Life. We have actual concrete pieces of evidence to substantiate all divisions of campaign. (See Dies Report or The Reporter for July 1940.)

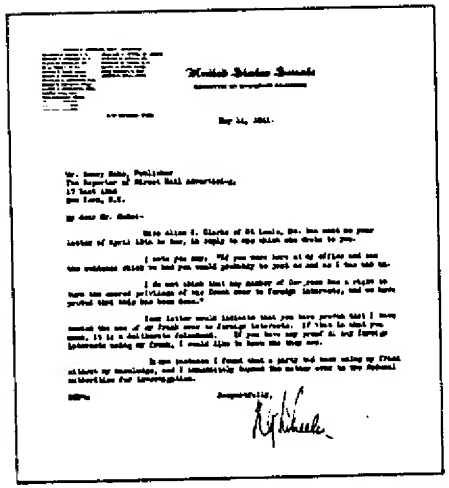
Briefly described, the Nazi mail attack on the United States can be divided into two main divisions:

(1) the attack from without, and
(2) the attack from within.

The attack from without has been directed for a number of years toward United States citizens or residents with foreign heritage or ties. Purpose: to get them to work for Hitler in the disruption of America . . . on the principles which Hitler himself has voiced:

> "America is permanently on the brink of revolution. It will be a simple matter for me to produce unrest and revolts in the United States so that these country will have their hands full with their own affairs."
>
> "National Socialism alone is destined to liberate the American people from their ruling clique. I shall undertake this task simultaneously with the restoration of Germany to her leading position in America."
>
> "I guarantee that at the right moment a new America will point as our strongest supporter when we are ready to take the stride into overseas space."

All of this Nazi propaganda, telling German-Americans what books to read, what radio stations to listen to, how to answer



questions, how to stir up the Jewish question was delivered by U. S. Post Office free of charge under the liberal rules of the International Postal Agreements.

The attack from without has now been stopped temporarily by the action of the Post Office Department (during January 1941) in seizing and burning foreign propaganda mail on the technicality that the senders had not registered as a foreign agent. Re-entry of this mail is possible by having necessary forms filed.

The attack from within America is directed, controlled and financed by the German Consulates . . . no longer diplomatic agencies. These German Consulates contact Bund Leaders, Agents, Business Executives, Legislators, Teachers, Military Officers. The mail attack here is limited to personal instructions and confidential bulletins to the other divisions of the propaganda set-up.

The German Library of Information issues its propaganda sheet regularly to some ninety-six thousand ministers, school teachers, editors of college papers, publishers, cultural leaders, legislators, columnists, etc., in an effort to convince leaders of thought that the Hitler system is better than our American Way of Life. This has been a constant barrage for the past six or seven years. Its effect on certain religious and student groups has been particularly noticeable.

The German Railroads Information Office sends weekly bulletins to some fifty thousand travel agencies, hotel executives, brokers, editors, military officers, bankers, civic leaders, "appeasers" . . . in an effort to show the successful operation of industrial life under Hitler. Behind this cloak of Direct Mail bulletins, Manager Ernst Schmitz entertains American Legion Officers, Army and Navy men, business leaders and Legislators—trying to win additional appeasers. In every country seized by Hitler so far, the German Railroads Information office has been the center of spy and disruptive "cultural" propaganda activities. No exception here.

The German Board of Trade operates as an American Corporation but the men at the top are known Hitler propagandists (such as Dr. Dresener, and Dr. Wuensche). They send their skillfully edited monthly magazines to big advertisers, business leaders, executives, exporters, financiers and colleges —in an effort to convince Americans that Hitler is bound to win and that "business better play ball."

The fifth division of internal propaganda activity is the most dangerous at present. The Germans have sponsored "patriotic organizations" in all defeated countries and duplicates of them are in full blast in the United States. In this category fall all the organized and unorganized mailing activities of individuals or groups who have been "sold" that "Hitler means no harm to America"—and who participate in carrying out Hitler's scheme of "Divide and Conquer."

EXHIBIT A—1

A Letter To

SENATOR BURTON K. WHEELER

Written by Henry Hoke in an answer to the Senator's inquiry of May 14th, 1941.

May 20th, 1941

Dear Senator Wheeler:

Never was a letter more welcome than yours of May 14th.

In every city where I have appeared before Civic Groups with the evidence of subversive activities in the mail, I have stated: "I hope Senator Wheeler ... some other member of Congress will register a complaint so that this whole mess can be thrashed out publicly."

You have answered my prayer by asking for evidence.

First: I submit exhibit marked "A" which outlines my work and my position briefly. You need that explanation in order to understand the background for my charges.

At the conclusion of Exhibit "A" you will see reference to the activities of individuals or groups within the United States. It is in this division of the Nazi scheme that the evidence you ask about appears.

I have claimed since May, 1940, that:

MEMBERS OF CONGRESS ARE AIDING THE NAZI PLAN BY ALLOWING THE USE OF THEIR FRANKING PRIVILEGE FOR THE DISSEMINATION OF DISRUPTIVE PROPAGANDA.

I make this claim constantly in my talks. I repeat it to you. And, I am sorry to say, Senator Wheeler, that all evidence collected forces me to include you in this wholesale unethical use of the franking privilege.

Before submitting this evidence concerning you and other members of Congress, let me emphasize that I do not care to argue with you concerning your political position. You, as an elected representative of the citizens of Montana, and you as a citizen of the United States, have a right to your own opinion (as we all have).

As I told Miss Clark in the letter she sent you, "I don't like what Senator Wheeler is doing because I think he closes his eyes to the facts." That thought still stands.

You and Senator Nye and the rest to be mentioned later, can try as you will to make this world situation sound like an old fashioned "border dispute": you can close your eyes to the world-wide scheme to disrupt our way of life; you can speak at meetings of the America First Committee and smilingly acknowledge the roars of the anti-American crowd in booing and hissing the President of the United States; you can stand uncomplainingly while the Nazi-packed auditorium cheers the Lindbergh line that Hitler cannot be licked. That is your privilege as an American citizen. You take your chances with the judgment of history.

Those of us on the other side of the fence simply think you are unwise and misguided in aiding the forces of disruption by openly sponsoring causes which Nazi propagandists have proclaimed so vigorously by mail.

You may have a legal right to allow the use of your franking privilege as part of the propaganda drive to divide our thinking—but there is something wrong with our laws when this franking privilege can be turned into a propagandists free-for-all at the expense of the taxpayer.

WHAT IS FRANKING PRIVILEGE?

What is the franking privilege? It was originally intended to provide members of Congress with a means of carrying on free correspondence with constituents. It is true that the franking privilege has been generally used around election time to win votes from constituents. Surely, the early legislators did not visualize that a day would come when a Representative from a Boston district, for example, would allow his frank to be used to disseminate foreign-inspired propaganda to a national mailing list. Neither did the originators of International Postal Treaties foresee the day when an unfriendly foreign government could get its disruptive propaganda carried free by the mail carriers of the United State Post Office.

Did you know, Senator, that the postal laws provide for no penalty in case of misuse of the franking privilege? Did you know, however, that a penalty of $300.00 is provided for each misuse of free penalty mail by the Executive Branches of the Government? Did you know that the Post Office has no recourse against members of Congress who misuse the franking privilege except to call the member personally and tell him, "please don't do it again?" Perhaps that is why members of Congress have been free and easy with the lending of their frank. No penalty!

Under the franking privilege regulations, a member of Congress may send bundles of unaddressed franked mail to one agent who may address and mail such material without payment of postage . . . but the Post Office frowns upon and usually prohibits (when discovered) the promiscuous distribution of franked mail to be addressed by unknown miscellaneous people.

And yet, we know that unaddressed franked mail under your signature and under that of former representative Nazi-minded Jacob Thorkelson of Montana has been distributed by your violent adherent Donald Shea at his anti-Semitic meetings and by Nazi-loving, Jew-baiting Joe McWilliams at Christian Front meetings. Recipients were instructed to address the franked envelopes and dump them into nearest postal box, without payment of postage.

Franked mail of other Senators and Representatives has been likewise bundled and passed out at meetings of the Bund, the America First Committee, the No Foreign War Committee and other groups of notorious reputation. This is against the letter and the spirit of the law.

How can this be possible! It is not done without the knowledge of these members of Congress—because you and every other member of Congress must sign a requisition before Public Printer Giegengack will deliver the printed franked envelopes to the designated one agent provided for in postal regulations. You cannot disclaim responsibility for the unauthorized use of your frank because you alone can order and it is up to you to protect the distribution of your signature.

This distribution of franked unaddressed propaganda mail has reached alarming proportions. Just before his death,

the late Senator Lundeen was allowing his franked mail to be distributed in bundles to re-addressers, who in some cases caused unaddressed envelopes to be placed secretly on the desks of prominent New York executives. (Evidence in our possession.)

Can you tell me why a Senator representing the people of Minnesota should be willing and anxious to have his strangely inspired divide-opinion propaganda delivered to the citizens of New York State? Who paid the bill for this? The taxpayers help pay for the carriage through the mail. The reprints are labelled "not printed at Government expense" but you have seen the price list for reprints, at a below cost rate. Who pays for the reprints even at the below cost rate? Surely, not the Senator . . . out of his salary.

HERE IS EVIDENCE!

Now, I'll show you specific evidence:

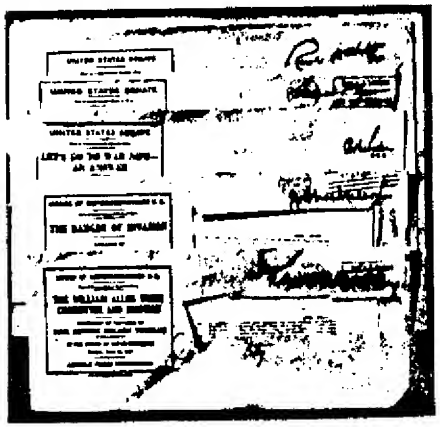


EXHIBIT B

I submit picture (marked Exhibit B) which shows the franked mail received by a German-American (the name and address style being identical with that on the mailing list from Munich) during the month of December, 1940. We remove his name because he has relatives in Germany. His name is spelled identically on the pieces received from Senators Nye and Wheeler and ex-Senator Holt; and on the pieces from George Holden Tinkham and ex-Representative Thorkelson. By a strange coincidence, the pieces from Holt, Nye, Tinkham, and Thorkelson are addressed in identically the same handwriting.

your case, the envelope is addressed with a strange old ...ioned type of stencil, which has been out of general use ...many years. Investigation among addressing machine manufacturers reveals that less than 25 firms in the city of New York still use this old fashioned addressing system. Less than three of those machines use the peculiar blue ink which appears on your franked envelope. So we have narrowed the search for your ...cent to one of the other of two. Understand that all five ... these pieces were mailed in New York to a New York G...rman-American list. Isn't that unwholesomely strange ... coming from Senators from West Virginia, North Dakot... Montana and Representatives from Massachusetts and Je...ntana? Why the use of the German list? And, why ...s the material within the envelopes reprinted from ses...ons of Congress dating June 12th, November 26th, Augu... 21st, June 22nd and June 31st (respectively . . . in order pictured from top down)? Could it be that this material was entered (staged) early and held for concerted action until just before the known period of the entry of legislation for the protection of Democracy against the inroads of Hitler?

What is the material in these envelopes? You know the answer. The same old inspired stuff . . . "no danger from Hitler . . . let's not get ourselves excited at the World going to pieces . . . let's do everything possible to block all help to the victims of Hitler's might, etc., etc., etc . . . " It is propaganda, of the Nazi inspired variety. It is the same kind of propaganda appearing in the German Library's "Facts in Review." It is the kind of propaganda which wins you and Senator Nye much space and praise in the German controlled press. It was carried free by the United States mail. It was mailed by some German organization or by some organization having access to and free use of THE NAZI MAILING LIST.

Do you consider this, Senator Wheeler, as a patriotic, truly American practice? Even though it may be legal, do you consider it ETHICAL for a man elected to represent the citizens of a district in Boston, George Holden Tinkham, to allow his frank to be used by some organization which also addresses mail for Holt, Nye and Thorkelson? Might it not be more appropriate to let the representatives of the people of New York do the circularizing (if necessary) to the people of their state? Do the people of the State of Montana know that you are allowing tons of propaganda to be mailed under frank free of charge, but at a definite cost to the tax paying citizens of the whole United States? These are questions for your own conscience. And, Senator, who is paying the bill for all of these reprints? Who . . . and WHY?

LOOK AT THE LAW?

Let's consider the LAW. One section of the Postal Laws and Regulations is written in plain language. See Chapter 4, Sec. 613 (1932) which reads as follows: "It shall be unlawful for any person entitled under the law to the use of a frank, to lend ... permit ... use by any committee, organization, or association, or permit its use by any person for the benefit or use of any committee, organization, or association. This provision shall not apply to any committee composed of members of Congress."

That law sounds clear but it doesn't mean what the average citizen would think that it means. That law means that a member of Congress cannot allow his signature (or frank) to be placed on the stationery of an outside organization containing material of that organization.

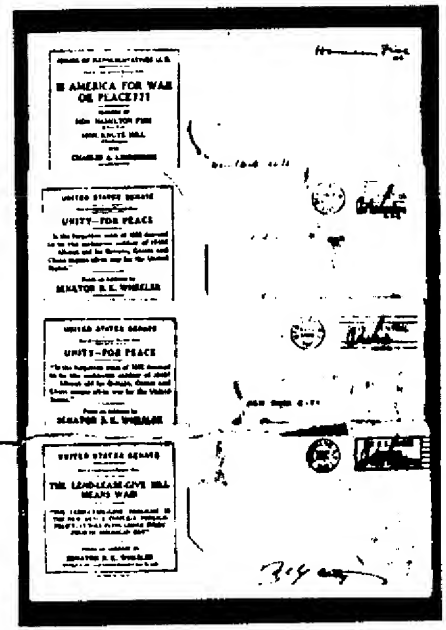
But, Senator, haven't we all arrived at a dangerous position where something should be done to clarify this law or to make it read so that it means what it sounds like? Isn't it true that the franking privilege is really being lent to outside committees or organizations under the guise of a legitimate use of the frank?

For example, I can submit an envelope bearing your frank post marked Washington, D. C., on May 10th, containing reprints of outside speeches made by you and Representative Roy Willis and introduced into the record by Senators Taft and Clark respectively. The envelope was received at a Long Island address by a "dummy name" placed on the list of American Coalition Society, who number among their members such important anti-Semites as John B. Trevor and James H. Patten and whose offices must have addressed the franked mail which you must have furnished.

The mailing was actually a mailing for the Society. It was within the law which allows you to appoint an agent, but it plainly is a propaganda mailing for the Society and your cause. Why should taxpayers pay the bill for the free use of your propaganda mail? Isn't that mailing an ethical violation of law which prohibits the lending of your frank to outside organizations, even though not a legal violation? Shouldn't something be done about all this?

We have other unusual cases (see Exhibit B-1). On March 15th an advertising manager of a magazine published in New York received for the first time franked mail from Representative Ham Fish. It contained the usual line from Fish, AND LINDBERGH (who is not yet a member of Congress). On April 17th, this same advertising manager who had not been receiving franked mail before, received one of your franked envelopes containing reprint of a speech you made on March 24th (same agent handling both yours

EXHIBIT B—1



and Fish's propaganda). Lo and behold, along on May 2nd, our German-American friend (previously mentioned in Exhibit B) received one of the same franked envelopes containing your March 24th speech addressed with the peculiar old fashioned blue stencil used during the big December appeasement drive.

Here is another case! On February 22nd (of this year) you allowed or caused to be mailed from Brooklyn, New York, under your free frank, an unknown number of letters to prominent Irish American names in New York City in an envelope which blared out the advertising that "Lend Lease Bill means War" and that "it will plow under every fourth American boy." (Later, slogan was picked up by Communists and distributed widely around many a college campus.)

Inside your franked envelope was a small slip containing remarks made by you in Senate on January 12th. You enclosed (or allowed to be enclosed) a form letter processed on the stationery of The Committee on Interstate Commerce. I am attaching a photostat of this letter. (Exhibit C.) It follows all the Direct Mail rules of technique. It is an appeal by a Senator from the State of Montana to certain citizens of the State of New York to bring pressure on duly elected representatives of New York citizens to vote against 1776. Understand, Senator Wheeler, I would charge you with the ethical misuse of the United States mail, even though you had been campaigning on the other side. Many of the people on this particular Irish mailing list resented your intrusion and presumption.

Will you answer these questions?

(1) Why does a Senator from Montana feel it necessary to usurp the prerogative of the Senators from New York in approaching their constituents?

(2) Why was a mailing with your frank made from Brooklyn? Could it be possible that the offices of the discredited Fascist-minded Christian Front handled the mailing? If not, who did?

(3) Why did you use the stationery of the Committee on Interstate Commerce to send out a purely personal appeal? (Which appeal was not about Interstate Commerce.)

Did the members of the Interstate Commerce Committee vote to allow you to use their Committee stationery to send out this personal appeal about a topic on which many of the members (listed on letterhead) disagreed with you (such as New York's Senator Wagner)?

Do you dare to reveal who or what organization paid for the printing and addressing of that meddling letter?

TIME FOR ANALYSIS!

Isn't it about high time that the tax paying citizens of this country find out what is going on within the Halls of Congress . . . and out just how far any member of Congress can go in spending the taxpayers money for deluging the country with propaganda?

I am a plain, ordinary citizen, Senator. I can't require you to answer questions. But I think you owe it to the country to make an explanation. Perhaps some patriotic citizens of Montana could demand that you explain.

You can not be unaware that all of this is going on . . . that this cancer of disruption is spreading into the structure of our mail system. You cannot disclaim responsibility or knowledge of the misuse of your frank. You alone are responsible. You have allowed widespread and promiscuous use of your frank for propaganda purposes. You know or should know that batches of your franked mail for promiscuous addressing have been passed around at meetings attended by Nazis, anti-Semites, Fascists and those who do not love America. You, in the material circulated nationally under your frank have helped to carry out the Nazi theory of "Divide and Conquer." You have helped in creating the wave of racial and religious intolerance sweeping the country by such statements as "Now we find these same international bankers with their friends the royal refugees and with the Sassoons of the Orient and with the Rothschilds and Warburgs of Europe in another theme song . . . Our investments in India, Africa, and Europe must be preserved. Save democracy!"

You know that these anti-Semitic statements sound very similar to Hitler's own phrasing, as: "The Jewish capitalistic warmongers, their hands stained with blood, saw their tangible pretext for realizing their diabolical plans vanish. Once again we witness a conspiracy of . . . money grabbing financial ma...nates for whom war was a welcome means for furthering ...eir aims."

Don't yo... know, Senator, that what we need in this country is ...mity of purpose, a desire to fight with words, money, str...gth, faith and tolerance the enemies of truth, kindness a... freedom?

What ha... caused you to become the leader of this gang of "divide ...d conquer" propagandists? Is it your deep personal ha... ed of the elected head of our country, who (at the very le... t) should be respected and upheld in the most crucial time... n our history? Politicians like you should stop for a mom... and read again and again and again Stephan Decatur's ... st of 1816. "My country! In her intercourses with foreig... nations, may she ever be right; but, right or wrong, my ...country." You, Senator Wheeler, are not the

man elected by the people to have "intercourse" with foreign nations. Party lines, personal grievances, should make no difference now when the head of this country is battling with enemy forces who want him discredited and ridiculed. Could it be possible that you are misguided by the plans for a Peace Party to be dominated by you, John L. Lewis, and Lindbergh? What do you and these other frank-using Congressmen want? Glory, power, defeat . . . or what?

I am not the only one who knows about the misuse of the franking privilege for propaganda purposes. You, no doubt, read the press release issued by the Overseas News Agency on April 27th. In case you missed it, here are verbatim quotes. You should have all the facts:

"WASHINGTON, April 25th (ONA)—The American public which is spending seven billion dollars for aid to embattled democracies, is also spending cash to send through the mails to mailing lists compiled by pro-Nazis, literature designed to kill aid for democracies.

Definite proof that defeatists and isolationist Congressional speeches are being distributed in enormous quantities through pro-Nazi, anti-Semitic mailing lists at the expense of the American public was obtained by this correspondent today.

In Omaha, Neb., Charles B. Hudson, violently anti-Semitic publisher, admitted to reporters that he had distributed isolationist speeches under the Congressional free mailing franks of Senators Worth Clark of Idaho, Bennett Champ Clark of Missouri and Burton K. Wheeler of Montana, and Representatives Oliver of Maine and Bolton of Ohio.

This last week in Washington, subscribers to Hudson's pamphlet, "America in Danger" received three speeches reprinted from the Congressional Record—speeches by Senators Clark of Idaho, LaFollette of Wisconsin and Brooks of Illinois. They were entitled respectively, "You are on your way to war," "Stop the march to war," and "Three steps to war."

None of the speeches were mailed from either Washington or the states the Senators represent in Congress. They all came from Omaha, Hudson's headquarters, and Hudson, whose pro-Nazi activities were exposed by the Dies Committee, has admitted sending them all.

The speeches were reprinted from the Congressional Record "not at government expense." This means only that they were reprinted at cost by the Government Printing Office.

In at least one case, the office of the Senator involved denied knowing through what mailing lists the speeches were distributed and in Omaha, Hudson told reporters that the Congressional speeches didn't come directly from the Congressional offices for distribution through him but "are sent to me from the East but I don't know who sends them."

The office of Senator Clark of Idaho involved Representative Hamilton Fish of New York in the matter. Clark's office said that the speeches were sent only to the Order of the Purple Heart under Clark's frank so far as the Idaho Senator knew, but copies were sent to the office of Representative Fish and the thousands of pamphlets distributed through pro-Nazi mailing lists were purchased through Fish's office.

Senator Clark's office denied that the Idaho Senator had given permission for Hudson to use Clark's free mailing frank."

MISUSE IS GENERAL

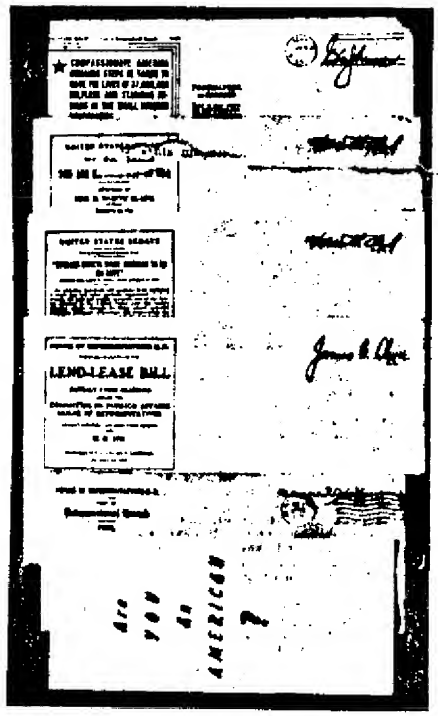
I attach photographs, Exhibit D, showing other examples of franked mail "allowed to be used" by E. C. Johnson of Colorado, D. Worth Clark of Idaho, James C. Oliver, Maine, and Clare E. Hoffman of Michigan.

Johnson of Idaho circularizes citizens of Texas asking them to feed the invaded countries (of course, that wouldn't help Hitler . . . much); the Honorable D. Worth Clark allows his franked mail to be used repeatedly by who-knows to spread the cause of disunity and apathy toward Hitler's conquests; Clare Hoffman really violates the Postal regulations because he reprints an insertion in Congressional Records booklet form with a cover bearing title "Are you an American?" It is against the law to "embellish" Congressional proceedings and mail under frank. (But why follow the law, when there is no penalty for a violation of it?)

James C. Oliver has been extraordinarily active in broadcasting tons of Nazi-decorated Lindbergh's statement inserted in the "record." A University professor in TEXAS received a franked Oliver (Maine) envelope post marked New York and bearing an address sticker obviously made from address plate of a trial subscription to Scribner's Commentator, the great appeasement and God-bless-Hitler journal. Investigation shows that these reprints of Lindbergh's statements inserted in Oliver's franked envelopes were ordered by the Washington Chapter of the America First Committee through Oliver's office under instructions received from the New York office of the America First Committee. These blank stuffed envelopes, bearing Oliver's frank, were distributed through Philadelphia, Chicago, New York and other areas for addressing by miscellaneous promiscuous unknown and unnumbered persons.

It is presumed logically that the America First Committee paid for these reprints. But they were delivered free under legal protection of Oliver's frank. Why should the America First Committee be permitted to send its propaganda through the mail free of charge? You have elected to be the spokesman for the America First Committee . . . when you well know that their meetings are packed with every breed of pro-Nazi and un-American agitators. You well know that the Nazi agents who ran the now defunct American Fellowship Forum have been and are now actively campaigning for the America First Committee. You cannot be unaware of the wave of strong-arm terrorism growing around America First meetings . . . resulting in the physical assault of "democratic" objectors. Ask me, Senator, about the beating received by a 60 year old American who objected to the un-American remarks of a speaker at an America First Committee Rally!! Is that YOUR IDEA OF DEMOCRACY?

EXHIBIT D



We could go along like this, Senator Wheeler, for a long time. We could tell you about a friend of ours who reported on March 12th by wire that he saw a sackful of franked plain propaganda mail from a certain Senator in Washington delivered to the Defender Magazine (edited by Gerald Winrod) at Wichita, Kansas for readdressing to their pro-Fascist, anti-Semitic, pro-Nazi list. (The Nazi World Wire Service recommends Winrod highly.)

That means that the franking privilege was prostituted by being loaned to an outside organization whose interests are far from American. All within the letter of the law perhaps . . . but tottering close to the hair line of TREASON.

WHAT CAN BE DONE?

I'll rest my case here, Senator. This plague of disruption . . . this insidious gnawing at the vitals of decency and of good statesmanship . . . is happening right here in America . . . in your and my America. Those who hear about it for the first time say "It can't be true." But, IT IS TRUE. A small clique of obstructionist members of Congress have prostituted their right to the franking privilege; they have turned over this right to bundists, crackpots, anti-Semites, anti-Americans; they have violated (in spirit at least) the laws and regulations governing the use of the frank. They have violated their oath to uphold the dignity of their high office. And these same members of Congress are the most loud spoken in their criticism and contempt for those who are trying to guide this country through trouble waters. They label all critics of their questionable actions . . . WAR-MONGERS.

I'm glad that you asked for an explanation of my charges. You forgot to mention that in the letter I wrote to your informer, Miss Clark, I said, "Don't think for a minute that I am a warmonger. I have three boys of my own (see letter to them, Exhibit E). I don't want to see them shot. But I believe the American people can stop Hitler if they will stop being appeasers." The time has come to get tough. You and Senator Nye have one common glaring inconsistency in all your speeches and propaganda mailings (I've read and listened carefully). You claim that "this is the same old kind of border disputes . . . that America is being bombarded by pressure to get us into war." Both of you have refused to keep in step with changes and to face the facts. This is a new kind of war of disruption . . . a war preceded by skillful mail propaganda used as a military weapon. I could prove to you and Senator Nye (if you would listen) by Post Office Records and by the minutes of the Direct Mail Advertising Association, that direct mail was only just beginning in 1914, 15, 16, 17. It was not used widely as a commercial advertising vehicle. It was not used to any extent by foreign governments.

Direct mail (see postal figures) did not start growing until the 20's. Until the advent of Communism, no foreign government used direct mail as a means of influencing the citizens of another country to accept or approve of a form of government inimical to their own. Hitler killed direct mail in Germany because he had used it to win Germany for Nazism. Hitler has built and operated the largest Direct Mail Campaign in the history of Advertising . . . a campaign designed to sell Disruption and Destruction. And, as in France, Belgium, Poland, Denmark, Holland, etc., Hitler has succeeded because he was able to get "Patriots" to participate in his unbelievably complete direct mail scheme. (Refer back to Chart marked Exhibit A-3.)

You and Senator Nye could become two of the biggest men in our history . . . by calmly reviewing the facts . . . by admitting without thought of personal pride or ambition that you were misguided or misinformed . . . and by using your prestige and new found faith in United States to help mould this country to the single dominant purpose of defeating the scourge of hate and power which is Hitler's Voice of Destruction.

Before concluding please add this pertinent information: I am acting solely as an individual citizen. I am interested professionally in the legitimate use of the United States mail. I have a logical right to uncover and print information about the fraudulent or questionable use of the mail, by business cheats, by foreign governments or . . . by members of the Congress of the United States. The dignity of your position deserves respect—and I respect it. But I cannot uncomplainingly respect the holder of the position . . . when he has used it, in my opinion, as a Voice of Disruption.

I represent no Association or propaganda group. I have been financed by no outside organization or individuals.

I am not a warmonger and I have yet to discover any evidence of so-called warmongering in the contacts I have had with business men or government officials.

For thirteen months I've waged a battle to uncover and destroy subversive activities in the mails. I've had threats and I've been taken "to the mountain top of attractive offers" . . . all sorts of efforts to make me stop. I WILL NOT stop until the wholesale misuse of the mails is stopped. I'm willing to step aside and put the finish of the fight in more capable and effective hands. I'd even be willing to turn the job over to you.

I repeat my accusation that you and other named members of Congress have misused, or allowed the misuse of, your franking privilege in the interests of the disrupters of the American Way of Life. (Knowingly or unwittingly.)

You have participated in a practice which in last fiscal year (according to Post Office Cost Ascertainment figures) cost the taxpayers $1,217,346.00. (The credit Post Office received for carrying franked mail. The amount will be much larger this fiscal year judging by your increased use of the frank.)

If you are sincere Senator in your much publicized patriotism, I will retract my charge on the day that you stand up in the Senate and propose:

(a) An Emergency Legislation Act . . . making it illegal for any foreign government (or its agents) to solicit or approach by mail or in person any resident of the United States for the purpose of influencing an acceptance of a form of government opposed to our own. Such an Act in legal and constitutional phraseology would close the German Library, the German Railroads, the German American Board of Trade and all Communist and Fascist breeches.

(b) A complete revision of the franking regulations making it illegal (with penalties) for any member of Congress to lend the use of the frank for propaganda purposes—or to use that frank FOR ANY PURPOSE except official business or for correspondence with constituents.

Until that day, Senator Wheeler, I'll keep watching, collecting and accusing.

The end of the fight may be up to you.

Sincerely,

(Signed) HENRY HOKE
Publisher.

A LETTER TO THREE SONS

Originally printed in the June 1940 REPORTER and reprinted widely all over the world. It is inserted here to make this record complete.

Dear Boys:

It won't be for very long I can call you that. You have grown fast. It seems so short a time since we built the trains in the cellar . . . and packed them away to hold for little future-fellows. The world moves so fast these days . . . we've all had to grow up quickly . . . and you must look at your new world with eyes more mature than mine when I professed youth.

It's time for us four to have a "bull-session" and find out where we stand. I'll put my end of it in a letter.

Those mimeographed sheets you've been getting in school (stuck under your door, etc.) . . . and those doubtful doctrines discussed (sometimes approved) by teachers and newspapers and your elders . . . have mixed-up your thinking until it's no wonder you wonder what all the shoutin's about.

What are you going to BELIEVE? That is the real problem of youth. What is the one thing that most worries the fathers of fine sons? I'd say . . . the **Indifference of Youth** to the whole problem of this new world you face so calmly.

Maybe (and it is most plausible) Life has been too easy for all of us. Maybe youth has had too many busses to take them to school; too much hot water without chopping wood; too much "finger-tip" music and news without shoveling a path through the snow to the town hall or to the debators around the stove at the corner store. Too much freedom and leisure and vacation . . . without having to fight to keep the Indians away from the playground clearing. Too much solicitude for shorter hours of work . . . without realizing that work is fun and that leisure is satisfying only when truly earned. Maybe that is the cause of the **Indifference.** Is it? You answer. Maybe the blame falls on us fathers.

FOUR SUGGESTIONS

First: I don t believe there is a single father in this America who wants to see his sons forced into a war. I don't believe any American (official or plain citizen) wants fine, clean boys like you to be slaughtered. Weigh those rumors of war mongering carefully. **They smell . . . fishy.**

Second: I nominate you three boys as charter members of a new club to be composed of American Fathers and Sons. Let's call the new club: "The Hi-Timers." (It's **hightime** we're doing something about this America of ours.) Get it? Let's have many sober and serious sessions to find out what all the shouting is about. Let's weigh calmly and sincerely all these foreign claims that America is no good . . .

Third: I don't want to be sappy in this session. I don't want to do any flag-waving vaudeville stunt for you. We'll dispense with the reading or singing of "The Star Spangled Banner" . . . but Good God Almighty boys—do your share in **all your contacts** from this minute on to change the **Indifference of Youth** into a deep and sane love of this free country you inherit.

What do **you** think of America? Isn't it great? Are you going to let these foreign propagandists lull you and your friends to sleep or into thinking there is Utopia at the end of a bloody rainbow of lust and murder and regimentation? Or conversely, are you going to let some of the crackpots which exist and flourish in a DEMOCRACY flim-flam us with theories that we shouldn't work (and **regiment ourselves if necessary**) to protect this country of ours from the enemies of our peaceful pursuits?

Fourth: In these changing days—read **both sides** of all controversies. Be skeptical of obvious propaganda. Search for the motives behind the appeals you receive. Study the history of this country—not as you studied in school—but as an absorbing, personal guide to your future. Read, analyze, and look at this land of yours objectively and patriotically. If we all have to go to training camps to prepare ourselves for possible protection—**let's do it gladly.** Let's say it's Hi-Time we all are willing to get away from ease, and to work a little overtime to keep safe the land that has given us this **ease and work.**

It is **your** America, Boys. It belongs to you and your boy-and-girl friends. It belongs to you and the kids who may some day unpack and rebuild the old trains.

I've got to get back to work. I leave the rest of the session to you. Call the first meeting of **The Hi-Timers** to order. Organize it, promote it (by Direct Mail if necessary). But above all . . . **be a Hi-Timer,** and by your courage and example destroy the **INDIFFERENCE OF YOUTH.**

Change that Indifference to Fire and Faith and Hope for a Free America. You can do it . . . and the fellow who knows you can do it is [illegible]

Your Dad

SO WHAT?

What are we Americans going to do about this barrage of propaganda in the mails? A barrage which spills over into the Press, into the Schools, Churches, Homes, Factories, Offices—and into meetings of all kinds.

How can we stop it without wrecking the very freedom we are trying to protect—the freedom of speech, of press, of assembly?

Laws could be devised to limit the use of the mails—during the emergency at least—to Americans. Sedition laws possibly could be invoked against those trying to undermine love for America among the soldiers and students. Laws could be devised (see suggestions made to Senator Wheeler) to restrict the *misuse* of the mails by foreign interests—and to eliminate the misuse of franking privileges.

These are jobs for lawyers and lawmakers. In the meantime all of us can fight this propaganda with a concerted drive to expose it, explain it—and show it for what it really is—*a gigantic fraud.* All of us can individually become crusaders and fighters for Democracy.

We can refuse to be influenced by defeatism, by appeasement, by anti-democratic hokum. We can be *more tolerant*—and refuse to become part of the scheme to stir up racial, religious, political or group-against-group intolerance.

We can carry the story contained in this report to all of our contacts. We, as individuals and groups, can defeat Nazi, Fascist and Communist inspired fear—by refusing to be afraid, by refusing to be confused by the deluge of disruption.

Use this report as basic material for discussions at school and civic meetings. Use *your freedom of the mails* to let your wishes be known at Washington. Don't let the *disruptors* do all the writing!

America is worth fighting for. If this is to be a war of propaganda—of internal disruption—let's show the disruptors that American Advertising and Public Relations genius can stage an effective counter-action of its own.

The Reporter offices at 17 East 42nd Street, New York will be glad to furnish leaders of business or civic groups free of charge with reference lists of source material on this subject of propaganda in the mail. Reprints of this report will be available at a cost price for quantities.

FRIENDS OF DEMOCRACY, INC.
103 PARK AVENUE
NEW YORK CITY

THE AMERICA FIRST COMMITTEE
The NAZI TRANSMISSION BELT

Whether They Know It Or Not —

The America First Committee, whether its members know it or not and whether they like it or not, is a Nazi front!

It is a transmission belt by means of which the apostles of Nazism are spreading their anti-democratic ideas into millions of American homes!

This is not to say that the America First Committee is a Nazi organization. On the contrary, the great majority of its officers and members are patriotic Americans who sincerely believe that this nation should pursue a policy of isolationism and appeasement.

But that is exactly what Adolf Hitler and his disciples in the United States believe, and they are using—or misusing—the America First Committee to spread those ideas.

We do not question the integrity of the leadership and membership of the America First Committee nor the sincerity of its program. But we do seriously question the wisdom of the policy-makers and the soundness of a policy which has the unqualified approval of Adolf Hitler, Benito Mussolini and their agents in the United States. It is no secret that the Axis wishes for and works toward the destruction of democracy throughout the world.

In its war upon democracy the Axis has no more effective ally in the United States than the America First Committee. This is true because the America First Committee denounces the Axis while it advocates a foreign policy favorable to the Axis. Thus, it is more effective than any Nazi agent or organization, for it does not bear the stigma of an alien loyalty.

Recognizing this basic fact, the American organizations committed to totalitarianism have rallied around the banner of the America First Committee. The following pages will show how they operate openly at meetings of the America First Committee; how they distribute the literature of the Committee and recruit members; how they publicize the Committee in the American Nazi press; how the propaganda ministries in Berlin and Rome publicize the Committee on an international scale.

Friends of Democracy has always opposed front organizations serving as transmission belts for both Communists and Nazis. To us it seems unfortunate that the America First Committee, whose members in times past have fought the transmission belts of the Communists, now finds itself functioning as a Nazi transmission belt.

And it is equally unfortunate that a group of American citizens, consciously or unconsciously, is giving aid and comfort to an enemy whose very existence has caused the United States to spend billions of dollars in a rearmament program.

HITLER'S ARGUMENTS THROUGH THE MOUTHS OF THE AMERICA FIRST COMMITTEE SPOKESMEN

—*From Senator Wheeler by Radio, March 3, 1941:*

"Now we find these same international bankers with their friends the royal refugees and with the Sassoons of the Orient and with the Rothschilds and Warburgs of Europe in another theme song . . . 'Our investments in India, Africa and Europe must be preserved. Save democracy!'"

—*From Hitler, July 19, 1940:*

"The Jewish capitalistic warmongers, their hands stained with blood, saw their tangible pretext for realizing their diabolical plans vanish. Once again we witness a conspiracy of . . . money-grabbing financial magnates for whom war was a welcome means for furthering their aims."

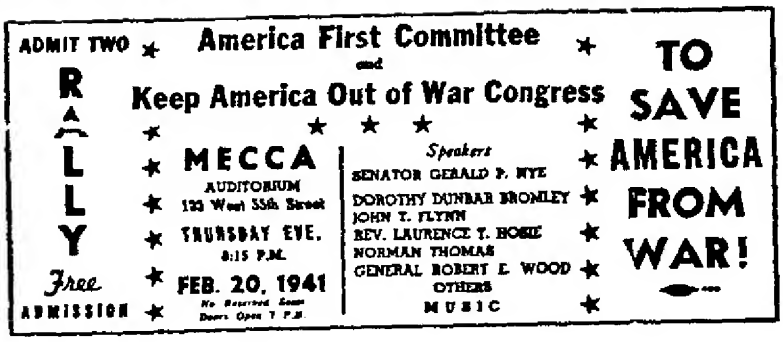
—*From Senator Nye to the Senate, March 4, 1941:*

"The greatest aggressor in all modern history has been the British Empire. . . . The Empire is the despotic, arbitrary and sometimes tyrannical rule over almost half a billion people. . . . It is this Empire that is calling us in the name of democracy."

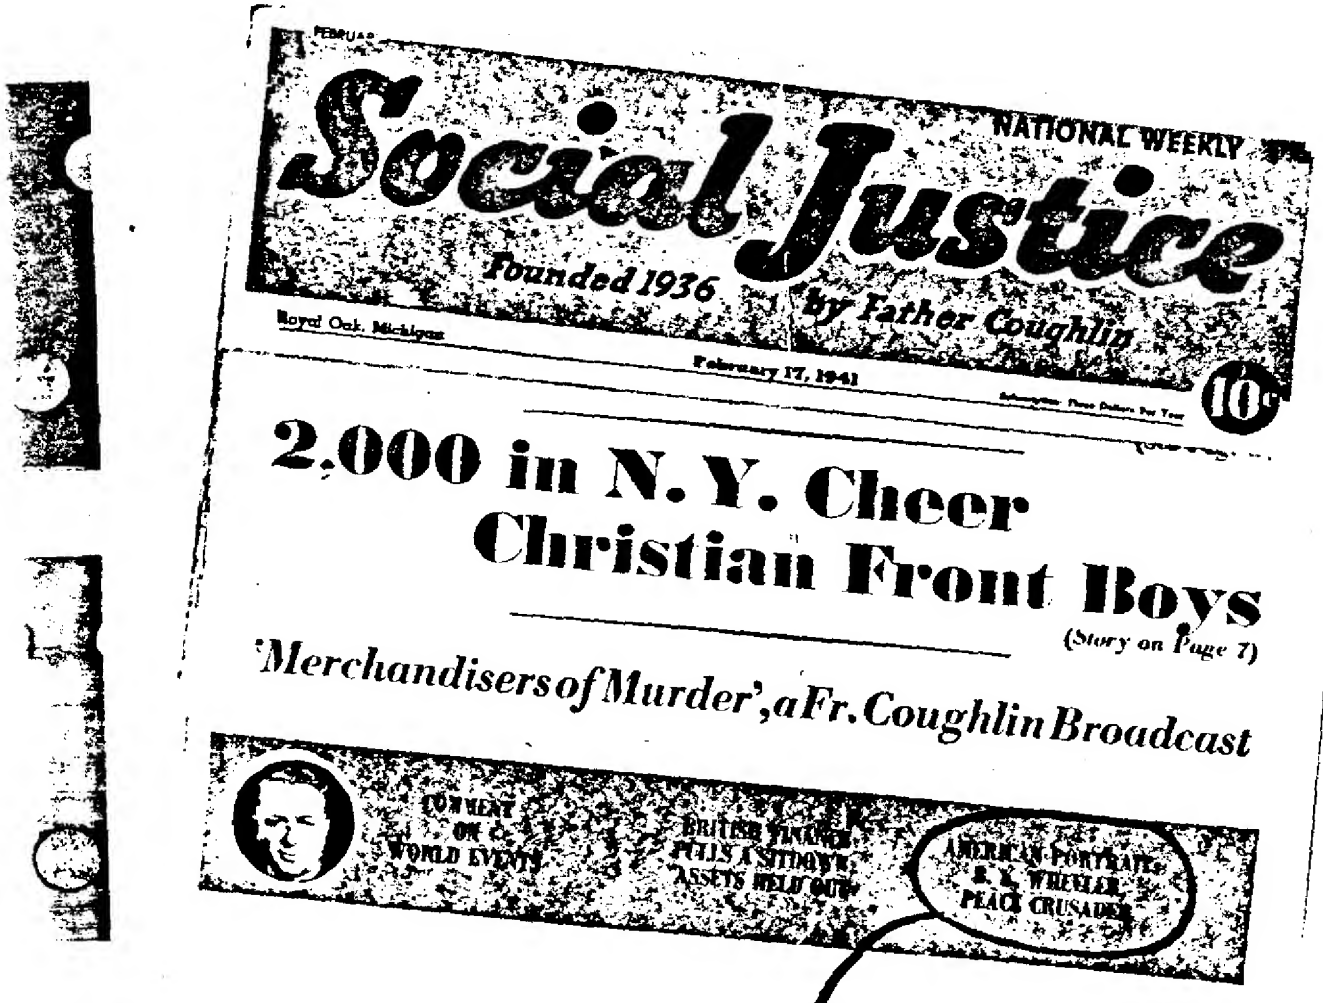
—*From Hitler to the German People, January 30, 1940:*

"England had gradually built up her so-called world empire by force. Nation after nation was crushed and the structure was created which was called the British Empire."

These two Senators, Burton K. Wheeler of Montana (Dem.) and Gerald P. Nye of North Dakota (Rep.), have served the America First Committee as spokesmen. The wife of the Montana Senator, Lulu M. White Wheeler, is extremely active in the affairs of the America First Committee. So is their son, John Leonard Wheeler, who is known to be one of the heads of the America First Committee in Los Angeles, California.



The biggest show of the America First Committee thus far was a mass meeting at Mecca Temple, New York City, on February 20th. The stage was occupied by spokesmen of the America First Committee, but a large part of the audience belonged to New York's petty fuehrers who desire not peace but a Nazi victory. Members of the Nazified American Destiny Party were there because their leader, Joe McWilliams, had said to them: "I want everyone of you who can to go to the important meeting at Mecca Temple." So were members of other pro-Nazi outfits—the Paul Revere Sentinels, the Christian Front, the American Nationalists, the German-American Bund and the Kyffhauser Bund. As always, the America First Committee served as a transmission belt to relay Adolf Hitler's propaganda to his American disciples.



Hawkers of Father Coughlin's anti-Semitic magazine, *Social Justice*, did a thriving business. This is understandable, because the issue on sale contained an article in praise of "B. K. Wheeler, Peace Crusader." Senator Wheeler, whose wife is a member of the national committee of the America First Committee, has become a hero not only of the anti-Semitic, fascist-minded radio priest but of all who would substitute totalitarianism for democracy in the United States.

But some of the anti-democratic organizations did not sell their wares. They gave them away. The Paul Revere Sentinels, most of whom are disciples of Father Coughlin, handed out mimeographed leaflets. The Constitutionalist Press, whose publisher refused to vote for Wendell Willkie because the candidate repudiated Father Coughlin, distributed pamphlets. Henchmen of the Yorkville fuehrer, Joe McWilliams, distributed anti-Semitic leaflets urging the audience to "Demand the refugees fight Hitler this time and leave our boys at home, where they belong as Christians." Other literature, both Communist and Fascist, was distributed by means of the transmission belt.

Yes, the Nazis stole the show. A newspaperman wrote: "They applauded violently as Senator Burton K. Wheeler, Senator Gerald P. Nye and Norman Thomas predicted that this country faced war and dictatorship if the lend-lease bill passed. With great heartiness they booed President Roosevelt, Wendell Willkie, Mayor LaGuardia, Walter Lippmann and the British Navy. Occasionally they shouted 'The Jews, the Jews!' and 'Morgenthau and Cohen' when speakers discussed public sentiment in favor of all-out aid to Britain." And when the meeting was over, it was not the leaders of the America First Committee who shook hands with the audience as it left, but Joe McWilliams — he who openly seeks to become the American Hitler.

The German American National Alliance of Chicago also calls itself the *Einheitsfront*, or "United Front." Its Nazi origin and connections are well known.

The German American National Alliance brazenly uses the transmission-belt technique. It calls upon its members to work through the America First Committee and the Citizens' Keep America Out of War Committee. The "United Front" is to be extended to include the two "anti-war" committees. "Assist them financially and morally. Assist these committees at once!" Such is the shrill command of the *Einheitsfront* to Hitler-lovers in the Middle West.

America First? Keep Out of War? Handy names and slogans for those who are neither patriots nor pacifists but mere handmaidens of the Axis!

America First? It is America First-Aid to the Nazis!

Keep Out of War? It is but a brown herring dragged across the trail of those who would harm this country's defense!

Another "friend" of the America First Committee is wealthy socialite John B. Snow, whose organization has been dedicated to Hitler first—America last. But this former distributor of "The Protocols of the Elders of Zion" and other Nazi propaganda now mails copies of "Our Foreign Policy" to his followers. Apparently Mr. Snow and the America First Committee see eye to eye on foreign policy.

The notorious Christian Front distributes not only the literature of the America First Committee. It distributes also application forms for that "anti-war" and "anti-ism" organization. The Christian Front is in itself an "ism"—it advocates a Hitler-Mussolini brand of totalitarianism for the United States. By advocating racial and religious hatred, by threatening civil strife in this country, the Christian Front stands for war. Its leaders make no secret of their admiration for Hitler and Mussolini. They stand for war—Hitler's and Mussolini's war upon the last remaining democracies of the world.

And this is the organization which recruits members for the America First Committee with the latter's claim of being against war because war is the breeder of isms!

Poison at Nazi Conference

A few weeks ago several of the ranking leaders in the American Nazi hierarchy met in Chicago behind closed doors to discuss a course of joint action. Their number included Donald Shea, leader of the National Gentile League; Edward James Smythe, leader of the Protestant War Veterans, who arranged the recent joint meeting of the Ku Klux Klan and the German-American Bund at Camp Nordland; Colonel E. N. Sanctuary, leader of the American Christian Defenders, formerly known as the World Alliance Against Jewish Aggressiveness, and Olov Tietzov, leader of the admittedly fascist American Guard. For this important conference they had assembled great quantities of standard pieces of pro-Nazi, anti-British propaganda. With one exception this propaganda had been published by persons and organizations dedicated to the destruction of American democracy. That exception was the America First Committee whose literature was carefully read and later widely distributed by the Nazi leaders.

American Nazi Press Approves

Must America Fight?

THE LIVES of 12-million American boys, the wealth and resources of the America we have known, are being dragged each day closer to the brink of war.

Night and day, the American people are being subjected to a barrage of propaganda to enter the holocaust now devouring the people and the civilization of Europe.

In a recent address to the students and faculty of the University of Notre Dame, the Rev. John A. O'Brien, Ph.D., said:

"The propagandists for America's involvement in the feuds and hatreds of Europe at first centered their efforts to break down the barriers we had erected

The Nazis in New York and Father Coughlin in Detroit unite in praising the Rev. John A. O'Brien for saying: "We prefer the America First organization."

Here is an article to that effect from *Deutscher Weckruf und Beobachter*, the official newspaper of the Nazi Bund in America with headquarters in New York. (To cover up its work the Nazi paper also calls itself *The Free American.*)

And here is another article to the same effect from *Social Justice*, published by Father Coughlin, who has in the past lifted for his writings whole paragraphs from the speeches of Dr. Goebbels, Hitler's Minister of Propaganda.

Such are the men and journals who praise the America First Committee! They are the ones who applaud those who praise the America First Committee!

BERLIN APPROVES.

On the evening of January 22nd a short-wave radio broadcast from Berlin placed the official Nazi seal of approval upon the America First Committee. According to the minions of Dr. Goebbels, this Committee represents "true Americanism and true patriotism." The radio speaker from Berlin resented the fact that the Committee "has been given less publicity" in the United States than it deserves in Nazi eyes. Approval by the Nazi regime should cause the America First Committee to re-examine its program of Americanism. It is difficult to believe that the Nazis would approve a program truly beneficial to a democracy which they fear and detest.

Short-Wave Broadcast, Berlin, January 22, 1941

"THE AMERICA FIRST COMMITTEE HAPPENS TO OPPOSE THE NEFARIOUS INFLUENCE OF THE COMMITTEE TO DEFEND AMERICA, WHICH TRAVELED FAR ON THE PRESTIGE OF THE NAME OF WILLIAM ALLEN WHITE. HE LATER, OF COURSE, LEFT TO CHOOSE HIS OWN UNSAVORY JUICE. THE AMERICA FIRST COMMITTEE IS KNOWN AS TRUE AMERICANISM AND TRUE PATRIOTISM, AS OPPOSED TO THE SYNTHETIC BRAND DISPLAYED BY THOSE AMERICANS ENROLLED UNDER THE WHITE COMMITTEE. THAT COMMITTEE HAS BEEN GIVEN LESS PUBLICITY THAN THE MARRIAGE OF A MOVIE STAR WHO HAS ONLY TWO DIVORCES TO HER NAME SO FAR."

. . . SO DOES ROME

According to the Italian Propaganda Ministry, the "honest voices, thoughtful for the future of America," belong to the members of the "America Innanzi Tutto"—the America First Committee. And according to Virginio Gayda, Il Duce's "man Friday," the Italian Fascists have friends in America. Who are those friends, according to Virginio Gayda? They are Brigadier General Robert Wood, retired, who is acting chairman of the America First Committee; Senator Burton Wheeler of Montana, the spearhead of isolationist forces in Washington; former Governor Philip La Follette of Wisconsin; Colonel Charles A. Lindbergh. Mussolini and Gayda like them. The Fascists say so themselves. They tell the Italian people that Wood, Wheeler, La Follette, and Lindbergh are "eminent personalities" worshipped by the American people. And while telling this, they arrange anti-American demonstrations in the streets of Rome!

Dispatches from Rome

On January 7, 1941, John T. Whitaker, one of the most reliable American correspondents in Europe, cabled from Rome to the *Chicago Daily News* that the Fascist press printed a short version of President Roosevelt's speech before Congress on January 6th:

"THIS BRIEF VERSION OF THE SPEECH IS PRINTED IN SECONDARY POSITION UNDER THE FOLLOWING HEADLINE:

"'HONEST VOICES, THOUGHTFUL FOR THE FUTURE OF AMERICA, CONTINUE TO BE RAISED AGAINST THE SPREADING BELLICISM OF ROOSEVELT.'

"THE HONEST AND THOUGHTFUL VOICES TURN OUT TO BE THOSE OF PHILIP LA FOLLETTE AND THE 'AMERICA INNANZI TUTTO' (America First) ORGANIZATION. WHAT THEY SAY IS TREATED AS MORE IMPORTANT THAN ROOSEVELT'S 'DEMAGOGIC HYPOCRISY,' AS THE NEWSPAPERS TERM THE MESSAGE TO CONGRESS."

And on February 6, 1941, a few weeks before Whitaker was expelled from Italy by Mussolini, he cabled this dispatch:

"AFTER DAYS OF PRESS ATTACKS AGAINST AMERICA, WHICH IS DESCRIBED AS A DICTATOR'S COUNTRY BEING LED TO WAR BY AN ALLIANCE OF THE ANGLO-SAXON ELEMENTS WITH THE JEWS, THE FASCIST UNIVERSITY STUDENTS WERE PUT INTO THE STREETS OF ROME THIS MORNING. IT WAS THE FIRST DEMONSTRATION OF THE SORT SINCE THE LATE NEVILLE CHAMBERLAIN'S UMBRELLA AND A COFFIN, LABELED FRANCE, WERE CARRIED THROUGH THE STREETS IN PREPARATION FOR ITALY'S ENTRY INTO THE WAR. . . . SOME SAID IT WAS ANTI-AMERICAN. OTHERS DENIED THAT AND SAID THAT THE STUDENTS CRIED OUT AGAINST ENGLAND. . . .

"THE PRESS CAMPAIGN, WHICH HAS BEEN WAGED FOR SOME DAYS, DIVIDES AMERICA INTO JEWS WHICH INCLUDE, ACCORDING TO VIRGINIO GAYDA, THE WHITE HOUSE, THE PRESS AND THE RADIO, ON THE ONE HAND, AND WHAT ARE TERMED 'EMINENT PERSONALITIES,' ON THE OTHER. THIS LATTER CATEGORY IS COMPRISED OF SENATOR BURTON K. WHEELER (DEM., MONT.), COL. CHARLES A. LINDBERGH, PHILIP LA FOLLETTE, FORMER PROGRESSIVE GOVERNOR OF WISCONSIN, AND BRIG. GEN. ROBERT WOOD, RETIRED. THE AMERICAN PEOPLE ARE DESCRIBED AS SHARING THE VIEWS OF THESE EMINENT PERSONALITIES."

Friends of Democracy believes members of the America First Committee should re-examine the policies of the organization in the light of the fact that it is being used as a Nazi transmission belt. We believe they should consider the implications of these facts:

1. A large part of the audiences of many America First meetings are members of pro-Nazi organizations.
2. Nazi propaganda is distributed at many of these meetings.
3. Nazi organizations not only distribute the literature of the America First Committee but recruit members and raise money for the committee.
4. The Nazi press in the United States has stamped the program of the America First Committee with its approval.
5. The propaganda ministries of the democracy-hating Nazi and Fascist governments endorse the policies of the committee.

In view of these facts, we believe the America First Committee should reorganize on a basis which does not lend itself to misuse as a Nazi transmission belt.

MEMORANDUM FOR THE DIRECTOR

RE: AMERICA FIRST COMMITTEE

This is to advise that on September 23, 1941, Special Agent in Charge, R. B. Hood, of the Los Angeles Office informed by letter that while recently with Attorney General Francis Biddle in Los Angeles it was requested by Mr. Biddle that arrangements be made to have a Special Agent of his office attend the America First rally to be held in Los Angeles, California, on either October 1 or 2, at which time Senator Burton K. Wheeler of Montana is to speak. The Attorney General stated that he would like to be advised as to the size of this group and its reactions to Senator Wheeler's statements.

Special Agent in Charge Hood advises that the matter will be handled in accordance with the Attorney General's request, and that the Bureau will be immediately notified concerning the same in order that a report may be furnished to the Attorney General.

Respectfully,

CONFIDENTIAL

RE: AMERICA FIRST COMMITTEE

Dear Sir:

The Evening World-Herald, Omaha, October 14, 1941, carried an item reflecting that the Omaha City Council on that date had taken under advisement a request from FRANK C. WARD, Chairman of the Omaha Chapter of the America First Committee, to use one of the municipal courtrooms in the city hall for the Committee's meetings one night a week. The motion to take the request under advisement was offered by Commissioner HARRY TRUSTIN. In the request of the Council, WARD said the Committee is "not a political organization, or anti-Semitic," but is a group of "patriotic Christian Americans whose only desire and hope" is to "keep America out of war."

For the Bureau's information, [redacted] b7C
[redacted] he telephonically inquired of me as to what the attitude of the FBI would be toward granting permission for the use of a municipal courtroom, or toward refusing permission. He was tactfully informed by me that the FBI did not desire to make any statement in the matter and that the decision should rest entirely with the Council.

[redacted] desired to know whether we had any b7C
information in our files indicating that FRANK C. WARD, Chairman of the Omaha Chapter, had subversive tendencies. I told him that if we had any such information, it would be confidential. [redacted] b7C
said he realized that, but he thought there would be no harm in inquiring about WARD. [redacted] b7C

[redacted] said that at this time the Council is undecided b7C
as to whether permission will be granted for the use of the courtroom, but that it would probably refuse to do so.

AMERICA FIRST COMMITTEE

New York, N. Y.,

80434 October 18, 19[illegible]

"The Hour" reports:

The America First Committee is sending to its various branch chapters a confidential memorandum on "The Coming Elections." The memorandum advises that Committee men must maintain the fiction that the organization is a non-political body:

> "Any position taken by the America First Committee in partisan politics would only weaken our cause, not strengthen it. ... While no citizen can fail to be interested in the mayorality election going on in New York at the present time, we must be sure that no support of any candidate be interpreted as America First activity."

The following instructions remove the mask from the "non-political" work of the Committee, aimed at strengthening the appeasement forces:

> "In the important elections of this autumn and next year, every America First member should take pains to inform himself of the various candidates' position on foreign policy and be prepared as an enrolled voter to cast his vote for those non-interventionist candidates who are in other respects qualified for the offices they seek."

MEMORANDUM FOR MR. TOLSON

Henry Paynter of OPM called to advise that he had talked to you a few days ago with reference to Floyd Odlum's desire to secure a list of the members of the America First Committee to compare them against the employees in his office. You at that time told him that we did not have such a list.

He again raised the question as to whether we had any lists which could be made available. I said we did not. He then stated that he understood that if we did have it would be necessary to make a request in writing. I told him that naturally anything coming from the files of the Bureau would have to be officially requested. He stated that this would be satisfactory; that Odlum just doesn't know his way around as yet.

Respectfully,

L. B. Nichols

Franklin D. Roosevelt,
President of the United States,
White House, Washington, D. C.

Dear Mr. President;

Out of curiosity, a friend of mine, [redacted] b7C and I went to a meeting of the America First Committee held at Mechanics Building in Boston, Thursday evening, Sept. 25, 1941. It was open to the public. It had large signs stating free admission, no charge, all welcome.

I am a believer in free speech and democracy such as you believe in. But, Mr. President, what I heard at that meeting is, I believe, a determined effort on the part of such men, as Senator Nye, Rush Holt and all their followers, to so abuse the privilege and freedom of free speech, that they are trying to force the issue out in the open to have you and the officials in Washington do something drastic to prevent free speech and then blame you.

There were wild statements made by Rush Holt and Senator N to an audience of about 9000 people. In my opinion, there were at least 8500 of that number of them of Irish descent, who booed wildly every time the names of Wendell Wilkie, Churchill, Halifax, Dorothy Thompson, Walter Winchell and others who are not in line with them, and your name, Mr. President, was also booed.

Senator Nye stated of the brutality of Joe Stalin and the British Empire, for which he received tremendous applause condemning their brutality. But, when Hitler's name was mentioned, there was hardly a ripple from the audience. Senator Nye stated that Hitler could never come over here - it was an idle dream of the interventionists.

RECORDED & INDEXED

100-4712-7

Senator Nye asked the audience if they approved everything that Charles Lindbergh said two weeks ago at Des Moines, Iowa; they yelled and applauded almost 100% and even stood on their seats to s Yes.

I believe Senator Nye found a perfect audience for his, fol ers in Boston. They are also the followers of Father Coughlin's so justice cause as they all seemed to have the back on social justice which is edited by him.

He stated you and your followers couldn't lick the depres so you found a good excuse for a lend-lease programme to get us int war. In fact, the speakers talked disgraceful and the audience wa the same category.

My main point in writing to you, Mr. President, is that i: our Congress and your officials in Washington could pass a law prohi iting the collection of money,such as I witnessed during the evening whereby thousands of dollars were collected from the poor suckers a: I would call them; for the America First Committee and that same mor is being paid out to such great patriots as Holt and Senator Nye fo: making unpatriotic speeches.

I am pretty sure there would be no more patriotic speeche: by these great patriots who represent the America First Committee. believe it is illegal to advertise free admission to all, then fool them by making collections. As long as collections will be made, t: so-called patriots will never stop talking. It is nothing but a ra

I also wish to state that the chairman of that meeting, w he asked for contributions, stated that the usual amount given by t people in the audiences everywhere is fifty cents each. The only o jection I have to this racket is that it is causing to incite race hatred and prejudice.

They were told by Senator Nye that Hitler being in Americ wouldn't be any worse than having it controlled by the British Empi:

Will be pleased to have you confirm this letter.

MEMORANDUM

The following information has been received from a confidential source concerning the America First Committee.

It is reported that the national headquarters of this organization are located at 141 West Jackson Boulevard, Chicago, Illinois; further, that the New York office of the same is located at 515 Madison Avenue, New York City. It is stated that this organization was originally planned by R. Douglas Stuart, Jr., a 24 year old law school senior in 1940 at Yale University. He is stated to be the son of the first vice president of the Quaker Oats Company. It is stated that the first person contacted when the committee was formed was Colonel Lindbergh and that another was Mayor Bowler. It is alleged such people as Stuart; General Robert Wood, head of Sears, Roebuck & Company; Edward L. Ryerson, Director of Inland Steel; Mrs. Jeanette Ayer Fairbanks, a wealthy woman; and Chesley Perkins, chairman of Benton and Bowles, an advertising agency, made up the original group. It is further stated that William Castle, Under-Secretary of State in the Hoover Cabinet, was later added, along with Senator Burton Wheeler and Senator Robert Taft. It is reported that at the start this organization had a tremendous amount of money despite the claim that they never accepted more than $1,000 from any one person.

It is alleged that Thomas J. McCarter, former chairman of the Public Service Company of New Jersey; Henry Ford; Jay C. Hormel, Minnesota meat packer; Kathryn Lewis, daughter of John L. Lewis; John T. Flynn; Father Coughlin; General Hugh S. Johnson; Alice Roosevelt Longworth; Amos R. Pinchot and Louis T. Faber are either members or interested in this committee.

INDEXED 16 RECORDED 100-4712-127

It is alleged until recently there was a tremendous Jewish group backing this committee. This Jewish group is reported to have had as its front the Guggenheim Foundation. It is stated that a few weeks ago the Jewish group withdrew all financial support from the committee; further that a number of the members of the committee quietly withdrew or became inactive due to three reasons:

Information from Army remains classified per their letter dtd 5/29/91 8123 mch/tkg 8/13/91

1. That the America First Committee was set up because of hatred of President Roosevelt and that the purpose was to do everything possible to embarrass him in any way possible;

2. The fact that Mrs. Wheeler, the wife of the Senator, Colonel McCormick, owner of the Tribune, and Harry Jung, head of the American Vigilante Intelligence Federation, are using the America First Committee as a sounding board for anti-Jewish propaganda;

3. The fact that the America First Committee has a lobby strictly anti-Roosevelt in Washington, D. C. This lobby is alleged to be composed of William Castle, Alice Longworth, John L. Lewis and General Hugh S. Johnson.

It is stated that this group has as its "base enemy" President Roosevelt and that as a consequence anything he attempts to undertake concerning war or Britain will be attacked by the America First Committee.

This group is stated to be cooperating with every branch of anti-war groups, such as the International Red Aid, Christian Front, anti-British groups, radical Catholic groups and every pacifist group in the country.

Gentlemen:

I have been hearing quite a lot about the American First Committee in our city and other places and I have been wondering just what it is all about. I have never seen any literature on it.

Would you advise one to join any of these peace movements? I have heard that many of them are backed by the Nazis. Is that true? I believe in working for peace, but I want to know really and truly that I am working for it and not being misled

Enclosed is a stamped, self-addressed envelope for your convenience. And thank you for a reply.

MEMORANDUM FOR MR. D. M. LADD

At 10:10 P.M., October 3, 1941, [redacted] called by long distance telephone to inquire if the Bureau could not do something about Colonel Lindbergh. He had particular reference to a radio broadcast he had just heard made by Charles Lindbergh from Fort Wayne, Indiana, in which, [redacted] stated, several derogatory remarks about the President of the United States were made. [redacted] states he resented these remarks greatly and wanted to be "on record" as protesting against them. [redacted]

Inasmuch as the undersigned, in the regular pursuit of his duties as night supervisor, had not been listening to the radio and also ignorant of the text, circumstances or any details or any radio broadcast which Charles Lindbergh may have made on the night of October 3, 1941, the undersigned assured [redacted] that along the course of events, this speech would probably come to the Bureau's attention and that if it should involve any violation of Federal Law over which the Bureau had investigative jurisdiction, appropriate action would be taken. [redacted] stated he hoped to hear from the Bureau in this regard.

Attached hereto is a newspaper account of a radio broadcast made by Colonel Charles Lindbergh on the night of October 3, 1941, at Fort Wayne, Indiana, to which [redacted] doubtless had reference.

Denial of Right To Vote Feared By Lindbergh

Even 1942 Election May Be Suspended, He Warns in Indiana

By the United Press

Fort Wayne, Ind., Oct. 3.—Charles A. Lindbergh charged tonight that President Roosevelt was moving toward suspension of the 1942 national elections.

He said that "one man" government already had plunged the country into undeclared warfare and deprived the people of their democratic heritage.

"I shall speak to you tonight as though this were my last address," Lindbergh told an America First rally and a national radio (NBC Blue Network) audience. "How much longer free speech will be possible in the United States, I do not know."

He said he feared that an administration which had thrown the Nation "into undeclared naval war" against the will of the people "can by similar means prevent freedom of speech among us."

Charges "Smear Campaigns"

"If the time comes when we can no longer meet face to face, as free men in a free country, we will meet together at the elections next year and, by our vote, clasp hands, though we be a thousand miles apart," he declared. "But what if there are no elections next year?"

Abrogation of the right to vote, Lindbergh asserted, "may not be many steps ahead" on the course pursued by President Roosevelt.

"The time has come," he said, "when we must consider even that."

organization reflected the fact that on April 29, 1941 the America First Committee obtained a permit to conduct a meeting in the Walton Hotel, Broad and Locust Street, Philadelphia, Pa. [redacted] the meeting was attended by members of the Committee who had been invited by postal cards mailed out by the officers of the Committee. b7D

[redacted] the meeting was begun at 8 P. M. and opened by ISAAC PENNYPACKER and that the principal speaker of the evening was JOHN E. LISTER, both of whom, [redacted] are active in the Philadelphia Branch of the America First Committee. [redacted] the meeting was attended by approximately 300 persons, and he stated that both the speakers mentioned above spoke at length criticizing the President of the United States for his reference to CHARLES A. LINDBERGH as a "Copperhead". These speakers also advised their listeners that it was imperative that the Committee obtain more members to aid in the fight which they intended to wage against this country's convoying merchant ships to the war zone. b7D b7D

It was at this meeting that some member of the audience suggested that CHARLES A. LINDBERGH be brought to Philadelphia to address the Philadelphia Branch of the America First Committee.

The Bureau was advised by letter under date of June 10, 1941 that on the evening of May 29, 1941 COL. CHARLES A. LINDBERGH, along with United States Senator DAVID I. WALSH and novelist KATHLEEN NORRIS, were the principal speakers in a meeting of the America First Committee held at the Arena, 46th and Market Streets, Philadelphia, Pa. This meeting was attended by Special Agents of the Philadelphia Field Division, who reported that the Arena was filled to capacity and that there were about 500 people who could not gain admission to the Arena who were in the street adjoining the Arena, listening to the speakers through loudspeakers.

At this meeting the above speakers made quite a point of the fact that the National Radio Corporation had refused the facilities of their broadcasting systems for a nation-wide broadcast of the meeting, and stated that everything possible was being done to prevent the America First Committee from presenting their views to the American people.

Although there was much cheering of the talks given by LINDBERGH, WALSH and NORRIS, each time the President's name was mentioned a loud "Boo" went up from the crowd.

Relative to this same meeting held on May 29, 1941 at the Arena, the Philadelphia Field Division is in receipt of a communication [redacted] b7D

On August 20, 1941 the America First Committee held a rally in Town Hall, 150 N. Broad Street, Philadelphia, Pa., at which HAMILTON FISH, Congressman from New York, was the principal speaker. Representative FISH spoke for about an hour and five minutes, going into detail on numerous instances of his past activities and on world affairs, emphasizing particularly the fact that President Roosevelt's sons had been given commissions as officers in the armed forces of this country without any previous military training whatever.

Representative FISH stated that ELLIOTT ROOSEVELT, who holds a Captain's commission in the U. S. Marines was sent to Africa to look the situation over and had later assured the British full co-operation from the United States, with statements that this country is practically in the war now.

Representative FISH also brought up the subject of invasion of the United States by the Nazis and told how preposterous an idea this was.

[redacted] b7D

stated that the rally began about 8 P.M. with the singing of the "Star Spangled Banner". [redacted] b7D stated that after Congressman FISH had finished his talk, he was confronted with eleven questions propounded by the Philadelphia Unit of the "Fight for Freedom Committee" which questions covered his public affairs for the past four years.

The second speaker on this program was JOHN E. LISTER, a member of the Directing Committee of the America First Committee, who gave the result of a poll which had been taken in the Philadelphia area by the America First Committee. [redacted] stated that Mr. LISTER advised that approximately 6,090 people were interviewed for this poll, and there is being set out herein a copy of this poll. b7D

"To whom this may Concern:

"This poll was taken under the auspices of the Philadelphia America First Committee. The general membership was engaged as interviewers. The poll was taken among non-members and thus eliminated the group with the strongest bias in the area.

"The Committee feels that because of the care with which this poll was taken, the large sampling, and the more than adequate adjustment for error, it can be recommend the results as accurate.

Signed, John E. Lister
Pool Compiler.

" PUBLIC OPINION POLL FOR PHILADELPHIA AND VICINITY

PURPOSE

This poll was taken by the Philadelphia America First Directing Committee for the purpose of finding what the actual sentiment of the area was on the questions herein included. It was intended that results be used as an aid to the Directing Committee in deciding future policy and future courses of action. It was not taken with a view to publication.

RESULTS

It was the request of a great number of persons, both members and non-members, that brought about this publication.

SCOPE

This poll was conducted in the First to the Eight Congressional Districts of Pennsylvania inclusive and the Seventeenth Congressional District. Adult citizens over 21 years of age were the subjects. It covered in proportion all ages, sexes, races and economic classes in the area.

"6,090 adult persons were interviewed in the course of the investigation. The area represents an adult citizen population of approximately 800,000 persons.

METHOD

The interviews were made by the members of the America First Committee in the areas indicated, by Direct interview of the person answering. An additional 800 persons were interviewed by professional interviewers in order to check the differential between the professional sampling and the member sampling.

On the following page an exact copy of questions and answers can be found.

TABULATION AND CERTIFICATION

The poll was tabulated by John E. Lister, a member of the Directing Committee. All uncertified and irregular questionnaires were rejected.

Question No. 1

When you voted for Roosevelt or Willkie, in the 1940 election, did you expect your candidate to keep us out of the Foreign wars?

67 1/10% answered Yes
10 5/10% answered No
22 4/10% held no view.

Question No. 2

Do you think the President's moves since his election are apt to take us into a foreign war?

72% answered Yes
8% answered No
20% held no view.

Question No. 3.

Do you believe the American people could and would defend their country against attack by any Foreign power?

80 4/10% answered Yes
4 % answered No
15 6/10% held no view.

"Question No. 4

Do you think the United States should now make war against Germany.

7 1/10% answered Yes
75 1/10% answered No
17 8/10% held no view.

Question No. 5

Do you think the preservation of the British Empire and its fleet necessary to the welfare of the United States.

15 5/10% answered Yes
58 3/10% answered No
26 2/10% held no view.

Question No. 6

Do you think your own economic welfare or livelihood depends upon Britain's victory in the present war?

14 3/10% answered Yes
66 5/10% answered No
19 2/10% held no view."

b7D

[redacted] the third speaker of the evening was KERR DODGE, former Director of Public Safety of Philadelphia. Mr. DODGE spoke on the folly of aiding Russia in the present war when previous to her entry into the war, the United States had spent millions of dollars investigating the Communists. He stated that during the conflict between Russia and Finland nearly everyone sided with Finland who was fighting Communism, and he stated that now these same people are criticizing Finland because it is allied with Russia.

b7D

[redacted] there were approximately 2500 persons attending this rally, the majority of whom were German, and many of whom were conversing in their native tongue.

The Philadelphia Field Division, along with the above report was furnished with a copy of a pamphlet entitled "Can Hitler Cripple American Economy?" This pamphlet was stamped: America First Committee, Philadelphia, 34 S. 17th Street, Rittenhouse 9828. This pamphlet sets forth the principles of the America First Committee as follows:

PRINCIPLES OF AMERICA FIRST COMMITTEE

1. Our first aim is to keep America out of foreign wars. War would only destroy democracy, not save it. "The path to war is a false path to freedom."

2. Not by acts of war abroad but by preserving and extending democracy at home can we aid democracy and freedom in other lands.

3. In 1917 we sent ships into the war zone and this led us to war. In 1941 we must keep our naval convoys and merchant vessels on this side of the Atlantic.

4. We must build a defense, for our own shores, so strong that no foreign power or combination of powers can invade our country, by sea, air or land.

5. Humanitarian aid is the duty of a strong country at peade. With proper safeguard for the distribution of supplies, we should feed and clothe the suffering and needy people of England, the other democracies and the occupied countries.

The back of the above mentioned pamphlet sets out the membership pledge of the America First Committee, which is as follows:

"I hereby enroll as a member of the America First Committee in order to help keep our country out of foreign war. I am a patriotic American citizen. I am not affiliated in any way with any foreign power."

Philadelphia Field Division File No. 100-3731 entitled [redacted] advises that under date of June 24, 1941 Mr. P. E. FOXWORTH of the Bureau telephonically advised that the Vice President had directed a letter to the Attorney General, indicating [redacted] was active in the America First Committee in the City of Philadelphia [redacted] about the value of this Committee. b7C

Mr. FOXWORTH requested that a discreet investigation be conducted relative to this matter. Under date of June 27, 1941 Special Agent [redacted] Philadelphia Field Division submitted a report relative to [redacted] and his connection with the America First Committee. [redacted] subsequently furnished Agent [redacted] with a pamphlet giving b7C

the National officers of the America First Committee. These are as follows:

"Dear Fellow-American:

"...At least one of the three foremost speakers for the America First cause will come to Philadelphia for a large mass meeting at an early date.

"...Had hoped to hold such meeting in September, but Lindbergh, Nye and Wheeler, one of whom we wanted, were scheduled in other parts of the country.

"...Col. Lindbergh said the Phila. rally on May 29th was one of the best. The next public meeting must be equally impressive for the sake of its effect upon Congress and public opinion.

[redacted], advised that a meeting had been held by the America First Committee on the second floor of Energetic Hall, 1802 S. Broad Street, [redacted] b7D

[redacted] b7D

[redacted] He stated that the meeting was called to order at 8.40 P.M. by Mr. KELLY, who introduced W. RICHARDSON BLAIR, Southampton, Pa., who was the first speaker of the evening.

BLAIR stated during his speech that the America First Committee was not against aid to Britain, but against aid to Russia. He quoted Rear Admiral COOK, who had stated that the United States was absolutely safe from any invasion. Mr. BLAIR stated that the U. S. Navy was powerful enough now for any exigency and that if the Government would build up our air force instead of giving our goods away, we would have nothing to fear from invasion from anyone.

Mr. BLAIR stated that he was going to organize a "mail brigade", writing to congressmen to protest the Lend-Lease Bill getting out of hand and the present Governmental administration program in Lend-Lease matters. He stated that there was to be set up a Legal Defense Section in the Central Committee of the America First Committee for the defense of members who were afraid to write letters.

Mr. JOHN M. ALLISTER, 620 Manoa Road, Philadelphia, was the third speaker on the program.

[redacted] the meeting, which had been held in an orderly manner, adjourned at 9.30 P.M. b7D

Dear Mr. Austin:

My attention has been called to the news items which appeared in the San Diego Union on October 6, and October 7, with reference to the allegations that the FBI has tapped the telephone wires of the America First Committee. I have also noted the statements of Mr. Frank O'Farrell which are quoted in the San Diego Union on October 7, to the effect that he did not refer to the America First Committee office in San Diego, and the statement by Mr. Abbey wherein he said, "I don't think the FBI office has been instructed to tap them." Mr. Abbey then goes on to state that "Earl C. Jeffery, national director of field operations, told us they had tapped wires and checked up on mail at Washington."

In this connection, I wish to advise that the FBI has not tapped the telephones of the America First Committee in San Diego or anywhere else and has not scrutinized membership lists and any statement to this effect is an unmitigated lie.

To American Gentiles:

The Jews are crucifying Colonel Lindbergh as they crucified Christ, and for the same reason - Speaking the Truth.

Lindbergh did not preach intolerance. He did not preach Anti-Semitism. He merely stated the Fact that the Jews are one of the main forces pushing Americans into the European War. He preached "Pro-Americanism."

Immediately, the paid Jewish "Gentile Fronts" like the hypocrite, Wilkie, and the paid Jewish "Gentile Front" press, radio, pulpit and movie leap to attack Lindbergh, screaming "religious intolerance."

None deny Lindbergh's stated fact. Instead they call names to create a smoke screen and to divert attention from the real issue.

It is time to WAKE UP AND LEARN THE FACTS about subversive un-American Jewish activities BEFORE TOO LATE.

Send Fifty Cents to Rev. Frank W. Johnson, 2304 Fontenelle Bove., Omaha, Nebr., for a copy of "The Octupus."

Write Congressman J. Thorkedson, House Office Building, Washington, D.C. for a copy of his speeches, "Steps Toward British Union; A World State; and International Strife."

These publications will OPEN YOUR EYES. Christian "tolerance" that refuses to fact facts ceases to be tolerance and becomes plain cowardice.

Send a copy of this entire letter to at least ten of your "Gentile friends. Maintain and extend the chain. DO IT NOW.

Don't sign your letters. To do so places you open to the same kind of "smear" campaign Lindbergh is receiving at the hands of Organized Jewry in this land of "Christian Tolerance" through their "Gentile Fronts."

If they don't know who you are, their paid "Gentile Fronts" can't scream at you and "smear" you. The Jews don't come out in the open, so beat them at their own game.

In the meantime, American Gentiles will learn the facts and stop the Jewish move to push Americans into the European War.

A 100% PRO-AMERICAN.

'War Is England's; She Asked For It' Col. Kuznik Tells New York Audience

New Rochelle, N. Y., Sept. 30.—"This is England's war, she asked for it and it is definitely her war" and the United States should not only keep its manpower out of it but also refuse to pay for it, Colonel J. V. Kuznik, a retired U. S. Army officer, told a large and enthusiastic audience last evening at an America First rally held in the Knights of Columbus Hall here.

Pointing out that President Roosevelt has completely forgotten his campaign promises to keep us out of war and was rapidly pushing America into actual participation in the European struggle, Colonel Kuznik urged is hearers to raise their voices nd pens in protest to the National Administration, members f Congress and others in authority against further steps toward United States' involvement.

Colonel Kuznik declared England is spending daily nearly 50 million dollars of American taxpayers' money in its war campaign and also wants United States to finance Russia in its war program and all this enormous expense for a war that is purely England's and not ours.

Colonel Kuznik's speech was as follows:

The question as to whose war this is, has not yet been established to the entire satisfaction of some of the people, so let us take stock of what evidence we have, not circumstantial, or highly improbable, but, as befits the gravity of the situation and its possible effects upon, not merely the present, but many future generations of our people, evidence based upon reason and justice.

You, fellow Americans, are both the jury and judge in this tragic case of 80 per cent of the people versus the Administration and the 20 per cent minority. I mention the Administration advisedly, and want to draw your attention to the distinction between it and government. The latter is the permanent organization of National activities and is based upon the provisions of our Constitution, Bill of Rights and the laws of the land as established by acts of Congress. It [illegible] self-styled patriot, Swindle Willkie. Yes, my friends, this once barefooted country lad said this in his acceptance speech at Elwood, where he acquired the rugged American individualism he later so readily discarded in Wall Street. The messiah of unity who travels about the country, all expenses paid, braying forth his silly exhortation to follow the leader. Apparently he does not know that we have no leader, since the great majority of the flock are going in the opposite direction and until he makes himself our dictator, he will get from the patriotic Americans no support for his violently anglophile and entirely unAmerican schemes to bury his nine years of dismal domestic failures underneath the bleeding corpses of millions of our sons.

This testimonial against the head of the administration is interesting, because some one said a few days ago, that the Administration is one of three groups who are joint owners of this war, and there was an undignified scramble to deny the allegation: Unfortunately, this perfectly correct analysis did not reveal the reasons why, in sufficient detail, and I will attempt to give you facts, which this splendid American no doubt believed to be self-evident.

To begin with, always bear in mind, and never forget, that England declared war upon Germany in September 1939, dragging into this butchery an unready France and endangering the existence of the buffer countries of Norway, Belgium and Holland.

'Definitely England's War'

When the dogs of war were let loose, our administration immediately set about doing everything possible, legislatively and otherwise, to assure both belligerents of our strict neutrality. The occasional rumors of possible war encouragement given by our so-called diplomats to Poland and France, were most energetically denied. In short, we would have nothing to do with this foreign feud. The nation was definitely neutral. We were not afraid of "Mein Kampf" which had been in circulation for 16 years. We were not afraid of a Hitler invasion. Our general staff was not excited about the war which they knew would involve all of Europe and [illegible]

[illegible]ion, if he [illegible]sts.
[illegible]people cheerfully consented to [illegible]loose bill, had already shut [illegible]eyes to the illegal transfer of [illegible]na. craft by executive order, and reluctantly accepted the occupation [illegible]c Greenland. All because the administration declared these violations of international law to be measures to to secure peace to the people; however, since the President stated that convoys meant shooting and shooting means war, the New Deal jokers, for delivering to Britain of let loose articles, were removed from the stacked deck, by a few shrewd fair playing Congressmen, before that bill was finally accepted by the people. The attempt to secure Congressional sanction for delivery was frustrated and the bill passed under the guise of a defense measure.

Warns Against War Trend

Now returns Mr. Roosevelt from a fishing trip with Churchill, and with disarming frankness tells us, quote "we have a war to win"—also something about rubbing out Hitler. I don't want to waste time on this unintelligent so oft repeated Hitler romance, because it is so apparently absurd to believe that it is Hitler and not the 80 million German people that are fighting for what they believe to be their rights. But right or wrong, how come Mr. Roosevelt bought this interest in the bloody business for the people? They have a right to be informed, and if unconvinced, refuse to accept this New Deal gold brick. Considering the unconstitutional manner in which it was acquired, you should loose no time in doing just that if you would spare your people the horrors, miseries and tragedies of a war, that is not our war and that 80% of our people can only be forced into by a dictator and not by a constitutionally elected President.

To justify their unAmerican pro-British sympathies, even to the extremes of involving this country in a foreign war, which would then be our war, lock, stock and barrel; with the concomitant total obligation to pay for it in treasure and in blood, the silly wolf-wolf cry of invasion, the ridiculous threats of economic slavery and foreign trade losses, and many other unsubstantiated claims of inevitable disaster to this country, are blared through the air and headlined in the anglophile press.

You are not told however, that even if these contentions were correct, the effect upon this and future generations would be a mere inconvenience, compared to the terrible calamity, the assuming of the total burdens, of not only combat, but post war rehabilitation. That would be the fate of our people.

Can any healthy minded American, contemplate the daily progress of this Godless struggle for the domination [illegible] price we would have to pay if

Belittles 'Mythical Friend[illegible]

Fellow Americans! Do not [illegible] ceived by the insincere avowa[illegible] mythical friendship. Many men of England have expres[illegible] more accurate sentiments. ministration. The Administration, of which our President is the head, is a political accident, changed from time to time, (until recently,) by the will of the people expressed at elections.

All members of Congress and the Administration, are in effect, the chosen servants of the people and unless the acts of governing and the formulation of policies both foreign and domestic, truly represent the desires of the majority as expressed in Congress, you, the people, should take appropriate measures to compel respect for your will. If the situation is of great moment, such as this, then the Constitution provides for making essential changes in the interest of the sovereign people, if public servants attempt to, or actually do, abuse their constitutional powers of administration, and act in opposition to the will of the people.

Campaign Promises Forgotten

So you need not have an exaggerated idea of loyalty for an Administration that has signally failed to carry out its solemn campaign promises with which they secured their election or appointments as the case may be. They are leaders, only if the majority follows and approves, and any attempt to push the people into commitments that are repugnant to our democratic concept, must be considered not only disloyal, but even traitorous, if the lives and fortunes of the people are imperiled by such totalitarian conduct.

Let me quote one case, to illustrate that even important Administration yes men had serious misgivings as to the motives of the head of our Administration. Quote:

"I cannot follow the President in his conduct of foreign affairs in this critical time. There have been occasions when many of us have wondered if he is deliberately inciting us to war. I trust that I have made it plain that in the defense of America and our liberties, I should not hesitate to stand for war. But like a great many Americans, I saw war at first hand in 1917. I know what war can do to demoralize civil liberties at home; and I believe it is the first duty of a president to try to maintain peace. The President's attacks on foreign powers have been useless and dangerous. He has courted a war, for which this country is hopelessly unprepared and which it emphatically does not want. He has secretly meddled in the affairs of Europe and he has even unscrupulously encouraged other countries to hope for more help than we are able to give."

Raps 'Swindle Willkie'

Is there any doubt in your minds, that this fellow also smelled a rat? Some of you probably recognize these hi[illegible] words, but I doubt if any of [illegible]w the real name of the author. I'll tell you! It is that great fllct could have but one result: Namely that our country, if it would only avoid becoming involved and not expect to be altogether saved the inconveniences that are the inevitable lot of innocent bystanders in such conflicts, would emerge the most powerful nation, both militarily and economically, and be in a position to enforce a just and lasting peace upon the war-torn world when all the belligerents will have exhausted themselves by years of butchery and destruction. It definitely was England's war!

But then someone had a brain storm, and conceived the ambitious idea to become a great peacemaker. With an olive branch in one hand and the Teddy big stick in the other, our administration in this role had, as you know, pathetic results. This evidently infuriated some one; for then it was decided to take an option on a large block of stock in this dirty business, in the guise of aid to Britain short of war. A complacent and confiding people, crooned into blissful surrender of their mental processes, by repeated fireside chats and solemn vows such as, quote "We will not participate or intervene in foreign wars. It is for peace I shall labor all the days of my life. Your boys are not going to be sent into any foreign wars. The first purpose of our foreign policy is to keep out of war. Ships flying the American flag must stay out of the war zone" unquote. This, spoken in fine campaign oratory style, installed this administration by electing Mr. Roosevelt for a third term, on the specious plea that he was the only man in our 130 million population who could safely pilot our ship of state through the approaching storm, and keep us at peace. An exaggerated and undemocratic honor which even the immortal George Washington declined, as being inconsistent with the principles of a Republican form of government.

Fine Phrases Are Buried

After the election, these fine phrases got an indecent burial and now never again shall we hear that verbal opiate "short of war," for the administration is also on the warpath. Why, remains a mystery, for no provocation or reason has been given us to go ashootin' at everything we see, other than the fact, that England has learned that war is not fought with feather dusters and now needs help to save her from being ruined. She asked for it, and it is therefore definitely her war.

By sending our ships and navy into the war zones in direct violation of the international laws of war, we are deliberately inviting disaster and the President, by completely ignoring his solemn word given to the people that he would especially not do this, must assume full responsibility for the terrible tra[illegible] is certain to engulf the administration succeeds in shooting us into this butchery? And why, I ask?—for this is definitely England's war. They asked for it.

Some people are not touched by war's horrors of men, wounded, dying in agony and killed, on the scorching sands of Africa, in the fever ridden jungles of the Far East and drowned like rats in the seven seas, [illegible] who, no doubt, are more interested in the business aspect of war.

England Spends U. S. Money

England is today spending nearly fifty million dollars of your money every day in staging this swan song act, and since we would surely make better and bigger war, our combined efforts would therefore cost at least one hundred millions, or three billions each month—more than the total yearly amount of our foreign trade. This calculation leaves out Russia whom Mr. Churchill also wants to finance, with our silly dollars of course. For once, I agree with that comic strip would-be political Napoleon, the Peppery Pepper, when he recently said in effect, patriots of America gird yourselves for a nice long show. This Roosevelt, Churchill, Stalin crusade to make this world safe for you, the four freedoms and Communism might last a whole generation. However, I prefer to be more conservative in my judgment and assume ten years as a more likely period for the limit of endurance of the war weary peoples. In that period therefore, three hundred billions will be spent on actual combat alone, but that is not all, for Uncle Sap would have a full partnership liability to both England and Russia to reconstruct destroyed cities, villages, railroads, docks, ships, etc., etc.,—this part will of course, be a loan of another two or three hundred billions to be repaid to Uncle Shylock, when and if, in plain words, this home made emergency if turned into total war, would cost the taxpayer of this and many future generations about five hundred billions of silly dollars; and by that time, you may be sure the dollar will indeed look awfully silly and our dentists will be filling our teeth with free Fort Knox gold, since that commodity will be even more worthless than the dollar.

If this were our war, we would all be willing to pay the price; but do we owe England so much that we can seriously contemplate following Mr. [illegible]oosevelt on his personally conducted t[illegible] of the bloody battle fields of Eur[illegible] and Asia? If we do owe England [illegible] debt of gratitude, for there can be [illegible] question of financial obligation s[illegible]e she still owes us ten billions from the last party she gave at our expense, I say, if we do owe her something, why are we not made conscious of such moral obligations—for we have not c[illegible] monument in this appreciative a[illegible] rous land to re-

Washington, D. C.

Dear Sir:

On the night of Friday, October 3, 1941, Senator WHEELER delivered an address at the Ford Bowl in San Diego under the auspices of the America First organization. The following morning, October 4, 1941, there appeared in the San Diego Union and also reappeared in the afternoon paper the following:

> "Frank O'Farrell, of the America First committee, under auspices of which Wheeler spoke, charged the federal bureau of investigation had 'tapped our wires and looked over our membership lists looking for Communists.' "

There is attached hereto a copy of that portion of the issue containing the above-quoted statement of FRANK O'FARRELL.

As soon as he was available, I contacted JAMES ABBEY, head of the America First in San Diego, and stated that, of course, Mr. O'FARRELL'S statement was incorrect completely and entirely as far, at least, as the San Diego office of this Bureau was concerned, and that no wires had been tapped and no membership lists searched for Communists; that this office had at no time taken any action, directly or indirectly, into any matter pertaining to the America First organization. Mr. ABBEY stated that as far as he knew, my statement was correct; that he himself did not hear the statement made by O'FARRELL the previous night; that he was inside the shell on the platform and that it was difficult to hear there. He said that he regretted that O'FARRELL had made any such statement.

INDEXED

100-L-2-186

I think we should locate Jeffers & make him either put up or shut up. H.

He said that he would contact him relative thereto, Mr. O'FARRELL not being then available.

On Monday, October 6, 1941, I contacted Mr. ALFRED E. KURLOW, who is the local Secretary of the organization, and he expressed his regret that any such statement had been made. He stated that he thought that it was undesirable and that it was incorrect.

I finally succeeded on the same morning in locating FRANK O'FARRELL. He is an advertising agent and has been busy with radio broadcasts. He told me that the statement made by him did not apply in any manner to the San Diego office of the FBI. He said that just prior to making the statement he had been talking on the platform to EARL C. JEFFERY, the national director of field operations for America First. O'FARRELL stated that JEFFERY said that these or similar actions had been taken by the FBI in other places. He rather vaguely referred to the "other places" as the East. He said that JEFFERY stated that mail had been perused and that books had been scrutinized and that wires had been tapped. I was unable to secure anything more definite concerning the "other places" except that O'FARRELL said he had read in the paper of some such action being taken at Washington in connection with certain papers or certain lists.

The foregoing details I know are vague, but I was unable to get O'FARRELL or anyone else to be more specific. O'FARRELL first stated that he did not recall JEFFERY'S saying that wires had been tapped. When I called his attention to the fact that he, O'FARRELL, had referred to tapping wires, he thought that he did say it.

I contacted Mr. AUSTIN, the Editor-in-Chief of the San Diego papers, and called his attention to the quoted remarks and stated that they were absolutely, completely, and entirely incorrect;

Director
October 7, 1941

that the San Diego office had at no time tapped any wires or scrutinized any membership lists of America First, looking for Communists, or for any other reason; that no action had been taken by this office relative to America First, directly or indirectly, in any manner.

This morning's issue, October 7, 1941, of the San Diego Union covers a statement relative to this situation. A copy of this is attached hereto. It will be noted that this latter article quotes Mr. O'FARRELL and Mr. ABBEY. The Bureau's attention is particularly invited to the statement of Mr. ABBEY to the effect that EARL C. JEFFERY had "told us they had tapped wires and checked up on mail at Washington".

Very truly yours,

nsair Strike reat Ended y Mediation

Settlement Details Withheld Until Meeting Tomorrow

Settlement of demands that threatened a strike involving 37,000 workers at Consolidated Aircraft Corp. was announced last night by the defense mediation board in Washington, The Associated Press reported.

Details of the agreement were withheld until members of the International Association of Machinists local meet at 6 tomorrow afternoon in the Coliseum, Fifteenth and E sts.

NEGOTIATE TWO DAYS

En route to San Diego by plane to attend the session was W. J. Chadleigh, aircraft local president, who attended hearings before the mediation board.

Company, union and board representatives negotiated the dispute for two days.

The principal issue was the union demand for a blanket 15-cent-an-hour increase, based on a reported agreement by Consair to adopt any government-sanctioned wage standardization.

RAILWAY STRIKE SETTLED

The union had held that such a ruling was made by the government in the recent Lockheed-Vega wage increase. The company contended it had not been informed of the ruling.

The strike was voted Sept. 26, but the date was withheld at the request

Wheeler Pledges 'Fight to Last' Against War

Isolationist Draws 5000 Cheering Fans To Ford Bowl Talk

A fight to the last drop of his blood, to "keep America out of the hell of war in Europe and Asia," was pledged by Sen. Burton K. Wheeler, noted isolationist, before a cheering crowd of 5000 in the Ford bowl last night.

Scoring President Roosevelt's policies, which he charged were leading the country to war, the Montana Democrat rapped British imperialism, conceded the power of English propaganda, and spoke scornfully of the administration's apparent attempt to restore Red Russia to this country's good graces.

BRIDGES NAMED

"Deport Harry Bridges because he is a Communist!" cried the senator. "Why, the president ought to call him back to Washington and put him in his cabinet."

The crowd was with Wheeler with a few heckling exceptions, but the senator more than held his own in the few verbal exchanges that the throng permitted.

He warned San Diego that, before it goes riding off to war abroad for the four freedoms, it should look closely at its own situation. He referred to the votes of two San Diego city councilmen against permitting him to speak in Ford bowl.

U.S. to Borrow Another Billion

Gigantic New Loan May Set Debt Record

WASHINGTON, Oct. 3 (A.P.)—Secy. Morgenthau today announced plans to borrow $1,000,000,000 or more next week in what may be the largest cash financing of the treasury since the World war era.

Morgenthau said he intended to sell between $1,000,000,000 and $1,250,000,000 worth of treasury securities, barring unforeseen disturbance of financial markets by international events over the weekend. If the sales reach the latter figure, the transaction will top all post-World war financing, surpassing the $1,106,000,000 borrowed in 1936 to pay the soldiers' bonus.

Bomber Missing With Six Aboard

SACRAMENTO, Oct. 3 (U.P.)—A twin-motored Douglas B-18-A army bomber with six men aboard is missing and believed to have crashed somewhere between Needles, Calif., and Albuquerque, N. M., Lt. R. A. Butler, McClelland field adjutant, said here tonight.

Butler said the bomber took off here yesterday on a non-stop flight for Albuquerque at 5:30 p. m., and last reported by radio at 8:21 p. m. over Needles. Butler said as far as he could learn from Albuquerque, it was a routine position report.

LIST RELEASED

Butler released the following list of men who were aboard the bomber:

Pilot, Lt. A. T. King, Laramie, Wyo.

Co-Pilot, Lt. R. H. Conway, Wilbur, W. Va.

Corp. L. E. Gillem, Great Falls, Mont.

Pvt. 1st Class L. T. Merrifield, Springerville, Ariz.

King, Conway, Gillem and Merrifield were all from the Albuquerque air base. Butler said he did not have their home addresses.

There were two passengers. They were:

Lt. W. W. Kitsam and Lt. D. G. Boyd, both of the second airborne, Spokane, Wash.

PLAN AERIAL SEARCH

Officials at the Albuquerque air base said that a searching party would be dispatched by air as soon as the weather cleared. It has rained west of Albuquerque all day.

Butler said that it would not have been impossible for the ship to have made a safe landing in some remote spot where there were no communications, but he indicated the army held little hope of this.

Two Passersby Save Man's Life

Police last night credited two men with saving the life of Walter Merrill, 38, of 4183 Florida st.

Merrill attempted to commit suicide by attaching a hose to the exhaust of his car, parked in a garage at the rear of the house, police said. His mother, Mrs. Dorothea Merrill, said she saw the light in the garage and, guessing Merrill's intent, ran into the street, where she stopped the first passing car.

H. G. Birmingham, of 3845 Boundary st., and Barney Tyler, of 4845 Florida st., broke into the garage and removed the unconscious man from the car. While one applied artificial respiration, the other notified police.

Merrill was taken to the county hospital. Dr. Louis Strahlmann, police surgeon, said he probably would recover.

reported to the American consul at Pernambuco that he had picked up survivors of the tanker in a lifeboat and expected to land them at Rio de Janeiro tomorrow, the embassy said.

RESCUE REPORT MISTAKE

(A report circulated for a time that the Moore-MacCormack line's Mormacrey had picked up 16 other survivors of the White but this was attributed later to a mistake in the maritime police bureau in Rio de Janeiro. The Moore-MacCormack manager in the Brazilian capital said no information had been received directly or indirectly of the Mormacrey making such a rescue and that if it had done so he would have been notified. The U. S. embassy in Rio de Janeiro was without knowledge of the Mormacrey picking up any survivors).

(Standard Oil Co. of New Jersey said the I. C. White, a 7062-ton vessel, carried an all-American crew of 37, of whom 18 have been rescued. Standard formerly operated the tanker but it was one of 50 put in use carry supplies for the British war effort, company officers said. It was under Panamanian registry because of neutrality law restrictions on United States flag vessels.

UNDER BRITISH CONTROL

The Standard Oil said the ship sailed under British direction and that it was possible others were aboard in addition to the 37 regular crew members.

SETTLEMENTS RETAKEN

Troops under Maj. Gen. A. ... Yeremenko, in charge of the sector around Gomal, were reported to have recaptured "dozens" of settlements in the area.

(As transcribed at the United Press listening post in New York from a radio Moscow broadcast, the communique describing the southern front operation said 25 German tanks were "smashed" and 30 German tanks captured, indicating a gigantic tank battle.)

On the Leningrad front, where Russian marines are reported to have gained a foothold on strategic islands guarding the city's sea approaches, five German planes have been shot down the last two days, the communique said.

Also near Leningrad, the communique said, a single Russian unit commanded by Col. Bondarev killed 6000 Germans in September and destroyed seven artillery batteries.

MANY FIRES REPORTED

Small brush fires were reported in many parts of the state.

It was estimated around 7500 men were engaged in battling fires today. Damage, estimated earlier, at $1,000,000, was expected to exceed that amount considerably when all reports were in.

Joe F. Mastig, 55, employed at the Pickering Lumber Corp.'s Camp Grohl, died from exertion while a member of the crew fighting the Strawberry peak fire in Tuolumne county.

Three persons were hurt as a Nevada county rural fire truck overturned while aiding crews in Yuba county.

They were Robert Kistle, Nevada City, broken leg, and Raymond Lupero, Dobbins and Harlan Walker, Grass Valley, cuts and bruises.

collectivism earlier had been hailed and criticized by Judge Edward J. Kelly as men who would deny free speech in San Diego.

JOHNSON PRAISED

Wheeler opened his talk with a tribute to Sen. Hiram Johnson and then warned that there is an effort to "smear Lindbergh and others trying to keep this country ... of war."

"But you mustn't be surprised at ... hysteria," he said. "During the ...orld war they hanged old Bob ...Follette in effigy and then put ...m in the Hall of Fame. CITIZENS AFRAID

"People are afraid the administration at Washington will punish them if they speak out," he declared. "The president tells us there is freedom of religion in Russia. There is no freedom of speech, freedom of assemblage, or freedom of religion anywhere in Russia."

He read a list of killings he said Winston Churchill has charged to the Communist government of Russia as proof that the freedoms do not exist in the land of the soviets.

"There is only freedom from religion there," he said. "And yet they want to send American boys over there to fight a battle for freedom. The place to fight for the four

The borrowing will supplement new taxes in paying for rising defense costs and will foreshadow additional levies to come.

Morgenthau said yesterday the new taxes were just a "good start," and that next year's tax bill would have to be an "all-out" imposition on the public.

Next week's borrowing is scheduled from banks and other large investors. It is an addition to the regular sales of defense savings bonds to small investors and borrowing from the old-age reserve and other government trust funds. It will boost the federal debt to about $52,000,000,000—about double the peak in World war days.

BOND SALES SLUMP

Along with the financing plans, the treasury disclosed that sales of defense bonds in September slumped to $282,377,000, the smallest month since the program was inaugurated on May 1.

Treasury figures indicate that the huge borrowing will supply only enough cash to meet one month's deficit, at recent spending and revenue rates. In the three months since the present fiscal year started, the treasury has paid out $5,116,388,006 and has taken in $1,956,561,238. This created a deficit of $3,160,734,668, or an average shortage of more than $1,000,000,000 a month.

Under the agreement 1500 Germans are to be exchanged at Dieppe, some five hours by sea from Newhaven, for 1500 wounded Tommies. The Tommies will be returned in the same ships, Dinard and St. Julien.

The war office announcement said merely that the delay was occasioned by a message from Berlin and added that "the government are in communication with the German government and it is to be hoped it will be possible to make further statement within 24 hours."

Thus the delay is expected to be only temporary, and the German prisoners will resume on board the two ships.

After the privates came stretcher cases—long lines of German soldiers under piles of blankets, all carried by British Tommies.

I fear an American fuehrer here in this country. They have debauched some labor leaders, some veteran leaders and some farm organizations. But I think heaven they can't debauch the women."

He denied he hated Roosevelt.

HATE ON OTHER SIDE

"If there is any hate it is on the other side," he declared. "I hate things, not persons. "And if there has been intolerance it has been on the other side."

He read what he said were reports sent to England about American public men, in which it was stated that America is now the center of the war effort.

"Our American navy is the greatest in the world and can defend the the United States against any nation or combination of nations in the world," he said. "Bombers haven't narrowed the oceans, they've widened them. Any army or navy officer will tell you, if he dares speak, that the bombers you are turning out here in San Diego can make this country invulnerable to invasion. Remember that the British had to pull out of Norway because their navy was being bombed."

[illegible] SPEECHES CITED

He cited President Roosevelt's [illegible] speeches in which [illegible] of various cities being attacked.

"He didn't get up to Butte, Mont., but I'm sure as sure he wouldn't like to see it bombed if I were there," he added. "The trouble is the president is looking at yesterday, instead of at today or tomorrow."

Wheeler's jibes at Roosevelt drew appreciative laughter throughout the talk.

"I am told by navy officers that it would take an army of 2,000,000 men, landed at the same time, to make a successful invasion of this country," the senator asserted. "But navy man tell me there aren't enough ships to do this."

"Why are you for defense then?" cried someone in the audience.

"Every decent American ought to be for defense," Wheeler shouted back. "When we have an air force second to none alongside a navy second to none, no nation will dare attack us.

"If, instead of giving away our bombers to England and Russia, we [illegible]able for the United States to be keep them here for our down defense, there is no danger in the world of invasion.

"Is this our war over in Europe?" he asked.

"No, no, no!" cried the crowd.

URGES ENLISTMENT

"Well, if anyone thinks it is our war he can go up to Canada and enlist. The president says they'll have his blessing. They'll have mine, too. I'd like to see the president give his blessing and send Stimson and Knox over to England."

Wheeler asserted this is an economic war, and that he'd like to see England win it. He charged the story of 25 years ago is being repeated, and that waves of British propaganda are washing all over the nation.

"They've got us again right on the brink of war," he said. "But if you continue to stand firm no president nor congress will dare to go to war."

HUGE DEBT TO PAY

Speaking of the lease-lend expenditures, he said they are piling up a debt-load that the workers, the farmers and little business will have to pay off.

"And then we hear Churchill say that if we go to war with Japan, England will help us," he sneered. The crowd roared with laughter.

"Whenever you meet an Englishman he'll say 'I'm for England first'," Wheeler went on. "I hope more Americans will get to thinking of their country in that way. If people think there are better governments in England, Russia, Germany, Italy or any other country I say for God's sake go over there and stay."

RAPS AMERICAN GIFTS

Speaking of American gifts to aid the [illegible] he remarked:

"I [illegible]know how much England would give [illegible]under similar circumstances.

"It [illegible] these ships were sunk destroy what little [illegible] you've got [illegible]is country."

Wheeler was preceded by Judge Edward [illegible] Kelly, who said he wanted to "pay his respects to the four city councilmen who voted to permit the Wheeler speech in Ford bowl.

"And I'm going to pay my respects to the two who voted against the permit," the judge went on.

FLOWERS, SIMPSON HIT

"There is Al Flowers, the little czar. I don't know where he was born. Then there was Mr. Simpson—I don't know his first name—born, God help us, in Ireland."

Frank O'Farrell, of the America First committee, under auspices of which Wheeler spoke, charged the federal bureau of investigation had "tapped our wires and looked over our membership lists looking for Communists."

James Abbey, head of America First in San Diego, presided.

Children Missing After Clipper Crash

MIAMI, Fla., Oct. 3 (U.P.)—Pan American Airlines officers reported tonight that two children passengers were missing after a four-motored clipper seaplane crashed in the harbor at San Juan, Puerto Rico, and that 16 other passengers and six crew members were safe.

Officials here said the plane "[illegible]terlooped" while landing on a routine stop. The clipper had left Miami at 7:00 a.m. [illegible] on route to Rio de Janeiro, Brazil, [illegible] stops scheduled at several points, including San Juan.

Hillman to Confer With State Agents

SACRAMENTO, Oct. 3 (U.P.)—Sidney Hillman, labor coordinator in the office of production management, will attend a meeting of defense agencies with small business men here Monday, Gov. Olson announced today.

The meeting will be attended by representatives of the OPM, army, state departments and industry. Olson said a definite plan would be sought to enable even the smallest shops to obtain defense contracts which are now limited to major industrial plants.

OIL GROUP TO MEET

VISALIA, Oct. 3 (A.P.)—Speaker Gordon Garland, home for a brief visit, said tonight that the assembly interim oil committee, of which he is chairman, would meet for a three-day session at Los Angeles starting Thursday.

Right to Strike

SEATTLE, Oct. 3 (U.P.)—William Green, president of the American Federation of Labor, today called for "understanding" and "persuasion" rather than denunciation of strikers in defense industries, and reiterated that labor will never surrender its right to strike.

Describing this right as labor's "gun," Green added:

"We will put it behind the door, but not surrender it. The right to strike is as fundamental as the rights of free press and free speech. To lose it would mean involuntary servitude and forced labor."

Green addressed the closing session of the building and construction trades department shortly after his arrival for the opening next week of the national A.F.L. convention.

ATTITUDE IMPORTANT

The official attitude of the federation against defense strikes, he said, was more important than the fact that some work stoppages did occur.

"It is too much for any man to expect that perfection could be attained," he said. "When local strikes occur—and they will occur—we must take into account the state of mind of those who participate in strikes. Try to understand them, persuade them of their devotion to the nation rather than denounce them for stopping work to redress a grievance."

C.I.O. Indorses FDR

OAKLAND, Oct. 3 (A.P.)—The California C.I.O. council today strongly indorsed the administration's foreign policy, an action interpreted as indicating the council's support may lie with Philip Murray, national C.I.O. president, in event his reelection is contested by John L. Lewis.

The convention also heard Culbert Olson call for elimination of "racketeers" from the labor movement and hint that he may soon [illegible] in the case of three former union leaders [illegible] penitentiary terms on murder.

CHALLENGES OLSON

Olson's remarks [illegible] Ramsay-Conner case, [illegible] gene Patton, of San [illegible] retary of the Longsh[illegible] Warehousemen's union.

"It is about time [illegible] quit dilly-dallying around [illegible] fills his campaign pockets," Olson declared.

"I do not respond at [illegible] threats," Olson said in a statement reply.

Convention approval of full-fledged aid to anti-Fascist forces came through adoption of a report by the state council's executive officers declaring "our destiny is indissolubly bound to the armed struggle of the people of England, the Soviet Union, Norway, France and all the other occupied countries."

America First Speaker Clears San Diego F.B.I.

Frank O'Farrell, of the America First committee, who charged last Friday night in a meeting at the Ford bowl, that the F.B.I. had "investigated our organization, tapped our wires and looked into our books for Communists," yesterday explained that he did not refer to the committee's San Diego office.

James B. Abbey, chairman of the local America First committee, said he did not believe O'Farrell intended to refer to the local F.B.I. as the wire-tapping agency.

"So far as we know, our wires have never been tapped here and I don't think the F.B.I. office has been instructed to tap them," Abbey said. "We understand that there was information that the F.B.I. checked up on the national organization, especially around Washington. Earl C. Jeffery, national director of field operations, told us they had tapped wires and checked up on mail at Washington."

O'Farrell's Friday night statement was made during preliminaries to a talk by Sen. Burton K. Wheeler under auspices of America First committee.

After asserting the F.B.I. had been investigating America First 'looking for Communists," he added, "those days are gone now that the Communists are on the other side." At the time he spoke he did not state specifically which of the America First offices he thought were being checked.

Brigadier General Robert E. Wood
Chairman
America First Committee
1803 Board of Trade Building
Chicago, Illinois

Dear General Wood:

The San Diego Union in a news story which appeared in its October 4, 1941 issue stated that "Frank O'Farrell, of the America First Committee, under auspices of which Wheeler spoke, charged the Federal Bureau of Investigation had 'tapped our wires and looked over our membership lists looking for Communists.'"

A subsequent story appeared in the October 9, 1941, issue of the San Diego Union stating that Mr. Frank O'Farrell in making the above-mentioned statement did not refer to the America First Committee's San Diego office. Mr. James L. Abbey, chairman of the San Diego America First Committee, is then quoted as follows:

"So far as we know, our wires have never been tapped here and I don't think the FBI office has been instructed to tap them." He then goes on to state, "We understand that there was information that the FBI checked up on the national organization, especially around Washington. Earl C. Jeffery, national director of field operations, told us they had tapped wires and checked up on mail at Washington."

I am calling this to your attention inasmuch as Mr. Jeffery is said to be the national director of field operations for the America First Committee and the statements which he has made pertaining to the FBI tapping the telephone wires of the America First Committee and checking membership lists are unmitigated lies. At no time has the Bureau directly or indirectly at any place in the United States tapped the wires of, interfered with the mail, or checked the membership lists of the America First Committee.

URGENT

U. S. Attorney General Francis Biddle
Department of Justice
Washington, D. C.

Sir:

Tonight, at 10:15, Philip La Follette addressed a group of 135 chairmen of " America First " chapters, gathered at a dinner in a Washington Hotel. It was a most sinister vitriolic speech, threatening armed rebellion against our present administration. He did not mince his worlds- he openly called for an insurrection by " fearless red blooded Americans to overthrow the " War Party " government and bring to the bar of justice those responsible for our involvement in war." Although he tried to play safe by mentioning 1942 elections, he immediately followed this up by the challenge that " if the administration using a " rubber stamp Congress " tries to postpone elections we, the real " American Party " (he meant " America First "), will call upon all real Americans to fight for their freedom right here as their forefathers fought in the revolution."

You may think that these are empty words and idle [illegible] Unfortunately this is not the case. I am reliably informed from a source quite close to the " inner circle " of the America First Committee that there is a conspiracy on foot to overthtrow our government by a "coup d'etat." The conspirators are the powerful and wealthy backers of America First and a group of reserve officers and retired army generals who have succeeded to inveigle in their treasonable plot a number of active army and navy men. Their plan is to secretly mobilize and bring to Washington several thousand ex-service men, well equipped, surround Congress, Government Buildings and The White House, in a surprise move at dawn, thus taking possession of them. They calculate that a proclamation to the American people that their coup d'etat was staged to " save the lives of American boys " will receive their approval. With the President in their power, including Government Buildings and Congress, they feel satisfied that their act of treason will succeed. My informant further claims that the brains of the conspiracy are: Senators Nye, Wheeler, Wm. R. Castle, John T. Flynn, Col. McCormic (publisher of the Chicago Tribune, Philip La Follette, Father Coughlin, and above mentioned army men (reserve officers and retired army generals). I am sure that if you put the FBI on the job, they will probably soon get on the trail of all the men and groups of men engaged in this amazing, dastardly conspiracy, which aims to destroy constitutional government in this country. I know the whole story sounds incredible, and I myself would not have believed it if not for Lindbergh's repeated demands, in his public addresses, that the American people need " a new leadership " in Washington and Philip La Follette's open and frank invitation to forcibly overthrow the government. Mr. Lindbergh is, perhaps, slated to become our " dictator " if and when the plotters succeed.

Accusations from and against subject organization, as quoted in the press, have become so acrimonious that the activities of that society are rapidly assuming the importance of a battle front in the eyes of the public. Subject organization recently expressed bitter protests against the three major radio networks, charging discrimination and stating that inadequate facilities had been provided for subject's rally scheduled for the evening of October 31, to be held in the Madison Square Garden, New York City. The accusation stated that, of the three principal speakers, Senator Burton K. Wheeler had been accorded scanty time and that Charles A. Lindberg and former Ambassador to BELGIUM, John CUDAHY had been refused any time at all. James L. Fly, chairman of the Federal Communications Commission promised an investigation and called on the three networks to answer the charges.

A request for investigation of alleged partiality was signed, on behalf of subject, by John T. FLYNN, chairman of the committee, Mrs. John P. MARQUAND, Amos R. E. PINCHOT, H. Dudley SWIM and Edwin S. WEBSTER, Jr.

A police detail of 725 men has been promised for the rally, by the police department, as it had been reported that all the 7,000 reserved seats had been sold out.

Former Magistrate Joseph Goldstein informed Mayor

La Guardia that he would arrest any speaker who made slurring statements about the Jews. He also warned that, if the police failed to act, he would prefer charges against the Mayor and against Police Commissioner Valentine. He also stated that repetition of Lindbergh's Des Moines speech would mean rioting and bloodshed.

The Unknown Soldier Post 1124 of the American Legion protested to the Mayor, Oct. 28th, against the anti-war meeting. The United States Patriotic Society also protested against the meeting. Mayor La Guardia is reported to have dismissed a protest, a few days previously, stating that the protest had not been made by any patriotic organization or individual.

My Dear Mr. Hoover;

Just who is blocking your efforts to restrain that subversive group, the America First, particularly, Lindbergh and Cudahy: Lin a supporter of all Administrative measures Lin also back of the President, Mr. Roosevelt, and when a "Pat" like Cudahy says: "Roosevelt is a great man and may die," it is time for you to throw the your best brains into this case and permanently silence that group — it is malicious.

Our constitution grants no privileges to subversive agitators. The law provides that freedom be enjoyed by those who comply with our laws; hence those who seeks to overthrow the government, violate that law and should be dealt with accordingly.

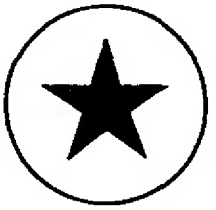
Dear Madam:

HERE ARE THE NAMES OF THREE OLDER MEN WHO ARE WILLING TO HAVE YOUR SON BE KILLED.



Senator John Doe, Democrat

"We will not participate in foreign wars and we will not send our Army, naval or air forces to fight in foreign lands----"
Democratic National 1940 Platform -- Senator Doe's party's promise to his electorate.

Congressman Richard Roe, Republican

"The Republican Party is firmly opposed to involving the nation in foreign war---"
Republican National 1940 Platform on which Richard Roe was elected.

(Will Your Name Be Here??)

And did you run on a war platform??

Madam, put this card in your mirror where you will see it every day. There will be a Congressional election this fall and a Senatorial election within five years. That will be YOUR chance - to tell these so-called "representatives" that you have no use [illegible] who DO NOT KEEP THEIR PLEDGED WORD.

Remember their names.

My dear Mr. Thomason:

Perhaps you are able to convince yourself that the world will little note nor long remember what you do today or tomorrow on the floor of the House of Representatives. But let us assure you it will never forget what the sons of American families do on the great battlefields of this - not a civil, but a foreign war.

The enclosed message, with actual names to replace the "John Doe" and "Richard Roe," will go out, should the Neutrality Act be amended, to 4,000,000 American women. We hope your name will not be there and, like the women of your district, we expect you to live up to the platform on which you were, in large part by these women, elected to the House of Representatives.

If you violate that pledged word, how do you expect the women of your state to trust you again?

The Hon. R. Ewing Thomason,
House of Representatives,
Washington, D. C.

Dear Sir:

The future welfare - prosperity - happiness, and security of these United States of America lie right here at home, within our own grasp, and not abroad. We are dependent upon nobody but ourselves.

We never will be able to find happiness, prosperity and security by crusading abroad in foreign wars, and getting ourselves mixed up in Europe's various intrigues.

We must work out our own destination here in the U.S.A., not in Europe. We should attend strictly to our own affairs, put our own house in order, and make ourselves so strong in our own self defense that no one nation or combination of nations would dare attack us. We can do this if we will. So let us conduct ourselves in such a way that we will be respected the world over, and by so doing prove to the whole world that our democratic form of Government is beyond reproach, then we will be admired and respected by all peoples, but this cannot be accomplished by mixing ourselves up in other peoples wars in which we have no place, and no right.

If England decided to declare war against Germany for reasons best known to herself, that is England's and Germany's business, not ours, so please keep us out of Europe's wars and intrigues by opposing with your vote, any change in the present neutrality law.

Very truly yours,

MEMORANDUM FOR MR. E. A. TAMM

RE: THE AMERICA FIRST COMMITTEE

11:50 AM

SAC Johnson at Chicago called to advise that the October 14th issue of the Daily Journal, Wheaton, Illinois, stated a Henry Rodamaker (phonetic) is temporary Chairman of the America First Committee at Wheaton. The article further stated that Rodamaker is an attorney in Wheaton, it told how the FBI had been invited by the Committee to examine its books, and advised that the FBI gave the books a "clean bill of health".

Johnson further advised that Smuthers (phonetic), a feature writer for the Daily News had been in to see him and would probably come out with an article quoting him. He informed Smuthers that the Bureau conducted no examinations of any books and that it is contrary to Bureau policy to comment one way or another regarding an organization.

In answer to my question as to whether or not the America First Committee had given him the invitation to examine their books, he read a portion of a letter from them dated March 13th, which is as follows: "Of course, our membership files are always open to you and we would like to have you go through them, if possible, so that you might advise us of any exceptions to our rulings that have escaped our strict scrutiny." The letter goes on to set out the purposes of the America First Committee and further says, "from time to time we have occasion to have advice from you and we may have occasion regarding the status or standing of individuals we are unable to readily check. Would it be possible to have your help in such instances?" Mr. Johnson answered this letter by saying that due to the confidential nature of the files of the Bureau, he would be unable to be of any assistance in this connection.

Mr. Johnson stated it was entirely possible that from time to time agents might have contacted the America First Committee to check on specific individuals, but by no stretch of the imagination could this be construed as checking their books.

Respectfully,

D. M. Ladd

MEMORANDUM FOR MR. KRAMER

Re: AMERICA FIRST COMMITTEE;
INTERNAL SECURITY

Information has been received from an unknown outside source under date of September 22, 1941, at New York City, that the international affairs of the captioned organization are in considerable turmoil. In Chicago, Illinois, the Fight for Freedom Committee has set up an organization to fight the America First Committee. Colonel McCormick of the Chicago Tribune, Harry Jung of the American Vigilante Association, and Elizabeth Dilling are carrying the burden for America First, while on the other side Professor Albert Parry is fronting for the Fight for Freedom Committee. The America First Committee is endeavoring to smear the Fight for Freedom Committee as being Communist and this action has caused the America First group to make a thorough search for any sort of evidence to belittle Parry and his cohorts.

In the New York area the situation is even worse because Lindbergh and Senator Nye have opened an attack on the Jews. All the Jewish money that was forthcoming to the America First Committee has practically stopped and the suspicion is that about the only funds they are getting from some big source possibly come from Colonel Pew, the executive head of the Sun Oil Company.

John T. Flynn, the New York leader among the Catholics and America First, has it is understood, served an ultimatum on the New York Committee that if Lindbergh does not resign, he will relinquish his chairmanship of the New York chapter. Norman Thomas reportedly has given the National Committee two weeks for Lindbergh to resign or he will cease his speaking tour. Every Jewish group in New York City has received instructions to "crack down" on America First. According to the informant this is going to cause some repercussions that may do more harm to the Lindbergh group than anything up to the present time.

It is further stated that Dorothy Dunbar Bromley, the noted

liberal writer, has resigned from the America First Committee, and Kathryn Lewis and Mrs. Burton K. Wheeler are the motivating force behind the Committee at the present time. John T. Flynn reportedly flew to Chicago recently for a showdown with the National Committee but apparently the Committee has not changed its attitude with reference to Lindbergh.

On September 23, 1941, this same source reported that up until the present time the America First Committee has reportedly refused to divulge any information about its sources of funds or the size of contributions. This may be changed, however, in view of the recent Congressional election in the 1st Wisconsin District, where the Wisconsin branch of America First opposed Mr. Amlie for election. State Attorney General John E. Martin has announced his intention to order the chapter to file an official report upon its expenditures in the contest. The America First Committee in this particular district backed Lawrence H. Smith, who was successful in the election and the Wisconsin law requires all organizations participating in political campaigns to file a detailed expense account. The America First Committee has refused to comply with this law as of the present writing.

My dear Mr. Hoover:

I have just received your letter of October 17th, which was addressed to me at the national headquarters of the America First Committee in the Board of Trade Building.

It is needless to state how deeply I regret hearing that such a loose and untrue statement came from one of the members of the America First organization. Enclosed is copy of a letter that I have written to Mr. Jeffrey.

You can rest assured that I will see that no more such statements are made by any of our responsible members.

I desire to thank you for calling this matter to my attention and assure you of my esteem and appreciation. I have long been a great admirer of yours.

I received a letter from J. Edgar Hoover, Director of the FBI, in which he quotes the following statement attributed to James B. Abbey, chairman of the San Diego America First Committee:

> "We understand that there was information that the FBI checked up on the national organization, especially around Washington. Earl C. Jeffery, national director of field operations, told us they had tapped wires and checked up on mail at Washington."

I desire to inquire as to whether or not you made such a statement. It is not true, and no member of our organization should make such loose statements, particularly pertaining to the FBI which is under the direction of J. PERSONAL

Hon. J. Edgar Hoover, Director
Federal Bureau of Investigation
Department of Justice
Washington, D. C.

Dear Mr. Hoover:

I have just received the following telegram in the name of the persons whose names were affixed thereto. This list almost corresponds to the signers of the most denouncatory letters against our present foreign policy that I have been receiving for many months now.

I am further convinced it is at least a segment of the San Diego America First Committee. I thought perhaps this list in the hands of your San Diego office might be of some value.

With kind personal regards, I am,

Sincerely,

Ed. V. Izac

together with copies of my reply thereto under date of December 1.

It is a desire of the Bureau that you ascertain whether the address to which the informant refers in his letter is an office of the America First Committee, or whether it has reference to the location of a subversive group. In the event that the address is that of the America First Committee, you should, of course, conduct no investigation. However, if the location is a meeting place of subversive groups, you should, of course, make appropriate inquiries in order to determine whether there is any violation of any statute within the Bureau's jurisdiction.

Re: THE AMERICA FIRST COMMITTEE

The America First Committee was incorporated under the Not for Profit Laws of the State of Illinois on September 19, 1940. The purposes of the committee as outlined in its charter are to encourage and maintain in the United States of America:

1. Peace and the Democratic ideal.
2. A program of adequate defense.
3. A furtherance of peace in this continent, a policy of non-intervention in the affairs of other continents and to encourage the giving of help to refugees and the needy in other lands insofar as such help does not endanger the peace in the United States.

The America First Committee has advertised itself as being "non-partisan organization of loyal and patriotic men who believe:

1. The United States must build an unbreakable national defense.
2. No foreign power nor group of powers can ever successfully invade a prepared America.
3. Our Government sending men of its own, ships, planes and materials of war to a belligerent overseas dangerously weakens our defense at home and threatens to involve America in war abroad.
4. Our American Democratic liberties can only be preserved by keeping out of foreign wars in Europe or in Asia."

RECORDED Top - 47 12

The national headquarters of the America First Committee is located at 1806 Board of Trade Building, Chicago, Illinois. A local headquarters is maintained in Washington, D. C., at 1010 Vermont Avenue, N. W. There is a total of 500 local chapters and affiliated units of the America First Committee throughout the United States.

The following is a list of the officers and Directors of the America First Committee with the background as to each individual

The following persons, who are nationally known, are also Members of this Committee:

Mrs. Bennett Champ Clark
Bishop W. E. Hammaker
Kathryn Lewis
Sterling Morton
Edward L. Ryerson, Jr.
Mrs. Burton K. Wheeler

The America First Committee is reported to be financed solely by voluntary contributions by those interested in the organization. The Committee conducted a radio broadcast on October 21, 1940, at which time the radio announcer requested his listeners to send anything from dimes to dollars to the America First Committee, Board of Trade Building, Chicago, Illinois, and this same request was made following numerous other broadcasts.

The financial support of the America First Committee seemingly evolves from voluntary contributions and in connection with the financing of this Committee attention is directed to the financial positions held by:

General Robert E. Wood
R. Douglas Stuart, Jr.
J. Sanford Otis
Hanford MacNider
General Thomas Hammond
J. C. Hormel
Clay Judson
Wm. R. Castle
Henry Ford
Alice Roosevelt Longworth
Thomas N. McCarter

CONFIDENTIAL

On October 21, 1940, Boake Carter was sponsored in a transcription program of Station WNAC, Chicago, Illinois, by the America First Committee. In this broadcast Carter explained that the Committee was dedicated to aid America first and later to aid Britain. Following the transcription, the announcer suggested that the listeners write their congressmen and senators demanding that they prevent the United States' intervention into the war and that they arm America before aiding Britain and also requesting the audience to send in anything from dimes to dollars to the America First Committee, Board of Trade Building, Chicago, Illinois.

A confidential informant stated that the America First Committee was started by General Wood in cooperation with the other members of the Committee and that although the Committee's viewpoints in connection with the United States' present policy in foreign affairs is different from that of the administration, he is of the opinion that the Committee originally had a few persons in it who were what he termed "left-wingers" and according to him are not to be considered Communistic.

[redacted] b7D b7E

[redacted] advised that on January 16, 1941, the office of the America First Committee was opened on Wilshire Boulevard, Los Angeles, California, and it was observed that the automobile of Doctor Georg Gyssling, German Consul was parked in front of the building during that day. The informant related that this car had never been seen there previously and has not been seen there since that time.

The America First Committee has published an enormous amount of propaganda literature concerning the aims of the Committee and has circulated this literature throughout the United States. The apparent object of the literature is to crystallize American opinion to prevent the entrance of the United States into European wars and to villify the foreign affairs program of President Roosevelt. The numerous pamphlets published by the Committee state that 86% of the people of the United States are opposed to the United States intervening in foreign wars. These pamphlets fail to make any explanation as to how the figure of 86% was arrived at. This literature also makes an appeal to American mothers to aid the Committee for the purpose of preventing their sons from being embroiled in another European war. The foreign program of President Roosevelt is termed "the road to war" by the literature emanating from this committee.

(100-4712-41-56)

Friends of Democracy, Incorporated, L. M. Birkhead, National Director, with National headquarters in Kansas City, Missouri, published a pamphlet entitled the "America First Committee, the Nazi Transmission Belt." This pamphlet alleges the America First Committee whether its members know it or not and whether they like it or not is a Nazi front organization and is a transmission belt by means of which the apostles of Nazism are spreading their anti-Democratic ideas into millions of American homes. This pamphlet also charges that Adolf Hitler and his disciples in the United States are using the America First Committee to spread Fascist and Nazi propaganda.

Information received from the office of Naval Intelligence discloses that on February 4, 1941, Paul von Gontard entertained John Wheeler and his wife Helene Albright Wheeler, the son and daughter-in-law of Senator Wheeler. During the course of the conversation at the party, Mrs. Wheeler stated while attacking the contemplated Land Lease Bill, also opposed by the America First Committee, that the "only way we can be safe is to see the pins knocked out from under Britain." The informant who furnished this information stated that such a remark indicated that she had become imbued with pro-German sentiment because of her association with various individuals, including Doctor Adolph Spreckles, Miss Josephine Alderman, and one Hans Wolfram, all of whom are suspected of German espionage. It will be noted that Hans Wolfram has done publicity work for the German Embassy.

Information received from the office of Military Intelligence, indicates that the America First Committee, in the opinion of the Communists, is a dangerous movement launched by "big open-shop industrialists," and the political bureau of the Communist Party is of the belief that in the event that the United States gets into the war, the America First Committee will support the war regardless of its present opposition; and further that when this country is ready to plunge into war the "General Woods, Eyersons, Fords, McCormicks," etc., would declare that they no longer opposed war because the country is engaged with a foreign foe. The Philadelphia Ledger for April 22, 1941, carried an article stating that the National Legion of Mothers and Women of America contemplated inviting women associated with the Bundfuehrer Bund into its membership. Mrs. Edith Scott of Philadelphia, Pennsylvania, whose organization is affiliated with the America First Committee, said the invitation was under consideration by her group. (100-4712-A)

In the April 14, 1941 issue of the Staten Island Advance an article appeared stating that Howard I. The News Letter of Los Angeles, California for April 9, 1941, carried an article concerning the America First Committee meeting held at Los Angeles, California, which was addressed by Mrs. Catherine Curtis and Senator Gerald P. Information received from a confidential source on May 26, 1941, reveals that United German Societies held a meeting on May 26, 1941, at the New York Turn Hall at which time the meeting was addressed by Dr. Fleischman, a member of the America First Committee. (61-9879-268)

The activity of the America First Committee reached its peak during the period when it exerted its complete effort to the end of blocking the Lend Lease Bill sponsored by the administration. Thousands of pieces of literature were distributed; numerous meetings were held in the metropolitan areas and the people all over the nation were incited to petition their national representatives to block the passage of this legislation. (100-4712-16)

Two of the largest meetings sponsored by this Committee during that period were held at New York City on May 23, 1941, and Philadelphia, Pennsylvania on May 29, 1941, at which meetings approximately 20,000 people attended. Senator Burton Wheeler of Montana, Charles A. Lindbergh, Kathleen Norris and Norman Thomas were the headline speakers at these meetings. The texts of the speeches delivered were concerned with deriding the administration's foreign policy, especially the Lend Lease Bill, which they emphatically criticised as an active step towards entrance of the United States into the European conflict. On July 30, 1941, a confidential source made available a summary of information furnished by an informant who was believed to be reliable. This informant alleged that the America First Committee had recently formed in New York City an "Investigation Unit", under the direction of one George Wrangell. Wrangell, who is alleged to be a White Russian and influential among the Russian emigres and French refugee groups, was said to be openly pro-German and pro-Nazi and has been connected with German Bund and German Government circles. This informant further stated that the Bundists are operating as volunteer workers in the dissemination of anti-interventionist literature published by the America First Committee. The "Investigation Unit" referred to above is said to be the creation of Mr. Breasan Batchelor. This informant also mentioned the fact that the America First Committee has been operating with certain Bund agents in a campaign of contacting the parents of draftees and enlistees with the view toward agitating against the national defense program and the extension of the period of military service. Committee was the creation of one R. Douglas Stuart, Jr., a law graduate of Yale University in 1940. Stuart was said to have first contacted Colonel Lindbergh and then Earl Brewster concerning the formation of such an organization. Later General Robert Wood and others entered the picture. This informant stated that there is an influential Jewish group backing the America First Committee, which group has as its front the Guggenheim Foundation. This Committee was said to have been set up because of hatred for President Roosevelt and his foreign policy. The informant further mentions that the Committee was also founded as a sounding board for anti-Jewish propaganda, and in this connection, he mentioned the fact that Father Coughlin of Detroit and the Christian Front Organizations had been officially welcomed into the America First Committee by General Wood. He also stated that in Washington the Committee has a strong anti-Roosevelt lobby composed of William Castle, Alice Longworth, John L. Lewis and General Hugh S. Johnson, all bitter enemies of the President. This informant further mentioned the fact that assisting William Castle in Washington is William Senger, a former Communist. It is to be noted that the information contained in this summary report has been submitted to the Bureau from numerous sources located in different sections of the country. According to the informant, this so-called anti-Semitic movement is backed by Henry Ford and professes to have Charles Lindbergh as its national leader. With reference to the America First meeting held at the Olympic Auditorium in Los Angeles on October 2, 1941, it is to be noted that Senator Wheeler, the principal speaker, after launching an attack upon President Roosevelt's broken promises regarding his war stand, his ordering the American Navy to shoot, and to occupy Iceland, stated that it might well be assumed that soon American soldiers would be fighting side by side with Communists for the protection and preservation of Communist Russia. He referred to the present cooperation between England and Russia as an "unholy alliance." The Senator then launched into an attack upon the motion picture industry charging them with the spreading of war propaganda and placing upon them the responsibility of inviting the United States in another foreign war. He then charged the Jews with being responsible for the propaganda pictures presently circulating in this country and referred to the fact that Jewish refugees are presently being feted by the United States citizens while attempting to have the United States fight the war for them and their cause. SUBJECT: AMERICAN FIRST COMMITTEE

1. The anti-British activities of the American First Committee are being increased, both in volume and intensity of attack, and in all sectional headquarters of the A.F.C. in Greater New York other subversive slogans, "Impeach the President" and "Free Washington of British Influence" are promoted with the regular A.F.C. anti-war propaganda.

2. In New York City, the same small clique of fanatical workers, with a direct tie-up with the Bund and Japanese propaganda circles, are active and have practically intimidated the other workers who believe it is their loyal duty to prevent this country from entering war, but are opposed to the issue.

3. In Queens and Brooklyn, these groups are turning their particular attention to religious communities as the best means to influence foreign born or foreign language groups, with marked success. The real leaders are not in evidence, as they operate through a large number of shabby, but fanatical agents, whom they are able to recruit without great financial expense, and who, from a psychological standpoint, are open to the powers of suggestion and as such conform practically to an unknown quantity and force.

4. Any attempt to control this movement by trying to develop legal cases against individuals fall short of purpose, as the loss of the known surface leaders would not stop the movement, there being ample replacements available. A large enough staff of sympathisers, boiling over with the desire to serve in a more active capacity, are ready and waiting to be called.

Neutrality—or War?

"Controversies which would involve the United States are far more likely to arise from the entrance of American ships or American citizens in the danger zone, or through the sinking on the high seas of American vessels."

—Cordell Hull and Franklin D. Roosevelt, July 4, 1939

Those who seek revision of the Neutrality Law know full well that it means:

American ships will be sunk . . .
American seamen will be drowned . . .
The American people will be swept into war on a wave of hysteria—just as in 1917.

The war party is demanding a one way passage to Davy Jones' Locker for American seamen—a one way passage to the battlefields of Europe for a huge new AEF.

What Are You Going to Do About It?

> ***"This government will insist that American citizens and American ships will keep away from the immediate perils of the actual zones of conflict."***
>
> —Franklin D. Roosevelt, September 21, 1939

The war party now seeks repeal of the section of the Neutrality Act which keeps our ships and our seamen out of the war zones.

They do so knowing that **repeal will mean:**

The sinking of American ships.

The drowning of American seamen.

A series of inflammatory "incidents" which will drag us into war.

They deliberately seek repeal knowing the certainty of these consequences—which the President foresaw in 1939—**and knowing further:**

1. **That there is no practical need for repeal—England needs our shipping less than at any time since the war began.** **(See Page 5)**
2. **That we will not enter the war while the Neutrality Law stands intact.** **(See Page 6)**
3. **That the purpose of the Lend-Lease Law is to prevent our ships from entering the war zones.** **(See Page 7)**

The proposed repeal is the war party's last desperate gamble—they are betting we will go to war if enough American seamen are drowned. This time they go too far—they shall go no further.

On this issue we stand our ground. Read what the true facts are. Learn what you can do—what you must do—to stop this threat here and now.

Why Was the Neutrality Act Passed?

"By the Neutrality Act . . . we made it clear to every American, and to every foreign nation, that we would avoid becoming entangled through some episode beyond our borders."

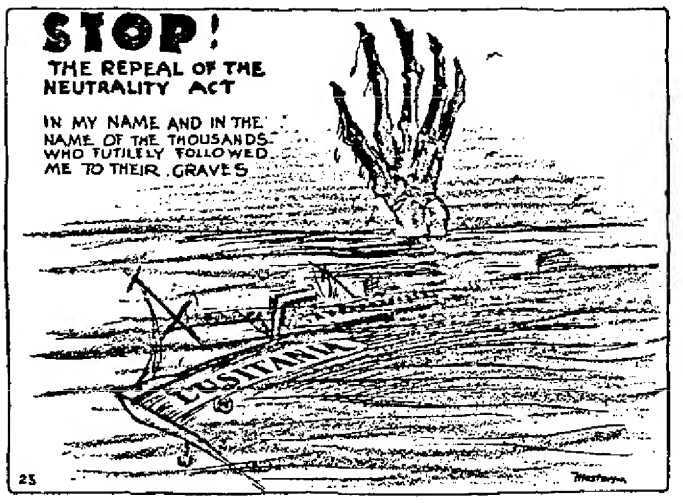
—Franklin D. Roosevelt, October 24, 1940

The Neutrality Act was a guarantee by Congress that we would not be drawn into another war. Its purpose was to eliminate the causes. Its purpose was to prevent a grim repetition of 1917.

In the period of 1935 to 1939 America was cool and collected. There was no pressure—no propaganda—for war. Congress carefully studied the history of 1914-1918. It held hearings which were complete and thorough—they were not limited to two days. And Congress learned what everybody now knows.

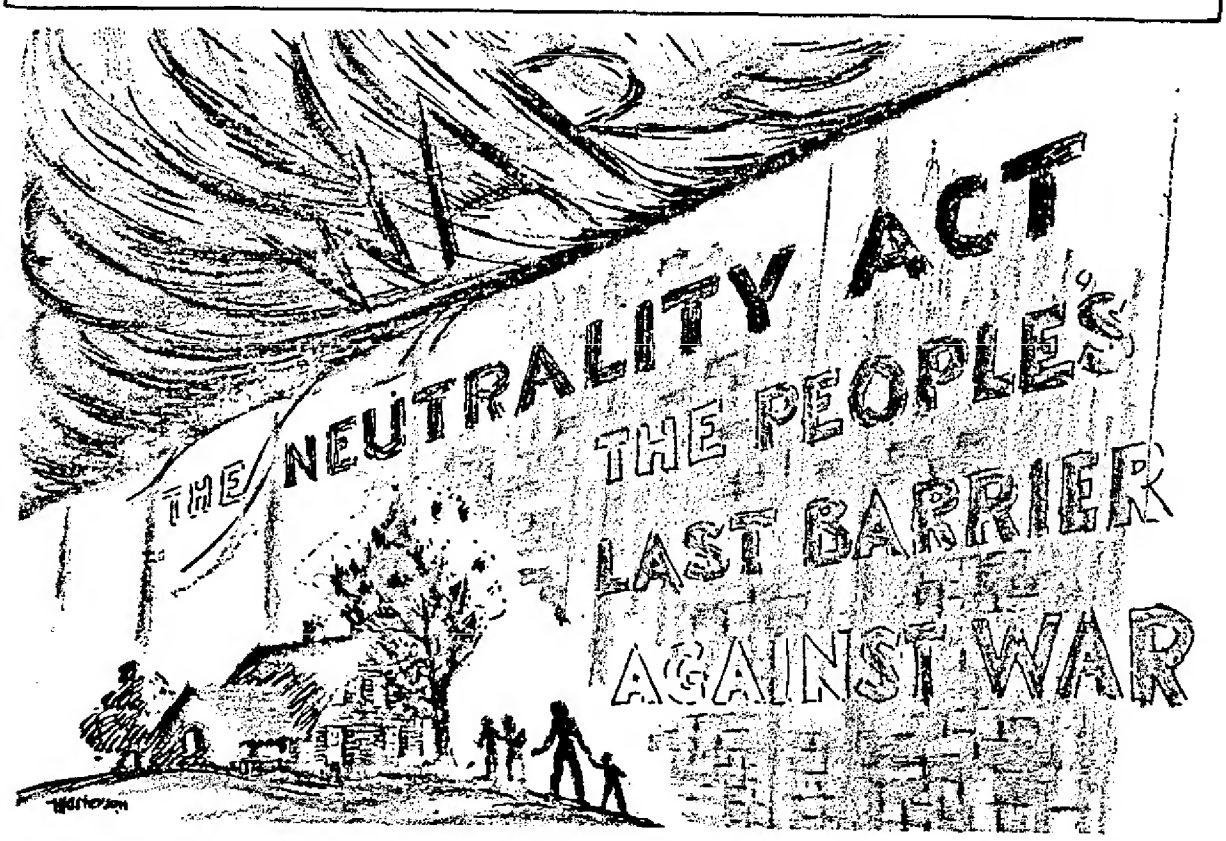
We would not have been drawn into the World War if we had had a Neutrality Act in 1917.

So Congress passed—and the President signed—a wise and prudent law—a law to prevent another series of tragic incidents which would cause a blind hysteria for war. Today that law keeps our ships away from certain destruction—away from the submarine-infested waters off the coast of Europe.



Congress knew then and knows now that ships which carry contraband of war to one belligerent are fair targets for the other. Those ships will be sunk. This is what the war party longingly looks forward to. The American people must give them their answer.

What Has the Neutrality Law Done?



"The adoption of these recommendations offered greater safeguards than we had before, to protect American lives and property from destruction, and in that way tended to avoid the incidents and controversies likely to draw us into the conflict, as they had done in the last World War."

—Franklin D. Roosevelt. October 4, 1941.

The Neutrality Law has accomplished its purpose. It has kept us out of war.

To date not one American ship has been sunk, not one American life lost, in the war zones.

Secretary of Navy Knox testified on **October 13, 1941:**

> "In this sense, it may be said with justification that the act has been successful—the United States has not gone to war over incidents."

Until we make those incidents possible we will not go to war. That is why the Neutrality Law is the people's last barrier. That is why the war party is trying so desperately to tear it down. That is why the people must insist:

No drowning of American seamen—no tampering with American lives—**no repeal of the People's no-war law.**

THERE ARE VARIOUS KINDS OF "INCIDENTS"

American merchant ships should not be confused with American war vessels. The United States Destroyers GREER and KEARNY were both engaged in "incidents" while in pursuit of German submarines.

The Greer, according to the official Navy Department report, pursued a submerged submarine for three hours, and cooperated with an English war plane which dropped four depth bombs on the submarine. Not until after this attack did the sub fire a torpedo across the Greer's wake. The Greer then dropped eight depth charges and the submarine thereupon fired another torpedo, which missed. These actual facts were not made public until long after the President's shoot-on-sight speech, which gave a different account of the incident.

The Secretary of the Navy has reported that the Kearny was engaged in convoy duty and had searched out and attacked a submarine. After the Kearny had dropped depth charges on the submarine, the sub fired three torpedoes.

The Destroyer REUBEN JAMES was also on convoy duty. These incidents did not occur in the war zones—but they indicate what we may properly expect if our armed merchant ships and naval vessels try to deliver contraband directly to belligerent ports. Such ships, of course, will be legitimate targets, according to international law.

Is Repeal Really Necessary?

"Losses by enemy action of British, Allied and neutral ships during the quarter of July, August and September have been only one-third of those losses during the quarter of April, May and June . . . Very few important ships carrying munitions have been lost on the way . . . Our reserves of food stand higher than at the outbreak of the war." *—Winston Churchill, House of Commons, October 1, 1941*

THE QUESTION THEY CANNOT ANSWER

Q. If the true purpose of repeal is to increase deliveries to England, why can't this be accomplished **immediately** by transferring American ships to England in accordance with the Lend-Lease Law?

A. It can, of course, but this won't produce the attacks on the **American Flag** which the war party so desperately needs. This question exposes the proposed repeal for the sham and hypocrisy that it is.

(See below amazing letter from Moore-McCormack Steamship Lines.[1])

The blunt truth is this—there is no practical need for repeal. The facts tell the story:

1. England has more shipping today than she had when the war began. In September, 1939, England had 21,000,000 tons, or 31% of the world's shipping. Today, despite losses, she has 25,767,000 tons, or 45% of the world's shipping.[2]

2. Shipping losses in the Atlantic have become almost negligible. See Churchill speech quoted above. Less than 4% of cargoes of all flags leaving our shores have failed to reach England—even last winter when the battle of the Atlantic was at its height.[3] England has just released forty of our tankers which she does not need.[4]

3. Our own ship yards and the ship yards of Great Britain are turning out new ships at an unprecedented rate that exceeds by many times the combined rate of losses.[5]

We Will Not Go to War While This Law Stands

"I believe that American vessels should, as far as possible, be restricted from entering the danger zones. . . . This means less likelihood of incidents and controversies which tend to draw us into the conflict as they did in the World War."

—Franklin D. Roosevelt, September 21, 1939

The President made the above recommendation in his message to the special session of Congress which approved the present Neutrality Law.

Congress recognized the wisdom of this measure, and loudest in their support were the men who shout for repeal now. What they said then, however, has been proven even truer today.

Read how their past utterances belie what they say today. Let their own words state the true case for retention of the Neutrality Law.

Senator Tom Connally (Texas) Chairman, Senate Foreign Relations Committee, October 14, 1939.

"Although under international law you have a right to go about your vocation and travel the high seas, as a domestic regulation we forbid you to do so at this time, in order, not alone to protect your lives, but to protect the lives of all the millions of Americans and help keep them out of this devastating and desolating war."

(This man's radio speech opened the drive for repeal.)

Senator Alben W. Barkley (Kentucky), Senate Majority Leader, October 19, 1939.

"The law which we are now proposing would have prevented these attacks upon property and lives (in 1916-17) because both property and lives would have been withheld from regions of danger resulting in their destruction or their attack upon them. The law we are proposing will keep American ships and American cargoes and American sailors and American travelers out of the regions of danger."

(This man leads the fight for repeal in the Senate.)

Senator Lister Hill (Alabama), October 25, 1939.

"What we want to do is to keep American ships out of the danger zones, so they will not be subject to seizure, or any interference or action by Britain or Germany or any other country."

Senator Josh Lee (Oklahoma), October 27, 1939.

"The purpose of this law is to prevent war; it is a preventive measure."

Senator Kenneth McKellar (Mississippi), October 20, 1939.

"I believe the safeguards in the joint resolution constitute many steps to keep us out of war."

(This is the man who introduced the first resolution calling for repeal.)

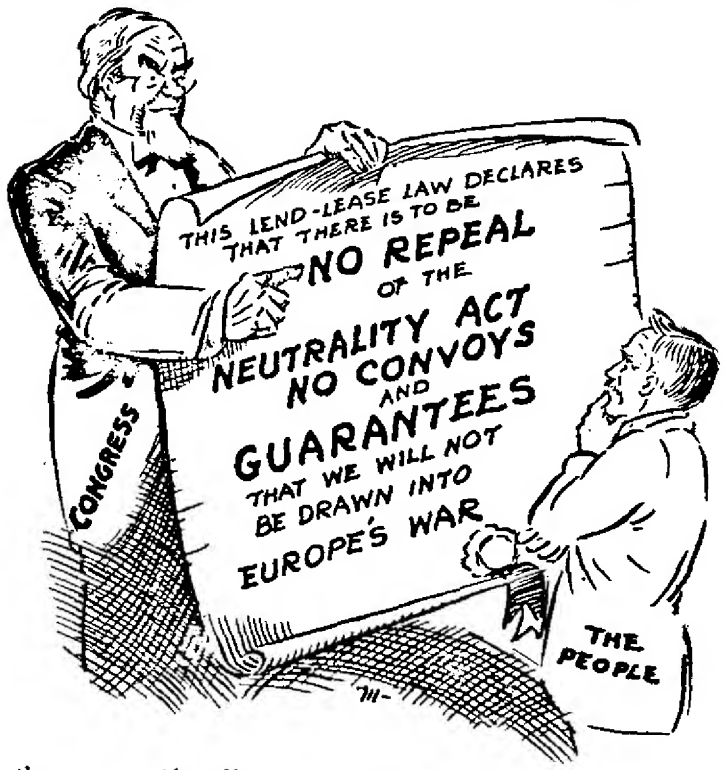
"Changing the Neutrality Act to send our ships to belligerent ports would mean war." —Senator George W. Norris (Nebraska), September 24, 1941.

"Let Us Be Consistent"—President Roosevelt

"Nothing in this Act shall be construed to authorize or to permit the authorization of the entry of any American vessel into a combat area in violation of Section 3 of the Neutrality Act of 1939."

—Lend-Lease Law, Section 3, Subsection 5 (e).

In his message to Congress of October 9, 1941, President Roosevelt said: "I earnestly trust that the Congress will carry out the true intent of the Lend-Lease Act. . . . In other words, I ask for Congressional action to implement Congressional policy. Let us be consistent."



The President says the Law means one thing; the provisions of the Law state the opposite.

The only way to be consistent with the policy of the Lend-Lease Law is to retain the Neutrality Act as it is.

The Lend-Lease Law was introduced, sponsored, and passed as a means of keeping America out of war. Secretary Stimson, Secretary Knox, Wendell Willkie and every member of the Senate who supported the Bill so stated for the Record.

So strongly did Congress feel that the Lend-Lease Law should keep us out of war—not take us in—that they specifically excluded from the Bill measures which might lead toward war.

They **reaffirmed** the Neutrality Act. They refused to allow convoys and they outlawed the suggestion that we "deliver the goods." In short the Lend-Lease Law says: Let England's great fleet come and get all the goods it needs —but keep our ships and our seamen out of the war zones.

•

"Let us be consistent." Let us "implement Congressional policy" by preserving the no-war Law now.

Congress Took No Chances

When Congress passed the Lend-Lease Law, they went to extraordinary limits to make sure that the Bill would not permit the fatal step of "delivering the goods." Every word in the Bill was analyzed and all possible insurance was taken.

For instance, the original bill authorized the President to "transfer" any defense article. In his testimony before the Senate Foreign Relations Committee, former Governor Landon cited Webster's Dictionary which defines the word "transfer" as follows: "to convey from one place to another; to transport, remove, to another place."

He pointed out that this word might possibly be interpreted as authority to deliver Lend-Lease material to England. This seems far fetched, perhaps, but the Senate was taking no chances—it went out of its way to amend the Bill to make it clear that transfer means only to transfer ownership of goods right here on the shores of the United States.

Repeal Means Convoys and Convoys Mean War

If we were to send our merchant ships into the English Channel, naturally we would want to protect them with our naval vessels —our convoys, as the President indicated in his Navy Day address. But to quote the President himself, — "Convoys mean shooting and shooting means war."

That is why the Lend-Lease Law provides: "Nothing in this Act shall be construed to authorize or to permit the authorization of convoying by naval vessels of the United States."—Section 3, Subsection 5 (e).

Notwithstanding this provision, the U. S. Destroyers Kearny and Reuben James were on convoy duty.

How America Will Win the Battle of Neutrality

Here's What You Must Do

Whatever you do, do it now. It is a matter of days or hours before Congress votes on the issue which will mean certain war. Act at once—whatever the sacrifice, whatever the effort. Do these things immediately:

1. **Write or telegraph your two Senators and Congressman today.** These men are faced with the most solemn decision of their lives. They know their vote means peace or war. They are waiting to hear from you. Sit down and write—at once. To hesitate is to lose by default.

2. **Make a telephone call today to your Congressman or Senator.** Call him person to person at National 3120. If he is not in his office, ask the operator to put the call through to the House or Senate Floor or to his home. **Let's make the wires hum.**

3. **Join the America First Committee.** If you are already a member, call at your local chapter and enlist in the fighting forces of the Neutrality Brigade.

4. **Send us your check today.** We are in urgent need of funds. Contribute all you can immediately. One dollar will carry this pamphlet to twenty others. Ten dollars will carry it to two hundred.

Dear Sir:

[redacted]-I feel that I can divulge some information supplied by one of those who thinks "Hitler the greatest man born since Christ."

There is a wealthy man's estate in Danbury Conn., that has a complete arsenal,which is to be used by those America-First-Bund members, for fiot and revolutionary purposes here in N.Y. in the event this country declares war.

This information is authentic and do hope you will not disregard it;so many are plotting for our over throw, that as a 100% American, I can't help but feel, these so called German-American citizens should be investigated.

May I take this means of commending your staunch stand for Real Americanism.

'STORM AHEAD, DIG IN,' WARNS 'ALFALFA BILL'

Oklahoma City, Nov. 22 (AP).—William H. (Alfalfa Bill) Murray adgises city dwellers to get three acres in the country and a storm cellar—there's inflation ahead "and that means dictatorship."

Thus spoke Oklahoma's former Governor as he turned his 72d year, still vigorous, still critical of the New Deal he has fought so long.

Murray, a Democrat, told an interviewer:

"Now, if I were a city dweller I'd get about three acres somewhere out in the country, away from a main highway. I'd have a cellar and I'd begin to can vegetables and fruit.

"I'd get all the specie I could. Paper money won't be worth anything.

"I'd put those canned vegetables in a hole in the ground, bury them, so I'd have something to eat when the trouble comes."

Down in the southeastern Oklahoma mountains, Murray has a farm on Yashau Creek, and when and if the storm gathers that's where he will be. He thinks he'll be using his cellar in four or five years.

Washington Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

(The authors of the columns in this space below are given the widest latitude. Their viewpoints do not necessarily always reflect those of the Sunday Mirror.)

WASHINGTON.—Averell Harriman's confidential report on Russian requests for aid was far different from British requests after Dunkirk. Russian orders seemed a mere driblet.

In the Lowlands debacle the British lost practically all their armored equipment and most of their field artillery. The Russians lost tremendous quantities of material, but from their relatively modest requests they must have a lot left.

One of the chief things they want is 75 and 105 mm. guns, which we can supply. Figures are a military secret, but these cannon are rolling off in quantity. The Russians asked for machine guns, which also we can furnish in large numbers, since production is high.

One big, pleasant surprise to Harriman was that the Russians do not need machine tools, at least now. The U. S. and Britain have few tools to spare.

NOTE: U. S. experts consider lack of coordination between the three Russian armies one principal reason for the break-through against Moscow. Despite a shift of Russian generals, doubt remains about coordinating the armies under one command.

Wrong Orchid

GOP House Floor Leader Joe Martin had difficulty understanding Argentine Deputies in their visit, but didn't need an interpreter to decipher one statement.

An Argentine legislator said: "You have a great country and a great President—si. Also a great party. The Democrats have done wonders for the United States."

The Congressman had no idea he was talking to the Republican National Chairman. Martin, always the gentleman, nodded and appeared to agree. Later, Martin laughingly admitted: "It was the only thing I clearly understood in the entire talk."

Biggest U. S. Tank

THE giant new 60-ton U. S. tank is completed, but may never see service. This tank is so enormous that, like the gigantic B-19 bomber, it may be the latest white elephant of national defense.

Built in Eddystone, Pa., by Baldwin Locomotive Works, it is being sent to the Aberdeen, Md., Proving Grounds. Though less than 100 miles, the tank cannot make the run on its own power; highway bridges are not strong enough to hold it, so it has to be loaded on a special flat car.

Critics ask: "What good is a tank so big it can't get around?" It cost $500,000 to build this single armored Behemoth.

Nazi Sabotage

THE man to watch in Europe—next to Hitler—is a slick diplomat in Turkey, Franz von Papen. It is significant when Hitler sends Von Papen to a country. It means he has designs on that area.

Von Papen went to Austria as Ambassador to soften it for Nazi occupation. Von Papen, 26 years ago, tried the same thing here. Now, with weather cold in Russia and Hitler running low on oil, a Nazi squeeze on Turkey becomes almost inevitable. And, Von Papen has been working overtime there.

Von Papen's operations here indicate the lengths to which he may go in Turkey. In 1915 he was military attache in Washington when Count von Bernstorff returned from England with a satchel containing $150,000,000 in German money. Von Papen, in Mexico City, hurried North and began organizing a network of spies.

Invasion via Canada

Selecting his agents carefully, he laid these plans:

1. To invade Canada through British Columbia with aid of German warships and German reservists. Von Bernstorff said no.

2. To blow up the Welland Canal. This likewise was abandoned, as the Canal was well guarded.

3. To blow up Canadian railroads and to prevent transportation of Japanese troops through Canada. (The Japs were Allies.)

4. To blow up the International Bridge at Vanceboro, Maine. This was accomplished.

Von Papen was so busy and unscrupulous, he over-reached himself and Wilson demanded his recall. When he reached home, he and Bernstorff were awarded decorations and promoted.

Von Papen became chancellor of Germany and finagled conspiracies which brought Hitler to power.

Wheeler's Pals

AS chairman of the Interstate Commerce committee, Senator Wheeler wields a cudgel over every radio station; also over the Federal Communications Commission, which regulates them. And he has not hesitated to use this power.

When a Philadelphia station allegedly refused to broadcast a Lindbergh speech, Wheeler let out a roar. But when three Montana stations, owned by several of his political henchmen, barred Walter Winchell and other commentators, Sen. Wheeler refused to lift a voice or a finger.

Now his Montana radio pals are laying groundwork for a super-powered station giving them dominance of Montana ether waves.

Front man of the plan is Ed Craney, general manager of Station KGIR, Butte, one of three that banned anti-isolationist commentators. Craney is a political intimate of Wheeler; also has as radio partner Wheeler's former secretary, Barclay Craighead. Craney applied to the FCC to increase KGIR's power from 5,000 to the maximum of 50,000 kw.

If that is granted, KGIR, in isolated Montana, would become one of our most powerful stations.

Craney and Craighead apparently are so confident they purchased new equipment. This came to light when some of the equipment, stored in a barn, was stolen, later recovered by the sheriff.

This is a great help to Hitler & Co.,

Defense Sparks

TO A British production expert who just completed a survey of U. S. defense plants, OPM boss William Knudsen said, "What impressed you least"...Results of Army's quiet shakeup: 15 generals bounced or shifted, more than 130 colonels slated for the axe.

MEMORANDUM FOR MR. TOLSON
MR. TAMM

At this time I called Mr. L. M. C. Smith and advised him that I had contacted [redacted] who b7C
indicated he would be glad to come to Washington for an appointment with Mr. Smith and myself at 10:00AM on Monday, November 24th. However, I told Mr. Smith that since he expected to be in New York on Tuesday it would probably be more convenient for everyone concerned if the appointment were made in New York for Tuesday. Mr. Smith said that an appointment before 10:00 AM or after 5:00 PM would be most agreeable to him. I told him I would try to arrange this appointment.

TIME: 9:56 AM.

I called Mr. Foxworth at New York and asked him to try to make an appointment with [redacted] for Mr. Smith at b7C
the New York Office, the time to be about 9:00 or 9:15 AM, Tuesday. I told Mr. Foxworth I would like him to act as my representative; that if the Tuesday appointment was not convenient, we would stick to the Monday appointment.

TIME: 10:57 AM.

Mr. Foxworth called to advise that [redacted] was b7C
out of his office and it was not known where he could be reached; that as soon as he could be contacted, an attempt to arrange the Tuesday appointment would be made.

My Dear Mr Hoover;-

As a loyal and devoted American Citizen, with the sole interest and welfare of our country at heart, I am writing in order to request an investigation of the "America Foist" Committee with Lindbergh as its head and the other affiliated officers of this Nazi Organization, of which we have Gen. Woods, J. F. Flynn etc. Whonis behind this un-American Organization? where does it derive its funds? who is preaching its damnable un-American principle of rabid anti-Semitism? racial and religious hatred and discrimination, thereby playing their Fuehrers(Hitler)theories of dividing our country and ruling from within.

Hitler and his Nazi stooges and Gauleiters here have boasted when they are ready they will take over our country without any bloodshed, and if necessary our streets will flow with blood if their will and demands are opposed, that he already has 10.000.000 S. S. men agents and Quislings here who will do his bidding and if necessary he will build this army up to 25.000.000 of his 5th columnists, spies,underlings. treasonists, betrayers, and traitors. The actions of the Nyes. Lindberghs. Clarks, Johnsons, Wheelers, Woods, Flynns, Days, Danahers, Sheas, Van Nuys, Hoffmans, Vorys, Sweeneys, Fishes, Willis's,etc, are Hitler's answer. Here are the men doing Hitler's bidding.

Former Ambassador JosephKennedy. to Great Britaih and John Cudahy, former Ambassador to Belgium, both devout adherants to the Pope, and its Irish Roman Catholicism, are creating great unrest here with their anti-British. pro-Nazi propaganda speeches and others Associations connected with the "America Foist" Committee and affiliatied "Firstapo"Crganizations. They are hampering our country at every turn, and creating ill will between Britishers and ourselves with their despicable anti-British propaganda and speeches, and sinister, ulterior, active subversivism, they belittle our own and Britain's efforts and gloats in the highest terms of Nazi efficiency and power and impossibility of losing the war, or being defeated.

by for orders when [illegible] take over our country, at HITLER'S bidding. The great inflated Lindbergh refers to and calls our President a dictator as well as his reference to our Administration as resorting to subterfuge, lies, and distortion of the truth.

While the whites are being killed, slashed and robbed in Harlem and other parts of our City and country by negroes, who have run out beyond all control, with even our police afraid to enter these districts and unable to cope with the situation, this punk Lindbergh, speaking at "America Foist" rallies, is heavily guarded and protected by police who are there to protect and preserve his worthless life, and yet these police are unable to cope with the colored crime wave here, yet with mobs of people inside of Madison Square Garden, and more than 12.000 overflow, listeners, crowded throughout the streets, tying up traffic, all anxious to hear this lousy traitor and betrayer of our country speak, he was supported by his fellow louses, Gerald F. Nye, Burton K. Wheeler, John J. Flynn, etal,

Lindberghs speech was the most vitriolic and vicious we have ever heard, he called upon all the people to unite behind his demands, Cudahy managed to be there and throw his three cents worth of idiocy in, J. T. Flynn, was as vicious as the American Fuehrer, Lindbergh, in his remarks and suggested the washed out washwoman, Herb. Hoover, be put "to work" on a plan for peace and feeding Europe so Hitler's army can obtain this food to give them sufficient stamina and carry on this murderous war until doomsday, Poor Herbie, hasn't he made any profits since he was last named food administrator to Belgium during the last war? why does this old sow continue to poke his unwanted mug into the internal and integral affairs of our country? he is a has-been, and the masses are sick of him, We still remember President Depression Hoover, we have been unable to get out of it since.

Why hasn't our government made an investigation of the sinister activities behind Lindbergh, Flynn, Kennedy, Cudahy, Nye, Wheeler, the Clarks, Fish, Tobey Johnsons, Day, Sweeney, Dahaher etal.? of their ilk, if appears as if the Irish have seized control of our country with the support of their Vatican and Romen Catholic Church, they are undermining our country and are intent on keeping us helpless and defenseless and easy pickings for the sadistic Hitler hordes of 5th column experts and vermin within our midst.

Wheeler, Lindbergh and Nye, ought to be in Germany and in German uniforms because they are winning more battles and victories for Germany than the Nazi Generals themselves, with Wheeler, Nye and Fish placing all the conquered countries on Germany's side.

Any one who read "Mein Kampf must see that our destruction or subjugation at least, is on Hitlerls time table, and John L. Lewis, the American defi and dictator, having gained full control of our government and its institutions, so it would seem, has been continually tying up our defense program, with strikes and walkouts and threats of further violence in evert State, City and town in our country, and his daughter, elephantine Katherine is an American Firstapo, has been placed in a job paying $7500 by her American Dictator father John, as his secretary, another son-in-law also has been placed at the same salary and his brother Denny the gangster and thug has been placed as head of one of the Unions at $10.000 annually, With John L.'s salaery of $25.000 as President the family is drawing down almost $50.000 or more of the Unions funds of which the members are taxed and charged initiation fees, and other charges to support this damnable racket, God knowswhat other monies and funds this man and his family, relatives and inlaws have been drawing down and hiding. he is exploiting the great mass of members of his unionsto threaten and force his

will on the government and people, and we see wondering when he is going to unionize our Army, Navy and Airforces and the Draftees Union. It is no joke to see these vicious isolationist, obstructionist, oppositionist, and Hitler stooges sitting in our House of Representatives yelling their heads off that Lewis is seriously hampering and hurting our defense, since when have these treasonable vermin become interested in our defense? they have continually aided and abetted the obstructionists in throwing monkey wrenches into the safety of America.

Who were the delagation of 250 or more women representing "America Foist" from Brooklyn, Queens, New Jersey, New York and Connecticut who took a special train to Washington to deliver 12 letters protesting the Administration foreign policy, one to our President, one for Chairman Tom. Connolly of the Senate Foreign Relations Committee and one eachfor New Yorks two Senators and Brooklyns 8 representatives, they were profusely welcome by Hitler's most loyal stooge and adherant, the Great Nye, but luckily only found two of their representatives with this delagation, on leaving it yelled it had been high hatted and that Senator Nye, the Great American Fuehrer, was the only understanding gentleman, We know of the mass of Nazi's populating New Jersey, and Queens and parts of New York and Brooklyn, Who were these women? those hundreds picketing the White House against our Administration's policies? in conjunction with this mass delegation, were they the wives, sisters, daughters, Nieces, aunts, mothers, in-laws, stepdaughters and half sisters, and sweethearts and girl friends, grandmothers, and other relatives of the Fascist-Bundist "American Foisters" or "Lasters" coughlinites, Pelleyites, Fronters, Mobolizers, Solver Shirts, jew-baiters, and our own Senatorial and Congressional isolationists, appeasers, obstructionists, and oppositionists? the pro Nazi-Fascist, anti-British, anti-Semitic, un-American misrepresentatives? or were they the Irish Roman Catholic rabble backed by the Church to create disturbances and hamper our defense program because Mussolini has been winning so many colossal victories, at the hands of his most indomitable, intrepid, indefatigable, gallant and heroic tin soldiers and the great part his paper mache fleet has played in the Mediterranean, with the destruction of the British fleet and Empire and the return of Mare Nostrum to the great Roman Empi

What really lies behind the activities of the Dies Committee? and its new charges? what are they worth? of what further use is the Dies Committee? it has constantly picked only on Communism, yet has continually protected the Nazi-Fascist group in our Country, and appears to be a concentrated effort by Dies himself to embarrass the Administration. One Jay T. Tiffany, of the "America Last" Committee boasts that it has a membership of 15.000.000, I am one who would very much like to know why such assertions are sent to press and published therein, many articles of late have been signed Jay T. Tiffany it is so obviously a rotten piece of 5th column propagabda, titled "Obsessi Defended as typical for most Christians" it is this sort of damnable lie the Nazi's have made as part of their technique, "The bigger the lie, the more easily people will swallow it", First there ar no 15.000.000 members of the "America First" Committee, if there were? how would this Jay F. Tiffany know whether any of them were Jews or not? did this punk meet them all? the fact remains that there were many Jews in the Organization like Rosenwald etc, until this despicable arch traitor and betrayer of our country, Lindbergh, and other officials by their vicious hatred and anti-Semitic platforms forced them out, this Tiffany forgets, too, when Herr Lindberghs son was murdered by Herr Hauptmann, he aroused the whole country to fever pitch to get the murder and execute him, but when other people are being cold-bloodedly butchered and slaughtered and maimed as wellas their children, mothers, sisters, father etc, we are supposed to do nothing about it, especially when the perils close nearer our own shores each day, all because the Gauleiter Hindbergh plans on being a big shot and Hitler's first American Fuehrer, who in hell gave this ignorant dumb headed Swede the authority to dictate policies in our Country?

This overrated gan ng angling lout with absc ely no military experience, was this Hitle stooge voted in by the pe ple? or is he just forcing himself in like the common low life sadistic dictator he is imitating?

Senator Josh Lee ofOkla, hit the nail squarely on the head when he called Wheeler a Quisling, no truer word was ever said, glory be to Lee.

We are still at some loss to understand accurately why and what arethe motivating human factors behind the vicious isolationist sentiment which is creating so much discord , dissontent and disunity in the United States, what percentage of these phonies is patriotically sincere? what great proportion of this is hired by the enemy? and the Axis collaborators? what great perwentage is so sympathetically inclined to all Nazi-Fascist movements?How much of it is anti-British? anti-Semitic? anti-Roosevelt? un-American and political minded by ambition et? what is behind this isolationist, oppositionists, obstructionist setup behind this one opaque lineup? Hitler is your answer.

This punk Lindbergh has always held himself in such inflated and holy aloftness from his fellow countrymen that itis surprising that he has gained such a sudden knowledge of what American Jews are doing and have done. His vast military knowledge of world wide affairs, of which he boasts, since when has he become such a famous general and authority on military and naval movements?

He and his "America Foist" Committee has refused information about its source of funds, or the size of contributions, and I hope that the recent special Congressional election will cause the Wisconsin branch and others o this famous phony Nazi Committee to open its books, and State Attorney Gen. J. E. Martin has announced his intentions to order an official report on expenditures in this suspicious and peculiar contest. The "America Lasters" took an active part in the campaign for Lawrence H. Smith, the successful Republican, who ran as an isolationist, and Wisconsin law requires an orga ization participating in campaigns to file detailed expense accounts. I am hoping they will be able to smoke out these America Firstapo rats,

Lindbergh and his "Firsters" introduced a technique of terror against the Jews into his vicious and damnable anti-Semitic speech in Des Moines, Iowa, a speech of this threat of terror held over the heads of the Jews implies a threat of wholesale murder, Will our Government let thid maniacal inflated punk get away with it? the lone eagle has turned into a little cuckoo, taking orders from the Satanic black eagle of Germany. he has become a green feathered parrot, imitating his masters voice. another of this ilk, Gen. Rob E. Wood of Chicago, is a disgrace to our army and uniform; and as Chairman of the Firsters Committee, he accuses Pres. Roosevelt of urging us into war who has purposely sent American ships into war zones where incidents are in evitable, and who willm radio messages to our people to whip up fears and hatreds to urge them still closer to war. How can there be unity when propaganda makers of the Lindbergh, Wheeler, Nye, Clarks et ilk point a finger of hatred and suspision at 5.000.000 loyal, law abiding American Jews? The America Foisters, have certainly overstepped their bounds when they pas out un-American literature to our own American soldiers, and military force destroying the morale of our draftees and creating uncertainty as to why they were called, and a good slogan for our country would be "Nip Nye, Wheel and Lindy now" it would be a fitting tribute to these budding Fascists

How can our country expect the morale of our Army, Navy and Airforce to b high and strong units of our government when we have our own Senators inves igating anti-Nazi propaganda in our country, when our struggle is against

Hitler's idealogy and all it stands for, On what basis does our Government expect our South American Republic neighbors to stamp out Nazism and Fascism in their countries when many of our own so called Senators and Congressmen clogg with other influential elements in high offices, in our Gov't, are waging Hitler's own propegahda war?

Louis Taber, a prominent member of the America First Committee has threatened to resign as he claims he made a sad misteke by becoming a member. He disagrees fully with this organizations stand against Britain and critical of the Committees failure to repudiate Lindberghs venomous anti-Semitism and racial policy.

Dr. W. H. Feldman of the Mayo Foundation, Rochester, Minn, recently wrote Hitler's stooge, Senator Nye, asking by what authority he had to mail out vicious Nazi propaganda at taxpayers expense. the loyal Hitler stooge, replied "he could obtain this information from the Post Office Department. The Taxpayers are not aware that they are being tapped for for $6000 to Frank out a speech of ex-Pres. Herb. Hoover, the has-been, urging shipments of food to Nazi occupied Europe, Herb. evidently feels that the Nazi's will not have enough food to carry them through the war and as a great humanitarian as far as his pocketbook is concerned, he insists that they be fed so that they can gain their much needed victory over the democracies, Hoover's generous frahking benefactor- at taxpayers expense-isNebraska's rookie isolationist, Sen. Hugh a Butler, On Oct. 20th, this Butler inserted Hoovers radio address in the Congressional Record, which opened the way for large quantity reprints by the Government Printing Office,-at cost-and as was to be expected, a few days later, this rookie of Hitler's ordered 300.000 copies. The charge was some $900. which rookie Butler paid in advance,, and when asked whether he or humanitarian Herb Hoover put up the money, Butler stated he paid for this out of his own pocket.

According to one Printing Office official, Butler paid the $900 in cureen which is a most unusual proceedure, since members of Congress customarily pa receipt receipt of bills by check, after receipt of bill. Another official later stated that Butler paid "either by cash or check".

The 300.000 reprints have been mailed out all over the country by the Senate Folding Room, at a cost estimated by the Post Office of $5.640 to taxpayers, but they will also fork over $417 for the franked envelopes, furnish the emancipator, Hoover, via rookie Butler, free, will these stooges of Hitler be permitted to get away with this?

Senator Nye, Hitler's best bet here, enjoys nothing more than inserting into the Congressional Record, anything that is written about his enemies..And so, here is the Governments opportunity to rub his nose into his own dung.The Bismarck Capital, a newspaper published in the North Dakota capital, on Sep 30th, 1941, front-paged the following;- "The lecture fee Senator Gerald P. Nye, received for addressing the annual dinner of the Hitler Steuben Society at the Biltmore Hotel, N. Y. is not the first money mercenary Nye has receiv from this great Nazi Organization, IT also contributed to his cempaign for re election in 1938. Donations came from branches outsiden-North Dakota--They came from Detroit, Hempstead, N. Y. and Union City, N. J. well known Nazi strongholds, The Steuben Society was sufficiently interested in Nye's re-election and political career to assist him financially even before the war started". Federal Grand Jury investigating the use of Nazi funds, will please t heed.

MEMORANDUM FOR MR. R. P. [redacted]

Re: AMERICA FIRST COMMITTEE

Information has been received from an unknown source dated October 14, 1941, that a large number of new recruits to the National Committee had been secured and that a great many other groups are doing everything they possibly can to support the activities of America First. These groups are listed as follows:

Christian Front
Christian Mobilizers
American Destiny Party
Paul Revere's Sentinals
A.V.I.F.
German-American Bund
Women Determined
National Workers League, Detroit, Michigan
Ku Klux Klan
Committee of One Million
G. Allison Phelps Group, Los Angeles, California
Pelly's Silver Shirts

Information was also received from the same source that a new women's organization, namely, Women Determined, is nothing more than a subsidiary of the America First Committee, although they have denied any affiliation. Mrs. Rose DeLuca, who is one of the America First leaders is also the leader of Women Determined.

Respectfully,

Summary of Information:

1. The America First Committee is sending to its various branch chapters a confidential memorandum on "The Coming Elections". The memorandum advises that Committee members must maintain the fiction that the organization is a non-political body:

a. "Any position taken by the America First Committee in partisan politics would only weaken our cause, not strengthen it. . . . While no citizen can fail to be interested in the mayorality election going on in New York at the present time, we must be sure that no support of any candidate be interpreted as America First activity."

2. The following instructions remove the mask from the "non-political" work of the Committee, aimed at strengthening the appeasement forces:

a. "In the important elections of this autumn and year, every America First member should take pains to inform himself next various candidates' position on foreign policy and be prepared as an of the voter to cast his vote for those non-interventionist candidates who enrolled other respects qualified for the offices they seek." ve in

Summary of Information:

1. About two hundred persons attended a mass meeting held under the auspices of the America First Committee at the Central Auditorium, 325 W. Boardman Street, Youngstown, Ohio, Wednesday, October 22.

2. The meeting was called to order by chairman and local organizer of the America First Committee, namely Frank T. Sheridan, 457 W. Judson Avenue, Youngstown, Ohio, owner of the Sheridan Electric and Engineering Company, a small company of no community standing. Sheridan made a few remarks and then introduced the first speaker named Arthur Hoyt, Cleveland, Ohio, who spoke for about thirty to forty minutes during which time he attacked the foreign policy of the United States Government, condemned aid to Russia and lauded Lindbergh and Wheeler, etc.

3. The next speaker introduced by the chairman was a preacher named Garland A. Bricker, 12 E. Ravenwood Avenue, Youngstown, Ohio, who is known as a "lecturer". He stated that he is a cousin of Governor Bricker. He granted about his "Americanism" and stated that both President Roosevelt and Wendell Wilkie had "betrayed" the American people. After speaking for twenty minutes he made the collection appeal and four young persons from the Cleveland, Ohio branch of the America First Committee took up the collection.

4. Following this the principal speaker of the evening, Reverend Walter E. Klein, West End Evangelical Church, Cleveland, Ohio, was introduced by the chairman who stated that Klein is a veteran of the World War and is post department chaplain of the American Legion of Ohio. Klein condemned "godless communistic Russia", condemned the meeting of President Roosevelt and Churchill, stated that both Roosevelt and Wilkie betrayed the people after promising they would keep the country out of war. Referred to Wilkie as a "corporation flunkie, faker, etc.". Klein belittled the ability of any foreign aggressor from Europe to cross the Atlantic Ocean and attack the United States . . . called it "bunk". He condemned the land-lease policy. The speaker ridiculed the idea that a small nation like Germany could invade the United States. He appealed to his listeners to speak out against any effort on the part of the United States to take part in the European war, to oppose sending troops. He stated that the war would cost three hundred billions of dollars.

5. The Chairman stated that the local committee would hold a meeting at the Townsend Hall, W. Indianola Avenue, October 29, at 8:00 p.m. to organize its local work. Application cards were passed out soliciting members. About twenty of these cards, filled out, were returned to the Chairman. It was also announced that Congressman Hill would address a mass meeting in Warren, Ohio, at the Harding High School, Sunday, October 26, at 2:30 p.m. under the auspices of the Warren Committee.

6. The literature counter located at the entrance was in charge of a committee of women from the Cleveland Committee of the America First Organization. They passed out copies of the recent Lindberg speech and an address by former President Hoover. "America First" buttons were passed out.

7. All present were urged to wire or write to their Senator or Congressman demanding that he oppose any changes in the neutrality act.

8. No questions were asked at the close of the meeting as the meeting adjourned very suddenly. No American flag was displayed anywhere in the hall. There was no singing of the national anthem. A Reverend Kirkpatrick from Warren, Ohio said the opening and closing prayer. The makeup of this meeting was pro-Nazi with the few exceptions of women - mothers who had sons in the service or called for service. Reverend Ludwig Fritsch, Monteras Lutheran Church, well known local Nazi, was checked "slipping" into the meeting. He was seen placing a five dollar bill in the contribution basket located on the literature desk. Fritsch went over to the east side of the hall. It was noted that a group of pro-Nazi German war veterans were in the front row. John Murphy, a local Coughlin agitator, was in the audience wearing a committee badge.

9. As stated, over half of the audience were from out of town, mostly Warren, Salem and Cleveland. The meeting was staged on the first floor of the auditorium in the small meeting hall which has a capacity of four hundred seats. About half of the seats were used. There is no question that the Nazis from Cleveland combined with the Coughlin groups are directing this agitation. It was stated by Bricker that Henry Ford is going to take over the America First movement and finance it. There was loud applause when President Roosevelt and Wilkie were assailed by Klein and Bricker. If the out of town elements had not attended the meeting, it would have been a "flop". Several of the women stated that the local people "were afraid to attend the meeting".

MEMORANDUM FOR ~~THE DIRECTOR~~ Mr. Ladd

In a telephonic conversation with SAC Foxworth I advised him that the President has sent a memorandum to the Attorney General suggesting that a Grand Jury inquiry be made of the America First Committee

I told Foxworth that we are preparing a summary of what we have in our files on the America First Committee and are bringing up to date the summary.

I informed Foxworth that the Attorney General says the [redacted] *America First has been receiving money from Germany to finance its activities. I told Foxworth that you wanted him to get some appropriate contact and see if we can verify this statement as soon as possible.* ~~*I told Foxworth to start this investigation immediately.*~~ b2D

~~*Respectfully,*~~

In connection with the inquiry which is to be made at the Harper Publishing Company relative to the statement in a book being published by them that the America First Committee has been receiving money from Germany to finance its activities, Mr. Foxworth advised that Mr. Canfield, the President of Harper's, is out of the city until Monday and he inquired if it would be all right to wait until that time to make the necessary inquiry since more information could undoubtedly be obtained from the President of the organization than anyone else. I told him this would be satisfactory and that he should endeavor to obtain an appointment as early Monday morning as possible. (S-1)

THERE IS NO DOUBT THAT THE MOST POWERFUL SINGLE FACTOR THAT UP TO THIS TIME HAS SLOWED THE RUSH TOWARD WAR IS THE CONSTANTLY EXPRESSED DETERMINATION OF THE PEOPLE 'NST OUR ACTIVE PARTICIPATION. NOW OF ALL TIMES IT IS EVEN MORE IMPORTANT THAT MEMBERS OF BOTH HOUSES OF CONGRESS HEAR FROM THE PEOPLE THEY REPRESENT. THE PRO-WAR PRESSURES IN WASHINGTON ARE GREAT. FREQUENT WORD FROM THE PEOPLE TO THE MEN WHO ARE OPPOSING THE WAR DRIVE STRENGTHENS THEIR HANDS AND HEARTS IMMEASURABLY

D. WORTH CLARK

Dear Mr. Jeffrey:

Had it not been for the letters and postal cards written to the members of Congress we would have been in war a year ago. Even if Congressmen do not read their letters, they weigh them and realize that the writers of those letters are the voters of tomorrow. There is nothing more important in this fight today than to keep the letters going in to Washington at ever increasing speed.

Office Detail: You should maintain in the office a constantly growing file of members of the 'phone brigade. We suggest that you put each General's name on a 3x5" salmon colored filing card. It would be well to place each Colonel's name on a blue filing card, and each Captain's on a light green filing card and each Lieutenant's name on a white filing card. Thus, you will have a card for each person on your 'phone brigade. The card should have the full name and address, the 'phone number, and the name of his or her immediate superior. That is, if a Lieutenant; notation should be made that her immediate superior officer is Captain _____.

File the ten white cards immediately back of the light green card giving the Captain's name, then file ten sets of these cards, one for each Captain, back of the Colonel who is responsible for them, and file the ten Colonels with their accompanying Captains and Lieutenants back of the General responsible for them. In this way you will have your complete organization at your fingertips.

Every message we receive from the men on Capitol Hill emphasizes one thing—Congress needs more and more mail. These men think our rallies are swell, they like our pamphlets and they admire the work that all the members in our chapters are doing, but the whole point of our program in the past year has been to build an organization which can produce one million, five million or ten million letters at this strategic time. That moment has arrived.

I know nothing save your writing has kept us out of war these past few months—your letter writing obviously infuriates the war party. Don't please them by letting up. If you think letter writing is tiresome stop—and in ten years see how easy it was compared to driving the Germans out of Europe, the Japs out of Asia and then forcing what was left to adopt the four freedoms!

I am with America First because I took the time to read the mail of several Senators and Congressmen at the time of the Lend-Lease battle. I know how they, our fighters, depend on you; how our opposition fears you; how for a whole year you have, by your pens, so far, kept us out of war. Put the plan into action and we may yet win. We must.

Dear Mr. Jeffrey:

I have your letter of [illegible]

I believe that it is well worth the time and effort of American citizens [illegible] beliefs on public issues to write [illegible] and Congressmen. It may or may not influence them in their opinion, but inevitably their personal attitude on the whole issue is swayed somewhat by the knowledge of the views of their constituents. It is worth writing even to those whose minds are made up against the views presented, because letters may at least abate the energy of their opposition.

Sincerely yours,

[illegible] this great American debate, the real vote comes [illegible] and sentiment is two years away. It is important, therefore, to observe that at different periods, as the constituent reacted, and that vote was slackened, the war moves grew proportionately bolder and the opposition less certain. When the mail flowed in, the votes against war measures were always in hearty volume. Specifically, on a recent issue, we were informed of five Congressmen who had "wavered" and were planning to vote in favor of a war measure. Chapters in their districts were advised to "take to the mails". Four of the five voted against the measure.

More people will attend America First Rallies during November than in any previous month. All meetings should pass a resolution to Congress, but if Congress is to know how you stand, every meeting should pledge everyone present to write individually. One letter from you to your Congressman or Senator may be more important in his eyes than a rally attended by five thousand. Think of that, and write.

You can't underestimate the power of the Pen. The Pen of the Evangelists destroyed a mighty Roman Empire and built on its ashes the tremendous bulwark of Christianity; the Pen of Voltaire consolidated a vast French Empire; the Pen of Rousseau began the volcanic eruptions of the French Revolution; the Pen of Luther split Christianity almost in half; the Pen of Aquinas and Descartes and Berkeley built ponderous edifices of thought; the Pen of Dumas and Hugo and Oscar Wilde and Margaret Mitchell made a million people sad; the Pen of William Shakespeare and Dr. Johnson and P. G. Wodehouse made them happy again; the Pen of the war agitators is writing us into this foreign conflict; this same Pen can save our liberties, our democracy, our Constitution, our Neutrality Law - if we, the American people, use its power.

My dear Jeff:-

I hope that the correspondence certain about to be launched by the America First Committee against war, will prove very successful.

In my opinion, it is most important that the American people exercise their constitutional right of petition to keep this Nation at peace, and out of the foreign war. The American people who are opposed to America's entry into a disastrous foreign war, should write their Congressmen, and their Senators immediately, and demand that they vote against repeal of the Neutrality act, and against each step that will drag this Nation into war.

With my very kindest regards, I am

R. DOUGLAS STUART, JR.
NATIONAL DIRECTOR

October 25, 1941

To All Members of America First:

President Roosevelt's proposal that American ships be sent into the submarine-infested war zones cannot be disguised as a step away from war. It will mean that American ships will be sunk, American lives lost and that the country will be led into war on a wave of hysteria just as it was in 1917. Once in the war, the British Generals have told us, we will have to send a huge new AEF.

From a calm survey of our resources, our membership, our means and all possible methods--and after consultation with the men who can stop this last step to war, we have decided that only one thing can keep Congress from repealing the Neutrality Act.

That one thing is briefly, yet fully, set forth herein. All other appeals we have made to you for help sink into nothingness compared to this appeal. The moment for which we have been preparing for one year has arrived. We are counting on you.

Sincerely,

R. Douglas Stuart, Jr.

THE PURPOSE OF THIS PLAN is to defeat the repeal of the Neutrality Act. We may defeat the repeal of the Neutrality Act and keep out of war by showing Congress that the great majority of the American People do not want to go to war.

We can do this only by a volume of mail directed to Congress which has never been approached in our history. Therefore, this plan is designed to get you and your chapter to do its fair share in writing to your elected servants in Washington. The Plan follows on pages 3, 4, and 5.

I.

Select from your membership the maximum number of workers whom you know you can depend on to work. Commission these workers as "Generals". Each General's assignment is to get ten "Colonels" who, in turn, will get ten "Captains" who, in turn, will get ten "Lieutenants". Of course, many of these workers should be new workers but use every name you have on file. No one, who is without a 'phone, should serve in any rank about that of "Lieutenant".

If for any reason ten of any rank of workers cannot be obtained, use the number you can secure.

Under this plan of action, you or the Mail Marshall appointed by you, should be able to 'phone each General, each General in turn, her ten Colonels, each Colonel her ten Captains, and each Captain her ten Lieutenants, all in one day's time.

If you have only two Generals you will have the following letter writers: Marshall-1, Generals-2, Colonels-20, Captains-200, Lieutenants-2,000, Total-2,223.

Bear in mind none of these letter writers are just to write letters. They are to follow instructions.

National Headquarters will decide when, to whom and, in general, what to write, and notify the state and chapter chairmen. The Mail Marshall will call the Colonels and say "Colonel, please call you Captains immediately. We want a letter to go today to Senator X about as follows--and give specifically the idea not the words of the desired letter.

The Mail Marshall will receive direct word on whom to write and about what either directly from the Chapter or State Chairman. The Mail Marshall shall call the Colonels the next day and determine how well her orders have been carried out and each Colonel shall check her Captains and in turn the Captain his Lieutenants.

Remember this is not a problem of writing every day, it is a problem of getting a specific number of letters to a specific person on a specific subject. It may be only one letter a month may be required. It may be much more fre-

To: Assistant Chief of Staff, G-2

Washington D. C.

1. From a confidential source, considered highly reliable, it has been learned that the AMERICA FIRST COMMITTEE is now preparing for its most serious effort to change public opinion from its present "war" attitude.

2. Inside sources available to informant believe that if this effort does not meet with a fair measure of success, GENERAL WOOD will attempt to dissolve the AMERICA FIRST movement, and, if this fails, he will sever his relations with this group.

3. It has been fairly well established, according to these same sources, that GENERAL WOOD is concerned over the fact that some of the local AMERICA FIRST committees have gotten a little out of control and that some have fallen into the hands of persons of questionable character.

4. It is reported that in case of an actual declaration of war, or of an undeclared involvement, that GENERAL WOOD will back up the Foreign Policy of the present Government.

5. Should this occur, it is expected by the WAR RESITERS LEAGUE that numbers of the AMERICA FIRST COMMITEE members who refuse to change their attitude will join forces with the WAR RESISTERS LEAGUE, which does not intend to change its policy of opposition to war in the slightest.

6. This if transmitted for your information.

MEMORANDUM FOR MR. R. P. KRAMER

RE: AMERICA FIRST COMMITTEE

Information has been received from an unknown outside source dated October 21 and 23, 1941, at Youngstown, Ohio, that the America First Committee held a mass meeting at the Central Auditorium, 225 West Boardman Street, Youngstown, Ohio, on October 22, 1941. Reverend Walter K. Klein, Cleveland, Ohio, pastor of the West Side Evangelical Church, was the principal speaker.

It was estimated that approximately 200 persons attended this meeting and it was called to order by Frank P. Sheridan, 457 West Judson Avenue, Youngstown, Ohio, owner of the Sheridan Electric and Engineering Company. Sheridan presided as Chairman during the entire meeting and introduced the first speaker, Arthur Goetz, Cleveland, Ohio. His speech dealt primarily with the content of the foreign policy of the United States Government, aid to Russia, and a commendation of Lindbergh and Wheeler.

The next speaker introduced was Garland A. Bricker, 12 East Ravenwood Avenue, Youngstown, Ohio, who is described as "a broken-down preacher." His general line was that President Roosevelt and Willkie had betrayed the American people. He then made the collection appeal to the audience. At this time Reverend Walter K. Klein was introduced as a principal speaker and described as a veteran of the World War and past chaplain of the American Legion of Ohio. Klein condemned Godless Russia, President Roosevelt, Winston Churchill, and others favorable to this country's foreign policy. He ridiculed the idea of an invasion of the Western Hemisphere, and made a plea to keep America out of war.

100-4712-2

An announcement was made that a meeting was to be held on October 29, 1941, at Townsend Hall, Youngstown, Ohio, and on October 26, 1941, at the Harding High School, Warren, Ohio. Congressman Hill was to address the latter meeting. Literature in the form of Lindbergh's speeches, and America First Buttons, were distributed at this gathering. Purpose and Procedure of Investigation

That the striking similarity between Nazi propaganda technique and America First methods of operation can be no mere coincidence has been repeatedly pointed out by observers in various sections of the United States.

Realization by California Legionnaires that the America First Committee of this state was permeated with Nazi agents and Nazi sympathizers, led to the passage of the following resolution at the 1941 Convention of the California American Legion at Sacramento:

> "WHEREAS throughout California Nazi agents have insinuated themselves into the top circle of the America First Committee of California, contrary to the spirit and intent of its accredited leaders, and
>
> "WHEREAS these elements threaten to misuse what is otherwise a sincere effort to express an honest point of view,
>
> "BE IT THEREFORE RESOLVED: That this convention of The American Legion petition General Robert E. Wood, National Chairman of America First, to conduct an investigation of all local committees in California, removing from office any person affiliated with a Nazi, Communist or Fascist organization."

Because this petition to General Robert E. Wood brought no noticeable change in the situation it called attention to, Commander Harold F. Bergan, 17th District, The American Legion, Department of California, instructed the Americanism Committee of the 17th District to make a thorough investigation and detailed report.

This report is not an attack or a reflection upon those sincere Americans who honestly believe in the isolationist theory. No comment is made in this report as to the merits or demerits of the recommendation by the America First Committee of isolation as the best United States defense. The America First Committee has an undoubted right, which no member of The American Legion or other loyal citizen of this country would seek to impair, to freely and openly present its isolationist contentions to the American people.

This report is presented for the purpose of preventing the misuse of sincere Americans by Nazis or other subversive persons operating through the America First Committee.

This committee is aware that some attempts have been made by America First to stifle the participation of subversive groups in its affairs. Months ago, Mr. John T. Flynn, a member of the America First National Committee, sent the following letter to the Free American and Deutscher Weckruf und

Beobachter, a German American Bund newspaper:

"May 2, 1941

Editor
Free American and Deutscher und Weekruf Beobachter
175 East 85th Street
New York City

Dear Sir:

"A copy of your newspaper has been mailed to me and my attention called to an article in which you ask your readers to join the America First Committee. Let me say to you that not only does the America First Committee not solicit their membership, but that they are not eligible for membership. The America First Committee is against America's entry into the war not because it approves of the philosophy, the government, the aggression or the methods of Hitler's Germany, but because it wishes to protect this nation from involvement in Europe's wars. We do not want in our organization men who support the philosophy of Hitler's government because we do not believe them to be good Americans. The very first and one of the indispensable qualifications for membership in our organization, as stated in all our literature, is that it is not open to those who are members of the communist or fascist parties or the German bunds in this country or those representing any foreign power which desires to involve us in this war.

"May I suggest that you give this letter the same publicity in your newspaper as you gave to the article to which I referred.

Yours very truly,

JOHN T. FLYNN"

MASS MEETING BOOS PRESIDENT

TO GET THE HAMMER

PASADENA MEMBERS OF 'AMERICA FIRST' CHEER AXIS IDEAS

Cheers for Colonel Lindbergh, silence for Adolph Hitler, boos for President Roosevelt and Wendell Willkie. . . .

Thus 250 members of the America First committee registered their reactions to these individuals at a meeting in the McKinley Junior High School auditorium addressed by Charles Cobb, acting chairman of the group, and Dr. Herbert Francis Dillon, of the faculty at U. C. L. A.

The audience booed vigorously whenever the names of Churchill, Mrs. Roosevelt, Attorney General Robert H. Jackson, Senator Claude Pepper and Mayor Fiorello LaGuardia of New York City were mentioned by the speakers.

Doubts British Victory

Cobb told the audience that he does not believe a British victory either possible or desirable.

Money Shows Hot Hate

"Why should the taxpayers throw $7,000,000,000 down the rat hole of Britain's [illegible]?" he asked. "We should campaign to spend the land lease bill."

He read at length from an interview in Life magazine given to former Ambassador Cudahy by Hitler, in which the Fuehrer said that at no time had his intentions toward this country been inimical. Cobb then quoted portions of a New York Times editorial concerning Hitler, in which it was pointed out that declarations of friendship preceded most of Hitler's invasions.

Raising his head to look at the audience and sparing his words to permit booing for each name, Cobb then asked "And who are the owners of the New York Times? Ochs—Adler—Sulzberger?"

Cheers For Hitler

Cobb said that most Americans regard Hitler as a liar and criminal, and added "I am not here to eulogize or defend Hitler. He seems able to do that himself." The audience cheered.

Cobb went on to say that the Germans were forced to sign the treaty of Versailles at the "point of a gun."

"There still is such a thing as retribution," he said. "England and France are paying for their perfidy in blood, sweat and tears."

Save Public Shortsod

He then mentioned the names of the President and several others who have expressed strong opposition to the Nazi aims, and declared that the people of the United States had not been told the truth about Germany.

"Did these people tell you the truth about Czechoslovakia?" he inquired. "The fact is that Czechoslovakia was a dagger pointed at the heart of Germany. But they would have to the latter and to save Palestine and the British empire."

Dillon scoffed at the idea that Germany had invaded democracies, listing each of the overrun countries and commenting that none of them were democracies. He pictured England as an autocracy, as "Old Man of the Seas" clinging to the backs of subject peoples.

Eulogizes Lindbergh

Referring to Lindbergh as a great patriot he asked "Who is the Copperhead, Lindbergh or the President?" The audience roared back "Roosevelt!"

"American Quisling"

He referred to the Federal Bureau of Investigation as an "American Gestapo" persecuting patriotic minorities, and called the Dies committee an un-American activities a "tool of the F. B. I."

"Roosevelt knows that he cannot defeat Fascism by the sword," Dillon said. The audience cheered wildly.

In closing the meeting, Cobb said that if the President got the country into war, "I for one will not lift a hand. If this be treason make the most of it."

Organ of Social Justice, Father Coughlin's pro-Nazi weekly magazine were sold to the [illegible] as they left the auditorium.

The editor's reply, clearly indicating that the Bund intended to continue the "fight," was as follows:

> "We print in full the above letter as per request of the writer thereof. We are American citizens of German origin, fighting only to be allowed the usual privilege of enjoying our rights as free men and women.
>
> "Because it is not the fault of the 'America First Committee' that a false, slanderous, un-American stigma has been put on the German American Bund, we have no desire to see the 'America First Committee' suffer from the undeserved reflection cast on the Bund by the chosen minority, who denounce the America First Committee as a pro-Nazi agency with the same degree of injustice that the Bund has had to endure in the past.
>
> "Nevertheless, we shall continue our fight against those who persecute American citizens of German stock in order to create a war fervor.
>
> Editor."

Loyal Americans frequently have been concerned because of published reports that America First audiences boo and hiss the President of the United States and such outstanding Americans as Cordell Hull and Wendell Willkie, and at the same time show no condemnation of Hitler and Mussolini.

Apparently there have been some attempts to stop this regrettable practice in California. However, the sincerity of such attempts can be judged by the following announcement, made at a recent meeting of one of the California chapters of America First:

> "Our enemies are misinterpreting statements made by our speakers. Therefore, we have rigged up a recording device so that we can protect ourselves against these liars . . . the recording machine is operating today, so will you please refrain from booing and hissing the names of our national leaders and show them the proper respect."

Other attempts are said to have been made by John Wheeler, son of the Montana Senator and chairman of the America First Committee in Southern California, to eliminate subversive or un-American elements within the organization. That any efforts he made have been unavailing will be shown by this report.

The investigation upon which this report is based does not cover every community in California, or every subversive factor in the communities covered. There are many persons whose activities indicated they should be investigated, but because of lack of time they were disregarded in compiling this report. However, the activities of those individuals who are mentioned in this report were thoroughly investigated. Scores of persons were interviewed. A vast amount of photographic and documentary evidence was obtained. In addition, extensive study of the files of various California and United States courts was made.

A detailed presentation of all the material upon which this report is based would require a volume many times this size. The following pages present an exceedingly condensed summary of only a sufficient number of the activities investigated to support the conclusions of the committee.

As a basis for its investigations, the committee has sought to obtain the answers to the following four specific questions:

a. What are typical channels of subversive propaganda in California?

b. What individuals are identified with these subversive channels?

c. To what extent are the same individuals identified with the America First Committee?

d. What effect have these individuals had on the America First Committee?

Each of the following sections of this report attempts to answer one of the foregoing questions.

DEFINITIONS

The Committee feels that certain words or terms used in this report should be clearly defined. The following definitions may be considered as applying to such words or terms, whenever used in this report:

1. *Un-American or subversive persons or organizations:* Persons or organizations whose activities tend to undermine our form of government, to foment racial or class hatreds or to otherwise weaken the defense morale of our people in accordance with the propaganda program of Nazi Germany.

2. *Bundist:* A person who is believed to have formerly been a member of the German-American Bund and who is now believed to be a member of, or in sympathy with, the policies of any other un-American or subversive organization.

3. *Racial or class hatreds:* Hatred, ill-will, suspicions or accusations leveled at entire races, religions or other minorities, such as Negroes, Jews, Catholics, Jehovah's Witnesses, British, Mexican and other foreign-language groups in the United States.

4. *America First:* Designates the America First Committee or one of its chapters. [Not to be confused with the "League to Save America First," frequently referred to in this report.]

II

What Are Typical Channels of Subversive Propaganda in California?

In identifying subversive channels in California—channels which later will be shown to flow directly into the America First Committee—consideration must be given to the fact that pro-Nazi individuals and groups no longer openly show their sympathies and their connections. Until 1940, Herman Max Schwinn, together with other members of Hitler's Bund, had no hesitancy in parading in Stormtrooper uniforms and in displaying the Swastika flag. Recently, however, a change occurred. Overnight the German-American Bund became very secretive. On orders of the "National Fuehrer," it destroyed its membership lists, correspondence and other records. Its members' activities in California must now be observed under various guises. These include:

DEUTSCHES HAUS MAENNERCHOR: In Los Angeles, the former German-American Bund continues to gather at the Deutsches Haus, 634 W. 15th Street. But its members now go under the name of the Deutsches Haus Maennerchor—which means "German House Male Choir." However, change of name brought no change in the members' aims, policies or activities. The Bundists still seek to breed racial hatreds and dissensions in this country. They still praise Nazi-ism and Adolph Hitler.

On Sundays many of the Maennerchor Bundists get together regularly at the Deutsches Haus. After these informal gatherings, many of them adjourn to the Embassy Auditorium where they attend the meetings of the "League to Save America First."

LEAGUE TO SAVE AMERICA FIRST: As nearly as the committee can determine, there is little basic difference between the aims and policies of this organization and those of the Bund. At its meetings the Bund-re-enforced audiences regularly boo and hiss the names of the President of the United States and outstanding Americans, but never show any condemnation when Adolph Hitler or Benito Mussolini are mentioned. Many of its speakers adhere closely to the Nazi propaganda line.

THE NATIONAL COPPERHEADS is an organization operating primarily to cause citizens of this country to lose confidence in our government. It actively disseminates disunity and hatred of American principles.

G. WILHELM KUNZE *(left), former National Vice-Leader of the German-American Bund, is shown here with* HERMAN SCHWINN, *Pacific Coast Bund "Fuehrer," during a conference at the latter's Los Angeles office early in 1939. Both are attired in Bund uniform which has since been outlawed. Photos on wall are of Goebbels (left) and Horst Wessel.*

THE AMERICAN GUARDS has its headquarters in Los Angeles, and sponsors a "platform" that has great similarity to Nazi teachings, promulgating the abolition of Labor Unions and the substitution of the "government union," such as exists in Germany today. This group also preaches other routine totalitarian doctrines.

THE ANTI-COMMUNIST FEDERATION is a typical subversive blind. Its "secretary" is Paquita Louise De Shishmareff, also known as Mrs. Leslie Fry or Louise Fry, mysterious international figure who fled the country when sought by government agencies. Last year this Federation called a convention to be held at the "committee headquarters," which was none other than the Bund's own Deutsches Haus, 634 W. 15th Street, Los Angeles. This convention, according to the report of the Special Committee on un-American Activities of the 76th Congress, "was in no real sense an anti-Communist convention, but rather another of a series of attempts to unite some of the various forces of intolerance, racial hatred, Naziism and Fascism in order to achieve greater influence in the United States."

THE MILITANT CHRISTIAN PATRIOTS is another "front" organization, headed by the same group that sponsored the Anti-Communist Federation.

THE AMERICAN LEAGUE OF CHRISTIAN WOMEN is still another organization closely associated with the Militant Christian Patriots and formed by close associates of Shishmareff, alias Fry.

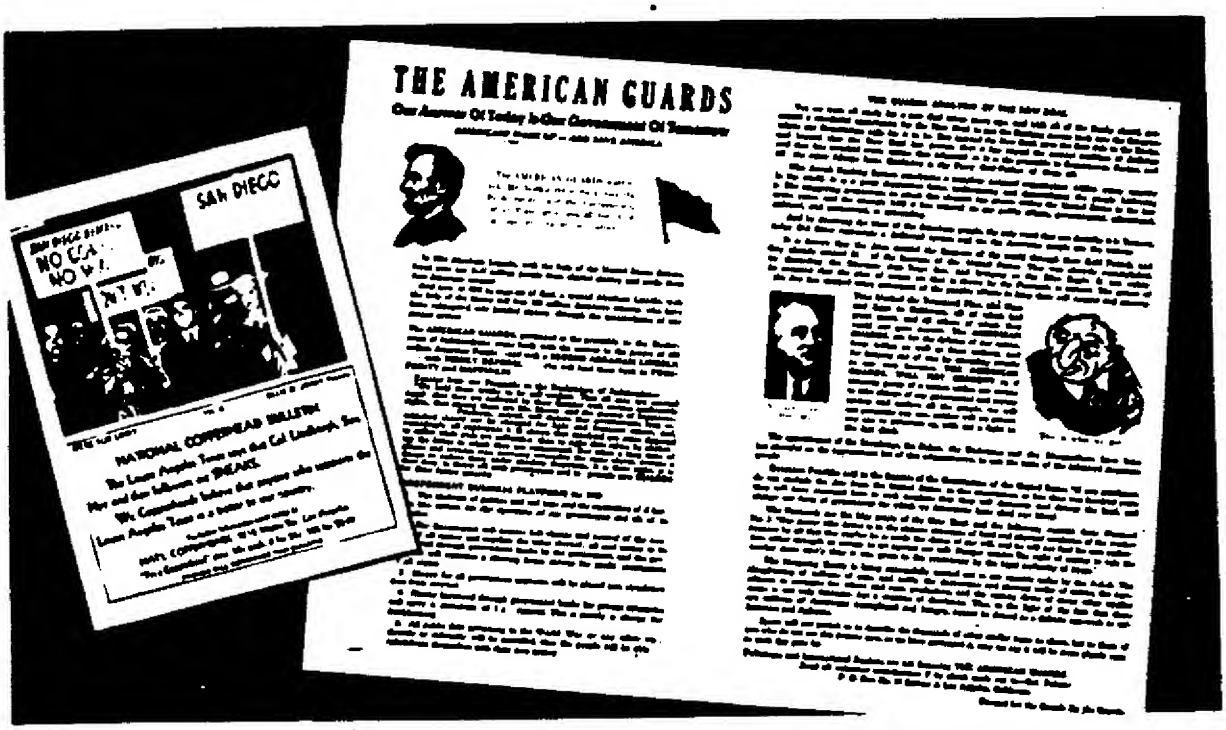
THE ARYAN BOOK STORE, operated in the Deutsches Haus, is one of the chief sources of printed propaganda material in the west. It distributes a vast variety of German and English language books and articles designed to create racial hatreds and dissensions among all classes of society, in accordance with Hitler's basic "divide and rule" principle.

THE NATIONAL BOOK MART, located at 1625 Fifth Avenue, Los Angeles, sells many of the same books and pamphlets advocating and expounding Nazi doctrines and inviting racial hatreds as are sold by the Aryan Book Store.

THE CONTINENTAL BOOK SHOP, 2509 West 7th Street, Los Angeles, is likewise a center for the distribution of un-American subversive literature and books.

• • •

The foregoing are a few of the channels of subversive activity found by The American Legion committee in California. The manner in which these channels direct their propaganda poisons directly into the heart of the America First Committee will be revealed in the following pages, after brief attention has been given to the individuals who operate or function through the above channels.



Reproductions of a Copperhead bulletin and of one of many American Guards folders designed to stir up racial hatreds and ridicule our national leaders. Photograph of President Roosevelt is captioned "We voted for this . . ." Caricature purporting to be a Jew is captioned "This is what we got."

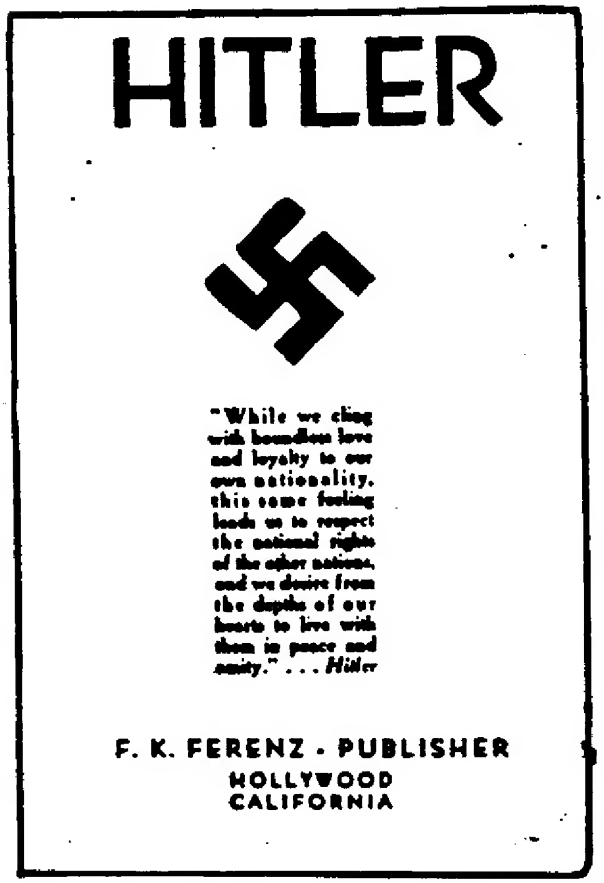
III

What Individuals Are Identified with the Subversive Channels?

The number of men and women who are active in subversive channels in California is large. However, most of the activities are conceived and supervised by a rather small group, most of whom appear to be well skilled in propaganda and organization work. They include:

1. **F. K. Ferenz** operates the Continental Book Shop at 2509 West 7th Street, Los Angeles, one of the channels of Nazi printed propaganda referred to in the previous chapter. On his own account, he is the publisher of a swastika-decorated volume of essays entitled "Hitler." Ferenz has been, and still is, an exhibitor of German propaganda films in Los Angeles. He also distributes German language records. His motion picture shows,

F. K. Ferenz, noted Nazi operator, usually tries to avoid being photographed at America First meetings, and habitually covers his face with a newspaper, as in upper left photo (right edge). Right photo shows him (second from left) among the small group of America Firsters who waited for the conclusion of Senator Wheeler's interview in the press room at Los Angeles Union Station on September 2?, 1941, so they might shake hands with their leader.



HITLER

"While we cling with boundless love and loyalty to our own nationality, this same feeling leads us to respect the national rights of the other nations, and we desire from the depths of our hearts to live with them in peace and amity." . . . *Hitler*

sometimes accompanied by talks by such persons as Herman Max Schwinn, have been shown in many California theatres, including the Mason Opera House in Los Angeles. Here, however, he was ousted by his landlords, who charged him with being a "propaganda agent for the German government." This was brought out in the Superior Court in Los Angeles where Ferenz unsuccessfully sought to regain possession of the Opera House lease.

2. Herman Max Schwinn, Western Director of the former German-American Bund, has been closely associated with many of the subversive channels mentioned in the foregoing chapter. Born in Hamburg, Germany, he came to the United States and applied for citizenship which was subsequently granted to him. In 1939 his citizenship was cancelled because of false affidavits supporting the petition for final papers.

3. T. W. Hughes, who founded the "League To Save America First," conducts its regular meetings at the Embassy Auditorium in Los Angeles, largely directed to inciting intolerance and class dissensions along particularly bitter lines. He has written a pamphlet en-

titled, "The Truth About England," which is distributed by the National Book Mart, the Aryan Book Store and other subversive channels.

4. Ellis O. Jones is the organizer of the National Copperheads, described in Section II. His propaganda closely parallels the Nazi technique. He regularly writes for and sells a paper bearing the title "Publicity." The following quotation from the issue of August 7, 1941, is typical of his style:

> "He (Lindbergh) is a man more feared and therefore more hated and more recklessly maligned than all others by the perfidious Roosevelt, the vituperative Ickes, the guttersnipe Winchell, the babbling Dorothy Thompson and all the rest."

5. Benjamin Franklin Ballard is organizer and active leader of the American Guards, sponsoring Hitler-style abolition of Labor Unions. He is a frequent participant in meetings of the "League To Save America First" conducted by T. W. Hughes. He issues anti-Semitic literature and follows other general propaganda policies of the Nazis.

6. William P. Williams has published and distributed a number of subversive propaganda leaflets, advocating the well-known underground technique generally called the "secret cell" organization. He urges the formation of cells of from three to seven persons, no one of whom, except the leader, is

FELLOW AMERICAN CITIZENS, FOR YOUR OWN PROTECTION, FOR GOD AND COUNTRY, AND FOR ALL FUTURE GENERATIONS OF MANKIND, IT IS NOW UP TO YOU AND I IN EVERY NEIGHBORHOOD IN AMERICA TO PASS ON THESE TRUTHS, TO ORGANIZE IN SMALL GROUPS TO WORK QUIETLY BUT EFFECTIVELY TO SAVE CIVILIZATION. FOR THE LOVE OF OUR FELLOWS AND EVEN FOR THE FUTURE WELFARE OF THE JEWS WHOSE TEACHINGS OF HATRED HAVE MADE THEM VICTIMS, AND HAVE MURDERED CHRISTIANS BY THE MILLIONS, LET US WORK AS NEVER BEFORE, FOR AMERICA IS AFLAME.

SUGGESTIONS WHAT YOU AND I CAN DO TO HELP BRING ORDER OUT OF CHAOS:

Demand of our representatives that we stop convoying "war" ships. Write our U.S. Senators and Representatives in Washington to stop any possibility of sending our boys to Europe.

LET US STOP PATRONIZING THE MOTION PICTURES UNTIL ALL FOREIGN PROPAGANDA HAS DISAPPEARED. LET US MAKE OUR OWN ENTERTAINMENT FOR OUR FAMILIES, EVEN AS OUR FOREFATHERS DID (DOG & FOREVER).

Pass these facts to your neighbors and friends, OR ORGANIZE IN SMALL GROUPS OF 5 to 7; meet in your homes, not publicly, and stop the revolution the anti-Christians are plotting against all existing Gentile governments and all civilization.

The above extract from WILLIAM P. WILLIAMS' mimeographed sheet entitled "Questions, Please" is typical of underground plotting technique that is characteristic of Williams' approach. The "secret cell" is widely used by the Nazi Party in Germany.

acquainted with the members of any other cells. They meet secretly in homes. Williams was recently prevented from finishing a speech to an American Legion Post because it was considered pro-Nazi.

7. Mrs. Faith McCullough, who is also known as Mrs. Frances Maxey, organized the American League of Christian Women. She has long been closely associated with Paquita Louise De Shishmareff, also known as Mrs. Leslie Fry, founder of the Anti-Communist Federation, who fled from the United States when sought by the government. Despite her long and close association with the fugitive Mrs. Fry, Mrs. Faith McCullough is still active in California subversive channels.

8. Henry D. Allen, who has been convicted of various crimes in the State of California, is referred to in the report of the U. S. Congressional Committee on Un-American Activities as the head of the American White Guards which "took part in some way or another in this attempt to create a unified Fascist movement."

Allen also testified, according to the same report, that he was one time a Silver Shirt leader and had been authorized by Mrs. Leslie Fry to make a tour of the country at her expense, wherein he visited some of the heads of outstanding subversive organizations.

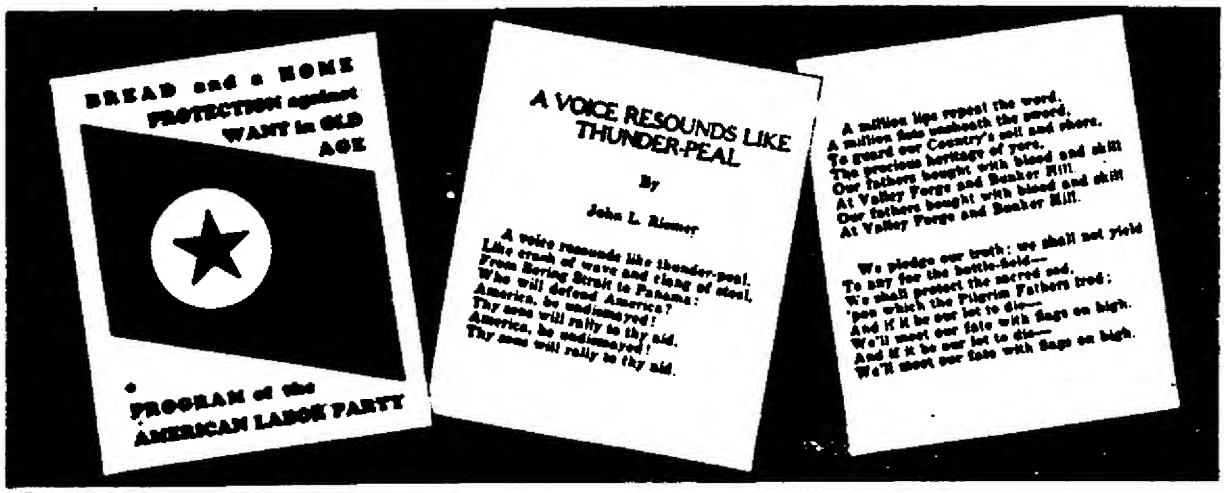
9. John L. Riemer operates the National Book Mart, distributor of subversive propaganda literature. He testified before the McCormack Committee that he had organized the "American Labor Party" [not to be confused with the large organization in New York of the same name]. The literature of Riemer's "Labor" organization consists in part of an anthem entitled "A Voice Resounds Like Thunder Peal," by John L. Riemer. With the exception of the substitution of American names for German names, this anthem is a direct translation of "Die Wacht am Rhein." Riemer's testimony to the McCormack Committee indicated that a German consulate had paid $215 for printing part of the literature he has been sending out from Los Angeles during the year 1941.

10. Arthur Burnett, sometimes called Roy Chase, is frequently a participant in meetings of Hughes' "League To Save America First." His activities have included preparation of anti-Semitic posters and the dissemination of other subversive literature.

11. William Hunt has been a frequent visitor at Deutsches Haus, notably on an occasion when Fritz Kuhn was present. He has also been associated with the activities of Faith McCullough, secretary to fugitive Mrs. Leslie Fry.

12. James McBride is a member of the Bund and a "stormtrooper." His wife, Joan, has likewise been engaged in Bund activities, and is a waitress at the Tavern of the Deutsches Haus.

13. The Van Meter Brothers, James, Daniel, Baron and William. One of these is a photographer for the Bund. Another is



Front cover of RIEMER'S *"American Labor Party" Platform (which advocated abolition of Labor Unions), and anthem of the Party, which is a word for word translation of German Patriotic Hymn, except for substitution of American names for German ones.*

a printer for the Bund. They are all active in the subversive "League To Save America First."

14. Bruce Tarkington Dowden, a frequent speaker before the subversive "Save America First" meetings, is particularly violent in inciting racial hatreds. He cooperates with distributor of Nazi propaganda, F. K. Ferenz. He advocates flooding Washington with demands for annexation of Canada for the sole purpose of "embarrassing the government." Other typical teachings:

> "I believe in fighting fire with fire and there is only one way to combat this vicious pro-British doctrine in our schools and that's the whispering campaign . . . gossip, our grandmothers would have called it. Our educational system through the years has been built upon a high standard of personal morals . . . the first hint that the morals of a teacher or professor were irregular have called for immediate dismissal. This is your method of attack. If the eighty or so people here tonight would make up their minds to go out of here tonight and start a whispering campaign attacking the morals of the offending teachers and professors, I am sure it wouldn't take long to eliminate them."

15. G. Allison Phelps, also known as G. Allison, has for years been broadcasting over various California radio stations along particularly vicious anti-British and anti-Jewish lines. He advertises for sale the book "We Must Save the Republic," announced by *Flanders Hall*, a Nazi-front publishing house financed by George Sylvester Vierick, who in turn is listed under the McCormack Act as a German propaganda agent. On September 24, 1941, Pearson and Allen described G. Allison Phelps as a front-man for Russell Mack, a former scenario writer, who visited Germany in 1939 and returned to Hollywood to collaborate with Phelps in scathing attacks on the motion picture industry.

The foregoing pages have listed fifteen individuals who are especially active in subversive channels in California. The following section reveals the extent to which these same individuals are identified with the America First Committee in California.

Two of the Van Meter Brothers, prominent in subversivist society as members, printers and photographers for the German-American Bund. (*Left*, Baron Van Meter; right, William Van Meter.)

Bruce Tarkington Dowden advocates annexation of Canada and "whispering campaigns" to slur morals of teachers who support Defense Program.

IV

To What Extent Are the Same Individuals Identified with America First?

It is found that all of the fifteen individuals previously mentioned are very active in the America First Committee in California. Some of them are outright leaders. Others are working in more humble capacities or in more indirect ways. For easy reference the names of these persons are numbered in the same order as in the previous chapter.

1. F. K. Ferenz, distributor of subversive books, Hitler essayist and Nazi film exhibitor, is one of the most active workers in the America First movement in California. Between March 6 and August 23, 1941, he attended twenty-one America First meetings. He participated in the management of the Alhambra motor parade conducted by the America First Committee. He assisted in the operation of the picket line at the Willkie Hollywood Bowl meeting, entering into discussions with by-standers or persons entering the Bowl. It is reported to the investigators that Ferenz also participated in the making of the vicious posters and banners which were used by both America Firsters and Bundists on this occasion.

2. Herman Max Schwinn, West Coast Bund Fuehrer, has openly cooperated and aided in the operation of the America First-sponsored picket line at the Hollywood Bowl when Wendell Willkie spoke in behalf of National Unity, on July 23, 1941. Schwinn did not carry a banner or poster but devoted his time to encouraging pickets and otherwise assisting F. K. Ferenz.

3. T. W. Hughes, who conducts the Bund-reenforced "League To Save America First," (see page 5), has attracted many America First speakers to his platform.*

Hughes is reported to participate in policy meetings of America First Committee leaders. Typical example of how the two organizations function along parallel lines is seen in the fact that the bulletin board at Hughes' meeting on July 20, 1941, displayed a poster very similar to the one which appeared on the bulletin board at America First headquarters in Los Angeles at the same time.

The Hughes anti-British book, "The Truth About England," which is distributed

*Among these are Louise Ward Watkins, Verne Marshall, John F. Sinclair, Bruce Tarkington Dowden, Albert W. Carlson, Frank J. Barry Sr., Frank J. Barry Jr., James D'Orsey Murray, Patrick Calhoun, and Michael Dillon.

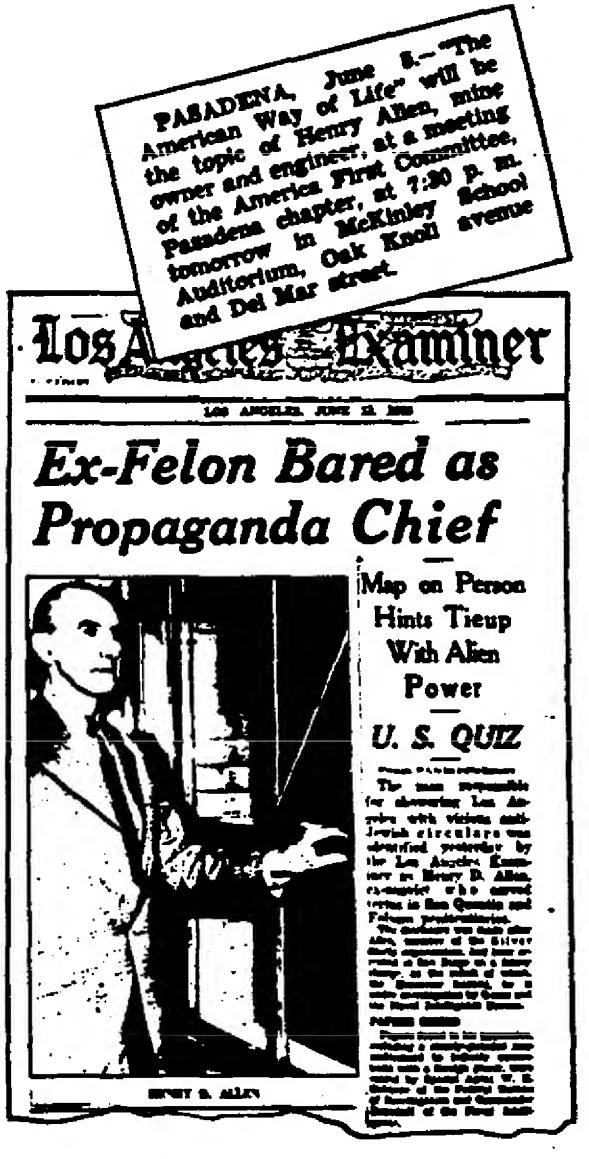
through the Aryan Book Store and other subversive channels is also recommended at America First Committee meetings in California.

4. Ellis O. Jones, organizer of the subversive National Copperheads, has attended forty-three America First meetings since January, 1941. These meetings have been in Los Angeles, Pasadena, Glendale and Santa Monica. During the same period he has attended twenty-three Hughes Save America First Meetings. He has participated in America First Motorcades and has cooperated in various ways with the America First "Youth Group."

5. Benjamin Franklin Ballard, organizer of the subversive American Guards and regular attendant at meetings of the "League to Save America First," is chairman of the Downtown chapter of the America First Committee. His talks to America First meetings are out-spokenly anti-Semitic. He compares the President of the United States to Benedict Arnold and urges impeachment proceedings. At America First meetings, he frequently recommends the book, "We Must Save The Republic," issued by Flanders Hall, Nazi-sponsored publishing house. (See G. Allison Phelps, page 13).

6. William P. Williams, publisher and distributor of subversive pamphlets, advocate of "secret cell" organizations who is regarded by Legionnaires as an out-spoken pro-Nazi, is head of the North Hollywood Chapter of America First.

7. Mrs. Faith McCullough, also known as Frances Maxey, organizer of the subversive "American League of Christian Women," and secretary to the fugitive Mrs. Leslie Fry (see page 11), is active in the Glendale and Pasadena, California, chapters of America First, and an America First speaker. She appeared before the Board of Education in the City of Pasadena in behalf of America First to fight the cancellation of its permit for use of school buildings.



PASADENA, June 5.—"The American Way of Life" will be the topic of Henry Allen, mine owner and engineer, at a meeting of the America First Committee, Pasadena chapter, at 7:30 p. m. tomorrow in McKinley School Auditorium, Oak Knoll avenue and Del Mar street.

8. Henry Allen, ex-convict, founder of the subversive American White Guards and Silver Shirt leader (see page 11), has worked his way into the confidence of the Pasadena chapter of the America First Committee. However, when he was scheduled to speak at one of their meetings on June 6, 1941, the people of Pasadena made such loud protest because of his known record that America First cancelled the address.

9. John L. Riemer, distributor of T. W. Hughes' anti-British pamphlet, and F. K. Ferenz' laudatory book on Hitler, advertises America First in connection with his mailings of Nazi propaganda, that are paid for in part by a German Consul. (See page 12.)

10. Arthur Burnett, sometimes called Roy Chase, active participant in "Save America First" meetings and disseminator of subversive posters and pamphlets, has attended at least thirty America First meetings in the last few months. At some of these meetings he distributed literature tending to create racial hatred. It is reported to The American Legion that Burnett has prepared bulletin board announcements for the America First Committee headquarters in Los Angeles and has also aided in the decoration of automobiles used by the America First Committee in parades.

11. William Hunt, whose activities are closely allied with those of Mrs. Faith McCullough and the fugitive Mrs. Leslie Fry, is Chairman of the Glendale Chapter of the America First Committee. Hunt has been seen frequently at Bund headquarters. His Glendale Chapter has often been cited as one of the worst offenders in booing national leaders while omitting all condemnation of Hitler and Naziism.

12. James McBride, Bund stormtrooper, and his wife Joan McBride, Deutsches Haus-waitress, have attended twenty-three America First Committee meetings within the last few months. Both of these persons served as America First pickets at the Willkie Hollywood Bowl meeting, and also participated in America First motor parades.

13. The Van Meter Brothers, Bund printers and photographers, have been very active in America First, particularly in its "Youth Group." From March 6 to August 24, 1941, they attended twenty-two meetings.

14. Bruce Tarkington Dowden, who recommends the spreading of malicious rumor concerning the morals of schoolteachers opposed to America First, has spoken at least four times at America First meetings. The character-assassination teachings attributed

to him on page 13 were voiced at an America First meeting in Pasadena on September 19, 1941. The photograph of him on page 13 was taken at that meeting.

15. G. Allison Phelps, also known as G. Allison, radio hate-inciter and advertiser of a publication announced by Nazi-financed Flanders Hall, is an America First speaker whose intimacy with the organization may be judged from the fact that he regularly advertises America First meetings over his radio programs.

This report has thus far revealed:

(A) A number of the subversive propaganda channels operating in California;

(B) Who are the organizers and workers in these channels;

(C) The extent to which the same organizers and workers are active in America First Committee chapters in California.

The result of their activities in the America First movement will be enlarged upon in the next section.

V

What Effect Do These Individuals Have on America First Committee?

If the persons referred to in previous sections of this report confined their activities in the America First movement to the mere development of the isolationist point of view on U. S. defense, their coincidental activities through subversive channels would not necessarily reflect upon the America First Committee.

However, The American Legion finds that there is practically no difference between the activities of these persons when functioning on behalf of the America First Committee and when functioning on behalf of the subversive channels with which they are identified. *There is every indication that they have joined the America First movement for the express purpose of presenting their subversive propaganda to those sincere isolationists who have been attracted to meetings of America First.*

The result of this taking over of America First meetings by the subversivists has been a gradual but complete switching of the organization's policy from one that merely encourages the theory of defense through isolation, to a policy of sponsoring the indiscriminate spread of hatred, confusion, dissension, defeatism, and various other elements of the propaganda line set down by the Nazi government for its agents in the United States.

Innumerable speeches at meetings of America First in California have been analyzed by The American Legion. These uniformly ignore all constructive discussion of U. S. defense from the isolationist point of view. One might spend weeks attending America First meetings, listening to America First radio addresses and reading America First literature, and still find no definite statement as to the point on the map at which that Committee proposes that our country start defending itself from aggression, or whether it believes the United States should attempt to defend itself at all.

The good California citizen who sincerely believes that strict isolationism may be a practical course for the United States, turns in vain to the America First Committee for constructive information or inspiration. He finds that, while carefully avoiding giving any hint of a consistent defense policy for this country, many America First speakers apparently stop at nothing that will further confuse the defense issue, weaken our morale, or otherwise embarrass our government.

The continuous incitement and embitter-

ment of sincere California citizens against their government, the poisoning of their minds with Hitler's three hatreds (hatred of Britain, hatred of Jews and hatred of the American Way of Life), the providing of a respectable sounding board for professional organizers of crackpot, "lunacy-fringe" groups—these are the obvious results of the present subversive infiltration of the America First movement in California.

The American Legion Committee finds that in meetings of America First, processes are at work whereby a person attending merely to seek information, may unwittingly be transformed into a Nazi sympathizer, and even into a potential traitor to his country.

This Committee further finds that subversive infiltration into America First in California has not only confused the minds of the people in the audiences it attracts, but also has poisoned the minds of persons of outstanding community reputation who have participated in its activities.

It is obvious to this committee that subversive and un-American persons are tolerated by America First because such persons favor the isolationist America First doctrine. The American Legion, however, submits that acquiescence by leaders of America First in such subversive conduct permits the people to be deceived into believing that insidious doctrines and pernicious ideologies of un-American elements express the ideals and have the approval of the leaders of America First.

The responsibility for the loyalty and integrity of all those who are active in America First rests squarely upon the shoulders of its leaders.

The entire leadership of the America First Committee is now at the crossroads. General Robert E. Wood and his National Committee associates must make one of three decisions:

(1) Publicly disown and publicly denounce America First chapters in California and in all other states where conditions exist similar to those revealed by this report.

(2) Openly accept leadership of subversive and "lunacy fringe" elements in the United States.

(3) Ignore conditions disclosed by this report.

★

WHAT NOW?

If General Robert E. Wood and his National Committee adopt the first course, America First will cease to be a sounding-board for un-American doctrines and the people will know precisely where it stands.

If they accept leadership of the subversive elements (2), or if they ignore conditions disclosed by this report (3), [in effect the same] any resulting disunity of our people, any ensuing class hatred—attempting thus to strike at the very heart of our national defense—rests solely with America First. Such an eventuality loyal Americans must not and will not tolerate.

AGREES WITH HITLER BOOK, 'MEIN KAMPF'

Meeting Occurs 40 Hours Before Jap Attack on America

"Adolf Hitler in his book, 'Mein Kampf,' says that democracy in America is 'decayed and rotten'—I agree with him!"

With those words the principal speaker at the Lincoln Park Chapter, America First, Inc., meeting at 3730 N. Clark, Friday night, got his talk under way. He was Rev. Paul Voronaeff, who was announced as a Russian missionary.

He took the stand just a few minutes after another speaker, a Rev. Boze, had challenged the American Legion. Rev. Boze, who claimed to be organizing a "We the Fathers" group to march on Washington, said: "Where is the American Legion? We dare them to come!"

Puts on an Act

The Russian "missionary," who gave a carefully rehearsed dramatic monologue that would have done credit to a stage star, also brought with him thirty-five lantern slides purporting to show Russian conditions.

One of the slides was a map of Europe and Asia, which showed Russia out of all proportion to its actual size and which depicted Germany as being about as big as a minute.

But Rev. Voronaeff, who evidently had trouble making up his mind whether Russia was a "menace" or not, in the next breath declared proudly that Germany already occupied 4/5 of the "important" part of Russia and that retreat of the Nazis at Rostov was "insignificant."

Hits Walter Winchell

Other parts of his speech that drew applause from the 224 members of the audience were the statements that "the defense tax was a robbery" and that he "stood behind Walter Winchell during a recent Communist parade" and that Walter knew all the reds by and later he said that he was in grade school in Russia in 1925. Simple arithmetic would indicate he was a grade school pupil at the age of 19! He also wasn't quite clear about whether he "escaped" or was released from the Russian army.

Asks God's Help

He ended his talk by calling on God to help him and by stating that if Jesus Christ came to the White House, the President would say: "Get away from here, you are a Nazi."

Friday's rally was covered by one of The Booster's male reporters because of threats at previous America First, Inc., meetings that female reporters (whom they called "local Dorothy Thompsons") would be "tossed out on their ear."

This reporter, who is of German descent and understands German, was surprised to hear people in the row behind him conversing in that language. At one time they yelled out German words, which translated literally, meant: "Roosevelt is a s— — — b—!"

The America Firsters attempted no violence against this reporter, but one speaker did say, "The Booster misconstrues our statements here and we're going to have a showdown with them!"

Although this meeting took place just 40 hours before Japan attacked America, not one word was said about the Japanese-American situation. The entire meeting was given over to vilifying FDR, Great Britain and Russia, and apologizing for Germany.

I talked to Mr. L. M. C. Smith about the attached memorandum from the Criminal Division in which we are requested to conduct some investigation pertaining to the America First Committee. Mr. Smith stated that he would take this matter up at once with the Criminal Division since he doesn't believe the Attorney General desired an investigation in this field at the present time. Mr. Smith requested that we send a memorandum to the Criminal Division advising that he is handling matters relating to the America First Committee and requesting the Criminal Division to clear with Smith before having any investigation of this kind undertaken. A suggested memorandum to Mr. Berge is attached hereto.

KEEP T. UNITED STATES OUT OF WAR!

Do you know that wars do not happen; They are made; and that we, "The Public," can prevent future wars?

It has been well said that "we must remember that a lot of pressure is being brought to push us into a conflict in which we should have no part. There is an insidious middle group fighting neither Germany nor England but getting them to fight each other solely that this group might profit financially. "It is this same group that would like to push us into the war in Europe so that when it is all over we could pay the bills." This proved only too true during the last World War as revealed in the United States Senate investigation of the munition profiteers and also by headlines: "Britain and Germany keep patents accord"...Though Great Britain and Germany are at war they are respecting each other's patent rights...In the last war Germany accepted patent renewal fees from British inventors . . . In this war the British have modified their Trading With the Enemy Act to make payment of such fees possible in Germany. Thus statesmen, while able to protect profits, sacrifice the lives of their countrymen. While we are familiar with results of German aggression in Continental Europe, do we realize that the British altruistic war has enlarged her Empire by an estimated 500,000 square miles?

EXERCISE THE RIGHTS GRANTED YOU BY U. S. CONSTITUTION—WRITE TO YOUR PRESIDENT—YOUR SENATORS (Address them at Senate Office Building, Washington, D. C. New York Senators are Robert F. Wagner and James M. Mead). AND ALSO YOUR CONGRESSMEN TO KEEP U. S. A. OUT OF WAR.

A Million Letters Now May Save Millions of Lives

Peace House, working with religious and peace organizations of long standing, appeals to all young men who are opposed to war from either religious or humanitarian convictions to register "CONSCIENTIOUS OBJECTOR" on their draft questionnaire. After years of ardent work for peace, our Government recognizes this right. It is a matter of interest to observe that after England's many months of war, Canada does not have compulsory military service for overseas, and in England over 30,000 Conscientious Objectors are engaged in peaceful employment. IT IS NOT NECESSARY TO BELONG TO A RELIGIOUS SECT OR SOCIETY TO BE A CONSCIENTIOUS OBJECTOR, ALTHOUGH SOME DRAFT BOARD OFFICIALS ARE STILL APPARENTLY IGNORANT OF THIS PHASE OF THE LAW. If you are convinced that killing your fellowman is contrary to the law of GOD and MAN and wish advice and suggestions for filling your draft questionnaire as "Conscientious Objector," write, sending a carefully self-addressed stamped envelope,

"America First" Uses Nazi Propaganda Technique in Revising Cartoon Issued Originally by Eminent Christians

"The accompanying reproduction of a leaflet distributed during October at several America First Committee meetings in the New York area is evidence of one of the most startling perversions of fact yet found in the propaganda of the appeaser groups," says The Anti-Nazi Bulletin for November.

The statement continues:

About ten years ago, a group of pacifists and liberals of every stripe and creed edited and wrote for a magazine called "Economic Justice," the bulletin of the National Religion and Labor Foundation.

The backbone of this organization's supporters consisted of the type of sincere liberal and believer in Christian pacifism who once belonged to the "America First" Committee until its Nazi sympathies were revealed.

Even today, of course, the Committee contains some honest but deluded individuals used as a front by the powers behind the scenes.

Dr. Tittle Included

Among the names on the editorial board of "Economic Justice" were those of the Reverend Ernest F. Tittle, Pastor of the Methodist Church, of Evanston, Ill.; John A. Ryan, of the National Catholic Welfare Board; T. [illegible] Christian pacifist leader; Mahatma Gandhi, and others of the same type. It would be difficult, if not impossible for anyone but a Nazi propagandist to label such people as Communists.

In its November, 1932, issue, "Economic Justice" published a famous cartoon intended to point the moral that Our Lord, if here today, might be labelled an anarchist and one who conspired against the established government.

Parallel Seen

The idea of course was to draw a parallel between the fight of Jesus Christ for economic justice and the fight of liberals of that day for the same thing.

In no sense was any disrespect intended; on the contrary, it was hoped to dramatize the implications of the teachings of Christ.

The cartoon was widely reprinted by Christian groups including the largely Quaker Fellowship of Reconciliation, an extreme Christian-pacifist group—more honestly pacifist, it might be pointed out, than "America First" ever was.

"Brazenly Perverted"

Only a student of Nazi propaganda could have taken such a cartoon and so brazenly perverted it along the lines shown in the accompanying reproduction. By a remarkable process of "reasoning," the cartoon was stolen and reprinted as the essential part of an anti-Semitic leaflet, so that with new headings and captions added it was changed about to become an attack on the Jews, the foreign policy of the United States—and in essence, the teachings of Christ!

According to an affidavit in the possession of the Anti-Nazi League, this cartoon was distributed at meetings of the "America First" Committee in the New York area. In one striking case, at the first meeting called to organize a new "America First" chapter in Brooklyn, every person who attended received one of these leaflets.

Hits Propaganda

Little more need be said about the type of propaganda which would take advantage of a drawing meant to honor Jesus and pervert it into what you see above.

Catholics, Protestants and Jews alike should protest against this outrage to everything we hold dear, everything we hold sacred.

Perhaps the "America First" Committee has travelled even farther along the road to perdition than we feared, for this latest propaganda tack smacks suspiciously of the Godless technique employed by the Nazis in Germany to destroy religion.

Let us hope and pray that the few religious members who still remain with the "America First" Committee will denounce the trick of the Nazi devil.

If Satan has taken over the misnamed "America First" Committee, let them cast him out!

Reproduction of leaflet perverting a Christian cartoon. The original cartoon is the part enclosed by black lines. Heading and captions were added by perverters and the resulting leaflet was distributed at "America First" meetings in the New York area, according to an affidavit in the possession of the Non-Sectarian Anti-Nazi League, whose national headquarters are in New York.

Dear Sir:

On October 23rd I sent you a letter and an America First post card mailed in Shanghai which I thought you would be interested in seeing and possibly investigating.

It would be very much appreciated if you would return the post card and the envelope to me when you have finished with it, as I would like to have it for my files.

I have your acknowledgment of October 28th stating that it will be given proper attention at the earliest date practicable. I have had no further report since then.

It would be appreciated if you had further word on this subject.

October 23, 1941.

Inspector in Charge,
United States Post Office,
New York, N.Y.

Dear Sir:

Pursuant to a telephone conversation with your office this morning, I am sending you herewith a piece of mail which has some peculiar aspects.

The envelope was apparently mailed in Shanghai with Chinese postage addressed to a party in New York. The enclosure - a card bearing the crossed United States and Chinese flags with the inscription "Help China! Buy Chinese Goods!" - seems to me a part of a program to boost the sale of goods manufactured in Shanghai and the occupied areas, probably issued by the puppet Wang Ching-wei regime or Japanese trading interests in Shanghai. All of the goods manufactured in Shanghai for export to the United States are made by Japanese or Wang Ching-wei interests. That is to say, goods made in Shanghai and exported to the United States for sale provides a trade which is beneficial to Japanese or Wang Ching-wei interests.

The fact that this card, mailed from Shanghai, has an American First Committee stamp both on the card-enclosure and on the outside envelope in which the card was mailed, is rather difficult to explain. If the envelope contained United States postage it would be easily understood that the blank envelope and the card were mailed in bulk to the America First Committee where they were mailed to the various parties designated. That might account for the fact that the America First Committee stamp was on the enclosure. The envelope was sealed when it was delivered to One other explanation is that the America First Committee stickers were sent to Japanese or Wang Ching-wei organizations in Shanghai and were placed on the card and envelope there. This would certainly seem to indicate a very close relationship between America First Committee and the Japanese or Wang Ching-wei organizations in Shanghai.

The case presents so many interesting angles that I thought you would like to see what is going on and perhaps to figure out how the mailing was accomplished.

It would be appreciated if you would return the card and envelope to me when you have finished studying the case.

December 4, 1941

Subject: Meeting of America First Committee
Tucson, Arizona

Summary of Information:

The America First Committee held a meeting on November 24, 1941 at the home of Judge Gerald Jones, El Encanto Estates, Tucson, Arizona, with approximately 30 people present.

The principal speaker was MARGARET DORE', a naturalized American of French descent, who is reportedly pro-Nazi in her views. She supposedly lived in occupied France until about the first of this year when she came to the United States. She resides at 305 East 3rd Street, Tucson, Arizona and gives the ill health of her son as the reason for being in Tucson.

MARGARET DORE talked about an hour on the general subject of conditions in occupied France; stated that the French peasants have taken the German occupation as a matter of course, recalling that the Germans were in France in 1870-71 after the Franco-Prussian War, that they left then and it is assumed that they will withdraw again. That most of the French people are backing Marshal Petain, for they feel that Hitler cannot be defeated. She asserted that while in Paris, where she was a supervisor of schools, French children were receiving milk from the American Red Cross without being molested by the Germans, American reports to the contrary.

MARGARET DORE claims to have been educated in the Middle West and attended school with the wife of Admiral Kichisaburo Nomura, Japanese Ambassador to the United States. That she received a reply recently to a letter written to Ambassador Nomura. She claims to have had in her possession considerable literature explaining inside conditions in Europe, but the British agents took the material from her at Bermuda. Two pamphlets escaped their attention, which she still has, printed in French, and reportedly explain how the European conflict was brought on Germany against her will. She expressed a desire, at the America First Committee meeting, to have these publications reprinted in the United States.

Gentlemen:

I am writing to give you some information bout the America First Committee and the Dies Committee which I think should be investigated.

[redacted] b7C

[redacted]

Col. Lindbergh and Sen. Wheeler are connected with this organization and I think there is lot of dishonest work connected with it. I think it is just terrible the way Col Lindbergh was making speeches against the administration and taking money from the Government to operate their organization.

I certainly hope that the Department of Justice will look into this matter. [redacted] b7C

In re: Examination of [redacted] Material
in New York.

100-4712

Prior to Sunday, December 7, 1941, you will recall arrangements had been made for a member of this Unit and a representative of your Bureau's office in New York to examine certain materials relative to the Nazi infiltration into the America First Committee.

Because of the emergency this examination was suspended for the time being.

I now believe that it would be wise to make the planned examination in order to appraise the value of the material for use in connection with action against German organizations under the Voorhis or Foreign Agents Acts.

If you agree with this suggestion, will you kindly let me know who the representative in New York will be and I will see that arrangements for the proposed examination are made.

CHIEF, SPECIAL DEFENSE UNIT

1[illegible]73

With reference to the suggestion contained in your memorandum of December 23, 1941, that arrangements now be made for an examination of the material in the possession of [redacted] in New York City, I should like to advise that Assistant Director P. E. Foxworth, who is in charge of the New York City Office of this Bureau, has been informed of your intention to review the material and will make an Agent of that office available at such time as your representative is in New York City for the purpose of making the examination.

Dear Sir:

As of possible interest to you, the Bureau has been supplied with information from an unknown outside source that the German-American pre-final espionage system has been radically changed recently; that this country is now divided into three areas and each area is under the absolute supervision of a 100% American who attends to the major districts and is the pay-off man to the lieutenants, who actually handle the business end of the espionage work.

The same source advised that the pay-off for the eastern area is reported to be Philadelphia, while a suburb of Chicago, possibly Winnetka, Illinois, is the headquarters of the central group. On the west coast the headquarters is reported to be a little town about thirty miles from San Francisco. This town is not believed to be on the sky line drive or on the lower bay drive but is across the bay north of Berkeley and possibly up toward Richmond.

MID 201 America Fi[illegible]mittee
1-3-42

Report on two meetings of the nucleus of America First, one of which was attended by Charles Lindbergh.

I. Present at the first meeting

About 50 persons were present among whom were:

Mrs. Catherine Larkin	Miss Shuh
Douglas Gregory	Jean Bennet
Horace Haase	George Smith
Ethel Taylor	Mr. Giaquinto
Frances Zimmer	Thruman Blackwood
	Charles Lindbergh

This party was held in the home of Mr. Edwin S. Webster, Beekman Place, on the night of December 17th, 1941. It was held in honor of the speakers of America First.

When the party began the guests were told that Lindbergh happened to be in town and had consented to attend the party on the condition that no one would require him to make a speech. He did come in a little later and spoke for an hour at the first opportunity! The gist of what he said, according to reports of two persons who were present, was as follows:

"There is only one danger in the world -- that is the yellow danger. China and Japan are really bound together against the white race. There could only have been one efficient weapon against this alliance, underneath the surface, Germany itself could have been this weapon. The ideal set-up would have been to have had Germany take over Poland and Russia, in collaboration with the British, as a bloc against the yellow people and bolshevism. But instead, the British and the fools in Washington had to interfere. The British envied the Germans and wanted to rule the world forever. Britain is the real cause of all the trouble in the world today."

"Of course, America First cannot be active right now. But it should keep on the alert and when the large missing lists and losses are published the American people will realize how much they have been bet[illegible] by the British and the Administration. Then America First can be political force again. We must be quiet a while and await the t[illegible] for active functioning. There may be a time soon when we can ad[illegible] a negotiated peace."

CONFIDENTIAL

After this speech of Lindbergh's, Horace Haase declared in gis[illegible] not quite agree on one point with the Colonel. It is obvious[illegible] sary for the leaders of America First such as Wood and Webster quiet. But the organization should not be destroyed. I have been in the lime-light and have nothing to lose. I can remai[illegible] in a quiet way. I should like to offer to keep the files, e[illegible] must get ready for the next attack which must be made on thi[illegible] tic administration. We must combat Union Now. If and when

moment comes, I feel sure that our leaders — and especially the Colonel — will take the leadership and lead us to victory."

This talk was much applauded and Lindbergh himself thanked Haase himself for the confidence expressed in him.

II. Present at the other and smaller meeting at the apartment of Mrs. Marie D. Hilliard, 7 Park Avenue, on December 17, 1941:

Mr. Cullen — Mr. John Scott — 100367
Marjorie Lane — Mr. Ingersoll and others

Mrs. Hilliard is a woman of about 50 years of age who has traveled widely in Europe and spent much time in Germany. She brought the Protocols of Zion back with her from one of her European trips. She reads this frequently to her friends and read it again at this meeting. She is considered a little bit of a crack-pot by the more responsible America Firsters. Her wall was adorned with pictures of Kirsten Flagstad, of whom she said, "She loves the Germans very much, which is quite understandable." She calls FDR a dictator and an idiot who follows the whims of Churchill. She is especially bitter against persons like Henderson, whom she considers a communist.

Mr. Cullen, a lawyer in Bay Ridge, former chairman of the Bay Ridge unit of America First, expressed great patriotic nationalism but of course he added that the really patriotic thing to do would be to overthrow the present government which has taken the wrong course. He things we should get out of Asia and stated that the Japanese have a natural right to have Asia as their sphere of influence. He favors the creation of a new America First organization.

Mrs. Marjorie Lane has been active in Women United. She spoke of having connections with a Mrs. Young and a Miss Butler, Chairman and secretary of an organization which holds together the old Paul Revere Sentinels. She also gave a mailing list to McCafferty's for the Tomahawk. She wants to boycott Jewish stores. She said she was whole-heartedly with the idea of a new orgnization.

Amos Pinchot was not at the meeting but sent a message, according to Haase, that he was interested but could not join the new organization officially.

Edwin Webster sent a similar message.

John Scott, editor of MONEY, will print the advertising for the new organization in his paper and mail out 10,000 copies.

D. 201. America First Committee 7-4-2

COPY

CONFIDENTIAL

December 19, 1941.

Report on two meetings of the nucleus of America First, one of which was attended by Charles Lindbergh

I. Present at the first meeting

About 50 persons were present among whom were:

Mrs. Catherine Larkin	Miss Shuh
Douglas Gregory	Jean Bennet
Horace Haase	George Smith
Ethel Taylor	Mr. Giaquinto
Frances Zimmer	Thruman Blackwood
	Charles Lindbergh

This party was held in the home of Mr. Edwin S. Webster, Beekman Place, on the night of December 17, 1941. It was held in the honor of the speakers of America First.

When the party began the guests were told that Lindbergh happened to be in town and had consented to attend the party on the condition that no one would require him to make a speech. He did come in a little later and spoke for an hour at the first opportunity! The gist of what he said, according to reports of two persons who were present, was as follows:

"There is only one danger in the world — that is the yellow danger. China and Japan are really bound together against the white race. There could only have been one efficient weapon against this alliance, underneath the surface, Germany itself could have been this weapon. The ideal set-up would have been to have had Germany take over Poland and Russia, in collaboration with the British, as a bloc against the yellow people and bolshevism. But instead, the British and the fools in Washington had to interfere. The British envied the Germans and wanted to rule the world forever. Britain is the real cause of all the trouble in the world today."

"Of course, America First cannot be active right now. But it should keep on the alert and when the large missing lists and losses are published the American people will realize how much they have been betrayed by the British and the Administration. Then America First can be a political force again. We must be quiet for a while and await the time for active functioning. There may be a time soon when we can advocate a negotiated peace."

After this speech of Lindbergh's, Horace Haase declared in gist: "I do not quite agree on one point with the Colonel. It is obviously necessary for the leaders of America First such as Wood and Webster to keep quiet. But the organization should not be destroyed. I have never been in the lime light and have nothing to lose. I can remain active in a quiet way. I should like to offer to keep the files, etc. We must get ready for the next attack which must be made on this Communistic administration. We must combat Union Now. If and when the great moment comes, I feel sure that our leaders -- and especially the Colonel -- will take the leadership and lead us to victory."

Declassified per Army letter dtd 5/29/91 8123 mch/tag 8/9/91

CONFIDENTIAL COPY

This talk was much applauded and Lindbergh himself thanked Haase himself for the confidence expressed in him.

II. Present at the other and smaller meeting at the apartment of Mrs. Marie D. Hilliard, 7 Park Avenue, on December 17, 1941:

Mr. Cullen
Marjorie Lane
Mr. John Scott
Mr. Ingersoll and others

Mrs. Hilliard is a woman of about 50 years of age who has traveled widely in Europe and spent much time in Germany. She brought the Protocols of Zion back with her from one of her European trips. She reads this frequently to her friends and read it again at this meeting. She is considered a little bit of a crackpot by the more responsible America Firsters. Her wall was adorned with pictures of Kirsten Flagstad, of whom she said, "She loves the Germans very much, which is quite understandable." She calls FDR a dictator and an idiot who follows the whims of Churchill. She is especially bitter against persons like Henderson, who she considers a communist.

Mr. Cullen, a lawyer in Bay Ridge, former chairman of the Bay Ridge unit of America First expressed a great patriotic nationalism but of course he added that the really patriotic thing to do would be to overthrow the present government which has taken the wrong course. He thinks we should get out of Asia and stated that the Japanese have a natural right to have Asia as their sphere of influence. He favors the creation of a new America First organization.

Mrs. Marjorie Lane has been active in Women United. She spoke of having connections with a Mrs. Young and a Miss Butler, Chairman and Secretary of an organization which holds together the old Paul Revere Sentinels. She also gave a mailing list to McCafferty's for the Tomahawk. She wants to boycott Jewish stores. She said she was whole-heartedly with the idea of a new organization.

Amos Pinchot was not at the meeting but sent a message, according to Hanse, that he was interested but could not join the new organization officially.

Edwin Webster sent a similar message.

John Scott, editor of MONEY, will print the advertising for the new organization in his paper and mail out 10,000 copies.

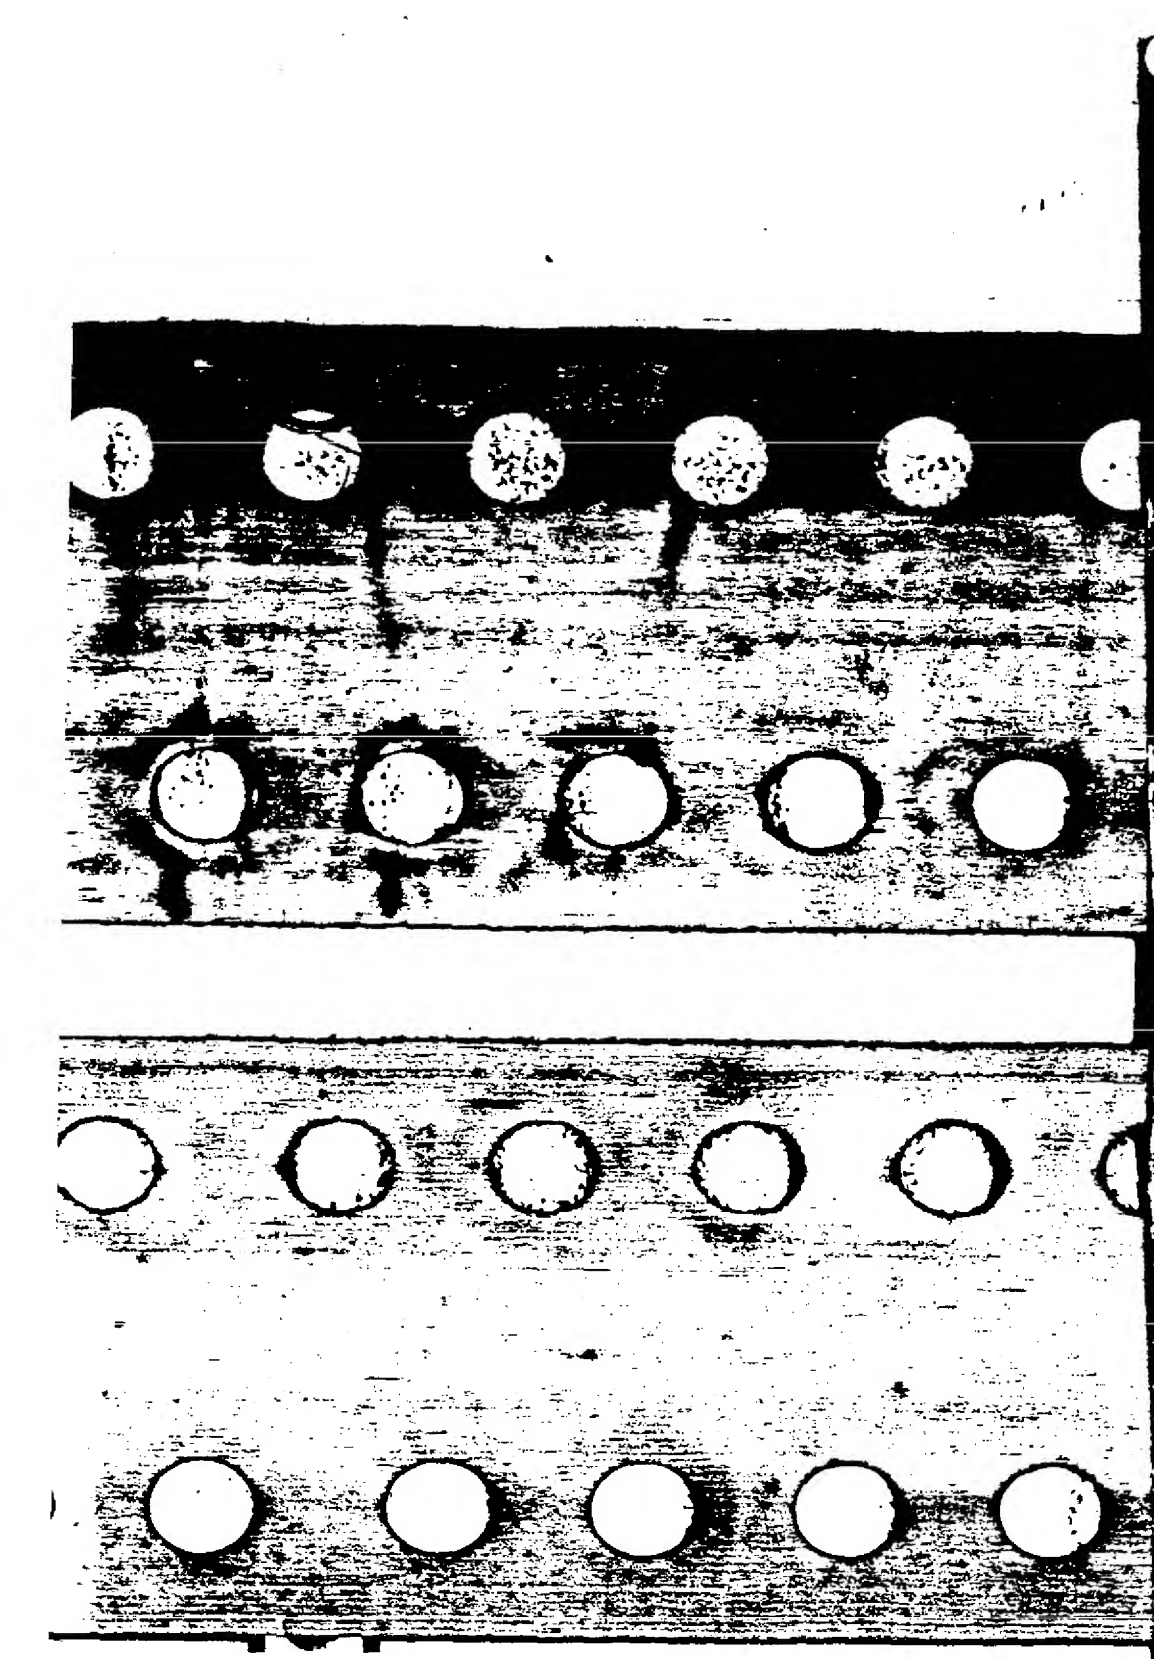
Oliver's Story



Lindbergh Re-enlists

Charles A. Lindbergh has offere
his unqualified services to the Army a
corps. This simple act of a plain citize
will, we fancy, loose a torrent of com
ment on the one-time colonel's fitness t
serve his country.

For ourselves, in the interests of th
new unity, we are willing to believe
with General Arnold that "Lindbergh'
act indicates a definite change from hi
isolationist stand." A great many Amer
icans were shown to be mistaken abou
the scope and character of this wa
when the Japanese swooped down
on Pearl Harbor. We must accept the
signs of conversion at face value—a
least until they become the unerring
trail for old hounds.

But Mr. Lindbergh did as much
more than merely make himself ridicu
lous by saying that the war would neve
touch America; for the Lone Eagle re
ferred often and ominously—with presi
dential elections three years away—t
a "change of government" in Washing
ton. It seems to us, therefore, that h
should be placed in a sort of specia
category of warmaker—a category
north Florida pastor once described a
"the mebbe-ifs."

And then there is this other consid
eration: some of Mr. Lindbergh's clo
est friends have been saying that mil
itary men who have betrayed a perilous
ignorance of modern weapons should
not be permitted to retain posts
which they could place the lives
other Americans in jeopardy. That
the goose-gander will fit the gander.

So the way to the Army accept

[redacted] furnished this office with a report dated October 28, 1941, at which time he advised that there was practically no activity in that area on the part of this Committee at that time. He advised that the Chairman of this Committee, [redacted] is violently anti-New Deal and he felt sure that [redacted] would not do anything against this country.

Mrs. EUGENIE HOWARD [redacted] Tulsa, is Secretary of the Tulsa Organization and Mrs. ELLA GESSEL [redacted], is Treasurer. Both are natives of the state of Nebraska and have resided in Tulsa for many years. [redacted] believed that they were pacifists and did not think they were un-American.

Reverend O. A. PANKEY, [redacted] was temporary Chairman at the time the Tulsa Chapter was organized. He was also described to be of the pacifist type but it was not believed that he had un-American interests.

On January 20, 1941, [redacted] Oklahoma City, Oklahoma, furnished this office with a letter addressed [redacted], which had been written [redacted] as a consequence of [redacted] activity in preventing CHARLES LINDBERGH from using the Oklahoma City Public Auditorium to make an addfess on behalf of the AMERICA FIRST COMMITTEE. This letter is not set out in full but is quoted in part as follows: "Along about August 26, 1941 you were quoted by the Chicago Tribune as having said 'we are not denying the right of free speech but refusing to rent a public building for a speech by LINDBERGH!'" [redacted] went on to state that this was "small-minded and petty" on the part of Oklahoma City officials. There is nothing of further consequence in this letter except a general denunciation of the city officials in refusing use of the auditorium for this speech.

[redacted] also furnished this office with a postcard addressed [redacted] which reads as follows: "Your stupid refusal to allow CHARLES LINDBERGH to use the auditorium insures the fact that I will never speak well of nor spend money in your town."

These two pieces of correspondence are being retained in the files of the Oklahoma City Field Division.

Various newspaper reports have recently shown a large number of the AMERICA FIRST leaders to have made statements indicating that the AMERICA FIRST COMMITTEE would be disbanded. A letter appearing in the Tulsa, Oklahoma Tribune on December 8, 1941, by MACK SHRODES, Chairman of the Tulsa Chapter of this Committee, stated that "if I were a Congressman I would vote for war today." He further stated, "there's no further use of the AMERICA FIRST COMMITTEE now unless we can help our country. We've all got to help -- LINDBERGH and Senator WHEELER and Governor MURRAY and myself."

Inasmuch as it appears that the activities of the AMERICA FIRST COMMITTEE are now discontinued this case is being closed but will be reopened if information is later received indicating further activity of this organization.

Subject: America First Committee Meeting.

Summary of Information:

Reference is made to copy of letter dated January 5, 1942, Office of the Assistant Chief of Staff, G-2, Governors Island, New York, subject, Charles Lindbergh--America First, distributed by this office on January 14, 1942.

Additional information has been received from a reliable source indicating that it has now been established that the report of this meeting was transmitted to the Committee to Defend Democracy by Aiding the Allies, 8 West 40th Street, New York City, New York. The author of the report did not attend the meeting himself but obtained the information contained in the report from three individuals present; this information has also been checked through another confidential source and is substantially correct. Mr. Lindbergh's remarks were extemporaneous and made in a hesitant manner and poorly connected fashion as he was obviously unprepared, and, furthermore, both he and Edwin S. Webster evidently knew that some of the persons present were informants, and that on different occasions Mr. Lindbergh had been warned by Webster to be careful in his remarks. Although the names of the members of the party who gave out the information are not available, it can be assumed from various indications that Horace Haas was the real author of this memorandum.

The informant further advises that there is another much longer report of this meeting which was prepared by other informants, and it has been offered at various places and at various prices. This latter report is obviously incorrect even though it has had a wide circulation.

SUBJECT: America First Movement

Summary of Information:

1. It is believed that the America First group in the East under the leadership of the Coughlin followers are soon to come out with a new outfit. When they do, John L. Lewis will openly approve. Lewis has been receiving praise from the Coughlin followers recently and this praise is being used in almost every section of the country. According to the reports from the C.I.O. at Washington, the group has carefully set up the country into districts. They have revised all the mailing lists and in addition, they have made arrangements with other groups, which can be classified as pro-Nazi, for an exchange of a mailing list This arrangement is now in effect and many of these pro-Nazi groups are circularizing so-called patriots with the sale of literature, etc. These lists are not being carelessly handled because of the fear that some may demand a government investigation of their activities. However, it has been learned that America First and their so-called supporting groups have now a secret mailing list of eight million, four hundred and seventy-six thousand names of people in this country. A vast number of this list are on the west coast and lately a great many of the foreign speaking groups have been circularized. There is no doubt but that certain sections of names from the major list have been used in sending out this mail.

CHARLES A. LINDBERGH

At the time indicated above, the writer called Special Agent [redacted] of the New York Office relative to the item appearing in the Washington Merry-Go-Round and published January 28, 1942, in the New York Daily Mirror, which article indicated that Charles A. Lindbergh addressed a meeting of one-time members of the America First Committee at a place formerly known as the German-American Rothskeller in New York City. This speech was reported in this article to have been made December 19, 1941.

[redacted] was requested to make available immediately any information which might be in the possession of the New York Office concerning the remarks reportedly made by Lindbergh on December 19, 1941, in which remarks he allegedly blamed England for the present war and advised America Firsters "to bide their time."

b7C

[redacted] later called the writer at 4:25 P.M. on January 28, 1942, at which time he advised that the New York office had no information whatsoever indicating that Lindbergh had addressed such a group on December 19, 1941. He stated that should any information come to the attention of the New York Office indicating that such a speech had been made the Bureau would be immediately advised.

Respectfully,

E. P. Morgan

AMERICA FIRST COMMITTEE

Available information concerning the America First Committee has not resulted from active investigation but has been either voluntarily submitted without solicitation or has been extracted from articles which have appeared in the press. Because of this limitation, a full and complete analysis of the organization cannot be presented.

Only a brief reference to the professed principles and objectives of the America First Committee will be made. The Committee declared that the most complete presentation of its views was set forth in a speech entitled "Our Foreign Policy" delivered by Acting Chairman General Robert E. Wood on October 4, 1940, before the Chicago Council on Foreign Relations. General Wood contended that the ideology of the totalitarian states, which it is alleged must be destroyed, cannot be destroyed by war; that our protection does not depend upon Britain; that if we are properly prepared internally we need have no fear of invasion even though Britain falls; and that a German-dominated Europe would not destroy our foreign trade nor would it be impossible for our presently existing economic order to compete with such a Europe. From this, it follows that intervention is not only non-essential, but should be prevented at all costs in order to avoid the attendant financial loss and destruction of life.

The objective of the Committee then becomes one of bringing together all those who concur in the opinion that pressure should be brought from all directions against the United States' entry into the war. The Committee contends that the course presently being pursued by the Government will inevitably lead us into the war, and that this is being done without the masses' knowledge, 86 per cent of whom in October, 1940, were opposed to entry into the war. The Committee has announced through its representative that it favors the administration's rearmament program and supports the policy of giving Britain all possible aid as long as such aid does not tend in any way to directly involve the United States in the European conflict.

ORGANIZATION

Origin

The America First Committee was incorporated in the State of Illinois on September 19, 1940. Its national headquarters have always been located at 1806 Board of Trade Building, Chicago, Illinois. The publications of the Committee fail to disclose the individuals who conceived the idea of such a Committee and the precise reasons for its creation. The officers and directors at the time of its founding consisted of the following:

Officers

Acting Chairman - General Robert E. Wood of Chicago, Illinois; graduate of West Point; present Chairman of the Board of Directors of Sears, Roebuck and Company.

National Director and Secretary - R. Douglas Stuart, Jr.; son of R. Douglas Stuart of the Quaker Oats Company; senior in the Yale Law School prior to the time he became associated with the America First Committee.

Treasurer - J. Manford Otis; Vice President of the Central Republic Bank of Chicago.

Board of Directors

Manford MacNider - Mason City, Iowa; banker; former National Commander of the American Legion; former Assistant Secretary of War, 1925-1928.

SECRET

General Thomas Hammond - Harvey, Illinois; Retired United States Army Officer; President of the Welding Corporation, crane and foundry equipment manufacturers; Chairman of the Republican Party in Illinois.

J. C. Hormel - Formerly associated with the Hormel meat packing company of Austin, Minnesota.

Clay Judson - Chicago, Illinois; attorney; Former President of the Chicago Council of Foreign Relations; Member of the Board of Trustees of United Charities, Chicago, Illinois.

A pamphlet issued by the Committee in October, 1940, lists members of the National Committee, among whom were the following:

General Robert E. Wood	R. Douglas Stuart, Jr.
J. Sanford Otis	Mrs. Bennett Champ Clark
Janet Ayer Fairbank	Henry Ford
J. C. Hormel	General Hugh S. Johnson
Clay Judson	Alice Roosevelt Longworth
Captain Edward Rickenbacker	Mrs. Burton K. Wheeler
Lessing J. Rosenwald	General Thomas Hammond
Sanford MacNider	

Dr. Anton Julius Carlson - University of Chicago Professor and member of the Civil Liberties Union; a national pacifist of alleged decidedly left wing sympathies.

William R. Castle - Former Assistant Secretary of State and Ambassador to Japan.

John T. Flynn - Author of "Country Squire in the White House."

Kathryn Lewis - Daughter of John L. Lewis

With reference to the Committee's founding, [redacted] expressed the opinion that the Committee was set up in opposition to the propaganda being disseminated by the William Allen White Committee. This informant pointed out that Colonel Lindbergh and [redacted] both had considerable intimacy with Colonel Robert R. This informant also expressed the opinion that the Committee at the time of its founding was unquestionably patriotic. He stated that because of the liberalism expressed by some of the members, William J. Grace, Avery Brundage, and W. H. Regnery severed their connections with the Committee. [redacted]

[redacted] submitted a memorandum dated January 17, 1941, which alleged that in the summer of 1940, Senator and Mrs. Burton K. Wheeler and Dorothy Detzer, Director of the Women's International League for Peace

and associate of J. T. Flynn, publisher of "Uncensored", interested General Wood in the formation of such an organization. Also mentioned in connection with its founding was a so-called pacifist radical monthly called "Equality", in the September issue of which appeared Senator Wheeler's "Defend America First" article and John L. Lewis' article against conscription. This source reported that the Washington, D. C., group of the Committee was organized and directed by Dorothy Detzer and William R. Castle. It is to be noted that Dorothy Detzer is said to consider herself the "brains" of the America First Committee. [redacted] by L.M.C. Smith)

John L. Spivak in his series of articles entitled "America First' Exposed" which appeared in the September 30, October 7, and October 14, 1941, issues of "New Masses", declared that the idea for the formation of such a Committee was born in the mind of R. Douglas Stuart, Jr., who interested General R. E. Wood, William H. Regnery, "a Chicago multi-millionaire", and Clay Judson in such a movement. Spivak contended that Lindbergh was not named on the original Committee because of his reputation for being strongly pro-Nazi.

Membership and Promotion

According to Spivak, the scope of the Committee is nationwide and Robert L. Bliss, formerly Director of Organization in the National Office and now Director of the New York Chapter, stated that there are about 250 chapters of the America First Committee and 750 units throughout the country. When questioned as to the number of members, the Managing Director R. Douglas Stuart, Jr., estimated that there were about 5,000,000. This figure, however was unsubstantiated by any fact, and was considered by Spivak to be greatly exaggerated. (New Masses, Oct. 7, p. 9)

In some states the activities have been sufficiently extensive to warrant state incorporation as was the case in California, New York, and Missouri. It appears that all units recognize the national headquarters and profess to follow the same principles and objectives, although the activities vary in different sections, depending upon the tendencies and influence of the sectional leaders. In view of the speeches and public addresses given by representatives of the Committee, it would appear that all sections of the

country have been influenced by the Committee and that efforts of the Committee have been concentrated in the population centers of the nation.

John L. Spivak contended that "The America First Committee, while trying to create the impression that it has a large mass following is run and chiefly financed by a small clique of 'smart money' boys." To substantiate this contention, Spivak refers to the number of wealthy individuals who are members of the National Committee and to other wealthy patrons among whom are Ernest T. Weir, Chairman of the National Steel Corporation; H. L. Stuart, President of Halsey, Stuart, and Company, Chicago; and Max W. Babb, President of Allis-Chalmers. (New Masses, 9/30)

With reference to the promotional activities of the Committee, it is to be noted that it contends that all work of the Committee is purely voluntary. This was said to be true of the speakers of the organization as well as the organizers. However, Spivak points out that many of the lecturers and speakers are paid for their services even though such speakers are members of the Committee. It has been reported that at the time Dan Lubbock organized a unit of the America First Committee in Oklahoma, he stated that he had formerly been an organizer for the American Peace Mobilization but had been induced to work for the America First Committee because it had greater funds with which to finance promotional work. Within the past two months, an informant has advised that the Committee has recently been compelled to terminate the services of some of its paid organizers through lack of funds and has been called upon to accept financial assistance from pro-Nazi sources. Funds

There has been no indication that the America First Committee has at any time submitted financial statements or given any other information concerning the extent of its resources. Spivak opens his series of articles with the statement that "the America First Committee has received a minimum of over $1,000,000 from unidentified sources for its propaganda work." Spivak explained that the Committee refused to make available any financial statistics other than the fact that the Chicago office alone,

SECRET

for instance, collected $231,000 during a ten-month period, and the New York Chapter, $112,000 in a six-month period. Using what he considered to be conservative estimates with regard to the other Chapters throughout the country, Spivak concluded that the America First Committee raised over $1,000,000 during the past year. The Chicago office reported that of the $231,000 collected during the ten-month period ending on June, 1, 1941, $207,000 was spent of which $42,000 was allocated to pay roll for the Chicago office alone. (New Masses, Oct. 7)

After repeatedly fusing the New York Herald Tribune's request for a list of the names of the contributors to the America First Committee, General Wood finally made available a partial list. He explained that numerous contributors had preferred not to have their names mentioned. (New Masses, Oct. 7)

It does not appear how successful the Committee has been in raising funds by nationwide appeals either through circulars and publications of the Committee or through public addresses and radio. There is evidence that funds have been received from organizations with Nazi and Communist connections, specific instances of which will be set forth hereinafter.

ACTIVITIES AND CONNECTIONS

The following information will relate primarily to activities and connections of the Committee which have been subjected to adverse criticism by the press and radio, or which have been allegedly associated with foreign subversive elements. An attempt will be made to separate the information set forth into first: that pertaining to activities and connections relating to organizations, individuals, and movements which can be described as being internal in nature and not directly connected with any foreign source, and secondly: that dealing with activities and connections which are either connected with, or directly influenced by, groups or interests such as the Nazis, Communists, Fascists, and others which are associated with forces essentially foreign.

SECRET

The most highly publicized and perhaps most representative activities of the National Committee are carried out by the sponsorship of meetings and rallies at which designated representatives of the Committee set forth the official views of that body. Such public declarations of the Committee's policies and views of necessity have been carefully considered by the Committee and have, therefore, contained nothing pertinent to this memorandum. Attention, however, is called to the fact that there is a discernible trend toward a more radical expression of opinion on the part of official representatives of the Committee which has resulted in much adverse criticism. During the first eight months of the Committee's existence, the speakers have confined themselves chiefly to a criticism of the President's foreign policy with occasional charges that the Administration's foreign policy was pro-British, rather than pro-American. Pamphlets of the America First Committee raised the question "Are You Ready to Make the United States a Dictatorship?" and referred to the Lend-Lease Bill as a "war dictatorship bill."

During the past four months, however, prominent speakers of the Committee such as Colonel Charles A. Lindbergh, Senator Burton K. Wheeler of Montana, Senator Gerald P. Nye of North Dakota, and former Governor Philip F. La Follette of Wisconsin, have inserted statements in their speeches which have resulted in their having the label "subversive" attached to their declarations. In his Des Moines speech on September 16, 1941, Lindbergh openly declared that the United States was being drawn into the European conflict by "the British, the Jews, and the Roosevelt Administration", openly raising for the first time the anti-Semitic issue. This reference to the Jews resulted in criticism of the Committee from all sections of the country. The Chicago Daily News of September 23, 1941, quoted Senator Nye as saying that the "foreign-born magnates of the Jewish faith" were primarily responsible for "propaganda" in the films. In his Fort Wayne, Indiana, speech on October 2, 1941, Colonel Lindbergh declared that that speech might be his last. He also declared that the end of free election was in sight and stated, "We must face the fact that you and I and our generation have lost our American heritage." (100-4712-A, Extracts from news clipping)

This same charge - that the American people might expect to have the 1942 election suspended - was made by former Governor Philip F. La Follett on November 1, 1941, in a speech delivered in Washington, D. C. In this speech, La Follette was said to have openly called for an insurrection by

"fearless red-blooded Americans to overthrow the 'War Party' government ....." and to have stated that ".....if the administration using a 'rubber stamp Congress' tries to postpone elections, we, the real 'American Party', will call upon all real Americans to fight for their freedom right here as their forefathers fought in the revolution." (100-4712-189, [redacted]

It is to be noted that the Washington [redacted] of July 14, 1941, reported that the America First Committee had adopted a resolution recommending the removal of Secretary of the Navy Frank Knox for allegedly advocating that the United States Navy intervene in the war at that time.

(100-4712-A, 7/14/41)

Reference is made to an article appearing in the Pasadena Independence (California) of June 16, 1941, covering an America First rally in that city. Charles Cobb, Acting Chairman of the group, declared in his address that he did not believe a British victory possible or desirable, and outlined his belief in the theory that the world is destined to be controlled by the new world forces, consisting of the three great centers of power - Europe, Asia, and the Americas. He also made reference to former Ambassador Cudahy's declaration that at no time had Hitler's statements indicated an intention inimical to the United States. He described Czechoslovakia as a dagger pointed at the heart of Germany. The above remarks suggest a Nazi propaganda source. Another speaker at this same meeting, Dr. Michael Francis Dillon, objected to the use of the United States troops in breaking the strike at the North American Aircraft Corporation at Inglewood, California, and the proposed use of concentration camps for handling conscientious objectors. The Federal Bureau of Investigation was paralleled to the Gestapo, and the Dies Committee was described as a tool of the FBI.

(100-4712-76)

In connection with this phase of the Committee's activities, reference is made to the alleged use of the franking privilege by Senators Wheeler and Nye. Spivak particularly stressed this matter and the "New Masses" carried photographs of a franked envelope of Senator Nye, which envelope set forth that the enclosed letter contained an "extension of remarks by Hon. Gerald P. Nye" concerning the "Radio address delivered by Theodore F. Hoffmann, National Chairman, Steuben Society of America." Also shown was an envleope with Senator Wheeler's frank pertaining to material of the same nature which he had read into the Congressional Record.

Reference is also made to an article in the Washington Times Herald of September 26, 1941, which tells of franked mail being subpoenaed from the offices of the America First Washington headquarters. This mail, which bore the franks of seven non-interventionist Congressmen, was said to have been moved from the offices of Prescott Bennett, Secretary of the Make Europe Pay Committee, to the America First headquarters just prior to seizure. (100-4712-A)

Interference With Armed Forces

During the past four months, several different sources have submitted information charging the America First Committee with the sponsorship of a campaign directed toward creating disharmony within the ranks of the army forces. A confidential source on July 6, 1941, reported that the America First Committee within the Ninth Corps Area District of the Army appeared to be falling under the control of the radical elements who were conducting anti-war propaganda campaigns near army posts in that area. Still another source reported on April 23, 1941, that a member of the crew of the U.S.S. SIMS, a United States Destroyer, had been active aboard ship in inducing twelve enlisted men to join the America First Committee. (61-7559-11760) (S-1)(C)

On July 15, 1941, an informant advised the Bureau that the Chicago, Illinois, section of the Committee was said to be circularizing the parents, relatives, and wives of the men in the armed forces with a view toward enlisting their support in the movement. Another source reported that in Westchester County, New York, near Fort Slocum, the America First Committee had distributed folding post cards which were sent to parents and relatives of the enlisted men, one side of which could be detached and mailed to the soldiers. These post cards made an emotional appeal, stressing the hardship and loss of life attendant upon our entry into this war. (S-1)(C)
(100-7660-178, Sept. 1941, G-2, report of the 2nd Corps Area)

On July 23, 1941, an enlistee told of a clerk in the America First Committee office in New Rochelle, New York, expressing the opinion in that office that she sympathized with members of the service who deserted and encouraged the spreading of America First propaganda among the armed forces.

On September 26, 1941, it was confidentially learned that an America First Committee employee, named J. Guy Jeeneman was distributing anti-war propaganda among soldiers in the New York area around Fort Dix. Jeeneman was said to be a former officer of the German-American Bund. (S-1)(R)

Anti-Semitic Connections

While the anti-Semitic issue did not break out openly until Lindbergh's Des Moines address in September, there is considerable indication that certain individuals connected with the Committee and certain so-called American Fascist groups which supported the Committee were using the Committee as an instrument for advancing their anti-Jewish theories. John Spivak charged that the following individuals, interested in the Committee at the time of its founding, are all anti-Semitic - Henry Ford, Sterling Morton, William Castle, and Avery Brundage. He contended that The America First Director of Organization admitted that Brundage was dropped from the Committee because of his anti-Semitic reputation. He pointed out that Morton was known to have financed Jung's American Vigilant Intelligence Federation which distributed the "Protocols of the Elders of Zion." He also called attention to a letter written by William Castle in which he expressed his dislike of the Jews. (New Masses, 9/30; PM 5/16/41

Spivak also charged that the Committee has several anti-Semites on its lecture staff. He called particular attention to the fact that Reverend Edward Lodge Curran, who is described as Father Coughlin's chief apostle in the East and who has been said to have worked with such groups as the German-American Bund, German-American Business League, the American Nationalists, and the Citizens' Protective League, gave the invocation at the Brooklyn America First rally on May 14, 1941. Spivak also alleged that on December 9, 1940, Mrs. Barbara McDonald, head of the Speaker's Bureau of the Committee's National office, wrote to Edward James Smythe, of the Protestant War Veterans, thanking him for agreeing to speak at the Philadelphia America First meeting on December 16th. Smythe was described as a vicious anti-Semite who has openly boasted of arranging a joint meeting with the Ku Klux Klan and the German-American Bund at Camp Nordland.

"The Hour", an alleged confidential newsletter sponsored by the American Council Against Nazi Propaganda, Incorporated, and supported by the Anti-Defamation League has devoted a great deal of space in an effort to establish the connection between the America First Committee and anti-Semitic forces in the country. In the April 26, 1941, issue, "The Hour" calls attention to the number of outstanding leaders of alleged subversive groups who attended the America First rally held at Manhattan Center on April 23, 1941. The following were named: (100-4481-6;

[redacted]

"August Klapprott, Bund leader now out on bail after conviction in New Jersey on charges of incitement to hate; Gustav Elmar, treasurer of the Bund; Lawrence Dennis, well-known fascist 'theoretician', author of 'The Coming American Fascism'; George A. Van Hoesdail, Bund member, former president of the Crusaders for Americanism; Edward James Smythe, intimate of Bundites, KKK leader, staunch Hitlerite and violent anti-Semite; Mrs. Leonora Schuyler (on platform), bigwig in the Allied Patriotic Society, frequenter of Christian Front and Mobiliser meetings; Mrs. Cooper, a leader in the fascist Paul Revere Sentinels, a friend and co-worker of Mrs. Schuyler; Edward Ranta, former witness before the Dies Committee, now employed by the American Women Against Communism, a fascist organization; James Stewart, street-corner speaker of the Christian Mobilizers and member of their inner council; Daniel Morgan, bodyguard of the American Destiny Party leader, Joseph McWilliams; James McGee, Christian Front propagandist; Edmund Burke, Christian Mobiliser speaker and organizer, a jailbird; George F. Bolan, leading member of the U.S. branch of the Roumanian Iron Guard, disseminator of pro-Nazi propaganda; Reverend Herbert Lewis, Bund and Christian Front member; and dozens of other similar gentry."

In other issues of this publication, bitter attacks are made against Father Coughlin's Social Justice group and Joseph McWilliams' American Destiny Party, both of which are said to support the America First Committee. (100-4481; Issue of the Hour)

Because of Colonel Charles A. Lindbergh's activities on behalf of the America First Committee and his alleged interest in "Scribner's Commentator", it is significant that Spivak stated that at the time he interviewed John T. Flynn, the New York America First Chapter's Chairman, Flynn mistakenly stated that he thought Charles S. Tuyson, a publisher of "Scribner's Commentator" as a member of the Directing Board of the America First Committee. "Scribner's Commentator" has been described as the mouthpiece of Colonel Lindbergh and as being notoriously anti-Semitic. (New Masses, 9/30)

Information has been received associating the notorious American Fascist, Marwin K. Hart, with the America First Committee. On May 22, 1941, a confidential informant advised that

Stuart added, "I will let you know the name of the man who will be Chairman of our New York Chapter within a few days. I hope you will be able to work with him." Spivak pointed out that Hart is considered a prominent pro-Fascist who cooperated with Franco agents during the Spanish Civil War.

FOREIGN INFLUENCE

It is to be noted that the America First Committee has stated in its sponsored literature and statements for the press that it refuses to accept in its membership any persons connected with any foreign subversive groups such as the Nazis, Fascists, or Communists. However, many sources

have submitted information bearing upon the alleged connection between the Committee and various foreign subversive elements. No information has been received indicating that this Committee was connected in any way with any foreign elements at the time of its founding.

How this was accomplished he did not state. [redacted] also explained that the German-American Board of Trade has succeeded the Germany Library of Information as the official German propaganda instrumentality. It is to be noted that it was reported on March 3, 1941, that a lecturer for the America First Committee named Harry Elmer Barnes, one of the editorial sponsors of "Uncensored", was said to have written to [redacted] urging him to publish the German White Book's attack on former Ambassador, b7D William Bullitt. During July of 1941 information was received to the effect that the mailing list of the German Library of Information had been turned over to the America First Committee. The New York Herald Tribune of July 26, 1941, carried an article which related that Newton Dillaway, a writer residing at Reading, Massachusetts, had made public two envelopes received by him which bore identical misspellings of his name and the same post office box numbers. One contained propaganda received from the America First Committee while the other, which had been received some months previous, contained literature from the German Library of Information. When questioned concerning this coincidence, a spokesman for the America First Committee declared that the misspelled name had been sent to the Committee by a private individual in February and that it would require an extensive search through the Committee's files to determine the name of this individual. A resident of [redacted] on November 11, 1941, pointed to a similar incident which involved the same misspelling of his middle initial. It is to be noted that the pro-Nazi publication, Deutscher Weckruf und Beobachter and Free American, has been carrying advertisements and has encouraged its readers to enroll with the America First Committee, as have two other German language newspapers in Bismarck, North Dakota, and San Francisco, California. On May 3, 1941, [redacted] b7C b7D California, told of having received in an envelope of the German-American National Alliance of Chicago, an alleged German propaganda agency, a circular entitled "Peace for America" which contained an appeal for contributions for the America First Committee. This pamphlet quotes from Senator Wheeler's speech of March 3, 1941, as follows:

and from Senator Nye's speech to the Senate on March 4, 1941:

"The greatest aggressor in all modern history has been the British Empire...The Empire is the despotic, arbitrary and sometimes tyrannical rule over almost half a billion people... It is this Empire that is calling us in the name of democracy."

These two remarks are paralleled to similar language used by Hitler. This publication also points out that the German-American National Alliance of Chicago in its literature calls upon its members to work through the America First Committee. The charge is also made that John B. Snow of New York City, allegedly a former distributor of "The Protocols of the Elders of Zion" which set forth an elaborate Jewish formula for establishing Jewish world domination, has recently been distributing copies of the America First pamphlet entitled "Our Foreign Policy".

Information has been received regarding a printed report dated October 10, 1941, prepared by the American Legion on the "Subversive Activities in the America First Committee in California." This report was said to have been prepared in view of the striking similarity between the Nazi propaganda technique and the America First methods of operation, in California. The Legion pointed out that this matter was called to the attention of General R. E. Wood but that no action was taken on his part.

To establish its contention, the Legion report lists numerous "typical channels of subversive propaganda in California" which consist of certain German-American Bund groups and book stores located in the Los Angeles area, and points out how their propaganda compares with that of the America First Committee. It then names several individuals who have been publicly connected with various German propaganda movements and who have recently been associated with the America First Committee Activities. The Legion concludes that "there is every indication that they have joined the America First movement for the express purpose of presenting their subversive propaganda to those sincere isolationists who have been attracted to America First." [redacted], reported that the automobile of Dr. George Gyssling, the German Consul, was seen parked in front of the office of the America First Committee on the day that its offices were opened in Los Angeles on January 16, 1941.

With reference to the America First activities in Los Angeles, it was reported in February, 1941, that the Chairman of the Los Angeles branch was John L. Wheeler, son of Senator Wheeler. A confidential informant told of John Wheeler and his wife attending a party on February 4, 1941, at the home of Paul von Gontard, German espionage suspect, at which Mrs. Wheeler had allegedly remarked that "the only way we can be safe is to see the pins knocked out from under Britain." The informant pointed out that the Wheelers associated with several suspected espionage agents as a result of which Mrs. Wheeler had become inculcated with pro-German doctrines. Among those associates was one Hans Wolfram who was said to be connected with publicity activities in New York City and Washington, D. C., on behalf of the German Embassy. This informant further advised that Paul von Gontard at this gathering displayed a $2,000 cashier's check drawn on the St. Louis Trust Company, St. Louis, Missouri, which he turned over to John Wheeler as a contribution to the America First Committee. It is to be noted that Paul von Gontard is said to be a brother of Adelbert von Gontard, an official of the Anheuser-Busch Brewing Company in St. Louis, who is presently under investigation as a German espionage suspect. (S-1)(8)

(100-4712-X; ONI)

Information was also received from San Francisco which alleged that Dr. Hugh Parkinson, a member of the Board of Directors of the America First Committee in San Francisco, was said to frequently contact Fritz Weidemann, German Consul General. (66-2542-3-347-208) [redacted] San Francisco)

On May 6, 1941, a confidential source supplied a photostatic copy of a check drawn on the United States National Bank of Portland, Oregon, by the "German War Veterans, by [redacted] payable to the America First Committee. An informant pointed out that at a meeting of the America First Committee held in Philadelphia on May 29, 1941, there were several representatives of the German-American Central Bund of Pennsylvania on the speakers' stand inside the arena, among whom were Gustav F. Michel, President of the Philadelphia Section of that Bund, and Leopold Syre. Also in attendance was a member of the German Consulate in Philadelphia. (100-4712-A; dated 4/22/41) (100-47)

A confidential informant on May 26, 1941, advised that Mr. Fleischman, a member of the America First Committee, had addressed a meeting of the United German Societies held at the New York Turn Hall. (61-9579-268, From Phila Field, unknown)

On July 30, 1941, a confidential source made available a summary of information furnished by an informant who was said to be reliable. This informant alleged that the America First Committee had recently formed in New York City an "Investigation Unit", under the direction of one George Krangell. Krangell, who is alleged to be a White Russian and influential among the Russian emigres and French refugee groups, was said to be openly pro-German and pro-Nazi and has been connected with German Bund and German Government circles. This informant further stated that the Bundists are operating as volunteer workers in the dissemination of anti-interventionist literature published by the America First Committee. The "Investigation Unit" referred to above is said to be the creation of Mr. Brenson Batchelor, this informant also mentioned the fact that the America First Committee has been operating with certain Bund agents in a campaign of contacting the parents (S-X

It is to be noted that another informant advised that Baron von Wrangell had been sent by the America First Committee to debate before a Men's Christian Forum in Bronxville, New York, on the subject "What Is the Christian Attitude Toward America's Entry Into the War?" This informant stated that the forum group was highly incensed because of von Wrangell's position on the foreign issue. (61-10498-539; Letter from [redacted], Bronxville, New York) b7C

(S-1)(2) It is further to be noted that information was received on September 26, 1941, that J. Cay Jeeneman, an active organizer for the America First Committee in the New York area and a former officer and recognized leader of the German-American Bund, was said to be enrolling Bund members in the Committee. In this connection it was reported in May, 1941, that the naturalized and native American members of the German-American Bund were instructed by Kunze to join the America First Committee. (61-7474-49; G-2, 2nd Corps Area; 66-8603-1-34-53; Weekly Natl. Defense Confer. in NYC) (S-1)(2)

Communist

At the time of the Committee's founding, there was no indication of any Communist influence. Soon after the America First Committee was organized, members William J. Grace, Avery Brundage, and W. H. Regnery, severed their relations with the America First Committee allegedly because they disapproved of any connection whatsoever with any members of the Committee who might be designated as "pink" in their belief. John Spivak

alleged that Brundage and Regnery left because their well-known anti-Semitism would reflect unfavorably upon the Committee. It is to be noted that shortly thereafter, [redacted] left the America First Committee, publicly stating that [redacted] could no longer be disagreed with the Committee's approval of the administration's rearmament program. Another well-known liberal and member of the Civil Liberties Union, [redacted] was a member of the America First Committee. (New Masses 9/30/41; 100-4712-10, p.4, b7D

It is to be noted that in May, 1941, a confidential source advised that the Communists were said to consider the America First Committee a dangerous movement launched by "big-open-shop industrialists", and the Political Bureau of the Communist Party was said to have expressed the belief that should the United States enter the War, the Committee will definitely come out in support of it. The Communist present position with regard to the America First Committee is reflected by the "New Masses" recent expose of the Committee and the fact that a derogatory report has recently been circulated by the Communist Party. This latter report which was said to have been prepared by a district secretary of the Communist Party has come from sources in various sections of the country. It contains inconsistent information and appears to be unreliable.

Re: AMERICA FIRST COMMITTEE

Cases [redacted]

I have recently received confidential information indicating that members of the America First Committee entertain the hope that the Committee may again become a political force; that they are biding their time in contemplation of this eventuality, despite the fact that the organization ostensibly concluded its activities following the entrance of the United States into the war. It has been reported that the Committee has gone underground under the leadership of Charles A. Lindbergh. (100-4712-270, G-2; [redacted] (S-1)(4) 070

With regard to Lindbergh it is known at this time that on December 17, 1941, he addressed a dinner meeting of individuals, who had been associated with the America First Committee, assembled at the home of Edwin S. Webster, Jr., 35 Beekman Street, New York City. Webster was New York Secretary of the America First Committee.

On this occasion Lindbergh is reported to have stated that for years America has been speaking of the "Yellow Peril," yet we are now fighting on the side of the Russians and Chinese. He is stated to have appeared discouraged with the United States Government on account of the fact that, in his opinion, it has no plan nor does it know for what it is fighting. (100-5072?-19, technical surveillance)

With further regard to the remarks made by Lindbergh on December 17, 1941, information has been confidentially received that he stated there is only one danger in the world, namely, the yellow danger; that China and Japan in reality are allied against the white race; and that Germany itself could have been used as a weapon against this alliance. He is reported to have said that the ideal program would have included Germany's taking over Russia and Poland, in collaboration with the British, as a bloc against the yellow race and Bolshevism but that "the British and the fools in Washington had to interfere." Further, he is stated to have said that the British

Lindbergh is reported to have pointed out that the America First Committee cannot, of course, be active now but that it should be on the alert for the time when the American people, by reason of the lists of the missing and statements of war losses, realize that they have been betrayed by the British and the Administration. He is indicated to have stated that then the America First Committee can again become a political force; that it must remain quiet for a while and await the time for active functioning; and finally, that there may be a time soon when the Committee can advocate a negotiated peace. Further information has been received to the effect that a series of house parties is to keep alive contacts of the America First Committee. It is also reported that the backbone of the America First Committee, particularly in the East under the leadership of the followers of Reverend Charles Coughlin, is soon to come out with a new organization. [redacted]

In view of the foregoing information there is being attached hereto a memorandum setting forth the structure, activities and connections of the America First Committee as it was organized prior to its allegedly going out of existence following our entry into the war, in order that you may have the benefit of a composite picture of the organization. It is to be noted, however, as suggested in the memorandum itself, that the information in the possession of this Bureau concerning the Committee has not been the result of investigation initiated by the Bureau but has been either voluntarily submitted incident to other investigations or obtained from articles which have appeared in the press.

Memorandum for the Attorney General CONFIDENTIAL Page 1

Inasmuch as recent reports indicate that the America First Committee is being revived and may be contemplating activities detrimental to the war effort of the United States, an investigation will be conducted into the various ramifications and connections of the organization unless in your opinion reason obtains for not conducting such investigation.

Subject: America First, Incorporated

Summary of Information:

The following unsolicited report from a usually reliable source has been received in this office and is forwarded for the information of your office:

"1. An America First underground organization under the leadership of Charles A. Lindbergh is being formed. The first evidence of this is two secret meetings which were held at the homes of persons high in the America First organization. On December 17, 1941, more than fifty people were present at 10 Beekman Place, New York, home of an America First leader, reportedly that of Edwin S. Webster, Jr., former New York secretary of America First and a Wall Street banker of Kidder, Peabody and Company, to hear Charles A. Lindbergh counsel the continuation of an America First type of organization. The second meeting, held a few days before in an apartment on lower Park Avenue, was sponsored by a woman who was one of the New York heads of Women United, America First auxiliary. It is understood that these are the first of a series of house parties which will keep alive America First contacts.

"2. The meeting at the Beekman Place address was a dinner given for the members of the speakers' bureau of America First. Those present were the minor sub-leaders of the America First group, borough heads, district heads and leading speakers. Lindbergh was an 'unexpected treat' for the assemblage. Although he had not come prepared to speak, according to the host, Lindbergh, who now has applied for readmittance to the United States air force, stood up and spoke for an hour. It is reported the flyer made it clear that events in the Pacific had no

effect on his previous charge, that the Administration's policies had involved this country in a war. As far as the Pacific was concerned, Lindbergh said that Britain was responsible and that she should have joined with Germany in destroying the yellow danger and Bolshevism. If such a move had been made, it would have put America and Britain in a better position to fight Japan.

"3. Bryce Oliver, radio commentator for the Friends of Democracy, headed by Dr. L. M. Birkhead, speaking over the radio during the second week of January, without mentioning Lindbergh's name or the home in which the meeting took place, charged that a 'famous leader, who now seeks a place within the United States Army, had said: "America First should be on the alert to take advantage of the reactions which will come when the lists of missing and the dead and the wounded begin to appear, for it is then that the American people" -- of course, he meant the American people who can be swayed by the Fascist flag appeal -- "will be made to understand how they have been betrayed by the British and the Administration."'

"4. The second meeting, held at the lower Park Avenue address, discussed the formation of a new organization with a more open anti-Semitic program than the America First Committee utilized. Present at the meeting were the persons active in Women United, an America First auxiliary, and an editor of a small financial magazine who has spread the forged Protocols of Zion.

"5. The propaganda tactics of the former appeasement group is made clear by Father Coughlin and by Merwin K. Hart, in whose offices have been hatched many pro-Fascist groups. In a letter to the New York Times of January 6, 1942, Hart violently attacked the proposal of any union with the other democracies. This is in line with Coughlin's incitements against Britain and the statement that 'we must think first of our defense only.' The Coordinating Committee for Democratic Action was spurred after the fall of France by a group which met shortly after that date in the office of Hart. Present at the meeting were William R. Castle, Hoover's under-secretary of state, former Senator Rush Holt, Father Talbot, editor of America, and Charles Lindbergh."

MEMORANDUM FOR THE DIRECTOR

RE: AMERICA FIRST COMMITTEE, REPORTED SPEECH OF CHARLES A. LINDBERGH.

Reference is made to your notations concerning available information in the Bureau files relative to an article appearing in the Washington Merry-Go-Round and published January 28, 1942, in the New York Daily Mirror. It is recalled that this article relates of attendance by Charles A. Lindbergh at a meeting of one-time employees of America First held at a place formerly known as the German-American Rathskeller in New York. The article indicates that Lindbergh addressed this meeting on December 19 (1941), at which time he reiterated his charge that Britain was responsible for the war and counselled listeners to bide their time for future action. It is noted that an item also appearing in the column relates that intelligence officials have records of other secret America First gatherings in Chicago, St. Louis, and Los Angeles, at which plans were discussed for distributing "literature" to men in nearby military camps and for action in the coming Congressional elections.

The Bureau files appear to reflect no definite information at this time concerning a meeting of the America First Committee addressed by Lindbergh on December 19, 1941. It is known, however, that Charles A. Lindbergh was in New York City on December 17, 1941, at which time he addressed a dinner meeting of America Firsters assembled at the home of Edwin S. Webster, Jr., 35 Beekman Street, New York City. Webster was Secretary of the America First Committee, 515 Madison Avenue, New York City.

100-47[illegible]-2

It was developed through technical surveillance, in the course of investigating [redacted] and her family, that on the occasion of his remarks on December 17, 1941, Lindbergh spoke at length during the evening and suggested that members of the America First Committee get behind the war. He added, however, that for years America has been speaking of the "Yellow Peril" yet we are now fighting on the side of the Russians and Chinese. It was reported that Lindbergh appeared discouraged with the U.S. Government on account of the fact that in his opinion it has no plan nor does it know for what it is fighting. In the course of his remarks, Lindbergh is stated further to have urged the boxing up of the America First Committee. Although reported to be one of those who voted for the continuance of the Committee at its meeting in Chicago, he nevertheless urged that the Committe

disband because of the disunity within its ranks. It is noted in this connection that at the America First Committee meeting held at Chicago, Illinois, 77 voted for the continuance of the Committee and 44 for its abandonment. It was finally determined that the organization should disband because of so much disunity.

[redacted]

A communication has been received from G-2 with regard to this meeting on December 17, 1941, at the home of Edwin S. Webster. This communication sets forth the gist of Lindbergh's remarks, according to reports of two persons who were present, as follows: (S-1)(G)

"There is only one danger in the world - that is the yellow danger. China and Japan are really bound together against the white race. There could only have been one efficient weapon against this alliance, underneath the surface, Germany itself could have been this weapon. The ideal set-up would have been to have had Germany take over Poland and Russia, in collaboration with the British, as bloc against the yellow people and bolshevism. But instead, the British and the fools in Washington had to interfere. The British envied the Germans and wanted to rule the world forever. Britain is the real cause of all the trouble in the world today. (S-1)(G)

"Of course, America First cannot be active right now. But it should keep on the alert and when the large missing lists and losses are published the American people will realize how much they have been betrayed by the British and the Administration. Then America First can be a political force again. We must be quiet a while and await the time for active functioning. There may be a time soon when we can advocate a negotiated peace." (S-1)(G)

The information received from G-2 also includes a clipping from an unidentified newspaper setting forth remarks made by one Oliver who spoke over Station WEVD for Friends of Democracy. In the course of his remarks, Oliver is reported to have related that a "famous leader who now seeks a place within the Army of the United States" addressed a secret Fascist (S-1)(G)

CONFIDENTIAL

meeting in a Beekman Place apartment on December 19, (1941). It is noted, however that this unidentified newspaper article has this comment under Oliver's remarks: "Pearson and Allen gave the date of the meeting as December 17, but Oliver gave it as December 19". This latter statement is, of course, contrary to the article in question appearing in the New York Daily Mirror, relating that the meeting, according to Pearson and Allen, occurred on December 19. (S-1)(2)

It would appear that the Pearson and Allen column in the New York Daily Mirror relative to Lindbergh's remarks on December 19 is probably in error and that it in fact relates to the meeting addressed by Lindbergh on December 17 at the home of Edwin S. Webster, particularly in view of the fact that Lindbergh's remarks as set forth in the column closely parallel those reported by G-2 to have been made by him on December 17. It is to be noted further in this connection that Mrs. Catherine Larkin in attendance at the meeting, as indicated by the Pearson and Allen column, is stated to have been in attendance at the meeting addressed by Lindbergh on December 17, according to the G-2 report. (S-1)(2)

The Bureau files do not appear to contain any information identifying the [redacted] and [redacted] reported to have attended the meeting addressed by Lindbergh. b7C

The New York Office was contacted relative to the item appearing in the Washington Merry-Go-Round and instructed immediately to make available any information which it might have concerning the reported remarks made by Lindbergh on December 19, 1941, in addressing ex-employees of the America First Committee at a German Rathskeller in New York City. Subsequently, [redacted] of the New York Office advised that they had received no information whatever indicating that Lindbergh had addressed such a group on December 19th. b7C

The files of the Bureau do not appear to reflect any information concerning secret gatherings of the America First Committee to discuss the distribution of literature to men in the armed forces. The files do, however, reflect a report dated November 25, 1941, from G-2 informing that it was reliably reported to the Commanding Officer at Lowry Field, Denver, Colorado, that the America First Committee was distributing literature and buttons to soldiers of that command. Reference is made to the attached memorandum dated January 31, 1942, addressed to you by Mr. Marvin H. McIntyre with the attachments, two newspaper clippings. Also attached hereto is a letter of acknowledgment to Mr. McIntyre.

You will recall my memorandum to you of January 29, 1942, concerning the information which appears in the newspaper clipping captioned "America First." In my memorandum I advised you that the Bureau files appeared to reflect no definite information concerning a meeting of the America First Committee addressed by Lindbergh on December 19, 1941. It is known that Lindbergh had addressed a dinner meeting on December 17, 1941, of America Firsters at the home of Edwin S. Webster, Jr., 36 Beekman Street, New York City. I also advised that the Bureau files did not contain any information identifying the [redacted] and [redacted] who reportedly attended the meeting addressed by Lindbergh. b7c

Wheeler Plays Golf With Knox And Feud Ends

'Error' in Matching Pairs Political Foes, and They End Day on Cordial Terms

WASHINGTON, Jan. 27 (UP).—The battle of Burning Tree—in which a stout isolationist and a stout interventionist played eighteen holes of golf together—testified today to the changed atmosphere of the capital.

A non-politically minded golf steward was primarily responsible for what came close to being the greatest social error in capital history. He matched Secretary of the Navy Frank Knox and Senator Burton K. Wheeler, Democrat, of Montana, for eighteen holes at the Burning Tree course on Sunday.

Senator Wheeler, who led the isolationist battle against Knox confirmation to the Cabinet post, told the United Press he was "more surprised than I thought I could be" when he walked out to the first tee to greet his partners. He explained he had taken advantage of a system at the course whereby on Sunday golfers enter a tournament for a prize and are not given the names of their fellow players in advance.

"I walked out to the tee to join what was my foursome when somebody called my name," he said. The name caller, he explained, was Senator Millard E. Tydings, Democrat, of Maryland, who supported the Administration on most of its foreign policy issues but who voted against repeal of the neutrality act.

"Come here and meet your partners, Burton," Senator Tydings said. "You're playing with us today."

Senator Wheeler turned around to shake hands with Secretary Knox and Assistant Secretary of the Treasury John L. Sullivan.

Witnesses described the scene as "distinctly cool and said they had trembled in anticipation of the consequences. Only five months ago, Senator Wheeler toured the country

Senator Wheeler topped off his day by playing bridge at the [illegible] with Marvin H. [illegible] President Roosevelt's personal [illegible]

America First—

THE governing board of the America First Committee officially disbanded soon after Pearl Harbor, but that doesn't keep some New Yorkers of the organization from continuing operations.

Authorities have a report on a meeting last week in a place formerly known as the German-American Rathskeller; 66 attended among them a number of one-time employes of America First.

One was Marjorie Kennedy, who made the arrangements for the pow-wow. Another was Mrs. Catherine Larkin, militant Fighter, who was at the meeting of leaders addressed by Charles Lindbergh Dec. 19, long after Pearl Harbor and shortly before he offered his services to the Army.

At that session, Lindbergh reiterated his charge that Britain was responsible for the war and counselled listeners to bide their time for future action. Another present at last week's meeting was Mary Norton, active in an "Impeach Roosevelt" movement last year.

NOTE: Intelligence officials have records of other secret America First gatherings in Chicago, St. Louis and Los Angeles. At these, plans were discussed for distributing "literature" to men in nearby military camps and for action in the coming Congressional elections.

SPECIAL DELIVERY

Major General Edwin M. Watson
Secretary to the President
The White House
Washington, D. C.

Dear General Watson:

I have been confidentially advised that members of the America First Committee entertain the hope that the Committee may again become a political force; that they are biding their time in contemplation of this eventuality. While the organization ostensibly went out of existence following the entrance of the United States into the present war, I am informed that the Committee has in reality gone underground, under the leadership of Charles A. Lindbergh.

With regard to Lindbergh, it is confidentially reported that on December 17, 1941, he addressed a meeting of some fifty individuals who had been associated with the America First Committee, assembled at the home of Edwin S. Webster, Jr., 35 Beekman Place, New York City. Webster was New York Secretary of the Committee. On this occasion Lindbergh is reported to have said that for years America has been speaking of the "Yellow Peril," yet we are now fighting on the side of the Russians and Chinese. He is stated to have appeared discouraged with the United States Government because, in his opinion, it has no plan nor does it know for what it is fighting.

With further regard to his remarks of December 17, 1941, Lindbergh is reported to have stated that there is only one danger in the world, namely, the yellow danger; that China and Japan in reality are allied together against the white race;

and that Germany could have been used as a weapon against this alliance. Continuing, Lindbergh is reported as saying that the ideal program would have included Germany's taking over Russia and Poland in collaboration with the British as a bloc against the yellow race and Bolshevism; but that, as he stated, "the British and the Reds in Washington had to interfere." He is stated to have said that Britain envied the Germans and wanted to rule the world; that Britain is the real cause of all the trouble in the world today.

Pointing out that the America First Committee cannot of course be active at this time, Lindbergh is reported to have said that it should be on the alert for the time when the American People, by reason of the lists of the missing and statements of war losses, realize they have been betrayed by the British and the Administration. Further, he is indicated to have stated that then the America First Committee can again be a political force; that there may be a time soon when the Committee can advocate a negotiated peace.

In view of the foregoing information, I felt that the President and you would be interested in more detailed information concerning the America First Committee and am accordingly transmitting herewith a memorandum relating to the structure, activities, and connections of the America First Committee as it was organized prior to its allegedly going out of existence following our entry into the war.

With assurances of my highest regards,

Sincerely yours,

J. Edgar Hoover

Dear Sir:

Contained in the files of the Philadelphia Office is considerable information concerning the activities of the America First Committee in this district.

In view of the fact that since the United States has become involved in war, the America First Committee has publicly announced that their organization has been dissolved, this office is desirous to know whether or not the Bureau wishes the report submitted covering the information collected concerning this organization.

Until such time as this office is further advised by the Bureau, no further investigative action is being taken, and a report is not being submitted.

Very truly yours,

Dear Sir:

For the information of the Bureau and the New York Office, the following data, which were received in the San Antonio Field Division from Colonel A. W. ROFFE, A. C. of S. G-2, Fort Sam Houston, Texas, are being forwarded.

The information was forwarded by Colonel ROFFE in a summary of information dated at Fort Sam Houston, Texas, February 16, 1942, their file # (G-2) 080 (America First) and is as follows: (S-1)

"1. An America First underground organization under the leadership of CHARLES A. LINDBERGH is being formed. The first evidence of this is two secret meetings which were held at the homes of persons high in the America First organization. On December 17, 1941, more than fifty people were present at 10 Beekman Place, New York, home of an America First leader, reportedly that of EDWIN S. WEBSTER, Jr., former New York secretary of America First and a Wall Street banker of Kidder, Peabody and Company, to hear CHARLES A. LINDBERGH counsel the continuation of an America First type of organization. The second meeting, held a few days before in an apartment on lower Park Avenue, was sponsored by a woman who was one of the New York heads of Women United, America First auxiliary. It is understood that these are the first of a series of house parties which will keep alive America First contacts. (S) RECORDED

"2. The meeting at the Beekman Place address was a dinner given for the members of the speakers' bureau of America First. Those present were the minor sub-leaders on the America First group, borough heads, district heads and leading speakers. LINDBERGH was an 'unexpected treat' for the assemblage. Although he had not come prepared to speak, according to the host, LINDBERGH, who now has applied for readmittance to the United States air force, stood up and spoke for an hour. (S-1) (S)

"It is reported the flyer made it clear that events in the Pacific had no effect on his previous charge that the Administration's policies had involved this country in war. As far as the Pacific was concerned, LINDBERGH said that Britain was responsible and that she should have joined with Germany in destroying the yellow danger and Bolshevism. If such a move had been made, it would have put America and Britain in a better position to fight Japan. (S-1)(C)

"3. BRYCE OLIVER, radio commentator for the Friends of Democracy, headed by Dr. L. M. BIRKHEAD, speaking over the radio during the second week of January, without mentioning LINDBERGH's name or the home in which the meeting took place, charged that a 'famous leader, who now seeks a place 'within the United States Army, had said: "America First should be on the alert to take advantage of the reactions which will come when the lists of missing and the dead and the wounded begin to appear, for it is then that the American people" -- of course, he meant the American people who can be swayed by the Fascist flag appeal -- "will be made to understand how they have been betrayed by the British and the Administration."' (S-1)(C)

"4. The second meeting, held at the lower Park Avenue address, discussed the formation of a new organization with a more open anti-Semitic program than the America First Committee utilized. Present at the meeting were the persons active in Women United, an America First auxiliary, and an editor of a small financial magazine who has spread the forged Protocols of Zion. (S-1)(C)

"5. The propaganda tactics of the former appeasement group is made clear by FATHER COUGHLIN and by MERWIN K. HART, in whose offices have been hatched many pro-Fascist groups. In a letter to the New York Times of January 6, 1942, HART violently attacked the proposal of any union with the other democracies. This is in line with COUGHLIN's incitements against Britain and the statement that 'we must think first of our defense only.' The Coordinating Committee for Democratic Action was spurred after the fall of France by a group which met shortly after that date in the office of HART. Present at the meeting were WILLIAM R. CASTLE, HOOVER's under-secretary of state, former Senator RUSH HOLT, FATHER TALBOT, editor of America, and CHARLES LINDBERG." (S-1)(C)

Subject: America First, Incorporated

Summary of Information:

1. This organization is going to be kept intact and it is believed that the Ford interests in Detroit, Michigan, are going to finance it in a careful manner. The organization is not going to mix into the war very much but it will be kept intact for the purpose of carrying on the hate campaign against President Roosevelt.

2. It is reported that one of the officials high in the State Police circles of Michigan is working very closely with Gerald K. Smith, the rabble-rouser, anti-semitic and anti-war patriot. Smith has secretly been on the Ford payroll for at least three years. The Central Control Commission of the Communist Party believes that Gerald Smith has the complete mailing list of the America First Group.

3. It is known that Smith has been working very closely with Harry Jung, alias Harry Young, alias A. G. Knowles, alias Martin Brown who has offices at 2212 Tribune Tower, Chicago, Jung, who acted as liaison man between the Chicago Tribune and other groups in connection with the America First outfit, is in constant touch with Smith and with this captain of the State Troopers of Michigan. This works so that the Ford Company receives every bit of information and in turn finances groups that are part of the set-up of the campaign being carried on against President Roosevelt.

4. Clarence Budington Kelland, who was formerly publicity director for the America First Committee, is a member of the Republican National Committee from Arizona and now he has been made publicity director of the Republican National Committee and is supposed to give his services free of charge. Kelland is a writer but he has been one of the most bitter attackers against President Roosevelt in this country. It is understood that he has a rather close acquaintance with Gerald Smith and it is known that he has a rather close connection in Chicago with the Tribune outfit.

Dear Sir:

Incorporated below is a report this office received from G-2, Boston, Massachusetts: ~~(S)(C)~~ U

"From a reliable and confidential source, it has been reported that literature and request for contributions are being distributed under the title of 'GOB'. The letterhead lists the office as being at 150 Broadway, New York City. The Gifts Headquarters is Room 11-M, Plaza Hotel, New York City. Literature states that if we must have a war, we must win the war, and claims that the intent and purpose of the group is to boost the morale of our men. It is suggested that these gifts be not less than the amount of $500.00. ~~(S)(C)~~ U

Washington Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

(The authors of the column in this space below are given the widest latitude. Their viewpoints do not necessarily always reflect those of The Daily Mirror.)

WASHINGTON.—Mrs. Roosevelt's days as Assistant Civil Defense Director are numbered. She doesn't want to get out, believes she is making an important contribution to this vital war work. But others, some her best friends, don't, so plans are quietly on for her to depart.

Observers have felt that her presence at CD was not helping it or her. She works earnestly, and before the war, when CD was chiefly promotional, did real service.

But now CD is functional, and the public demands this crucial war work be directed by experts. Members of Congress have numerous letters complaining about Mrs. Roosevelt's continuance, urging she and other "amateurs" be replaced.

NOTE:—Since the first of the year, Mrs. Roosevelt has doubled her substantial contribution to the Red Cross.

Royal Neighbor

HANDSOME, young Archduke Otto of Austria created a flurry (especially among the ladies) in the House restaurant recently. He shook hands with Congressmen, among them John Sparkman of Alabama.

"I know about you, Congressman," said the refugee would-be ruler, "I noticed one neighbor in my apartment building had Congressional auto tags, and found it was you."

"Yes," said Sparkman, "we live on the same floor."

"I would feel honored if you would drop in some evening," said the Archduke.

"A pleasure," responded Sparkman. "In fact, we may be seeing a lot of each other. I'm an air raid warden in the building."

America First

THE governing board of the America First Committee officially disbanded soon after Pearl Harbor, but that doesn't keep some New Yorkers of the organization from continuing operations.

Authorities have a report on a meeting last week in a place formerly known as the German-American Rathskeller; 66 attended, among them a number of one-time employes of America First.

One was Marjorie Kennedy, [illegible] the post for. Another was Mrs. Catherine Larkin, militant Dixiecrat, who was at the meeting of leaders addressed by Charles Lindbergh, Dec. 19, long after Pearl Harbor and shortly before he offered his services to the Army.

At that session, Lindbergh reiterated his charge that Britain was responsible for the war and counselled listeners to bide their time for future action. Another present at last week's meeting was Mary Norton, active in an "impeach Roosevelt" movement last year.

NOTE: Intelligence officials have records of other secret America First gatherings in Chicago, St. Louis and Los Angeles. At these, plans were discussed for distributing "literature" to men in nearby military camps and for action in the coming Congressional elections.

Tin Cans

HOUSEWIVES have deluged Washington with inquiries about saving tin cans. The answer is yes and no.

Yes, because the government expects to reclaim the tin and steel in discarded containers. No, because the government is not yet ready for it.

Coming to Washington soon will be E. Baden Powell, co-inventor with Dr. W. C. Gregory of what is said to be a practical method for reclaiming all metal in the tin can. The inventors have a system to eliminate labels, laquers and impurities, to salvage tin and steel elements.

This is a difficult process because to get steel, more than 95 per cent of the tin must be removed; to save the tin, it has been necessary to sacrifice the steel.

Twelve strategically located recovery plants will be erected. Their location and amount of metal they will reclaim are secrets. But eventually, used tin cans will be in the war picture.

Summary of Information:

Cards were mailed to Private Leonard Darnell by Mrs. Elmer Rothgeb, 143 Clarencedale Avenue, Youngstown, Ohio.

It will be noted that Private Darnell stated to Duncan Field authorities that the cards were sent by the "America First Committee, absolutely unsolicited". However, later Darnell stated further that Mrs. Rothgeb is a next door neighbor of his family in Youngstown, with whom he is well acquainted.

It may very well be that this was an unsolicited token of consideration for men in the service from "home-town" friends and well-wishers. It may also be that the sender was entirely innocent of any questionable motive in sending the cards to the son of a neighbor but it is none-the-less a subtle, unsuspected, but effective means of locating and keeping track of individuals and organizations in the service for other purposes. Likewise, it could be a legitimate form of commercial racket which some ingenious concern discovered had an appeal to relatives and friends of men in the service, started before the United States got into the war, and continued thereafter for profit.

In this connection attention is invited to the attached copy of an extract recently appearing in the "Merry-Go-Round", syndicated column of Pearson and Allen.

STILL AMERICA FIRSTING

The government board of the America First Committee officially announced its disbandment several days after Pearl Harbor, but that isn't keeping certain New York warlocks of the organization from continuing their operations.

Intelligence authorities have a report on a meeting of this element last week in an establishment formerly known as the German-American Rathskeller. Sixty-six attended this affair, among them a number of one-time employees of the New York America First headquarters.

One of them was Marjorie Kennedy, who made the arrangements for the secret pow-wow in her name. Another was Mrs. Catherine Curtin, a militant America First stumper, who also was present at the meeting of America First leaders that was addressed by Charles Lindbergh December 19, 11 days after Pearl Harbor and shortly before he offered his services to the Army.

At that secret session, Lindbergh, reiterated his charge that Britain was responsible for the war and counseled his listeners to bide their time for future political action.

Two others present at last week's meeting were Mary Morton, who was active in an "impeach Roosevelt" movement last year.

NOTE -- Intelligence officials have records of other secret America First gatherings in Chicago, St. Louis and Los Angeles. At these meetings plans were discussed for distributing "literature" to the men in near-by military camps and also for taking part in the coming congressional elections.

The following is the substance of a conversation with [redacted], of the [redacted] who thought we should know of this:

Charles Lindbergh on the evening of January 17, 1942, in the home of a man by the name of [redacted] up in [redacted] County, where something like 35 people were present, made the statement to the America First crowd that we are underground now; this war hysteria will wear off and we will come back.

The story comes to me ([redacted]) from a person who wants to be nameless. He got the story from [redacted] You will recall [redacted] He is in the America First gang up to his ears.

MEMORANDUM FOR THE DIRECTOR

RE: AMERICA FIRST COMMITTEE

Reference is made to Mr. Tolson's memorandum dated February 26, 1942, setting forth the results of his conversation with [redacted] of the [redacted], regarding a report that Charles Lindbergh, on January 17, 1942, attended a meeting at the home of one [redacted] in [redacted] County, New York, at which approximately 35 people were present. Lindbergh allegedly made the statement to the America First crowd that "We are underground now; this war hysteria will wear off and we will come back." b7c b7D

You will recall in my memorandum of January 29, 1942, that information contained in a communication from G-2 reflected a meeting on December 17, 1941, at the home of Edwin S. Webster. This communication set forth the gist of Lindbergh's remarks according to the reports of two persons who were present. The portion considered pertinent at this time is as follows: (S-1)(C)

"There is only one danger in the world — that is the yellow danger. China and Japan are really bound together against the white race. There could only have been one efficient weapon against this alliance, underneath the surface, Germany itself could have been this weapon. The ideal set-up would have been to have had Germany take over Poland and Russia, in collaboration with the British, as a bloc against the yellow people and bolshevism. But instead, the British and the fools in Washington had to interfere. The British envied the Germans and wanted to rule the world forever. Britain is the real cause of all the trouble in the world today." (S-1)(C)

INDEXED RECORDED 100-4712-30

"Of course, America First cannot be active right now. But it should keep on the alert and when the large missing lists and losses are published the American people will realize how much they have been betrayed by the British and the Administration. Then America First can be a political force again. We must be quiet a while and await the time for active functioning. There may be a time soon when we can advocate a negotiated peace." (S-1)(C)

It will be noted that there is a striking similarity between the statements contained in the report of G-2 and those related by [redacted] to Mr. Tolson. The only discrepancy is in the months stated. There were approximately 50 people present at the above meeting, according to the G-2 report, and it appears illogical that Lindbergh would make practically the same statements at the same meeting place, before approximately the same number of people, on the same day of two separate months. Consequently, it is believed that in the transmission of this story from mouth to mouth, an error has occurred in the date of the meeting.

Respected Sir:

That now 'famous' editorial "Wake Up, America - It's Late!..." was given to me by a small businessman to read it and to give my opinion.

This little man thought it was the greatest editorial he ever read. He also told me that the editor promised to reprint it because of the acclaim of his readers.

After reading it this 'little man' asked for my opinion. And to his great supprise I told him that that editorial is a first rate A No. 1. fifth column stuff behind the so called 'free press' made in Germany being carried out by the America Firsters -- decendents of the Liberty Leagers, American types of Hitlerites.

These agents of Hitler first attempted to drive a wedge in between labor and capital in the Congress (Smith's defeated 40 hr. suspension Bill) so as to force labor to go on a general strike against the law, if past, which would mean work stoppege -- Hitler's heart desire.

These fifth columnists did not succeed in Congress; so they try it other ways; first in a nice and good loking American way -- through the 'free press'.

This editorial is a trial balloon. The unsuspected, innocent reader falls for it. Sends a letter of acclaim with his name and address which is being kept in record for future reference and for a treacherous and dirty use.

These are one of the many ways Hitlerites are organizing fifth column groups in every country.

They first create dissatisfaction, disunity and hostitities.

The rest is easy for them.

They are not much afraid, because traitors in this pious land are treated very leniently.

Can you imagine another country, big or small, where they would not put traitors against the wall in war-time?

Finally -- I am very sorry that I am sqeezed in a narrow air raid warden's 'office' when I could be of better use to my country elsewhere.

But -- this is America.

We all pay the price for it.

MEMORANDUM FOR THE DIRECTOR

RE: AMERICA FIRST COMMITTEE

On the basis of information which has been developed in the course of investigating [redacted] and her family of New York City, together with information supplied by O-2 and a Bureau informant, it would appear that members of the America First Committee entertain the hope that the Committee may again become a political force; that they are biding their time in contemplation of this eventuality, despite the fact that the organization ostensibly concluded its activities following the entrance of the United States into the war. The above-mentioned Bureau informant has reported that the Committee has now gone underground under the leadership of Charles A. Lindbergh. With regard to Lindbergh, you will recall my memorandum of January 29, 1942, setting forth the fact that it was developed through technical surveillance in the course of investigating [redacted] that Lindbergh spoke at length on December 17, 1941, at a dinner meeting of members of the America First Committee assembled at the home of Edwin S. Webster, Jr., 35 Beekman Street, New York City. Webster was New York Secretary of the Committee. It is recalled that Lindbergh stated that for years America has been speaking of the "Yellow Peril," yet we are now fighting on the side of the Russians and Chinese. It was reported that Lindbergh appeared discouraged with the United States Government on account of the fact that in his opinion it has no plan nor does it know for what it is fighting. Further information as supplied by this informant has been received to the effect that a series of house parties is to keep alive contacts of the America First Committee. It is also reported that the backbone of the Committee, particularly in the East, under the leadership of the followers of Reverend Charles Coughlin, is soon to come out with a new organization.

ACTION

Inasmuch as it appears that the America First Committee is being revived and may be contemplating activities detrimental to the war effort of the United States, a memorandum has been prepared relative to the structure, activities, and connections of the Committee as it was organized prior to its allegedly going out of existence following our entry into the war. A memorandum of transmittal of the above-mentioned memorandum has been prepared for the Attorney General, together with an appropriate letter of transmittal to the White House. The cover memorandum to the Attorney General and the letter to the White House contain the pertinent information relative to the recent reports concerning the revival of the America First Committee as an underground organization.

The activities of the America First Committee will be closely followed on the basis of reports concerning its revival as an underground organization. In this connection the Attorney General is being advised that an investigation will be conducted into the various ramifications and connections of the Committee, unless in his opinion reason obtains for not conducting such investigation.

Re: AMERICA FIRST COMMITTEE 10-16-90 SP8TS1 CoC

Dear Sir:

As has been reported LAURA B. INGALLS was convicted on February 13 as a foreign agent who failed to register under the requirements of the Foreign Agents Registration Act.

INGALLS, during the course of her activities for the German government, was very active for the America First Committee and spoke numerous times in New York State and throughout the Middle West and as far West as California. During the course of her speaking engagements for the America First Committee, she became well acquainted with their officials and obtained from them and from their research bureau a large quantity of America First literature and speakers' bulletins. This information, together with the names of numerous committee chairmen throughout the country and also a list of the speaking dates and the names of the speakers and where they spoke during the time the America First Committee was active, and also a considerable quantity of literature from other sources, which was distributed by the America First Committee, was found among her possessions obtained by search warrants during the course of the preparation of the INGALLS case for trial.

This information and evidence concerning the America First Committee are being maintained in the files of the Washington Field Office as exhibits in the INGALLS case, and it is not being reported except in so far as individuals, since they are believed to be proper subjects for investigation.

In the event of an investigation of the America First Committee activities, the above information would be of considerable value, and for that reason the Bureau is being advised of the existence of this evidence at this time.

To The Jewish People of America

FELLOW JEWS OF AMERICA!

JEWISH WORKERS, BUSINESS MEN, PROFESSIONALS AND INTELLECTUALS!

The fate of America, the fate of all the peoples of the world, as well as the fate of the Jewish people is being decided on the battlefields of the Soviet Union, in the struggle of the USSR and Britain against Hitler and Hitlerism.

Hitler—the most cruel enslaver of peoples, who has already placed his deadly yoke over the bleeding bodies of fourteen nations;

Hitler—the modern Haman who, in the process of conquest, has already annihilated thousands upon thousands of Jews in Germany, Austria, Czechoslovakia, Poland, Rumania, France, Lithuania and Latvia;

Hitler—who is out to conquer the world and who plans the extermination of the 17 million Jews of the world; HAS ATTACKED THE SOVIET UNION IN HIS MAD MARCH TO ENSLAVE THE UNIVERSE.

The Nazi forces have attacked the great and peace-loving Soviet Union, where all peoples, nationalities and races live in harmony and brotherhood and work together in kinship and fraternity; a country in which the harsh pages of Jewish history, recording pogroms and inquisitions and blood and tears, have given way to a new era of complete equality and freedom.

The Nazis have invaded the country in which six million of our brothers and sisters—for the first time in the persecution-ridden history of our people—lead dignified and secure lives.

THREAT TO AMERICA

The United States is a major objective of Hitler's drive for world domination. The security, freedom and independence of the American people is seriously threatened by the murderous arrogance of the Nazi war machine.

The entire world is concerned with the outcome of the historic battle against the Nazi hordes. The British people, the four hundred million Chinese people, all of the peoples enslaved by Hitler, and our great and freedom-loving American people, realize that should Hitler defeat his bitterest enemy, the Soviet Union, the entire world would be transformed into a Nazi hell.

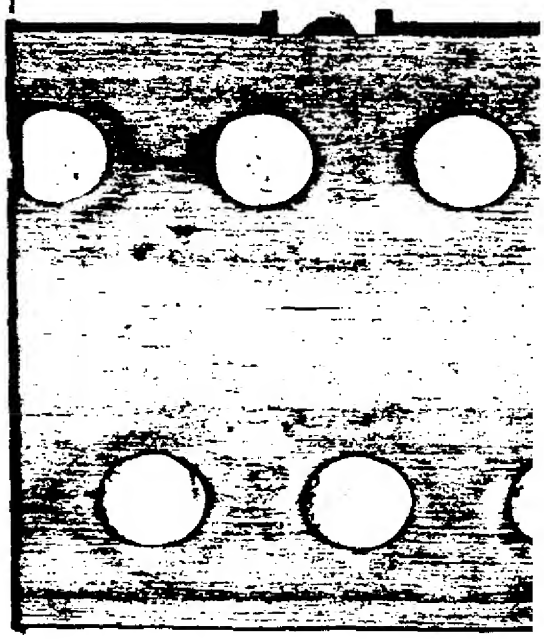
For the 17 million Jews in the world this would mean ghettos, yellow badges, segregation and discrimination. It would mean pogroms and the destruction of our people.

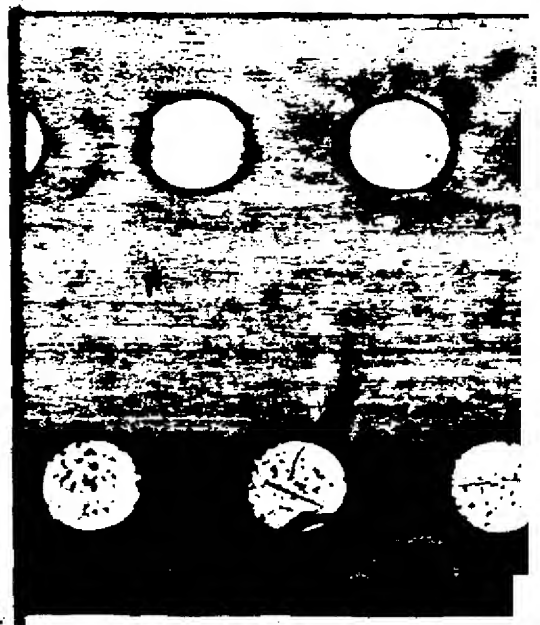
Hitler in Germany, Skoropadsky in the Ukraine, Petain in France, the Mosleys in England, the Coughlins, Pelleys and Lindberghs in America would organize fascist bands to terrorize the workers and the people in every country and lead the crusade to exterminate the Jews throughout the world.

To the great fortune of all of humanity and of the Jewish people, the Soviet Union and its fearless Red Army are united with Britain, in firm determination to put an end to Hitlerism. The permanent and total annihilation of Hitlerism will no doubt be the outcome of this great, historic battle.

To guarantee and hasten this outcome the entire world must come to the aid of Britain and the Soviet Union immediately. The American people, in keeping with the great tradition of liberty of our founding fathers, must render every possible moral and material aid. The trade union, *landsmanschaft*, and fraternal organizations, religious institutions and organizations, nationalist, Socialist, Communist, Republican, Democratic and Labor Party organizations must raise their voices in a demand for aid to the Soviet Union and Britain which will resound through the length and breadth of our country.

Through resolutions and public declarations we must oppose [illegible] which has prohibited aid [illegible]





Union and England and we must demand the most effective and most rapid aid.

UNITY FOR VICTORY

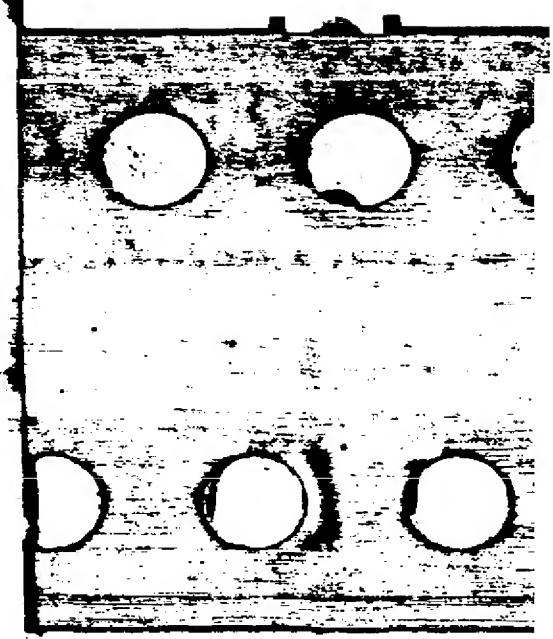
The freedom of the world is at stake. The security of America is at stake. We cannot delay or equivocate. And we cannot let the friends of Hitler dig a grave for the liberty of America. We must wage a ceaseless battle against the Lindberghs, Wheelers, Fords, Hoovers, Coughlins, Hearsts and Norman Thomases who want to help Hitler by sabotaging American aid to the enemies of Hitlerism.

The five million Jews in the United States have a sacred task. First, we must establish complete unity among ourselves, in our own ranks. We Jews of America, loyal and devoted citizens, must help all the forces in our government who stand for aid to England and the Soviet Union and the military defeat of Hitlerism.

Secondly, we must unite with the entire American people in a mighty movement which will wipe out Hitlerism.

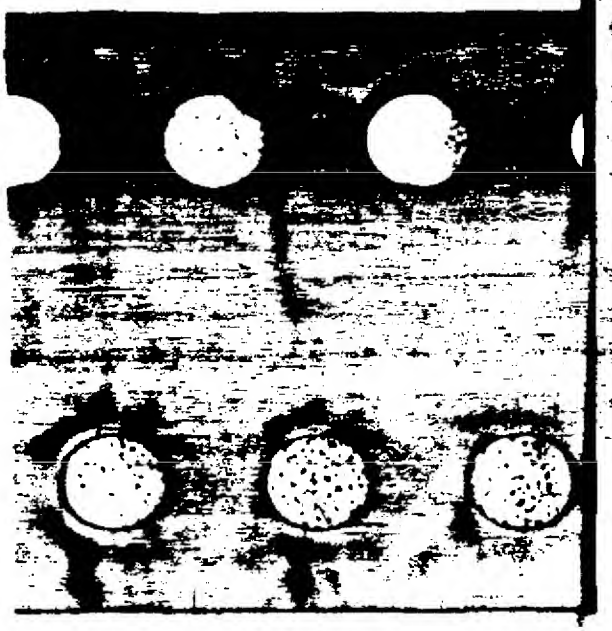
Political, religious and other differences must not be allowed to divide our ranks in this crucial hour.

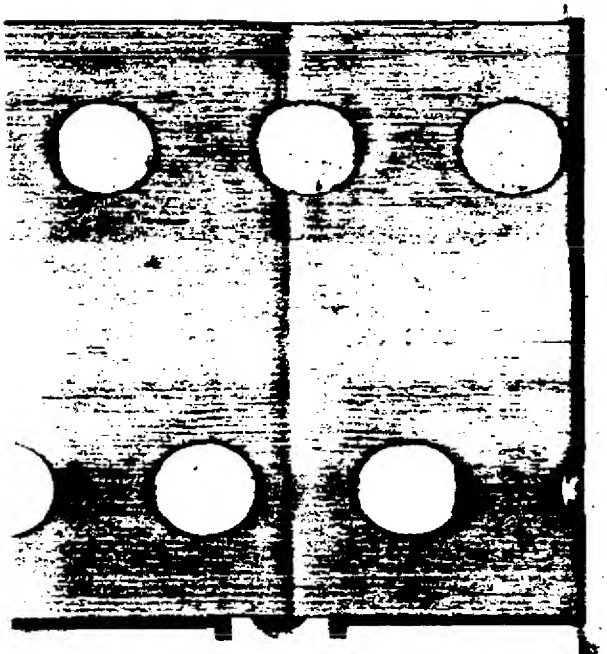
Hundreds of thousands of Jews in the Soviet Union and many of our relatives in the Red Army are giving their lives in the battle against fascism. Jacob Shmuskevitch, chief of the Red Air force, is one of the many Jews in the Soviet Union displaying the fighting courage of our people. The Jews in the Nazi-occupied countries are risking their lives, together with the Polish, Ukrainian, White Russian, Lithuanian and Rumanian workers and peasants in heroic guerilla warfare behind the Nazi lines. In the same spirit we here cannot sit back passively. The danger confronting us is too great. And the hope and promise before us is even greater. Hitler is engaged in battle with the mightiest and most determined foe of fascism—the Soviet Union. The Soviet peoples, the Red Army and the British people, with the aid of America, will dig the grave of Hitlerism.



OUR SACRED TASK

Every shop, every union, every fraternal, religious, political, social, youth and other organization should raise its voice through resolutions, or in any other form, demanding immediate effective aid to Britain and the Soviet Union. All Jewish organizations have a considered interest to unite in a common anti-Fascist front. The Jewish [illegible] immediately to this suggestion.





and religious schools, in the *landsmanschaften*, women's organizations, youth organizations and all organizations of the Jewish people.

Wherever we come in contact with Americans of other national groups, in the factories, trade unions and elsewhere, we must unite. We must lock hands with the Irish, Italian, Negro, Ukrainian, Russian, Polish and other American groups in the fight against fascism.

Let every organization and institution arrange meetings to demand aid to defeat Hitlerism.

In this struggle we need the greatest possible unity. Under no circumstances should we permit political differences of opinion to divide us. Every obstacle in the path of unity to defend America and defeat Hitlerism weakens our ranks and plays into the hands of Hitler.

Sisters and Brothers! Fellow Jews of America! The hour has struck! Hitler is engaged in his last battle. The Soviet Union, the Red Army, the British people, in collaboration with the U.S.A., the peoples of the world will defeat him. Hitler's end is in sight.

Forward to the sacred task of smashing Hitlerism, which will lead humanity out of the hell of wars, bloodshed, hunger, and oppression.

Forward to the struggle for a new, free, happy life for all the peoples of the world—the only guarantee of a free, peaceful, happy life for the Jews.

Forward to the struggle against our enemy—Hitler and Hitlerism.

Forward to unity in our own community and unity with the entire American people and victory will be ours.

"STRAIGHT TALK FOR DEFENSE"

[Reprinted from the DAILY WORKER, September 13, 1941]

PRESIDENT ROOSEVELT'S order to the Navy to clear all enemy ships from waters necessary to our defense, is plain common sense. It is the very least that could be done and actually much more is required in view of the great peril confronting our country.

The American people as a whole are firmly opposed to Hitler and they want to defend the United States. But many of them are confused by the traitorous action of the appeasers, Hitler's Fifth Column.

It has been a weakness of the administration that it has not sufficiently combatted this Fifth Column. It has not previously given the people a full realization of the danger facing us at this very moment.

* * * * *

However, the President's speech, as far as it goes, should help dispel any doubts as to the reality of the Nazi menace. When the President declared that "the Nazi danger to our Western World has long ceased to be a mere possibility; the danger is here now..." he was uttering a truth which should awaken and unite the entire country.

Never in all the world have there been more open acts of war than those which the Nazis have already committeed against American shipping and American lives. It is not a question of getting into the war—Hitler has already made war upon us. The question is whether we will defeat the enemy or whether we will be beaten without even defending ourselves.

The arrogant replies of Berlin and Rome within 24 hours, boasting of wholesale sinkings and threatening to shoot on sight, only constitute further evidence that the President acted none too soon.

It was significant that no sooner had the President warned of the Nazi "rattlesnake" menacing us from without, when right here at home a Copperhead, Charles Lindbergh, coiled and struck at our security from within.

* * * * *

It is time for the administration and all anti-fascist forces to realize that we are endangered by Nazi rattlesnakes and copperhead traitors both.

The moves outlined by Mr. Roosevelt to safeguard our shipping to the Allies, should be supplemented by further steps:

This is the time to send enormous quantities of war materials to the Eastern Front where they are being consumed at a terrific rate in the struggle against the common foe.

This is the time for closer collaboration between the United States, Britain and the Soviet Union.

This is the time to give aid to the people of conquered Europe, to withdraw our Ambassador from Vichy, to deal with Japan with a firm hand and no appeasement.

This is the time to open up an effective Western Front so that a crushing blow can be delivered to Hitler.

* * * * *

Such measures are absolutely essential to the continued existence of the United States as an independent nation. Labor and the people as a whole should rally behind such a program.

The United States is in the most extreme danger that it has faced since the battle of Gettysburg. We are being attacked; a gigantic power is making war upon us. It is trifling with the very life of the United States for our forces not to be fully used in the defense of the nation.

MEMORANDUM FOR THE ATTORNEY GENERAL

RE: AMERICA FIRST COMMITTEE

Multiple Sources 5/14/84, Multiple Sources

The Bureau's information on the America First Committee has not resulted from investigation initiated by this Bureau but has been either voluntarily submitted by outside sources, received as an incident to other investigation, or extracted from articles which have appeared in the press. Because of this limitation, a full and complete analysis of the organization cannot be presented.

Only a brief reference to the professed principles and objectives of the America First Committee will be made. The Committee declared that the most complete presentation of its views was set forth in a speech entitled "Our Foreign Policy" delivered by Acting Chairman General Robert E. Wood on October 4, 1940, before the Chicago Council on Foreign Relations. General Wood contended that the ideology of the totalitarian states, which it is alleged must be destroyed, cannot be destroyed by war; that our protection does not depend upon Britain; that if we are properly prepared internally we need have no fear of invasion even though Britain falls; and that a German-dominated Europe would not destroy our foreign trade nor would it be impossible for our presently existing economic order to compete with such a Europe. From this, it follows that intervention is not only unessential, but should be prevented at all costs in order to avoid the attendant financial loss and destruction of life.

The objective of the Committee then becomes one of bringing together all those who concur in the opinion that pressure should be brought from all directions against the United States' entry into the war. The Committee contends that the course presently being pursued by the Government will inevitably lead us into the war, and that this is being done without the masses' knowledge, 86 per cent of whom in October, 1940, were opposed to entry into the war. The Committee has announced through its representative that it favors the administration's rearmament program and supports the policy of giving Britain all possible aid as long as such aid does not tend in any way to directly involve the United States in the European conflict.

ORGANIZATION

Origin

The America First Committee was incorporated in the State of Illinois on September 19, 1940. Its national headquarters have always been located at 1506 Board of Trade Building, Chicago, Illinois. The publications of the Committee fail to disclose the individuals who conceived the idea of such a Committee and the precise reasons for its creation. The officers and directors at the time of its founding consisted of the following:

Officers

Acting Chairman	- General Robert E. Wood of Chicago, Illinois; graduate of West Point; present Chairman of the Board of Directors of Sears, Roebuck and Company.
National Director and Secretary	- R. Douglas Stuart, Jr.; son of R. Douglas Stuart of the Quaker Oats Company; senior in the Yale Law School prior to the time he became associated with the America First Committee.
Treasurer	- J. Sanford Otis; Vice President of the Central Republic Bank of Chicago.

Board of Directors

Hanford MacNider	- Mason City, Iowa; banker; former National Commander of the American Legion; former Assistant Secretary of War, 1925-1928.

SECRET

General Thomas Hammond – Harvey, Illinois; Retired United States Army Officer; President of the Whiting Corporation, crane and foundry equipment manufacturers; Chairman of the Republican Party in Illinois.

J. C. Hormel – Formerly associated with the Hormel meat packing company of Austin, Minnesota.

Clay Judson – Chicago, Illinois; attorney; Former President of the Chicago Council of Foreign Relations; Member of the Board of Trustees of United Charities, Chicago, Illinois.

A pamphlet issued by the Committee in October, 1940, lists members of the National Committee, among whom were the following:

General Robert E. Wood
J. Sanford Otis
Janet Ayer Fairbank
J. C. Hormel
Clay Judson
Captain Edward Rickenbacker
Lessing J. Rosenwald
Manford MacNider
R. Douglas Stuart, Jr.
Mrs. Bennett Champ Clark
Henry Ford
General Hugh S. Johnson
Alice Roosevelt Longworth
Mrs. Burton K. Wheeler
General Thomas Hammond

Dr. Anton Julius Carlson – University of Chicago Professor and member of the Civil Liberties Union; a national pacifist of alleged decidedly left wing sympathies.

William R. Castle – Former Assistant Secretary of State and Ambassador to Japan.

John T. Flynn – Author of "Country Squire in the White House."

Kathryn Lewis – Daughter of John L. Lewis

SECRET

SECRET

Thomas H. McCarter	- Former Attorney General of New Jersey and President of the Public Service Corporation of New Jersey; Director of the Chase National Bank and other financial companies.
Sterling Morton	- Morton Salt Company
William H. Regnery	- Chicago millionaire
Edward L. Ryerson, Jr.	- Chairman of the Board of Inland Steel.
Louis J. Taber	- Nationally known agriculturalist
Dr. George H. Whipple	- Noted pathologist

This informant also expressed the opinion that the Committee at the time of its founding was unquestionably patriotic. He stated that because of the liberalism expressed by some of the members, William J. Grace, Avery Brundage, and W. H. Regnery severed their connections with the Committee. [redacted]

[redacted] submitted a memorandum dated January 17, 1941, which alleged that in the summer of 1940, Senator and Mrs. Burton K. Wheeler and Dorothy Detzer, Director of the Women's International League for Peace

and associate of J. T. Flynn, publisher of "Uncensored", interested General Wood in the formation of such an organization. Also mentioned in connection with its founding was a so-called pacifist radical monthly called "Equality", in the September issue of which appeared Senator Wheeler's "Defend America First" article and John L. Lewis' article against conscription. This source reported that the Washington, D. C., group of the Committee was organized and directed by Dorothy Detzer and William R. Castle. It is to be noted that Dorothy Detzer is said to consider herself the "brains" of the America First Committee. [redacted] by L.M.C.Smith)

John L. Spivak in his series of articles entitled "America First' Exposed" which appeared in the September 30, October 7, and October 14, 1941, issues of "New Masses", declared that the idea for the formation of such a Committee was born in the mind of R. Douglas Stuart, Jr., who interested General R. E. Wood, William H. Regnery, "a Chicago multi-millionaire", and Clay Judson in such a movement. Spivak contended that Lindbergh was not named on the original Committee because of his reputation for being strongly pro-Nazi.

Membership and Promotion

According to Spivak, the scope of the Committee is nationwide and Robert L. Bliss, formerly Director of Organization in the National Office and now Director of the New York Chapter, stated that there are about 250 chapters of the America First Committee and 750 units throughout the country. When questioned as to the number of members, the Managing Director R. Douglas Stuart, Jr., estimated that there were about 5,000,000. This figure, however, was unsubstantiated by any fact, and was considered by Spivak to be greatly exaggerated. (New Masses, Oct. 7, p. 9)

In some states the activities have been sufficiently extensive to warrant state incorporation as was the case in California, New York, and Missouri. It appears that all units recognize the national headquarters and profess to follow the same principles and objectives, although the activities vary in different sections, depending upon the tendencies and influence of the sectional leaders. In view of the speeches and public addresses given by representatives of the Committee, it would appear that all sections of the

SECRET

309

SECRET

country have been influenced by the Committee and that efforts of the Committee have been concentrated in the population centers of the nation.

John L. Spivak contended that "The America First Committee, while trying to create the impression that it has a large mass following is run and chiefly financed by a small clique of 'smart money' boys." To substantiate this contention, Spivak refers to the number of wealthy individuals who are members of the National Committee and to other wealthy patrons among whom are Ernest T. Weir, Chairman of the National Steel Corporation; H. L. Stuart, President of Halsey, Stuart, and Company, Chicago; and Max W. Babb, President of Allis-Chalmers. (New Masses, 9/30)

With reference to the promotional activities of the Committee, it is to be noted that it contends that all work of the Committee is purely voluntary. This was said to be true of the speakers of the organization as well as the organizers. However, Spivak points out that many of the lecturers and speakers are paid for their services even though such speakers are members of the Committee. It has been reported that at the time Don Labbock organized a unit of the America First Committee in Oklahoma, he stated that he had formerly been an organizer for the American Peace Mobilization but had been induced to work for the America First Committee because it had greater funds with which to finance promotional work. Within the past two months, an informant has advised that the Committee has recently been compelled to terminate the services of some of its paid organizers through lack of funds and has been called upon to accept financial assistance from pro-Nazi sources. (Sent1, 100-4712; [redacted] Sent 2,3, New Masses; Sent 4, 61-10498-875, [redacted] Sent 5, G-2)

Funds

There has been no indication that the America First Committee has at any time submitted financial statements or given any other information concerning the extent of its resources. Spivak opens his series of articles with the statement that "the America First Committee has received a minimum of over $1,000,000 from unidentified sources for its propaganda work." Spivak explained that the Committee refused to make available any financial statistics other than the fact that the Chicago office alone,

SECRET

for instance, collected $231,000 during a ten-month period, and the New York Chapter, $112,000 in a six-month period. Using what he considered to be conservative estimates with regard to the other Chapters throughout the country, Spivak concluded that the America First Committee raised over $1,000,000 during the past year. The Chicago office reported that of the $231,000 collected during a ten-month period ending on June 1, 1941, $207,000 was spent of which $42,000 was allocated to pay roll for the Chicago office alone. (New Masses, Oct. 7)

After repeatedly refusing the New York Herald Tribune's request for a list of the names of the contributors to the America First Committee, General Wood finally made available a partial list. He explained that numerous contributors had preferred not to have their names mentioned. (New Masses, Oct. 7)

It does not appear how successful the Committee has been in raising funds by nationwide appeals either through circulars and publications of the Committee or through public addresses and radio. There is evidence that funds have been received from organizations with Nazi and Communist connections, specific instances of which will be set forth hereinafter.

ACTIVITIES AND CONNECTIONS

The following information will relate primarily to activities and connections of the Committee which have been subjected to adverse criticism by the press and radio, or which have been allegedly associated with foreign subversive elements. An attempt will be made to separate the information set forth into first: that pertaining to activities and connections relating to organizations, individuals, and movements which can be described as being internal in nature and not directly connected with any foreign source, and secondly: that dealing with activities and connections which are either connected with, or directly influenced by, groups or interests such as the Nazis, Communists, Fascists, and others which are associated with forces essentially foreign.

Internal

Anti-Administration Issue

The most highly publicized and perhaps most representative activities of the National Committee are carried out by the sponsorship of meetings and rallies at which designated representatives of the Committee set forth the official views of that body. Such public declarations of the Committee's policies and views of necessity have been carefully considered by the Committee and have, therefore, contained nothing pertinent to this memorandum. Attention, however, is called to the fact that there is a discernible trend toward a more radical expression of opinion on the part of official representatives of the Committee which has resulted in much adverse criticism. During the first eight months of the Committee's existence, the speakers have confined themselves chiefly to a criticism of the President's foreign policy with occasional charges that the Administration's foreign policy was pro-British, rather than pro-American. Pamphlets of the America First Committee raised the question "Are You Ready to Make the United States A Dictatorship?" and referred to the Lend-Lease Bill as a "war dictatorship bill."

During the past four months, however, prominent speakers of the Committee such as Colonel Charles A. Lindbergh, Senator Burton K. Wheeler of Montana, Senator Gerald P. Nye of North Dakota, and former Governor Philip F. La Follette of Wisconsin, have inserted statements in their speeches which have resulted in their having the label "subversive" attached to their declarations. In his Des Moines speech on September 16, 1941, Lindbergh openly declared that the United States was being drawn into the European conflict by "the British, the Jews, and the Roosevelt Administration", openly raising for the first time the anti-Semitic issue. This reference to the Jews resulted in criticism of the Committee from all sections of the country. The Chicago Daily News of September 23, 1941, quoted Senator Nye as saying that the "foreign-born magnates of the Jewish faith" were primarily responsible for "propaganda" in the films. In his Fort Wayne, Indiana, speech on October 2, 1941, Colonel Lindbergh declared that that speech might be his last. He also declared that the end of free election was in sight and stated, "We must face the fact that you and I and our generation have lost our American heritage." (100-4712-A, Extracts from news clipping)

This same charge - that the American people might expect to have the 1942 election suspended - was made by former Governor Philip F. La Follett on November 1, 1941, in a speech delivered in Washington, D. C. In this speech, La Follette was said to have openly called for an insurrection by

SECRET

"fearless red-blooded Americans to overthrow the 'War Party' government ....." and to have stated that "....if the administration using a 'rubber stamp Congress' tries to postpone elections, we, the real 'American Party', will call upon all real Americans to fight for their freedom right here as their forefathers fought in the revolution." (100-4712-189, [redacted] b7C b7

It is to be noted that the Washington Times Herald of July 14, 1941, reported that the America First Committee had adopted a resolution recommending the removal of Secretary of the Navy Frank Knox for allegedly advocating that the United States Navy intervene in the war at that time. (100-4712-A, 7/14/41)

Reference is made to an article appearing in the Pasadena Independence (California) of June 16, 1941, covering an America First rally in that city. Charles Cobb, Acting Chairman of the group, declared in his address that he did not believe a British victory possible or desirable, and outlined his belief in the theory that the world is destined to be controlled by the new world forces, consisting of the three great centers of power - Europe, Asia, and the Americas. He also made reference to former Ambassador Dudley's declaration that at no time had Hitler's statements indicated an intention inimical to the United States. He described Czechoslovakia as a dagger pointed at the heart of Germany. The above remarks suggest a Nazi propaganda source. Another speaker at this same meeting, Dr. Michael Francis Dillon, objected to the use of the United States troops in breaking the strike at the North American Aircraft Corporation at Inglewood, California, and the proposed use of concentration camps for handling conscientious objectors. The Federal Bureau of Investigation was paralleled to the Gestapo, and the Dies Committee was described as a tool of the FBI. (100-4712-76)

In connection with this phase of the Committee's activities, reference is made to the alleged use of the franking privilege by Senators Wheeler and Nye. Spivak particularly stressed this matter and the "New Masses" carried photographs of a franked envelope of Senator Nye, which envelope set forth that the enclosed letter contained an "extension of remarks by Hon. Gerald P. Nye" concerning the "Radio address delivered by Theodore F. Haffmann, National Chairman, Steuben Society of America." Also shown was an envelope with Senator Wheeler's frank pertaining to material of the same nature which he had read into the Congressional Record.

(Sept. 21st issue of the New Masses)
(New Masses, Oct. 7)

SECRET

SECRET

Reference is also made to an article in the Washington Times Herald of September 26, 1941, which tells of franked mail being subpoenaed from the offices of the America First Washington headquarters. This mail, which bore the franks of seven non-interventionist Congressmen, was said to have been moved from the offices of Prescott Bennett, Secretary of the Ohio Europe Pay Committee, to the America First headquarters just prior to seizure. (100-4712-A)

Interference With Armed Forces

During the past four months, several different sources have submitted information charging the America First Committee with the sponsorship of a campaign directed toward creating disharmony within the ranks of the army forces. The Military Intelligence Division on July 6, 1941, reported that the America First Committee within the Ninth Corps Area District of the Army appeared to be falling under the control of the radical elements who were conducting anti-war propaganda campaigns near army posts in that area. The Office of Naval Intelligence reported on April 23, 1941, that a member of the crew of the U.S.S. KIMB, a United States Destroyer, had been active aboard ship in inducing twelve enlisted men to join the America First Committee. (61-7559-11760)

(5-1)(8)

On July 15, 1941, an informant advised the Bureau that the Chicago, Illinois, section of the Committee was said to be circularizing the parents, relatives, and wives of the men in the armed forces with a view toward enlisting their support in the movement. Another source reported that in Westchester County, New York, near Fort Slocum, the America First Committee had distributed folding post cards which were sent to parents and relatives of the enlisted men, one side of which could be detached and mailed to the soldiers. These post cards made an emotional appeal, stressing the hardship and loss of life attendant upon our entry into this war. (5-1)(8)
(100-7660-178, Sept. 1941, G-2, report of the 2nd Corps Area)

On July 23, 1941, an enlistee told of a clerk in the America First Committee office in New Rochelle, New York, expressing the opinion in that office that she sympathized with members of the service who deserted and encouraged the spreading of America First propaganda among the armed forces. (100-4712-107, G-2) (5-1)(8)

SECRET

On September 26, 1941, the Military Intelligence Division told of an America First Committee employee, named J. Guy Jeansman, distributing anti-war propaganda among soldiers in the New York area around Fort Dix. Jeansman was said to be a former officer of the German-American Bund. (5-1)(4)

Anti-Semitic Connections

While the anti-Semitic issue did not break out openly until Lindbergh's Des Moines address in September, there is considerable indication that certain individuals connected with the Committee and certain so-called American Fascist groups which supported the Committee were using the Committee as an instrument for advancing their anti-Jewish theories. John Spivak charged that the following individuals, interested in the Committee at the time of its founding, are all anti-Semitic - Henry Ford, Sterling Morton, William Castle, and Avery Brundage. He contended that the America First Director of Organization admitted that Brundage was dropped from the Committee because of his anti-Semitic reputation. He pointed out that Morton was known to have financed Jung's American Vigilant Intelligence Federation which distributed the "Protocols of the Elders of Zion." He also called attention to a letter written by William Castle in which he expressed his dislike of the Jews. (New Masses, 9/30; PM 5/16/41)

Spivak also charged that the Committee has several anti-Semites on its lecture staff. He called particular attention to the fact that Reverend Edward Lodge Curran, who is described as Father Coughlin's chief apostle in the East and who has been said to have worked with such groups as the German-American Bund, German-American Business League, the American Nationalists, and the Citizens' Protective League, gave the invocation at the Brooklyn America First rally on May 14, 1941. Spivak also alleged that on December 9, 1940, Mrs. Barbara McDonald, head of the Speaker's Bureau of the Committee's National office, wrote to Edward James Smythe, of the Protestant War Veterans, thanking him for agreeing to speak at the Philadelphia America First meeting on December 16th. Smythe was described as a vicious anti-Semite who has openly boasted of arranging a joint meeting with the Ku Klux Klan and the German-American Bund at Camp Nordland.

(New Masses, Oct. 7, 1941, issue, p. 6)

SECRET

"The Hour", an alleged confidential newsletter sponsored by the American Council Against Nazi Propaganda, Incorporated, and supported by the Anti-Defamation League has devoted a great deal of space in an effort to establish the connection between the America First Committee and anti-Semitic forces in the country. In the April 26, 1941, issue, "The Hour" calls attention to the number of outstanding leaders of alleged subversive groups who attended the America First rally held at Manhattan Center on April 23, 1941. The following were named: (100-4481-6; [redacted]

"August Klapprott, Bund leader now out on bail after conviction in New Jersey on charges of incitement to hate; Gustav Kimer, treasurer of the Bund; Lawrence Dennis, well-known fascist 'theoretician', author of 'The Coming American Fascism'; George A. SECRET

Because of Colonel Charles A. Lindbergh's activities on behalf of the America First Committee and his alleged interest in "Scribner's Commentator", it is significant that Spivak stated that at the time he interviewed John T. Flynn, the New York America First Chapter's Chairman, Flynn mistakenly stated that he thought Charles S. Tayson, a publisher of "Scribner's Commentator" was a member of the Directing Board of the America First Committee. "Scribner's Commentator" has been described as the mouthpiece of Colonel Lindbergh and as being notoriously anti-Semitic. (New Masses, 9/30)

Information has been received associating the notorious American Fascist, Merwin K. Hart, with the America First Committee. On May 22, 1941, a confidential informant advised that [redacted] This informant told of [redacted] (65-1461-72; [redacted] b7D

It is to be noted that the September 30, 1941, issue of the "New Masses" contains a photograph of a letter from R. Douglas Stuart, Jr., on of America First letterhead stationery to Merwin K. Hart, President of the New York Economic Council, in which Stuart wrote that while he did not wish to openly associate his organization with that of Hart, he did think "it is imperative that we work together on these things." Stuart added, "I will let you know the name of the man who will be Chairman of our New York Chapter within a few days. I hope you will be able to work with him." Spivak pointed out that Hart is considered a prominent pro-Fascist who cooperated with Franco agents during the Spanish Civil War.

FOREIGN INFLUENCE

It is to be noted that the America First Committee has stated in its sponsored literature and statements for the press that it refuses to accept in its membership any persons connected with any foreign subversive groups such as the Nazis, Fascists, or Communists. However, many sources

have submitted information bearing upon the alleged connection between the Committee and various foreign subversive elements. No contention has been made to the knowledge of the Bureau that this Committee was connected in any way with any foreign elements at the time of its founding. ([redacted]) b7C b7D

On September 11, 1941, [redacted] was questioned concerning German propaganda activities in this country. [redacted] stated that he believed the leading propaganda organization was the America First Committee which worked in direct accord with the German ideas. He stated that this Committee was at that time the only effective propaganda agency in the United States and advised that the chief problem of the German Government was to keep the Committee advised of all available propoganda. How this was accomplished he did not state. [redacted] also explained that the German-American Board of Trade has succeeded the German Library of Information as the official German propaganda instrumentality. It is to be noted that it was reported on March 3, 1941, that a lecturer for the America First Committee named Harry Elmer Barnes, one of the editorial sponsors of "Uncensored", was said to have written to [redacted] urging him to publish the German White Book's attack on former Ambassador, William Bullitt. (65-6225-306, [redacted] 61-7632-415, interview with SA [redacted] and [redacted] of NY Field Division; 100-4712-17X, [redacted]

On June 16, 1941, a confidential informant advised the Bureau that [redacted]

(100-4712-71X, [redacted])

The July monthly report of the Second Corps Area of the Military Intelligence Division alleged that the mailing list of the German Library

of information had been turned over to the America First Committee. The New York Herald Tribune of July 26, 1941, carried an article which related that Morton Dillaway, a writer residing at Reading, Massachusetts, had made public two envelopes received by him which bore identical misspellings of his name and the same post office box numbers. One contained propaganda received from the America First Committee while the other, which had been received some months previous, contained literature from the German Library of Information. When questioned concerning this coincidence, a spokesman for the America First Committee declared that the misspelled name had been sent to the Committee by a private individual in February and that it would require an extensive search through the Committee's files to determine the name of this individual. A resident of [redacted] called the Bureau's attention on November 11, 1941, to a similar incident which involved the same misspelling of his middle initial. (61-7557-242; 100-4712-A, July 26, 1941; 100-52308-1, [redacted])

It is to be noted that the pro-Nazi publication, Deutscher Weckruf und Beobachter and Free American, has been carrying advertisements and has encouraged its readers to enroll with the America First Committee, as have two other German language newspapers in Bismarck, North Dakota, and San Francisco, California. On May 3, 1941, [redacted] California, told of having received in an envelope of the German-American National Alliance of Chicago, an alleged German propaganda agency, a circular entitled "Peace for America" which contained an appeal for contributions for the America First Committee. (61-6566-2621, [redacted] 102-2-27-1)

The Bureau's attention has recently been called to a pamphlet entitled "The America First Committee - The Nazi Transmission Belt" which has been published by the Friends of Democracy, Incorporated, whose National Director, L. M. Birkhead, is said to be sponsoring this organization for the purpose of counteracting anti-Semitic propaganda. (100-12412-A)

This pamphlet quotes from Senator Wheeler's speech of March 3, 1941, as follows:

> "Now we find these same international bankers with their friends the royal refugees and with the Sassoons of the Orient and with the Rothschilds and Warburgs of Europe in another theme song...'Our investments in India, Africa, and Europe must be preserved. Save democracy!'"

and from Senator Nye's speech to the Senate on March 4, 1941:

> "The greatest aggressor in all modern history has been the British Empire...The Empire is the despotic, arbitrary and sometimes tyrannical rule over almost half a billion people...It is this Empire that is calling us in the name of democracy."

These two remarks are paralleled to similar language used by Hitler. This publication also points out that the German-American National Alliance of Chicago in its literature calls upon its members to work through the America First Committee. The charge is also made that John B. Snow of New York City, allegedly a former distributor of "The Protocols of the Elders of Zion" which set forth an elaborate Jewish formula for establishing Jewish world domination, has recently been distributing copies of the America First pamphlet entitled "Our Foreign Policy". [redacted] b7D

(100-4712-153)

The Bureau has recently received a printed report dated October 10, 1941, prepared by the American Legion on the "Subversive Activities in the America First Committee in California." This report was said to have been prepared in view of the striking similarity between the Nazi propaganda technique and the America First methods of operation in California. The Legion pointed out that this matter was called to the attention of General R. E. Wood but that no action was taken on his part.

To establish its contention, the Legion report lists numerous "typical channels of subversive propaganda in California" which consist of certain German-American Bund groups and book stores located in the Los Angeles area, and points out how their propaganda compares with that of the America First Committee. It then names several individuals who have been publicly connected with various German propaganda movements and who have recently been associated with the America First Committee activities. The Legion concludes that "there is every indication that they have joined the America First movement for the express purpose of presenting their subversive propaganda to those sincere isolationists who have been attracted to America First." (Attached to cover letter from L.M.C.Smith, dated November 22, 1941)

[redacted], reported that the automobile of Dr. George Gyssling, the German Consul, was seen parked in front of the office of the America First Committee on the day that its offices were opened in Los Angeles on January 16, 1941.

With reference to the America First activities in Los Angeles, it was reported in February, 1941, that the Chairman of the Los Angeles branch was John L. Wheeler, son of Senator Wheeler. A confidential informant told of John Wheeler and his wife attending a party on February 4, 1941, at the home of Paul von Gontard, [redacted], at which Mrs. Wheeler had allegedly remarked that "the only way we can be safe is to see the pins knocked out from under Britain." The informant pointed out that the Wheelers associated with several suspected espionage agents as a result of which Mrs. Wheeler had become inculcated with pro-German doctrines. Among those associates was one Hans Wolfram who was said to be connected with publicity activities in New York City and Washington, D. C., on behalf of the German Embassy. This informant further advised that Paul von Gontard at this gathering displayed a $2,000 cashier's check drawn on the St. Louis Trust Company, St. Louis, Missouri, which he turned over to John Wheeler as a contribution to the America First Committee. It is to be noted that Paul von Gontard is said to be a brother of Adelbert von Gontard, an official of the Anheuser-Busch Brewing Company in St. Louis, [redacted] (S-1)(8)

(100-4712-X; ONI)

Information was also received from San Francisco which alleged that Dr. Hugh Parkinson, a member of the Board of Directors of the America First Committee in San Francisco, was said to frequently contact Fritz Weidemann, German Consul General. (66-2542-3-347-208) [redacted] San Francisco)

On May 6, 1941, a confidential source supplied a photostatic copy of a check drawn on the United States National Bank of Portland, Oregon, by the "German War Veterans, by [redacted] payable to the America First Committee. [redacted] was reported to be a German-American Bund member. (100-36444-1) (S-1)(8)

The Philadelphia Ledger of April 22, 1941, carried an article reporting that Mrs. Edith Scott of Philadelphia declared that the National

Legion of Mothers and Women of America, an affiliate of the American First Committee, had under consideration inviting women associated with the Kyffhauser Bund into its membership. An informant pointed out that at a meeting of the American First Committee held in Philadelphia on May 29, 1941, there were several representatives of the German-American Central Bund of Pennsylvania on the speakers' stand inside the arena, among them were Gustav F. Kleinl, President of the Philadelphia Section of that Bund, and Leopold Eyre. Also in attendance was a member of the German Consulate in Philadelphia. (100-4712-A; dated 4/22/41) (100-47)

A confidential informant on May 26, 1941, advised that Mr. Fleischman, a member of the American First Committee, had addressed a meeting of the United German Societies held at the New York Turn Hall. (61-9879-268, From Phila Field, unknown)

(65-8857-181)

On July 30, 1941, a confidential source made available a summary of information furnished by an informant who was said to be reliable. This informant alleged that the America First Committee had recently formed in New York City an "Investigation Unit", under the direction of one George Wrangell. Wrangell, who is alleged to be a White Russian and influential among the Russian emigres and French refugee groups, was said to be openly pro-German and pro-Nazi and has been connected with German Bund and German Government circles. This informant further stated that the Bundists are operating as volunteer workers in the dissemination of anti-interventionist literature published by the America First Committee. The "Investigation Unit" referred to above is said to be the creation of Mr. Bronson Batchelor. This informant also mentioned the fact that the America First Committee has been operating with certain Bund agents in a campaign of contacting the parents

(5-1(E)) It is to be noted that another informant advised that Baron von Brangell had been sent by the America First Committee to debate before a Men's Christian Forum in Bronxville, New York, on the subject "What Is the Christian Attitude Toward America's Entry Into the War" This informant stated that the forum group was highly incensed because of von Brangell's position on the foreign issue. (5-1(E)) Reference is also made to a report from the Military Intelligence Division dated September 26, 1941, which alleged that J. Guy Zeenman, an active organizer for the America First Committee in the New York area and a former officer and recognized leader of the German-American Bund, was said to be enrolling Bund members in the Committee. In this connection, it is to be noted that the Office of Naval Intelligence in May, 1941, reported that the naturalized and native American members of the German-American Bund were instructed by Bunde to join the America First Committee. (61-7474-49; G-2, 2nd Corps Area; 66-3403-1-34-53; Weekly Natl. Defense Conference in NYC)

Communist

At the time of the Committee's founding, there was no indication of any Communist influence. Soon after the America First Committee was organized, members William J. Grace, Avery Brundage, and E. E. Hagerty, severed their relations with the America First Committee allegedly because they disapproved of any connection whatsoever with any members of the Committee who might be designated as "pink" in their belief. John Spivak (100-4712-10, p. 2

alleged that Brundage and Hagerty left because their anti-Semitism would reflect unfavorably upon the Committee. It is to be noted that shortly thereafter, Oswald Garrison Villard, former editor of the "Nation", left the America First Committee, publicly stating that he did so because he disagreed with the Committee's approval of the administration's rearmament program. Another well-known liberal and member of the Civil Liberties Union, Dr. Anton Julius Carlson was a member of the America First Committee. (New Haven 9/29/41; 100-4712-10, p. 4)

It is to be noted that in May the Military Intelligence Division reported the Communists were said to consider the America First Committee a dangerous movement launched by "big-open-shop industrialists", and the Political Bureau of the Communist Party was said to have expressed the belief that should the United States enter the war, the Committee will definitely come out in support of it. Gentlemen:

I do not care so much right now about "Saving Our American System" for use later on. That will return in due time. We must save Americ and our own hides right now. The "American Syste is gone for good and all time if we are enslaved the self-proclaimed "superior" blonde and brown Nazi and Jap, and "profits as usual" must await the chance of our final victory. Hence, the American Federation of Investors does not appeal to me. It should be suppressed for the duration. Capitalist and all labor freedoms and liberties must be subordinated now and for some time to come to insure more urgent and continuing war production and ultim victory. We must fight the devil with fire and hi own tools of war to win.

THE AMERICA FIRSTER

(Dedicated to those it hits)

I was an America Firster until the questionable cult disbanded,
I was sired by both Wheeler and Lindbergh, born in unholy wedlock,
And damned by every sensible and patriotic American.
I waved the flag and preached isolationism with a world in flames,
I cursed the President and praised the Jap as our best customer,
I slurred the English, and urged a negotiated peace with Hitler,
I proclaimed the World War to be but a foreign conflict,
And contended America could isolate itself from all mankind.
I was not always exactly as dumb as I looked,
There were times when I doubted our ostrich demagogues and stooges,
And even thought the organization smelled somewhat of the fifth column;
Yet I carried on with the rest of the debaters,
Indulging in cheap talk and adolescent argument,
Advertising national unpreparedness, under the guise of free speech,
Retarding our nation's defense and encouraging our enemies,
Until the Axis pulled the oft-threatened string,
Whereby the treacherous Jap murdered American boys,
And our Country was attacked, unprepared, but no longer isolated.
I often wonder why I did these things when I knew better,
Why I told Hitler that our boys were on the way to Iceland,
Why I called our President a war-monger and scoffed at invasion,
Mouthing platitudes about "war hysteria" and "minding our own business",
And did all the dirty and contemptible things born of cheap politics.
I cannot blame others for questioning my patriotism and loyalty,
The dividing line between ignorance and disloyalty is often dim,
I know that my record and the history of our times is against me.
My hands are not very clean, and I don't feel so talkative today.
But I thank God that at long last I am just an American,
That I want to be only an American, first, last and all the time,
And one who wishes to atone for his dumbness and his unenviable record,
By serving humanity in an inhuman world of hate and treachery,
And by trusting God hereafter, instead of fools.

FIFTH COLUMN ACTIVITIES IN USA

The America First Committee has been able to jump the hurdles relative to the internal differences in connection with the attack made on the Jews. A large number of new recruits to the National Committee have been secured and now we find that a great many other groups are doing everything they possibly can to foster the America First and make it a success. Among these groups are: Christian Front, Christian Mobilizers, American Destiny Party, Paul Revere's Sentinels, A.V.I.F., German-American Bund, Women Determined, National Workers League--Detroit, Ku Klux Klan, Committee of One Million, G. Allison Phelps Group--Los Angeles, Pelley's Silver Shirts, and many other smaller groups.

AMERICA FIRST COMMITTEE -- CHICAGO

Up until now this committee has repeatedly refused to divulge any information about its source of funds or size of contributions.

Now a new angle has come up that forces the organization to open its books.

It seems that recently there was a Congressional election in the first Wisconsin district, where the Wisconsin branch of America First opposed Mr. Amlie for election.

State Attorney-General John E. Martin of Wisconsin has announced his intention to order the chapter to file an official report on its expenditures in the contest.

In this particular district, the American first organization backed Lawrence H. Smith, who was successful and the Wisconsin law requires all organizations participating in political campaign to file a detailed expense account. So far the Committee has refused, but time will tell in regards to this matter.

Dangers Without and Within

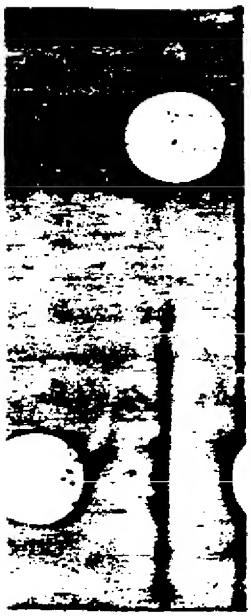
WE GIVE wholehearted support to our country in this war against the aggressor nations, and in defense of our own free institutions founded on liberty, equality, and justice, so dear to every American heart.

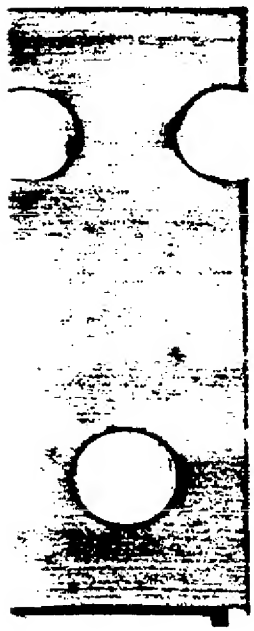
TO MAKE VICTORY more certain we submit willingly, for the duration of this war, to delegated authority arbitrarily administered, and give up, without complaint, rights and liberties that in times of peace distinguish free government from dictatorship.

BUT WAR, even when most justified for national defense and for the protection of our homes and our free institutions, brings with it conditions that we all regret. Among the most objectionable of these, even if unavoidable, is the very pronounced trend towards dictatorship and the break-down of free representative government.

THERE ARE other regrettable conditions that follow in war's trail which can be remedied only by good citizens uniting to overcome them. Among these is the reckless waste of the people's money in unnecessary, non-defense expenditures. Greedy political jobholders are opposing every effort to curtail such extravagance. A highly respected college president, who recently demanded of Congress a saving in non-defense expenditures of two billion dollars, has been denounced by a socialistic government jobholder as "A ring-leader in this economy drive."

EVEN IN defense expenditures we see revealed the sordid greed of "war contract brokers," tolerated and sometimes abetted by officials high in authority, under the pretense of promoting our country's welfare. Honest, tax-paying citizens, who are sacrificing at home and giving their sons to die for our country, should, in righteous





take over the telephone and telegraph systems during the war, which passed both Houses of Congress, that if our telephone and telegraph systems are taken over by the government under the provisions of this act they may never be returned to private ownership and operation.

WE MUST WIN this war at whatever cost. But what will it profit us if while winning it we lose those elements of our own American System which have contributed most to the freedom, prosperity, and happiness of our people from the founding of our nation down to the present time? If we permit free private enterprise to be swallowed up by government ownership and political management, free representative government will be lost.

THIS "Battle on the Home Front" can be won only by the cooperation of millions of right-thinking, tax-paying citizens. We must awaken all thoughtful Americans to the serious dangers mentioned above. Nor can we ignore the impending threat of inflation which would wreck our entire financial system, destroy the purchasing power of the dollar, and bring ruin to millions of American homes.

EVERY PERSON who has savings of any kind, including life insurance, investments, or other property, can well afford to contribute to the organized efforts of our Federation one dollar, five dollars, or possibly ten dollars or more, for his own protection and to help save private ownership of industry and property from threatened socialization.

LET US ACT NOW with earnestness and enthusiasm in combating conditions that are detrimental to our country and to the winning of this war, and be prepared when this terrible world conflict is over to demand the re-establishment of our American System as the only adequate recompense for our sacrifices and the staggering costs of victory.

wrath, demand the complete suppression of such scandalous thievery.

ONE OF THE most dangerous and far-reaching conditions now developing is the stifling of individual freedom of action, and government control of all private industry. Thrifty, substantial citizens, engaged in small business and manufacturing enterprises, are even now finding it difficult to survive. This trend is definitely in the direction of National Socialism, the very system which Hitler declares he is fighting to establish throughout the world.

THIS SITUATION is fraught with grave danger because so many public officials, in positions of influence and authority, would make the socialization of private industry permanent. Whatever may be their motives, their efforts promote the extension and centralization of governmental authority, and the complete domination and ultimate destruction of all private enterprise and private ownership of industry and property.

LOOKING INTO the future, we feel confident that our country will emerge victorious from this great world conflict, but with private enterprise and all our free institutions completely subservient to administrative authority, established under war conditions. Such authority once granted is not readily given up. Those who have enjoyed such powers will fight to retain them. The vast throng of political jobholders and bureaucrats will cling to their jobs, supported by their political sponsors.

THIS SERIOUS THREAT to our American System is recognized by many industrial executives and prominent statesmen. Mr. Alfred P. Sloan, in an address delivered in Boston in January, declared that the problems of the post-war period will be even more difficult than those of winning the war, and that the longer the war lasts the more difficult will be the problem of getting back to our American system of free private enterprise.

SENATOR ROBERT A. TAFT predicted, during the debate in the United States Senate on the bill authorizing the President to

Re: AMERICA FIRST COMMITTEE
INTERNAL SECURITY - G

Dear Sir:

Reference is made to Bureau letter of March 16, 1942.

A review of the files of the Savannah Field Division indicate that the America First Committee has not been active in the Savannah territory.

As a result, this case is being referred upon completion at this time to the office of origin at Chicago. The Agents of this division have been instructed to be on the alert to obtain information concerning the America First Committee along the lines of Bureau letter of March 16, 1942.

Very truly yours,

J. R. RUGGLES
Special Agent in Charge

AMERICA FIRST INC. AFFAIRS

To say that the international affairs of this organization were in a turmoil would be putting it mildly.

In The Chicago area the "Fight for Freedom Committee" has set up a pretty fine organization to fight America First. On one side we find Colonel McCormick of the Chicago Tribune, Harry Jung, and the Dilling woman, and on the other side is Professor Albert Parry. The point is that the America First Committee is endeavoring to smear the Fight for Freedom group as being Communist. This has caused the America First group to search everywhere for any sort of evidence that they can find to belittle Parry and his cohorts.

In the New York area the situation is terrible simply because Lindbergh, and Senator Nye, have started their open attack on the Jews. All of the Jewish money that was forthcoming to the America First has practically stopped and the suspicion is that about the only funds they are getting in from some big source possibly comes from Colonel Pew, the executive head of the Sun Oil Company.

It is understood that John T. Flynn, the New York leader among the Catholics and the America First, has served an ultimatum on the New York committee that if Lindbergh does not resign he will then resign the New York chapter chairmanship. Norman Thomas is reported to have given the National Committee two weeks for Lindbergh to resign or he will stop his talking

tour for the committee. Every Jewish group in New York from the very lowest has received instructions to "crack down" on America First, and this is going to cause a repercussion that may do more harm to the Lindbergh crowd than anything that has come up of late.

Dorothy Dunbar Bromley, the noted liberal writer, has resigned from the committee and now it appears as though Kathryn Lewis and Mrs. Burton K. Wheeler are really the whips of the organization. Flynn flew to Chicago and had a "rough-house show-down" with the National Committee last week, but as yet the committee has not changed its attitude in connection with Lindbergh.

Dear Sir:

Reference is made to Bureau letter to all Special Agents in Charge dated March 16, 1942 in the above entitled matter.

Information has been received from an unknown outside source that the former America First Committee in the eastern part of the United States allegedly under the leadership of followers of Father Charles E. Coughlin is soon to form a new organization. This organization reportedly will receive the approval of John L. Lewis. The comment is made that Lewis, head of the United Mine Workers—C.I.O. for the past few weeks, has been receiving praise from the followers of Father Coughlin.

It is alleged that reports out of the C.I.O. headquarters in Washington, D. C., indicate that the America First Committee has divided the United States into districts; revised all of its mailing lists, and has made arrangements with other groups who can be classified tentatively as pro-Nazi for an exchange of mailing lists. This arrangement is stated to now be in effect and the mailing lists are being carefully handled so that the matter will not be brought to the attention of the authorities and a subsequent investigation initiated.

New York, Dec. 30, 1941

We are more convinced than ever that the America First group in the east under the leadership of the Coughlin followers are soon to come out with a new outfit, and when they do they are going to receive the blessings of John L. Lewis on the quiet. Lewis had been receiving praise from the Coughlin following for the past five weeks, and this praise is being used in almost every section of the country. According to reports out of the CIO at Washington the group has carefully set up the country into districts; they have revised all of the mailing lists, and in addition they have made arrangements with other groups who can be classified as pro-Nazi for an exchange of a mailing list. This arrangement is now in effect, and many of these Pro-Nazi groups such as were contained in the letter we recently sent in are circularizing so-called patriots with the sale of literature, etc. These lists are not being carelessly handed because of the fear that some may demand it a government investigation of their activities, but out of Chicago we learned that America First and their co-called supporting groups now have a secret mailing list of eight million four hundred and seventy-six thousand names of people in this country. A vast number of this list, of course, are on the west coast, and lately a great many of the foreign speaking groups have been circularized and there is no doubt but what certain sections of names from the major list has been used in sending out this mail.

The America First underground organization, under the leadership of Charles A. Lindbergh, is being formed. First evidence of this is two secret meetings at t homes of persons high in the America First organization.

In the middle of last month, on December 17th, more than 50 persons were pre at 10 Beekman Place, home of an America First leader, reportedly that of Edwin A. Webster, Jr., former New York secretary of America First and Wall Street banker of Kidder, Peabody and Company, to hear Charles A. Lindbergh counsel the continuation an America First type of organization. Another meeting, held a few days before in an apartment on lower Park Avenue, was sponsored by a woman who was one of the New heads of Women United, America First auxiliary. It is understood that these are t first of a series of house parties which will keep alive America First contacts.

The meeting at the Beekman Place address was a dinner given for the members the speakers' bureau of America First. Those present were the minor sub-leaders o the America First group, borough heads, district heads and leading speakers. Lindb was an "unexpected treat" for the assemblage. Although he had not come prepared t speak, according to the host, the ex-Colonel, who now has applied for readmittance into the U. S. air force, stood up and spoke for an hour. According to informatio received, the flyer made it clear that events in the Pacific had no effect on his previous charge that the Administration's policies had involved this country in a w As far as the Pacific was concerned, Lindbergh said that Britain was responsible, a that she should have joined with Germany in destroying the yellow danger and bolshevism. If such a move had been made, it would have put America and Britain i a better position to fight Japan.

Bruce Oliver, radio commentator for the Friends of Democracy, headed by Dr. L. M. Birkhead, speaking over the radio during the week that just passed, without mentioning Lindbergh's name or the home in which the meeting took place, charged that a "famous leader who now seeks a place within the U. S. Army, had said: 'America First should be on the alert to take advantage of the reactions which will come when the lists of missing and the dead and the wounded begin to appear, for it is then that the American people' -- of course he meant the American people who can be swayed by the fascist flag appeal -- 'will be made to understand how they have been betrayed by the British and the Administration'."

The meeting, held at the lower Park Avenue address, discussed the formation of a new organization with a more open anti-Semitic program than the America First Committee utilized. Present at the meeting were persons active in Women United, an America First auxiliary, and an editor of a small financial magazine who has spread the forged Protocols of Zion.

The propaganda tactics of the former appeasement group is made clear by Father Coughlin, and also by Merwin K. Hart, in whose offices have been hatched many pro-fascist groups. In a letter to the New York Times of January 6, Hart violently attacks the proposal of any union with the other democracies. This is in line with Coughlin's incitements against Britain, and the statement that we must think first of our defense only.

The Coordinating Committee for Democratic Action has revealed that appeasement propaganda in this country was spurred after the fall of France by a group which met shortly after that date in the office of Hart. Present at the meeting were William R. Castle, Hoover's under-secretary of state, former Senator Rush Holt, Father Talbot, editor of [redacted] and Charles Lindbergh. Today, Hart sounds the new "new" line.

Dear Sir:

Reference is made to Bureau letter dated March 16, 1942, addressed to all Special Agents in Charge concerning the present activities of the American First Committee. On page 3 of this letter, it is noted that the Bureau has suggested that confidential informants be used wherever possible, and that possibly individuals who were formerly active in this Committee may be utilized in such capacity.

In this connection, Special Agent [redacted] now assigned to this office, has advised me as follows:

During the spring of 1941, Special Agent [redacted] and Special Agent [redacted] both of whom were then assigned to the Newark Field Division, were engaged in investigation in a case involving [redacted]. These individuals were names [redacted] and [redacted]-INTERNAL SECURITY - G. During this investigation, Special Agents [redacted] and [redacted] contacted [redacted]

He became, so he said, a great admirer of the Bureau during the course of this investigation and related to Special Agents [redacted] and [redacted] that he was very active during May of 1941 in the affairs of the American First Committee in the vicinity of New York City. [redacted]

He stated that he was somewhat of an isolationist, and a great admirer of CHARLES A. LINDBERGH, but that above everything else, he was a loyal citizen of the United States and would do anything in his power to

In view of the above statements by [redacted] b7D it is suggested that the Bureau may desire to review the file of this matter and advise the New York Field Division of this informant's identity in order that he may be considered for a possible source of information in the present inquiry being undertaken concerning the America First Committee.

Dear Sir:

For the immediate investigative attention of all offices, there are attached hereto copies of a summary memorandum prepared by the Bureau, dated February 13, 1942, regarding the America First Committee.

In addition to the information set forth therein, reports have recently been received indicating that members of the America First Committee entertain the hope that the Committee may again become a political force; that they are biding their time in contemplation of this eventuality, despite the fact that the organization ostensibly concluded its activities following the entrance of the United States into the war. It has been reported that the Committee has gone underground under the leadership of Charles A. Lindbergh.

With regard to Lindbergh, information was received from the Military Intelligence Division, Washington, D. C., that on December 17, 1941, he addressed a dinner meeting of individuals who had been associated with the America First Committee, assembled at the home of Edwin S. Webster, Jr., 35 Beekman Street, New York City. Webster was the New York Secretary of the America First Committee.

On this occasion Lindbergh is reported to have stated that for years America has been speaking of the "Yellow Peril," yet we are now fighting on the side of the Russians and Chinese. He is stated to have appeared discouraged with the United States Government on account of the fact that, in his opinion, it has no plan nor does it

know for what it is fighting. (S-1)(C) CONFIDENTIAL

With further regard to the remarks made by Lindbergh on December 17, 1941, it was stated that he remarked there is only one danger in the world, namely, the yellow danger; that China and Japan in reality are allied against the white race; and that Germany itself could have been used as a weapon against this alliance. He is reported to have said that the ideal program would have included Germany's taking over Russia and Poland, in collaboration with the British, as a bloc against the yellow race and Bolshevism but that "the British and the fools in Washington had to interfere." Further, he is stated to have said that the British envied the Germans and wanted to rule the world; that Britain is the real cause of all the trouble in the world today. (C)(S-1)(C)

Lindbergh is reported to have pointed out that the America First Committee cannot, of course, be active now but that it should be on the alert for the time when the American people, by reason of the lists of the missing and statements of war losses, realize that they have been betrayed by the British and the Administration. He is indicated to have stated that then the America First Committee can again become a political force; that it must remain quiet for a while and await the time soon when the Committee can advocate a negotiated peace. (C)(S-1)(C)

[redacted] b2D

Further, it has been reported that a series of house parties are to keep alive contacts of the America First Committee and that the backbone of the Committee, particularly in the East under the leadership of the followers of Reverend Charles E. Coughlin, is soon to come out with a new organization.

Numerous other reports from unverified sources have indicated that the America First Committee, at least in some sections of the country, intends to continue operation or maintain such contact that will permit its open activities at some time in the future. The known national leaders of the America First Committee have officially announced the disbanding of the organization, and it is evident that certain groups and individuals who apparently intend to continue the activities of the America First Committee are doing so without the knowledge or consent of the former national organization. These individuals are apparently taking advantage of the organization already established to retain a nuclei which may later possibly be used in a way detrimental to the present war effort. It is this particular situation that should be the subject of investigation in each field office district.

CONFIDENTIAL

Definite efforts should be made to determine whether the America First Committee is possibly being kept alive and in operation by individuals and groups who may plan at some time in the future using the organization in a manner detrimental to the internal security of this country. The investigation along these lines should be immediately initiated following a review of the files in your office for background information, and should be made in a discreet manner so as to cause no undue publicity.

CONFIDENTIAL

It is suggested that confidential informants be used where possible and in some instances the cooperation of sincere isolationists, who formerly were active in this Committee and who now realize the necessity for an all out national defense, may possibly be utilized. Approaches to persons who were formerly connected with the America First Committee should be very discreet and should only be made after it has reasonably been ascertained that they are not a part of the underground organization now functioning. To follow any other line of procedure would be fatal to an effective investigation along the lines set out hereinbefore.

The primary purpose of the inquiries at this time is to ascertain whether the structure set up by the America First Committee is now being used by foreign interests, or by individuals cooperating with foreign interests, in such a manner as to interfere with the national defense effort.

As the Bureau comes into the possession of information of interest to the individual field offices, it will be transmitted to the interested office for attention.

It is my desire that this case be placed in a preferential investigative status, in view of the fact that the Attorney General has approved this inquiry and will be interested in any pertinent information along the lines suggested.

The Chicago Field Division is to be considered the office of origin in all reports, in view of the fact that the national headquarters of the America First Committee before disbanding was located in that city.

The Bureau should be kept advised of any significant developments indicating that the America First Committee is operating as an underground organization inimical to this country.

Very truly yours,

J. Edgar Hoover

As the Bureau comes into the possession of information of interest to the individual field offices, it will be transmitted to the interested office for attention.

It is my desire that this case be placed in a preferential investigative status, in view of the fact that the Attorney General has approved this inquiry and will be interested in any pertinent information along the lines suggested.

The Chicago Field Division is to be considered the office of origin in all reports, in view of the fact that the national headquarters of the America First Committee before disbanding was located in that city.

The Bureau should be kept advised of any significant developments indicating that the America First Committee is operating as an underground organization inimical to this country.

Very truly yours,

J. Edgar Hoover

b7C Special Agent [redacted] found in his personally-owned automobile on 10/31/41 a piece of literature entitled "People of America", which is quoted as follows:

"Today we stand at a momentous cross-road of world history. As the armies of the Nazi gansters sweep nearer and nearer to America, the necessity for united and tremendous effort becomes clearer. Yet, at this very time, a small group of native fascists have launched a campaign to divide and confuse the American people. Their purpose is obvious--they want Hitler to win. But their methods are subtle. They cry peace but they want war--against the American people instead of Hitler. Their game is to persuade Americans to aid Hitler, by allowing him to cut off his enemies one by one.

"John L. Spivak, America's ace reporter and investigator of subversive activities, has written a startling expose of these fascist sympathizers. They hide behind the patriotic slogan of 'America First,' but their activities are directed against America and toward making Germany first!

"The evidence shows that 'America First' is controlled by seven wealthy industrialists and financiers who are known to be pro-Fascist and anti-Labor. The atmosphere of the national office is one of secrecy and conspiratorial plotting. The organization works with notorious fascists like Merwin K. Hart and Harry Jung. They have collected over $1,000,000 and refuse to deny that a large part of it has come thru Nazi channels. Notorious anti-Semites are its official

[redacted] speakers; Henry Ford's private office files and catalogues Lindbergh's mail [redacted] keeps lists of prospects.' The owners of Scribner's Commentator, their [redacted] magazine, are pro-Fascists whose dealings with Nazi emissaries have [redacted] exposed.

"This is 'America First.' Nazis and anti-Semites run it, subsidize it, speak for it, write for it. Gauleiter Lindbergh of the Nazi medal is its official spokesman. Senators Wheeler, Clark, and Nye are its Washington agents. And YOU AMERICANS are expected to be their dupes—tools of this Nazi gang!"

"READ THE 'NEW MASSES' FOR THE COMPLETE EXPOSE INCLUDING PHOTOSTATS OF THE DOCUMENTS!"

"WIRE YOUR CONGRESSMAN TO INVESTIGATE THIS FASCIST OUTFIT!" "OUST THE APPEASERS FROM OFFICE TO DEFEAT HITLER AT HOME AND ABROAD!"

"READ THE DAILY AND SUNDAY WORKER FOR TRUE AND ACCURATE REPORTING!"

It is pointed out that while the America First Committee dissolved, another organization, whose name used to be Citizens Keep America Out of War Committee and that later changed the name to Citizens Committee, will continue to work.

Quoting from a resolution by this committee, the writer states that we should no longer share our resources with other countries but see to it that we get the use of our resources first. At the same time he suggests that not only the soldiers and their mothers, but everyone in the nation should make sacrifices. He warns against war profiteering and states that the new taxes which are higher than ever before may help to prevent war profiteering.

The writer of this article finally points out that the Americans must admit, as much as they hate Nazism, that they have imitated many of the Nazi methods and ideas, one of them being--no profit for the individual out of war; no blood money.

It is pointed out that the Philadelphia Herold is a paper which is printed in the German language [redacted]

Subject: America First Committee Activities

Summary of Information:

Information has been received from a confidential reliable source as follows:

Under date of September 22d, 1941, a telephone operator, had placed through several long distance telephone calls of the America First Committee to other cities at the time of the Lindbergh speech in Oklahoma City. She became acquainted with a man whose last name is Foulis (first name unknown) and who is one of the field representatives of the America First Committee. She stated that several of the telephone calls of Foulis to other Committee members were unintelligible which led her to believe that they were in code.

Before Lindbergh was to make his speech in Oklahoma City, Foulis turned over to the telephone operator his locked brief case which seemed to be crammed full of material, to keep for him as he thought that the FBI was on his trail. Other persons telephoned by Foulis included Richard Jeffrey and Joe Palmer Etheridge, both of whose addresses are unknown.

The Tulsa Police Department furnished a report dated October 28, 1941, advising that there was practically no activity in that area on the part of this Committee at that time. It was stated that the Chairman of this Committee, a Mack Shrodes, Tulsa, is violently anti-New Deal and it was felt that Shrodes would not do anything against this country.

Mrs. Eugenie Howard is Secretary of the Tulsa Organization and her sister, Mrs. Ella Cessel is Treasurer. Both are natives of the state of Nebraska and have resided in Tulsa for many years. It is believed that they are pacifists and are not un-American.

America Firster Fans Blaze Of Ersatz Anti-Labor Fire

Mack Schrodes, Lindbergh Admirer Last August, Staged Meeting in Tulsa to Frame Protest Against Overtime Pay

By L. F. Stro[illegible]
PM Staff Reporter

WASHINGTON, Mar. 24.—At least one America First leader is playing a part in the ersatz "prairie fire" rolling up against labor from the Southwest.

He is Mack Schrodes, of Tulsa, Okla.

Schrodes helped organize the anti-labor mass meeting held in Tulsa last Wednesday.

Last August he tried to get Lindbergh to speak in Tulsa instead of Oklahoma City.

Schrodes was then chairman of the Tulsa chapter of the America First Committee.

The link between the two movements, discovered by this correspondent in a check over the few Oklahoma papers available at the Library of Congress, tends to confirm a suspicion widely held in official and labor circles here and one which will be investigated by the Truman Committee.

This suspicion has been voiced twice in the last few days.

William Green, AFL president, asked the Military Affairs Subcommittee of the [illegible] Committee last week to find out whether the America First crowd was behind the campaign against extra [illegible]

Sponsored Mass Meeting

The first reference to Schrodes was found in last Tuesday's issue of the Tulsa *Tribune*. He was among those who signed the call for the Wage-Hour Law mass meeting in Tulsa.

The call said:

"Knowing that our country is in great danger both from within and without, the undersigned citizens of Tulsa issue this call for a mass meeting . . . to consider and adopt resolutions to be sent to Congressmen, Senators and to the President, demanding the stopping of strikes in industries, which should be working 24 hours per day in the making of guns, planes, tanks, ships, powder and other weapons for the defense of this Nation, and for the defeat of our powerful and advancing enemies: the suspension of the law that forces a 40-hour work week, and demanding the redress of other slave grievances . . .

The previous connection of Schrodes with America First appeared in Oklahoma newspaper stories at the time of the Lindbergh meeting.

One Tulsa newspaper man also figured in those stories.

Information contained herein has been obtained from a review of the files of the Portland Field Division which information is contained wholly in newspaper articles printed by the local press. No active investigation has as yet been conducted by this office concerning the past or present activities of the America First Committee.

On March 2, 1941 MAURICE O'CONNER, an investment banker from Chicago, Illinois, in a statement contained in the "Oregonian" of March 2, 1941 indicated that he was visiting Portland in the interests of the America First Committee for the purpose of holding conferences with a number of Portlanders who were actively interested in the work of the Committee. O'CONNER indicated that he was a volunteer worker. He further stated to the press that the America First Committee figured that it was on the right track when it talked pro-Americanism and he indicated that he felt very strongly on the subject and believed in going out and doing something about it. He further indicated that the committee was definitely not "anti" anything and was very definitely not pacifists. His further statement revealed that in his opinion eighty-five percent of the people in this country were with the America First Committee and the other fifteen percent seemed to want to take actions that would push

the country into war. O'CONNER furnished the local press with a statement signed by General ROBERT E. WOOD, the acting national chairman of the organization which set forth that the "America First Committee believes that the United States must build an impregnable defense for America; that no foreign power or group of powers can successfully attack a prepared America; that American democracy can be preserved only by keeping out of the European war."

"And that the cash and carry provision of the existing neutrality act are essential to American peace and security. Aid to a belligerent, beyond the limits of the Act, weakens our defense at home and may involve us in war abroad. Any change in the law to permit American vessels to enter the combat zone would inevitably plunge the country into Europe's war".

O'CONNER concluded by stating that the American people are keenly interested in international affairs and that he was limiting his contact to friends who were already in the organization. He advised that he was neither a promoter nor an organizer and emphatically denied that either he or his organization were in any way connected with the VERN MARSHALL group or any other group. According to O'CONNER the state of Oregon was being organized by people in Oregon and the Oregon headquarters were to be in Portland.

A notation published in the "Oregonian" in the April 12, 1941 edition stated "Keep Out of Foreign Wars" - "Join America First Committee, 728 Failing Bldg., BE 1763." It should be noted that [redacted] b7c in connection therewith the "Oregonian", April 16, 1941 issue, stated that DELMORE LESSARD, acting chairman for the Oregon Chapter of the America First Committee, on a previous Tuesday addressed a letter to HAROLD L. ICKES, Secretary of the Interior, protesting ICKES verbal attack on Colonel CHARLES A. LINDBERGH. LESSARD's letter also denounced ICKES for his criticism of leaders of the America First Committee and charged the Secretary with "evading facts in your anxiety to discredit patriotic citizens whose sincere convictions compell them to disagree with you". According to the April 17, 1941 issue of the "Oregon Journal" the Portland chapter of the America First Committee was scheduled to meet at 7:30 P.M. the following day in the central library. At that time WALTER T. GILLES, Oregon organizer, was to discuss "Convoys Mean Coffins". It also was indicated that LESSARD, acting Oregon chairman, had named OSCAR TUQUAY as Portland chairman. It should be noted that [redacted] b7c notation in the last-mentioned newspaper dated April 24, 1941 indicated that instant organization was to hold its meetings every Friday at 7:30 P.M. in the Portland Hotel and on the following day, G. C. GILLIS of Salem, Oregon, was to address the Committee gathering. It was further indicated that the public was invited to the meeting. It should be noted that a

There appeared in the "Oregonian" of May 3, 1941 an article indicating that the America First Committee at a meeting on May 2, 1941 formally adopted a resolution demanding the resignations of the Secretary of the Navy FRANK KNOX and Secretary of War, HENRY L. STIMSON. It was indicated that the resolution was based chiefly on the declaration that KNOX and STIMSON had shown by their actions and public speeches that they were committed to a policy of foreign wars for the United States which was against the will of eighty three per cent of the American people. That meeting was addressed by DELMORE LESSARD, indicated as president of the local organization, and ROY METCALF. It should be noted that

b7C [redacted]

An article appearing in the morning "Oregonian" dated May 3, 1941 indicated that DELLMORE LESSARD, Chairman of the Oregon Chapter of the American First Committee" was to address the student body at Reed College the following day on a topic entitled "What is the 5th Column", and on the evening of the same date LESSARD was to speak on the same subject at a rally of the America First Committee which was to be held at the Shattuck School auditorium. It was further indicated that the aforementioned rally was open to the public.

On May 9, 1941, according to an article in the "Oregon Journal", LESSARD and HUGH DeLACEY of the America Peace Mobilization, spoke on "The Case For Non-Intervention" under the auspices of the Reed Union Committee at Reed College. It was indicted that the America First Committee believed in the US Navy as the nation's first line of defense without the help of any other fleet and that the United States could defend American shores without outside help and that there was no danger from eighty million Germans when they couldn't conquer forty million Englishmen. It should be noted that

b7C [redacted]

At the time of the meeting at the Shattuck School as above pointed out, PETER ZIMMERMAN,, according to the May 10, 1941 issue of the "Oregonian" addressed the gathering. He allegedly stated that "war mongers headed by Secretary of War STIMSON are trying to force the American people into a war which will lead to their destruction". ZIMMERMAN further asserted that this organization was laying the truth before the people and showing them the untruth of the propaganda now inspired by the international bankers". It should be noted that

The June 5, 1941 issue of the "Oregonian" notes a meeting of instant organization which was to be held the following night at the W.O.W. hall at which time E. E. KLINE was to be one of the speakers and was to discuss "Unseen Dangers Ahead for America." It was further indicated that Chairman DELLMORE LESSARD was to report on a conference with the Washington Chapter of the Committee and plans drawn at that time for the appearance in Portland of CHARLES A. LINDBERGH.

The June 5, 1941 issue of the "Oregon Journal" indicates that CHARLES LINDBERGH was to speak at Jantzen Beach Park at a night meeting of said Committee, according to LESSARD, State Chairman who had just returned from a trip to the national headquarters in Chicago. It was further indicated that OTTO CASE of Washington state America First Committee had accompanied LESSARD to Chicago.

The June 7, 1941 issue of the "Oregonian" contained an article concerning a protest made by the executive board of the Portland Americanization Council to the Public School Board against the use of the public auditorium and public school buildings by instant organization. Protest was lodged on behalf of the Americanization Council by Circuit Judge JAMES W. CRAWFORD, President of the Council. In answer to the protest, LESSARD, himself a member of the Americanization Council, declared that the individuals who had inspired the resolution were really the Fifty Column in America, in view of the fact that they would deny the constitutional right to free speech to those in disagreement. LESSARD further stated that the public auditorium at that time had not been sought by the group for meetings and that LINDBERGH and Senator B. K. WHEELER, scheduled to speak in Portland, would appear at Jantzen Beach Park.

The June 19, 1941 issue of the "Oregonian," carried an announcement by LESSARD, Chairman of instant organization to the effect that DAVID WORTH CLARK, U.S. Senator from Idaho and a member of the non-interventionist block of the senate, was scheduled to address a large gathering of the America First Committee the following Tuesday. It was indicated that Senator CLARK was a graduate of the old Columbia University Academy in Portland and was scheduled to speak on "Why America Should Keep Out of War". The address was to be made at the Benson High School auditorium on the aforementioned date. The same issue of the aforementioned newspaper contained a contribution by LESSARD entitled "Emergency Without Law?". In said article, LESSARD

CONFIDENTIAL

In addressing the editor of the "Oregonian" indicated in substance that there was a mistaken ideal prevelant in the minds of many people as to just what constituted an "unlimited emergency" which had recently been declared by President ROOSEVELT. LESSARD pointed out that no one had attempted to define its meaning; that even the President did not make himself clear. He further stated that he had searched the provisions of the United States constitution which did not disclose any authority whatsoever for an "unlimited emergency". He also indicated that the laws of the United States were silent as to any granted presidential authority to declare an "unlimited emergency". As a result the American public was bewildered, according to LESSARD, and he stated that some people were under the belief that such an emergency meant the end of free speech and the confiscation of private property. In conclusion he said that in the absence of constitutional or statutory authority the president's declared "unlimited emergency" was merely an expression of the president's own private opinion and for that reason the America First Committee would continue its work of unmasking the war mongers and their malicious propaganda. LESSARD's article was answered in an editorial published in the same edition. Further comment will not be made herein in view of the fact that the editor's answer contained quotations from various statutes contained in U.S.C.A.

On June 14, 1941, according to an issue of the "Oregonian", on the previous date A. E. KUHNHAUSEN and Miss DAIZY REVINS were to address a meeting of instant organization. [redacted]

b7c

On June 27, 1941 OSCAR FUQUAY spoke at the meeting of the America First Committee at which time his subject was "Should America Fight for Russia to Save England". This was in accordance with an article which appeared in the "Oregonian" on the same date.

On July 4, 1941, according to an issue of the "Oregon Journal" on that date, LESSARD addressed instant organization at a public meeting in the W.O.W. hall and his subject at that time was "American Independence in 1776 and 1941".

There was some comment indicating that the America First Committee had been subsidized to some extent in this area by pro-German interests. In connection therewith attention is called to an article which appeared in the "Oregonian" under date of August 2, 1941 which indicated that WILLIAM D. BROWNE, Chairman of the Subversive Research Committee of the American Legion, Department of Oregon, and a Portland detective connected with the Portland Police Department, had information which proved conclusively that the America First Committee had been supported financially in part by one of the close Nazi front organizations. In that article LESSARD allegedly termed the accusations of the Legion committee as "preposterous" and averred that "no German organization had ever helped the America First Committee". LESSARD further commented

that the Oregon committee received only "slight help" at first from America First Committee headquarters in Chicago and since had been entirely on its own feet, receiving contributions only from individuals. LESSARD [redacted] at that time and in that article suggested that Detective BROWN and the American Legion of which he, LESSARD, was a member, make an investigation of the America First Committee without accepting hearsay testimony of war mongers who were calling the Committee names. This article further indicated that leaders for the America First Committee would be happy to appear before the Legion and answer any questions. He also stated that his committee did not accept members of the Bund or members of any other subversive organization as members and was in no way connected with any un-American organization.

It is noted that the August 19, 1941 edition of the "Oregonian" contained an announcement of an appearance by Senator RUSH D. HOLT who was appearing under the auspices of the Portland Chapter of the America First Committee. The announcement was as follows: "Who will be WORLD RULER when war is ended? Senator Holt will name the first KING of 'Union Now'. No admission charge." In substance, HOLT's remarks during the course of his speech were, according to the August 20, 1941 edition of the Oregonian, directed against America fighting to save England and it was his suggestion that no lives of American boys should be sacrificed to save the British empire. He indicated that war was the result of an economic dislocation in Europe and the destruction of HITLER was not going to end it. HOLT was indicated as being the "boy senator" and it was revealed that his talk was punctuated with the words hypocracy and subterfuge and also dishonesty and he criticized the sea meeting of President ROOSEVELT and WINSTON CHURCHILL. HOLT also struck at the proposal of a lend-lease arrangement with Russia and stated that the same was an insult to the intelligence of every thinking person in the United States. It was revealed that HOLTs references to President ROOSEVELT, CHURCHILL and STALIN brought loud boos from the crowd present.

Various publications of the "Oregon Journal" and "Oregonian" for September 17, 18 and 19, 1941 indicated negotiations by the America First Committee with the City Council of Portland for the use of the public auditorium in Portland for a speech by Senator BURTON K. WHEELER and it was indicated that instant organization paid the sum of $224.00 for the rental of the auditorium.

Senator WHEELER spoke on September 22, 1941 in the auditorium at which time, according to the "Oregonian" for September 23, 1941, he denounced the foreign policies of the ROOSEVELT administration. Approximately 4,300 persons were present. WHEELER publicly stated that he had been informed by high military authorities that an invasion of the United States would require the simultaneous landing of two million men at key American points. The only demonstration came at the mention of the names of CHARLES A. LINDBERGH and WNDELL WILKIE, both of whom were booed with impartiality. In an interview with WHEELER prior to his speech, he indicated to the "Oregonian" reported in accordance with the September 23, 1941 issue of said paper that a British victory in the present struggle was not essential to the United States and he avowed that the United States Navy has never depended upon the British Navy or anyone else and no country depending upon any other nation for protection is any longer an independent nation. WHEELER's address was prefaced by opening remarks of DELMORE LESSARD mentioned herein.

On October 10, 1941 according to an issue of the "Oregonian" of that same date, Dr. R. A. PHILLIPS was the speaker at a meeting of the America First Committee in the W.O.W. Hall. It was indicated that members of the committee between the ages of seventeen and twenty five planned to organize a youth committee against foreign war. It should be noted that Portland Field Division file [redacted]

An article appearing in the October 19, 1941 issue of the "Oregonian" mentioned that persons attending a recent meeting of instant organization in Portland endorsed a resolution urging congress to consider impeachment of the president and to vote for the retention of the Neutrality Act. Among other things the article pointed out that charges were that the president, secretary of war and secretary of the navy had without authority of the congress ordered American troops into Iceland to serve under the command of officers of the belligerent nations; further that government orders were for the U.S. Navy to shoot on sight ships of another belligerent nation which had not attack the United States and also to commit many other overt acts to plunge the United States into war under the false pretext of keeping America out of war. Congress was urged further to vote for retention of the present neutrality act which had been passed for just such a period as the country was now facing.

At a meeting on October 24, 1941, according to an article in the "Oregon Journal" of that date Captain MICHAEL KECK, a former member of the Russian Imperial Army, addressed an America First Committee rally in the west side W.O.W. Hall and his subject was "The Communist Revolution in Russia As I Saw It". It was indicated further that there would be a discussion at said meeting of the administration's action relative to repeal of the Neutrality Act. [redacted]

b7C

Attention is called to an article appearing the the "People's World" west coast Communist newspaper, in the October 15, 1941 issue in which it is pointed out that at a convention of the C.I.O. International Wood workers in Everett, Washington, said labor union, after a skirmish on the floor, voted unanimously to condemn the America First Committee. It was further indicated that the slap against the America First Committee came during the report of the committee on officers' reports. H. L. THOMPSON of Lebannon, Oregon, the committee member, recommended to the union gathering that a section of the officers' report condemning the America First Committee be stricken. When questioned on the refusal to condemn the America First Committee, THOMPSON explained that his committee felt that that section was condemning the America First Committee and was contradictory to the section on civil liberties because it came out on one side on the page and upheld the action of certain individuals while on the other page it condemned the actions of other individuals. The persons upheld, according to said article, in the report were HARRY BRIDGES, HAROLD KING, ERNEST RAMSAY, and FRANK CONNER; all members of the labor movement whose cases were cited as examples of abrogation of civil liberties. O. M. ORTON, President of the I.W.A., delivered a slashing attack on the America First Committee which finally led to a denouncing of the activities of instant organization by the I.W.A. Union.

An article appearing in the October 20, 1941 issue of the "Oregonian" reflected that DELLMORE LESSARD had announced his resignation as chairman of the America First Committee in Oregon in a letter sent to General R. E. WOOD, Chicago, Illinois, National Chairman of the America First Committee. LESSARD was reported to have resigned for the reason that he could no longer continue as America First Chairman and simultaneously conduct his law practice. It was indicated further that America First members had made efforts to induce Colonel CHARLES E. ROBERTSON, of West Salem, Oregon to accept the chairmanship. However, ROBERTSON at that time had not consented. LESSARD in a statement to the press in said article indicated that he was proud of the fact that the membership of the Oregon chapter at that time numbered in the thousands and that the regular Friday night meetings were well attended by an audience whose seriousness and patriotism could not be questioned. He further stated that although he would cease to act for instant organization in an official capacity, he wanted it known that he thoroughly believed in the principals and thoroughly appreciated the patriotic efforts of that organization in trying to save this country from participation in Europe's and Asia's wars. LESSARD felt that regardless of the results of the efforts of the Committee, when the terrible war was over, history would demonstrate the rightousness of the committee's stand. Subsequent to LESSARD's resignation the "Oregonian" for November 20, 1941 indicated that LESSARD was to be the speaker for the America First Committee meeting the following day and that he was formerly the state chairman.

It should be noted that a report from [redacted] dated August 22, 1941 indicated that literature of subject organization was circulated on August 19, 1941 in Seattle, Washington by that city's branch office which had been established at 300nInsurance Building, Seattle, Washington. (S)

and that the propaganda distributed listed the members of the National Committee and the aims and activities of subject organization with the announcement "The Path to War is a False Path to Freedom." It was indicated that a sample of the literature was on the file in the office of [redacted] (S)(C) U

b7D [redacted] Dr. CHARLES [redacted], Editor of the Christian Century, spoke at the Lyric Theater in Knoxville on May 26, 1941; that NORMAN MOORE, presided, and that the audience was urged to send postcards and telegrams to the President expressing the general theme "Stop where we are." The invocation at this meeting was given by Reverend C. L. SIMPSON and the benediction by Reverend STEWARD BUTTON, while G. C. McHARRIS instructed the audience in filling out America First membership cards. In the speech given by MORRISON, he stated that the American people owed allegiance to the President; that he swore and promised American mothers that their sons would not fight on foreign soil. MORRISON stated that this was the President who was elected to an unprecedented third term in the fall of 1940 and not the President who by propaganda and aid to Britain was leading this country to war. MORRISON stated that he was a non-interventionalist and not a pacifist. MORRISON further stated, "Economic life is now ascended over the political power of nations. The usurpage threatens every national state as a political entity. America should not tie herself up in preserving the British empire, for the world today is in the grip of a revolution that should not be identified with the present conflict. For America to hang her destiny upon the existence of another nation is to drive nails into rotting timber." MORRISON further stated that there were certain hangers-on, Nazis and Bolsheviks, that intrude in this non-interventionalist movement who also share the desire to keep America out of war, and whose presence at meetings cause critics to take their appearance as symbols of the movement itself. MORRISON stated that he hated Hitlerism and in his paper, The Christian Century, had attacked MUSSOLINI before HITLER and STALIN were ever known to the legislators.

An editorial appearing in the Knoxville Journal on May 26, 1941 advertised a speech to be given by MORRISON and urged the people of Knoxville not to identify the America First Committee with Communists and Nazis who might turn out to hear the speakers. This editorial pointed to the public denouncement by JOHN T. FLYNN of a group of Nazi sympathizers who were sitting near the platform at a speech

[redacted] given by CHARLES A. LINDBERGH in New York on the week of May 20, 1941, which indicated that the America First Committee did not desire any [redacted] from the Nazis.

b7D [redacted] In addition, the News-Sentinel stated that MORRISON's speech was sponsored by the Knoxville Peace Council and reported that MORRISON said that the people have lost control of their Government and that the President in a series of talk and propaganda was leading the people into war by heightening the present dilemma. MORRISON was quoted as follows: "If he knows he does not have the united support of the people, the die will not be cast for war. The power of public opinion is the only power greater than the President's." A branch of the America First Committee was planned to be formed in Knoxville following this meeting. However, it will be noted that on May 27, the day following the meeting, the President proclaimed a national emergency; that through this talk of the President, those persons who were isolationists and pacifists consequently did not take any action to form an America First Committee branch at this time.

b6C [redacted]

all advised that to the best of their knowledge, no branch of the America First Committee had ever been formed in the city of Knoxville.

b7C
b7D

A review of the file entitled Knoxville Peace Council, Knoxville file number 65-14, reveals that the Knoxville Peace Council

has continued to operate through occasional informal social meetings [redacted] but with the members of that Council [redacted] have previously been reported to have Communistic leanings rather than leanings toward Nazism, and that the discussions held at these meetings have a tendency to favor Communism rather than Nazism. Although at the present time there appears to be no definite policy followed by this Council, there has been no information received which would indicate that any of these individuals are cooperating with foreign interests in such a manner to interfere with national defense efforts.

Inasmuch as it appears that there never was any branch of the America First Committee in the territory of the Knoxville Field Division, this case is being referred upon completion.

The file entitled Knoxville Peace Council is being kept in a pending status, and any additional information which would indicate a tie-up between the Knoxville Peace Council and the national headquarters of the America First Committee will be reported. This case will also be re-opened in the event that the Bureau comes into possession of information of interest to the Knoxville Field Division.

RE: AMERICA FIRST COMMITTEE
INTERNAL SECURITY (G)

DECLASSIFIED BY [redacted] LED/cc
ON 8-10-90

Dear Sir:

Reference is made to Bureau letter, dated March 16, 1942, directed to all Special Agents in Charge, and captioned as above, and the summary memorandum prepared by the Bureau dated February 13, 1942, transmitting therewith, information pertaining to the America First Committee.

Reference is also made to Bureau letter dated March 18, 1942, directed to the New York Field Division, under the same caption, which enclosed copies of communications received by the Bureau from the Military Intelligence Division, Washington, D. C.

During the course of the investigation presently being conducted, in New York City, relative to the information furnished in the above-mentioned communications and their enclosures, it has been noted that the information pertaining to recent activities of the America First Committee personnel in the New York Area, which was furnished to the Bureau by the Military Intelligence Division, was apparently secured by the M.I.D. from Mr. GEORGE J. MINTZER of the American Jewish Committee, 39 Broadway, New York City. This belief is based upon the fact that the copies of the M.I.D. report furnished by the Bureau to this office, are exact copies of the original reports in the possession of Mr. GEORGE J. MINTZER, which were mailed to him by one of his regularly paid informants, and Mr. MINTZER has advised that he had already made such information available to G-2, New York City.
